Council Member

Dave Wheeler
Council Member

In Person Public Comments: Any person wishing to address the City Council/Planning Agency on any matter, whether or not it appears on this Agenda, is asked to complete a pink "Request to Speak" form available on the table at the back of the Chamber and submit the form to the City Clerk. The Request to Speak form assists the Mayor in ensuring that all persons wishing to address the City Council are recognized and ensures accurate identification of meeting participants in the City Council/Planning Agency Minutes. Completion of the form is voluntary. It is City policy to limit public testimony to up to three minutes per person, as determined by the Mayor, for Public Comments. If you are commenting on an Agenda item, your comments will be heard at the time that item is scheduled on the Agenda. If you are addressing the City Council on an item not listed on the Agenda, the City Council is prohibited by law from discussing or taking any action on that item.

Submission of Electronic Public Comments: Those wishing to make electronic public comments may submit their comments by email to the City Clerk no later than 2 hours prior to the meeting on Tuesday, April 28, 2026. In the subject line of the email, please state your name and the item number you are commenting on. Any public comment received that does not specify a particular agenda item number will be announced during the general public comment portion of the agenda. All comments received by the deadline on the date of the meeting will be provided to the City Council and will be provided for public inspection at the meeting. During the applicable agenda item, the City Clerk will announce the name of the sender and subject matter of all electronic comments received by the deadline on Tuesday, April 28, 2026. Email comments will NOT be read by the City Clerk during the meeting. Electronic public comments may only be submitted via email and comments via text and social media (Facebook, X (formerly Twitter), etc.) will not be accepted.

For questions or assistance, please contact the City Clerk's Office at (949) 707-2635 or via email.

General Business Convening at 6:00 PM

Call to Order
Resolution No. 96-04-09-1 established rules of decorum for public meetings held by the City of Laguna Hills. Resolution No. 96-04-09-1 is available on the table at the back of the City Council Chamber.

Invocation: Council Member Pezold

Pledge of Allegiance: Council Member Wheeler

Roll Call of City Council Members

1. Presentations and Proclamations

1.1 Laguna Hills High School Student Liaison Report

Recommendation: That the City Council receive a report from Laguna Hills High School Student Liaison Katherine Armstrong.

1.2 Certificate of Recognition for Laguna Hills High School Student Liaison Katherine Armstrong

Recommendation: That the City Council present a Certificate of Recognition to Katherine Armstrong recognizing her service as a Laguna Hills Student Liaison.

2.1 Schedule of Future Events

Recommendation: That Community Services staff announce the upcoming meetings and events.

3. Public Comments

This is the time to address the City Council on any matter not listed on this Agenda that is within the subject matter jurisdiction of the City Council. Public Comments are limited to three minutes per person, as determined by the Mayor.

4. Consent Calendar

All matters listed under "CONSENT CALENDAR" are considered to be routine and will be enacted by one motion approving the recommendation listed on the Agenda. There will be no separate discussion unless Members of the City Council or City staff request specific items be removed from the Consent Calendar.

4.1 Waive Reading in Full of all Ordinances and Resolutions on the Agenda

Recommendation: That the City Council waive reading in full of all ordinances and resolutions on the agenda and declare that said titles which appear on the public agenda shall be determined to have been read by title and further reading waived.

4.2 Approval of Minutes for April 14, 2026, Regular Meeting

Recommendation: That the City Council approve the City Council/Planning Agency Minutes for the April 14, 2026, Regular Meeting.

4.3 Ratification of April 28, 2026 Warrant Register

Recommendation: That the City Council ratify the accompanying Warrant Register for the period from April 4, 2026, to April 16, 2026, in the amount of $1,363,462.68.

4.4 Treasurer's Investment Report for March 2026

Recommendation: That the City Council receive and file the Treasurer's Investment Report for the month of March 2026.

4.5 County of Orange Law Enforcement Services Agreement

Recommendation: That the City Council approve the agreement with the County of Orange for the provision of law enforcement services for Fiscal Year 2026/2027 and authorize the Mayor to execute the contract on behalf of the City.

4.6 Informal Bidding Ordinance Use Quarterly Report for Public Works Projects

Recommendation: That the City Council receive and file the report.

4.7 Adoption of an Ordinance Authorizing the City Engineer to Mark Parallel Parking Spaces on City Streets, including Via Lomas.

Recommendation: That the City Council adopt Ordinance 2026-1 entitled: "An Ordinance of the City Council of the City of Laguna Hills, California, Adding Section 11-12.110 to Chapter 11-12 (Stopping, Standing, and Parking) of Title 11 (Vehicles and Traffic) of the Laguna Hills Municipal Code Concerning Parallel Parking Lines."

4.8 Development Application Status Report

Recommendation: That the City Council receive and file the report.

4.9 Alicia Parkway Regional Traffic Signal Synchronization Project (RTSSP) Cooperative Agreement

Recommendation: That the City Council authorize the Mayor to sign the "Cooperative Agreement by and between the City of Laguna Niguel, and the Cities of Aliso Viejo, Laguna Hills, and Mission Viejo for the Alicia Parkway Regional Traffic Signal Synchronization Program Project.".

Items Removed from the Consent Calendar

5. Planning Agency

6. City Council Public Hearings

6.1.1 Adoption of Comprehensive Fee Schedule for Fiscal Year 2026/2027

Recommendation: That the City Council: 1. Conduct a public hearing; and 2. Adopt a Resolution entitled: "A Resolution of the City Council of the City of Laguna Hills, California, Establishing and Adopting Updated Development Processing Fees and Other City Rates, Charges, and User Fees for Various Governmental Services and Finding that the Action is Statutorily Exempt from the California Environmental Quality Act (CEQA) Per Section 15273 of the CEQA Guidelines and Public Resources Code Section 21080(b)(8)."

7. Administrative Reports

7.1 City Manager

7.2 Assistant City Manager

7.2.1 Authority to Advertise for Construction, Park Improvements for Cabot Park, El Conejo Park, MacKenzie Park, San Remo Park, and Veeh Ranch Park, CIP 241

Recommendation: That the City Council: 1. Approve the plans and specifications for Park Improvements for Cabot Park, El Conejo Park, MacKenzie Park, San Remo Park, and Veeh Ranch Park, CIP 241; 2. Authorize the advertisement for bids for Park Improvements for Cabot Park, El Conejo Park, MacKenzie Park, San Remo Park, and Veeh Ranch Park, CIP 241; 3. Authorize the City Engineer to make minor edits to the plans and specifications as necessary prior to bidding; and 4. Find that environmental review is not required under the California Environmental Quality Act (CEQA)

pursuant to the California Code of Regulations, Title 14, Chapter 3, Section 15301 as a Class 1 Categorical Exemption - “Existing Facilities.”

7.2.2 Authority to Advertise for Construction, Acceleration/Refuge Lane Median Island Modification on Moulton Parkway at Mandeville Drive, CIP 303

Recommendation: That the City Council 1. Approve the plans and specifications for Acceleration Lane Median Island Modification on Moulton Parkway at Mandeville Drive, CIP 303; 2. Authorize the advertisement for bids for Acceleration Lane Median Island Modification on Moulton Parkway at Mandeville Drive, CIP 303; 3. Authorize the City Engineer to make minor edits to the plans and specifications as necessary prior to bidding; and 4. Find that environmental review is not required under the California Environmental Quality Act (CEQA) pursuant to the California Code of Regulations, Title 14, Chapter 3, Section 15301 as a Class 1 Categorical Exemption - “Existing Facilities."

7.2.3 Review of Agreements for On-Call Environmental Review Consulting Services and On-Call Planning and Environmental Consulting Services

Recommendation: That the City Council receive the report.

7.3 Chief of Police Services

7.3.1 Public Safety Update

Recommendation: That the City Council receive an update on public safety activities.

8. Matters Agendized and Presented by City Council Members

9. City Council Member Committee Reports

9.1 Committee Assignment Reports

Recommendation: That the City Council receive reports from the City Council Members on the City Council Committee Assignments listed on the staff report.

10. City Council Member Comments

Adjournment

The next Regular Meeting of the City Council/Planning Agency will be May 12, 2026, at 6:00 p.m., in the City Council Chamber, located at 24035 El Toro Road, Laguna Hills, California.

CERTIFICATION

I, KAREN HAMMAN, Interim City Clerk of the City of Laguna Hills, do hereby certify that a copy of the foregoing Agenda was posted at Laguna Hills City Hall, Laguna Hills Community Center, and Knotty Pine Park by April 24, 2026, at 5:00 p.m.

Karen Hamman

Karen Hamman, Interim City Clerk

It is the intention of the City of Laguna Hills to comply with the Americans with Disabilities Act in all respects. If as an attendee or a participant at this meeting you will need special assistance beyond what is normally provided, the City of Laguna Hills will attempt to accommodate you in every reasonable manner. Please contact the office of the City Clerk at (949) 707-2635. Notification 48 hours prior to the meeting will enable the City to make reasonable arrangements to assure accessibility to this meeting.

Materials related to an item on this Agenda submitted to the City Council after distribution of the agenda packet are available for public inspection in the City Clerk's Office at 24035 El Toro Road, Laguna Hills, California, during normal business hours. In addition, such writings or documents will be made available for public review on the Agenda and Minutes public portal website and at the respective public meeting.

City Council Members receive no additional compensation or stipend as a result of simultaneously convening meetings of the Laguna Hills Planning Agency.

The City Council ratified the accompanying Warrant Register for the period from March 14, 2026, to April 3, 2026, in the amount of $545,140.90.

4.7 Initiation of 2026 Weed Abatement Program

The City Council adopted **Resolution 2026-04-14-02** entitled: “A Resolution of the City Council of the City of Laguna Hills, California, Declaring Weeds and Rubbish on Specified Private Property to be a Public Nuisance, Commencing Public Proceedings, and setting a Public Hearing for May 12, 2026.”

4.9 Recognize April 2026 to be DMV/Donate Life Month

The City Council authorized the Mayor to sign the attached DMV/Donate Life Proclamation as requested by OneLegacy.

ITEMS REMOVED FROM THE CONSENT CALENDAR

4.6 Proposed Adoption of a Resolution Establishing No Overnight Parking Adjacent to Beckenham Park

The following individual provided public comments on Item No. 4.6: Danny MacNair.

Council Member Sweeney recused himself due to the proximity of his home to the subject park.

Interim City Attorney Burns and Assistant City Manager Ames responded to Council Member requests for additional information. Mr. Ames stated that the estimated cost to implement no overnight parking signage, should the resolution be adopted, is less than $2,000 and can be absorbed by the Public Works department.

Motion made by Council Member Pezold, seconded by Council Member Wheeler, to adopt **Resolution 2026-04-14-01** entitled: "A Resolution of the City Council of the City of Laguna Hills, California, Establishing a No Overnight Parking Zone from 10:00 P.M. to 6:00 A.M. on Streets Surrounding Beckenham Park."

On roll call, said motion carried by the following vote:

AYES:	Mathis, Pezold, Wheeler
NOES:	None
ABSENT:	Caskey
RECUSED:	Sweeney

Council Member Sweeney rejoined the meeting.

4.8 Summary of Status of Items Referred to the Traffic Commission by the City Council

Assistant City Manager Ames presented the report and responded to Council Member questions.

Scott Miller, Chair of the Traffic Commission, responded to Council Member requests for additional information. He noted that he has called a special meeting of the Traffic Commission for April 30, 2026, to look at a strategic framework for the Commission.

Motion made by Council Member Wheeler, seconded by Council Member Pezold, to receive the report.

On roll call, said motion carried by the following vote:

AYES: Mathis, Pezold, Sweeney, Wheeler
NOES: None
ABSENT: Caskey

4.10 Street Pole Banner Design

Community Services Director Holland Gannon presented the report and responded to Council Member questions.

Motion made by Council Member Wheeler, seconded by Council Member Pezold, to continue the item and send the matter to the Events, Beautification, and Communication Committee for review and recommendations.

On roll call, said motion carried by the following vote:

AYES: Mathis, Pezold, Sweeney, Wheeler
NOES: None
ABSENT: Caskey

5. CITY COUNCIL PUBLIC HEARINGS

6. NUMBER NOT USED

7. ADMINISTRATIVE REPORTS

7.1 City Manager

7.1.1 Appointment of Interim City Attorney

City Manager Wingenroth introduced Colin Burns and presented the staff report.

Interim City Attorney Colin Burns recused himself from the discussion due to the proposed contract with his law firm.

Motion made by Council Member Pezold, seconded by Council Member Wheeler, to 1. Authorize the Mayor to enter into an Agreement for Consultant Services with Harper & Burns, LLP, for Interim City Attorney services; and 2. Appoint Colin Burns as Interim City Attorney.

On roll call, said motion carried by the following vote:

AYES: Mathis, Pezold, Sweeney, Wheeler
NOES: None
ABSENT: Caskey

7.1.2 City Council Policy Establishing a City Council Meeting Curfew

City Manager Wingenroth presented the report, followed by Council discussion. Council Members Pezold and Wheeler expressed that the proposed policy was unnecessary.

Motion made by Council Member Sweeney, seconded by Mayor Pro Tem Mathis, to postpone the item to the next meeting so the full Council has the opportunity to weigh-in.

On roll call, said motion failed by the following vote:

AYES: Mathis, Sweeney
NOES: Pezold, Wheeler
ABSENT: Caskey

7.2 Assistant City Manager

7.2.1 Proposed Adoption of an Ordinance Authorizing the City Engineer to Mark Parallel Parking Spaces on City Streets, including Via Lomas

Assistant City Manager Ames presented the staff report and answered questions of the City Council.

Motion made by Council Member Sweeney, seconded by Council Member Mathis, to 1. Receive staff presentation and report; and 2. Introduce for first reading, read by title only, and waive further reading of **Ordinance 2026-1** entitled: "An Ordinance of the City Council of the City of Laguna Hills, California, Adding Section 11-12.110 to Chapter 11-12 (Stopping, Standing, and Parking) of Title 11 (Vehicles and Traffic) of the Laguna Hills Municipal Code Concerning Parallel Parking Lines."

On roll call, said motion carried by the following vote:

AYES:	Mathis, Sweeney, Wheeler
NOES:	None
ABSTAIN:	Pezold
ABSENT:	Caskey

7.2.2 Discussion of Non-Profit Partners to Receive Street Name Signs for Auctioning

Assistant City Manager Ames presented the staff report and answered questions of the City Council.

Motion made by Council Member Sweeney, seconded by Council Member Wheeler, to direct staff to develop a disposal policy for retired street name signs to be provided to nonprofit partners for auctioning or fundraising purposes.

On roll call, said motion carried by the following vote:

AYES:	Mathis, Pezold, Sweeney, Wheeler
NOES:	None
ABSENT:	Caskey

In further discussion, the City Council asked Mr. Ames to store the retired signs at the City yard while the disposal policy is being developed.

8. MATTERS AGENDIZED AND PRESENTED BY CITY COUNCIL MEMBERS

9. CITY COUNCIL MEMBER COMMITTEE REPORTS

9.1 Village at Laguna Hills Ad-Hoc Committee Update Report

Mayor Pro Tem Mathis provided an update regarding the Village at Laguna Hills project and shared a graphic that depicts the proposed development.

Director of Community Development Jennifer Lowe answered Council Member questions.

The following individuals submitted electronic public comments on item 9.1 prior to the meeting. Those comments were provided to the City Council, posted in the Chamber and on the City's website, and their names announced into the record by Interim City Clerk Hamman: Judy Northrop, Suzanne Model, Marcella Lawson, Rona Henry, Cynthi M.

with The Kennedy Commission, and Cesar Covarrubias, Executive Director of The Kennedy Commission.

The following individuals provided public comments in support of affordable housing: Rona Henry, Cynthia M., Cathy Udovch, and Heidi Prescott

Motion made by Council Member Sweeney, seconded by Mayor Pro Tem Mathis, to receive and file the oral report.

On roll call, said motion failed by the following vote:

AYES:	Mathis, Sweeney
NOES:	Pezold, Wheeler
ABSENT:	Caskey

City Council Members provided updates on the following regional Boards:

OC Older Adults Advisory Commission (OAAC)

Council Member Wheeler reported on the recent meeting of OAAC. He stated that the organization is working towards reaching and engaging the 1,084,000 older adults in the County and will be sharing affordable housing options.

Transportation Corridor Agencies (TCA)

Council Member Pezold reported on the April 9 TCA meeting, noting a briefing on the State Legislative Watch List, approval of a 241-91 express connector project amendment, and receipt of a budget overview presentation with a focus on early repayment of toll road bonds.

Orange County Fire Authority (OCFA)

Council Member Sweeney shared a video from the recent Fire Ops 26 training in which he participated. He stated that it was an outstanding hands-on experience for all elected officials and media representatives as it allowed participants to train alongside firefighters in real-world scenarios. He expressed his thanks to all firefighters, chiefs, support personnel, and their families.

10. CITY COUNCIL MEMBER COMMENTS

Council Member Sweeney moved to recognize Lorraine F. Chapman at the next City Council meeting for 41 years of service to Saddleback Hospital. The motion was seconded by Council Member Mathis.

Council Member Wheeler moved to cut off funds to the two engineering firms working on The Village project. The motion was second by Council Member Pezold.

Council Member Wheeler moved to add an item to a future agenda to discuss human trafficking and its relation to massage parlors in Laguna Hills. The motion was seconded by Council Member Mathis. He also discussed the new fences inside the Ralph's grocery store that were installed to deter theft.

Council Member Pezold asked the City Manager to communicate with Ralph's and other grocery stores regarding resources that are available to help avoid theft.

Adjournment

At the hour of 8:40 p.m., with no further business to come before the City Council/Planning Agency at this session, Mayor Pro Tem Mathis adjourned the meeting to Tuesday, April 28, 2026, at 6:00 p.m.

City of Laguna Hills
City Council / Planning Agency
Staff Report

Date: April 28, 2026
To: Mayor and Council Members
From: Eric Hendrickson, Finance Director
Issue: Treasurer's Investment Report for March 2026

Recommendation: That the City Council receive and file the Treasurer's Investment Report for the month of March 2026.

Background:

The Treasurer's Investment Report for the month of March 2026 is submitted herewith. The City's total portfolio as of March 31, 2026, was $27,709,903. The pooled cash portfolio managed by the City Treasurer consisted of cash on hand, demand deposits, State Local Agency Investment Fund (LAIF) and Investment Trust of California (CalTRUST) investments and totaled $27,615,690. Restricted cash and investments totaled $94,213, and is composed of fiscal agent funds for Civic Center property management purposes.

Interest income for the month of March was $86,726. Fiscal Year 2025/2026 year-to-date pooled cash interest earnings of $825,289 are 99% of the annual budget of $828,600.

The average yield on the City's total portfolio for the month of March was 3.75%, compared to the prior month of 3.81%. The slightly declining yield in March, as compared to the past few months, reflects a cautious approach by the Federal Reserve to continue rate cuts given the current status of the economy. The City has budgeted conservatively in its expectation of interest earnings, and has built slight rate reductions into the revenue forecast.

Fiscal Impact:

There is no fiscal impact to receive and file this report.

All data provided by Invesco unless otherwise stated.
1 iMoneyNet, Inc. is an independent mutual fund performance monitor. The U.S. Treasury & Repo Institutional Category is an unmanaged group of money market funds with similar investment objectives and pricing structures as the Corporate Class of the Invesco Treasury Portfolio. iMoneyNet performance figures represent the category average. An investment cannot be made into the category.

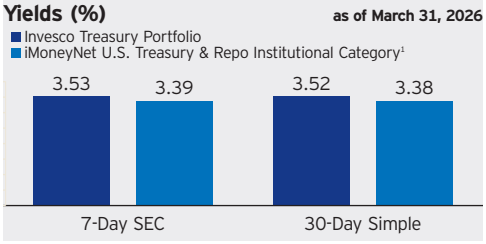
2 A credit rating is an assessment provided by Nationally Recognized Statistical Ratings Organization (NRSRO) of the creditworthiness of an issuer with respect to debt obligations, including specific securities, money market instruments or other debts. Fund ratings are subject to change and are based on several factors, including an analysis of a portfolio's overall credit quality, market price exposure and management. Fund ratings are provided to indicate the creditworthiness of the underlying holdings in the portfolio and offer a forward-looking opinion about fixed income funds' capacity to maintain stable principal (net asset value). The ratings will generally range from AAA (highest) to D (lowest). For more information on rating methodologies, please visit the following NRSRO websites: www.standardandpoors.com and select "Understanding Ratings" under Rating Resources on the homepage; www.moodys.com and select "Rating Methodologies" under Research and Ratings on the homepage; www.fitchratings.com and select "Ratings Definitions" on the homepage.@FSIA_CashDisclosureLeft:
3 Portfolio composition is subject to change. An investment category listed with "other" in the name indicates that the underlying holdings did not fall into the SEC's more narrowly defined investment categories.

You could lose money by investing in the Fund. Although the Fund seeks to preserve your investment at $1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund may impose a fee upon the sale of your shares. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

Investment Objective

Provide current income consistent with preservation of capital and liquidity.

Permissible Investments



The fund pursues its objective by investing primarily in short-term, high-credit-quality money market instruments. These instruments are direct obligations of the US Treasury and repurchase agreements backed by Treasury obligations.

Fund Highlights

- The portfolio management team follows a conservative investment process with respect to minimal credit risk, interest rate risk and liquidity.
- The fund is designed for short- to medium-term cash investments, operating cash, cash sweeps and the liquidity components of investment portfolios.
- The fund aims to preserve capital, maintain liquidity and produce a competitive yield.

5 Years	3.34
3 Years	4.70
1 Year	3.99

The performance data quoted represents past performance. Past performance does not guarantee future results and current performance may be lower or higher than the performance data quoted above. The investment return and principal value of your investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. You may obtain performance data current to the most recent month-end by visiting invesco.com. The SEC yield listed reflects fee waivers and/or expense reimbursements in effect for the period. Had the Adviser not waived fees and/or reimbursed expenses, your 7-day SEC yield would have been 3.50%. Average annual total returns reflect reinvested distributions, net of expenses for the periods. The 7-day SEC yield more closely reflects the current earnings of the fund than the total returns shown.

Portfolio Composition (%) [3]

SEC Investment Category	(%)
U.S. Treasury Repurchase Agreement	53.8
U.S. Treasury Debt	46.2

Maturity Schedule (%)

Days to maturity	(%)
1-7	53.0
8-30	6.9
31-60	3.8
61-90	2.9
91-180	11.8
181+	21.7

Maturity schedule is based on weighted average maturity and is subject to change.

Simple Monthly Yields

as of March 31, 2026

Period	(%)
March 2026	3.52
February	3.54
January	3.56
December	3.66
November	3.81
October	3.94
September	4.04
August	4.15
July	4.19
June	4.17
May	4.19
April 2025	5.14

30-day simple and simple monthly yield are the sum of the distribution rates for the number of days in the yield period annualized by 365 and divided by net asset value (NAV).

This does not constitute a recommendation of any investment strategy or product for a particular investor. Investors should consult a financial professional before making any investment decisions.

City of Laguna Hills
City Council / Planning Agency
Staff Report

Date: April 28, 2026
To: Mayor and Council Members
From: Eric Hendrickson, Finance Director
Issue: County of Orange Law Enforcement Services Agreement

Recommendation: That the City Council approve the agreement with the County of Orange for the provision of law enforcement services for Fiscal Year 2026/2027 and authorize the Mayor to execute the contract on behalf of the City.

Background:

The City of Laguna Hills contracts annually with the Orange County Sheriff's Department (OCSD) for municipal law enforcement services. These services are provided under agreement with the County of Orange, which outlines the specific staffing, scope, and cost structure for the fiscal year. The attached agreement includes all relevant provisions and exhibits referenced below.

For FY 2026/2027, the proposed contract includes the following:

- Contract Term: July 1, 2026 through June 30, 2027
- Scope of Services: Law enforcement services include patrol, traffic enforcement, investigations, a school resource officer, parking control, and emergency management coordination. Details are provided in Attachment A of the contract (Scope of Work).
- Staffing Level: The contract provides for 28.33 full-time equivalent (FTE) direct positions, including:
    - 1 Captain
    - 2.33 Sergeants (Admin and Patrol)
    - 16 Patrol Deputies
    - 2 Motorcycle Deputies

    - 2 Investigators
    - 1 School Resource Officer
    - 3 Community Services Officers
    - 1 Sr. Emergency Management Program Coordinator
- Additional support is provided through regional/shared staffing teams as outlined in Attachment C of the contract (Level of Service).
- Technology and Equipment: The contract includes the provision and maintenance of Body Worn Cameras (BWC), In-Car Video (ICV) systems, Mobile Data Computers (MDCs), and E-Citation units. These are discussed in Attachment A of the contract.
- Traffic Violator Apprehension Program (TVAP): The City's continued participation in OCSD's TVAP is authorized through Attachment E of the contract, aligning with City Council Resolution No. 2024-09-10-3.
- Office Space: As in prior years, the City provides dedicated office space, utilities, and custodial services at no cost to the County, as described in Attachment A of the contract.

Fiscal Impact:

The total cost of law enforcement services for Fiscal Year 2026/2027 is $12,112,857, representing a 0.23% decrease from the Fiscal Year 2025/2026 total of $12,140,982. The decrease is attributed primarily to a reduction in retirement costs (employer pension contribution rates) for the Sheriff's bargaining units.

Per Attachment B of the contract (Payment Provisions), the City will be invoiced monthly at one-twelfth (1/12) of the annual obligation. Adjustments will be made at year-end for actual overtime and any labor-related increases resulting from collective bargaining agreements.

The annual contract cost of $12,112,857 is within the approved biennial Fiscal Years 2025-2027 budget.

CONTRACT
With
City of Laguna Hills
For
Law Enforcement Services

This Contract for Law Enforcement Services, (hereinafter referred to as "Contract") is made and entered into as of the date fully executed by and between the County of Orange, a political subdivision of the State of California (hereinafter referred to as "County,") on behalf of Orange County Sheriff's Department, ("Sheriff"), and the City of Laguna Hills, (hereinafter referred to as "City,") with County and City sometimes individually referred to as "Party", or collectively referred to as "Parties"

ATTACHMENTS

This Contract is comprised of this document and the following Attachments, which are attached hereto and incorporated by reference into this Contract:

Attachment A – Scope of Work
Attachment B – Payment Provisions
Attachment C – Level of Service
Attachment D – City Ordinances
Attachment E – TVAP Resolution
Attachment F – TVAP Form
Attachment G – Forfeited and Seized Asset Policy

RECITALS

WHEREAS, City wishes to contract with County for law enforcement services; and

WHEREAS, County is agreeable to the rendering of such services, as authorized in Government Code sections 51301, 54981, and 55632, on the terms and conditions hereinafter set forth,

NOW, THEREFORE, the Parties mutually agree as follows:

ARTICLES

General Terms and Conditions:

A. **Term of Contract:** This Contract shall commence July 1, 2026 and terminate June 30, 2027 unless earlier terminated by either Party or extended in the manner set forth herein.

B. **Termination:** County and City may terminate this Contract, without cause, upon one-hundred and eighty (180) days written notice to the other Party.

If the County and City have not entered into a written Contract for further law enforcement services thirty (30) days before this Contract terminates, then the County and City may execute an amendment that provides as follows and does not materially alter other terms of the Contract: County shall continue to provide to City all, or a designated part, of the law enforcement services specified herein, for sixty (60) days following the termination date of this Contract, and City shall pay County the full costs of providing such services. Such full costs may be greater than those listed herein.

C. **Entire Contract:** This Contract contains the entire Contract between the parties with respect to the matters herein, and there are no restrictions, promises, warranties or undertakings other than those set forth herein or referred to herein.

D. **Amendments:** Unless expressly provided for in this Contract, no alteration or variation of the terms of this Contract shall be valid unless made in writing and signed by the parties; no oral understanding or Contract not

incorporated herein shall be binding on either of the parties; and no exceptions, alternatives, substitutes or revisions are valid or binding on either Party unless authorized in writing.

E. **Severability:** If any term, covenant, condition or provision of this Contract is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of the provisions hereof shall remain in full force and effect and shall in no way be affected, impaired or invalidated thereby.

F. **Headings:** Headings used throughout this Contract are for convenience only and shall not affect the meaning or interpretation of any provisions of this Contract.

G. **Independent Contractor:** County is and at all times shall be deemed to be, an independent contractor. Nothing herein contained shall be construed as creating the relationship of employer and employee, or principal and agent, between City and County or any of County's agents or employees. County and its Sheriff shall retain all authority for rendition of services, standards of performance, control of personnel, and other matters incident to the performance of services by County pursuant to this Contract. County, its agents and employees, shall not be entitled to any rights or privileges of City employees and shall not be considered in any manner to be City employees.

H. **Indemnification:** City agrees to indemnify, defend with counsel approved in writing by County, and hold County, its elected and appointed officials, officers, employees, agents and agencies with County's Board of Supervisors acts as the governing Board ("County Indemnitees") harmless from any claims, demands or liability of any kind or nature, including but not limited to injury to or death of persons, or property damage, arising from or related to allegations based on acts or omissions of City related to this Contract.

County agrees to indemnify, defend with counsel approved in writing by City, and hold City and its elected and appointed officials, officers, agents, employees, subcontractors and independent contractors harmless from any claims, demands or liability of any kind or nature, including but not limited to injury to or death of persons, or property damage, arising from or related to allegations based on acts or omissions of County related to this Contract. County Indemnitees shall not be deemed to have assumed any liability for any dangerous or defective condition on any public street, work, or property of the City and for any illegality of City's municipal ordinances.

If judgement is entered against City and County by a court of competent jurisdiction because of the concurrent active negligence of County or County Indemnitees, City and County agree that liability will be apportioned as determined by the court. Neither party shall request a jury apportionment.

I. **State Audit:** Pursuant to Government Code Section 8546.7, City and County shall be subject to examination and audit by the State Auditor for a period of three years after final payment by City to County under this Contract. City and County shall retain all records relating to the performance of this Contract for said three-year period, except that those records pertaining to any audit then in progress, or to any claims or litigation, shall be retained beyond said three-year period until final resolution of said audit, claim or litigation.

J. **Notices:** Termination notices shall be effective when written and deposited in the United States mail, certified, return receipt requested and addressed as below. All other notices authorized or required by this Contract shall be effective when written and deposited in the United States mail, first class postage prepaid and addressed as follows:

ATTACHMENT A

SCOPE OF WORK

A. Regular Services By County:

1. Sheriff shall render to City law enforcement services as hereinafter provided. Such services shall include the enforcement of lawful State statutes and lawful municipal ordinances of City, other than licensing ordinances.

2. The night, day and evening patrol and supervisory shifts will be established by Sheriff. Personnel of each shift may work varying and different times and may be deployed to other shifts when, in the opinion of Sheriff and City Manager, the need arises. Any long-term shift deployment change will be reported to the City Council.

3. The level of service, other than for licensing, to be provided by the County for this Contract is set forth in Attachment C.

4. The Sheriff will provide a slate of candidates who are eligible for the rank of Captain with the Sheriff from which the City Manager may select a Police Services Chief. The Police Services Chief will be the on-side department head for the city and will attend City Council, staff and community meetings at the discretion of the City Manager.

5. Patrol Performance Goals shall be as follows:

- Response to Priority One Calls: 5 minutes
- Response to Priority Two Calls: 12 minutes
- Response to Priority Three Calls: 20 minutes

The Police Services Chief will report to the City Manager regarding City Police Services personnel's performance in meeting these goals. In the event of a major incident outside the boundaries of City, adequate law enforcement personnel will remain in City to respond to Priority One and Priority Two calls for service.

6. For any service that is provided to City at less than 100% of a full-time Sheriff position, County retains the option to terminate such service in the event the other City or cities that contract(s) for the balance of the time of the employee providing the service no longer pay(s) for such service and City does not request the Contract be amended to pay 100% of the cost of the employee providing such service. The Maximum Obligation of City will be adjusted accordingly.

7. All services contracted for in this Contract may not be operational on the precise date specified in this Contract. In those instances, Sheriff shall notify City Manager of the date or dates such service or services are to be implemented. If the City pays for a service before its implementation, the County shall provide a credit, based on the vacancy credit rates calculated for that fiscal year, in the City's final invoice of that fiscal year.

8. During emergencies, such as mutual aid situations, Sheriff will attempt to leave in City the Captain in charge of City Police Services. If Sheriff determines that the Captain is needed elsewhere, Sheriff will notify City's Manager within four hours. Sheriff will return the Captain to City as soon as possible once the emergency situation is under control.

9, Sheriff shall receive applications for City licenses pursuant to the City's ordinances in Attachment D and complete investigations relating to such applications. Said investigations shall be forwarded to City Manager who is responsible for the disposition of the application and notification to the applicant. County shall not provide any advisory, administrative, hearing or litigation attorney support or services related to licensing. County shall not provide any administrative or investigatory services related to the licensing ordinances, except the investigations relating to initial applications for which this subsection provides.

10. With the limitations set forth below, Sheriff, on behalf of County, is authorized to execute written amendments to this Contract to increase or decrease the level of service, when Sheriff and City mutually agree that such increase or decrease in the level of service is appropriate. Any such amendment to the Contract shall concomitantly increase or decrease the cost of services payable by City. Sheriff and appropriate City personnel shall file copies of any such amendments to this Contract with the Clerk of County's Board of Supervisors and City's Clerk. Except for costs related to Employee Bargaining has defined herein, changes to this Contract executed by

Sheriff and City Manager may not, in the aggregate, increase or decrease the cost of services payable by City by more than one percent (1%) of the Maximum Obligation.

B. Enhanced And Supplemental Services By County:

1. Enhanced services for events on City property. At the request of City, through its City Manager, Sheriff may provide enhanced law enforcement services for functions, such as community events, conducted on property that is owned, leased or operated by City. Sheriff shall determine personnel and equipment needed for such enhanced services. City shall reimburse County for such additional services, at an amount computed by Sheriff, based on the current year's County law enforcement cost study. The cost of these enhanced services shall be in addition to the Maximum Obligation of City. Sheriff shall bill City immediately after each such event.

2. Supplemental services for occasional events operated by private individuals and entities on non-City property. At the request of City, through its City Manager, Sheriff may provide supplemental law enforcement services to preserve the peace at special events or occurrences that occur on an occasional basis and are operated by private individuals or private entities on non-City property. Sheriff shall determine personnel and equipment needed for such supplemental services, and will provide such supplemental services only if Sheriff is able to do so without reducing the normal and regular ongoing services that Sheriff otherwise would provide to City pursuant to this Contract. Such supplemental services shall be provided only by regularly appointed full-time peace officers, at rates of pay governed by a Memorandum of Understanding between County and the bargaining unit(s) representing the peace officers providing the services. Such supplemental services shall include only law enforcement duties and shall not include services authorized to be provided by a private patrol operator, as defined in Section 7582.1 of the Business and Professions Code. Law enforcement support functions, including, but not limited to, clerical functions and forensic science services, may be performed by non-peace officer personnel if the services do not involve patrol or keeping the peace and are incidental to the provision of law enforcement services. City shall reimburse County its full, actual costs of providing such supplemental services at an amount computed by Sheriff, based on the current year's County law enforcement cost study. The cost of these supplemental services shall be in addition to the Maximum Obligation of City. Sheriff shall bill City immediately after each such event.

3. Supplemental services for events operated by public entities on non-City property. At the request of City, through its City Manager, Sheriff may provide supplemental law enforcement services to preserve the peace at special events or occurrences that occur on an occasional basis and are operated by public entities on non-City property. Sheriff shall determine personnel and equipment needed for such supplemental services, and will provide such supplemental services only if Sheriff is able to do so without reducing services that Sheriff otherwise would provide to City pursuant to this Contract. City shall reimburse County its full, actual costs of providing such supplemental services at an amount computed by Sheriff, based on the current year's County law enforcement cost study. The cost of these supplemental services shall be in addition to the Maximum Obligation of City. Sheriff shall bill City immediately after each such event.

4. Notwithstanding the foregoing, City, through its permit process, may utilize the services of Sheriff at events, for which City issues permits, that are operated by private individuals or entities or public entities. Sheriff shall determine personnel and equipment needed for said events. If said events are in addition to the level of services listed in this Contract, City shall reimburse County for such additional services at an amount computed by Sheriff, based upon the current year's County law enforcement cost study. The cost of these services shall be in addition to the Maximum Obligation of City. Sheriff shall bill City immediately after said services are rendered.

5. In accordance with Government Code Section 51350, County has adopted Board Resolution 89-1160 which identifies Countywide services, including but not limited to helicopter response. Sheriff through this contract provides enhanced helicopter response services. The cost of enhanced helicopter response services is included in the Maximum Obligation of City. County shall not charge any additional amounts for enhanced helicopter services without written notification to the City.

C. Body Worn Camera And In Car Video:

1. As part of the law enforcement services to be provided to City, County has provided, or will provide, body worn cameras (hereinafter called "BWC") that will be worn by Sheriff's personnel and In Car Video (hereinafter called "ICV") that will be mounted in vehicles designated by Sheriff for use within City service area.

2. Sheriff has the exclusive right to use said BWC and ICV for law enforcement services related to this Contract.

3. City shall pay County the full costs to County of a) the acquisition of BWC and the acquisition and installation of ICV, and b) recurring costs, as deemed necessary by County, including the costs of maintenance and contributions to a fund for replacement and upgrade of such BWC and ICV when they become functionally or technologically obsolete. The costs to be paid by City for recurring costs, including maintenance and replacement/upgrade of BWC and ICV, are included in the costs set forth in the Maximum Obligation of City, unless City has already paid such costs.

4. If, following the initial acquisition of BWC and ICV referenced above, City requires BWC and ICV for additional Sheriff's personnel or vehicles designated for use in the City service area, County will purchase said additional BWC and ICV. Upon demand by County, City will pay to County a) the full costs of acquisition of additional BWC and the full cost of acquisition and installation of additional ICV, and b) the full recurring costs for said BWC and ICV, as deemed necessary by County, including the costs of maintenance, and contributions to a fund for replacement and upgrade of such BWC and ICV when they become functionally or technologically obsolete. Said costs related to additional BWC and ICV are not included in, and are in addition to, the costs set forth in the Maximum Obligation.

5. County will replace and/or upgrade BWC and ICV as needed. The costs of replacing/upgrading BWC and ICV shall be paid by County from the replacement/upgrade funds to be paid by City in accordance with the foregoing. City shall not be charged any additional charge to replace or upgrade BWC and ICV.

D. Traffic Violator Apprehension Program:

1. County has established a Traffic Violator Apprehension Program ("the Program"), which is operated by Sheriff, and is designed to reduce vehicle accidents caused by unlicensed drivers and drivers whose licenses are suspended and to educate the public about the requirements of the Vehicle Code and related safety issues with regard to driver licensing, vehicle registration, vehicle operation, and vehicle parking. The Program operates throughout the unincorporated areas of the County and in the cities that contract with County for Sheriff's law enforcement services, without regard to jurisdictional boundaries, because an area-wide approach to reduction of traffic accidents and driver education is most effective in preventing traffic accidents. In order for City to participate in the Program, City has adopted fees pursuant to Vehicle Code Section 22850.5, in the same amount as approved by County, as set forth in the resolution that is Attachment E (hereinafter called a "TVAP resolution"), and has directed that the revenue from such fee be used for the Program. City's participation in the Program may be terminated at any time by rescission or amendment of its TVAP resolution. In the event City 1) amends said TVAP resolution, or rescinds said TVAP resolution and adopts a new TVAP resolution pertaining to the above-referenced fees and the Program, and 2) remains a participant in the Program thereafter, City's Manager, on behalf of City, and Sheriff, on behalf of County, have authority to execute an amendment of this Contract to substitute City's amended or new TVAP resolution for Attachment E to the Contract, as long as said amendment to this Contract does not materially change any other provision of this Contract. As County updates its fees for the Program periodically, County will provide written notice to City of the updated fees. City's participation in the Program will terminate if City determines not to adopt the updated fees for the Program.

2. County will make available for review, at the request of City, all financial data related to the Program as may be requested by City.

3. Fee revenue generated by County and participating cities will be used to fund the following positions, which will be assigned to the Program:

- Ten one hundredths of one (0.10) Sergeant

  (8 hours per two-week pay period)
- One (1) Staff Specialist

  (80 hours per two-week pay period)
- One (1) Office Specialist

  (80 hours per two-week pay period)

4. Fee revenue generated by City may be used to reimburse City for expenditures for equipment and/or supplies directly in support of the Program. In order for an expenditure for equipment and/or supplies to be eligible for

reimbursement, City shall submit a request for and obtain pre-approval of the expenditure by using the form as shown in Attachment F.

The request shall be submitted within the budget schedule established by Sheriff. Sheriff shall approve the expenditure only if both of the following conditions are satisfied: 1) there are sufficient Program funds, attributable to revenue generated by City's fee, to pay for the requested purchase, and 2) City will use the equipment and/or supplies, during their entire useful life, only for purposes authorized by its TVAP resolution in effect at the time of purchase.

In the event that City terminates its participation in the Program, City agrees that the equipment purchased by City and reimbursed by Program funds will continue to be used, during the remainder of its useful life, exclusively for the purposes authorized by City's TVAP resolution in effect at the time of purchase.

5. In the event the fees adopted by County, City and other participating jurisdictions are not adequate to continue operation of the Program at the level at which it operated previously, County, at the option of City, will reduce the level of Program service to be provided to City or will continue to provide the existing level of Program services. County will charge City the cost of any Program operations that exceed the revenue generated by fees. Such charges shall be in addition to the Maximum Obligation of City. The amount of any revenue shortfall charged to City will be determined, at the time the revenue shortfall is experienced, according to City's share of Program services rendered. In the event of a reduction in level of Program service, termination of Program service or adjustment of costs, the parties shall execute an amendment to this Contract so providing. Decisions about how to reduce the level of Program service provided to City shall be made by Sheriff with the approval of City.

E. Mobile Data Computers:

1. As part of the law enforcement services to be provided to City, County has provided, or will provide, mobile data computers (hereinafter called "MDCs") that are or will be mounted in patrol vehicles and motorcycles, designated by County for use within City limits.

2. Sheriff has the exclusive right to use said MDCs for law enforcement services related to this Contract.

3. City shall pay County the full costs to County of a) the acquisition and installation of MDCs that are or will be mounted in patrol vehicles and motorcycles assigned to City, and b) recurring costs, as deemed necessary by County, including the costs of maintenance and contributions to a fund for replacement and upgrade of such MDCs when they become functionally or technologically obsolete.

The costs to be paid by City for recurring costs, including maintenance and replacement/upgrade of MDCs, are included in the costs set forth in the Maximum Obligation of City unless City has already paid such costs.

4. If, following the initial acquisition of MDCs referenced above, City requires MDCs for additional patrol cars or motorcycles designated for use in City, or for City's Emergency Operations Center, County will purchase said additional MDCs. Upon demand by County, City will pay to County a) the full costs of acquisition and installation of said additional MDCs, and b) the full recurring costs for said MDCs, as deemed necessary by County, including the costs of maintenance, and contributions to a fund for replacement and upgrade of such MDCs when they become functionally or technologically obsolete. Said costs related to additional MDCs are not included in, and are in addition to, the costs set forth in the Maximum Obligation of City.

5. County will replace and/or upgrade MDCs as needed. The costs of replacing/upgrading MDCs shall be paid by County from the replacement/upgrade funds to be paid by City in accordance with the foregoing. City shall not be charged any additional charge to replace or upgrade MDCs.

F. E-Citation Units:

1. As part of the law enforcement services to be provided to City, County has provided, or will provide, E-Citation units designated by County for use within City limits.

2. Sheriff has the exclusive right to use said E-Citation units for law enforcement services related to this Contract.

3. City shall pay County the full costs to County of a) the acquisition of E-Citation units that are assigned to City, and b) recurring costs, as deemed necessary by County, including the costs of maintenance and contributions to a fund for replacement and upgrade of such E-Citation units when they become functionally or technologically obsolete.

The costs to be paid by City for recurring costs, including maintenance and replacement/upgrade of E-Citation units, are included in the costs set forth in the Maximum Obligation of City unless City has already paid such costs.

4. If, following the initial acquisition of E-Citation units referenced above, City requires additional E-Citation units designated for use in City, County will purchase said additional E-Citation units. Upon demand by County, City will pay to County a) the full costs of acquisition of said additional E-Citation units, and b) the full recurring costs for said E-Citation units, as deemed necessary by County, including the costs of maintenance, and contributions to a fund for replacement and upgrade of such E-Citation units when they become functionally or technologically obsolete. Said costs related to additional E-Citation units are not included in, and are in addition to, the costs set forth in the Maximum Obligation of City.

5. County will replace and/or upgrade E-Citation units as needed. The costs of replacing/upgrading E-Citation units shall be paid by County from the replacement/upgrade funds to be paid by City in accordance with the foregoing. City shall not be charged any additional charge to replace or upgrade E-Citation units.

G. Equipment:

1. As part of the law enforcement services to be provided to City, County shall purchase motorcycles and radios that meet certain law enforcement standards as determined by the County (hereinafter "Equipment").

2. City shall pay County the full costs to County of a) the acquisition of Equipment, b) recurring costs, c) the costs of maintenance, and d) replacement and upgrade of such Equipment when they become functionally or technologically obsolete, as deemed necessary by County. The costs to be paid by City are included in the costs set forth in the Maximum Obligation of City.

3. The Equipment purchased by the County for services to the City shall be the property of the County.

4. Radios and motorcycles previously purchased by the City for County law enforcement services to the City shall be the property of and maintained by the City. Notwithstanding the Indemnification provisions of this Contract, County shall be responsible to City for any damage to City radios and motorcycles caused by County's act or omission.

H. City Office Space

1. In consideration of the promises contained herein, City hereby grants to County rent-free use of office space, office furniture, and office equipment and supplies located in City Hall or other City building for the provision of services under this Contract (hereinafter "Police Station"). Said office space, furniture and equipment and supplies shall be used solely by personnel of City and County, while performing their assigned duties related to services under this Contract. City and County shall mutually agree on the precise location, size and type of said office space, office furniture and office equipment supplies. City shall supply all repair, maintenance and janitorial supplies and services to the Police Station and shall be responsible for all charges for utilities supplied to said premises.

2. City and Sheriff agree to staff the Police Station and remain accessible to the public during normal business hours. Sheriff personnel who are regularly deployed to deliver services to adjacent unincorporated areas may operate in and out of the Police Station as a regular duty station.

3. City shall be responsible for the cost of fuel used for services in this Contract. City may: 1) provide fuel via the City's fuel pumps or 2) otherwise pay the County for the provision of fuel in a manner that is acceptable to both Parties. For motorcycles, the City shall pay the County for the provision of fuel in a manner that is acceptable to both Parties. For all other vehicles, City and County shall mutually agree on which method shall be utilized. Limited reimbursement of such costs is included in the costs set forth in Attachment B.

4. Persons detained in City will be booked into the Sheriff Intake-Release Center. Persons will not be booked or housed at the Police Station.

5. Fingerprinting and copying services will be performed by Sheriff employees located at the Police Station.

PAYMENT PROVISIONS

1. Compensation: Pursuant to Government Code Section 51350, City agrees to pay to County the full costs of performing the services mutually agreed upon in this Contract. The costs of services include salaries, wages, benefits, mileage, services, supplies, equipment, and divisional, departmental and County General overhead.

The Maximum Obligation of City for services to be provided by the County for the period July 1, 2026 through June 30, 2027 shall be $12,112,857 (herein "Maximum Obligation"). The County shall provide the City with a new Maximum Obligation prior to the start of the new fiscal year term for the remaining fiscal years included in this Contract Term, if applicable.

The overtime costs included in the Contract are only an estimate. Sheriff shall notify City of actual overtime worked during each fiscal year. If actual overtime worked is above or below budgeted amounts, billings will be adjusted accordingly at the end of the fiscal year. Actual overtime costs may exceed City's Maximum Obligation.

2. Personnel and Deployment:

A. City shall pay the full costs of employees in the following instances:
   1. County-paid holidays.
   2. Sick leave to the extent that it does not exceed the greater of a.) 12 days per year, per position, or b.) the amount of leave accrued by an employee assigned to City during the time he or she has been assigned to City.
   3. Vacation leave to the extent it does not exceed an amount permitted by County to be accumulated by an employee at any one time.
   4. Training as mandated by the California Commission on Peace Officers Standards and Training (P.O.S.T.) or as mandated by Sheriff.
   5. Bereavement leave as authorized by County.
   6. Jury duty leave as authorized by County.
   7. Responses to mutual aid and natural or man-made disasters or emergencies, unless the County provides a replacement employee, in which case the City will pay for one employee.

B. A position unfilled for any period as a result of Workers' Compensation leave shall be considered on leave. A position unfilled for any period as a result of reassignment to another function within Sheriff's Department shall be considered vacant. The County will provide a credit to the City for the hours a position is vacant. The credit may be offset with overtime and reconciled at fiscal year-end.

C. The Sheriff shall not charge the City when an employee, usually assigned to the City, participates in specialized Sheriff services that are available throughout the County, including in City, in accordance with County Resolution No. 89-1160. If the Sheriff determines that overtime coverage of the employee's absence at City is required, the additional cost of such overtime will not be charged to the City.

Notwithstanding the above, in the event that County personnel provide services in response to mutual aid and natural or man-made disasters or emergencies and the County subsequently receives reimbursement for those services, the County will credit the reimbursement to the City.

3. Invoice: County shall invoice City monthly and will require payment by City of one-twelfth (1/12) of the Maximum Obligation of City. If a determination is made that increases due to Employee Bargaining must be paid, County thereafter shall include the pro-rata charges for such increases in its monthly invoices to City for the balance.

4. Employee Bargaining: At the time this Contract is executed, there may be unresolved issues pertaining to potential changes in salaries and benefits for County employees. If changes result in the County incurring or becoming obligated to pay for increased costs for or on account of personnel whose costs are included in the calculations of costs charged to City hereunder, City shall pay County, the full costs of said increases to the extent

such increases are attributable to work performed by such personnel after the starting date of this Contract. City shall pay County in full for such increases on a pro-rata basis over the portion of the Contract term remaining after County notifies City that increases are payable.

If City is required to pay for such increases, County, at the request of City, will thereafter reduce the level of service provided to City to a level that will make the Maximum Obligation of City an amount specified by City. The purpose of such adjustment of service levels will be to give City the option of keeping its Maximum Obligation hereunder at the pre-increase level or at any other higher or lower level specified by City. In the event of such reduction in level of service and adjustment of costs, the parties shall execute an amendment to this Contract. Decisions about how to reduce the level of service provided to City shall be made by Sheriff with the approval of City.

5. Billing Policy: City shall pay County in accordance with County Board of Supervisors' approved County Billing Policy dated October 27, 1992. The provisions of the policy, including a discount for early payment, shall apply to this Contract. Payments made electronically via a credit card or through a banking system that charges Merchant Fees, Service Fees, or any other Fees shall be the responsibility of the City. If the County is charged any of the before mentioned fees, the City shall be responsible for payment of these fees to the County.

6. Late Penalties: County shall charge City late payment penalties in accordance with County Billing Policy.

7. Licensing Payments: As payment for the Licensing Services described in this Contract, County shall retain all fees paid by applicants for licenses pursuant to City ordinances. Retention of said fees by County shall constitute payment in full to County for costs incurred by County in performing the functions related to licensing; provided, however, that if any of said fees are waived or reduced by City, City shall pay to County the difference between the amount of fees retained by County and the fees that were set forth in the City's ordinances at the time this Contract was executed. If City increases the fee schedule for the licensing ordinances, either party shall have the right to seek amendment of this Contract with respect to the division of the increased fees between City and County.

8. Fees: Fees generated or collected by Sheriff contract personnel for response to false alarms or copying of documents related to the services provided in this Contract will be at County-established rates and will be credited to City on an annual basis. Narcotic asset forfeitures will be handled pursuant to Attachment G.

Revenue generated by City fees, including but not limited to the following, will be at rates established by City and will be retained by City:

a. Bicycle licensing
b. Fingerprinting
c. Visa letters
d. Report duplication
e. DUI cost recovery
f. Special police services

RESOLUTION NO. 2024-09-10-3

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LAGUNA HILLS, CALIFORNIA, UPDATING THE CITY'S TRAFFIC VIOLATOR APPREHENSION PROGRAM FEE, REPEALING RESOLUTION NO. 2021-10-12-5, AND FINDING THAT THE ACTION IS STATUTORILY EXEMPT FROM THE CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) PER SECTION 15273 OF THE CEQA GUIDELINES AND PUBLIC RESOURCES CODE SECTION 21080(B)(8)

The City Council of the City of Laguna Hills, California, hereby finds, determines, declares, and resolves as follows:

WHEREAS, the City of Laguna Hills contracts with the Orange County Sheriff's Department ("OCSD") for law enforcement services; and

WHEREAS, the OCSD has instituted a Traffic Violator Apprehension Program designed to reduce vehicle accidents caused by unlicensed drivers and drivers whose licenses are suspended and to educate the public about the requirements of the Vehicle Code and related safety issues regarding driver licensing, vehicle registration, vehicle operation, and parking; and

WHEREAS, the OCSD operates the Traffic Violator Apprehension Program in the unincorporated areas of Orange County and in cities (such as the City of Laguna Hills) that contract with OCSD for law enforcement services; and

WHEREAS, operating the Traffic Violator Apprehension Program on an area-wide basis without regard to jurisdictional boundaries between the County and contract cities serves the public purpose of the City because drivers routinely cross jurisdictional boundaries, making an area-wide approach to reduction of traffic accidents and driver education most effective in preventing traffic accidents in all participating jurisdictions; and

WHEREAS, on March 28, 2000, the Orange County Board of Supervisors adopted Resolution No. 00-96, which established fees for the Traffic Violator Apprehension Program that are applicable in unincorporated areas of the County. The fees established by County Resolution No. 00-96 address the Sheriff's administrative costs relating to the removal, impound, storage, or release of properly impounded vehicles; and

WHEREAS, on June 13, 2000, the Laguna Hills City Council adopted Resolution No. 2000-06-13-1, which authorized OCSD to collect fees in the City in connection with the Traffic Violator Apprehension Program in amounts identical to the County's fees as set forth in County Resolution No. 00-96; and

WHEREAS, the Board of Supervisors has directed the funds collected from the Traffic Violator Apprehension Program to be used to reimburse the Sheriff for the administrative costs associated with the removal, storage, impound, and release of vehicles in accordance with the California Vehicle Code ("Vehicle Code"); and

WHEREAS, the OCSD impounds vehicles removed from highways, public property, and private property in the unincorporated areas of the County and in contract cities pursuant to the following authority under the Vehicle Code:

14602.6	Suspended, revoked or unlicensed driver/30-day hold
22651 (a)	Unattended vehicle on bridge
22651 (d)	Vehicle blocking driveway
22651 (e)	Vehicle blocking fire hydrant
22651 (f)	Vehicle blocking freeway
22651 (h) (1)	Driver arrested
22651 (h) (2)	Order of suspension or revocation pursuant to section 13388
22651 (i) (1)	Multiple parking citations
22651 (j)	Lack of vehicle registration
22651 (k)	Parking over seventy-two hours
22651 (l)	Parking in a construction zone
22651 (m)	Violation of special events restriction
22651 (n)	No parking zone
22651 (o) (1)	Vehicle registration is incorrect, falsified or expired by more than six months
22651 (p)	Driver unlicensed or license suspended
22651 (r)	Vehicle blocking another vehicle
22651 (t)	Notice to appear/illegal amber lights
22651 (u)	Acting as a car dealer without a license or temporary permit
22651 (v)	Illegally letting stand a mobile billboard advertisement
22651 (w)	Second or subsequent violation of an ordinance
22655.3	Removal for investigation (fleeing in violation of section 2800.1 or 2800.2)
22655.5 (a)	Vehicle was used as the means of committing a public offense
22655.5 (b)	Vehicle is evidence of crime
22669	Abandoned vehicle

WHEREAS, Vehicle Code section 22850.5 authorizes the City Council, by resolution, to establish a fee equal to the administrative costs related to the removal, impound, storage or release of properly impounded vehicles; and

WHEREAS, on November 17, 2020, the Orange County Board of Supervisors adopted an updated Traffic Violator Apprehension Program fee of $144.00 per removal; and

WHEREAS, on October 12, 2021, the City Council adopted an updated Traffic Violator Apprehension Program fee of $144.00 per removal; and

WHEREAS, on June 25, 2024, the Orange County Board of Supervisors adopted an updated Traffic Violator Apprehension Program fee of $174 per removal, and authorized the Sheriff to adjust the rate annually starting July 1, 2025 by an amount not to exceed the annual percentage change of the Los Angeles-Long Beach-Anaheim "all items" Consumer Price Index, provided that the amount does not exceed the actual costs to the Sheriff as determined by additional cost studies; and

WHEREAS, the City Council desires to update the Traffic Violator Apprehension Program fee to match the County and further desires for the Sheriff to continue to collect the fee on behalf of the City. Continuing with such a practice will ensure that persons whose vehicles are impounded, rather than the public as a whole, will bear the administrative costs of such impounds; and

WHEREAS, Vehicle Code section 22850.5 imposed the following restrictions on the imposition of this administrative fee:

a) The fee may only be imposed on the registered owner or the agents of that owner and may not include any vehicle towed under an abatement program or sold at a lien sale pursuant to Sections 3068.1 to 3074, inclusive, of, and Section 22851 of, the Civil Code unless the sale is sufficient in amount to pay the lienholder's total charges and proper administrative costs; and
b) Any charges shall be collected by the local or state authority only from the registered owner or an agent of the registered owner; and
c) The charges shall be in addition to any other charges authorized or imposed pursuant to this code; and
d) The fee does not include any administrative costs associated with conducting a hearing or appeal relating to the removal, impound, storage, or release of a vehicle; and

WHEREAS, in addition to the limitations set forth above, it is also unfair to impose the administrative fee authorized by Vehicle Code section 22850.5 in the following circumstances: 1) when the vehicle was left because it became inoperable while being driven, if the owner makes good faith attempts promptly to remove the vehicle from location where it is not permitted, 2) when the vehicle was stolen, 3) when the vehicle was left by an ill or injured driver, and 4) when it is demonstrated to the satisfaction of the Sheriff or his/her designee that neither the registered owner of the vehicle nor his/her agent, if any, was at fault in creating the circumstances leading to the impounding of the vehicle; and

WHEREAS, a Notice of Public Hearing with respect to the proposed updated fee was given according to law and a Public Hearing with respect to the proposed updated was held on the 10th day of September 2024.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF LAGUNA HILLS, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE, AND ORDER AS FOLLOWS:

SECTION 1. The foregoing recitals are true and correct and are incorporated herein by reference.

SECTION 2. The City is authorized to continue to participate in the Orange County Sheriff's Department Traffic Violator Apprehension Program as part of the City's contract for law enforcement services with OCSD.

SECTION 3. Effective immediately, a fee of $174.00 shall be charged for the removal, impound, storage or release of vehicles properly impounded after removal from locations in the City in accordance with or on account of the Vehicle Code provisions listed below:

14602.6	Suspended, revoked or unlicensed driver/30-day hold
22651 (a)	Unattended vehicle on bridge
22651 (d)	Vehicle blocking driveway
22651 (e)	Vehicle blocking fire hydrant
22651 (f)	Vehicle blocking freeway
22651 (h) (1)	Driver arrested
22651 (h) (2)	Order of suspension or revocation pursuant to section 13388
22651 (i) (1)	Multiple parking citations
22651 (j)	Lack of vehicle registration
22651 (k)	Parking over seventy-two hours
22651 (l)	Parking in a construction zone
22651 (m)	Violation of special events restriction
22651 (n)	No parking zone
22651 (o) (1)	Vehicle registration is incorrect, falsified or expired by more than six months
22651 (p)	Driver unlicensed or license suspended
22651 (r)	Vehicle blocking another vehicle
22651 (t)	Notice to appear/illegal amber lights
22651 (u)	Acting as a car dealer without a license or temporary permit
22651 (v)	Illegally letting stand a mobile billboard advertisement
22651 (w)	Second or subsequent violation of an ordinance
22655.3	Removal for investigation (fleeing in violation of section 2800.1 or 2800.2)
22655.5 (a)	Vehicle was used as the means of committing a public offense
22655.5 (b)	Vehicle is evidence of crime
22669	Abandoned vehicle

SECTION 4. The OCSD is authorized to collect the fee established herein, on behalf of the City, at the time of release of vehicles that are subject to the fee. Effective July 1, 2025, and annually thereafter, the City's established fee shall administratively adjust by an amount not to exceed the annual percentage change of the Los Angeles-Long Beach-Anaheim "all items" Consumer Price Index, provided that the amount does not exceed the actual costs to the Sheriff as determined by additional cost studies. This will ensure the City fee matches the County fee.

SECTION 5. The fee established herein shall only be imposed on the registered owner or the agent of the owner of the impounded vehicle, shall not include any vehicle towed under an abatement program or sold at a lien sale pursuant to Sections 3068.1 to 3074, inclusive of, and Section 22851 of, the Civil Code unless the sale is sufficient in amount to pay the lienholder's total charges and proper administrative costs.

SECTION 6. The fee established herein shall be collected only from the registered owner or an agent of the registered owner and that said fee is in addition to any other charges authorized or imposed pursuant to the Vehicle Code.

SECTION 7. The fee established herein complies with Vehicle Code section 22850.5 (b)(4) as the cost study conducted by the Sheriff that supports the $174.00 per removal fee did not include administrative costs for conducting a hearing or appeal related to the removal, impound, storage, or release of a vehicle.

SECTION 8. The OCSD shall not impose the fee established herein in any of the following circumstances: a) when the vehicle was left because it became inoperable while being driven, if the owner made good faith attempts promptly to remove the vehicle from a location where it was not permitted: b) when the vehicle was stolen; c) when the vehicle was left by an ill or injured drive; or d) when it is demonstrated to the satisfaction of the Sheriff or his/her designee that neither the registered owner of the vehicle nor his/her agent, if any, was at fault in creating the circumstances leading to the impounding of the vehicle.

SECTION 9. A registered owner or an agent of a registered owner who believes they are exempt from the fee established herein under any of the criteria listed in Section 8 above may apply in writing for a waiver of the fee and shall present such supporting information or documentation, as the OCSD may request, to the City's Administrative Sergeant. Upon the presentation of a written application for waiver of said fee, together with such supporting documentation as may be requested by the OCSD, the Administrative Sergeant or their designee shall determine promptly whether the applicant meets the criteria for a waiver of the fee and if so, shall waive the fee.

SECTION 10. The OCSD is directed to deposit the proceeds of the fee established herein into the Traffic Violator Fund and shall be used in conformance with the County's restrictions for the Traffic Violator Fund and with any applicable provisions set forth in the City's agreement with the OCSD for law enforcement services.

SECTION 11. The Orange County Board of Supervisors is authorized to carry forward in the Traffic Violator Fund and accumulate any balance of proceeds of fees imposed by this Resolution that remains at the end of a fiscal year, as long as such fee proceeds will be used for the purposes provided herein

SECTION 12. The City Council finds that the adoption of this Resolution is exempt from the California Environmental Quality Act ("CEQA") pursuant to Section 15273 of the CEQA Guidelines and Section 21080(b)(8) of the Public Resources Code, which provide that CEQA does not apply to the establishment, modification, structuring, restructuring, or approval of rates, tolls, fares, and other charges by public agencies which the public

agency finds are for the purpose of meeting operating requirements. The City's approval of the Traffic Violator Apprehension Program fee is not designed to increase services, but rather it is designed to update the City's existing fee regulations to reflect and match the County's fee. Updating the City's Traffic Violator Apprehension Program fee will assist Police Services in meeting operating expenses associated with the removal, impoundment, and storage of vehicles, as authorized under the Vehicle Code, and does not undertake any activity that has the potential for causing a significant impact on the environment. In accordance with such determination, City Staff is hereby directed to file a Notice of Exemption upon adoption of this Resolution.

SECTION 13. City Council Resolution No. 2021-10-12-5 is hereby repealed and superseded by this Resolution.

PASSED, APPROVED AND ADOPTED this 10th day of September 2024.

POLICY FOR DISTRIBUTION OF FORFEITED AND SEIZED ASSETS

BACKGROUND

The Orange County Sheriff's Department provides contract law enforcement services to cities in Orange County. Because of the increased likelihood that contracted patrol or investigation personnel may become involved in significant narcotic seizures, which could affect law enforcement services provided by the Sheriff's Department to contract cities, the following policy is in effect.

CONTRACTED PATROL AND INVESTIGATION OFFICERS

When assets (cash or property) are seized in CITY by contracted patrol or investigation personnel, and subsequently forfeited to COUNTY's Sheriff Department, hereinafter referred to as "SHERIFF", the forfeited assets shall be shared with CITY as set forth below, for the purpose of augmenting law enforcement services in CITY, subject to guidelines by the forfeiting agency of such sharing and use of forfeited assets. A portion of forfeited assets may be retained by SHERIFF, to pay for departmental expenses not recovered through law enforcement contracts.

In such cases, pursuant to the forfeiting agency's guidelines, SHERIFF shall apply to the forfeiting agency for the return of a share of assets. In his application, SHERIFF shall specify the percentage of shared assets returned to SHERIFF that will be used to augment law enforcement services in CITY and the use of said assets by CITY.

In those cases in which assets are seized within CITY by personnel assigned to CITY pursuant to this Agreement, without the involvement of other law enforcement personnel, and in which the seizure is a result solely of activities self-initiated by SHERIFF personnel assigned to CITY or initiated by said personnel in response to calls for service within CITY, SHERIFF shall apply to have all of the assets used to augment CITY law enforcement services.

In those cases in which SHERIFF personnel assigned to CITY pursuant to this Agreement play an ancillary role in a seizure or in which other law enforcement personnel are involved in a seizure, SHERIFF shall determine the percentage of the total forfeited assets for which he will apply to augment CITY's law enforcement services. This determination will be based on the circumstances of the seizure, including the pro-rata involvement of all personnel, including those assigned to CITY.

Each seizure will be evaluated on an individual and independent basis, and said evaluations will be available for review to CITY's manager. Examples of those incidents which would be evaluated as set forth in this section include situations in which a contract patrol deputy provides uniformed backup at a SHERIFF's Narcotic Bureau search warrant location or in which contract investigators participate in the service of a search warrant that was initiated by non-contract law enforcement personnel.

Assets (cash or property) that are returned to SHERIFF by the forfeiting agency with the understanding that they will be used to augment CITY law enforcement services shall be used by CITY and SHERIFF only for such purposes. If the forfeiting agency attaches additional or more specific conditions to the use of said assets, CITY and SHERIFF shall also abide by those conditions. SHERIFF and CITY's manager shall determine the specific use of said assets within the conditions imposed by the forfeiting agency.

CITY OF LAGUNA HILLS

FISCAL YEAR 2026-27

FINAL
April 10, 2026

Add: One (1) Motorcycle BMW R1300GS-P

Increase: OT amount for DSII by $38,000 and CSO by $12,000

Reduce: Vacancy Credit by $50,000

Share: Four (4) Sergeants with AV, LW (1/3 AV, 1/3 LH, 1/3 LW)

City of Laguna Hills
City Council / Planning Agency
Staff Report

Date: April 28, 2026
To: Mayor and Council Members
From: Joe Ames, Assistant City Manager
Issue: Informal Bidding Ordinance Use Quarterly Report for Public Works Projects

Recommendation: That the City Council receive and file the report.

Background:

On October 24, 2023, the City Council adopted an Ordinance adding Chapter 3-36 (Informal Bidding – Public Projects) to Title 3 (Revenue and Finance) of the Laguna Hills Municipal Code to provide informal bidding procedures in accordance with the Uniform Public Construction Cost Accounting Act.

Chapter 3-36 reduces contract award process time, improves the timeliness of project completion, reduces paperwork, and simplifies overall project administration for "public projects" more than $5,000 and up to $200,000. "Public projects" are defined to include: construction, reconstruction, erection, alteration, renovation, improvement, demolition, and repair work involving any publicly owned, leased, or operated facility. This definition also includes painting or repainting of any publicly owned, leased, or operated facility (Public Contract Code Section 22002).

During the discussion of the adoption of the Ordinance, City Council directed that City staff prepare a quarterly report for City Council review of the use of Chapter 3-36 for public projects that were let by negotiated contract. Under Chapter 3-36, the City Manager may let public projects of $60,000 or less by negotiated contract. Public projects over $60,000 up to $200,000 may use a streamlined procedure for bidding, but the contract must be awarded by City Council.

Attached is a list of public projects during the most recent quarter (for the period of

January 1 through March 31, 2026) let by negotiated contracts between $5,000 and $60,000.

Fiscal Impact:

The public projects during the most recent quarter let by negotiated contracts totaled $136,983.36. The attached report details the account numbers from which each invoice was paid. Sufficient budget was available in each account number for the work.

City of Laguna Hills
City Council / Planning Agency
Staff Report

Date: April 28, 2026
To: Mayor and Council Members
From: Joe Ames, Assistant City Manager
Issue: Adoption of an Ordinance Authorizing the City Engineer to Mark Parallel Parking Spaces on City Streets, including Via Lomas.

Recommendation: That the City Council adopt Ordinance 2026-1 entitled: "An Ordinance of the City Council of the City of Laguna Hills, California, Adding Section 11-12.110 to Chapter 11-12 (Stopping, Standing, and Parking) of Title 11 (Vehicles and Traffic) of the Laguna Hills Municipal Code Concerning Parallel Parking Lines."

Background:

The Ordinance, introduced at the April 14, 2026, regular meeting, will add Section 11-12.110 to Chapter 11-12 (Stopping, Standing and Parking) of Title 11 (Vehicles and Traffic) of the Laguna Hills Municipal Code.

Fiscal Impact:

The estimated cost to install (paint) the T's is $5,000. This cost can be absorbed into the Public Works maintenance budget (100-355-720401).

Attachments:

1. Ordinance 2026-1 Parallel Parking Lines

ORDINANCE NO. 2026-1

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF LAGUNA HILLS, CALIFORNIA, ADDING SECTION 11-12.110 TO CHAPTER 11-12 (STOPPING, STANDING AND PARKING) OF TITLE 11 (VEHICLES AND TRAFFIC) OF THE LAGUNA HILLS MUNICIPAL CODE CONCERNING PARALLEL PARKING LINES

WHEREAS, California Vehicle Code Section 22502(a) generally requires parallel parking on a public roadway with adjacent curbs or class IV bikeways; and

WHEREAS, the marking of parallel parking spaces with white lines helps to ensure vehicles are parked in an orderly and efficient manner by minimizing large gaps between vehicles on public roadways; and

WHEREAS, pursuant to California Vehicle Code Section 22508(b), the City Council may, by ordinance, authorize the marking of parallel parking spaces with white lines on public roadways.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF LAGUNA HILLS, CALIFORNIA, DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. The above recitals are true and correct and are incorporated herein by reference.

SECTION 2. Section 11-12.110 is hereby added to Chapter 11-12 (Stopping, Standing and Parking) of Title 11 (Vehicles and Traffic) of the Laguna Hills Municipal Code to read as follows:

11-12.110 Parallel Parking Lines.

A. The City Engineer may establish, designate and maintain parking spaces on any public street where parallel parking is required by the Vehicle Code, by marking white lines upon the surface of such roadway or portion thereof when the City Engineer determines that such lines would facilitate the parking of vehicles or alleviate a hazardous condition. When such white lines have been placed no person shall stop, stand, or park a vehicle outside of the rectangular space indicated by such lines and the curb or edge of the street.

B. Whenever the City Engineer upon the basis of a traffic engineering investigation finds that the conditions, because of which white lines were placed as provided in subsection A of this section, no longer exist, the City Engineer shall remove such white lines from such public street or portion thereof.

SECTION 3. Publication; Effective Date. The City Clerk shall certify to the adoption of this Ordinance and cause the same to be posted at the duly designated posting places within the City and published once within fifteen days after passage and adoption as may be required by law; or, in the alternative, the City Clerk may cause to be published a summary of this Ordinance and a certified copy of the text of this Ordinance shall be posted in the Office of the City Clerk five days prior to the date of adoption of this Ordinance; and, within fifteen days after adoption, the City Clerk shall cause to be published, the aforementioned summary and shall post a certified copy of this Ordinance, together with the vote for and against the same, in the Office of the City Clerk. This Ordinance shall take effect 30 days after its adoption.

SECTION 4. Severability. If any section, subsection, subdivision, sentence, clause, phrase, word, or portion of this Ordinance is, for any reason, held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance. The City Council hereby declares that it would have adopted this Ordinance and each section, subsection, subdivision, sentence, clause, phrase, word, or portion thereof, irrespective of the fact that any one or more sections, subsections, subdivisions, sentences, clauses, phrases, words or portions thereof be declared invalid or unconstitutional

PASSED, APPROVED, AND ADOPTED this _____ day of _____, 2026,.

Staff Report

Date: April 28, 2026
To: Mayor and Council Members
From: Jennifer Lowe, Community Development Director
Issue: Development Application Status Report

Recommendation: That the City Council receive and file the report.

Background:

The City Council has indicated that based on potential impact(s) to the community, certain projects warrant a regular status update. The purpose of this Status Report is to identify new and pending major development applications in process with the City's Community Development Department which will require a public hearing. Links to project documents are available on the City's website at: https://lagunahillsca.gov/PlanningProjects.

Case Number	RZNE-0014-2026
Project Location	Citywide
Project Description	No Net Loss – review and rezone of properties to ensure the City maintains sufficient capacity to accommodate the City's remaining RHNA by income level.
Applicant	N/A
Project Planner	Jennifer Lowe, Community Development Director
Status	As of February 24, 2026, the remaining sites designated in the 6th Cycle Housing Element no longer had sufficient capacity to accommodate the City's remaining RHNA by income level. The City Council held Study Session #1 on April 1, 2026, to discuss

	potential sites for rezoning. City staff and consultant, De Novo Planning Group, was directed to further evaluate the sites within the City to determine feasibility in accordance with HCD requirements and developability. A second study session will be scheduled as soon as possible.

Case Number	USE-0255-2026 (SDP/CUP)
Project Location	23293 South Pointe Drive
Project Description	Request for a conditional use permit to establish a private high school in Plaza Pointe Center.
Applicant	Daniel Ho, on behalf of Ronald Reagan Secondary School
Project Planner	Talia Markison, Assistant Planner
Status	This project was formally submitted on February 17, 2026. On March 17, 2026, staff notified the applicant that the application was determined to be incomplete. Staff reviewed the entire application for consistency with applicable development standards. Staff is continuing to work with the Applicant on various aspects of the application. This item will be scheduled for public hearing when ready.

Case Number	USE-0254-2026 (SDP/CUP)
Project Location	23000 Lake Forest Drive
Project Description	Request for a site development permit and conditional use permit to demolish a vacant restaurant building and construct a new self-service car wash.
Applicant	Quick Quack Car Wash Donald Shiveley, on behalf of UB Properties Series 2, LLC
Project Planner	Talia Markison, Assistant Planner
Status	This project was formally submitted on February 9, 2026. On March 11, 2026, staff notified the applicant that the application was determined to be incomplete. Staff reviewed the entire application for consistency with applicable development standards. Staff is continuing to work with the Applicant on

	various aspects of the application. This item will be scheduled for public hearing when ready.

Case Number	USE-0250-2025 (CUP)
Project Location	25226 Cabot Road
Project Description	Request for conditional use permit to establish a veterinary hospital within the Moulton Ranch Center.
Applicant	Shawn Zuo, on behalf of Alliance Vet
Project Planner	Talia Markison, Assistant Planner
Status	This project was formally submitted on December 27, 2025. On January 22, 2026, staff notified the applicant that the application was determined to be incomplete. Staff reviewed the entire application for consistency with applicable development standards. This item will be scheduled for public hearing when ready.

Case Number	USE-0239-2025 (SPA/TTM/SDP/CUP/MSP/PP/PUP/DA)
Project Location	24155 Laguna Hills Mall
Project Description	Request for major modifications to the previously approved land use entitlements granted in 2022 for the Village at Laguna Hills development.
Applicant	MGP Fund X Laguna Hills, LLC David Geiser, on behalf of Merlone Properties
Project Planner	Gena Guisar and Leila Carver, Contract Planners
Status	After the City Council directed staff on August 26, 2025, to initiate review of the development application, the application for the project was accepted by staff on September 29, 2025. The application is under review concurrently with the Village at Laguna Hills ("VALH") Ad Hoc Committee and City's Special Counsel continued engagement with the Applicant regarding the Development Agreement. Updates regarding the status of the project will be presented to the City Council by the VALH Ad Hoc

	Committee. This item will be scheduled for public hearing when ready.

Case Number	USE-0165-2023 (ZTA/TTM/SDP)
Project Location	23272 – 23282 Mill Creek Drive
Project Description	Request to construct 48 detached residential condominium units.
Applicant	John Stack, on behalf of KB Spectrum Summit Plaza, LLC
Project Planner	Jay Wuu, Senior Planner
Status	On May 3, 2024, a letter was sent to the Applicant deeming the Application complete. On August 28, 2024, a letter was sent to the Applicant identifying additional technical review comments and informing the Applicant of significant design concerns. On October 29, 2024, the Applicant submitted an application for a larger development that includes this property. The statute of limitations for filing an appeal has passed. Staff is currently awaiting a withdrawal of the Application.

Case Number	USE-0172-2024 (CPMA)
Project Location	23521 Paseo de Valencia
Project Description	Request to construct carports in the Taj Mahal parking lot to accommodate solar panels.
Applicant	Alisha Cosio, on behalf of Valta Energy
Project Planner	Jay Wuu, Senior Planner
Status	On March 29, 2024, a letter was sent to the Applicant deeming the Application incomplete. Staff is currently awaiting resubmittal of plans; the item will be scheduled for public hearing when ready.

City of Laguna Hills
City Council / Planning Agency
Staff Report

Date: April 28, 2026
To: Mayor and Council Members
From: Joe Ames, Assistant City Manager
Issue: Alicia Parkway Regional Traffic Signal Synchronization Project (RTSSP) Cooperative Agreement

Recommendation: That the City Council authorize the Mayor to sign the "Cooperative Agreement by and between the City of Laguna Niguel, and the Cities of Aliso Viejo, Laguna Hills, and Mission Viejo for the Alicia Parkway Regional Traffic Signal Synchronization Program Project."

Background:

The Orange County Transportation Authority's Regional Traffic Signal Synchronization Program, Project P, provides funding for multi-agency, corridor-based signal synchronization and signal operational improvements for intersections on the Orange County Master Plan of Arterial Highways (MPAH).

On November 14, 2023, the City Council authorized City staff to submit a joint-application with the cities of Laguna Niguel, Aliso Viejo, Mission Viejo to the Orange County Transportation Authority titled the "Alicia Parkway Regional Traffic Signal Synchronization Project" for signals on Alicia Parkway. The Resolution is attached. The traffic signals included in the grant application include all traffic signals in Laguna Hills from Ramona Street to Interstate 5.

The grant application was successful. In Spring 2024, OCTA funded the Alicia Parkway RTSSP, from Rustic Oak in Mission Viejo to Crown Valley Parkway in Laguna Niguel. The project corridor is approximately 10.5 miles long and spans four agencies, crossing both the 1-5 freeway and the SR-73 toll road, and includes 60 traffic signals, 9 of which are located in Laguna Hills. A vicinity map is attached. The project is currently in the design

phase.

This project aims to replace failing traffic signal detection cameras, and install vehicle radar detection, signal controller upgrades, fiber optic communication, emergency vehicle preemption, battery back-ups and miscellaneous traffic signal support equipment.

Now, Laguna Hills needs to execute a Cooperative Agreement with the City of Laguna Niguel, as the project lead, to implement the project. Signatory names will be updated during the Agreement electronic routing execution process.

CEQA Findings:

The operation and maintenance of existing highways and streets is categorically exempt under the California Environmental Quality Act pursuant to Section 15301(c) of the CEQA Guidelines, Cal. Code of Regs, Title 14, Chapter 3.

Fiscal Impact:

The approximate costs of the project are shown below:

Portion of OCTA RTSSP Grant Assigned to Laguna Hills:	$675,627
Laguna Hills Cash Match Cost Share:	$162,027
Laguna Hills In-Kind Services Cost Share:	$6,880
Total Laguna Hills Project:	$844,534

The combined total of the Laguna Hills' cash match and in-kind services cost shares represent 20% of the total portion of the project located within Laguna Hills.

COOPERATIVE AGREEMENT

BY AND BETWEEN

THE CITY OF LAGUNA NIGUEL

AND

THE CITIES OF ALISO VIEJO, LAGUNA HILLS, AND MISSION VIEJO

FOR THE

ALICIA PARKWAY REGIONAL TRAFFIC SIGNAL SYNCHRONIZATION PROGRAM PROJECT

This Alicia Parkway Regional Traffic Signal Synchronization Program Project Cooperative Agreement ("AGREEMENT") is entered into as of _____, 2026 ("Effective Date") by and between the CITY OF LAGUNA NIGUEL, hereinafter referred to as "LAGUNA NIGUEL", and the Cities of Aliso Viejo, Laguna Hills, and Mission Viejo, hereinafter referred to as "ALISO VIEJO", "LAGUNA HILLS", AND "MISSION VIEJO" respectively, jointly referred to as "AGENCIES". LAGUNA NIGUEL and AGENCIES are sometimes referred to herein individually as a "PARTY" or collectively as the "PARTIES".

RECITALS:

WHEREAS, Alicia Parkway between Rustic Oak and Crown Valley Parkway, is geographically located in the Cities of Laguna Niguel, Aliso Viejo, Laguna Hills, and Mission Viejo; and

WHEREAS, Alicia Parkway between Rustic Oak and Charlinda Drive is maintained by MISSION VIEJO; and

WHEREAS, Alicia Parkway between Interstate 5 Northbound Off-Ramp and Interstate 5 Southbound Off-Ramp is maintained by the State of California, hereinafter referred to as "STATE" or "CALTRANS"; and

WHEREAS, Alicia Parkway between Paseo De Alicia-Hon Avenue and Ramona Street is maintained by LAGUNA HILLS; and

WHEREAS, Alicia Parkway between Holly Oak and Pacific Park Drive is maintained by ALISO VIEJO; and

WHEREAS, Alicia Parkway between Marketplace North and Crown Valley Parkway is maintained by LAGUNA NIGUEL; and

WHEREAS, the Measure M2 Regional Traffic Signal Synchronization Program (RTSSP) targets over 2,000 signalized intersections across Orange County to maintain traffic signal synchronization, improve traffic flow and reduce congestion across jurisdictions; and

WHEREAS, LAGUNA NIGUEL and AGENCIES are committed to implementing multi-jurisdictional signal synchronization to enhance countywide traffic flow and reducing congestion; and

WHEREAS, LAGUNA NIGUEL has been awarded Project P funds based on the application ("APPLICATION") prepared by LAGUNA NIGUEL for the implementation of signal synchronization of traffic signals along the Alicia Parkway Corridor between Rustic Oak and Crown Valley Parkway (hereinafter, "PROJECT"); and

WHEREAS, LAGUNA NIGUEL and AGENCIES will provide matching funds as required by the Orange County Comprehensive Transportation Funding Programs; and

WHEREAS, LAGUNA NIGUEL agrees to act as the lead agency for design, construction and management of PROJECT; and

WHEREAS, the PROJECT will include forty (40) traffic signals along Alicia Parkway, between Rustic Oak and Crown Valley Parkway, and located in the Cities of Laguna Niguel, Aliso Viejo, Laguna Hills, and Mission Viejo. Additionally, twenty-two (22) offset signalized intersections are included, for a total of sixty-two (62) signals, as shown in Attachment A; and

WHEREAS, the PROJECT will include Intelligent Transportation System (ITS) elements identified in the Application and other associated systems ("ITS Elements"), that will be constructed and/or installed and implemented as part of the PROJECT; and

WHEREAS, the PROJECT Scope of Work also includes the ongoing monitoring and maintenance of the coordinated signal system's operation, including system communication/detection upkeep, for two years; and

WHEREAS, LAGUNA NIGUEL agrees to work with AGENCIES to coordinate the inclusion of other ITS elements that must be installed before or at the same time as the construction of the PROJECT and are not part of this Agreement; and

WHEREAS, all costs associated with the inclusion of these other elements, if any, are the sole responsibility of the PARTY owning each and any of those other elements; and

WHEREAS, LAGUNA NIGUEL and each respective PARTY acknowledge and understand that in-house resources (staff hours) from PARTY will provide various services for the PROJECT per the Application; and

WHEREAS, LAGUNA NIGUEL and each respective PARTY acknowledge and understand that PROJECT costs for various types of additional work required by each respective PARTY may not have been included in the original application and therefore those costs are not included in the PROJECT allocation; and

WHEREAS, LAGUNA NIGUEL and each respective PARTY agree that these additional costs will be paid by the PROJECT only with written approval by LAGUNA NIGUEL, which may result in additional dollar match; and

WHEREAS, LAGUNA NIGUEL agrees to implement the PROJECT as referenced on the Application; and

WHEREAS, the PARTIES desire to enter into this Agreement to implement the PROJECT in support of Project P as part of M2; and

WHEREAS, the PARTIES agree to contribute the share of the PROJECT as set forth in the Application, shown in Attachment B and incorporated herein by reference; and

WHEREAS, in the event the cost of the PROJECT exceeds the estimates as submitted in the Application prepared by LAGUNA NIGUEL, the PARTIES agree to meet and determine revisions to the PROJECT to satisfy the budget(s) or revised funding proposal(s) by the PARTIES, which shall be documented and submitted in writing as an amendment to the Agreement. Any cost overruns shall be the financial responsibility of the jurisdiction where the work improvement occurs or as the case may be, causes the required improvement; and

WHEREAS, this Cooperative Agreement "AGREEMENT" defines the roles, specific terms, conditions and responsibilities between LAGUNA NIGUEL and AGENCIES; and

WHEREAS, the City of ALISO VIEJO's City Council approved this AGREEMENT on the _____ day of _____, 2026; and

WHEREAS, the City of LAGUNA HILLS's City Council approved this AGREEMENT on the _____ day of _____, 2026; and

WHEREAS, the City of MISSION VIEJO's City Council approved this AGREEMENT on the _____ day of _____, 2026; and

WHEREAS, the City of LAGUNA NIGUEL's City Council approved this AGREEMENT on the _____ day of _____, 2026; and

AGREEMENT

NOW, THEREFORE, it is mutually understood and agreed by LAGUNA NIGUEL and AGENCIES as follows:

ARTICLE 1. COMPLETE AGREEMENT

A. This AGREEMENT, including any attachments incorporated herein and made applicable by reference, constitutes the complete and exclusive statement of the term(s) and condition(s) of the agreement between LAGUNA NIGUEL and AGENCIES concerning the PROJECT and it supersedes all prior representations, understandings and communications between the PARTIES. The invalidity in whole or in part of any term or condition of this AGREEMENT shall not affect the validity of other term(s) or condition(s) of the AGREEMENT. The above referenced Recitals are true and correct and are incorporated by reference herein.

B. LAGUNA NIGUEL's failure to insist on any instance(s) of AGENCIES' performance of any term(s) or condition(s) of this AGREEMENT shall not be construed as a waiver or relinquishment of LAGUNA NIGUEL's right to such performance or to future performance of such term(s) or condition(s), and AGENCIES' obligation in respect thereto shall continue in full force and effect. Changes to any portion of this Agreement shall not be binding upon LAGUNA NIGUEL except when specifically confirmed in writing by an authorized representative of LAGUNA NIGUEL by way of a written amendment to this Agreement and issued in accordance with the provisions of this Agreement.

C. AGENCIES' failure to insist on any instance(s) of LAGUNA NIGUEL'S performance of any term(s) or condition(s) of this Agreement shall not be construed as a waiver or relinquishment of AGENCIES' right to such performance or to future

performance of such term(s) or condition(s), and LAGUA NIGUEL's obligation in respect thereto shall continue in full force and effect. Changes to any portion of this Agreement shall not be binding upon AGENICES except when specifically confirmed in writing by an authorized representative of AGENCIES by way of a written amendment to this Agreement and issued in accordance with the provisions of this Agreement.

ARTICLE 2. SCOPE OF AGREEMENT

This Agreement specifies the roles and responsibilities of the PARTIES as they pertain to the subjects and PROJECT addressed herein. Both LAGUNA NIGUEL and AGENCIES agree that each will cooperate and coordinate with the other in all activities covered by this Agreement and any other supplemental agreements that may be required to facilitate purposes thereof.

ARTICLE 3. RESPONSIBILITIES OF LAGUNA NIGUEL

LAGUNA NIGUEL as the Lead Agency agrees to the following responsibilities for the implementation of the PROJECT:

A. LAGUNA NIGUEL shall serve as lead agency for design, construction and construction management of PROJECT and shall provide oversight by establishing PROJECT milestones and overseeing the PROJECT development to ensure compliance with all standards and requirements set forth in this AGREEMENT.

B. LAGUNA NIGUEL shall be responsible for completing the PROJECT in accordance with the funding guidelines and any and all other federal, state, and Orange County Transportation Authority (OCTA) requirements related to these funding programs, as well as any and all applicable statutes and regulations including, but not limited to, bidding laws, prevailing wage and other labor laws, provisions of the California Building Standards Code, and the California Environmental Quality Act (CEQA) and the Guidelines thereunder.

C. LAGUNA NIGUEL shall provide AGENCIES with a copy of all design documents for AGENCIES' approval of work to be performed in AGENCIES' jurisdictions prior to LAGUNA NIGUEL advertising for bids.

D. LAGUNA NIGUEL shall provide staff, consultants, and contractors deemed necessary and appropriate to manage, administer, coordinate and oversee engineering design and construction management of the PROJECT. LAGUNA NIGUEL shall require

all such consultants and contractors to obtain and maintain comprehensive general liability, automobile liability, workers' compensation and employers' liability, and professional liability insurance policies meeting the applicable requirements of the Consultant Contract and Bidders Specifications for the PROJECT and to indemnify, defend and hold each of the AGENCIES and their respective elected officials, officers, employees, agents and volunteers ("Indemnitees") free and harmless, including payment of attorneys' and experts' fees, with respect to any and all claims and liabilities of any kind arising out of each such contractor's acts or omissions in the performance of work on the PROJECT, to the maximum extent permitted by law. LAGUNA NIGUEL shall require all such contractors to name the Indemnitees as additional insureds on all commercial general and automobile liability policies required by LAGUNA NIGUEL for the PROJECT.

E. The budget for the PROJECT is Three Million Seven Hundred Thirty-Eight Thousand Two Hundred Seventy-Four Dollars And Thirteen Cents ($3,738,274.13). Two Million Nine Hundred Ninety Thousand Six Hundred Nineteen Dollars And Thirty Cents ($2,990,619.30) is funded by the OCTA Project P/Regional Traffic Signal Synchronization Program. Minimum PROJECT matching funds of twenty percent (20%) amount to Seven Hundred Forty-Seven Thousand Six Hundred Fifty-Four Dollars And Eighty-Three Cents ($747,654.83). LAGUNA NIGUEL's share of the match amounts to Two Hundred Twelve Thousand Nine Hundred Thirty-Two Dollars And Fifty Cents ($212,932.50), including up to Twelve Thousand Ninety Dollars And Zero Cents ($12,090.00) of in-kind services. Documentation of LAGUNA NIGUEL'S in-kind services, such as administrative services, shall meet OCTA Comprehensive Transportation Funding Program (CTFP) Guidelines.

F. LAGUNA NIGUEL shall maintain coordination with AGENCIES for construction of the PROJECT.

G. LAGUNA NIGUEL specifically shall coordinate construction activity for the PROJECT within AGENCIES and provide a schedule of the construction activity for the PROJECT within AGENCIES that is acceptable to AGENCIES. In the event of planned street closures, LAGUNA NIGUEL shall provide prior notice to, and receive approval from, the responsible AGENCY, prior to the execution of the street closure.

H. LAGUNA NIGUEL shall require AGENCIES and its officers and employees to be named as additional insured on the construction contractors' liability insurance policies.

I. LAGUNA NIGUEL shall collect manual intersection turning movement and automated machine traffic counts for the Caltrans-owned locations of Interstate 5 Northbound Off-Ramp and Interstate 5 Southbound Off-Ramp.

J. LAGUNA NIGUEL shall implement required signal improvements at the locations set forth in the Application.

K. LAGUNA NIGUEL shall implement the PROJECT based on the intent of the usage in the Application, prepared by LAGUNA NIGUEL in accordance with the policies and procedures contained in the CTFP Guidelines.

L. LAGUNA NIGUEL shall provide formats, templates, and guidance in reporting requirements as described in the CTFP Guidelines.

M. LAGUNA NIGUEL shall manage, procure, implement, and complete all aspects of the PROJECT as identified in the Application.

N. LAGUNA NIGUEL shall cooperate with the OCTA and coordinate outreach efforts for the Primary Implementation (design and construction) phase of the PROJECT.

O. LAGUNA NIGUEL shall prepare a Project Final Report (Measure M2 Ordinance No. 3, Section B.III.9) for the PROJECT. LAGUNA NIGUEL shall provide the Project Final Report for the PROJECT to AGENCIES in draft and final formats for comment, and comments shall be noted in the final study and incorporated as mutually agreed by all PARTIES.

P. LAGUNA NIGUEL shall provide ongoing maintenance and operation of optimized signal timing after the Primary Implementation phase of the PROJECT is completed and to continue such maintenance until the end of the three (3) year grant period.

P. LAGUNA NIGUEL shall provide updates to AGENCIES on the PROJECT as part of the semi-annual review process until completion of the three (3) year grant period for the PROJECT. Documents to be provided include, but are not limited to, contracts pertinent to the PROJECT and purchase orders pertinent to the PROJECT.

Q. LAGUNA NIGUEL shall invoice AGENCIES for dollar match amounts due as identified in Attachment B, at the end of each phase.

ARTICLE 4. RESPONSIBILITIES OF AGENCIES

AGENCIES agree to the following responsibilities:

A. AGENCIES shall be responsible for providing the required documentation and funding commitments for PROJECT implementation on the STATE portions of Alicia Parkway within their respective geographical jurisdictions.

B. AGENCIES shall remit to LAGUNA NIGUEL within thirty (30) calendar days of receipt of an acceptable invoice, the PROJECT matching funds as required by the Orange County Comprehensive Transportation Funding Programs.

a. ALISO VIEJO'S share of the minimum twenty percent (20%) PROJECT match amounts to Fifty-Four Thousand Three Hundred Six Dollars And Forty-Seven Cents ($54,306.47).
b. LAGUNA HILLS' share of the minimum twenty percent (20%) PROJECT match amounts to One Hundred Fifty-Nine Thousand Six Dollars And Eighty-Six Cents ($162,026.86), including up to Six Thousand Eight Hundred Eighty Dollars And Zero Cents ($6,880.00) of in-kind services.
c. MISSION VIEJO'S share of the minimum twenty percent (20%) PROJECT match amounts to Two Hundred Eighty-Three Thousand Two Hundred Ninety-Nine Dollars And Zero Cents ($283,239.00), including up to Sixteen Thousand One Hundred Eighty Dollars And Zero Cents ($16,180.00) of in-kind services.

Documentation of AGENCIES' in-kind services, such as administrative or construction inspection services, shall meet OCTA CTFP Guidelines.

C. At no cost to LAGUNA NIGUEL, AGENCIES shall provide LAGUNA NIGUEL with current intersection, local field master and/or central system timing plans and related data no later than thirty (30) calendar days subsequent to the execution of this AGREEMENT, and updates as they occur within seven (7) calendar days of the event.

D. At no cost to LAGUNA NIGUEL, AGENCIES shall provide to LAGUNA NIGUEL appropriate documents to utilize in the design and construction of infrastructure

required to implement the desired coordinated and synchronized system and operations no later than thirty (30) calendar days subsequent to the execution of this AGREEMENT, and updates as they occur within seven (7) calendar days of the update.

E. AGENCIES shall waive all costs and fees related to any and all AGENCIES required encroachment and inspection permits required by the AGENCY for the construction phase of the PROJECT.

F. At no cost to LAGUNA NIGUEL, AGENCIES shall be responsible for coordinating the construction and/or installation of traffic control elements and other items within AGENCIES' own jurisdictions that are not requested by the AGENCIES and are NOT a part of the PROJECT Scope of Work but, by necessity, must be built concurrent with the PROJECT.

G. In the event of an unanticipated cost overrun, LAGUNA NIGUEL shall meet with all AGENCIES to resolve the cost overrun. Should the PARTIES be unable to come to a resolution of the cost overrun, the AGREEMENT will terminate.

H. AGENCIES shall provide a technical representative to meet and participate as a member of the PROJECT'S Traffic Forums.

I. AGENCIES shall authorize LAGUNA NIGUEL to manage, procure, implement, and complete all aspects of the PROJECT.

J. AGENCIES shall support the PROJECT'S implementation within the timeframe outlined in the Application and consistent with the CTFP Guidelines adopted by OCTA.

K. AGENCIES shall provide LAGUNA NIGUEL all current intersection as-built drawings, all current intersections controller assembly plans as provided by the manufacturer and modified by Party since original installation, local field master, local controller, and Advanced Traffic Management System timing plans and other ITS related data upon request.

L. AGENCIES shall provide updates to LAGUNA NIGUEL on the PROJECT as part of the semi-annual review process until completion of the three (3) year grant period for the PROJECT. Documents to be provided include, but are not limited to, payroll records, contracts pertinent to the PROJECT, and purchase orders pertinent to the

PROJECT.

M. AGENCIES shall provide LAGUNA NIGUEL with a combined dollar and in-kind services match, totaling at least twenty percent (20%) of actual PROJECT costs. The Application estimate this amount to be as shown in Attachment B. PARTIES shall work with LAGUNA NIGUEL to address and mitigate budget impacts. Failure to provide local dollar match and/or evidence of in-kind services match may result in the ineligibility of future participation in competitive funding opportunities.

N. AGENCIES shall provide payment for the dollar match to LAGUNA NIGUEL within thirty (30) calendar days of receipt of an invoice

O. AGENCIES shall provide documentation of conformance as part of the semi-annual review process or as requested by LAGUNA NIGUEL, or agents of LAGUNA NIGUEL, if included an in-kind services match, as identified in Attachment B.

P. AGENCIES shall waive all cost and fees related to any and all permits that may be required of the consultant, subconsultants, and/or service or equipment providers, if such permits are required to perform any PROJECT related work within its jurisdiction

Q. To review and approve in writing the traffic synchronization signal PS&E package within the respective jurisdiction within ten working days of receipt.

ARTICLE 5. MUTUAL RESPONSIBILITIES OF THE PARTIES

The PARTIES agree to the following mutual responsibilities:

A. The PARTIES shall cooperate and coordinate their staff, contractors and consultants, in providing the services and responsibilities required under this AGREEMENT to the extent practicable with respect to the performance of the PROJECT.

B. The PARTIES agree to work together in good faith, using reasonable efforts to resolve any unforeseen issues and disputes arising out of the performance of this AGREEMENT.

C. The PARTIES shall be responsible for obtaining required STATE permits for requested improvements for their agency's jurisdiction that are a part of the PROJECT Scope of Work on the STATE portions of Alicia Parkway within their respective

geographic jurisdictions.

D. This AGREEMENT may only be modified or amended upon written agreement of all PARTIES. All modifications, amendments, changes and revisions of this AGREEMENT in whole or in part, and from time to time, shall be binding upon the PARTIES, so long as the same shall be in writing and executed by the PARTIES. No waiver of any term or conditions of this AGREEMENT shall be a continuing waiver thereof.

E. Applicable Laws and Regulations: This AGREEMENT shall be governed by all applicable federal, state and local laws and regulations. The PARTIES warrant that in the performance of this AGREEMENT, each shall comply with all applicable federal, state and local laws, statutes and ordinances and all lawful orders, rules and regulations promulgated there under.

F. Any notice sent by first class mail, postage paid, to the address and addressee, shall be deemed to have been received three (3) business days after deposit in the U.S. Mail. The representatives of the PARTIES who are primarily responsible for the administration of this AGREEMENT, and to whom notices, demands and communications shall be given are as follows:

ARTICLE 6. DELEGATED AUTHORITY

The actions required to be taken by AGENCIES in the implementation of this Agreement are delegated to its City Manager, Director of Public Works, or designee, and the actions required to be taken by LAGUNA NIGUEL in the implementation of this Agreement are delegated to its City Manager, Director of Public Works, or designee. AGENCIES acknowledges this designation of authority is authorized under their respective local rules and regulations.

ARTICLE 7. AUDIT AND INSPECTION

LAGUNA NIGUEL and AGENCIES shall maintain a complete set of records in accordance with generally accepted accounting principles. Upon reasonable notice, AGENCIES shall permit the authorized representatives of the LAGUNA NIGUEL to inspect and audit all work, materials, payroll, book, accounts, and other data and records of AGENCIES for a period or five (5) years after final payment, final closeout, or until any on-going audit is completed, whichever is later. For purposes of audit, the date of completion of this Agreement shall be the date of the LAGUNA NIGUEL'S payment of consultant's final billing (so noted on the paid invoice) under this Agreement.

LAGUNA NIGUEL shall have the right to reproduce any such books, records, and accounts, The above provision with respect to audits shall extend to and/or be included in contracts with AGENCIES' contractor.

ARTICLE 8. INDEMNIFICATION

A. To the fullest extent permitted by Law, AGENCIES shall defend (at AGENCIES' sole cost and expense with legal counsel reasonably acceptable to LAGUNA NIGUEL), indemnify, protect, and hold harmless LAGUNA NIGUEL, and its officers, directors, employees, and agents (collectively the "Indemnified Parties"), from and against any and all liabilities, actions, suits, claims, demands, losses, costs, judgements, arbitration awards, settlements, damages, demands, orders, penalties, and expenses including legal costs and attorney fees (collectively "Claims"), including but not limited to Claims arising from injuries to or death of persons (AGENCIES employees included), for damage to property, including property owned by LAGUNA NIGUEL, or from any violation of any federal, state, or local law or ordinance, alleged to

be caused by the negligent acts, omissions or willful misconduct of AGENCIES its officers, directors, employees or gents in connection with or arising out of the performance of this Agreement.

B. To the fullest extent permitted by law, LAGUNA NIGUEL shall defend (at LAGUNA NIGUEL'S sole cost with legal counsel reasonably acceptable to AGENCIES), indemnify protect, and hold harmless AGENCIES, including their officers, directors, employees, and agents (collectively the "Indemnified Parties"), from and against any an all liabilities, actions, suits, claims, demands, losses, costs, judgements, arbitration awards, settlements, damages, demands, orders, penalties, and expenses including legal costs and attorney fees (collectively "Claims"). Including but not limited to Claims arising from injuries to or deaths by AGENCIES, or from any violation of federal, state, or local law or ordinance, alleged to be caused by the negligent acts, omissions or willful misconduct of LAGUNA NIGUEL, its officers, directors, employees or agents in connection with or arising out of the performance of this Agreement.

C. The indemnification and defense obligations of this Agreement shall survive its expiration or termination.

ARTICLE 9. ADDITIONAL PROVISIONS

A. Term of Agreement: This Agreement shall continue in full force and effect through June 30, 2028.

B. Amendment: This Agreement may be extended or amended at the mutual consent of all Parties hereto. No amendment shall have any force or effect unless executed in writing and approved as to form by AGENCIES' City Attorney and the City Attorney for LAGUNA NIGUEL.

C. Termination: In the event any Party defaults in the perform of their respective obligations under this agreement of breaches any of the provisions of the Agreement, a non-default in Party(s) shall have the option to terminate the Agreements upon thirty (30) calendar days prior written notice to the Party in default

D. Termination for Convenience: Any party may terminate this Agreement for convenience by providing thirty (30) calendar days prior written notice of its intent to terminate for convenience to the other Party

E. The Parties shall comply with all applicable federal, state and local laws,

statutes, ordinances and regulations of any governmental authority having jurisdiction over the PROJECT.

F. Legal Authority: The Parties hereto consent that they are authorized to execute this Agreement on behalf of said Parties and that, by so executing this Agreement, the Parties hereto are formally bound to the provisions of this Agreement.

G. Severability: If any term, provision, covenant or condition of this Agreement is held to be invalid, void or otherwise unenforceable, to any extent, by any court of competent jurisdiction, the remainder of this Agreement shall not be affected thereby, and each term, provision, covenant or condition of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

H. Counterparts of Agreement: This Agreement may be executed and delivered in any number of counterparts, each of which, when executed and delivered shall be deemed an original and all of which together shall constitute the same Agreement. Facsimile signatures will be permitted.

I. Assignment: Neither this Agreement, nor any of the Parties' rights, obligations, duties, or authority hereunder may be assigned in whole or in part by any Party without the prior written consent of the other Party hereto in its sole and absolute discretion. Any such attempt of assignment shall be deemed void and of no force and effect. Consent to one (1) assignment shall not be deemed consent to any subsequent assignment, nor the waiver of any right to consent to such subsequent assignment.

J. Governing Law: The laws of the State of California and applicable local and federal laws, regulations and guidelines shall govern this Agreement. Any action brought relating to this Agreement shall be adjudicated in a court of competent jurisdiction in the County of Orange, State of California.

K. Litigation Fees: Should litigation arise out of this Agreement for the performance thereof, the court shall award costs and expenses, including attorney's fees, to the prevailing Party

L. Force Majeure: Either Party shall be excused from performing its obligations under this Agreement during the time and to the extent that it is prevented from performing by an unforeseeable cause beyond its control, including but not limited to; any incidence of fire, flood; acts of God; commandeering of material, products, plants

or facilities by the federal, state or local government; national fuel shortage; or a material act or omission by the other Party; when satisfactory evidence of such cause is presented to the other Party, and provided further that such nonperformance is unforeseeable, beyond the control and is not due to the fault or negligence of the Party not performing.

M. Disputes: The Parties agree to work together in good faith, using reasonable efforts to resolve any unforeseen issues and disputes arising out of the performance of this Agreement.

N. Obligations to Comply with Law: Nothing herein shall be deemed or construed to authorize or require any Party to issue bonds, notes or other evidences of indebtedness under the terms, in amounts, or for purposes other than as authorized by local, state or federal law.

O. Notices: Any notices, requests, or demands made between the Parties pursuant to this Agreement are to be directed to the contacts noted in Article 5, Paragraph E.

(Signature Page Follows)

This Agreement shall be made effective upon execution by both Parties.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed on the date of the last signature below.

RESOLUTION NO. 2023-11-14-3

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LAGUNA HILLS, CALIFORNIA, APPROVING THE SUBMITTAL OF A GRANT APPLICATION TO THE ORANGE COUNTY TRANSPORTATION AUTHORITY FOR FUNDING UNDER THE COMPREHENSIVE TRANSPORTATION FUNDING PROGRAMS

The City Council of the City of Laguna Hills, California, hereby finds, determines, declares, and resolves as follows:

WHEREAS, the City of Laguna Hills desires to participate in the joint-agency project with the cities of Aliso Viejo, Laguna Niguel, and Mission Viejo to implement the transportation improvements listed below within the City of Laguna Hills; and

- Implementation of Radar Detection at each intersection along the corridor;
- Installation of CCTV at one intersection;
- Installation of traffic signal battery back-up;
- Installation of advanced traffic signal controllers; and
- Installation of traffic signal fiber optic communication system

WHEREAS, the City of Laguna Hills has been declared by the Orange County Transportation Authority to meet the eligibility requirements to receive revenues as part of Measure M2; and

WHEREAS, the City of Laguna Hills must include all projects funded by Net Revenues in the seven-year Capital Improvement Program as part of the Measure M2 Ordinance eligibility requirement; and

WHEREAS, the City of Laguna Hills authorizes a formal amendment to the seven-year Capital Improvement Program to add projects approved for funding upon approval from the Orange County Transportation Authority Board of Directors, if necessary; and

WHEREAS, the City of Laguna Hills will provide matching funds for each project as required by the Orange County Comprehensive Transportation Funding Procedures Manual; and

WHEREAS, the City of Laguna Hills will not use Measure M2 funds to supplant Developer Fees or other commitments; and

WHEREAS, the Measure M2 Regional Traffic Signal Synchronization Program targets over 2,000 signalized intersections across Orange County to maintain traffic signal synchronization, improve traffic flow, and reduce congestion across jurisdictions; and

WHEREAS, the City of Laguna Hills has currently adopted a Local Signal Synchronization Plan consistent with the Regional Traffic Signal Synchronization Master Plan as a key component of local agencies' efforts to synchronizing traffic signals across local agencies' boundaries; and

WHEREAS, the City of Laguna Hills desires to implement multi-jurisdictional signal synchronization listed below.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF LAGUNA HILLS, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE, AND ORDER AS FOLLOWS:

SECTION 1. The City Manager is hereby authorized to submit or support applications to the Orange County Transportation Authority to allocate funds in the amounts specified in the City's applications from the Comprehensive Transportation Funding Programs. Said funds shall be matched by funds from the City of Laguna Hills as required and shall be used as supplemental funding to aid the City of Laguna Hills in the implementation of the following improvement project:

- Alicia Parkway from Ramona Street to I-5 Southbound Off-Ramp

SECTION 2. The City Council of the City of Laguna Hills delegates signature authority to the City Manager, or his designee, to facilitate the delivery of the projects.

PASSED, APPROVED, AND ADOPTED this day of 14th day of November 2023.

City of Laguna Hills
City Council / Planning Agency
Staff Report

Date: April 28, 2026
To: Mayor and Council Members
From: Eric Hendrickson, Finance Director
Issue: Adoption of Comprehensive Fee Schedule for Fiscal Year 2026/2027

Recommendation: That the City Council:

1) Conduct a public hearing; and

2) Adopt a Resolution entitled: "A Resolution of the City Council of the City of Laguna Hills, California, Establishing and Adopting Updated Development Processing Fees and Other City Rates, Charges, and User Fees for Various Governmental Services and Finding that the Action is Statutorily Exempt from the California Environmental Quality Act (CEQA) Per Section 15273 of the CEQA Guidelines and Public Resources Code Section 21080(b)(8)."

Background:

Pursuant to the provisions of the California Constitution and the laws of the State of California, the City is authorized to adopt and implement fees, rates, and charges for municipal services, provided that such fees, rates, and charges do not exceed the estimated reasonable cost of providing such services. A city has the authority to impose fees, rates, and charges under its police power. User fees in California are required to conform to the statutory requirements of the California Constitution, Proposition 218 and the California Code of Regulations, including Government Code 66000 et seq. By law, user fees may not exceed the estimated reasonable cost of providing the services for which they were levied, unless approved by a two-thirds vote of the electorate.

At the April 8, 2025, City Council meeting, the City Council adopted Resolution 2025-04-08-03. This resolution approved a recently completed fee study and adopted an updated

fee schedule based upon that study. Section 7 of that resolution authorized annual increases to the fee schedule based upon a consumer price index (CPI) factor. This is a common practice aimed at allowing revenues to keep up with expenses and the pace of inflation. The approved metric is the U.S. Bureau of Labor Statistics (BLS) consumer price index for the month of March of the preceding, corresponding year for the Los Angeles-Long Beach-Anaheim metropolitan area for all Urban Consumers. The applicable rate for March 2025 to March 2026 was 3.4%. With some exceptions, applicable fees on the attached schedule will increase by 3.4%. Also, it is important to note, there is an update to the parking permit fee to support programmatic enhancements, as well as minor cleanup language in the descriptions.

The California Government Code requires a minimum 60-day waiting period before new fees become effective. Therefore, with the proposed adoption of the attached resolution, these proposed fees are slated to become effective July 1, 2026.

Fiscal Impact:

By applying the CPI factor of 3.4% across most of the fee schedule items, the City expects increased revenue in the range of $35,000 to $45,000 annually. This increase in revenue is expected to offset the increase in expenses due to general inflation in the economy.

RESOLUTION NO. 2026-04-28-X

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LAGUNA HILLS, CALIFORNIA, ESTABLISHING AND ADOPTING UPDATED DEVELOPMENT PROCESSING FEES AND OTHER CITY RATES, CHARGES, AND USER FEES FOR VARIOUS GOVERNMENTAL SERVICES AND FINDING THAT THE ACTION IS STATUTORILY EXEMPT FROM THE CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) PER SECTION 15273 OF THE CEQA GUIDELINES AND PUBLIC RESOURCES CODE SECTION 21080(B)(8)

The City Council of the City of Laguna Hills, California, hereby finds, determines, declares, and resolves as follows:

WHEREAS, pursuant to the provisions of the California Constitution and the laws of the State of California, the City of Laguna Hills is authorized to adopt and implement fees, rates, and charges for municipal services; provided that such fees, rates, and charges do not exceed the estimated reasonable cost of providing such services; and

WHEREAS, the City retained Government Consulting Partners to review and conduct an independent, detailed analysis of City services, the cost reasonably borne by providing those services, the beneficiaries of those services, and the revenues produced by those paying fees for those services. Government Consulting Partners prepared a study and report, listing the applicable direct and indirect costs for certain services provided by the City, describing the reasonable relationship between fees, rates, and charges and the services provided by the City, and setting forth the time and method for payment of the fees, rates, and charges, which is identified as the “Comprehensive User Fee Study Report,” dated April 2025, copies of which are on file in the City Clerk’s office; and

WHEREAS, the City Council adopted Resolution 2025-04-08-03, establishing and adopting an updated fee schedule and authorizing future increases to applicable fees based upon annual Consumer Price Index inflation measures as prescribed by the U.S. Bureau of Labor Statistics; and

WHEREAS, pursuant to Government Code Section 66014, 66017, and 66018, the specific user fees to be charged for certain services must be adopted by Resolution, following notice and Public Hearing; and

WHEREAS, notice of Public Hearing has been given pursuant to Government Code Section 6062a, oral and written presentations have been made and received, and the required Public Hearing has been held; and

WHEREAS, the City of Laguna Hills desires to implement updated development processing fees and other user fees, rates, and charges for various governmental services provided by the City of Laguna Hills as set forth herein; and

WHEREAS, all legal prerequisites to the adoption of this Resolution have occurred.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF LAGUNA HILLS, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE, AND ORDER AS FOLLOWS:

SECTION 1. Adoption and Incorporation of Recitals. The recitals set forth above are true and correct and are incorporated by reference herein.

SECTION 2. Approval of Consumer Price Index Adjustment. The City Council adopted Resolution 2025-04-08-03, establishing and adopting a fee schedule based upon a Development User Fee Study dated April 2025, prepared by Government Consulting Partners. Section 7 of the aforementioned Resolution authorizes the City Council to increase applicable items in the fee schedule in accordance with the increase in the Bureau of Labor Statistics Consumer Price Index (CPI) for the month of the March of the preceding, corresponding year for the Los Angeles-Long Beach-Anaheim metropolitan area index for all Urban Consumers (or successor index). As determined by the Bureau of Labor Statistics, the CPI increase for the year ending March 2026 was 3.4%. Therefore, the City Council hereby determines and approves an increase in applicable fees by 3.4%.

SECTION 3. Adoption of User Fees. The City Council hereby approves and adopts the development processing fees and other user rates, charges, and fees set forth in the Comprehensive Fee Schedule, which is attached hereto as Exhibit “A” and incorporated herein by reference; the City Council finds that the user fees and charges established herein do not exceed the estimated reasonable cost of providing the service for which the fee is levied.

SECTION 4. Subsidized Fees. The City Council finds and determines that to promote public health, safety, and welfare, and to encourage members of the public to obtain required permits and inspections and to avail themselves of certain services, it is desirable and necessary to provide a general fund subsidy of certain user fees and charges. In furtherance of the policy, the City Council approves and adopts the subsidized user fees and charges set for in the Fee Study.

SECTION 5. Repeal of Conflicting Resolutions. Any and all provisions of prior Resolutions of the City Council establishing, adopting, or modifying user fees and charges for the specific services, programs, or products set forth in Exhibit “A” attached hereto are hereby repealed and replaced as of the effective date of the user fees and charges established herein; provided, however, that such repeal shall not excuse or affect the failure of any person or entity to pay any fee heretofore imposed upon such person or entity.

SECTION 6. Effective Date. The user fees and charges established pursuant to this Resolution shall take effect no sooner than 60 days following the adoption of this Resolution, pursuant to Government Code Section 66017. The effective date will be July 1, 2026.

SECTION 7. Annual CPI Update. The City Council hereby authorizes an annual increase to the fee schedule, for all fees and charges that can apply, established pursuant to this Resolution, commencing on July 1, 2026, and on July 1st of each fiscal year thereafter, in accordance with the increase in the Bureau of Labor Statistics Consumer Price Index (CPI) reported for the month of March of the preceding, corresponding year for the Los Angeles-Long Beach-Anaheim area for all Urban Consumers (or successor index). Notwithstanding the foregoing, in no event shall this annual update be less than zero percent (0%).

SECTION 8. Environmental Exemption. The adoption of this Resolution is exempt from the California Environmental Quality Act ("CEQA") pursuant to Section 15273 of CEQA Guidelines and Section 21080(b)(8) of the Public Resources Code; and in accordance with such determination, City staff is hereby directed to file a Notice of Exemption upon adoption of this Resolution.

SECTION 9. Severability. If any user fee, rate, or charge adopted or increased by this Resolution is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such fee, rate, or charge shall be deemed a separate, distinct, and independent provision of this Resolution, and such holding shall not affect the validity of the remaining user fees, rates, and changes adopted or revised herein. The City Council hereby declares that it would have adopted the Resolution and each section, subsection, subdivision, sentence, clause, phrase, or portion thereof, irrespective of the fact that any or more sections, subsections, subdivisions, sentences, clauses, phrases, or portions thereof be declared invalid or unconstitutional.

PASSED, APPROVED AND ADOPTED this 28th day of April 2026.

Consumer Price Index, Los Angeles area — March 2026

Area prices were up 1.1 percent over the past month, up 3.4 percent from a year ago

The Consumer Price Index for All Urban Consumers (CPI-U) for Los Angeles-Long Beach-Anaheim advanced 1.1 percent in March, the U.S. Bureau of Labor Statistics (BLS) reported today. Regional Commissioner Chris Rosenlund noted that the energy index increased 11.7 percent. The food index rose 0.4 percent, and the index for all items less food and energy rose 0.5 percent. (Data in this report are not seasonally adjusted. Accordingly, month-to-month changes may reflect seasonal influences.)

The Los Angeles area all items CPI-U rose 3.4 percent for the 12 months ending in March. The index for all items less food and energy advanced 2.8 percent over the year. Food prices advanced 3.2 percent. Energy prices rose 11.2 percent.

Chart 1. Over-the-year percent change in CPI-U, Los Angeles-Long Beach-Anaheim, CA, March 2023–March 2026

Note: The October 2025 data values are not available due to the 2025 lapse in appropriations.

View Chart Data

Food

Food prices advanced 0.4 percent for the month of March. Prices for food at home (grocery store purchases) rose 0.4 percent, with higher prices in 3 of the 6 major grocery store food groups. Prices for food away from home (restaurant, cafeteria, and vending purchases) advanced 0.4 percent for the same period.

Food prices advanced 3.2 percent over the year. Prices for food at home rose 2.9 percent, with higher prices in 4 of the 6 major grocery store food groups. Prices for food away from home advanced 3.2 percent.

Energy

The energy index advanced 11.7 percent over the month. Gasoline prices increased 21.2 percent.

Energy prices rose 11.2 percent over the year. Gasoline prices rose 18.7 percent.

All items less food and energy

The index for all items less food and energy advanced 0.5 percent in March. Among the index's components, prices were higher for apparel (+1.2 percent) and education and communication (+0.6 percent). In contrast, prices were lower for recreation (-1.8 percent) and other goods and services (-0.2 percent).

The index for all items less food and energy advanced 2.8 percent over the year. Components contributing to the increase included medical care (+3.0 percent) and shelter (+2.8 percent). In contrast, prices were lower for used cars and trucks (-4.1 percent) and recreation (-2.5 percent).

Technical Note

The Consumer Price Index (CPI) is a measure of the average change in prices over time in a fixed market basket of goods and services. The Consumer Price Index for Los Angeles is published monthly. The set of components and sub-aggregates published for regional and metropolitan indexes is more limited than at the U.S. city average level; these indexes are byproducts of the national CPI program. Each local index has a much smaller sample size than the national or regional indexes and is, therefore, subject to substantially more sampling and other measurement error. As a result, local-area indexes are more volatile than the national or regional indexes. In addition, local indexes are not adjusted for seasonal influences. **NOTE: Area indexes do not measure differences in the level of prices between cities; they only measure the average change in prices for each area since the base period.**

A full all-items data series history for the original index value and for 1-month, 2-month, 3-month, 6-month, and 12-month percent changes can be accessed via BLS data query tools. A direct link to the all-items series is provided in Table 1 of this release under historical data.

The Los Angeles-Long Beach-Anaheim, CA Core Based Statistical Area includes Los Angeles and Orange Counties in California.

Refer to the national CPI news release technical note or the Handbook of Methods for more information.

If you are deaf, hard of hearing, or have a speech disability, please dial 7-1-1 to access telecommunications relay services.

City of Laguna Hills
City Council / Planning Agency
Staff Report

Date: April 28, 2026
To: Mayor and Council Members
From: Joe Ames, Assistant City Manager
Issue: Authority to Advertise for Construction, Park Improvements for Cabot Park, El Conejo Park, MacKenzie Park, San Remo Park, and Veeh Ranch Park, CIP 241

Recommendation: That the City Council: 1. Approve the plans and specifications for Park Improvements for Cabot Park, El Conejo Park, MacKenzie Park, San Remo Park, and Veeh Ranch Park, CIP 241; 2. Authorize the advertisement for bids for Park Improvements for Cabot Park, El Conejo Park, MacKenzie Park, San Remo Park, and Veeh Ranch Park, CIP 241; 3. Authorize the City Engineer to make minor edits to the plans and specifications as necessary prior to bidding; and 4. Find that environmental review is not required under the California Environmental Quality Act (CEQA) pursuant to the California Code of Regulations, Title 14, Chapter 3, Section 15301 as a Class 1 Categorical Exemption - “Existing Facilities."

Background:

On August 26, 2025, City Council held a Special Meeting to review conceptual park designs for Cabot Park, El Conejo Park, MacKenzie Park, San Remo Park, and Veeh Ranch Park as part of Capital Improvement Project No. 241, "Park Improvements." City staff presented a report with conceptual plans for park improvements, and a list of recommended improvements to each of the parks. The list included proposed "base bid" items, "additive bid" items, and items not recommended for inclusion in the park designs. After significant discussion, City Council approved City staff's list of recommended improvements as the basis for the final design effort. The relevant pages and the recommended improvements list included in the August 26, 2025, Special Meeting Agenda Report are attached.

Since August 2025, City staff and the park design consultants, RJM Design Group, Inc. and David Volz Design (now called DVD Creative), have been working to complete final design plans for construction bidding. The park design plans and bid documents include "base bid" items and "additive bid" items that will allow for significant flexibility upon contract award.

Unfortunately, since August 2025, construction and material costs have continued to outpace general inflation measures. The park design consultants have generated new construction cost estimates that, when combined with the earmarks for playground surfacing rubber replacements at three other parks, exceed the available budget in Capital Improvement Project No. 241. However, inflation-hedging measures are available to reduce project expenses while allocating new funding sources to resolve any funding shortfalls. One potential cost-savings approach is for the City to purchase playground equipment and fixtures directly from the manufacturers, thereby limiting contractor markup and allowing project cost savings. One potential funding source is to allocate anticipated park fees from recently approved housing projects to this Project. Additionally, the earmarks within Capital Improvement Project No. 241 for playground surfacing rubber replacements at the three other parks could be recognized in a separate capital improvement project, yet to be established. Estimated project costs are included in the attached spreadsheet.

The plans, specifications, and bid documents are now complete.

For record keeping, the City Engineer has assigned the following Capital Improvement Project sub-project numbers:

CIP 241-A: Cabot Park Rehabilitation Project
CIP 241-B: El Conejo Park Rehabilitation Project
CIP 241-C: MacKenzie Park Rehabilitation Project
CIP 241-D: San Remo Park Rehabilitation Project
CIP 241-E: Veeh Ranch Park Rehabilitation Project

For ease of review, the project plans were not inserted into the bid documents and specifications as doing so would create duplication in the agenda packet.

City staff recommends approval of the plans and specifications for the park improvements to allow for contractor bidding. Once bids are received, City staff will return to City Council with recommendations for project award. If the bids, in whole or in part, exceed the available budget in Capital Improvement Project No. 241, City staff will recommend which improvements should be awarded, if any playground equipment

and fixtures should be purchased directly from manufacturers, and if any park fees not currently recognized should be allocated toward these projects.

Fiscal Impact:

The construction cost estimates and available budget is shown in the attached spreadsheet. The extensive information contained therein could not be imported into the City Clerk's agenda management software.

To summarize the spreadsheet, the estimated total construction cost for the five playgrounds, using the "base bid" construction cost estimates only, is $3,440,997.

Based on the encumbrances for design work and other associated costs, approximately $3,662,109 is available for construction. However, this assumes that no funding will be allocated for rubberized playground surfacing replacements at the Community Center, Mandeville Park, or Mendocino Park, which were originally identified as additional needs by the Public Works Department and to be included in CIP 241.

The attached spreadsheet shows options for cost savings related to direct purchase of playground equipment. City staff is also hopeful that the bids will come in under the construction cost estimates.

Fortunately, if the bids exceed the available budget and/or if City Council desires to construct any additive bid items, housing projects recently approved by the City Council are eventually expected to pay the following park fees, which could be used to fund any funding shortfall:

- Vesting Tentative Tract Map/Site Development Permit/Precise Plan/Conditional Use Permit/Parking Use Permit No. 0209-2025 (Terravita): $7,505,280
- Vesting Tentative Parcel Map/ Site Development Permit/Precise Plan/Parking Use Permit No. 0166-2023 (Oakbrook Plaza Senior Housing Project): $3,909,000
- Vesting Tentative Tract Map (VTTM)/Site Development Permit (SDP) No. USE-0211-2025 (23161 Mill Creek Drive/Toll Brothers/Khoshbin): $562,896

Upon receipt of bids, City staff will recommend which improvements should be awarded, if any playground equipment and fixtures should be purchased directly from the manufacturers, and if any park fees not currently recognized should be allocated toward these projects.

Total Work	**$**	**3,987,497.00**	*equipment direct*	*$ 219,400.00*	

City of Laguna Hills
City Council / Planning Agency
Staff Report

Date: August 26, 2025
To: Mayor and Council Members
From: Joe Ames, Interim City Manager
Issue: Review and Selection of Proposed Park Designs for Cabot Park, El Conejo Park, MacKenzie Park, San Remo Park, and Veeh Ranch Park, CIP 241

Recommendation: That the City Council approve City staff's recommended list of proposed renovations for Cabot Park, El Conejo Park, MacKenzie Park, San Remo Park, and Veeh Ranch Park, and authorize City staff to proceed with developing final design plans and specifications.

Background:

At the November 21, 2023, City Council meeting, City Council transferred all available Quimby Act Park In-Lieu funds to Capital Improvement Project No. 241, General Park Improvements. The Quimby Act Park In-Lieu funds, which are funds local developers pay as “in lieu” park fees, must be spent by the City on developing new parks, or rehabilitating or enhancing existing parks or recreational facilities/recreational amenities, and must be committed within five years of receiving the funding. The first $2 million allocation was received in July 2022, and the second $2 million allocation is expected to be received in April 2026. As such, it is imperative that the first round of funding gets committed and allocated towards construction contracts by July 2027.

As part of the November 21, 2023, City Council meeting report, City staff wrote that they evaluated all 14 of the City’s parks and prioritized proposed park rehabilitation and/or enhancement improvements, primarily focusing on the condition of existing playgrounds as the metric for prioritizing park improvements. Of the 14 parks, City staff chose eight (8) parks as the ones with the highest need for improvements based upon the age and condition of the existing playgrounds, and provided estimated budgets and recommended minimum scope of work at each park. Five of the eight parks were

determined to need playground structure replacements: Cabot Park, El Conejo Park, MacKenzie Park, San Remo Park, and Veeh Ranch Park. Three more parks were identified as needing rubberized play surfacing replacements: Community Center/Dinosaur Park, Mandeville Park, and Mendocino Park.

On May 14, 2024, the City Council awarded Professional Services Agreements to RJM Design Group (RJM) for landscape architectural design services for Cabot Park, San Remo Park, and Veeh Ranch Park, and to David Volz Design Landscape Architects, Inc. (DVD) for landscape architectural design services for El Conejo Park and MacKenzie Park.

In August 2024, both RJM and DVD held two in-person public workshops at each park to elicit public input for potential park improvements. Additionally, during August 2024, both RJM and DVD conducted surveys for residents to provide comments and suggestions on park improvements that were then presented to the Parks and Recreation Commission at Special Meetings held on September 16 and September 18, 2024, and to the City Council at a Special Meeting on February 4, 2025. The public participated in and provided feedback at all meetings.

Based upon feedback from both the Parks and Recreation Commission and City Council, the consultants developed three (3) proposed conceptual park improvement designs that are "low," "medium," and "high" cost designs for each park. The "low" cost designs were expected to align with the available budget in CIP 241.

As part of the feedback received, City staff also understood that Cabot Park may benefit from additional value engineering to determine if the existing age 5-12 playground “super structure” (the upright posts) could be reused in order to potentially provide funding for the renovation of the existing adjoining restroom building, which City staff determined needs renovation. In October and November 2024, City staff worked with RJM to develop a scope and budget for this work but ultimately concluded that this additional scope of work would not be entirely offset by reusing the age 5-12 playground super structure. (However, as noted in the proposed recommended improvements, this additional work is recommended.)

With this additional information in mind, on May 28, 2025, the consultants presented at a Parks and Recreation Commission Special Meeting the proposed "low," "medium," and "high" cost conceptual designs for each park. City staff indicated that based upon the funding available, the "low" cost designs are within the available budget in CIP 241, if the April 2026 Quimby Act Park In-Lieu fees are included. The Parks and Recreation Commission provided feedback on the alternatives, recommending the "low" cost

conceptual designs, but also recommending that City bid out some elements from the "medium" cost conceptual designs as alternative or additive bid items.

Since May, City staff reviewed the cost estimates provided by the consultants and further refined the scope of work for each park, identifying potential cost savings and additional improvements that could be bid out as alternative or additive bid items. City staff, RJM, and DVD are now bringing the conceptual park improvement designs before the City Council. City staff recommends that the City Council approve the recommended list of renovations for each park as the basis for final design efforts for each park. If approved, RJM and DVD will develop final design plans and specifications. It is City staff's intention that items listed as "proposed additive bid items" also be included in the final design efforts and bid out. Dependent on the bid results, City Council may choose to include some of these additive bid items in the construction contracts. City staff will return to City Council with the final design plans and specifications for review and approval prior to authorization to advertise for bids.

Fiscal Impact:

CIP No. 241 (General Park Renovations) was active in fiscal year 2024/2025 with an appropriated budget of $2,248,209.68, which included $2,004,696.68 in Quimby Act Park In-Lieu fees and $243,513.00 in Park Equipment Reserve funding. The project is still active in fiscal year 2025/2026, and the City anticipates to receive $2 million of additional Quimby Act Park In-Lieu fees in April 2026. During the biennial budget process, the City Council allocated these funds towards CIP No. 241. This brings the total budget allocation to $4,248,209.68.

After factoring in the payments for design services to the consulting firms totaling $580,000 and reserving a portion of the budget for rubberized play surfacing replacements at the Community Center/Dinosaur Park, Mandeville Park, and Mendocino Park totaling $546,500, there is a projected unencumbered balance of $3,121,709 remaining for construction purposes.

While the "base bid" recommended list of park renovations totals $3,294,455 and exceeds the projected unencumbered balance for construction, it is City staff's and the consultant's opinion that there will be additional cost savings realized when bidding out all five parks at the same time. Alternatively, depending on the results of the bidding process, City Council may choose to fund rubberized play surfacing replacements at the Community Center/Dinosaur Park, Mandeville Park, and Mendocino Park using General Fund reserves thereby increasing the unencumbered balance for construction purposes for renovation of the five parks.

City Staff Recommendations for Improvements

These recommendations are, in part, based on input from Parks & Recreation Commission Meeting of May 28, 2025 plus additional value engineering analysis performed by City staff.

Cabot Park

Estimated Cost of Renovation $696,323

"What We Get": Proposed Items for Inclusion in a Base Bid	Proposed Additive Bid Items	EST.	"What We Don't Get": Proposed Items Not Bid Out	Est.
1. Baseball themed playground with new rubber surfacing	1. Handrail Renovation	$60k	1. Irrigation upgrade	$53.3K
2.Park Monument Sign	2. Drinking Fountain	$8k	2. Planting	$19.8K
3.(2) Concrete Tables	3. Upgraded Park Security Lighting	$47.5k		
4. (7) Benches				
5. (15) Waste Receptacles				
6. Restroom Renovation				

Veeh Ranch Park

Estimated Cost of Renovation $640,275

"What We Get": Proposed Items for Inclusion in a Base Bid	Proposed Additive Bid Items	EST.	"What We Don't Get": Proposed Items Not Bid Out	Est.
1. Low Cost Alternative Playground (all levels offer the same equip.) w/ new rubber surfacing	1. Shade canopy for playground equipment not swing bay	$67.5k	1. Fitness equipment	$30k
2. Park Security Lighting			2. (1 extra) Concrete Table	$2.5K
3. Park Monument sign			3. (6 extra) Concrete Benches	$21K
4. (2) Concrete Tables			4. (1 extra) Waste Receptacle	$1.2K
5. (3) Benches			5. Drinking Fountain	$8K
6. (3) Waste Receptacles			6.Expanded hardscape by play area	$102.5K

San Remo Park

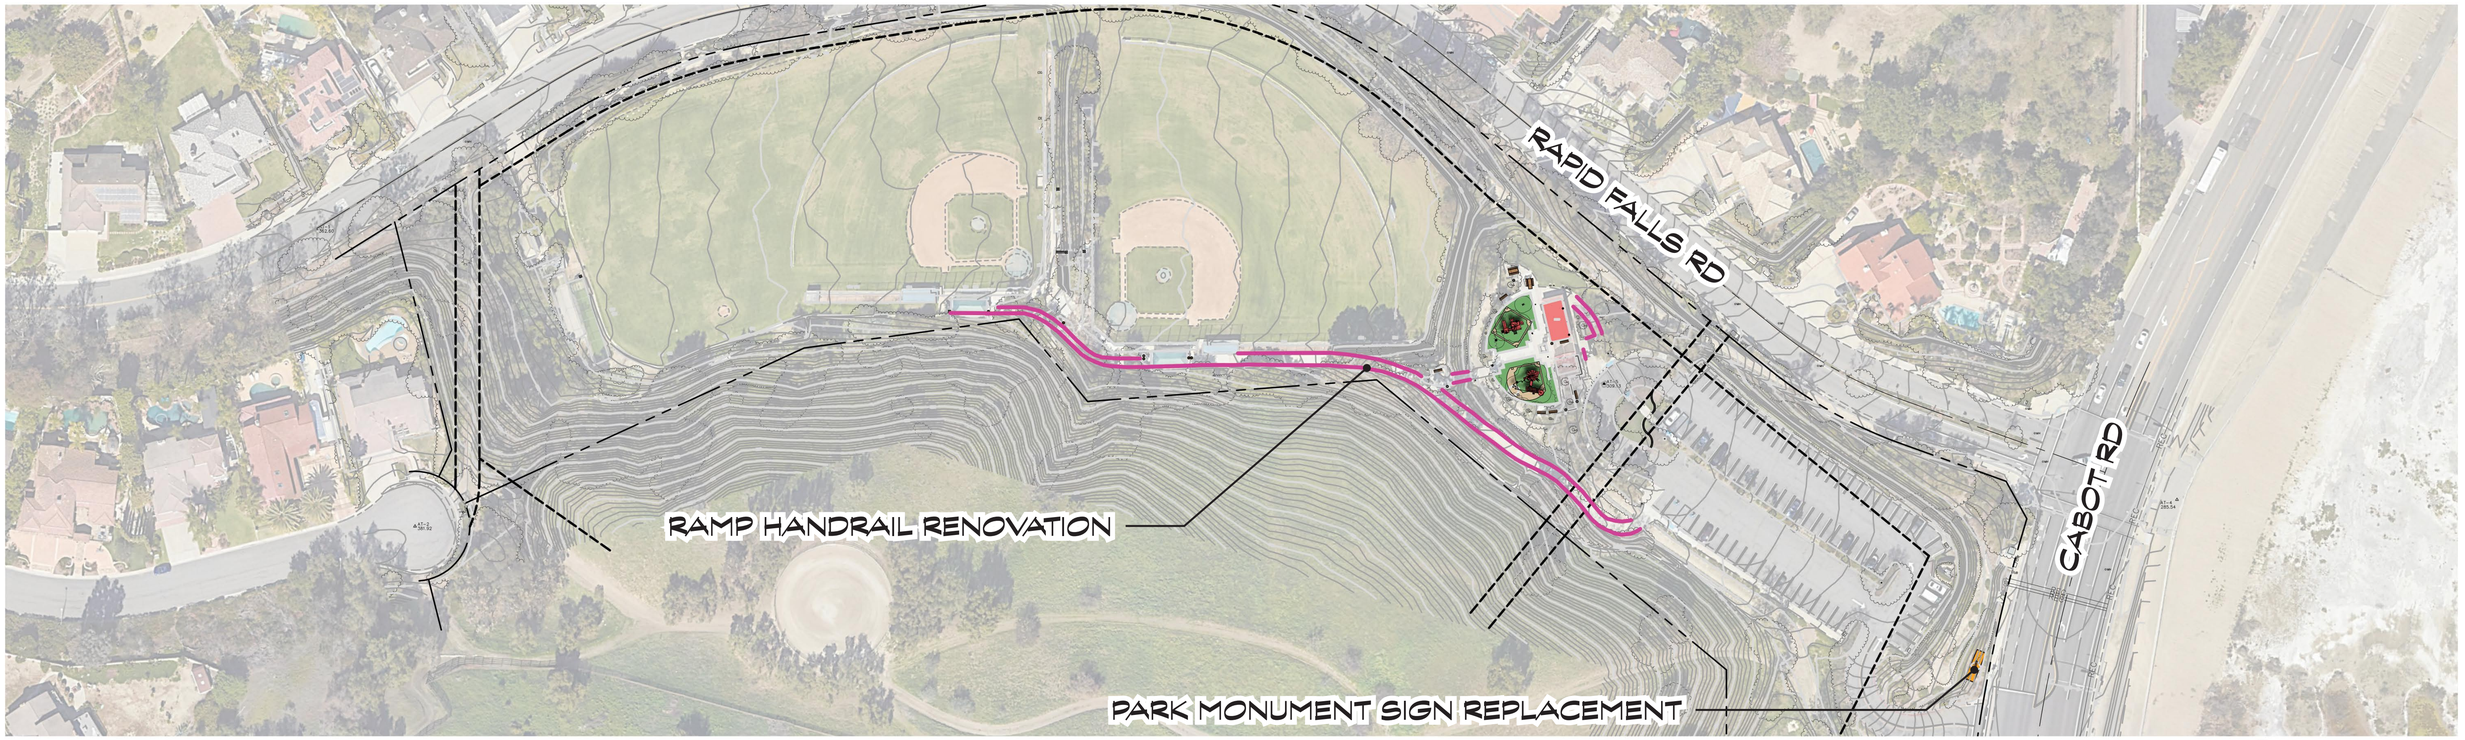
Estimated Cost of Renovation $569,333

"What We Get": Proposed Items for Inclusion in a Base Bid	Proposed Additive Bid Items	EST.	"What We Don't Get": Proposed Items Not Bid Out	EST.
1. Low Cost Alternative Playground w/ new rubber surfacing	1. Expanded play w/swing and shade	$112K	1. Tennis Court and Tennis Lighting Reno	$77.2K
2. Park Monument Sign	2. (2) Concrete Benches (play area)	$7K	2. Additional 306 sq ft of picnic area	$5.8K
3. Medium Level Picnic Seating Level	3. New Drinking Fountain with Service line	$12.4K	3. (1) Concrete table (picnic area)	$3.5K
	4. Exercise Exquipment	$12K	4. Additional landscaping at Picnic Area	$2.7K
	5. (2) Concrete Benches (play area)	$7K		
	6. Additional Park benches (in the trees)	$8.2K		

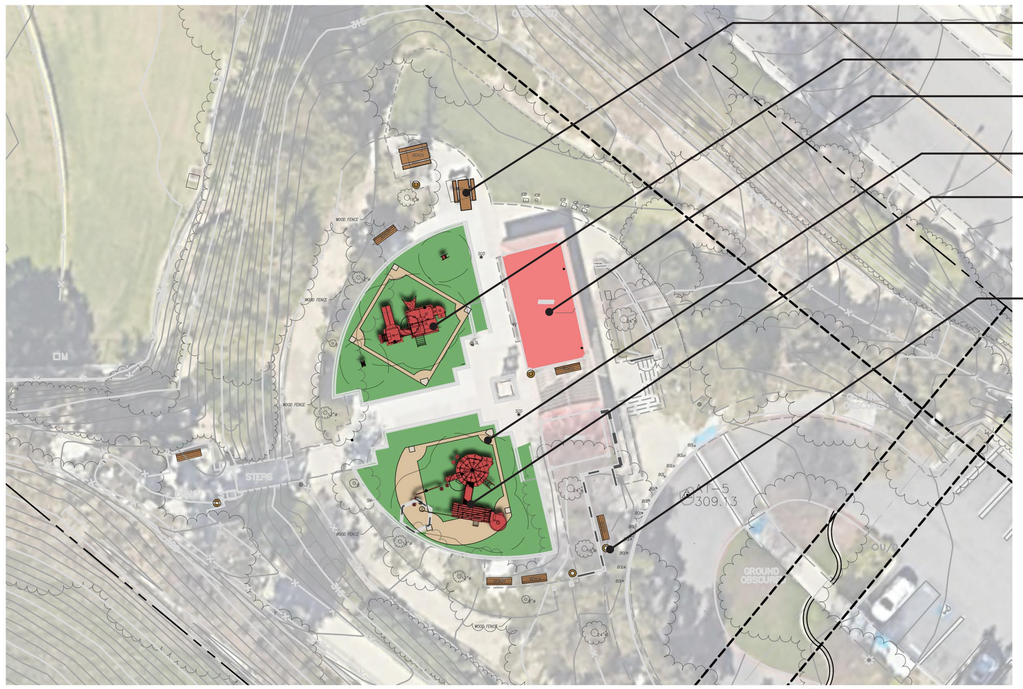
City Staff Recommendations for Improvements

Mackenzie Park

Estimated Cost of Renovation $637,385



"What We Get": Proposed Items for Inclusion in a Base Bid	Proposed Additive Bid Items	EST.	"What We Don't Get": Proposed Items Not Bid Out	EST.
1. Low Cost Alternative Playground w/new rubber surfacing (previously was Medium level playground)	1. (2) Picnic Tables	$13.5K	1. Expanded Playground w/ new lighting	$415.1K
2. Park Mounment Sign	2. (4) Concrete Benches	$13K	2. Expanded picnic area	$26.9K
3. Drinking Fountain	3. Reconstruction of some perimeter walkways	$35.5K	3. Dog Park	$377.1K
4. ADA Compliant Tennis Court Entry + new planting			4. Reconstruction of perimeter walkways	$87.8K



El Conejo Park

Estimated Cost of Renovation $751,139

"What We Get": Proposed Items for Inclusion in a Base Bid	Proposed Additive Bid Items	EST.	"What We Don't Get": Proposed Items Not Bid Out	EST.
1. Low Level Playground. w/ new rubber surface	1. Picnic Tables and BBQ Replacement	$36,800	1. Fitness Stations	$103.1K
2. Drinking Fountain	2. Med level play equipment and seating	$234K	2. High Level Plagyround	$286K
3. Park Mounument Sign	3. Hillside Erosion Control drain	$11.7K	3. Rebuild "creek" with boulders	$101.7K
4. ADA compliant park and playground entry pathway	4. (3) new playground benches			
5. "Creek" removal and new underground pipe				

Total Estimated Cost of 5 Park Renovations - Base Bid ("What We Get" Items) as described above: $3,294,455

ADDITIVE BID IMPROVEMENTS

CABOT PARK

CITY OF LAGUNA HILLS, CALIFORNIA

CABOT PARK IMPROVEMENT PROJECT

28345 RAPID FALLS ROAD

CITY OF LAGUNA HILLS, CA

GENERAL NOTES:

A. ALL WORK SHALL BE DONE IN ACCORDANCE WITH THE APPLICABLE SECTIONS OF APWA STANDARD PLANS AND SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION AND STATE STANDARD SPECIFICATIONS, UNIFORM BUILDING CODE, UNIFORM PLUMBING CODE, NATIONAL ELECTRICAL CODE, ALL SAFETY ORDERS OF THE STATE INDUSTRIAL COMMISSION, TITLE 3, RULES AND REGULATIONS OF THE NATIONAL BOARD OF FIRE UNDERWRITING, STATE OF CALIFORNIA TITLE 24, SECTION T-20-1401 THROUGH T-20-1406, AND TITLE 20, SECTION 1401-1406 ENERGY REGULATIONS.

B. THE DESIGN ADEQUACY AND SAFETY OF EXCAVATION, ERECTION, BRACING, SHORING, TEMPORARY SUPPORTS, ETC., IS THE SOLE RESPONSIBILITY OF THE CONTRACTOR, AND HAS NOT BEEN CONSIDERED BY THE LANDSCAPE ARCHITECT OR STRUCTURAL ENGINEER OR CONSULTANTS. THE CONTRACTOR IS RESPONSIBLE FOR PROVIDING THE NECESSARY SAFETY PRECAUTIONS AND MEASURE NECESSARY TO EXECUTE THE WORK. OBSERVATION VISITS TO THE SITE BY THE LANDSCAPE ARCHITECT OR ANY OF HIS CONSULTANTS SHALL NOT INCLUDE INSPECTION OF THE ABOVE ITEMS.

C. DO NOT WILLFULLY PROCEED WITH CONSTRUCTION AS DESIGNED WHEN IT IS OBVIOUS THAT UNKNOWN AND / OR GRADE DIFFERENCES EXIST THAT MAY NOT HAVE BEEN KNOWN DURING DESIGN. SUCH CONDITIONS SHALL BE IMMEDIATELY BROUGHT TO THE ATTENTION OF THE CITY'S REPRESENTATIVE.

D. THE CONTRACTOR SHALL NOTIFY THE CITY'S REPRESENTATIVE TWO (2) WORKING DAYS PRIOR TO START OF CONSTRUCTION.

E. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO CONDUCT THEIR OPERATIONS IN SUCH A MANNER SO AS TO PREVENT DAMAGE TO EXISTING SUBSTRUCTURES. IN THE EVENT OF SUBSTRUCTURE DAMAGE, THE CONTRACTOR SHALL BEAR FULL RESPONSIBILITY AND TOTAL EXPENSE FOR REPAIR AND / OR REPLACEMENT OF SAID SUBSTRUCTURE.

F. THE CONTRACTOR SHALL PROVIDE 72-HOUR NOTICE TO AFFECTED UTILITIES WHEN RELOCATION IS REQUIRED.

G. THE CONTRACTOR SHALL NOT CONDUCT ANY OPERATIONS OR PERFORM ANY WORK PERTAINING TO THE PROJECT BETWEEN THE HOURS OF 5:00 P.M. AND 7:00 A.M. ON ANY DAY NOR SUNDAY, OR HOLIDAYS AT ANY TIME EXCEPT AS APPROVED BY THE CITY.

H. THE CONTRACTOR SHALL NOT BLOCK DRIVEWAYS OR VEHICULAR TRAFFIC DURING THE PROCESS OF CONSTRUCTION.

I. THE CONTRACTOR SHALL COMPLY WITH CITY TRAFFIC CONTROL STANDARDS DURING CONSTRUCTION.

J. CONTRACTOR SHALL NOTIFY UNDERGROUND SERVICE ALERT BEFORE START OF CONSTRUCTION (811).

K. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL EROSION CONTROL DURING CONSTRUCTION AND MAINTENANCE PERIOD.

L. CONTRACTOR MAY REQUEST THE USE OR SUBSTITUTION OF ENVIRONMENTALLY PREFERABLE PRODUCTS & RECYCLED PRODUCTS, WHENEVER PRACTICABLE & COST EFFECTIVE.

M. ALL REVISIONS & CHANGE ORDERS TO THE APPROVED LANDSCAPE ARCHITECTURAL PLANS & SPECIFICATIONS ARE SUBJECT TO REVIEW & APPROVAL BY THE CITY BEFORE WORK MAY CONTINUE.

N. THE CONTRACTOR SHALL BE RESPONSIBLE FOR INSTALLING A 6' HIGH TEMPORARY CHAINLINK CONSTRUCTION FENCE WITH LOCKABLE GATES AROUND ALL CONSTRUCTION AREAS. FENCING SHALL BE PROVIDED WITH CONTINUOUS GREEN MESH WINDSCREEN SECURELY FASTENED AT ALL CORNERS. FENCING SHALL INCLUDE SUFFICIENT SANDBAGS TO KEEP THE FENCE IN PLACE THROUGHOUT CONSTRUCTION. CONTRACTOR SHALL MAINTAIN FENCING UNTIL CITY'S ACCEPTANCE OF THE WORK. CONTRACTOR TO MAINTAIN 24/7 VEHICULAR ACCESS TO BOTH THE PARK & LIFT STATION.

O. CONTRACTOR SHALL BE RESPONSIBLE FOR SECURING ALL NECESSARY PERMITS.

P. THE CONTRACTOR SHALL MAINTAIN SANITARY TOILET FACILITIES DURING CONSTRUCTION AS REQUIRED BY APPLICABLE REGULATIONS.

Q. THE GENERAL CONTRACTOR WARRANTS TO THE CITY AND THE LANDSCAPE ARCHITECT THAT ALL MATERIALS AND EQUIPMENTFURNISHED WILL BE NEW UNLESS OTHERWISE SPECIFIED, AND THAT ALL WORK WILL BE OF GOOD QUALITY, FREE FROM FAULTS AND DEFECTS.

R. PAVING, MASONRY AND CONCRETE SUBCONTRACTORS ARE TO COORDINATE WITH THE IRRIGATION SUBCONTRACTOR FORSLEEVING, PIPING AND/OR CONDUIT INSTALLATION UNDER OR THROUGH HARDSCAPE ELEMENTS.

S. THE CONTRACTOR SHALL VERIFY ALL PROPERTY LINES OR LIMIT OF WORK LINES PRIOR TO COMMENCING WORK.

T. IN THE CASE OF DISCREPANCIES IN THE DRAWINGS, SPECIFICATIONS SHALL TAKE PRECEDENCE OVER DETAILS, AND DETAILS SHALL TAKE PRECEDENCE OVER PLANS.

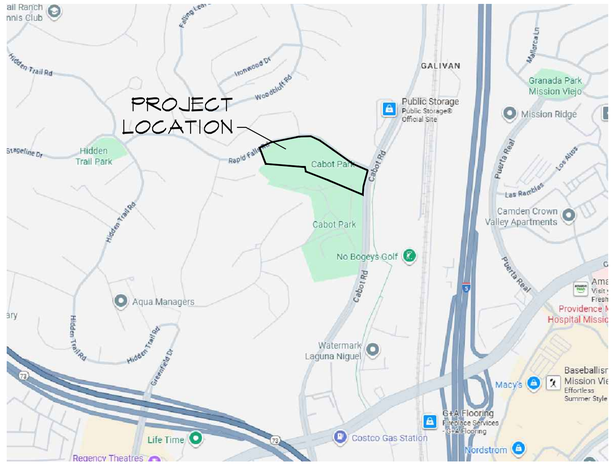
U. THE CONTRACT DRAWINGS AND SPECIFICATIONS REPRESENT THE FINISHED PROJECT UNLESS OTHERWISE SHOWN; THEY DO NOT INDICATE THE METHOD OF CONSTRUCTION. THE GENERAL CONTRACTOR SHALL SUPERVISE AND DIRECT THE WORK, AND SHALL BE SOLELY RESPONSIBLE FOR ALL CONSTRUCTION MEANS, METHODS, TECHNIQUES, SEQUENCES AND PROCEDURES. OBSERVATION VISITS TO THE SITE BY FIELD REPRESENTATIVES OF THE LANDSCAPE ARCHITECT AND THEIR CONSULTANTS SHALL NOT INCLUDE INSPECTIONS OF THE PROTECTIVE MEASURES OR THE CONSTRUCTION PROCEDURES REQUIRED FOR SAME, WHICH ARE THE SOLE RESPONSIBILITY OF THE GENERAL CONTRACTOR. ANY SUPPORT SERVICES PERFORMED BY THE LANDSCAPE ARCHITECT AND THEIR CONSULTANTS DURING CONSTRUCTION SHALL BE DISTINGUISHED FROM CONTINUOUS AND DETAILED INSPECTION SERVICES, WHICH ARE FURNISHED BY OTHERS. THESE SUPPORT SERVICES PERFORMED BY THE LANDSCAPE ARCHITECT AND THEIR CONSULTANTS, WHETHER OF MATERIALS OR WORK, AND WHETHER PERFORMED PRIOR TO, DURING OR AFTER COMPLETION OF CONSTRUCTION, ARE PERFORMED SOLELY FOR THE PURPOSE OF ASSISTING IN QUALITY CONTROL AND IN ACHIEVING CONFORMANCE WITH CONTRACT DRAWINGS AND SPECIFICATIONS BUT THEY DO NOT GUARANTEE GENERAL CONTRACTOR'S PERFORMANCE, AND SHALL NOT BE CONSTRUED AS SUPERVISION OF CONSTRUCTION.

V. PLANT MATERIAL SUPPLIER AND/OR LANDSCAPE CONTRACTOR SHALL PROVIDE GUARANTEED EVIDENCE TO THE CITY THAT ALL PLANT MATERIAL IS CONSISTENT WITH THE APPROVED PLANT LEGEND CONSIDERING GENUS, SPECIES, CULTIVARS, & SIZE SPECIFIED. ALL PLANT MATERIAL NOT CONSISTENT WITH THE PLANT LEGEND MAY BE REJECTED.

SURVEY RESPONSIBILITY NOTES:

A. CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR PROVIDING COMPLETE, TIMELY AND ACCURATE FIELD LAYOUT OF THE PROPOSED SITE IMPROVEMENTS INCLUDING, BUT NOT NECESSARILY LIMITED TO, HORIZONTAL AND VERTICAL CONTROL AND DIMENSIONAL COORDINATION AS NECESSARY TO CONSTRUCT THE WORK IN ACCORDANCE WITH THE CONTRACT DOCUMENTS. THIS SURVEY WORK SHALL BE PERFORMED BY A LICENSED LAND SURVEYOR AND SHALL PROVIDE FOR THE SURVEY AND STAGING OF ALL CONSTRUCTION ELEMENTS INCLUDING BUT NOT LIMITED TO BUILDING LOCATIONS, PAVING EDGES/ALIGNMENT FENCING, WALLS, LIGHT FIXTURES, SIGNS, MOW CURBS, SPECTATOR SEATING, SHADE STRUCTURES, HOME PLATES, BASE LINES, CURB AND GUTTER ALIGNMENTS, CATCH BASINS, DRAINS, ETC.

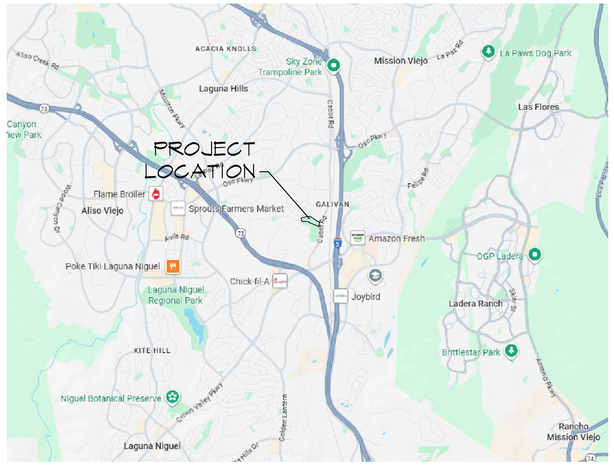
B. AN AUTOCAD-COMPATIBLE .DNG FILE OF THE PROPOSED IMPROVEMENTS SHALL BE PROVIDED TO THE CONTRACTOR PRIOR TO THE START OF CONSTRUCTION FOR THEIR USE IN PREPARING THE NECESSARY FIELD SURVEYING / LAYOUT OF PROPOSED IMPROVEMENTS. THE USE OF THIS DIGITAL FILE SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR AND IS INTENDED TO ASSIST THE SURVEYOR IN THE LAYOUT OF THE PROPOSED IMPROVEMENTS.



C. THE DIGITAL INFORMATION PROVIDED BY RJM DESIGN GROUP, INC. SHALL NOT BE USED FOR ANY PURPOSE OTHER THAN FOR THE PROJECT DESCRIBED ABOVE AND SHALL NOT BE RELEASED TO ANY OTHER PARTY WITHOUT THE WRITTEN CONSENT OF RJM DESIGN GROUP, INC. THE INFORMATION CONTAINED ON THE ELECTRONIC MEDIA IS AN INSTRUMENT OF PROFESSIONAL SERVICES AND SHALL REMAIN THE PROPERTY OF RJM DESIGN GROUP, INC.

UTILITY LOCATOR NOTES:

FOR CONSTRUCTION WORK LOCATED ON, AND ADJACENT TO THE PROJECT SITE, CONTRACTOR TO CONDUCT THE FOLLOWING:



1. PRIOR TO COMMENCEMENT OF WORK, THE CONTRACTOR SHALL RETAIN AN INDEPENDENT UTILITY LOCATOR COMPANY, AT THEIR OWN EXPENSE, TO VERIFY ALL EXISTING UTILITY LOCATIONS, HEIGHTS, AND DEPTHS THROUGHOUT THE ENTIRE WORK AREA. THE UTILITY LOCATOR SHALL DETERMINE THE SIZE, AND TYPE OF ALL UTILITIES, AND IF DIRECT BURIED, OR IN CONDUIT.
2. THE CONTRACTOR SHALL REPORT ALL UTILITY LOCATIONS, HEIGHTS, DEPTHS, AND CONDITIONS TO THE CITY'S REPRESENTATIVE AND/OR LANDSCAPE ARCHITECT PRIOR TO COMMENCEMENT OF WORK. THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR ALL NECESSARY FIELD CORRECTIONS DUE TO FAILURE TO RETAIN AN INDEPENDENT UTILITY LOCATOR COMPANY AND/OR REPORT FINDINGS TO THE CITY'S REPRESENTATIVE AND/OR LANDSCAPE ARCHITECT.
3. FOR CONSTRUCTION WORK WITHIN THE PUBLIC RIGHT OF WAY, CONTACT DIGALERT AT 811, TO VERIFY ALL EXISTING UTILITY LOCATIONS, HEIGHTS, DEPTHS, SIZES, AND TYPE, AND IF DIRECT BURIED, OR IN CONDUIT.
4. CITY-ISSUED ENCROACHMENT PERMIT IS REQUIRED FOR POTHOLING TO VERIFY EXISTING LOCATION OF UTILITIES.
5. UTILITY LOCATOR FEES WILL BE WAIVED.

LOCATION MAP:

SCALE: N.T.S.

VICINITY MAP:

SCALE: N.T.S.

PROJECT MAINTENANCE:

- CITY PROJECT, ALL LANDSCAPE MAINTENANCE WILL BE HANDLED BY CITY CONTRACTED MAINTENANCE PROVIDERS.

SUBMITTALS:

1. 1ST SUBMITTAL - 11/05/2025
2. 2ND SUBMITTAL - 12/23/2025
3. 3RD SUBMITTAL - 03/05/2026

RECORD DRAWINGS:

CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR PROVIDING COMPLETE, TIMELY AND ACCURATE AS-BUILT DRAWINGS OF THE COMPLETE, INSTALLED SITE IMPROVEMENTS. CONTRACTOR'S AS-BUILT DRAWINGS WILL BE TURNED OVER TO THE CITY/PROJECT LANDSCAPE ARCHITECT FOR THE COMPLETION OF RECORD DRAWINGS FOR CITY FILES.

PRECISE GRADING PLANS
FOR
CABOT PARK IMPROVEMENTS
CITY OF LAGUNA HILLS
COUNTY OF ORANGE, CA
STATE OF CALIFORNIA

STANDARD GRADING NOTES

1. ALL WORK SHALL BE IN ACCORDANCE WITH THE GRADING CODE OF THE CITY OF LAGUNA HILLS AND ANY SPECIAL REQUIREMENTS OF THE PERMIT. A COPY OF THE GRADING CODE AND MANUAL SHALL BE RETAINED ON THE JOB SITE WHILE WORK IS IN PROGRESS. WHEN REFERENCED ON THE PLANS, A COPY OF ORANGE COUNTY PUBLIC WORKS STANDARD PLANS AND STANDARD PLANS FOR PUBLIC WORKS CONSTRUCTION SHALL ALSO BE RETAINED ON THE SITE.
2. GRADING SHALL NOT BE STARTED WITHOUT FIRST NOTIFYING THE GRADING INSPECTOR. A PRE-GRADING MEETING ON THE SITE IS REQUIRED BEFORE START OF GRADING WITH THE FOLLOWING PEOPLE PRESENT: OWNER, GRADING CONTRACTOR, DESIGN CIVIL ENGINEER, SOIL ENGINEER, ENGINEERING GEOLOGIST, GRADING INSPECTOR AND WHEN REQUIRED, THE ARCHAEOLOGIST AND PALEONTOLOGIST. THE REQUIRED INSPECTIONS FOR GRADING WILL BE EXPLAINED AT THIS MEETING.
3. ISSUANCE OF A GRADING PERMIT DOES NOT ELIMINATE THE NEED FOR AN EROSION CONTROL PLAN OR PERMITS FROM OTHER AGENCIES WITH REGULATORY RESPONSIBILITIES FOR CONSTRUCTION ACTIVITIES ASSOCIATED WITH THE WORK AUTHORIZED ON THIS PLAN.
4. THE GRADING PERMIT AND AN APPROVED COPY OF THE GRADING PLAN SHALL BE ON THE PERMITTED SITE WHILE WORK IS IN PROGRESS.
5. PRELIMINARY SOIL AND GEOLOGY REPORTS, AND ALL SUBSEQUENT REPORTS AS APPROVED BY THE CITY, ARE CONSIDERED A PART OF THE APPROVED GRADING PLAN.
6. THE SOILS ENGINEER AND ENGINEERING GEOLOGIST SHALL PERFORM SUFFICIENT INSPECTIONS AND BE AVAILABLE DURING GRADING AND CONSTRUCTION TO VERIFY COMPLIANCE WITH THE PLANS, SPECIFICATIONS, AND THE CODE WITHIN THEIR PURVIEW.
7. THE CIVIL ENGINEER SHALL BE AVAILABLE DURING GRADING TO VERIFY COMPLIANCE WITH THE PLANS, SPECIFICATIONS, CODE AND ANY SPECIAL CONDITIONS OF THE PERMIT WITHIN THEIR PURVIEW.
8. THE SOILS ENGINEER AND ENGINEERING GEOLOGIST SHALL, AFTER CLEARING AND PRIOR TO THE PLACEMENT OF FILL IN CANYON, INSPECT EACH CANYON FOR AREAS OF ADVERSE STABILITY AND DETERMINE THE PRESENCE OR ABSENCE OF SUBSURFACE WATER OR SPRING FLOW. IF NEEDED, SUBDRAINS WILL BE DESIGNED AND CONSTRUCTED PRIOR TO THE PLACEMENT OF FILL IN EACH RESPECTIVE CANYON.
9. SUBDRAIN OUTLETS SHALL BE COMPLETED AT THE BEGINNING OF THE SUBDRAIN CONSTRUCTION.
10. THE EXACT LOCATION OF THE SUBDRAINS SHALL BE SURVEYED IN THE FIELD FOR LINE/GRADE AND SHOWN ON AS-GRADED PLANS.
11. AREAS TO RECEIVE FILL SHALL BE PROPERLY PREPARED AND APPROVED IN WRITING BY THE SOILS ENGINEER AND THE GRADING INSPECTOR PRIOR TO PLACING FILL.
12. FILLS SHALL BE BENCHED INTO COMPETENT MATERIAL PER ORANGE COUNTY PUBLIC WORKS STANDARD PLAN NO. 1322.
13. ALL EXISTING FILLS SHALL BE APPROVED BY THE GRADING INSPECTOR OR REMOVED PRIOR TO PLACING ADDITIONAL FILLS.
14. FILLS SHALL BE COMPACTED THROUGHOUT TO A MINIMUM OF 90% RELATIVE COMPACTION. AGGREGATE BASE FOR ASPHALTIC AREAS SHALL BE COMPACTED TO A MINIMUM OF 95% RELATIVE COMPACTION. MAXIMUM DENSITY BY UNIFORM BUILDING CODE STANDARD NO. 70-1 OR APPROVED EQUIVALENT AND FIELD DENSITY BY UNIFORM BUILDING CODE STANDARD NO. 70-2 OR APPROVED EQUIVALENT.
15. CUT AND FILL SLOPES SHALL BE NO STEEPER THAN 2 FOOT HORIZONTAL TO 1 FOOT VERTICAL (2:1) EXCEPT WHERE SPECIFICALLY APPROVED OTHERWISE.
16. ALL CUT SLOPES SHALL BE INVESTIGATED BOTH DURING AND AFTER GRADING BY THE ENGINEERING GEOLOGIST TO DETERMINE IF ANY SLOPE STABILITY PROBLEM EXISTS. SHOULD EXCAVATION DISCLOSE ANY GEOLOGICAL HAZARDS OR POTENTIAL GEOLOGICAL HAZARDS, THE ENGINEERING GEOLOGIST SHALL SUBMIT RECOMMENDED TREATMENT TO THE GRADING INSPECTOR FOR APPROVAL.
17. WHERE SUPPORT OR BUTTRESSING OF CUT AND NATURAL SLOPES IS DETERMINED TO BE NECESSARY BY THE ENGINEERING GEOLOGIST AND SOIL ENGINEER, THE SOIL ENGINEER SHALL SUBMIT DESIGN, LOCATION AND CALCULATIONS TO THE GRADING INSPECTOR PRIOR TO CONSTRUCTION. THE ENGINEERING GEOLOGIST AND SOIL ENGINEER SHALL INSPECT AND CONTROL THE CONSTRUCTION OF THE BUTTRESSING AND CERTIFY TO THE STABILITY OF THE SLOPE AND ADJACENT STRUCTURES UPON COMPLETION.
18. WHEN CUT PADS ARE BROUGHT TO NEAR GRADE, THE ENGINEERING GEOLOGIST SHALL DETERMINE IF THE BEDROCK IS EXTENSIVELY FRACTURED OR FAULTED AND WILL READILY TRANSMIT WATER. IF CONSIDERED NECESSARY BY THE ENGINEERING GEOLOGIST AND SOIL ENGINEER, A COMPACTED FILL BLANKET WILL BE PLACED.
19. ALL TRENCH BACKFILLS SHALL BE TESTED AND APPROVED BY THE SOIL ENGINEER PER THE GRADING CODE.
20. ANY EXISTING IRRIGATION LINES AND CISTERNS SHALL BE REMOVED OR CRUSHED IN PLACE AND APPROVED BY THE GRADING INSPECTOR AND SOIL ENGINEER.
21. ANY EXISTING WATER WELLS SHALL BE ABANDONED IN COMPLIANCE WITH THE SPECIFICATIONS APPROVED BY THE ORANGE COUNTY HEALTH CARE AGENCY, AND DIVISION OF ENVIRONMENTAL HEALTH.
22. ANY EXISTING CESSPOOLS AND SEPTIC TANKS SHALL BE ABANDONED IN COMPLIANCE WITH THE UNIFORM PLUMBING CODE TO THE APPROVAL OF THE GRADING INSPECTOR.
23. STOCKPILING OF EXCESS MATERIAL SHALL BE APPROVED BY THE GRADING INSPECTOR PRIOR TO EXCAVATION.
24. EXPORT SOIL MUST BE TRANSPORTED TO A LEGAL DUMP OR TO A PERMITTED SITE APPROVED BY THE GRADING INSPECTOR.
25. THE PERMITTEE SHALL COMPLY WITH THE GRADING CODE REQUIREMENTS FOR HAUL ROUTES WHEN AN EXCESS OF 5,000 CUBIC YARDS OF EARTH IS TRANSPORTED TO OR FROM A PERMITTED SITE ON PUBLIC ROADWAYS.
26. THE PERMITTEE IS RESPONSIBLE FOR DUST CONTROL MEASURES.
27. THE PERMITTEE SHALL GIVE RESPONSIBLE NOTICE TO THE OWNER OF ADJOINING LANDS AND BUILDINGS PRIOR TO BEGINNING EXCAVATIONS THAT MAY AFFECT THE LATERAL AND SUBJACENT SUPPORT OF THE ADJOINING PROPERTY. THE NOTICE SHALL STATE THE INTENDED DEPTH OF EXCAVATION AND WHEN THE EXCAVATION WILL COMMENCE. THE ADJOINING OWNER SHALL BE ALLOWED AT LEAST 30 DAYS AND REASONABLE ACCESS ON THE PERMITTED PROPERTY TO PROTECT HIS STRUCTURE, IF HE SO DESIRES, UNLESS OTHERWISE PROTECTED BY LAW.
28. ALL CONCRETE STRUCTURES THAT COME IN CONTACT WITH THE ON-SITE SOILS SHALL BE CONSTRUCTED WITH TYPE V CEMENT,UNLESS DEEMED UNNECESSARY BY SOLUBLE SULPHATE-CONTENT TESTS CONDUCTED BY THE SOILS ENGINEER.
29. SLOPES EXCEEDING 5 FEET IN HEIGHT SHALL BE PLANTED WITH AN APPROVED PLANT MATERIAL PRIOR TO CERTIFICATE OF OCCUPANCY. IN ADDITION, SLOPES EXCEEDING 15 FEET IN HEIGHT SHALL BE PROVIDED WITH AN APPROVED IRRIGATION SYSTEM.
30. ALL EXISTING DRAINAGE COURSES THROUGH THIS SITE SHALL REMAIN OPEN UNTIL FACILITIES TO HANDLE STORMWATER ARE APPROVED AND FUNCTIONAL; HOWEVER, IN ANY CASE, THE PERMITTEE SHALL BE HELD LIABLE FOR ANY DAMAGE DUE TO OBSTRUCTING NATURAL DRAINAGE PATTERNS.
31. TEMPORARY SANITATION FACILITIES SHALL BE MAINTAINED ON THE SITE DURING THE COURSE OF CONSTRUCTION.
32. THE LOCATION AND PROTECTION OF ALL UTILITIES IS THE RESPONSIBILITY OF THE PERMITTEE.
33. APPROVED PROTECTIVE MEASURES AND TEMPORARY DRAINAGE PROVISIONS SHALL BE USED TO PROTECT ADJOINING PROPERTIES DURING GRADING.
34. GRADING OPERATIONS INCLUDING MAINTENANCE OF EQUIPMENT WITHIN ONE-HALF MILE OF A HUMAN OCCUPANCY SHALL NOT BE CONDUCTED BETWEEN THE HOURS OF 6:00 P.M. AND 7:00 A.M. DAILY, ON SUNDAY, OR ON A FEDERAL HOLIDAY.
35. ALL CONSTRUCTION VEHICLES OR EQUIPMENT, FIXED OR MOBILE, OPERATED WITHIN 1,000 FEET OF A DWELLING SHALL BE EQUIPPED WITH PROPERLY OPERATING AND MAINTAINED MUFFLERS.
36. ALL OPERATIONS SHALL COMPLY WITH THE LAGUNA HILLS MUNICIPAL CODE FOR NOISE CONTROL.
37. STOCKPILING AND/OR VEHICLE STAGING AREAS SHALL BE LOCATED AS FAR AS PRACTICABLE FROM DWELLINGS AND WITHIN THE LIMITS OF THE GRADING PERMIT.
38. GRADING AND EXCAVATION SHALL BE HALTED DURING PERIODS OF HIGH WINDS. OPERATIONS SHALL COMPLY WITH AQMD RULE 403. FUGITIVE DUST.
39. PAVEMENT SECTIONS SHALL BE NO LESS THAN 4" ASPHALT CONCRETE OVER 6" AGGREGATE BASE AND PRIOR TO ROUGH GRADE RELEASE FOR BUILDING PERMITS BY THE GRADING INSPECTOR, THE SOILS ENGINEER SHALL SUBMIT FOR APPROVAL, PAVEMENT SECTION RECOMMENDATIONS BASED ON 'R' VALUE ANALYSIS OF THE SUB-GRADE SOILS, AND EXPECTED TRAFFIC INDICES.
40. ASPHALT CONCRETE SHALL BE CONSTRUCTED PER THE REQUIREMENTS OF THE ORANGE COUNTY PUBLIC WORKS STANDARD PLAN NO. 1805.
41. AGGREGATE BASE SHALL BE CONSTRUCTED PER THE REQUIREMENTS OF THE ORANGE COUNTY PUBLIC WORKS STANDARD NO. 1804.
42. ROOF GUTTERS SHALL BE INSTALLED TO PREVENT ROOF DRAINAGE FROM FALLING ON MANUFACTURED SLOPES.
43. THE CIVIL ENGINEER, AS A CONDITION OF ROUGH GRADE APPROVAL, SHALL PROVIDE A BLUE TOP WITH ACCOMPANYING WITNESS STAKE, SET AT THE CENTER OF EACH PAD REFLECTING THE PAD ELEVATION FOR PRECISE PERMITS AND A BLUE TOP WITH WITNESS STAKE SET AT THE DRAINAGE SCALE HIGH POINT REFLECTING THE HIGH POINT ELEVATION FOR PRELIMINARY PERMITS.
44. PRIOR TO FINAL APPROVAL, THE CIVIL ENGINEER SHALL CERTIFY TO THE GRADING INSPECTOR THE AMOUNT OF EARTH MOVED DURING THE GRADING OPERATION.
45. THE ENGINEERING GEOLOGIST SHALL PERFORM PERIODIC INSPECTION AND SUBMIT A COMPLETE REPORT AND MAP UPON COMPLETION OF THE ROUGH GRADING.
46. THE GRADING CONTRACTOR SHALL SUBMIT A STATEMENT OF COMPLIANCE TO THE APPROVED GRADING PLAN PRIOR TO FINAL APPROVAL.
47. THE COMPACTION REPORT AND APPROVAL FROM THE SOIL ENGINEER SHALL INDICATE THE TYPE OF FIELD-TESTING PERFORMED. THE METHOD OF OBTAINING THE IN-PLACE DENSITY SHALL BE IDENTIFIED WHETHER SAND CONE, DRIVE RING, OR NUCLEAR, AND SHALL BE NOTED FOR EACH TEST. SUFFICIENT MAXIMUM DENSITY DETERMINATIONS SHALL BE PERFORMED TO VERIFY THE ACCURACY OF THE MAXIMUM DENSITY CURVES USED BY THE FIELD TECHNICIAN.
48. IN THE EVENT THAT SOIL CONTAMINATION IS DISCOVERED DURING EXCAVATION AND REMOVAL OF AN EXISTING TANK, WORK SHALL BE STOPPED UNTIL A SITE ASSESSMENT AND MITIGATION PLAN HAS BEEN PREPARED, SUBMITTED AND APPROVED BY COUNTY OF ORANGE ENVIRONMENTAL HEALTH AND THE CITY.
49. SURVEY MONUMENTS SHALL BE PRESERVED AND REFERENCED BEFORE CONSTRUCTION AND REPLACED AFTER CONSTRUCTION PURSUANT TO SECTION 8771 OF THE BUSINESS AND PROFESSIONS CODE.
50. RETAINING WALLS ARE NOT APPROVED PER THIS GRADING PLAN. RETAINING WALLS REQUIRE A SEPARATE BUILDING PERMIT.
51. OTHER BUILDING IMPROVEMENTS SUCH AS STAIRS, BUILDINGS, SWIMMING POOLS, ETC. REQUIRE A SEPARATE BUILDING PERMIT.

EROSION CONTROL NOTES

1. IN THE CASE OF EMERGENCY, CALL (NAME)_____AT WORK PHONE #_____, HOME PHONE #_____, OR CELLULAR PHONE #_____
2. EQUIPMENT AND WORKERS FOR EMERGENCY WORK SHALL BE MADE AVAILABLE AT ALL TIMES DURING THE RAINY SEASON (OCTOBER 1 TO APRIL 30 EACH YEAR). NECESSARY MATERIALS SHALL BE AVAILABLE ON SITE AND STOCKPILED AT CONVENIENT LOCATIONS TO FACILITATE RAPID CONSTRUCTION OF TEMPORARY DEVICES AT ALL TIME.
3. EROSION CONTROL DEVICES SHALL NOT BE MOVED OR MODIFIED WITHOUT THE APPROVAL OF THE GRADING INSPECTOR.
4. ALL REMOVABLE EROSION PROTECTIVE DEVICES SHALL BE IN PLACE AT THE END OF EACH WORKING DAY WHEN THE 5-DAY RAIN PROBABILITY FORECAST EXCEEDS 40%.
5. AFTER A RAINSTORM, ALL SILT AND DEBRIS SHALL BE REMOVED FROM STREETS, BERMS, AND BASINS.
6. GRADED AREAS ON THE PERMITTED AREA PERIMETER MUST DRAIN AWAY FROM THE FACE OF SLOPES AT THE CONCLUSION OF EACH WORKING DAY. DRAINAGE IS TO BE DIRECTED TOWARD DESILTING FACILITIES.
7. THE PERMITTEE AND CONTRACTOR SHALL BE RESPONSIBLE AND SHALL TAKE NECESSARY PRECAUTIONS TO PREVENT PUBLIC TRESPASS ONTO AREAS WHERE IMPOUNDED WATER CREATES A HAZARDOUS CONDITION.
8. THE PERMITTEE AND CONTRACTOR SHALL INSPECT THE EROSION CONTROL WORK AND INSURE THAT THE WORK IS IN ACCORDANCE WITH THE APPROVED PLANS.
9. THE PERMITTEE SHALL NOTIFY ALL GENERAL CONTRACTORS, SUBCONTRACTORS, MATERIAL SUPPLIERS, LESSEES AND THE PROPERTY OWNERS THAT DUMPING OF POLLUTANTS INTO THE STORM DRAIN SYSTEM OR THE WATERSHED IS PROHIBITED.
10. PERMITTEE SHALL MAINTAIN CONSTRUCTION SITE IN SUCH A CONDITION THAT AN ANTICIPATED STORM DOES NOT CARRY WASTES OR POLLUTANTS OFF THE SITE. POTENTIAL POLLUTANTS INCLUDE BUT ARE NOT LIMITED TO: SOLID OR LIQUID CHEMICAL SPILLS; WASTES FROM PAINTS, STAINS, SEALANTS, GLUES, DYES, PESTICIDES, HERBICIDES, WOOD PRESERVATIVES AND SOLVENTS, ASBESTOS FIBERS, PAINT FLAKES OR STUCCO FRAGMENTS; FUELS, OILS, LUBRICANTS AND HYDRAULIC, RADIATOR OR BATTERY FLUIDS; FERTILIZERS, VEHICLE/EQUIPMENT WASH WATER AND CONCRETE WASH WATER, CONCRETE DETERGENT OR FLOATABLE WASTES; WASTES FROM ANY ENGINE/EQUIPMENT STEAM CLEANING OR CHEMICAL DEGREASING AND SUPERCHLORINATED POTABLE WATER LINE FLUSHING. DURING CONSTRUCTION, PERMITTEE SHALL DISPOSE OF SUCH MATERIALS IN A SPECIFIED AND CONTROLLED TEMPORARY AREA ON-SITE, PHYSICALLY SEPARATED FROM POTENTIAL STORMWATER RUNOFF, WITH ULTIMATE DISPOSAL IN ACCORDANCE WITH LOCAL, STATE AND FEDERAL REQUIREMENTS.
11. DEWATERING OF CONTAMINATED GROUNDWATER, OR DISCHARGING CONTAMINATED SOILS VIA SURFACE EROSION IS PROHIBITED. DEWATERING OF NON-CONTAMINATED GROUNDWATER REQUIRES A NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT FROM THE RESPECTIVE STATE REGIONAL WATER QUALITY CONTROL BOARD.
12. FOR SITES OVER ONE ACRE IN SIZE, THE CONTRACTOR IS REQUIRED TO FILE A NOTICE OF INTENT (NOI) WITH THE STATE WATER RESOURCES CONTROL BOARD (SWQCB) AND PREPARE AND HAVE ON SITE AN APPROVED STORM WATER POLLUTION PREVENTION PLAN (SWPPP).
13. THE CONTRACTOR SHALL HAVE ON SITE AN APPROVED WATER QUALITY MANAGEMENT PLAN (WQMP), AS REQUIRED BY THE CITY ENGINEERING DEPARTMENT.
14. THE CONTRACTOR SHALL COMPLY WITH SAN DIEGO REGIONAL WATER QUALITY CONTROL BOARD ORDER NO. R9-2013-0001 AS AMENDED BY ORDER NOS. R9-2015-0001 AND R9-2015-0100 AND SANTA ANA REGIONAL WATER QUALITY BOARD ORDER NO. R8-2009-0030 AS AMENDED BY ORDER NO. R8-2010-0062, AS APPLICABLE.
15. GRADING AND EXCAVATION SHALL BE HALTED DURING PERIODS OF HIGH WINDS. OPERATIONS SHALL COMPLY WITH AQMD RULE 403. FUGITIVE DUST.
16. IMPORT AND EXPORT HAULING SHALL BE LIMITED TO THE HOURS OF 9:00AM TO 4:00PM. ANY TRACKING OF MATERIAL ON THE PUBLIC WAYS SHALL BE IMMEDIATELY REMOVED BY MECHANICAL SWEEPING.

DRY SEASON REQUIREMENTS (MAY 1 THRU SEPTEMBER 30)

17. WIND EROSION BMPS (DUST CONTROL) SHALL BE IMPLEMENTED.
18. SEDIMENT CONTROL BMPS SHALL BE INSTALLED AND MAINTAINED AT ALL OPERATIONAL STORM DRAIN INLETS.
19. BMPS TO CONTROL OFF-SITE SEDIMENT TRACKING SHALL BE IMPLEMENTED AND MAINTAINED.
20. APPROPRIATE WASTE MANAGEMENT AND MATERIALS POLLUTION CONTROL BMPS SHALL BE IMPLEMENTED TO PREVENT THE CONTAMINATION OF STORM WATER BY WASTES AND CONSTRUCTION MATERIALS.
21. APPROPRIATE NON-STORM WATER BMPS SHALL BE IMPLEMENTED TO PREVENT THE CONTAMINATION OF STORM WATER FROM CONSTRUCTION ACTIVITIES.
22. THERE SHALL BE A 'WEATHER TRIGGERED' ACTION PLAN AND THE ABILITY TO DEPLOY STANDBY SEDIMENT CONTROL BMPS AS NEEDED TO COMPLETELY PROTECT THE EXPOSED PORTIONS OF THE SITE WITHIN 48 HOURS OF A PREDICTED STORM EVENT (A PREDICTED STORM EVENT IS DEFINED AS A FORECASTED, 50% CHANCE OF RAIN).
23. SUFFICIENT MATERIALS NEEDED TO INSTALL STANDBY SEDIMENT CONTROL BMPS (AT THE SITE PERIMETER, SITE SLOPES AND OPERATIONAL INLETS WITHIN THE SITE) NECESSARY TO PREVENT SEDIMENT DISCHARGES FROM EXPOSED PORTIONS OF THE SITE SHALL BE STORED ON SITE. AREAS THAT HAVE ALREADY BEEN PROTECTED FROM EROSION USING PHYSICAL STABILIZATION OR ESTABLISHED VEGETATION STABILIZATIONS BMPS AS DESCRIBED IN ITEM H BELOW ARE NOT CONSIDERED TO BE 'EXPOSED' FOR PURPOSES OF THIS REQUIREMENT.
24. DEPLOYMENT OF PERMANENT EROSION CONTROL BMPS (PHYSICAL OR VEGETATION) SHOULD COMMENCE AS SOON AS PRACTICAL ON SLOPES THAT ARE COMPLETED FOR ANY PORTION OF THE SITE. STANDBY BMP MATERIALS SHOULD NOT BE RELIED UPON TO PREVENT EROSION OF SLOPES THAT HAVE BEEN COMPLETED.
25. PHASING TO BE USED TO MAINTAIN STABILIZED AREAS (VEGETATION OR IMPERVIOUS COVER) AS MUCH AS POSSIBLE DURING CONSTRUCTION. DISTURBED AREAS SHOULD BE STABILIZED AS SOON AS PRACTICAL. SLOPES INACTIVE FOR UP TO TWO WEEKS SHALL BE STABILIZED WITH SEEDING, SOIL BINDERS, MULCHING, GEOTEXTILES, OR MATS, ETC. IN ORDER TO REDUCE THE EROSIVE IMPACT OF RAIN OR RUNOFF.

WET SEASON REQUIREMENTS (OCTOBER 1 THRU APRIL 30)

26. SEDIMENT CONTROL BMP'S SHALL BE IMPLEMENTED AT THE SITE PERIMETER, AT ALL OPERATIONAL STORM DRAIN INLETS AND AT ALL NON-ACTIVE SLOPES, TO PROVIDE SUFFICIENT PROTECTION FOR STORMS LIKELY TO OCCUR DURING THE RAINY SEASON.
27. ADEQUATE PHYSICAL OR VEGETATION EROSION CONTROL BMP'S (TEMPORARY OR PERMANENT) SHALL BE INSTALLED AND ESTABLISHED FOR ALL COMPLETED SLOPES PRIOR TO THE START OF THE RAINY SEASON. THESE BMP'S MUST BE MAINTAINED THROUGHOUT THE RAINY SEASON. IF A SELECTED BMP FAILS, IT MUST BE REPAIRED AND IMPROVED, OR REPLACED WITH AN ACCEPTABLE ALTERNATE AS SOON AS IT IS SAFE TO DO SO. THE FAILURE OF A BMP MAY INDICATE THAT THE BMP, AS INSTALLED, WAS NOT ADEQUATE FOR THE CIRCUMSTANCES IN WHICH IT WAS USED. REPAIRS OR REPLACEMENTS MUST RESULT IN A MORE ROBUST BMP, OR ADDITIONAL BMP'S SHOULD BE INSTALLED TO PROVIDE ADEQUATE PROTECTION.
28. THE AMOUNT OF EXPOSED SOIL ALLOWED AT ONE TIME SHALL NOT EXCEED THAT WHICH CAN BE ADEQUATELY PROTECTED BY DEPLOYING STANDBY EROSION CONTROL AND SEDIMENT CONTROL BMP'S PRIOR TO A PREDICTED RAINSTORM.
29. A DISTURBED AREA THAT IS NOT COMPLETED BUT THAT IS NOT BEING ACTIVELY GRADED (NON-ACTIVE AREA) SHALL BE FULLY PROTECTED FROM EROSION WITH TEMPORARY OR PERMANENT BMP'S (EROSION AND SEDIMENT CONTROL). THE ABILITY TO DEPLOY STANDBY BMP MATERIALS IS NOT SUFFICIENT FOR THESE AREAS. EROSION AND SEDIMENT CONTROL BMP'S MUST ACTUALLY BE DEPLOYED. THIS INCLUDES ALL BUILDING PADS, UNFINISHED ROADS AND SLOPES.
30. SUFFICIENT MATERIALS NEEDED TO INSTALL STANDBY EROSION AND SEDIMENT CONTROL BMP'S NECESSARY TO COMPLETELY PROTECT THE EXPOSED PORTIONS OF THE SITE FOR EROSION AND TO PREVENT SEDIMENT DISCHARGES SHALL BE STORED ON SITE. AREAS THAT HAVE ALREADY BEEN PROTECTED FROM EROSION USING PERMANENT PHYSICAL STABILIZATION OR ESTABLISHED VEGETATION STABILIZATION BMP'S ARE NOT CONSIDERED TO BE 'EXPOSED' FOR PURPOSES OF THIS REQUIREMENT.

LEGAL DESCRIPTION

LOT 195 OF TRACT MAP 9293, FILED IN BOOK 460, PAGES 18 TO 31, PER RECORDS ON FILE IN THE OFFICE OF THE ORANGE COUNTY SURVEYOR.

APN: 627-711-03

BENCHMARK

OCS BM "3U-41-70"
ELEVATION 267.878' [NAVD88, LEVELED 1991]

DESCRIBED BY OCS 2003 - FOUND 3 3\4" OCS ALUMINUM BENCHMARK DISK STAMPED "3U-41-70", SET IN THE NORTHWESTERLY CORNER OF A CONCRETE BRIDGE ABUTMENT. MONUMENT IS LOCATED IN THE NORTHWESTERLY CORNER OF THE INTERSECTION OF FORBES ROAD AND CROWN VALLEY PARKWAY, 150 FT. WESTERLY OF THE CENTERLINE OF FORBES, 22.6 FT. NORTHERLY OF THE CENTERLINE OF CROWN VALLEY PARKWAY AND IN THE NORTHERLY END OF THE WESTERLY ABUTMENT. MONUMENT IS SET LEVEL WITH THE BRIDGE DECK.

BASIS OF BEARINGS:

THE BEARINGS SHOWN HEREON ARE BASED ON THE CENTERLINE BEARING OF RAPID FALLS ROAD SHOWN AS N 80°41'33"E ON TRACT MAP 9293, FILED IN BOOK 460, PAGES 18 TO 31, PER RECORDS ON FILE IN THE OFFICE OF THE ORANGE COUNTY SURVEYOR.

NOTICE TO CONTRACTOR

CAUTION: THE ENGINEER PREPARING THESE PLANS WILL NOT BE RESPONSIBLE FOR, OR LIABLE FOR, UNAUTHORIZED CHANGES TO, OR USES OF THESE PLANS. ALL CHANGES TO THE PLANS MUST BE IN WRITING, AND MUST BE APPROVED BY THE PREPARER OF THESE PLANS.

THE EXISTENCE AND LOCATION OF ANY UNDERGROUND UTILITY FACILITIES SHOWN ON THESE PLANS WERE OBTAINED BY A SEARCH OF AVAILABLE RECORDS. THE LOCATIONS SHOWN ARE APPROXIMATE AND SHALL BE CONFIRMED IN THE FIELD BY THE CONTRACTOR. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MAKING ANY NECESSARY ADJUSTMENTS TO ALIGNMENT AND/OR GRADE OF THE PROPOSED IMPROVEMENTS. THE CONTRACTOR IS REQUIRED TO TAKE DUE PRECAUTIONARY MEASURES TO PREVENT DAMAGE TO ANY UTILITY FACILITIES SHOWN AND ANY OTHER FACILITIES NOT SHOWN ON THESE PLANS.

ALL CONTRACTORS AND SUBCONTRACTORS PERFORMING WORK SHOWN ON THESE PLANS AGREE THAT, IN ACCORDANCE WITH GENERALLY ACCEPTED CONSTRUCTION PRACTICES, THEY WILL BE REQUIRED TO ASSUME SOLE AND COMPLETE RESPONSIBILITY FOR JOB SITE CONDITIONS DURING THE COURSE OF CONSTRUCTION OF THE PROJECT. THIS INCLUDES PROVIDING FOR THE SAFETY OF ALL PERSONS AND PROPERTY AND SHALL APPLY CONTINUOUSLY AND NOT BE LIMITED TO NORMAL WORKING HOURS. THE CONTRACTORS AND SUBCONTRACTORS FURTHER AGREE TO DEFEND, INDEMNIFY AND HOLD HARMLESS THE OWNER AND DESIGN PROFESSIONAL FROM ANY AND ALL LIABILITY, REAL OR ALLEGED, IN CONNECTION WITH THE PERFORMANCE OF WORK ON THIS PROJECT, EXCEPT FOR LIABILITY ARISING FROM THE SOLE NEGLIGENCE OF THE OWNER OR THE DESIGN PROFESSIONAL.

EXISTING UNDERGROUND STRUCTURES

THE EXISTENCE AND LOCATION OF ANY UNDERGROUND PIPES OR CONDUITS SHOWN ON THESE PLANS ARE OBTAINED BY A SEARCH OF THE AVAILABLE RECORDS. TO THE BEST OF OUR KNOWLEDGE, THERE ARE NO EXISTING UTILITIES EXCEPT AS SHOWN ON THESE PLANS. THE CONTRACTOR IS REQUIRED TO TAKE THE PRECAUTIONARY MEASURES TO PROTECT THE UTILITY LINES SHOWN AND ANY OTHER LINES NOT OF RECORD OR NOT SHOWN ON THESE PLANS. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO NOTIFY THE OWNERS OF THE UTILITIES OR STRUCTURES CONCERNED BEFORE STARTING WORK. CONTRACTOR FURTHER ASSUMES ALL LIABILITY AND RESPONSIBILITY FOR THE UNDERGROUND UTILITY PIPES, CONDUITS OR STRUCTURES SHOWN OR NOT SHOWN ON THESE PLANS. LOCATE ALL UTILITIES BEFORE CONSTRUCTION.

NOTICE TO THE CONTRACTOR

THE ESTIMATES OF IMPROVEMENT AND GRADING QUANTITIES AS SHOWN HEREON ARE PROVIDED FOR SATISFYING PLAN CHECK INFORMATION REQUIREMENTS ONLY. THE CONTRACTOR SHALL PERFORM AN INDEPENDENT ESTIMATE OF ALL IMPROVEMENT QUANTITIES INCLUDING GRADING QUANTITIES, AND SHALL USE SAME AS A BASIS FOR HIS BID(S) AND CONTRACT(S).

EARTHWORK

AREA DISTURBED:	0.06±	ACRES
CUT *	100	CUBIC YARDS
FILL *	0	CUBIC YARDS
EXPORT *	100	CUBIC YARDS
OVER-EXCAVATION *	T.B.D.	CUBIC YARDS

* THE ABOVE CUT/FILL QUANTITIES ARE FOR PERMIT PURPOSES ONLY. THIS CALCULATION DOES NOT INCLUDE SOILS FROM BUILDING OR WALL FOOTINGS, NOR UTILITY TRENCHING. THIS CALCULATION DOES NOT INCLUDE ADJUSTMENTS FOR SHRINKAGE NOR SUBSIDENCE. THIS CALCULATION ALSO

NOTE:
TRENCHES ADJACENT AND PARALLEL TO BUILDING FOUNDATIONS SHALL NOT BE BELOW A 1:1 PLANE PROJECTED DOWNWARD FROM THE BOTTOM EDGE OF THE ADJACENT FOOTING AND NOT CLOSER THAN 18" FROM THE FACE OF FOOTING. IF THIS CONDITION OCCURS THE ADJACENT FOOTING SHOULD BE DEEPENED OR THE UTILITY CONSTRUCTED AND THE TRENCH BACKFILLED AND COMPACTED PER RECOMMENDATIONS IN THE SOILS REPORT PRIOR TO FOOTING CONSTRUCTION.

NOTE:

- WATER MINIMUM COVER DEPTH = 36"
- SEWER MINIMUM COVER DEPTH = 42" TO 52" - SEE PLAN
- PLACE MARKING TAPE ON ALL BURIED PIPING OUTSIDE BUILDING FOOTPRINT.

THIS DOCUMENT IS THE PROPERTY OF RJM DESIGN GROUP, INC., AND NO PART THEREOF SHALL BE USED, REUSED, OR MODIFIED WITHOUT THE WRITTEN CONSENT OF RJM DESIGN GROUP, INC. © 2025 RJM Design Group, Inc. All rights reserved.

****** NOTE TO CONTRACTOR:**

EXACT LOCATION OF EXISTING UNDERGROUND STORM DRAIN LINES ON-SITE ARE UNKNOWN. CONTRACTOR SHALL:

- VERIFY LOCATION, SIZE, ELEVATIONS OF EXISTING STORM DRAIN AND VERIFY DESIGN AS A FIRST ITEM OF WORK. NOTIFY ENGINEER IMMEDIATELY OF ANY REQUIRED CHANGE IN DESIGN.
- IF INLET PIPES ARE FOUND CONNECTING TO EXISTING GRATES THAT ARE REMOVED DURING THE CONSTRUCTION OF THIS PROJECT (OR PIPES ARE DAMAGED OR REMOVED DURING CONSTRUCTION) THAT RUN OUTSIDE OF DEMOLITION LIMITS, NOTIFY ENGINEER IMMEDIATELY OF THE LOCATION AND SIZE TO INSURE CONTINUITY OF DRAINAGE UPSTREAM.

NOTE TO CONTRACTOR:

- LOCATION OF EXISTING FACILITIES SHOWN HEREON ARE BASED ON THE FIELD SURVEY PERFORMED BY STARLIGHT SURVEYING, INC., DATED OCTOBER, 2025, FIELD OBSERVATION AND A SEARCH OF AVAILABLE RECORDS AND MAY NOT REPRESENT ACTUAL CONDITIONS.
- CONTRACTOR MUST FIELD LOCATE ALL UTILITIES (LOCATION AND DEPTH) WITHIN WORK AREA AS A FIRST ITEM OF WORK AND VERIFY PROPOSED DESIGN IS VALID.
- CONTRACTOR SHALL PROTECT IN PLACE THE UTILITY LINES SHOWN AND ANY OTHER LINES NOT OF RECORD OR NOT SHOWN ON THESE PLANS. CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE TO THE EXISTING UTILITY LINES.
- CONTRACTOR TO VERIFY AND INFORM THE CITY OF ANY FACILITIES ENCOUNTERED IN THE FIELD WHICH IS NOT SHOWN ON THIS PLAN, OR DIFFERS IN LOCATION OR SIZE, PRIOR TO REMOVAL.
- THE CITY MAY IDENTIFY AND REMOVE ANY ITEMS THEY WISH TO RETAIN PRIOR TO THE CONTRACTOR MOVE IN.

DEMOLITION GENERAL NOTES

1. CONTRACTOR SHALL CONDUCT A SURVEY OF EXISTING CONDITIONS AND CORRELATE WITH REQUIREMENTS INDICATED TO DETERMINE AND VERIFY THE EXTENT OF DEMOLITION REQUIRED.
2. CONTRACTOR SHALL RECORD EXISTING CONDITIONS BY USE OF PRE-CONSTRUCTION PHOTOGRAPHS, PRE-CONSTRUCTION VIDEOTAPES, AND DRAWINGS AS APPROPRIATE.
3. A SURVEY SHALL BE PERFORMED AS WORK PROGRESSES TO DETECT HAZARDS RESULTING FROM DEMOLITION ACTIVITIES.
4. CONTRACTOR SHALL KEEP INVENTORY AND RECORD THE CONDITION OF ITEMS TO BE REMOVED AND REINSTALLED AND ITEMS TO BE REMOVED AND SALVAGED.
5. CONTRACTOR SHALL COORDINATE WITH THE OWNER THE STORAGE AND DELIVERY OF ITEMS TO BE SALVAGED.
6. LOCATE ALL EXISTING UTILITIES WHETHER SHOWN HEREON OR NOT AS THE FIRST ITEM OF WORK AND PROTECT THEM FROM DAMAGE. NOTIFY OWNER IMMEDIATELY IF DAMAGE OCCURS AND ASSUME FULL RESPONSIBILITY FOR EXPENSE OF REPAIR OR REPLACEMENT. NOTIFY OWNER'S REPRESENTATIVE IMMEDIATELY SHOULD FIELD CONDITIONS VARY FROM THOSE SHOWN ON PLAN.
7. WHEN UNANTICIPATED ELECTRICAL, STRUCTURAL, OR OTHER ELEMENTS INCLUDING STORM DRAIN, WATER AND SEWER LINES THAT CONFLICT WITH INTENDED DESIGN ARE ENCOUNTERED, CONTRACTOR SHALL INVESTIGATE AND MEASURE THE NATURE AND EXTENT OF CONFLICT AND CONTRACTOR SHALL PROMPTLY SUBMIT A WRITTEN REPORT TO THE CITY.
8. CONTRACTOR SHALL LOCATE, IDENTIFY, DISCONNECT, AND SEAL OR CAP OFF INDICATED UTILITY SERVICES AND MECHANICAL/ELECTRICAL SYSTEMS SERVING AREAS TO BE SELECTIVELY DEMOLISHED AND:
   - SHALL ARRANGE TO SHUT OFF INDICATED UTILITIES WITH UTILITY COMPANIES.
   - IF SERVICES/SYSTEMS ARE REQUIRED TO BE REMOVED, RELOCATED, OR ABANDONED, BEFORE PROCEEDING WITH DEMOLITION CONTRACTOR SHALL PROVIDE TEMPORARY SERVICES/SYSTEMS THAT BYPASS AREA OF DEMOLITION AND THAT MAINTAIN CONTINUITY OF SERVICES/SYSTEMS TO OTHER PARTS OF BUILDING AND SITE.
   - SHALL CUT OFF PIPE OR CONDUIT IN WALLS TO BE REMOVED. CAP, VALVE, OR PLUG AND SEAL REMAINING PORTION OF PIPE OR CONDUIT AFTER BYPASSING. WHERE ENTIRE WALL IS TO BE REMOVED, EXISTING SERVICES/SYSTEMS MAY BE REMOVED WITH REMOVAL OF THE WALL. CONTRACTOR SHALL CUT OFF PIPE OR CONDUIT SO IT WILL NOT BE VISIBLE IN FINISHED CONSTRUCTION.
9. CONTRACTOR SHALL PROTECT EXISTING SERVICES/SYSTEMS INDICATED AGAINST DAMAGE DURING DEMOLITION OPERATIONS.
10. INACTIVE OR ABANDONED UTILITIES SHALL BE DISCONNECTED, REMOVED, AND PLUGGED OR CAPPED SUBJECT TO THE LOCAL GOVERNING AGENCIES.
11. ACTIVE UTILITIES SHALL BE PROTECTED BY AND AT THE EXPENSE OF THE CONTRACTOR. KEEP ANY REQUIRED UTILITY IN OPERATING CONDITION DURING THE ENTIRE PERIOD OF WORK, INCLUDING EXISTING IRRIGATION SYSTEMS FOR LANDSCAPE MAINTENANCE.
12. DO NOT WILLFULLY PROCEED WITH CONSTRUCTION WHEN IT IS OBVIOUS THAT KNOWN OBSTRUCTIONS EXIST THAT MAY NOT HAVE BEEN KNOWN DURING DESIGN. SUCH CONDITIONS SHALL BE IMMEDIATELY BROUGHT TO THE ATTENTION OF THE OWNER'S AUTHORIZED REPRESENTATIVE. ASSUME RESPONSIBILITY FOR ALL NECESSARY REVISION DUE TO FAILURE TO GIVE SUCH NOTIFICATION.
13. CONTRACTOR SHALL CONDUCT DEMOLITION AND DEBRIS-REMOVAL OPERATIONS TO ENSURE MINIMUM INTERFERENCE WITH ROADS, STREETS, WALKS, WALKWAYS, AND OTHER ADJACENT OCCUPIED AND USED FACILITIES.
14. CONTRACTOR SHALL PROVIDE TEMPORARY BARRICADES AND OTHER PROTECTION REQUIRED TO PREVENT INJURY TO PEOPLE AND DAMAGE TO ADJACENT BUILDINGS AND FACILITIES TO REMAIN AND:
   - SHALL PROVIDE TEMPORARY WEATHER PROTECTION, DURING THE INTERVAL BETWEEN DEMOLITION OF EXISTING CONSTRUCTION ON EXTERIOR SURFACES AND NEW CONSTRUCTION, TO PREVENT WATER LEAKAGE AND DAMAGE TO STRUCTURE AND INTERIOR AREAS.
   - SHALL PROTECT WORK THAT IS TO REMAIN OR THAT IS EXPOSED DURING DEMOLITION OPERATIONS.
   - SHALL COVER AND PROTECT EQUIPMENT THAT HAS NOT BEEN REMOVED.
15. CONTRACTOR SHALL PROVIDE AND MAINTAIN SHORING, BRACING, AND STRUCTURAL SUPPORTS AS REQUIRED TO PRESERVE STABILITY AND PREVENT MOVEMENT, SETTLEMENT, OR COLLAPSE OF CONSTRUCTION AND FINISHES THAT REMAIN, AND TO PREVENT UNEXPECTED OR UNCONTROLLED MOVEMENT OR COLLAPSE OF CONSTRUCTION BEING DEMOLISHED. CONTRACTOR SHALL STRENGTHEN OR ADD NEW SUPPORTS WHEN REQUIRED DURING PROGRESS OF DEMOLITION.
16. DEMOLITION AND REMOVAL WORK SHALL BE CAREFULLY PERFORMED TO AVOID DAMAGE TO EXISTING TREES NOTED ON THE PLANS TO REMAIN.
17. ALL WORK SHALL CONFORM TO THE REQUIREMENTS OF THE LATEST ADOPTED EDITIONS OF THE UNIFORM BUILDING CODE, THE AMERICANS WITH DISABILITIES ACT, AND ALL OTHER APPLICABLE LOCAL AND STATE CODES, ORDINANCES AND REGULATIONS.
18. CONTRACTOR SHALL USE METHODS REQUIRED TO COMPLETE THE WORK WITHIN THE LIMITATIONS OF GOVERNING REGULATIONS AND AS FOLLOWS:
   - SHALL NEATLY CUT OPENINGS AND HOLES PLUMB, SQUARE, AND TRUE TO DIMENSIONS REQUIRED, USING CUTTING METHODS LEAST LIKELY TO DAMAGE CONSTRUCTION TO REMAIN OR ADJOINING CONSTRUCTION. USE HAND TOOLS OR SMALL POWER TOOLS DESIGNED FOR SAWING OR GRINDING, NOT HAMMERING AND CHOPPING, TO MINIMIZE DISTURBANCE OF ADJACENT SURFACES. TEMPORARILY COVER OPENINGS TO REMAIN.
   - SHALL CUT OR DRILL FROM THE EXPOSED OR FINISHED SIDE INTO CONCEALED SURFACES TO AVOID MARRING EXISTING FINISHED SURFACES.
   - SHALL NOT USE CUTTING TORCHES UNTIL WORK AREA IS CLEARED OF FLAMMABLE MATERIALS. AT CONCEALED SPACES, SUCH AS DUCT AND PIPE INTERIORS, VERIFY CONDITION AND CONTENTS OF HIDDEN SPACE BEFORE STARTING FLAME-CUTTING OPERATIONS. MAINTAIN FIRE WATCH AND PORTABLE FIRE-SUPPRESSION DEVICES DURING FLAME-CUTTING OPERATIONS.
   - SHALL MAINTAIN ADEQUATE VENTILATION WHEN USING CUTTING TORCHES.
   - SHALL REMOVE DECAYED, TERMITE-INFESTED, VERMIN-INFESTED, OR OTHERWISE DANGEROUS OR UNSUITABLE MATERIALS AND PROMPTLY DISPOSE OF OFF-SITE.
   - SHALL LOCATE DEMOLITION EQUIPMENT AND REMOVE DEBRIS AND MATERIALS SO AS NOT TO IMPOSE EXCESSIVE LOADS ON STRUCTURES TO REMAIN.
19. CLEAR THE SITE OF GRASS, WEED GROWTH, RUBBISH, DEBRIS, PAVEMENT, CONCRETE, INACTIVE OR ABANDONED FACILITIES (VERIFIED BY THE AGENCY), THAT ARE TO BE REMOVED FOR CONSTRUCTION OF THE SITE IMPROVEMENTS TO THE LIMITS AND DEPTHS SHOWN ON THE PLANS.
20. ABANDONED UNDERGROUND FACILITIES (VERIFIED BY THE AGENCY), ROOTS THREE INCHES IN DIAMETER AND LARGER, AND ROCKS AND BROKEN MASONRY LARGER THAN 4 INCHES IN ANY DIMENSION SHALL BE REMOVED TO A MINIMUM DEPTH OF 12" BELOW FINISH GRADE.
21. ALL DELETERIOUS MATERIALS WITHIN THE LIMITS OF THE WORK SHALL BE DISPOSED OF OFF-SITE BY THE CONTRACTOR, WHO SHALL MAKE ALL NECESSARY ARRANGEMENTS AND PAY ALL RELATED COSTS.
22. CONTRACTOR SHALL REMOVE DEMOLISHED MATERIALS FROM PROJECT SITE AND LEGALLY DISPOSE OF THEM AT THE CONTRACTOR'S EXPENSE IN AN EPA-APPROVED LANDFILL AND:
   - SHALL NOT ALLOW DEMOLISHED MATERIALS TO ACCUMULATE ON-SITE.
   - SHALL REMOVE AND TRANSPORT DEBRIS IN A MANNER THAT WILL PREVENT SPILLAGE ON ADJACENT SURFACES AND AREAS.
23. CONTRACTOR SHALL NOT BURN DEMOLISHED MATERIALS.
24. CONTRACTOR SHALL CLEAN ADJACENT STRUCTURES AND IMPROVEMENTS OF DUST, DIRT, AND DEBRIS CAUSED BY DEMOLITION OPERATIONS AND RETURN ADJACENT AREAS TO CONDITION EXISTING BEFORE DEMOLITION OPERATIONS BEGAN.

LEGEND

- LIMITS OF DEMOLITION
- PROTECT UTILITY LINE IN PLACE WITHIN DEMOLITION LIMITS
- PROTECT IN PLACE EXIST. TREE

DEMOLITION NOTES

- [A] PROTECT EXISTING TREE IN PLACE - CONFIRM DISPOSITION PRIOR TO DEMO. WITH LANDSCAPE ARCHITECT AND CITY
- [B] SAWCUT AND REMOVE EXISTING CONCRETE SIDEWALK/RAMP (COMPLETE) AND DISPOSE
- [C] REMOVE EXISTING PLAY SURFACE TO SUBGRADE (COMPLETE) AND DISPOSE
- [D] REMOVE EXISTING PLAY EQUIPMENT AND FOUNDATIONS (COMPLETE) AND DISPOSE
- [E] PROTECT IN PLACE - POTHOLE AND LOCATE EXISTING UNDERGROUND UTILITY LINES TO PROTECT AS REQUIRED
- [F] REMOVE EXISTING CATCH BASIN (COMPLETE) AND DISPOSE
- [G] CAP EXISTING STORM DRAIN FOR NEW CONNECTION - SEE SHEET C-1.1
- [H] REMOVE EXISTING CONC. CURB/WALL (COMPLETE) AND DISPOSE
- [I] REMOVE EXISTING SHADE STRUCTURE AND FOUNDATIONS (COMPLETE) AND DISPOSE
- [J] REMOVE EXISTING DRINKING FOUNTAIN (COMPLETE) AND DISPOSE
- [K] CAP EXISTING WATER LINE FOR NEW CONNECTION - SEE SHEET C-1.1
- [L] CAP EXISTING SEWER LINE FOR NEW CONNECTION - SEE SHEET C-1.1

NOTE TO CONTRACTOR:

ALL UTILITIES SHOULD BE SHUT OFF AND CAPPED PER UTILITY COMPANY REQUIREMENTS.
CONTRACTOR SHALL COORDINATE WITH APPROPRIATE UTILITY COMPANY PRIOR TO COMMENCEMENT OF WORK.

NOTE TO CONTRACTOR:

INSTALL 6-FOOT CHAIN LINK FENCE WITH WINDSCREEN AND GATES, WHERE NECESSARY, ALONG THE PERIMETER OF THE SITE AS NEEDED. CONTRACTOR SHALL PROTECT THESE FENCES AND KEEP AREA FULLY SECURE DURING DEMOLITION. WINDSCREEN TO BE SECURELY FASTENED AT ALL CORNERS.

NOTE TO CONTRACTOR:

CONTRACTOR SHALL INSTALL TEMPORARY BMPs PRIOR TO DEMOLITION.

NOTE TO CONTRACTOR:

CONTRACTOR TO SCHEDULE A SITE WALK WITH THE CITY PRIOR TO START OF DEMOLITION TO VERIFY ALL ITEMS TO BE DEMOLISHED AND/OR SALVAGED.

THIS DOCUMENT IS THE PROPERTY OF RJM DESIGN GROUP, INC., AND NO PART THEREOF SHALL BE USED, REUSED, OR MODIFIED WITHOUT THE WRITTEN CONSENT OF RJM DESIGN GROUP, INC. © 2025 RJM Design Group, Inc. All rights reserved.

GRAVELBAGS:

1. GENERAL: GRAVELBAG SHALL INCLUDE PROVIDING ALL LABOR, MATERIALS, AND EQUIPMENT TO FABRICATE AND INSTALL GRAVELBAGS AS REQUIRED TO FACILITATE THE CONTROL OF EROSION.
2. LOCATION: GRAVELBAGS SHALL BE PLACED PER PLAN, AND IN LOCATIONS SPECIFIED BY THE CITY INSPECTOR, AND IN LOCATIONS DEEMED NECESSARY BY THE CONTRACTOR.
3. FABRICATION: GRAVELBAGS SHALL BE FABRICATED USING FACTORY SEWN OR SEALED BAGS OF WOVEN POLYPROPYLENE, TREATED TO RESIST DEGRADATION BY ULTRAVIOLET LIGHT AND HAVING SUFFICIENT RESISTANCE TO TEARING TO ALLOW RELOCATION OF BAGS WITHIN SIX MONTHS OF INITIAL PLACEMENT WITH A LOSS OF NOT MORE THAN FIVE PERCENT OF THE BAGS.

   THE BAGS SHALL BE FILLED WITH SUBROUNDED TO ROUNDED GRAVEL LESS THAN 3/4-INCH IN DIAMETER, WITH LESS THAN FIVE PERCENT OF MATERIAL PASSING A NO. 30 SIEVE. THE FILLED BAGS SHALL HAVE THE OPEN ENDS SECURELY FASTENED PRIOR TO DELIVERY TO THE SITE.
4. INSTALLATION: GRAVELBAGS SHALL BE INSTALLED IN A SIDE BY SIDE MANNER TO ENTRAP SILT AND MUD, AND TO DIVERT THE FLOW OF WATER. NOTWITHSTANDING THE OTHER REQUIREMENTS OF THIS SPECIFICATION, FAILURE OF THE BAGS TO PERFORM THIS FUNCTION SHALL BE REASON TO REJECT THEIR INSTALLATION.

   GRAVELBAGS SHALL BE INSTALLED WITH THE WIDEST FACE AGAINST THE GROUND SURFACE OR THE UNDERLYING COURSE OF BAGS, AND PRESSED IN PLACE TO CONFORM TO THE UNDERLYING SURFACE. THE BAGS SHALL BE PLACED WITH THE TIED ENDS IN THE "UPHILL" OR "UPSTREAM" DIRECTION, BEGINNING AT THE LOWEST OR MOST DOWNSTREAM BAG, TIED ENDS WILL BE TUCKED UNDER BAG. SUBSEQUENT BAGS WITHIN EACH COURSE OF BAGS SHALL BE PLACED SO AS TO REST UPON THE TIED END OF THE PREVIOUSLY PLACED BAG, WITH NOT LESS THAN 10 PERCENT OF THE BAG IN CONTACT WITH THE PREVIOUS BAG, AND NOT MORE THAN 20 PERCENT IN CONTACT.

   SUBSEQUENT COURSES OF BAGS SHALL BE PLACED AS DESCRIBED PREVIOUSLY, WITH THE MID-POINT OF THE BAGS STRADDLING THE JOINTS OF BAGS IN THE UNDERLYING ROW.

   CONSTRUCTION OF A GRAVELBAG BERM PERPENDICULAR TO THE DIRECTION OF FLOW SHALL INCORPORATE BAGS PLACED IN A "PYRAMID" CONFIGURATION, WITH ALL INDIVIDUAL BAGS ORIENTED PERPENDICULAR TO THE DIRECTION OF FLOW. THE BERM SHALL BE CONSTRUCTED WITH A SPECIFIED NUMBER OF ROWS AT THE BOTTOM (IN CONTACT WITH THE GROUND), WITH SUCCESSIVELY FEWER ROWS IN EACH OVERLYING COURSE. THE UPSTREAM AND DOWNSTREAM FACES OF THE BERM SHALL BE NO STEEPER THAN 1 1/2 FEET HORIZONTAL TO 1 VERTICAL.

   DAMAGE WHICH COULD FORESEEBLY BE PREVENTED BY PROPER GRAVELBAG INSTALLATION SHALL BE THE CONTRACTOR'S RESPONSIBILITY.

CONSTRUCTION
STORMWATER MITIGATION MEASURES (BMPs)

THE FOLLOWING BMP'S AS OUTLINED IN, BUT NOT LIMITED TO, THE BEST MANAGEMENT PRACTICE HANDBOOK, CALIFORNIA STORMWATER QUALITY TASK FORCE, SACRAMENTO, CALIFORNIA 2019, OR THE LATEST REVISED EDITION, APPLY DURING THE CONSTRUCTION OF THIS PROJECT. (ADDITIONAL MEASURES MAY BE REQUIRED IF DEEMED APPROPRIATE BY CITY INSPECTORS)

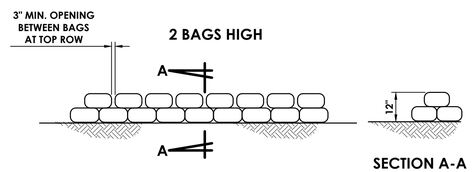
NOTE:
* LOCATIONS TO BE DETERMINED BY CONTRACTOR AND APPROVED BY CITY INSPECTOR

NPDES NOTES:



1. IN THE CASE OF EMERGENCY, CALL _____
   AT WORK PHONE # _____ TO BE COMPLETED BY CONTRACTOR
   OR HOME PHONE # _____
2. SEDIMENT FROM AREAS DISTURBED BY CONSTRUCTION SHALL BE RETAINED ON SITE USING STRUCTURAL CONTROLS TO THE MAXIMUM EXTENT PRACTICABLE.
3. STOCKPILES OF SOIL SHALL BE PROPERLY CONTAINED TO MINIMIZE SEDIMENT TRANSPORT FROM THE SITE TO STREETS, DRAINAGE FACILITIES OR ADJACENT PROPERTIES VIA RUNOFF, VEHICLE TACKING, OR WIND.
4. APPROPRIATE BMP'S FOR CONSTRUCTION-RELATED MATERIALS, WASTES, SPILLS SHALL BE IMPLEMENTED TO MINIMIZE TRANSPORT FROM THE SITE TO STREETS, DRAINAGE FACILITIES, OR ADJOINING PROPERTIES BY WIND OR RUNOFF.
5. RUNOFF FROM EQUIPMENT AND VEHICLE WASHING SHALL BE CONTAINED AT CONSTRUCTION SITES UNLESS TREATED TO REDUCE OR REMOVE SEDIMENT AND OTHER POLLUTANTS.
6. ALL CONSTRUCTION CONTRACTOR AND SUBCONTRACTOR PERSONNEL ARE TO BE MADE AWARE OR THE REQUIRED BEST MANAGEMENT PRACTICES AND GOOD HOUSEKEEPING MEASURES FOR THE PROJECT SITE AND ANY ASSOCIATED CONSTRUCTION STAGING AREAS.
7. AT THE END OF EACH DAY OF CONSTRUCTION ACTIVITY ALL CONSTRUCTION DEBRIS AND WASTE MATERIALS SHALL BE COLLECTED AND PROPERLY DISPOSED IN TRASH OR RECYCLE BINS.
8. CONSTRUCTION SITES SHALL BE MAINTAINED IN SUCH A CONDITION THAT AN ANTICIPATED STORM DOES NOT CARRY WASTES OR POLLUTANTS OFF THE SITE. DISCHARGES OF MATERIAL OTHER THAN STORMWATER ONLY WHEN NECESSARY FOR PERFORMANCE AND COMPLETION OF CONSTRUCTION PRACTICES AND WHERE THEY DO NOT: CAUSE OR CONTRIBUTE TO A VIOLATION OF ANY WATER QUALITY STANDARD; CAUSE OR THREATEN TO CAUSE POLLUTION, CONTAMINATION, OR NUISANCE; OR CONTAIN A HAZARDOUS SUBSTANCE IN A QUANTITY REPORTABLE UNDER FEDERAL REGULATIONS 40 CFR PARTS 117 AND 302.
9. POTENTIAL POLLUTANTS INCLUDE BUT ARE NOT LIMITED TO: SOLID OR LIQUID CHEMICAL SPILLS; WASTES FROM PAINTS, STAINS, SEALANTS, GLUES, LIMES, PESTICIDES, HERBICIDES, WOOD PRESERVATIVES AND SOLVENTS; ASBESTOS FIBERS, PAINT FLAKES OR STUCCO FRAGMENTS; FUELS, OILS, LUBRICANTS, AND HYDRAULIC, RADIATOR OR BATTERY FLUIDS; FERTILIZERS, VEHICLE/EQUIPMENT WASH WATER AND CONCRETE WASH WATER; CONCRETE, DETERGENT OR FLOATABLE WASTES; WASTES FROM ANY ENGINE/EQUIPMENT STEAM CLEANING OR CHEMICAL DEGREASING AND SUPER CHLORINATED POTABLE WATER LINE FLUSHING. DURING CONSTRUCTION, PERMITTEE SHALL DISPOSE OF SUCH MATERIALS IN A SPECIFIED AND CONTROLLED TEMPORARY AREA ON-SITE, PHYSICALLY SEPARATED FROM POTENTIAL STORMWATER RUNOFF, WITH ULTIMATE DISPOSAL IN ACCORDANCE WITH LOCAL, STATE AND FEDERAL REQUIREMENTS.
10. DEWATERING OF CONTAMINATED GROUNDWATER, OR DISCHARGING CONTAMINATED SOILS VIA SURFACE EROSION IS PROHIBITED. DEWATERING OF NONCONTAMINATED GROUNDWATER REQUIRES A NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT FROM THE RESPECTIVE STATE REGIONAL WATER QUALITY CONTROL BOARD.
11. GRADED AREAS ON THE PERMITTED AREA PERIMETER MUST DRAIN AWAY FROM THE FACE OF SLOPES AT THE CONCLUSION OF EACH WORKING DAY. DRAINAGE IS TO BE DIRECTED TOWARD DESILTING FACILITIES.
12. THE PERMITTEE AND CONTRACTOR SHALL BE RESPONSIBLE AND SHALL TAKE NECESSARY PRECAUTIONS TO PREVENT PUBLIC TRESPASS ONTO AREAS WHERE IMPOUNDED WATER CREATES A HAZARDOUS CONDITION.
13. THE PERMITTEE AND CONTRACTOR SHALL INSPECT THE EROSION CONTROL WORK AND INSURE THAT THE WORK IS IN ACCORDANCE WITH THE APPROVED PLANS.
14. THE PERMITTEE SHALL NOTIFY ALL GENERAL CONTRACTORS, SUBCONTRACTORS, MATERIAL SUPPLIERS, LESSEES, AND PROPERTY OWNERS: THAT DUMPING OF CHEMICALS INTO THE STORM DRAIN SYSTEM OR THE WATERSHED IS PROHIBITED.
15. EQUIPMENT AND WORKERS FOR EMERGENCY WORK SHALL BE MADE AVAILABLE AT ALL TIMES DURING THE RAINY SEASON. NECESSARY MATERIALS SHALL BE AVAILABLE ON SITE AND STOCKPILED AT CONVENIENT LOCATIONS TO FACILITATE RAPID CONSTRUCTION OF TEMPORARY DEVICES WHEN RAIN IS IMMINENT.
16. ALL REMOVABLE EROSION PROTECTIVE DEVICES SHALL BE IN PLACE AT THE END OF EACH WORKING DAY WHEN THE 5-DAY RAIN PROBABILITY FORECAST EXCEEDS 40%.
17. SEDIMENTS FROM AREAS DISTURBED BY CONSTRUCTION SHALL BE RETAINED ON SITE USING AN EFFECTIVE COMBINATION OF EROSION AND SEDIMENT CONTROLS TO THE MAXIMUM EXTENT PRACTICABLE, AND STOCKPILES OF SOIL SHALL BE PROPERLY CONTAINED TO MINIMIZE SEDIMENT TRANSPORT FROM THE SITE TO STREETS, DRAINAGE FACILITIES OR ADJACENT PROPERTIES VIA RUNOFF, VEHICLE TRACKING, OR WIND.
18. APPROPRIATE BMPS FOR CONSTRUCTION-RELATED MATERIALS, WASTES, SPILLS OR RESIDUES SHALL BE IMPLEMENTED AND RETAINED ON SITE TO MINIMIZE TRANSPORT FROM THE SITE TO STREETS, DRAINAGE FACILITIES, OR ADJOINING PROPERTY BY WIND OR RUNOFF.

BENCHMARK

OCS BM "3U-41-70"
ELEVATION 267.878' [NAVD88, LEVELED 1991]

DESCRIBED BY OCS 2003 - FOUND 3 3\4" OCS ALUMINUM BENCHMARK DISK STAMPED "3U-41-70", SET IN THE NORTHWESTERLY CORNER OF A CONCRETE BRIDGE ABUTMENT. MONUMENT IS LOCATED IN THE NORTHWESTERLY CORNER OF THE INTERSECTION OF FORBES ROAD AND CROWN VALLEY PARKWAY, 150 FT. WESTERLY OF THE CENTERLINE OF FORBES, 22.6 FT. NORTHERLY OF THE CENTERLINE OF CROWN VALLEY PARKWAY AND IN THE NORTHERLY END OF THE WESTERLY ABUTMENT. MONUMENT IS SET LEVEL WITH THE BRIDGE DECK.

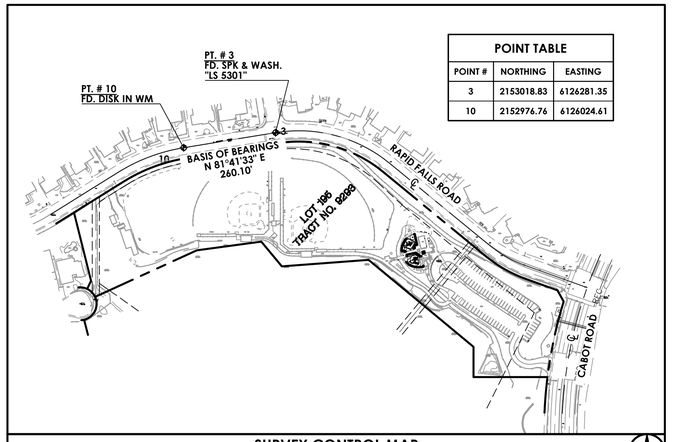
BASIS OF BEARINGS:

THE BEARINGS SHOWN HEREON ARE BASED ON THE CENTERLINE BEARING OF RAPID FALLS ROAD SHOWN AS N 80°41'33"E ON TRACT MAP 9293, FILED IN BOOK 460, PAGES 18 TO 31, PER RECORDS ON FILE IN THE OFFICE OF THE ORANGE COUNTY SURVEYOR.

NOTE TO CONTRACTOR:

A. CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR PROVIDING COMPLETE, TIMELY AND ACCURATE FIELD LAYOUT OF THE PROPOSED SITE IMPROVEMENTS INCLUDING, BUT NOT NECESSARILY LIMITED TO, HORIZONTAL AND VERTICAL CONTROL AND DIMENSIONAL COORDINATION AS NECESSARY TO CONSTRUCT THE WORK IN ACCORDANCE WITH THE CONTRACT DOCUMENTS. THIS SURVEY WORK SHALL BE PERFORMED BY A LICENSED LAND SURVEYOR AND SHALL PROVIDE FOR THE SURVEY AND STAGING OF ALL CONSTRUCTION ELEMENTS INCLUDING BUT NOT LIMITED TO BUILDING LOCATIONS, PAVING EDGES/ALIGNMENT FENCING, WALLS, LIGHT FIXTURES, SIGNS, MOW CURBS, SEATING, SHADE STRUCTURES, PLAY FIELDS AND APPURTENANCES,, CURB AND GUTTER ALIGNMENTS, CATCH BASINS, DRAINS, ETC.

B. AN AUTOCAD-COMPATIBLE .DWG FILE OF THE PROPOSED IMPROVEMENTS SHALL BE PROVIDED TO THE CONTRACTOR PRIOR TO THE START OF CONSTRUCTION FOR HIS USE IN PREPARING THE NECESSARY FIELD SURVEYING / LAYOUT OF PROPOSED IMPROVEMENTS. THE USE OF THIS DIGITAL FILE SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR AND IS INTENDED TO ASSIST THE SURVEYOR IN THE LAYOUT OF THE PROPOSED IMPROVEMENTS.



THESE ELECTRONIC FILES ARE NOT CONSTRUCTION DOCUMENTS. DIFFERENCES MAY EXIST BETWEEN THESE ELECTRONIC FILES AND CORRESPONDING HARD COPY CONSTRUCTION DOCUMENTS ISSUED FOR PUBLIC BID. IN THE EVENT THAT A CONFLICT ARISES BETWEEN THE SIGNED OR SEALED HARD COPY CONSTRUCTION DOCUMENTS AND THE ELECTRONIC FILES, THE SIGNED OR SEALED HARD COPY CONSTRUCTION DOCUMENTS SHALL GOVERN. THE CONTRACTOR IS RESPONSIBLE FOR DETERMINING IF ANY CONFLICT EXISTS AND SHALL BRING ANY DISCREPANCIES TO THE PROJECT LANDSCAPE ARCHITECT'S ATTENTION PRIOR TO ANY FIELD LAYOUT. BY THE CONTRACTOR'S USE OF THESE ELECTRONIC FILES, THEY ARE NOT RELIEVED OF THEIR DUTY TO FULLY COMPLY WITH THE CONTRACT DOCUMENTS, INCLUDING, AND WITHOUT LIMITATION, THE NEED TO CHECK, CONFIRM, AND COORDINATE ALL DIMENSIONS AND DETAILS, TAKE FIELD MEASUREMENTS, VERIFY FIELD CONDITIONS, AND COORDINATE THE WORK WITH THAT OF OTHER CONTRACTORS FOR THE PROJECT.

THE DIGITAL INFORMATION PROVIDED BY civTEC SHALL NOT BE USED FOR ANY PURPOSE OTHER THAN FOR THE PROJECT DESCRIBED ABOVE AND SHALL NOT BE RELEASED TO ANY OTHER PARTY WITHOUT THE WRITTEN CONSENT OF civTEC. THE INFORMATION CONTAINED ON THE ELECTRONIC MEDIA IS AN INSTRUMENT OF PROFESSIONAL SERVICES AND SHALL REMAIN THE PROPERTY OF civTEC.

GENERAL NOTES

1. CONTRACTOR SHALL REFERENCE ARCHITECTURAL AND/OR LANDSCAPE PLANS FOR ADDITIONAL HARDSCAPE REQUIREMENTS AND DETAILS.
2. CONTRACTOR SHALL REMOVE AND DISPOSE OF EXISTING LANDSCAPE AND HARDSCAPE IMPROVEMENTS AS NECESSARY TO CONSTRUCT IMPROVEMENTS SHOWN HEREON.
3. ALL SIDEWALKS, CURB RETURNS, AND ACCESS POINTS SHALL MEET TITLE 24 AND AMERICANS WITH DISABILITIES ACT (ADA) REQUIREMENTS.

CITY OF LAGUNA HILLS
NOTICE INVITING BIDS FOR CONSTRUCTION OF

CABOT PARK REHABILITATION

NOTICE IS HEREBY GIVEN that sealed bids for the **Cabot Park Rehabilitation** ("Project") in the City of Laguna Hills will be received at the Office of the City Engineer of the 24035 El Toro Road, Laguna Hills, until **2:00 p.m. on June 2, 2026**, at which time they will be publicly opened and read aloud.

PRE-BID MEETING: A pre-bid meeting will be held at the Project site on **Tuesday, May 19, 2026 at 9:00 a.m.** ***Site Address: Cabot Park, Cabot Road and Rapid Falls Road, Laguna Hills, California 92653.*** The meeting is **not mandatory** but attendance is highly encouraged.

DESCRIPTION OF THE WORK: In general, the work is comprised of public works construction including play equipment and safety surfacing installation, steel handrail repairs, site furnishing replacement, park monument sign installation and minor restroom building repairs and replacements and other miscellaneous improvements as shown on the plans and as required to complete the work.

AWARD OF CONTRACT: The City reserves the right after opening bids to reject any or all bids, to waive any informality (non-responsiveness) in a bid, or to make award to the lowest responsive, responsible bidder**,** and reject all other bids, as it may best serve the interest of the City. Within three (3) business days of bid opening, contractor must submit a revised bid bond with numerical dollar values, both in words and with digits of bid amount. Within five (5) working days after the date of the Notice of Apparent Low Bidder, the successful bidder will be required to submit required Contract Agreement and Insurance. Within ten (10) working days after the date of the Notice of Award, the successful bidder will be required to submit Bonds (Faithful Performance and Material and Labor), Construction Schedule, and Water Pollution Control Plan.

CONTRACTOR'S LICENSE CLASSIFICATION: The Contractor shall possess a valid **Class A Contractor's License**, or a combination of Class C Contractor's Licenses as necessary to perform the work, at the time of submitting bids, in accordance with provisions of Chapter 9, Division III of the California Business and Professions Code.

WAGE RATE REQUIREMENTS: The wage rates applicable to this Project are the State of California Department of Industrial Relations prevailing rates of per diem wages. In accordance with the provisions of Sections 1773.2 of the California Labor Code, copies of the general prevailing rate of per diem wages as determined by the State Director of Industrial Relations are available at City Hall, which shall be made available to any interested party upon request, or on the Internet at the State Department of Industrial Relations website (www.dir.ca.gov) under Statistics and Research. It shall be mandatory upon the Contractor to whom the contract is awarded and upon any subcontractor to pay not less than said specified rates to all workers employed by them in the execution of the contract. A copy of said rates shall be posted at each job site during the course of construction. The Contractor and all subcontractors shall comply with all provisions of the California Labor Code relating to prevailing wage rates, including Sections 1770–1781.

This Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. The Department of Industrial Relations shall monitor and enforce compliance with applicable prevailing wage requirements for the contract. The reporting requirements may be found at https://www.dir.ca.gov/Public-Works/Contractors.html. The Contractor is responsible for complying with all requirements of the Department of Industrial Relations, including filing electronic payroll reports.

A contractor or subcontractor will not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an

unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded.

RETAINAGE FROM PAYMENTS: The Contractor may elect to receive 100 percent of payments due under the Contract Documents from time to time, without retention of any portion of the payments by the City, by depositing securities of equivalent value with the City in accordance with the provisions of Section 22300 of the Public Contract Code. If the Contractor chooses not to exercise its rights under Public Contract Code Section 22300, the full five percent (5%) retention will be deducted from all payments. The final retention will be authorized for payment thirty-five (35) days after the date of recordation of the Notice of Completion, if no stop notices have been filed. The City may withhold from release of the final retention amounts authorized under Public Contracts Code Section 7107 and/or 125% of amounts identified in any Stop Notices received by the City.

OBTAINING OR INSPECTING CONTRACT DOCUMENTS: Contract Documents may be inspected without charge at the Public Works Department, City Hall, 24035 El Toro Road, Laguna Hills, California 92653. Contract Documents are available in portable document form (PDF) on the City's website https://lagunahillsca.gov/bids.aspx. It is the contractor's responsibility to ensure they are on the City's Plan Holder's List and they obtain any addendums or clarifications that are issued by the City on the City's website prior to submitting a bid. For any questions regarding acquisition of Contract Documents, contact Joe Ames at JAmes@lagunahillsca.gov.

Dated this 28th day of April 2026.

CITY OF LAGUNA HILLS

INSTRUCTIONS TO BIDDERS
FOR

CABOT PARK REHABILITATION

1. PROPOSAL FORMS

Bids shall be submitted in writing on the Proposal forms provided by the City of Laguna Hills (hereinafter "CITY" or "City"). All blank spaces in the bid forms must be correctly filled in and all information requested therein must be clearly and legibly set forth in the manner and form indicated. All spaces for bid prices and lump sum price for which the bid is made, must be filled in, in both words and figures. All prices and notations must be in ink or typewritten. No erasures will be permitted. Mistakes may be crossed out and corrections typed or written in ink adjacent thereto and must be initialed by the person or persons signing the bid. Bidder acknowledges and agrees that by failing to complete the bid forms in their entirety, as set forth above, the CITY may find the bidder's entire bid non-responsive and may cause the rejection of the bidder's proposal at the discretion of the CITY.

2. PROPOSAL GUARANTEE (BID BOND)

In accordance with Public Contract Code Section 20170, proposals must be accompanied by a proposal guarantee consisting of either cash, a cashier's check, a certified check or bid bond payable to the CITY in the minimum amount of ten percent (10%) of the total amount bid. Any proposal not accompanied by such a guarantee will not be considered. **IF A BIDDER TO WHOM A CONTRACT IS AWARDED FAILS OR REFUSES TO EXECUTE THE CONTRACT DOCUMENTS OR FURNISH THE REQUIRED INSURANCE POLICIES AND BONDS AS SET FORTH IN THOSE DOCUMENTS, THE PROPOSAL GUARANTEE SHALL BE FORFEITED TO THE CITY**. The proposal guarantees of all bidders will be held until the successful bidder has properly executed all Contract Documents.

3. NON-COLLUSION AFFIDAVIT

Bidder shall declare that the only persons or parties interested in the proposal as principals are those named therein; that no officer, agent, or employee of the CITY is personally interested, directly or indirectly, in the proposal; that the proposal is made without connection to any other individual, firm, or corporation making a bid for the same work; and that the proposal is in all respects fair and without collusion or fraud. The Non-Collusion Affidavit shall be executed and submitted with the proposal.

4. PROPOSAL BID SHEET

Bidders shall give unit prices for each and all of the items set forth. No aggregate bids will be considered. The bidder shall set forth for each item of work, in clearly legible figures, a unit item price and a total for the item in the respective spaces provided for this purpose. The quantities listed in the Bid sheets are supplied to give an indication of the general scope of work, but the accuracy of figures is not guaranteed and the bidder shall make his own estimates from the drawings. In case of a variation between the unit price and the totals shown by the bidder, the unit price will be considered to be the bid.

5. DELIVERY OF PROPOSAL

Proposals may be mailed or delivered by messenger. However, it is the bidder's responsibility alone to ensure delivery of the proposal to the hands of the CITY's designated official prior to the bid opening time deadline set forth in the "Notice Inviting Sealed Bids." Late proposals will not be considered and will be returned to the bidder unopened. Proposals shall be enclosed in a sealed envelope plainly marked on the outside, "CABOT PARK REHABILITATION PROJECT- DO NOT OPEN WITH REGULAR MAIL."

6. WITHDRAWAL OF PROPOSALS

A proposal may be withdrawn by a written request signed by the bidder. Such requests must be delivered to the CITY's designated official prior to the bid-opening time deadline set forth in the "Notice Inviting Sealed Bids". The withdrawal of a proposal will not prejudice the right of the bidder to submit a new proposal, provided there is time remaining to do so. Proposals may not be withdrawn after the bid opening without forfeiture of the proposal guarantee, except as authorized by state law. .

7. NONRESPONSIVE PROPOSALS

Unauthorized conditions, limitations, or provisions attached to a proposal will render it nonresponsive and may cause its rejection. The completed proposal forms shall be without inter-lineation, alterations, or erasures. Alternative proposals will not be considered unless specifically requested. No oral, telegraphic, or telephonic proposal, modification, or withdrawal will be considered.

8. TAXES

No mention shall be made in the proposal of Sales Tax, Use Tax, or any other tax, as all amounts bid will be deemed and held to include any such taxes that may be applicable. Bidder acknowledges and agrees that CITY shall not be responsible for the payment of any increase in Sales Tax, Use Tax, or any other tax that takes effect after award.

9. DISQUALIFICATION OF BIDDERS

In the event that any bidder acting as a prime contractor has an interest in more than one proposal, all such proposals will be rejected, and the bidder will be disqualified. This restriction does not apply to subcontractors or suppliers who may submit quotations to more than one bidder.

No contract will be executed unless the bidder is licensed in accordance with the provisions of the Business and Professions Code.

10. INTERPRETATION OF PLANS AND DOCUMENTS

If any person contemplates submission of a bid for the proposed contract and is in doubt as to the true meaning of any part of the plans, specifications or other proposed contract documents, or finds discrepancies in, or omissions from, the drawings or specifications, he or she may submit to the City Engineer a written request for an interpretation or correction thereof five (5) working days prior to the scheduled bid opening. The person submitting the request will be responsible for its prompt delivery. Any interpretation or correction of the proposed

documents shall be made only by addendum duly issued and copy of such addendum will be mailed or delivered to each person receiving a set of such documents. The City Engineer will not be responsible for any other explanation or interpretations of the proposed documents.

11. ADDENDA OR BULLETINS

The effect of all addenda to the Contract Documents shall be considered in the bid, and said addenda shall be made a part of the Contract Documents and shall be returned with them. Before submitting a bid, each bidder shall confirm as to whether or not any addenda have been issued, and failure to cover in this bid any such addenda issued, may render bid non-responsive and may result in its rejection by the CITY.

12. LEGAL RESPONSIBILITIES

All proposals must be submitted, filed, made, and executed in accordance with State and Federal laws relating to bids for contracts of this nature whether the same are expressly referred to herein or not.

Any bidder submitting a proposal shall by such action thereby agree to each and all of the terms, conditions, provisions, and requirements set forth, contemplated, and referred to in the Plans, Specifications, and Contract Documents, and to full compliance therewith.

13. AWARD OF CONTRACT

Following a review of the bids, the CITY shall determine whether to award the contract or to reject all bids. The award of contract, if made, will be to the lowest responsive-responsible bidder as determined solely by the CITY. At the time of contract award, the successful bidder shall hold a Class A Contractor's License, or a combination of Class C Contractor's License(s), as required to perform the work, issued by the State of California. Additionally, the CITY reserves the right to reject any or all proposals, to accept any bid or portion thereof, to waive any irregularity, and to take the bids under advisement for the period of time stated in the "Notice Inviting Sealed Bids", all as may be required to provide for the best interests of the CITY. In no event will an award be made until all necessary investigations are made as to the responsibility and qualifications of the bidder to whom the award is contemplated.

Within three (3) days of bid opening contractor must submit a revised bid bond with numerical dollar values, both in words and with digits of bid amount. Within five (5) working days after the date of the Notice of Apparent Low Bidder, the successful bidder will be required to submit required Contract Agreement and Insurance. Within ten (10) working days after the date of the Notice of Award, the successful bidder will be required to submit Bonds (Faithful Performance and Material and Labor). Submission of these documents shall be at the Low Bidder's sole cost and expense and shall not be made reimbursable by City. Award of Contract, if made, shall be solely the determination of the City Council.

No bidder may withdraw its proposal for a period of forty-five (45) days after the time set for opening thereof. However, the CITY will return all proposal guarantees within ten (10) days after the award of the contract or rejection of the bids, as the case may be, to the respective bidders whose proposals they accompany.

/

/

14. PREVAILING WAGE RATES

The wage rates applicable to this Project are the State of California Department of Industrial Relations prevailing rates of per diem wages. In accordance with the provisions of Sections 1773.2 of the California Labor Code, copies of the general prevailing rate of per diem wages as determined by the State Director of Industrial Relations are available at City Hall, which shall be made available to any interested party upon request, or on the Internet at the State Department of Industrial Relations website (www.dir.ca.gov) under Statistics and Research.

It shall be mandatory upon the Contractor to whom the Contract is awarded and upon any subcontractor to pay not less than said specified rates to all workers employed by them in the execution of the Contract. A copy of said rates shall be posted at each job site during the course of construction. The Contractor and all subcontractors shall comply with all provisions of the California Labor Code relating to prevailing wage rates, including Sections 1770–1781.

This Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. The Department of Industrial Relations shall monitor and enforce compliance with applicable prevailing wage requirements for this Agreement. The reporting requirements may be found at https://www.dir.ca.gov/Public-Works/Contractors.html. The Contractor is responsible for complying with all requirements of the Department of Industrial Relations, including filing electronic payroll reports.

A contractor or subcontractor will not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded. Contractor and its subcontractors shall maintain active registration with the Department of Industrial Relations for the duration of the Project.

A contractor or subcontractor will not be qualified to bid on, be listed in a bid proposal, subject to Section 6109 of the public Contract Code, or engage in the performance of any contract for public work on a public works project if the contractor or subcontractor is ineligible to perform work pursuant to Section 1777.1 or 1777.7 of the Labor Code.

The CITY will not recognize any claim for additional compensation because of the payment by the Contractor of any wage rate in excess of the prevailing wage rate or the Federal Minimum Wage Rate (whichever is greater) as set forth in the contract. The possibility of wage increases is one of the elements to be considered by the bidder in determining his bid, and will not under any circumstances be considered as the basis of a claim against the CITY on the Contract.

The Contractor and subcontractors shall comply with Section 1777.6 of the Labor Code which stipulates that it shall be unlawful to refuse to accept otherwise qualified employees as registered apprentices on any public works on any basis listed in Government Code Section

12940(a), as those bases are defined in Government Code Sections 12926 and 12926.1, except as provided in Labor Code Section 3077 and Government Code Section 12940.

15. WORKERS' COMPENSATION CERTIFICATE

Section 3700 of the Labor Code requires that every employer shall secure the payment compensation by either being insured against liability to pay compensation with one or more insurers or by securing a certificate of consent to self-insure from the State Director of Industrial Relations.

In accordance with this section and with Section 1861 of the Labor Code, the Contractor shall sign a Compensation Insurance Certificate which is included with the Contract Agreement, and submit same to CITY along with the other required Contract Documents, prior to performing any work. Reimbursement for this requirement shall be considered as included in the various items of work.

16. CLAYTON ACT AND CARTWRIGHT ACT

In accordance with Section 7103.5 of the Public Contract Code, in entering into a public works contract or a subcontract to supply goods, services or materials pursuant to a public works contract, the Contractor or subcontractor offers and agrees to assign to CITY all rights, and interest in and all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to the Contractor, without further acknowledgment by the parties.

17. SUBLETTING AND SUBCONTRACTING.

Pursuant to the Subletting and Subcontracting Fair Practices Act (commencing with Section 4100 of the Public Contract Code), bidders are required to list in their proposal the name business address, California contractor license number, and public works contractor registration number issued pursuant to Section 1725.5 of the Labor Code of each subcontractor who will perform work or labor or render services in or about the construction of the work or improvement or a subcontractor who specially fabricates and installs a portion of the work or improvement according to detailed drawings contained in the Plans and Specifications in excess of 1/2 of 1% of this prime Contractor's total bid or $10,000, whichever is greater. If a subcontractor's California contractor license number or public works contractor registration number are submitted incorrectly in the bid, it will not be grounds for filing a bid protest or grounds for considering the bid nonresponsive if the corrected subcontractor's California contractor license number is submitted to CITY within 24 hours after the bid opening

If the bidder fails to list a subcontractor for a portion of work or if the bidder lists more than one subcontractor of the same portion of work in excess of 1/2 of 1% of the total bid or $10,000, whichever is greater, the bidder agrees that it is fully qualified to perform that portion of work itself, and that the bidder shall perform that portion of work itself. If after award of the contract, the bidder actually subcontracts that portion of work, except as provided in Public Contract Code Section 4107 or 4109, the bidder shall be subject to the penalties listed in

Section 4111 of the Public Contract Code. It is the CITY's intent for the Subletting and Subcontracting Fair Practices Act to apply to all phases of the work.

/

18. SUBSTITUTION OF SECURITIES

In conformance with Public Contract Code Section 22300, which is incorporated herein by this reference, the Contractor may substitute securities for any monies withheld by the CITY to ensure performance under the Contract or, in the alternative, may request payment of retention earned directly to an escrow agent.

At the request and expense of the Contractor, the Contractor has the option to deposit securities, which have been approved by the CITY, with a State or Federally chartered bank as the escrow agent or require the City to deposit 5% of each progress payment with the escrow agent. Said securities will be used as a substitute for retention earnings required to be withheld by the CITY, pursuant to the construction contract. Said securities shall have no obligation to any other construction contract for substitution of securities in lieu of retention. When the Contractor deposits the CITY approved securities with the escrow agent, the escrow agent shall notify the CITY within 10 calendar days of the deposit. Said securities shall be evaluated quarterly by the escrow agent to verify the current market value. If the current market value of said securities falls below the required amount, the escrow agent shall notify the Contractor and require additional securities and/or cash to be submitted for CITY approval, and be held in the escrow account to meet the Contractor's obligations. The escrow agent shall hold said securities until such time as the escrow agent receives written notification from the CITY that the Contractor has satisfactorily completed his Contract obligations.

The type of securities deposited and the method of release shall be approved by the City Attorney's office.

If the Contractor chooses not to exercise its rights under Public Contract Code Section 22300, the full five percent (5%) retention will be deducted from all payments. The final retention will be authorized for payment thirty-five (35) days after the date of recordation of the Notice of Completion, if no stop notices have been filed. The CITY may withhold from release of the final retention amounts authorized under Public Contracts Code Section 7107 and/or 125% of amounts identified in any Stop Notices received by the CITY.

19. BID DOCUMENT/PROPOSAL EDITS

No Proposer shall modify, edit, interlineate or change any portion of the Bid Proposal pages without the Agency’s written issuance of a formal Addenda. Any Proposer that modifies, edits, interlineates or changes the Bid Proposal sheets with unauthorized changes shall be deemed to be a non-responsive Bidder.

BIDDER'S NAME:_____

CITY OF LAGUNA HILLS

PROPOSAL
FOR

CABOT PARK REHABILITATION

TO **CITY OF LAGUNA HILLS**, as CITY:

In accordance with CITY's "Notice Inviting Sealed Bids", the undersigned BIDDER hereby proposes to furnish all materials, equipment, tools, labor, and incidentals required for the above stated project as set forth in the Plans, Specifications, and Contract Documents therefore, and to perform all work in the manner and time prescribed therein.

BIDDER declares that this proposal is based upon careful examination of the work site, Plans, Standard Specifications, Notice Inviting Sealed Bids, Instructions to Bidders, Proposal Documents, General Specifications, Special Provisions and Contract Documents. If this proposal is accepted for award, BIDDER agrees to enter into a contract with CITY at the unit and/or lump sum prices set forth in the following Proposal Bid Sheet. BIDDER understands that failure to enter into a contract in the manner and time prescribed will result in forfeiture to CITY of the Bid Security accompanying this proposal.

BIDDER understands that a bid is required for the entire work, that the estimated quantities set forth in the Proposal Bid Sheet are solely for the purpose of comparing bids, and that final compensation under the contract will be based upon the actual quantities of work satisfactorily completed. It is agreed that the unit and/or lump sum prices bid include all appurtenant expenses, taxes, royalties, and fees. In the case of discrepancies in the amounts bid, unit prices shall govern over extended amounts.

BIDDER agrees and acknowledges that it is aware of the provisions of Section 3700 of the Labor Code, which requires every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and that the BIDDER will comply with such provisions of that code before the commencement of any work under this Contract, if awarded.

BIDDER certifies that in all previous contracts or subcontracts, all reports which may have been due under the requirements of any CITY, State, or Federal equal employment opportunity orders have been satisfactorily filed, and that no such reports are currently outstanding.

BIDDER declares that the only persons or parties interested in this proposal as principals are those named herein; that no officer, agent, or employee of the CITY is personally interested, directly or indirectly, in this proposal; that this proposal is made without connection to any other individual, firm, or corporation making a bid for the same work; and that this proposal is in all respects fair and without collusion or fraud.

BIDDER certifies that affirmative action has been taken to seek out and consider disadvantaged business enterprises for those portions of the work to be subcontracted, and that such affirmative actions have been carefully documented, that said documentation is open to inspection, and that said affirmative action will remain in effect for the life of any contract awarded hereunder.

Furthermore, BIDDER certifies that affirmative action will be taken to meet all equal employment opportunity requirements of the contract documents.

Bond Number_____

BIDDER'S BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS,_____ (the "Principal") has submitted a
(NAME OF BIDDER)
bid (the "Bid") to the City of Laguna Hills, California (the "City") for construction of the

_____(the "Work"), as specifically set
(NAME OF PROJECT AND/OR DESCRIPTION OF WORK)
forth in documents entitled_____,
(TITLE OF BID PACKAGE)
Dated:_____, 20____(the "Specifications").

AND WHEREAS, the Principal is required to provide bidder's security in an amount equal to at least ten percent (10%) of the amount of the Bid and has chosen to satisfy this obligation by providing this bond.

NOW, THEREFORE, we, the Principal, and_____ (the
(NAME OF SURETY)
"Surety"), an admitted surety insurer in the State of California, are held firmly bound unto the City of Laguna Hills in the sum of_____ and_____/100 DOLLARS ($_____), lawful money of the United States of America, for the payment of which sum, well and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents, this amount being ten percent (10%) of the total amount of the Bid.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

1. If (a) the City accepts the Bid and awards the Principal a contract for the Work, and (b) within the time and manner required under the Specifications or by law, after the prescribed forms are presented to the Principal for signature, the Principal executes a written contract for construction of the Work in accordance with the Bid and delivers the required faithful performance and payment bonds and insurance policies, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.
2. The Surety, for value received, hereby stipulates and agrees that the obligation of said Surety and its bond shall be in no way impaired or affected by any extension of the time within

Bond Amount $_____
Bond Number_____

which the City may accept such Bid; and said Surety does hereby waive notice of any such extension.

3. In the event suit is brought upon this bond by the City and judgment is recovered, as part of the obligation secured hereby and in addition to the face amount specified in this bond, the Surety shall pay all costs incurred by the City in such suit, including reasonable attorneys' fees to be fixed by the court.

IN WITNESS WHEREOF, this instrument has been duly executed by the Principal and Surety above named on the_____ day of_____, 20_____.

CITY OF LAGUNA HILLS

CONTRACT AGREEMENT
FOR

CABOT PARK REHABILITATION

THIS CONTRACT AGREEMENT (hereinafter "Agreement" or "Contract" or "Contract Agreement") is made and entered into for the above stated Project this _____ day of _____, 20____, BY AND BETWEEN THE **CITY OF LAGUNA HILLS**, as CITY, and _____, as CONTRACTOR.

WITNESSETH that CITY and CONTRACTOR have mutually agreed as follows:

ARTICLE I

The contract documents for the aforesaid Project shall consist of the Notice Inviting Sealed Bids, Instructions to Bidders, Proposal Documents, Contract Documents, General Specifications, Standard Specifications, Special Provisions, Plans, and all referenced specifications, details, standard drawings, and all appendices attached hereto, together with this Contract Agreement and all required bonds, insurance coverage, permits, notices, and affidavits; and also including any and all addenda or supplemental agreements clarifying, amending, or extending the work contemplated as may be required to ensure its completion in an acceptable manner (hereinafter collectively the "Contract Documents"). All of the provisions of said Contract Documents are attached hereto and are incorporated by reference herein and made a part of this Contract Agreement as though fully set forth herein.

ARTICLE II

For and in consideration of the payments and agreements to be made and performed by CITY, CONTRACTOR agrees to furnish all materials and perform all work required for the above stated project, and to fulfill all other obligations as set forth in the aforesaid Contract Documents.

ARTICLE III

CONTRACTOR agrees to receive and accept the prices set forth in the Proposal as full compensation for furnishing all materials, performing all work, and fulfilling all obligations hereunder. Said compensation shall cover all expenses, losses, damages, and consequences arising out of the nature of work during its progress or prior to its acceptance including those for well and faithfully completing the work and the whole thereof in the manner and time specified in the aforesaid Contract Documents; and also including those arising from actions of the elements, unforeseen difficulties or obstructions encountered in the prosecution of the work, suspension or discontinuance of the work, and all other unknowns or risks of any description connected with the work. Notwithstanding any provisions of this Agreement to the contrary, CITY and CONTRACTOR mutually agree that CITY's maximum cumulative payment obligation hereunder (including CONTRACTOR's profit) shall be Dollars ($0.00), which shall include all amounts payable to CONTRACTOR for its subcontracts, leases, materials and costs arising from, or due to termination of, this Agreement.

ARTICLE IV

CITY hereby promises and agrees to employ, and does hereby employ, CONTRACTOR to provide the materials, do the work, and fulfill the obligations according to the terms and conditions

herein contained and referred to, for the prices aforesaid, and hereby contracts to pay the same at the time, in the manner, and upon the conditions set forth in the Contract Documents.

ARTICLE V

CONTRACTOR acknowledges the provisions of the Labor Code requiring every employer to be insured against liability for workers' compensation, or to undertake self-insurance in accordance with the provisions of that code, and certifies compliance with such provisions.

ARTICLE VI

CONTRACTOR affirms that the signatures, titles, and seals set forth hereinafter in execution of this Agreement represent all individuals, firm members, partners, joint ventures, and/or corporate officers having a principal interest herein.

ARTICLE VII

CONTRACTOR hereby represents and warrants that it will comply with all of the provisions of the Federal Immigration and Nationality Act, 8 U.S.C. Section 1101, *et seq*., as amended, and in connection therewith, shall not employ unauthorized aliens as defined therein. Should CONTRACTOR so employ such unauthorized aliens for the performance of any work and/or services under this Agreement, and should any liability or sanctions be imposed against CITY for such use of unauthorized aliens, CONTRACTOR hereby agrees to reimburse CITY for any and all liabilities, actions, suits, claims, demands, losses, costs, judgments, arbitration awards, settlements, damages, demands, orders, or penalties which arise out of or are related to such employment, together with any and all costs, including attorneys' fees, incurred by CITY.

ARTICLE VIII

To the fullest extent permitted by law, CONTRACTOR shall defend (at CONTRACTOR's sole cost and expense), indemnify, protect, and hold harmless CITY, its elected and appointed officials, officers, employees, agents, and volunteers (collectively the "Indemnified Parties"), from and against any and all liabilities, actions, suits, claims, demands, losses, costs, judgments, arbitration awards, settlements, damages, demands, orders, penalties, and expenses including legal costs and attorney fees (collectively "Claims"), including but not limited to Claims arising from injuries to or death of persons (CONTRACTOR's employees included), or for damage to property, including property owned by CITY, which Claims arise out of, pertain to, or are related to CONTRACTOR's performance under the Agreement. Under no circumstances shall the insurance requirements and limits set forth in this Agreement be construed to limit CONTRACTOR's indemnification obligation or other liability hereunder. Notwithstanding the foregoing, such obligation to defend, hold harmless, and indemnify the CITY, its elected and appointed officials, officers, employees, agents, and volunteers, shall not apply to such claims or liabilities arising from the sole or active negligence or willful misconduct of CITY.

ARTICLE IX

CONTRACTOR shall be familiar with, observe, and comply at all times during the term of this Agreement with any work rules for contractors as may be established and promulgated by the City Manager, which work rules shall be additional terms and conditions for providing the work and services to the CITY pursuant to this Agreement, as may be updated and/or amended from time to time at the sole discretion of the City Manager.

FAITHFUL PERFORMANCE BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, on_____, the City of Laguna Hills, California
(DATE OF AWARD)
("City") awarded a public works contract (the "Contract"), delineated as Contract No._____,

for the_____, as
(NAME OF PROJECT AND/OR DESCRIPTION OF WORK)

specified in the Contract , to_____, a
(NAME OF CONTRACTOR)

_____ hereby designated as the "Principal",
(CONTRACTOR ENTITY TYPE i.e., INC, LLC, ETC)
which Contract is attached hereto, and which Contract and all documents incporated thereinby reference are expressly incorporated into this bond by reference.

AND WHEREAS, the Principal is required under the terms of the Contract to furnish a bond for the faithful performance of the Contract.

NOW, THEREFORE, we, the Principal, and_____ (the
(NAME OF SURETY)
"Surety"), an admitted surety insurer in the State of California, are held firmly bound unto the City of Laguna Hills in the sum of_____ and_____/100 DOLLARS ($_____), lawful money of the United States of America, for the payment of which sum, well and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

1. If the Principal, its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly do and perform all of the covenants and obligations of the Contract, including the provisions for liquidated damages in said Contract, and including any and all amendments, supplements, and alterations made to the Contract as provided therein, on the Principal's part to be done and performed at the times and in the manner specified in the Contract, and shall indemnify and save harmless the City, its officers and agents as specified in the Contract, then this obligation shall be null and void, otherwise it shall be and remain in full force and effect;
2. In the event the Principal fails to fully perform all requirements in accordance with the terms and conditions of the Contract, then the Surety shall enforce performance by the Principal or shall pay the City for the same in an amount not exceeding the amount specified in this bond.3. In the event suit is brought upon this bond by the City and judgment is recovered, as part of the obligation secured hereby and in addition to the face amount specified in this bond, the

Surety shall pay all costs incurred by the City in such suit, including reasonable attorneys' fees to be fixed by the court.

4. The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alterations, additions, omissions or other modifications to the terms of the Contract, or in the work to be performed or the material to be furnished under the Contract, or in the specifications or plans, whether or not made pursuant to the terms of the Contract, shall in any manner release either the Principal or Surety or affect the Surety's obligations on this bond, and it does hereby waive notice of any such changes, extensions, alterations, additions, omissions or other modifications.

PAYMENT (LABOR AND MATERIAL) BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, on _____ (DATE OF AWARD), the City of Laguna Hills, California ("City") awarded a public works contract (the "Contract"), delineated as Contract No._____, for the _____ (NAME OF PROJECT AND/OR DESCRIPTION OF WORK), as specified in the Contract , to _____ (NAME OF CONTRACTOR), a _____ (CONTRACTOR ENTITY TYPE i.e., INC, LLC, ETC) hereby designated as the "Principal", which Contract is attached hereto, and which Contract and all documents incporated thereinby reference are expressly incorporated into this bond by reference.

AND WHEREAS, the Principal is required under the terms of the Contract to give this bond in connection with the execution of the Contract.

NOW, THEREFORE, we, the Principal, and _____ (NAME OF SURETY) (the "Surety"), an admitted surety insurer in the State of California, are held firmly bound unto the City of Laguna Hills in the sum of _____ and _____/100 DOLLARS ($_____), lawful money of the United States of America, for the payment of which sum, well and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

1. If the Principal, or its subcontractors, or their respective heirs, executors, administrators, successors or assigns, shall fail to pay (a) any of the persons named in Section 9100 of the California Civil Code, (b) any amounts due under the California Unemployment Insurance Code with respect to work or labor performed under the Contract, or (c) any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of the Principal and its subcontractors pursuant to Section 13020 of the California Unemployment Insurance Code with respect to such work or labor, then the Surety shall pay for the same, in an aggregate amount not exceeding the sum specified in this bond. In case suit is brought upon this bond, the Surety will pay reasonable attorney's fees to be fixed by the court.
2. This bond shall inure to the benefit of any of the persons named in Section 9100 of the California Civil Code so as to give a right of action to such persons or their assigns in any suit brought upon this bond.

3. The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alterations, additions, omissions or other modifications to the terms of the Contract, or in the work to be performed or the material to be furnished under the Contract, or in the specifications or plans, whether or not made pursuant to the terms of the Contract, shall in any manner release either the Principal or Surety or affect the Surety's obligations on this bond, and it does hereby waive notice of any such changes, extensions, alterations, additions, omissions or other modifications.

Section 3700 of the Labor Code reads as follows:

"Every employer except the State shall secure the payment of compensation in one or more of the following ways:

"(a) By being insured against liability to pay compensation in one or more insurers duly authorized to write compensation insurance in this state.

(b) By securing from the Director of Industrial Relations a certificate of consent to self-insure, which may be given upon furnishing proof satisfactory to the Director of Industrial Relations of ability to self-insure and to pay any compensation that may become due to his employee."

COMPENSATION INSURANCE CERTIFICATE

TO BE SUBMITTED WITH CONTRACT

CITY OF LAGUNA HILLS

GENERAL SPECIFICATIONS
FOR

CABOT PARK REHABILITATION

SCOPE OF WORK

The work to be performed and completed by Contractor consists of play equipment and safety surfacing installation, steel handrail repairs, site furnishing replacement, and minor restroom building repairs and replacements and all other incidental work in this specification document.

LOCATION OF WORK

The Project is located off Cabot Road adjacent to Rapid Falls Road, Laguna Hills, as shown on the plans.

TIME OF COMPLETION

The Contractor shall complete all work in every detail within 60 working days after the date of the Notice to Proceed.

TRAFFIC REQUIREMENTS

The Contractor shall provide delineation in accordance with the latest updated version of the California Manual on Uniform Traffic Control Devices (MUTCD). The Contractor shall schedule the order of his work such that no travel lanes are closed before 8:30 A.M. or after 4:30 P.M. daily. A minimum of one through travel lane and all turning lanes in all directions shall be maintained during construction between 8:30 A.M. and 4:30 P.M. The same number of travel lanes currently in use (at the time of bid) shall be opened to traffic each and every day between 4:30 P.M. and 8:30 A.M. No work that interferes with public traffic shall be performed after 4:30 P.M. or before 8:30 A.M. No street closures shall be made. The traffic signal and traffic signal detectors shall remain operational during the construction until their replacement is scheduled within 5 days of disruption. Night work shall only be allowed with approved, written approval by the City Engineer, at the contractor’s request, and shall be completed at no additional cost if approved.

Separation between travel lanes shall be accomplished by the use of delineators placed at a maximum of 15' on center. Traffic channelization at intersections shall be accomplished by the use of delineators placed at a maximum of 10' on center.

UTILITY REQUIREMENTS

The Contractor is advised of the existence of the utility notification service provided by UNDERGROUND SERVICE ALERT (USA). USA member utilities will provide the Contractor with the precise locations of their substructures in the construction area when the Contractor gives at least 48 hours notice to the Underground Service Alert by calling 1(800) 422-4133. Contractor shall provide the City with proof of contact with USA upon request.

The Contractor shall notify the following agencies at least 48 hours in advance of excavating around any of their structures. The utility companies listed below can be contacted as indicated.

NAME	ADDRESS	ATTENTION	Phone Number

San Diego Gas & Electric	662 Camino de los Mares San Clemente, CA 92673	Erik Weigand	949/577-0005

The California Public Utilities Commission mandates that, in the interest of public safety, main line gas valves be maintained in a manner to be readily accessible and in good operating condition. The Contractor shall notify the Southern California Gas Company (714) 634-3185 at least 2 working days prior to the start of construction.

The Contractor shall exercise extreme care to protect all existing utilities in place whether shown on the plans or not, and shall assume full responsibility for all damage resulting from his operations. The Contractor shall coordinate with each utility company as to the requirements and methods for protection of their facilities during the construction period, and shall be responsible for preparation and processing of any required plans or permits. The Contractor shall assume full responsibility to maintain uninterrupted service for all utilities.

By submitting a bid, the Contractor acknowledges the above referenced utility work to be done in conjunction with this Project. The Contractor shall schedule his work and conduct his operations so as to permit access and time for the required utility work to be accomplished during the progress of the work.

The Contractor shall coordinate with each utility company as to the extent of required work and the time required to do so. The Contractor shall include this time in his schedule. Payment for the above, if any, shall be deemed as included in the items of work as shown on the proposal bid sheet and no additional compensation will be allowed.

FLOW AND ACCEPTANCE OF WATER

It is anticipated that storm, surface or other waters will be encountered at various times and locations during the work herein contemplated. The Contractor, by submitting a bid, acknowledges that he has investigated the risk arising from such waters and has prepared his bid accordingly, and Contractor, by submitting a bid, assumes all of said risk.

REMOVAL OF WATER

The Contractor shall provide and maintain at all times during construction ample means and devices to promptly remove and properly dispose of all water entering the excavations or other parts of the work. No concrete footing or floor shall be laid in water nor shall water be allowed to rise over them until the concrete or mortar has set at least two (2) hours. Water shall not be allowed to rise unequally against any walls for a period of twenty-eight (28) days. Dewatering for the structures and pipelines shall commence when ground water is first encountered, and shall be continuous until such time as water can be allowed to rise in accordance with the above statement. Dewatering shall be accomplished by well points or some other method which will insure a dry hold and preservation of final lines and grade of the bottoms of excavation, all subject to the approval of the City Engineer.

Dewatering methods and disposal of water from dewatering operations shall be the sole responsibility of the Contractor and shall conform to the requirements of the State Regional Water Quality Control Board, the requirements of the National Pollution Discharge Elimination System (NPDES), and the Federal Clean Water Act. Full compensation for dewatering shall be considered as included in the contract prices paid for the related items of work, and no additional compensation will be allowed therefore.

STANDARD SPECIFICATIONS

The Standard Specifications of the City are contained in the 2024 edition of the STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, also known as the “Greenbook”, including all supplements, as written and promulgated by the Joint Cooperative Committee of the Southern California Chapter of the American Public Works Association and the Southern California District of the Associated General Contractors of California, which is incorporated herein by this reference. Copies of these Standard Specifications are available from the publisher:

BNi Building News
Division of BNi Publications, Inc.
990 Park Center Drive, Suite E
Vista, California 92801
(760) 734-1113

The Standard Specifications set forth above will control the general provisions for this Contract except as amended by the Plans, General Specifications, Special Provisions, or other Contract Documents.

The section numbers of the following Special Provisions coincide with those of the said Standard Specifications. Only those sections requiring amendment, elaboration, addition, or that are specifying options are stated in the Special Provisions.

In case of conflict between the Standard Specifications and the General Specifications or Special Provisions, the General Specifications and Special Provisions shall take precedence over and be used in lieu of such conflicting portions of the Standard Specifications.

References in the Special Provisions to "CALTRANS Standard Specifications" shall mean the latest edition of the Standard Specifications of the State of California, Department of Transportation. Copies of these specifications and standard drawings may be obtained from:

California Department of Transportation
Publications Distribution Unit
1900 Royal Oaks Drive
Sacramento, California 95815-3800
Telephone (916) 263-0822
Fax (916) 263-0470

References in the Special Provisions to Standard Plans shall mean the Standard Plans for Public Works Construction, latest edition (written and promulgated by the Public Works Standards, Inc.), and, where applicable and as determined and selected by the City Engineer, those specific standard plans of the City of Laguna Hills, the County of Orange and/or the State Department of Transportation, latest editions.

Where the Plans or Specifications describe portions of the work in general terms, but not in complete detail, it is understood that the item is to be furnished and installed complete and in place and that only the best general practice is to prevail and that only materials and workmanship of the first quality are to be used. Unless otherwise specified, the Contractor shall furnish all labor, materials, tools, equipment and incidentals, and do all the work involved in executing the contract.

WAGE RATES AND LABOR CODE REQUIREMENTS

The City has determined that the work on this Project requires work of labor categories which are subject to the State of California Department of Industrial Relations prevailing rates of per diem wages.

Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. Contractor agrees to fully comply with all applicable federal and state labor laws (including, without limitation, if applicable, the Prevailing Wage Laws). It is agreed by the parties that, in connection with the work provided pursuant to the Agreement, Contractor shall bear all risks of payment or non-payment of prevailing wages under California law, and Contractor hereby agrees to defend, indemnify, and hold the City, its elected officials, officers, employees, and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. The foregoing indemnity shall survive termination of the Agreement.

Contractor understands and agrees to comply with the following California Labor Code compliance conditions [Labor Code Sections 1720 et seq., 1813, 1860, 1861, 3700]:

a) The Agreement is subject to the provisions of Division 2, Part 7, Chapter 1 (commencing with Section 1720) of the California Labor Code relating to public works and the awarding public agency ("City") and Contractor agree to be bound by all the provisions thereof as though set forth in full herein.

b) Contractor shall be registered with the Department of Industrial Relations ("DIR") in accordance with California Labor Code Section 1725.5 and has provided proof of registration to City prior to the effective date of this Agreement.

c) Contractor agrees to comply with the provisions of California Labor Code Sections 1771, 1774 and 1775 concerning the payment of prevailing rates of wages to workers and the penalties for failure to pay prevailing wages. The applicable prevailing wage determination(s) may be obtained at (http://www.dir.ca.gov/OPRUDPreWageDetermination.htm), are on file with City, and are available to any interested party upon request. A copy of said rates shall be posted at each job site during the term of this Agreement.

d) Pursuant to California Labor Code Section 1771.4, Contractor's services are subject to compliance monitoring and enforcement by the Department of Industrial Relations. Contractor shall post job site notices as prescribed by DIR regulations and furnish the records specified in California Labor Code Section 1776 directly to the Labor Commissioner in the manner prescribed by California Labor Code Section 1771.4(a)(3) and (c)(2).

e) Eight (8) hours of labor shall constitute a legal day's work for all workmen employed in the execution of this Agreement, and the Contractor and any subcontractor shall comply with and be governed by the laws of the State of California having to do with working hours set forth in Division 2, Part 7, Chapter 1, Article 3 of the California Labor Code. Contractor shall comply with the provisions of California Labor Code Section 1813 concerning penalties for workers who work excess hours. Contractor shall, as a penalty to the City, forfeit twenty-five dollars ($25) for each worker employed in the execution of this Agreement by the Contractor or by any subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one calendar day and forty (40) hours in any one calendar week in violation of the provisions of Division 2, Part 7, Chapter 1, Article 3 of the California Labor Code. (*See, e.g.,* Cal. Labor Code §1815.)

f) Pursuant to California Labor Code Section 1771.1, Contractor and any subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the California Public Contract Code, or engage in the performance of any contract for public work on a public works project unless registered with the DIR and qualified to perform public work pursuant to California Labor Code Section 1725.2. It is not a violation of California Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by California Business and Professions Code Section 7029.1 or by California Public Contract Code Section 10164 or 20103.5, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded. Contractor shall not perform any work under this Agreement with any subcontractor who is ineligible to perform work on the public works project pursuant to Section 1777.1 or 1777.7 of the California Labor Code.

Apprentices

Section 1777.5 requires the Contractor or Subcontractor employing tradesmen in any apprenticeable occupation to apply to an applicable apprenticeship committee that can supply apprentices to the site of the public works project and which administers the apprenticeship program in that trade for a certificate of approval. The certificate will also fix the ratio of apprentices to journeymen to be used in the performance of the Contract.

The Contractor is required to make contributions to funds established for the administration of apprenticeship programs if he employs registered apprentices or journeymen in any apprenticeable trade and if other Contractors on the public works site are making such contributions.

Information relative to apprenticeship standards, contributions, wage schedules and other requirements may be obtained from the State Director of Industrial Relations or from the Division of Apprenticeship Standards.

RESOLUTION OF CONSTRUCTION CLAIMS

California Public Contract Code (PCC) section 9204 as adopted by Assembly Bill 626 prescribes a process to present, confer, and mediate all construction claims relating to the City's public works project.

"Public works project" means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or another public improvement of any kind.

"Claim" means a separate demand by the Contractor sent by registered mail or certified mail with return receipt requested for (A) a time extension, including, without limitation for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project (B) payment of money or damages arising from work done by or on behalf of the Contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled, or the amount the payment of which is disputed by the local agency. (PCC 9204(c)(1))

For any claim subject to this article, PCC section 9204 requires the following:

a) The claim shall be submitted by the Contractor in writing, sent by registered mail or certified mail with return receipt requested and must include the documents necessary to substantiate the claim. Nothing in this subdivision is intended to extend the time limit or supersede notice requirements otherwise provided by contract for the filing of claims. However, upon receipt of a claim, the City, and the Contractor may, by mutual agreement, extend the time period provided by statute.

b) For claims of all amounts, the City shall respond within 45 days of receipt of the claim, and provide the claimant a written statement identifying which portion of the claim is disputed and which portion of the claim is undisputed. If the City requires approval from the City Council, and the City Council does not meet within the 45-day period to respond, the City shall have up to three days to issue its response following the City Council meeting.

c) For all portions of a claim determined to be undisputed, the City must process payment to the claimant within 60 days of issuing the City's written determination.

d) If the claimant disputes the City's response, or if the City fails to respond within the time limits provided, the claimant may demand an informal conference to meet and confer for settlement of the issues in dispute. The demand must be sent in writing by registered or certified mail, return receipt requested. Upon receipt of a demand, the City must schedule a meet and confer conference within 30 days for settlement of the disputed claim.

e) Within 10 business days following the conclusion of the meet and confer conference, if any portion of the claim remains in dispute, the City shall provide the claimant an addition written statement identifying the portion of the claim that is undisputed and the portion that remains in dispute.

f) For all portions of a claim determined to be undisputed, the City must process payment to the claimant within 60 days of issuing the City's written determination.

g) Any remaining undisputed portion of the claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation in which the parties share the cost evenly. The City and the claimant shall mutually agree on a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree, each party shall select a mediator and those mediators shall jointly select a qualified, neutral third party to mediate the remaining undisputed claim. Each party shall bear the respective costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is

unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside of PCC section 9204.

Unless otherwise agreed to by the City and the Contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under PCC Section 20104.4 to mediate after litigation has been commenced.

PCC Section 9204 does not preclude the City from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program if mediation under this section does not resolve the parties' dispute.

Should the City fail to respond to a claim, or fail to issue written statements as required, the Contractor's claim is deemed denied. A claim denied by reason of the City's failure to respond shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

Amounts not paid in a timely manner as required by PCC 9204 shall bear interest at seven percent per annum.

NOTICE OF THIRD-PARTY CLAIMS

In accordance with PCC Section 9201, the City will provide timely notification to Contractor of the receipt of any third-party claim relating to the Agreement. The Contractor agrees to reimburse the City for its reasonable costs incurred in providing such notice.

CLAYTON ACT AND CARTWRIGHT ACT

In accordance with Section 7103.5 of the Public Contract Code, in entering into a public works contract or a subcontract to supply goods, services or materials pursuant to a public works contract, the contractor or subcontractor offers and agrees to assign to the awarding body all rights, and interest in and all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to the contractor, without further acknowledgment by the parties.

CITY OF LAGUNA HILLS

SPECIAL PROVISIONS
FOR

CABOT PARK REHABILITATION

PART 1 - GENERAL PROVISIONS

SECTION 1 - TERMS, DEFINITIONS, ABBREVIATIONS AND SYMBOLS.

1-2 DEFINITIONS.

City	**City of Laguna Hills**
Board	City Council
Caltrans	California Department of Transportation
County	County of Orange
Engineer	City Engineer
Federal	United States of America
State	State of California
Contractor	Contractor, its workers, employees and agents
Project	CABOT PARK REHABILITATION

1-3 ABBREVIATIONS.

1-3.2 Common Usage. [Add the following to this section]:

MUTCD	Manual of Uniform Traffic Control Devices, including the California Supplement
OCPW	Orange County Public Works Department
SPPWC	Standard Plans for Public Works Construction
SSPWC	Standard Specifications for Public Works Construction
FHWA	Federal Highway Administration
HUD	Housing and Urban Development

1-7 AWARD AND EXECUTION OF CONTRACT.

Within three (3) days of bid opening contractor must submit:

- If a bid bond is submitted with a 10% of Bid designation for the amount as noted in the City Approved Bid Bond form, a revised Bid Bond with numerical dollar values, both in words and with digits, shall be submitted to the City within three (3) days of bid opening.

Within five (5) working days after the date of the Notice of Apparent Low Bidder, the Contractor shall execute and return the following documents to the City:

- All Insurance Requirements set forth herein
- Two (2) Original Signed Contract Agreements

Within ten (10) working days after the date of the Notice of Award, the Contractor shall execute and return the following documents to the City:

- Faithful Performance Bond
- Material and Labor Bond
- Construction Schedule
- Traffic Control Plan
- Water Pollution Control Plan
- Form W-9
- Encroachment Permit Application
- Construction Materials Submittals

FAILURE TO COMPLY WITH ALL OF THE ABOVE WILL RESULT IN ANNULMENT OF THE AWARD AND FORFEITURE OF THE PROPOSAL GUARANTEE AT THE SOLE DISCRETION OF City.

The Contract Agreement shall not be considered binding upon the City until executed by the authorized City officials. A corporation to which an award is made may be required, before the Contract Agreement is executed by the City, to furnish evidence of its corporate existence, of its right to enter into contracts in the State of California, and that the officers signing the Contract and bonds for the corporation have the authority to do so.

1-7.2 Contract Bonds. [Replace section with the following]:

Both the Faithful Performance Bond and the Material and Labor Bond shall each be for not less than one hundred percent (100%) of the total Contract amount. The Material and Labor Bond shall remain in force until thirty-five (35) days after the date of recordation of the Notice of Completion. The Faithful Performance Bond will be held for one year after the date of recordation of the Notice of Completion.

Prior to the acceptance of any bond, the City shall verify that the surety is an admitted surety in the State of California. If requested by the City, the Contractor shall provide other information specified in the Code of Civil Procedure Section 995.660 to enable the City to verify the sufficiency of the bond.

Should any bond become insufficient, the Contractor shall correct the insufficiency within ten (10) calendar days after receiving notice from the City. The Contractor shall provide the City with evidence of the correction within ten (10) calendar days of said correction. Should any surety at any time be unsatisfactory to the City, written notice will be given to the Contractor to that effect. No further payments shall be deemed due or will be payable under the Contract until Contractor submits an acceptable bond from a surety accepted by the City. Changes to the work or extensions of time made pursuant to the Contract Agreement shall in no way release the Contractor or the surety from its obligations. Notice of such changes or extensions shall be waived by the surety.

SECTION 2 – SCOPE OF WORK.

2-1.1 PLANS AND SPECIFICATIONS [Add the following to this section]:

The Contractor shall maintain a control set of Plans and Specifications on the Project site at all times. All final locations determined in the field, and any deviations from the Plans and Specifications, shall be marked in red on this control set to show the as-constructed conditions. Upon completion of all work, the Contractor shall return the control set to the Engineer. Final payment will not be made until this requirement has been met.

2-2 PERMITS. [Add the following to this section]:

Prior to the start of any work, the Contractor shall take out the applicable City and State permits and make arrangements for City and State inspections. Requests for inspections shall be made to the City at least 24 hours in advance of need. The Contractor and all subcontractors shall each obtain any and all other permits, licenses, inspections, certificates, or authorizations required by any governing body or public utility. Payment for this work shall be included in the bid items of work and no additional compensation will be allowed. The City will waive the usual City encroachment permit fees.

Further, Contractor shall ensure that its employees, agents, contractors, and subcontractors conduct themselves in compliance with such laws and licensure requirements including, without limitation, compliance with laws applicable to nondiscrimination, sexual harassment, and ethical behavior throughout the duration of the Contract. Contractor shall not retain or employ an unlicensed subcontractor to perform work pursuant to this Contract. Contractor shall notify the City immediately and in writing of its employees', agents', contractors' or subcontractors' inability to obtain or maintain, irrespective of the pendency of any appeal, any such licenses, permits, approvals, certificate, waivers, and exemptions that may be required. Such inability shall be cause for termination of this Contract

2-3 RIGHT-OF-WAY. [Add the following to this section]:

The City will acquire all rights of way, easements and rights of entry as required for this Project. The Contractor shall verify that the acquisition(s) is completed prior to beginning any work outside of the public right of way. All cost for re-mobilization, downtime, etc. due to delays in obtaining the required rights of way, easements and rights of entry shall be included in all other items of work and no additional compensation will be allowed. In the event the required easements have not yet been acquired by the City, the Contractor shall conduct its operation so as to confine its work to the limits of the existing right-of-way.

2-4 COOPERATION AND COLLATERAL WORK. [Add the following]:

The Contractor is advised as to the possibility of other construction projects within the proposed construction zone by the City of Laguna Hills, other governing agencies or private enterprises. In the event of such projects, the Contractor shall coordinate with the applicable parties as to the extent of any time required to complete their work and shall schedule his work and conduct his operations so as to permit access and time as required for the concurrent work. The Contractor shall immediately notify the Engineer in the event of a delay in scheduling caused solely by this concurrent work. Payment for the above, if any, shall be deemed as included in various items of work, including any delay impacts, as shown on the proposal bid sheet and no additional compensation will be allowed.

2-8 EXTRA WORK.

2-8.2 Payment.

2-8.3 Markup.

(a) **Work by Contractor.** [Add the following to this section]: The following percentages shall be the maximum added to the Contractor's costs and shall constitute the markup for all overhead and profits:

1) Labor	20%
2) Materials	15%

3) Equipment Rental 15%

4) Other Items and Expenditures 15%

To the sum of the costs and markups provided for in this subsection, 1 percent shall be added as compensation for bonding.

(b) **Work by Subcontractor.** [Add the following to this section]: When all or any part of the extra work is performed by a Subcontractor, the markup established in 3-3.2.3(a) shall be applied to the Subcontractor's actual cost of such work. A markup of 10 percent on the first $5,000 of the subcontracted portion of the extra work and a markup of five (5) percent on work added in excess of $5,000 of the subcontracted portion of the extra work may be added by the Contractor.

The markups mentioned hereinafter shall include, but are not limited to, all costs for the services of superintendents, project managers, timekeepers and other personnel not working directly on the change order and pickup or yard trucks used by the above personnel. These costs shall be reported as labor or equipment elsewhere except when actually performing work directly on the change order and then shall only be reported at the labor classification of the work performed.

The costs of rental equipment shall not exceed the equipment rental rates in the surcharge and Equipment Rental Rates, as published by the State of California Business, Transportation, and Housing Agency and the California Department of Transportation, Division of Construction for the current fiscal year.

2-10 DISPUTED WORK. [Add the following to this section]:

If the Contractor and the City are unable to reach an agreement on disputed work, the City may direct the Contractor to proceed as directed. The City shall have the option, at its own discretion, to pay for said work through unilateral change order executed by the City after conducting its own analysis of the reasonable costs thereof. Although not to be construed as proceeding under extra work provisions in Section 3-3, the Contractor shall keep and furnish records of disputed work in accordance with Section 3-3.

In any case where the Contractor believes extra compensation is due the Contractor for work or materials not clearly covered in the Contract, or not ordered by the City as “extra work”, the Contractor shall notify the City in writing of the Contractor's intention to make claim for such extra compensation before the Contractor begins the work on which Contractor bases the claim. If such notification is not given, or the City is not afforded proper supporting documentation by the Contractor for keeping strict account of actual cost, then the Contractor shall be deemed to have waived the claims for such extra compensation. Such notice by the Contractor, and the fact that the City has kept account of the cost as aforesaid, shall not in any way be construed as proving the validity of the claim. The validity of the claim must be determined by the City. If the City determines that the claim is well founded, it shall be allowed and paid for as “extra work”; if the City determines that the claim is not well founded, it shall be disallowed and not paid.

SECTION 3 – CONTROL OF THE WORK.

3-10 SURVEYING.

3-10.3 Survey Services. [Add sub-section]:

The Contractor will provide the initial surveying and the initial construction staking, if required for the construction of this Project. The cost of any additional surveying and/or construction staking primarily for the convenience of the Contractor and for replacement of stakes lost for any reason will be the responsibility of the Contractor. The Contractor shall make all requests in writing for construction stakes at least 48 hours in advance of the day required.

The Contractor shall be responsible for the finished work's conforming to the lines, grades and benchmarks given by the Engineer. The Contractor shall establish supplementary benchmarks, elevations, lines and grades and any other necessary controls which are not established by the Engineer and which are necessary to complete the work. Compensation for above work by the Contractor shall be included within the various items of work and no additional compensation will be allowed.

SECTION 4 - CONTROL OF MATERIALS

4-3 INSPECTIONS.

4-3.1 General. [Add the following to this section]:

The City will pay for inspection and materials testing. The Contractor shall pay for retests and re-inspections due to failure to meet Specifications. If the Contractor elects to work under this Contract more than 8 hours/day or more than 40 hours/week, Saturday, Sunday, or City holidays, it shall arrange with the Engineer for the required inspection service and pay the Special Inspection Fees as provided by the Material Inspector and City Engineer. When Special Inspection is required, the Contractor shall notify the City and pay inspection fees 24 hours in advance. A 24 hour advance notice will be given during working hours, exclusive of Saturday, Sunday or City holidays for the purpose of permitting the Engineer to make necessary assignments of his representatives. If the Contractor is directed by the City to work under this Contract more than 8 hours/day or more than 40 hours/week, the Special Inspection Fee requirements will be waived.

SECTION 5 – LEGAL RELATIONS AND RESPONSIBILITIES

5-1 LAWS AND REGULATIONS. [Add the following to this section]:

The Contractor, and all subcontractors, suppliers and vendors, shall comply with all City, State, and Federal orders regarding affirmative action to ensure equal employment opportunities and fair employment practices. Failure to file any report due under said orders will result in suspension of periodic progress payments.

The Contractor shall ensure unlimited access to the job site for all equal employment opportunity compliance officers.

5-3 LABOR.

5-3.3 Payroll Records. [Add the following to this section]:

Contractor shall comply with the provisions of California Labor Code Section 1776 which, among other things, require Contractor and each subcontractor to (1) keep accurate payroll records, (2) certify and make such payroll records available for inspection as provided by Section 1776, and (3) inform the City of the location of the records. The Contractor is responsible for compliance with Section 1776 by itself and all of its subcontractors. Verified payroll records shall be submitted

to the City by the tenth day of each month. Progress payments will be withheld pending receipt of any outstanding reports.

5-4 INSURANCE.

5-4.5 Compliance with Insurance Requirements. [Add the following to this section]:

Contractor shall obtain, maintain, and keep in full force and effect during the term of this Agreement, at its sole cost and expense, and in a form and content satisfactory to City, all insurance required under this section. Contractor shall not commence any work or services under this Agreement unless and until it has provided evidence satisfactory to City that it has secured all insurance required under this section. If Contractor's existing insurance policies do not meet the insurance requirements set forth herein, Contractor agrees to amend, supplement or endorse the policies to do so.

5-4.5.1 Types of Insurance Required. [Add the following to this section]:

As a condition precedent to the effectiveness of this Agreement, and without limiting the indemnity provisions set forth in this Agreement, Contractor shall obtain and maintain in full force and effect during the term of this Agreement, including any extension thereof, the following policies of insurance:

A. Commercial General Liability Insurance. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Commercial General Liability Insurance (Insurance Services Office form CG 00 01) written on an occurrence basis with limits of at least two million dollars ($2,000,000.00) per occurrence, four million dollars ($4,000,000.00) in the general aggregate, and four million dollars ($4,000,000.00) for completed operations aggregate. Defense costs shall be paid in addition to the limits. The policy shall contain no endorsements or provisions limiting coverage for (1) contractual liability; (2) cross liability exclusion for claims or suits by one insured against another; or (3) contain any other exclusion contrary to the Agreement.

B. Automobile Liability Insurance. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Automobile Liability Insurance (Insurance Services Office form CA 001) written on a per occurrence basis with limits of at least one million dollars ($1,000,000.00) combined limit for each occurrence covering bodily injury and property damage. The policy shall specifically include coverage for owned, non-owned, leased, and hired automobiles.

C. Workers' Compensation Insurance. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Workers' Compensation Insurance in at least the minimum statutory amounts, and in compliance with all other statutory requirements, as required by the State of California. Contractor agrees to waive and obtain endorsements from its workers' compensation insurer waiving all subrogation rights under its workers' compensation insurance policy against the City, its officials, officers, employees, agents and volunteers, and to require each of its subcontractors, if any, to do likewise under their workers' compensation insurance policies. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Employer's Liability Insurance written on a per occurrence basis with limits of at least one million dollars ($1,000,000.00) per accident for bodily injury or disease.

5-4.5.2 Acceptability of Insurers. [Add the following to this section]:

Insurance required by this section shall be issued by a licensed company authorized to transact business in the state by the Department of Insurance for the State of California with a current rating of A-:VII or better (if an admitted carrier), or a current rating of A:X or better (if offered by a non-admitted insurer listed on the State of California List of Approved Surplus Line Insurers (LASLI), by the latest edition of A.M. Best's Key Rating Guide, except that the City will accept workers' compensation insurance from the State Compensation Fund. In the event the City determines that the work or services to be performed under this Agreement creates an increased or decreased risk of loss to the City, the Contractor agrees that the minimum limits of the insurance policies may be changed accordingly upon receipt of written notice from the City. Contractor shall immediately substitute any insurer whose A.M. Best rating drops below the levels specified herein.

5-4.5.3 Insurance Endorsements. [Add the following to this section]:

Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for written approval. Required insurance policies shall contain the following provisions, or Contractor shall provide endorsements on forms approved by the City to add the following provisions to the insurance policies:

A. The policy or policies of insurance required by this section for Commercial General Liability and Automobile Liability Insurance shall be endorsed to provide the following:

(1) Additional Insured: The City, its officials, officers, employees, agents and volunteers, shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement; and

(2) Additional Insured Endorsements: Additional insured endorsements shall not (1) be restricted to "ongoing operations", (2) exclude "contractual liability", (3) restrict coverage to "sole" liability of Contractor, or (4) contain any other exclusions contrary to the Agreement; and, the coverage shall contain no special limitations on the scope of protection afforded to additional insureds.

(3) Notice: The policy or policies of insurance required by this section for Commercial General Liability and Automobile Liability Insurance shall be endorsed to state that coverage shall not be suspended, voided, cancelled, or modified, or reduced in coverage or in limits, except after thirty (30) days prior written notice by First Class U.S. Mail, postage-prepaid, has been provided to the City. Notwithstanding the foregoing, if coverage is to be suspended, voided, or cancelled because of Contractor's failure to pay the insurance premium, the notice provided to City shall be by ten (10) days prior written notice.

B. For all policies of Commercial General Liability Insurance, Contractor shall provide endorsements for completed operations to effectuate this requirement.

5-4.5.4 Deductibles and Self-Insured Retentions.

Any deductible or self-insured retention must be approved in writing by the City in advance and shall protect the City, its officials, officers, employees, agents and volunteers, in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

5-4.5.6 Primary and Non-Contributing Insurance.

All policies of Commercial General Liability Insurance and Automobile Liability Insurance shall be primary and any other insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents or volunteers, shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

5-4.5.7 Waiver of Subrogation.

All policies of Commercial General Liability and Automobile Liability Insurance shall contain or be endorsed to waive subrogation against the City, its officials, officers, employees, agents and volunteers, or shall specifically allow Contractor or others providing insurance evidence in compliance with the requirements set forth in this section to waive their right to recovery prior to a loss. Contractor hereby agrees to waive its own right of recovery against the City, its officials, officers, employees, agents and volunteers, and Contractor hereby agrees to require similar written express waivers and insurance clauses from each of its subcontractors.

5-4.5.8 Evidence of Coverage.

Concurrently with the execution of the Agreement, Contractor shall deliver certificates of insurance together with original endorsements affecting each of the insurance policies required by this section. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for written approval. The certificates of insurance and original endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15) days prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced and not replaced immediately so as to avoid a lapse in the required coverage, Contractor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. Contractor shall promptly furnish, at City's request, copies of actual policies including all declaration pages, endorsements, exclusions and any other policy documents City requires to verify coverage.

5-4.5.9 Requirements Not Limiting.

Requirement of specific coverage or minimum limits contained in this section are not intended as a limitation on coverage, limits, or other requirements, or a waiver of any coverage normally provided by any insurance. Nothing in this section shall be construed as limiting in any way the indemnification provision contained in this Agreement, or the extent to which Contractor may be held responsible for payments of damages to persons or property.

5-4.5.10 Enforcement of Agreement (Non-Estoppel).

Contractor acknowledges and agrees that actual or alleged failure on the part of the City to inform Contractor of any non-compliance with any of the insurance requirements set forth in this section imposes no additional obligation on the City nor does it waive any rights hereunder.

5-4.5.11 Insurance for Subcontractors.

Contractor shall either: (1) include all subcontractors engaged in any work or services for Contractor relating to this Agreement as additional named insureds under the Contractor's insurance policies; or (2) Contractor shall be responsible for causing its subcontractors to procure and maintain the appropriate insurance in compliance with the terms of the insurance requirements set forth in this section, including adding the City, its officials, officers, employees, agents and volunteers, as additional insureds to their respective policies. All policies of Commercial General Liability Insurance provided by Contractor's subcontractors performing any work or services related to this Agreement shall be endorsed to name the City, its officials, officers, employees, agents and volunteers, as additional insureds. Contractor shall not allow any subcontractor to commence any work or services relating to this Agreement unless and until it has provided evidence satisfactory to City that the subcontractor has secured all insurance required under this section.

5-4.5.12 Other Insurance Requirements.

The following terms and conditions shall apply to the insurance policies required of Contractor pursuant to this Agreement:

A. Contractor shall provide immediate written notice to City if (1) any of the insurance policies required herein are terminated, cancelled or suspended, (2) the limits of any of the insurance coverages required herein are reduced, or (3) the deductible or self-insured retention is increased.

B. All insurance coverage and limits provided by Contractor and available or applicable to this Agreement are intended to apply to each insured, including additional insureds, against whom a claim is made or suit is brought to the full extent of the policies. Nothing contained in this Agreement or any other agreement relating to the City or its operations shall limit the application of such insurance coverage.

C. None of the insurance coverages required herein will be in compliance with the requirements of this section if they include any limiting endorsement which substantially impairs the coverages set forth herein (e.g., elimination of contractual liability or reduction of discovery period), unless the endorsement has first been submitted to the City and approved in writing.

D. Certificates of insurance will not be accepted in lieu of required endorsements, and submittal of certificates without required endorsements may delay commencement of the Project. It is Contractor's obligation to ensure timely compliance with all insurance submittal requirements as provided herein.

E. Contractor agrees to ensure that subcontractors, if any, and any other parties involved with the Project who are brought onto or involved in the Project by Contractor, provide the same minimum insurance coverage required of Contractor. Contractor agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Contractor agrees that upon request, all agreements with subcontractors and others engaged in the Project will be submitted to the City for review.

F. Contractor agrees to provide immediate written notice to City of any claim, demand or loss against Contractor arising out of the work or services performed under this Agreement and for any other claim, demand or loss which may reduce the insurance available to pay claims, demands or losses arising out of this Agreement.

5-4.5.13 Contractor's Liability; City Not Liable; Claims Resolution

A. Contractor's liability. The Contractor shall be responsible for any loss or damage that may occur to:

- The work or any part thereof;
- Any of the materials or other things used or employed in performing the work;
- Any injury to any person or persons, either workers or the public;
- Any damage to property resulting from any cause which might have been prevented by the Contractor, including defects or obstructions at any time before completion of the work and its final acceptance.

B. City ordered precautions. If, in the opinion of the City Engineer, the precautions taken by Contractor are not safe or adequate at any time during the term of the Contract, the City Engineer may order the Contractor to take further precautions, and if the Contactor shall fail to do so, the City Engineer may order the work done by others and charge the Contractor for the cost thereof, such cost to be deducted from any moneys due or becoming due the Contractor. Failure of the City Engineer to order such additional precautions, however, shall not relieve the Contractor from his full responsibility for public safety.

C. City not liable. The City shall not be answerable or accountable in any manner, for any loss or damage that may occur to any of the following from any cause which might have been prevented by the Contractor:

- The work or any part thereof;
- Any of the materials or other things used or employed in performing the work;
- Any injury to any person or persons, either workers or the public;
- Any damage to property.

D. Claims Resolution. From time to time during the period of this contract, the City and/or the Contractor may be served with third-party claims, as a result of alleged conduct by Contractor. The following procedures shall be followed by City and Contractor:

For claims received by Contractor:

(1) Contractor shall provide City on a monthly basis details regarding any claim for damages to persons or property, including, date claim made, date of alleged damages, type of damages, alleged cause of damages and, as claims are resolved, details regarding Contractor's denial or payment of such claim and the reasons for denial or payment.

(2) Contractor shall resolve or deny any claim received within thirty (30) days of receipt. If Contractor is unable to resolve a claim within the thirty (30) days set forth above, it shall, prior to the expiration of the thirty (30) days request and extension in writing from the City.

For claims received by City:

(1) City shall process any claims received pursuant to Chapter 3-12 (Claims Against the City) of the Laguna Hills Municipal Code.

(2) If after investigation of the claim, the City determines the Contractor is liable under this Contract, City shall tender the claim to the Contractor for proper handling and resolution.

E. Retention of Claimed Damages by City. The City may retain so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the City until disposition has been made of such suits or claims for damages aforesaid.

5-7 SAFETY.

5-7.1.3 Traffic and Access. [Add the following to section]:

When entering or leaving roadways carrying public traffic, the Contractor's equipment, whether empty or loaded, shall in all cases yield to public traffic.

The Contractor shall notify in writing all affected property owners of the proposed construction schedule a minimum of forty-eight (48) hours, but not more than seventy-two (72) hours, in advance of any limitation or closure of access to their property. Form of said notice shall be as approved by the Engineer and shall contain the date and time of the closure. In the event of delay, whether beyond the control of the Contractor or not, the Contractor shall notify all affected property owners as to the extent of the delay and his revised schedule. In the event of delay over 72 hours, the Contractor shall re-notify the property owners as described above. Payment for notification and coordination as per Section 7-10 as modified herein shall be included in the compensation paid for the various items of work and no additional compensation will be allowed. The "Notices" will be furnished by the Contractor.

Pedestrian access shall be maintained at all times during construction and shall be in accordance with the Americans With Disabilities Act.

5.7.2 Safety Orders

5.7.2.1 General. [Add the following to this section]:

The Contractor shall comply with the provisions of any City ordinances or regulations regarding requirements for the protection of excavations and the nature of such protection.

In accordance with Section 6500 of the Labor Code, the Contractor is required to obtain a permit from the Division of Industrial Safety for any trench or excavation which if five feet or more in depth and into which a person is required to descent.

In accordance with Section 6705 of the Labor Code, prior to any excavation involving an expenditure in excess of twenty-five thousand dollars ($25,000) for the excavation of any trench or trenches five (5) feet or more in depth, Contractor shall submit to Engineer a written detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches.

Prior to beginning of excavations requiring shoring, the Contractor shall designate in writing to the Engineer someone whose responsibility it is to supervise the Project safety measures and someone whose responsibility it is to supervise the installation and removal of sheeting, shoring and bracing.

In addition to shoring the excavations in accordance with the minimum requirements of Industrial Safety Orders, it shall be the Contractor's responsibility to provide any and all additional shoring

required to support the sides of the excavation against the effects of load which may exceed those desired by using the criteria set forth in the Industrial Safety Orders. The Contractor shall be solely responsible for any damages which may result from his failure to provide adequate shoring of the excavation under any and all of the conditions of loading which may exist or which may arise during construction of the Project.

In accordance with Section 7104 of the Public Contract Code, any public works contract which involves excavations that extend deeper than four feet below the surface shall provide as follows:

(a) That the Contractor shall promptly, and before the following conditions are disturbed, notify the City, in writing, of any:

(1) Material that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, which is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

(2) Subsurface or latent physical conditions at the site differing from those indicated by information about the site made available to bidders prior to the deadline for submitting bids.

(3) Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally as inherent in work of the character provided for in the contract.

(b) The local public entity shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the work shall issue a change order under the procedures described in the contract.

(c) That, in the event that a dispute arises between City and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the work, the Contractor shall not be excused from any scheduled completion date provided for by the contract, but shall proceed with all work to be performed under the contract. The Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties.

5-7.2.2.1 Storage of Equipment and Materials in Public Streets. [Add the following section]:

The Contractor is required to, at his own expense, maintain and operate a work and storage area outside of the public right-of-way. In such case the Contractor shall submit to City written authorization from the owners of the subject property prior to occupation. Occupation of site without written authorization shall be grounds for immediate suspension of work. Location of site to be approved by City. Condition and operation of yard shall conform to these specifications. The Contractor shall assume full responsibility for all damage to the site resulting from his operations and shall repair and/or replace same, at his own expense, to the satisfaction of the owner of the subject property. The Contractor shall vacate site and return it to pre-Project condition within five (5) working days following application for Notice of Completion. The Contractor shall obtain a written release from the property owner accepting the condition of the vacated site and releasing the Contractor from any further clean-up or restoration work and shall submit a copy of such release to City. The Notice of Completion will not be issued until said release is submitted.

5-7.2.2.2 Street Closures, Detours, Barricades. [Add the following section]:

The Contractor shall perform lane closures and all traffic control operations in accordance with the applicable details in the California MUTCD, latest edition. No work shall be performed until the required lane closure traffic control has been installed and approved by the City. If the City does not feel that the Contractor is properly and safely implementing the MUTCD details, then work shall be stopped until such time as the Contractor can successfully remedy the deficiencies.

Portable delineators (traffic cones are not allowed), which conform to the California MUTCD, latest edition, shall be spaced as necessary for proper delineation of the travel way. The spacing between delineators shall not exceed 25 feet. The minimum lane transitions shall be a 50 to 1 taper. Double base delineators will be required.

The Contractor shall schedule the order of his work such that no travel lanes are closed before 8:30 A.M. or after 4:30 P.M. daily. A minimum of one through travel lane and all turning lanes in all directions with flaggers will be required at all times. The same number of travel lanes currently in use shall be opened to traffic during non-working hours. No street closures shall be made unless indicated on the approved traffic control plans. The traffic signal and traffic signal detectors shall remain operational continuously during the construction, and traffic loops that require replacement shall be disrupted no more than 5 calendar days before their replacement. **No weekend work (day or night) will be allowed, unless otherwise specified on the Plans or as approved by the City.**

The Contractor shall provide, at his expense, advanced warning signs advising the public of the impending major construction project and his proposed schedule. Said signs shall be posted at all major approaches to the construction zones a minimum of one week prior to the start of construction.

The Contractor shall designate at least one worker solely for the provision and maintenance of traffic control.

The Contractor shall be responsible for providing temporary access to all intersecting streets and driveways throughout the workday and at the end of each workday. A minimum of one access point shall be maintained for each commercial business during their normal business hours. **Pedestrian access shall be maintained at all times and temporary and permanent pedestrian access shall be in accordance with the Americans with Disabilities Act.**

The Contractor shall provide and maintain all other signs, barricades, pedestals, flashers, delineators and other necessary facilities for the protection of the public within the limits of the construction area and shall be maintained in a new or like new condition, free of damage and graffiti.

If the traffic delineators are damaged, displaced or not in an upright position, from any cause, said delineators shall immediately be replaced or restored to their original location, in an upright position, by the Contractor.

The Contractor shall furnish competent flagmen to give adequate warning to traffic or to the public of any dangerous conditions to be encountered. Flagmen, while on duty and assigned to give warnings to the public that the highway is under construction and of any dangerous conditions to be encountered as a result thereof, shall perform their duties and shall be provided with the necessary equipment in accordance with the California MUTCD. The equipment shall be furnished and kept clean and in good repair by the Contractor, at Contractor's expense.

Should the Contractor appear to be neglectful or negligent in furnishing warning and protective measures as provided, the Engineer may direct attention to the existence of a hazard and the

necessary warning and protective measures shall be furnished and installed by the Contractor at its own expense. Should the Engineer point out the inadequacy of warning and protective measures, such action on the part of the Engineer shall not relieve the Contractor from responsibility for public safety or abrogate his obligation to furnish and pay for these devices.

Where on-street parking is not allowed, the Contractor shall be required to post "Temporary No Parking" signs 48 hours prior to start of work. The Contractor will furnish the notification to property owners as mentioned in Section 7-10.1 and the “Temporary No Parking” signs.

No construction activities will be allowed on streets that are receiving trash pick-up services on the same day. A copy of the CR&R Waste Collection Map is available on the City’s website. The Contractor shall coordinate with the trash hauler in preparing the construction schedule. The Contractor shall provide a map showing the schedule of the work, which should coordinate with the trash and mail schedule, to the City at the preconstruction meeting.

Contractor shall notify the following entities at least forty-eight (48) hours in advance of any street closure or restriction to access.

1. Fire Department: Orange County Fire Authority, (714) 573-6000
2. Police Department: Orange County Sheriff’s Department, (714) 647-7000
3. School Districts: Saddleback Valley Unified: (949) 586-1234, Capistrano Unified: (949) 489-7000
4. Trash Collection: CR&R, (877) 728-0446
5. Street Sweeping: Sweeping Corp of America, (949) 413-0165
6. Transit Operations: Orange County Transportation Authority (OCTA), (714) 560-6282
7. Fire Department: Station 22, (949) 770-6016
8. Mail Service: US Postal Service

The City Engineer may add additional entities to this list at his discretion.

All existing stop signs, street name signs and regulatory signs shall be maintained in visible locations during construction. Where construction detours and signing conflict with existing signing, the Contractor shall cover existing signs in a manner approved by the City. The Contractor shall also provide temporary traffic restriping, or reflective white or yellow plastic tabs, at the conclusion of each working day, if not sooner, as directed by the City, for any centerline, painted median or lane line that is obliterated by construction.

The Contractor shall provide temporary delineation as directed/approved. Temporary delineation shall include sandblasting of conflicting markings; installation and removal of temporary centerlines or lane lines, detour signing, barricading; and replacement of traffic lines and markings in their proper locations upon termination of the detour. Conflicting existing and temporary striping, as required for traffic control during construction, shall be removed by the Contractor by using wet nozzle sandblasting methods with immediate clean up of residues.

Blacking-out of the pavement striping will not be allowed. Temporary reflective striping tape or reflective plastic tabs may be used, except that it shall not be applied to final asphalt surfaces. Said tape or tabs shall be removed from temporary surfaces prior to placement of additional asphalt.

The Contractor shall also be responsible for notifying adjacent businesses, residents (of affected residential tracts), and entities listed above, in writing seven (7) days in advance of any work that involves limited access. Said notice shall be reviewed and approved by the City in advance of its circulation. Contractor shall provide verification to the City that proper circulation of the notice has been accomplished.

The Contractor shall maintain a 24-hour emergency service to remove, install, relocate, and maintain warning devices. No later than 10 days after the award of the Contract, the Contractor shall furnish to the City, names, and telephone numbers of three persons responsible for this emergency service. In the event these persons do not promptly respond when notified, or it becomes necessary to call other forces to accomplish emergency service, the Contractor will be responsible for any cost incurred.

Prior to the start of each work day, the Contractor shall perform all necessary work incidental to and commensurate with the proper signing, detouring, barricading, etc., heretofore and hereinafter specified that is required for that particular day's schedule of operations. No construction shall be permitted until such signing and detouring operations have been completed and approved by the City.

Personal vehicles of the Contractor's employees shall only be parked in an allowed area as delineated by the City, and shall not be parked on the traveled way at any time, including any section closed to public traffic.

Flashing Arrow Signs:

Each flashing arrow sign shall be solar powered, mounted on a truck or on a trailer and shall be capable of operating while the vehicle is moving or as directed by the City.

Signs mounted on the cab of a truck shall be mounted to provide a minimum of 7 feet between the bottom of the sign and the roadway. Signs mounted on a trailer, or on anything other than the cab of a truck, shall be mounted to provide a minimum of 8 feet between the bottom of the sign and the roadway.

The total weight of trailer mounted flashing arrow sign including the trailer, sign, power source and other components shall not exceed 1,500 pounds and the height of the level trailer bed shall be no higher than 21 inches above the roadway. The trailer shall be equipped with a minimum of 3 leveling jacks.

Alternative types of lamps may be used in flashing arrow signs if visibility is equal to the specified lamps. Each type AX flashing arrow sign shall be a minimum of 2 feet high and 4 feet wide, and shall be finished with flat black enamel. A minimum of 13 No.4414AX 12-volt, yellow or amber lamps shall be installed in the panel. The lamp configuration shall be for 3 arrowheads or an arrow shaft with 2 arrowheads, one pointing in each direction on the face of the sign with a minimum of 5 lamps forming each arrowhead. Each lamp shall be provided with a visor.

The lamp shall be activated by a switch on a control panel and shall be controlled by electronic circuitry to provide a minimum of 4 selectable modes of operation as follows:

1. Pass Left Mode, - Sequencing of lighted arrowheads or sequencing the lamps forming the arrow shaft and arrowhead to the left or a flashing left arrow with the lamps in the arrow shaft and arrowhead flashing on and off simultaneously.

2. Pass Right Mode, - Sequencing of lighted arrowheads or sequencing the lamps forming the arrow shaft and arrowhead to the right or a flashing right arrow with the lamps in the arrow shaft and arrowhead flashing on and off simultaneously.

3. Simultaneous Mode, - Either the outside arrowheads pointing in opposite directions are continuously illuminated, except for the center lamp forming each arrowhead, while the arrow shaft lamps flash on and off simultaneously or the outside arrowhead pointing in opposite directions and the arrow shaft lamps all flash simultaneously to indicate passing on either side.

4. Travel Mode, - Travel or caution mode shall flash in a manner not resembling any other mode.

Lane Requirements:

There shall be a minimum of 5’ clearance from open excavations and two feet from other obstructions (curbs, k-rail, etc). All lanes shall be open to traffic during non-working hours.

The Contractor shall be required to use flashing arrow signs at all lane closures to direct travel and appropriate detour signing to control traffic through and/or around the construction area.

The Contractor will not be allowed to excavate a larger quantity of area (“digouts”) than can successfully be repaved in the same working day. No incomplete paving work will be allowed to remain during the hours designated as requiring “all” lanes open to traffic, except in specific instances in which a minor amount of area can safely be covered by approved means with non-skid steel plates, capable of carrying H-20 wheel loading, or patched with temporary AC to bring the excavation up to grade. Said temporary AC shall be ground down to permanent AC sub-grades and approved by the City prior to placement of any additional permanent AC.

Excavations of less than 4’ in width may be covered with non-skid steel plates capable of carrying H-20 wheel loading over the span of the excavation. Plates shall have a minimum width equal to the excavation width plus 24 inches and be securely fastened to the street surface. Asphalt fillers, a minimum of 6 inches wide shall be placed around the perimeter of the plate. When traffic is transferred to any type of temporary pavement surface good drivability of the surfaces shall be maintained and shall be subject to approval by the City prior to allowing traffic to be transferred upon it.

The Contractor shall also ensure that access to all side streets and driveways are maintained at all times. Work in front of or within driveways and side streets shall be conducted in a manner where at no time is access to property denied. Portions of driveway approaches that are not ready to be opened for traffic at the end of the workday shall be steel plated per the requirements noted in the previous paragraph. The Contractor shall use temporary AC surfacing at his own expense for traffic control as required to maintain traffic in a safe non-disruptive manner.

SECTION 6 - PROSECUTION AND PROGRESS OF WORK

6-1 CONSTRUCTION SCHEDULE AND COMMENCEMENT OF WORK.

6-1.0 General. [Add the following section]:

The Contractor's proposed Construction Schedule shall be submitted to the Engineer within ten (10) working days after the date of the Notice of Award of Contract. The schedule shall be supported by written statements from each supplier of materials or equipment indicating that all orders have been placed and acknowledged, and setting forth the dates that each item will be

delivered. The schedule shall establish the order of work which minimizes disruption of existing travel lanes.

Prior to issuing the Notice to Proceed, the Engineer will schedule a preconstruction meeting with the respective Contractor to review the proposed Construction Schedule and delivery dates, arrange the utility coordination, discuss construction methods, and clarify inspection procedures.

The Contractor shall submit periodic Progress Reports to the Engineer by the tenth day of each month. The report shall include an updated Construction Schedule. Any deviations from the original schedule shall be explained. Liquidated damages will be assessed pending receipt of any outstanding reports, as set forth in Section 6-9.1 below.

6-1.3 Construction Schedule (Critical Path Method) [Add the following section]:

The Contractor shall submit to the Engineer practicable critical path method (CPM) progress schedules in conformance with these Special Provisions. Whenever the term “schedule” is used in this section it shall mean CPM progress schedule illustrated by the Gantt Bar method. The schedule shall be prepared by qualified and experienced scheduling staff.

Schedules shall show the order in which the Contractor proposes to carry out the work with logical links between time-scaled work activities, and calculations made using the critical path method to determine the controlling operation or operations. The Contractor is responsible for assuring that all activity sequences are logical and that each schedule shows a coordinated plan for complete performance of the work.

The Contractor shall produce schedules using computer software and shall furnish compatible software for the Engineer’s exclusive possession and use. The Contractor shall furnish network diagrams, narrative reports, tabular reports and schedule data as parts of each schedule submittal.

The number of activities shall be sufficient to assure adequate planning of the Project, to permit monitoring and evaluation of progress, and to do an analysis of time impacts.

Schedule activities shall include the following:

A. A clear legible description.

B. Start and finish dates.

C. A duration of not less than one working day, except for event activities, and not more than 20 working days, unless otherwise authorized by the Engineer.

D. At least one predecessor and one successor activity, except for Project start and finish milestones.

E. Required constraints.

F. Codes for responsibility, stage, work shifts, location and contract pay item numbers.

The Contractor may show a scheduled completion date that is later than the Contract completion date on an update schedule, after the baseline schedule is accepted. The Contractor shall provide an explanation for a late scheduled completion date in the narrative report that is included with the schedule.

The Engineer's review and acceptance of schedules shall not waive any Contract requirements and shall not relieve the Contractor of any obligation thereunder or responsibility for submitting complete and accurate information. Schedules that are rejected shall be correct by the Contract and resubmitted to the Engineer within five (5) working days of notification by the Engineer, at which time a new review period of one week will begin.

Errors or omissions on schedules shall not relieve the contractor from finishing all work within the time limit specified for completion of the Contract. If, after, a schedule has been accepted by the Engineer, either the Contractor or the Engineer discovers that any aspect of the schedule has an error or omission, it shall be corrected by the Contractor on the next schedule.

Payment for the Project schedule and revisions/updates to the schedule shall be made under other items of work and no additional payment shall be made therefore.

6-1.4 Acceleration. [Add the following section]:

The City reserves the right to accelerate the work of the Contract at any time during its performance. In the event the City directs acceleration, such directive will be given to the Contractor in writing. The Contractor shall keep cost and other Project records related to the acceleration directive separately from the normal Project cost records and shall provide a written record of acceleration costs to the City on a daily basis.

In the event the Contractor believes that some action or inaction on the part of the City constitutes an acceleration directive, the Contractor shall immediately notify the City in writing that the Contractor considers the actions or inactions an acceleration directive. The Contractor shall not accelerate their work efforts until the City responds to the written notification. If acceleration is then directed or required by the City, all cost records referred to in the previous paragraph shall be maintained by the Contractor and provided to the City on a daily basis.

In order to recover additional costs due to acceleration, the Contractor must document that additional expenses were incurred and paid by the Contractor. Labor costs recoverable will only be overtime or shift premium costs or the cost of additional laborers brought to the site to accomplish the accelerated work effort. Equipment costs recoverable will only be the cost of added equipment mobilized to the site to accomplish the accelerated work effort.

6-2 PROSECUTION OF THE WORK [Replace the first sentence the following:]

To minimize public inconvenience and possible hazard and maintaining work areas to their original condition and state of usefulness as soon as practicable, the Contractor shall diligent prosecute the Work to completion and ensure that the construction is completed within the alotted construction period.

[Add to this section]

- Traffic Control:
    - Traffic Control setup at each location shall confirm to CA-MUTCD (Latest Edition) requirements and typical applications and shall be maintained on a daily basis by the contractor.
- Localized Concrete Improvements (Curb/Gutter, Ramps, etc.):

- All concrete improvements shall be completed prior to the start of any pavement grinding or reconstruction activities.

- Contractor's operations shall be scheduled in such a way that no ramp or portion of sidewalk is left excavated, demolished, or formed over the weekend.

- It shall be the contractor's responsibility to properly barricade the work area during non-working hours and to set up appropriate pedestrian detour/signage until the work is completed

- Driveway access to each property shall be maintained at the end of each working day. Contractor shall ramp or plate the driveways to maintain access.

6-3 TIME OF COMPLETION.

6-3.1 General. [Add the following to this section]:

The time for completion shall be as set forth in the General Specifications.

"The Contractor shall complete all work under the Contract within sixty (60) consecutive working days after the date on the Notice to Proceed.

The Contractor shall ensure the availability of all material prior to the start of work. Unavailability of material will not be sufficient reason to grant the Contractor an extension of time for 100 percent completion of work."

Working Days. "Any City holiday, defined as January 1st, the third Monday in January (Martin Luther King Day), the third Monday in February (President's Day), the last Monday in May (Memorial Day), July 4th, the first Monday in September (Labor Day), November 11th (Veterans Day), the fourth Thursday and Friday in November (Thanksgiving and Friday after), December 24th through December 31st."

Working Hours. Normal working hours are limited to 8:30 a.m. to 4:30 p.m., Monday through Friday.

The Contractor, subcontractors, suppliers, etc., shall not generate any noise at the work site, storage sites, staging areas, etc., before or after the normal working hours prescribed above.

Should the Contractor elect to work outside normal working hours, Contractor must first obtain special permission from the Engineer. The request may be for 4:30 p.m. to 6:30 p.m. on weekdays or 8:30 a.m. to 4:30 p.m. on Saturday only. A request for working during any of these hours must be made at least 72 hours in advance of the desired time period. A separate request must be made for each work shift. The Engineer reserves the right to deny any or all such requests. Additionally, the Contractor shall pay for supplemental inspection costs of $205.00 per hour when such time periods are approved.

6-3.2 Contract Time Accounting. [Add the following to this section]:

The Contractor's activities shall be confined to the hours between 8:30 AM and 4:30 PM, Monday through Friday, excluding holidays, unless otherwise specified. Slurry seal application operations, if any shall terminate no later than 1:30 PM of each working day or at the determination of the Engineer. Slurry seal application operations shall occur within two (2) days after scheduled trash pickup days. Work shall be prohibited any time on Saturday, Sunday or Federal Holidays except

as provided herein. Deviation from these hours will not be permitted without the prior consent of the Engineer, except in emergencies involving immediate hazard to persons or property.

In the event of either a requested or emergency deviation, inspection service fees will be charged against the Contractor. The service fees will be calculated at overtime rates (premium time) including benefits, overhead, and travel time and are established based on the City's current fee schedule or professional services agreement for construction inspection services. The service fees will be deducted from any amounts due the Contractor.

Construction activities during City Special Events may be restricted by City to exclude all or part of the work on primary arterial or access roads to the Special Events as determined by Engineer. The Contractor shall be responsible to ascertain the exact times of any such events within his proposed construction schedule which may restrict his operation and shall adjust his schedule accordingly. The construction restrictions shall only be for the actual days the events occur. All costs for maintaining traffic control, protection of work site and re-mobilization shall be deemed as included in the lump sum contract for their respective items and no additional compensation will be allowed.

6-3.3 Completion, Acceptance, and Warranty. [Add the following section]:

Work will be deemed completed on the same date when the Notice of Completion is recorded with the County of Orange.

6-4 DELAYS AND EXTENSIONS OF TIME

6-4.1 General [Add the following to the end of this section:]

No time extension shall be granted unless the claimed delay meets each and every of the following conditions:

(a) The delay was caused by unforeseen events and was beyond the control of Contractor and its subcontractors and material suppliers;

(b) The delay was caused by events of which Contractor was not advised at or before the time of bidding;

(c) The delay impacted and delayed (i) the controlling items of Work (i.e., the as-built critical path, as determined from the as-planned schedule and the actual progress of the Work), or (ii) the Completion of the whole Work within the Contract time;

(d) The delay was not caused by Contractor or its subcontractors or suppliers, including but not limited to their breaches of contract or the standard of care;

(e) The delay was not associated with loss of time resulting from the necessity of submittals to CITY for approval, or from necessary CITY surveys, measurements, inspections and testing;

(f) The delay was not caused by usual or common weather for the time of year, including usual or common severe weather; and

(g) The delay could not have been prevented by the exercise of care, prudence, foresight, and diligence by Contractor.

Excusable delays may include acts of God, acts of public enemy, acts of the Owner or anyone employed by it, acts of another contractor in performance of a contract (other than this Contract) with the CITY, fires, floods, epidemics, quarantine restrictions, labor disputes, unusually and uncommonly severe weather for the time of year, unforeseen site conditions, or delays of subcontractors due to such causes. CITY shall take into consideration other relevant factors such as concurrent delays.

Contractor has the burden of proving that any delay was excusable, including but not limited to an analysis that establishes no concurrency.

No extension of time will be granted for an excusable delay caused by a shortage of materials unless the Contractor furnishes to the Engineer documentary proof that the Contractor has made every effort to obtain the materials from all known sources within reasonable reach of the Work in a diligent and timely manner, and further proof in the form of supplementary progress schedules that the inability to obtain the materials when originally planned did in fact cause a delay in final Completion of the entire Work which could not be compensated for by revising the sequence of the Contractor's operations. The term "shortage of materials" shall apply only to materials, articles, parts or equipment which are standard items and are to be incorporated in the Work. The term "shortage of materials" shall not apply to materials, parts, articles or equipment which are processed, made, constructed, fabricated or manufactured to meet the specific requirements of the contract. Only the physical shortage of material will be considered under these provisions as a cause for extension of time. Delays in obtaining materials due to priority in filling orders will not constitute a shortage of materials.

6-4.3 Payment for Delays [Replace paragraph with the following:]

To be compensable, an excusable delay must be one for which the CITY is responsible, where the delay was unreasonable under the circumstances involved, and where the delay was not within the contemplation of the parties; **however**, Contractor shall not be entitled to monetary compensation when (a) Contractor could have reasonably anticipated the delay and avoided or minimized the cost impacts of it, such as judicious handling of forces, equipment, or plant, (b) there was a concurrent delay which does not qualify for monetary compensation under this paragraph, (c) the cause of the delay was reasonably unforeseen by the CITY or the delay was caused by factors beyond the control of the CITY, including but not limited to a delay under Section 2.2.8 above or a delay caused by a utility company’s failure to perform despite CITY’s reasonable arrangements for such performance; or (d) any other defense available to CITY under law or equity applies. Contractor has the burden of proving that any delay was excusable and compensable, including an analysis that establishes non-concurrency.

The Contractor may not seek damages for delay of a planned Completion of the Work before the contractual deadline for Completion of the Work.

6-9 LIQUIDATED DAMAGES. [Add the following to this section]:

It is agreed by the parties to the Contract that time is of the essence and that in the case that all the work is not complete before or upon the expiration of the time limit set forth, damage will be sustained by the City. For each consecutive calendar day in excess of the time specified for the completion of the work, the Contractor shall pay to the City $2,500.00. In addition, the City shall have the right to charge to the Contractor and to deduct from payments for the work the actual cost to the City of engineering, inspection, superintendence, and other overhead expenses, which are directly chargeable to the Contract and which accrue during the period of such delay. The expenses and damages described above shall be deducted from any money due the Contractor under this contract. The Contractor and his sureties shall be liable for any excess cost.

6-9.1 Additional Liquidated Damages. [Add the following section]:

Additional liquidated damages will also be assessed in the amount of $500.00 per calendar day for failure to follow a construction schedule or timely submit periodic progress reports as described in Section 6 of these Special Provisions.

Additional liquidated damages will also be assessed in the amount of $500.00 per calendar day for failure to mobilize to the Project site within 10 working days of the date of the Notice of Proceed as specified in these Special Provisions.

Additional liquidated damages shall be assessed in the amount of $1,000.00 per day for failure to restore damaged utilities within three (3) working days as specified in Section 5 of these Special Provisions.

Additional liquidated damages shall be assessed in the amount of $500.00 per incident that the Contractor reduces the traveled way width beyond the hours specified in Section 7-10 of these Special Provisions without written authorization from the City.

Additional liquidated damages shall be assessed in the amount of $500.00 per day for failure to comply with, or implement, or maintain the Storm Water Pollution Protection Plan (SWPPP) or Water Pollution Control Plan (WPCP), as required, by the City's NPDES permit with the Santa Ana or San Diego Regional Water Quality Board.

Additional liquidated damages shall be assessed in the amount of $500.00 per incident that the Contractor fails to install the Best Management Practices (BMP's) within 24 hours of notification as described in Section 7-8.6.2 of the Special Provisions.

SECTION 7 - MEASUREMENT AND PAYMENT

7-3 PAYMENT.

7-3.2 Partial and Final Payment. [Add the following to this section]:

The closure date for periodic progress payments will be five (5) working days prior to the first Monday of each month. The final progress payment will not be released until the Contractor returns the control set of Plans and Specifications showing the as-constructed conditions. The City shall withhold from the final payment $15,000 in the event that the Contractor fails to return the control set of Plans and Specifications showing the as-constructed conditions.

SUBSTITUTION OF SECURITIES

In conformance with Public Contract Code Section 22300, the Contractor may substitute securities for any monies withheld by the City to ensure performance under the Contract Agreement.

At the request and expense of the Contractor, the Contractor has the option to deposit securities, which have been approved by the City, and deposited with a State or Federally chartered bank as the escrow agent. Said securities will be used as a substitute for retention earnings required to be withheld by the City, pursuant to the construction contract. The Contractor shall be the beneficial owner of any securities substituted for moneys withheld and shall receive interest thereon. Said securities shall have no obligation to any other construction contract for substitution of securities in lieu of retention. When the Contractor deposits the City approved securities with the escrow agent, the escrow agent shall notify the City within 10 calendar days of the deposit.

Said securities shall be evaluated quarterly by the escrow agent to verify the current market value. If the current market value of said securities falls below the required amount, the escrow agent shall notify the Contractor and require additional securities and/or cash to be submitted for City approval, and be held in the escrow account to meet the Contractor's obligations. Said securities shall be held by the escrow agent until such time as the escrow agent receives written notification from the City that the Contractor has satisfactorily completed his contract obligations.

Alternatively, the Contractor may request and the City shall make payment of retention earned directly to the escrow agent at the expense of the Contractor. The Contractor may direct the investment of the payment into securities and the Contractor shall receive the interest earned on the investments upon the same terms provided for securities deposited by the Contractor.

The type of securities deposited and the method of release shall be approved by the City Attorney's office.

The full five percent (5%) retention will be deducted from all payments. The City shall hold retainage from the Contractor and shall make prompt and regular incremental acceptances of portions, as determined by the City, of the Contract work, and pay retainage to the Contractor based on these acceptances. The Contractor, or subcontractor, shall return all monies withheld in retention from a subcontractor within 30 days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the Contract work by the City. Federal law (49 CFR Section 26.29) requires that any delay or postponement of payment over 30 days may take place only for good cause and with the City's prior written approval. Any violation of this provision shall subject the violating Contractor or subcontractor to the penalties, sanctions and other remedies specified in Section 7108.5 of the Business and Professions Code. These requirements shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to the Contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the Contractor, deficient subcontract performance, or noncompliance by a subcontractor.

The final retention will be authorized for payment thirty-five (35) days after the date of recordation of the Notice of Completion. . The City may withhold from release of the final retention amounts authorized under Public Contracts Code Section 7107 and/or 125% of amounts identified in any Stop Notices received by the City.

7-3.3 Delivered Materials. [Add the following to this section]:

Materials and equipment delivered but not incorporated into the work shall not be included in the estimate for progress payment.

7-3.4 Mobilization. [Add the following to this section]:

Mobilization shall consist of preparatory work and operations, including but not limited to those necessary for the movement of personnel, equipment, supplies, and incidentals to the Project site; for the establishment of all offices, buildings and other facilities necessary for the work on this Project; and for all other work and operations which must be performed or cost incurred prior to beginning work on the various contract items on the Project site. Mobilization is deemed to include all aspects of mobilization and de-mobilization work occurring during the life of the Project for any reason.

Full compensation for mobilization shall be included in the Contract **LUMP SUM** price bid for **Mobilization** and shall include full compensation for all costs incurred by the Contractor for doing all the work involved in mobilization as specified herein, and no additional compensation will be

allowed. Mobilization shall not exceed 5% of the entire bid, excluding mobilization and as shown in the Proposal Bid Sheet.

7-3.5 Contract Unit Prices

7-3.5.1 General. [Replace with the following]:

If a change is ordered in an item of work covered by a Contract Unit Price, and such change does not involve substantial change in character of the work from that shown on the Plans or specified in the Specifications, then no adjustment in payment will be made regardless of the quantity of work performed.

If a change is ordered in an item of work covered by a Contract Unit Price, and such change does involve a substantial change in the character of the work from that shown on the Plans or specified in the Specifications, an adjustment in payment will be made per 7-3.7.

7-3.5.2 [Delete entire section]

7-3.5.3 [Delete entire Section]

7-3.7 Agreed Prices. [Replace with the following]:

Agreed Prices are prices for new or unforeseen work established by mutual agreement between the Contractor and the Agency. If mutual agreement cannot be reached, the Engineer may direct the Contractor to proceed on the basis of Extra Work in accordance with Section 7-4.

7-4 PAYMENT FOR EXTRA WORK.

7-4.2 Basis for Establishing Costs.

7-4.2.1 Labor [Amend as follows]:

Delete “Workers Compensation Insurance and Liability Insurance” from the “employer payments” in the first paragraph.

7-4.3 Markup.

7-4.3.1 Work by the Contractor. [Replace with the following]:

The following percentages shall be the maximum added to the Contractor’s costs and shall constitute the markup for all overhead, profits, Workers Compensation Insurance & Liability Insurance;

1) Labor	20
2) Materials	15
3) Equipment Rental	15
4) Other Items and Expenditures	15

To the sum of the Costs and markups provided for this subsection, one percent shall be added as compensation for bonding. In any event, notwithstanding the above markups, the total labor mark-up shall not exceed 33% of the base labor hourly pay rate. No additional compensation shall be allowed.

7-4.3.2 Work by a Subcontractor. [Replace with the following]:

When all or any part of the extra work is performed by a Subcontractor, the markup established in 7-4.3.1 shall be applied to the Subcontractor's actual cost of work. A markup of ten percent (10%) on the first $5,000 of the subcontracted portion of the extra work and a markup of five percent (5%) on work added in excess of $5,000 of the subcontracted portion of the extra work may be added by the Contractor.

The markups mentioned hereinafter shall include, but are not limited to, all costs for all forms of insurance and the services of superintendents, project managers, timekeepers and other personnel not working directly on the change order and pickup or yard trucks used by the above personnel. These costs shall be reported as labor or equipment elsewhere except when actually performing work directly on the change order and then shall only be reported at the labor classification of the work performed.

SECTION 9 – FACILITIES FOR CONTRACT PERSONNEL. [Add this section]:

9-1 EXTENDED FIELD OFFICE OVERHEAD COST.

Within fourteen (14) calendar days after receipt of the Notice to Proceed, the Contractor shall submit written statement to the City detailing its field office overhead costs which are time related. The City will review this first cost submittal and reach a written agreement with the Contractor on a daily field office overhead cost rate which shall be memorialized in a no cost change order. The daily rate agreed to in this change order will be applicable throughout the duration of the Contract. No field office costs will be paid until such an agreement is reached between the City and the Contractor and the change order concerning this daily rate is executed by both parties. Progress payments will be withheld pending receipt of the above-referenced cost submittal and executed change order.

The individual cost components of the daily field office overhead rate shall represent costs which increase as a direct result of any time extension caused solely and exclusively by an act or omission of the City. This listing may include such cost items as on-site project management, supervision, Engineering and clerical salaries; on-site utilities and rent; on-site company vehicles and their operating expenses; and site maintenance and security expenses. Field office overhead costs which are unaffected by increased time shall not be allowable cost in calculating the daily field office overhead rate. These non-time related costs include, but are not limited to, acquisition and installation of stationary equipment; temporary construction facilities; utilities and office furnishings (unless such items are rented or leased); the preparation of the site including clearing, grubbing, grading, fencing, mobilizations and demobilization costs; and the costs of permits, bonds and insurance coverage for the Project.

The individual wage cost components used to calculate the daily field office rate shall be supported by actual employee payroll records, not salary ranges or estimates. Hourly rates for management, supervisory, engineering, and clerical employees shall be based upon 2080 work hours per year and shall not include allowances for holidays, vacations, or sick time.

When applicable, the daily field office overhead rate shall be multiplied by the number of days the Contract is delayed or extended by change order and shall be added to the agreed upon change order cost. The days of delay shall be those caused solely by the acts or omissions of the City and documented by a time impact analysis prepared and submitted by the Contractor. In the event a deductive change order is issued which reduces time under the Contract, the daily field office overhead rate shall be used to calculate the deductive amount. No allowance for overhead costs and no profit allowance shall be added to the extended field office overhead cost.

SECTION 10 - RESPONSIBILITIES OF THE CONTRACTOR [Add this section]:

10-1 CONTRACTOR'S EQUIPMENT AND FACILITIES.

10-1.1 General.

Conduct of the Work. The Contractor shall behave, at all times, in a courteous, professional manner. While on site, or entering or exiting the site, there shall be no extraneous activity that might cause disruption to the Project site, surrounding areas, or residents. Failure to comply may result in the suspension of work, or removal of contractor's staff from the Project.

Noise Levels. A noise level limit of 86 dbA at a distance of fifty feet (50') shall apply to all construction equipment on or related to the job whether owned by the Contractor or not. The use of excessively loud warning signals shall be avoided except in those cases required for the protection of personnel.

10-2 COOPERATION AND COLLATERAL WORK.

The Contractor is advised as to the possibility of other construction projects within the proposed construction zone by the City, other governing agencies or private enterprises. In the event of such projects, the Contractor shall coordinate with the applicable parties as to the extent of any time required to complete their work and shall schedule its work and conduct its operations so as to permit access and time as required for the concurrent work. The Contractor shall immediately notify the City Engineer in the event of a delay in scheduling caused solely by this concurrent work. Payment for the above, if any, shall be deemed as included in the items of work as shown on the proposal bid sheet and no additional compensation will be allowed.

10-3 PROJECT SITE MAINTENANCE.

10-3.1 Cleanup and Dust Control.

The Contractor shall keep adjacent properties clean and free of rubbish and debris in a timely manner as necessary and/or as directed by the Engineer.

The Contractor shall implement effective handling, storage, usage, and disposal practices to control material pollution and manage waste and nonstormwater at the job site before they come in contact with storm drain systems and receiving waters.

10-3.1.1 Construction Cleaning [Add the following section]:

The Contractor shall:

(a) Initiate and maintain a daily program to prevent accumulation of debris on-site and along access roads and haul routes. Maintain areas under Contractor's control free of waste materials, debris, weeds 6" high, and rubbish. Maintain site in a clean and orderly condition.

(b) Provide suitable covered containers for deposit of debris and rubbish. Dispose of accumulation of extraneous materials, prohibit overloading of trucks to prevent spillages on access and haul routes and provide daily inspection of haul routes to enforce requirements.

(c) The Contractor shall supply self-loading motorized street sweepers equipped with a functional water spray system as part of his daily program.

(d) Schedule at a minimum, weekly collection and disposal of debris. Provide additional collections and disposals of debris whenever the weekly schedule is inadequate to prevent accumulation.

The Contractor shall remove debris from closed or remote spaces prior to closing the space, control cleaning operations to minimize dust and other particulates and immediately remove clay and earth which adhere to the paved surface of the roadway. Remove by hand scraping, washing, sweeping, and/or other method(s) which will leave a clean non-skid surface without impairing, injuring or loosening the surface.

The Contractor is required to control dust throughout the life of the Contract. The control may be required by job conditions or City Engineer. In any case, the Contractor shall use water or other means to control the dust. No chemical agents may be used without written authorization from the Agency. The Contractor shall be solely responsible for safety problems, accidents or any other complications or claims arising from inadequate dust control.

No separate payment will be made for any work performed or material used to control dust resulting from the Contractor's performance of the work, or by public traffic, either inside or outside the right-of-way. Full compensation for such dust control will be considered as included in the price paid for the various items of work involved.

No separate payment will be made for any work performed or material used in cleaning the Project. Full compensation for such cleaning shall be considered as included in the price paid for the various items of work involved and no additional compensation will be allowed therefore.

10-4 WATER POLLUTION CONTROL

10-4.1 Best Management Practices (BMPs)

Per the Federal Clean Water Act, the Contractor is required to eliminate pollution to waters of the United States in regards to this Project. This Project will require the Contractor to implement “Best Management Practices”.

The Contractor shall submit a Water Pollution Control Plan (WPCP) as detailed in Appendix A. The Contractor shall confirm that all of the Best Management Practices (BMP’s) have been adequately detailed that addresses his or her anticipated construction operations and meets the intent of the NPDES requirements. The Contractor shall obtain a Notice of Intent (NOI) from the State Water Resources Control Board and pay all related fees. The NOI shall be submitted as part of the WPCP. After the Notice of Award, the Contractor shall submit to the City a finalized and signed WPCP, which establishes the construction BMP requirements, for review and approval. No work will be allowed to begin without an approved WPCP on file with the City.

The Contractor shall utilize Best Management Practices (BMP’s) outlined in the WPCP during construction to ensure that sediment from storm runoff and construction activities does not enter storm drains. Some of the primary Water Pollution Control measures anticipated for this Project include, but are not limited to, covering all storm drain inlets in the Project vicinity with water permeable fabric and gravel bags prior to performing any adjacent AC grinding, removal or paving operations or PCC ramp lip grinding; properly fueling and cleaning all equipment/vehicles; maintaining an ample supply of gravel/sand bags on-hand when excavating new PCC sidewalk/ramp/curb/gutter improvements in the event of rain; properly containing all PCC treatment materials such as the coloring agents, exposed aggregate etching chemicals and surface treatment chemicals required to install the detectable warning mats; properly covering all incoming material trucks and all out going debris hauling vehicles; providing restroom facilities for

workers; and regular street sweeping of the work area and haul routes to the satisfaction of the Owner's Representative.

The requirements of all of the following agencies shall be met and maintained and where there is a conflict between requirements, the most stringent requirement shall govern.

1. San Diego Regional Water Quality Control Board
2. Santa Ana Regional Water Quality Control Board
3. County of Orange

10-4.1.2 Payment

Full compensation for conforming to Subsection 7-8.6, including providing all necessary **Best Management Practices** shall be considered as included in the Contract **LUMP SUM** price for Best Management Practices and shall include finalizing and implementing the WPCP in accordance with the "Draft" WPCP and as detailed herein, and shall include full compensation for encroachment permit processing as related to the WPCP, furnishing all labor, tools, materials, and incidentals for implementing said approved / finalized WPCP.

10-5 TRAFFIC CONTROL PLAN (TCP).

It shall be the Contractor's responsibility to furnish a detailed traffic control plan prepared and stamped/signed by a licensed civil or traffic engineer licensed in the State of California for City approval. Detours shall be in accordance with Caltrans standards. The Contractor shall submit detailed drawings of any proposed detour(s)/lane closures to the City Engineer for approval prior to the commencement of work. **The traffic control plans shall be submitted to the City for review and approval within 10 working days after the date of the Notice of Award.**

10-5.1 Payment.

The Contract **LUMP SUM** price bid for the **Traffic Control** bid item shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing all the traffic control related work involving placing, removing, storing, maintaining, moving to new locations, replacing and disposing of the components of traffic control system as specified in the Standard Specifications and these specifications and as directed by the City. The lump sum price shall also include steel plates and temporary AC including installation and removal; all associated temporary signing and striping; flashing arrow signs; flagging and/or flagmen costs; night work; Project notifications; and changeable message signs at the Project site, and no additional compensation will be made therefore.

10-6 CONTRACTORS RESPONSIBILITIES FOR WORK

Until Acceptance of the Work, the Contractor shall have the responsibility, charge and care of the Work and of the materials to be used therein (including materials for which it has received partial payment or materials which have been furnished by the City) and shall bear the risk of injury, loss or damage to any part thereof by the action of the elements or from any other cause, whether arising from the execution or from the non-execution of the Work.

The Contractor shall rebuild, repair, restore, and make good all injuries, losses, or damages to any portion of the work or the material occasioned by any cause before its completion and acceptance and shall bear the expense thereof. Where necessary to protect the work or materials from damage, the Contractor shall at his expense provide suitable drainage and erect such temporary structures

as are necessary to protect the work or materials from damage. The suspension of the work from any cause whatever shall not relieve the Contractor of his responsibility for the work and materials as herein specified. If ordered by the City Engineer, the Contractor shall at his expense properly store materials which have been partially paid for by the City or which have been furnished by the City. Such storage by the Contractor shall be on behalf of the City, the City shall at all times be entitled to the possession of such materials, and the Contractor shall promptly return the same to the site of the work when requested. The Contractor shall not dispose of any of the materials so stored, except on written authorization from the City.

In an emergency affecting the safety of life or property, including adjoining property, the Contractor, without special instructions or authorizations, is authorized to act at his discretion to prevent such threatened loss or injury, and he shall so act as though instructed to do so by the City.

PART 2 - CONSTRUCTION MATERIALS

SECTION 200 - ROCK MATERIALS

200-1 ROCK MATERIALS

200-1.1 General [Add the following]:

Aggregate base material for all asphaltic concrete and concrete paving shall be crushed miscellaneous base (C.M.B.) or crushed aggregate base (C.A.B.). Majority of the base materials will be on-site as a result of crushing the existing asphalt and concrete during the demolition process.

200-1.4 Coarse Aggregate for Portland Cement Concrete

1. Non-Slip Aggregate: Fused aluminum oxide grits or crushed emery, factory graded, packaged rust proof.

SECTION 201 - CONCRETE, MORTAR, AND RELATED MATERIALS

201-1 PORTLAND CEMENT CONCRETE

201-1.1 Requirements

201-1.1.1 General. The following paragraph shall be added following paragraph 4:

The cement utilized shall be Type V. No substitution of materials shall be permitted. The Contractor shall furnish the City's Representative with a copy of the mix design to be used and with a legible certified weight-master's certificate for each load of P.C.C. delivered to the project. Portland Cement Concrete delivered to the project site having a water content and/or slump greater than that specified in the mix design shall be rejected and removed from the project site.

201-1.1.2 Concrete specified by class: The class of concrete shall be 560-C-3250 with a maximum slump of four inches (4") for all concrete flatwork, walls, footings, foundations, sidewalks, access ramps, curbs and gutters, and cross gutters, mow curbs, columns, thrust blocks, terraced concrete seating, monument signs, etc.

201-1.1.4 Test for Portland Cement Concrete [Add the following]:

1. All material shall comply with the latest editions of the American Concrete Institute (ACI) and California Building Code. Testing of Portland cement concrete shall apply to all site concrete including but not limited to: concrete paving, walls, footing, etc.
2. Product Data:

    a) Submit complete materials list of items proposed for the work. Identify material source.
    b) Submit admixture, curing compound, retarder, and accessory item product data.
    c) Submit material certificates for aggregates, reinforcing, and join fillers.

3. Submit concrete delivery tickets to Quality Control Manager. Show the following:

    a) Batch number

b) Mix by class or sack content with maximum size aggregate

c) Admixture

d) Air content

e) Slump

f) Time of loading

4. Submit concrete test reports.

5. City will provide field quality control testing and inspection during concrete operations.

6. Contractor shall provide adequate notice, cooperate with, provide access to the work, obtain samples, and assist test agency and their representatives in execution of their function.

7. Strength Verification

Contractor should present mix design to City Inspector for approval prior to pour. Contractor shall provide copies of concrete tickets verifying the strength requirements for every truck load of concrete (see also item 3 above).

201-1.1.5 Concrete Installer [Add the following]:

Contractor shall provide evidence to indicate successful experience in concrete placement and finishing work similar to that specified herein and who can demonstrate such successful experience through past project documentation and references:

1. Experience Period: Minimum five (5) years' experience.

2 Demonstration of Experience: Ten (10) projects which have been completed within the past twenty-four (24) months utilizing similar products, scope, and complexity.

3. Supervision: Placement and finishing of concrete work shall be performed under the supervision of a person having a minimum of five (5) years' experience in the placement and finishing of products specified herein.

4. Previous projects shall be located in Los Angeles, Orange, Riverside, or San Bernardino Counties. **A listing of projects and addresses shall be provided with the bid and shall be reviewed and approved by the City prior to the notice to proceed.** Installer qualifications shall be submitted to construction manager with copies to the Architect for information purposes. Three (3) copies of previous experience shall be provided.

201-1.2 Materials

201-1.2.1 Portland Cement [Add the following]:

1. Lime: ASTM C207, Type S, containing 85% by weight of calcium oxide.

2. Lime Putty: Make from hydrated lime conforming to ASTM C207, pulverized to such fineness that 100% will pass a 50 mesh sieve. Mix lime in water, run through screen into box and age 48 hours.
3. Cement shall be Type V Portland Cement

201-1.4 Mixing

201-1.4.3 Transit Mixer [Add the following]:

Mixes

a. Provide ASTM C94 ready-mixed concrete. Batch mixing at site not acceptable.

1. Strength: 3,250 psi minimum at 28 days for all concrete flatwork, curbs, seating, ramps, plaza area, etc.

2. Slump Range: 2" to 4" maximum

b. Coarse aggregate shall consist of 3/4" aggregate - 3/8" aggregate for pump mix.

c. Provide an approved water-reducing admixture in all concrete.

d. Indicate water added to mix at job site on each delivery ticket. Show quantity of water added. Site water tempered mixes exceeding specified slump range will be rejected as not complying with specifications requirements.

201-2 STEEL REINFORCEMENT FOR CONCRETE

201-2.2 Reinforcing Steel. [Add the following paragraph immediately after the first paragraph]:

#4 reinforcing steel shall be 40 grade
#5 reinforcing steel shall be 60 grade

201-3 CONCRETE JOINT FILLER

201-3.1 Expansion Joint Filler and Joint Sealants

201-3.2 Premolded Joint Filler [Add the following]:

Expansion joint material shall be Deck-O-Foam by W.R. Meadows Corporation or approved equal – 1/4″ in dimension. Install per manufacturers specifications (909) 469-2606.

201-4 CONCRETE CURING MATERIALS

Curing compound shall be ASTM 309 or better. Concrete cure and seal shall be "clear" by Davis Colors, or approved equal.

Note: Basketball court concrete slab shall be cured. Contractor shall review concrete preparation specification with tennis court surfacing provider, City inspector, and installer prior to construction of tennis court slab.

SECTION 210 PAINT AND PROTECTIVE COATINGS

210-1 PAINT

210-1.4 Paint Materials. [Add the following information to the end of this section]:

Submittals:

1. Materials List:

    a. The Contractor shall furnish the articles, equipment, materials, or processes specified by name in the drawings and specifications. No substitutions will be allowed without prior written approval of the City.

    b. Complete material list shall be submitted prior to performing any work. Material list shall include the manufacturer, model number, and description of all materials and equipment to be used.

    c. Equipment or materials installed or furnished without prior approval of the City may be rejected and the Contractor required to remove such materials from the site at his own expense.

    d. Approval of any item, alternate, or substitute, indicates only that the products or products apparently meet the requirements of the drawings and specifications on the basis of the information or sample submitted.

PART 3 - CONSTRUCTION METHODS

SECTION 300- EARTHWORK

SECTION 300.1 Clearing and Grubbing. [Add the following prior to the first paragraph]:

300-1.1 GENERAL:

Site Grading

1. Perform grading within contract limits, including adjacent transition areas to new elevations, levels, profiles, and contours indicated. Provide subgrade surfaces parallel to finished surface grades. Provide uniform levels and slopes between new elevations and existing grades.

2. Grade surfaces to assure areas drain away from structures and to prevent ponding and pockets of surface drainage. Provide subgrade surfaces free from irregular surface changes and as follows:

    a. The subgrade at any point shall not vary more than 0.05 foot above or below the grade established by the Improvement Plans if the structural section indicates placing surfacing on native material.

    b. The subgrade at any point shall not vary more than 0.05 feet above the grade established by the Improvement Plans if the structural section indicates placing an aggregate base or sub-base material on native materials.

    c. Rough Grading: Plus or minus 0.10 ft. subgrade tolerance. Finish required will be that ordinarily obtained from either blade-grader or scraper operations.

    d. Provide subgrade surface free of exposed boulders or stones as noted in the specifications.

    e. Paved Areas: Shape surface of subgrade areas to line, grade, and cross-section indicated. Provide compacted subgrade suitable-to receive paving base materials, per Standard Specifications. Subgrade tolerance plus 0, minus 1/2".

    f. Granular Base: Grade subgrade surface smooth and even, free of voids, to the required subgrade elevation. Provide compacted subgrade suitable to receive granular base materials per Standard Specifications. Tolerance 1/2" in 10'.

3. Uniformly distribute and spread soil. Use loose, dry weed-free topsoil. Do not use muddy topsoil. Place during dry weather.

4. Fine grade topsoil eliminating rough and low areas to ensure positive drainage. Maintain levels, profiles, and contours of subgrades.

5. Remove stones, roots, weeds, and debris while spreading topsoil materials. Rake surface clean of stones 1" or larger in any dimension and all debris. Provide surfaces suitable for soil preparation provided under lawn and planting work. Contractor shall be responsible for ‘rock picking’ and removal of all rocks, stones, and boulders one (1) inch in diameter

and greater in all areas not requiring concrete paving. Removal of rocks from site shall be in compliance with state and local codes.

300-1.2 Preservation of Property [Add the following]:

Consult the records and drawings of adjacent work and of existing services and utilities which may affect site work operations.

300-1.3.2 Requirement [Add the following]:

Miscellaneous:

In addition to the work outlined in Subsection 300-1 of the Standard Specifications, the following items of work are included under Clearing and Grubbing unless otherwise covered by a specific bid item.

1. Maintain dust control at all times by watering; including developing water supply and furnishing and placing all water required for work done in the contract, including water used for extra work.

2. Provide for traffic control and all signs, barricades and all other appurtenant items necessary to maintain proper control, per approved Traffic Control Plans (as provided by contractor)

3. Protection and maintenance of utilities, trees. fences, walls, and other facilities within the construction zone, except those specifically directed by the City Representative to be removed or relocated.

4. Other items of work as directed in these Special Provisions.

300-1.4 Payment [Add the following]:

Unless otherwise specified, compensation for clearing and grubbing shall include full compensation for traffic control, signs, barricades, and flashers and shall be paid for at the lump sum contract price in the proposal bid form and no additional compensation will be allowed.

Payment shall include full compensation for furnishing all labor, materials, tools, equipment, and doing all work involved in clearing and grubbing as specified.

300-1.5 Solid Waste Diversion

Non-reinforced concrete and asphalt wastes generated from the job site shall be disposed of at a facility that crushes such materials for reuse. Excess soil and other recyclable solid wastes shall not be disposed of at a sanitary landfill.

The Contractor shall maintain monthly tonnage records of total solid wastes generated and solid wastes disposed of at a sanitary landfill. The Contractor shall report said tonnage monthly to the Engineer on a form provided by the Engineer to provide appropriate confirmation documentation from the recycling facility.

All waste is to be transported and disposed of in accordance with all local, state and federal laws and regulations. Removal and disposal of material shall be done by City approved Licensed and

Franchised Commercial Solid Waste Haulers. This will require the disposal of all materials in accordance with the City's Construction & Demolition Ordinance, Sections 1082 and 886, which requires the recycling of all C&D materials. The Contractor shall fill out a C&D waste diversion plan meeting the requirements of the C&D Ordinance prior to the start of work, and shall provide proof of recycling at the end of the job. Failure to recycle all eligible C&D material will result in the deduction of $2,500.00 from the final payment to the Contractor.

300-2 UNCLASSIFIED EXCAVATION

300-2.6 Surplus Material [Add the following]:

All surplus material including asphalt, concrete, etc. shall be disposed of in a legal manner, at the expense of the Contractor.

300-3 STRUCTURE EXCAVATION AND BACKFILL

300-3.1 General [Add the following to the first paragraph]:
Footings shall bear on approved undisturbed bearing soil.

300-3.4 Inspection [Add the following after the first paragraph]:

1. Contractor shall provide adequate notice, cooperate with, provide access to their work, obtain samples, and assist testing agency and their representatives in execution of their function.

2. Fill Materials: Contractor shall provide testing of proposed import materials to verify suitability for use, gradation of material, moisture-density relation by ASTM D1557 and percent of organic materials.

3. When, during progress of work, field tests indicate that installed compacted materials do not meet specified requirements, provide additional compaction until specified density is achieved or remove and replace defective materials with new materials as directed by the City Representative. Cost of additional labor, materials, and testing to attain specified density shall be at Contractor's expense.

4. Do not cover or enclose work of this section before obtaining required inspections, tests, approvals, and location recording.

5. Submit reports for testing and inspection of the following, as directed by the City Representative.

    a. Subgrade surfaces
    b. Footing subgrade

300-3.5 Structure Backfill [Add the following]:

1. All fill material is subject to testing and inspection.

2. Obtain inspection and approval of subgrade surfaces from the City's Soils Engineer prior to filling operations. Scarify, dry, and compact soft and wet areas; remove and replace unsuitable subgrade materials with an approved compacted fill material. Take corrective measures before placing fill materials.

3. Soil stabilization: When exposed subgrade surfaces become spongy during construction operations and soil stabilization is required, stabilize subgrade materials, as directed by the City Representative.

4. Spread approved fill material per Soils Fertility and Agricultural Suitability Report (as provided by Contractor, per Section 212)

8. Compaction:

   a. Compact subgrade and fill material of all areas shall be as noted on project soils report. See appendix.

   b. Water settling, puddling, and jetting of fill and backfill materials as a compaction method are not acceptable.

   c. Maintain moisture content of materials, during compaction operations within required moisture range noted on project soils report. (see appendix) and to the satisfaction of the City's Soils Engineer to obtain indicated compaction density.

   d. Provide adequate equipment to achieve consistent and uniform compaction of fill and backfill materials.

SECTION 301- TREATED SOIL SUBGRADE PREPARATION AND PLACEMENT OF BASE MATERIALS

301-2 UNTREATED BASE

301-2.1 General Crushed Aggregate Base (Cab)

A. Crushed Aggregate Base shall be placed to the lines and grades shown on the plans and in accordance with the methods of Section 301-2 of the Standard Specifications.

Prior to placement of Crushed Aggregate Base, the subgrade soils shall be processed to a minimum depth of 6-inches, moisture-conditioned, and re-compacted to a minimum depth of 90 percent relative compaction.

B. Payment

The contract price paid per ton for CRUSHED AGGREGATE BASE shall include full compensation for furnishing all labor, materials, tools, equipment, incidentals and for doing all work involved to place CRUSHED AGGREGATE BASE, complete in place, including scarify six (6) inches, moisture condition, and prepare subgrade to a 90% compaction, as shown on the plans, as specified in the Standard Specifications and these Special Provisions, and as directed by the Engineer.

SECTION 302 - ASPHALT SURFACING

302-6 PORTLAND CEMENT CONCRETE PAVEMENT

302-6.4 Concrete Finishes [Add the following]:

1. General. Unless otherwise specified in this Subsection, retardant finish, broom, and steel trowel finish concrete used in the hardscape areas shall be constructed of concrete prepared as prescribed in Subsection 201-1. Portland Cement Concrete Pavement shall be constructed in accordance with Section 302-6 “Portland Cement Concrete Pavement’” except as modified herein.

2. Job Sample. Contractor shall pour and finish a 6' x 6' square sample of each concrete finish and color using the specified materials and construction techniques. Each sample shall include final finish color as specified, sawcut joints, expansion joints, and shall meet with the City's approval prior to placing any production concrete. Production pours are not acceptable as field samples. Sample 6’ x 6’ concrete panels shall be prepared by Contractor for City’s review three weeks prior to scheduled production pours. Samples not meeting with City’s satisfaction shall be repoured and finished at no cost to City.

   Note: Basketball court concrete slab shall be cured. Contractor shall fill, patch or remove and replace all holes, cracks, abnormalities and non-uniform surfaces on the existing courts. Contractor shall review concrete preparation specification with basketball court surfacing provider, City inspector, and installer prior to construction or refurbishing of the basketball court slabs.

3. Subgrade Preparation: All soil material used as compacted fill or material processed in place or used to backfill trenches should be moistened, dried, or blended as necessary to achieve moisture conditioning as prescribed in project goals report as prepared by the soils engineer of record.

   In expansive soil areas, the subgrade under any sidewalks and flatwork shall be scarified to a depth of at least eight (8) inches and moisture shall be applied to maintain free water on the surface for at least 24 hours prior to placing concrete and the subgrade shall then be prepared without compactive effort.

302-6.8 Measurement and Payment. Payment for all concrete work will be made as part of the lump sum contract price and no additional compensation will be allowed.

SECTION 303 - CONCRETE AND MASONRY CONSTRUCTION

303-1 CONCRETE STRUCTURES

303-1.1 General [Add the following paragraphs]:

Concrete structures shall conform to the provisions of the Standard Specifications and herein.

Reinforcing steel shall be Grade 60 billet steel conforming to ASTM A615.

The surfaces of all concrete structures shall receive a smooth trowel finish, unless otherwise specified on plans.

The Contractor shall furnish all labor, tools and materials to construct reinforced Portland Cement Concrete structures and appurtenant work to grades and dimensions shown on the Plans or staked in the field. The Contractor shall submit method and sequencing for placement of P.C.C. for the City's Representative approval at least ten (10) working days prior to commencement of work.

Unless otherwise specified, transverse construction joints shall be placed in all reinforced sections at intervals of not less than ten (10) feet or more than fifty (50) feet. The joints shall be in the same plane for the entire structure and, for concrete thickness greater than 6-inches, shall be keyed as directed by the City's Representative.

303-1.3 Forms [Add the following paragraphs]:

Forms shall be braced to withstand the pressures developed and shall be tight to prevent the loss of mortar. Formed wall surface shall be free of any unevenness greater than 1/4-inch when checked with a 10-foot straight edge.

Concrete in walls with side slopes flatter than 3/4:1 shall be placed on suitable material which has been overfilled, compacted, and trimmed to true grade. Backforms shall be used where the side slope is 3/4:1 or steeper.

A clear non-staining form release agent which will not discolor nor affect the surface texture of the concrete and does not react with any ingredients of the concrete shall be used. The cost of Furnishing and Placing Form Release agent shall be included in the cost of Portland Cement Concrete.

All form work for concrete construction (mow curbs, paving, concrete curbs, gutters, walls, etc) shall be reviewed and approved by Owner prior to pouring of concrete.

303-1.7 Placing Reinforcement.

303-1.7.1 General [Add the following paragraph]:

Aluminum and plastic supports for reinforcement shall not be used.

Bars shall be accurately spaced as shown on the Plans and spacing of first bar immediately adjacent to transverse construction joint shall be one-half the required spacing shown on the Plans. In no case shall the clear distance between parallel bars be less than 2-1/2 diameters of the bar, or a minimum of 2-inches. Unless otherwise shown on Plans, embedment of reinforcing steel (other than stirrups and spacers) shall be 1-1/2 inches clear depth for #8 bars or smaller, and shall be 2-inches clear for #9 bars and larger. Where placement of reinforcing steel requires alternate bars of different size embedment, requirements shall be governed by the larger bar. Stirrups and spacers shall be embedded not less than 1-inch clear depth.

Measurement of embedment shall be from the outside of the bar to the nearest concrete face. Tack welding or butt welding of reinforcing bars will not be permitted.

303-1.7.2 Splicing. [Add the following paragraph]:

Reinforcing bars may be continuous at locations where splices are shown on the plans, at the option of the Contractor. The location of splices, except where shown on the Plans, shall be determined by the Contractor, based upon using available commercial lengths where applicable.

Splices shall consist of placing the reinforcing bars in contact and wiring them together in such a manner as to maintain the alignment of the bars and to provide minimum clearances.

No lapped splices will be permitted at locations where the concrete section is not sufficient to provide a minimum clear distance of 2-inches between the splice and the nearest adjacent bar. The clearances to the surface of the concrete shall not be reduced. Length of lapped splices shall be as noted on drawings.

Splices of tensile reinforcement at points of maximum stress shall be avoided; however, any deviation from splices shown on the Plans shall be approved by the City's Representative.

303-1.8 Placing Concrete

Verify the location of all concrete flat work, lighting pole bases and planter concrete curbs with plan to be submitted by concrete contractor for review and approval by landscape architect prior to installation.

303-1.8.1 General [Add the following paragraph]:

Upon request, Contractor shall be provided with digital site plan prepared in an AutoCAD format for their use in providing the survey and staking of all proposed improvements. Contractor to provide on site digital survey crew to locate and stake all proposed improvements prior to construction. Contractor to submit request to City for digital AutoCAD file a minimum of 72 hours prior to scheduled survey staking.

The Contractor shall exercise caution in placement of concrete in walls and congested areas to ensure proper consolidation and that there are no voids, and protection of waterstops in position. Adequate provisions shall be made for visual inspection of concrete placement, consolidation and waterstop protection. Pouring of walls in lifts, use of smaller maximum aggregate sizes, or other methods as necessary may be proposed by the Contractor and will be permitted only after evaluation by the City Representative.

A representative of Southern California Geotechnical, Inc., the project geotechnical engineers, shall be notified a minimum of 72 hours in advance of the Musco Sports Lighting and ball containment netting foundation installation to inspect and verify that the soil design parameters are met. Concrete shall be placed immediately after completion of excavation and inspection by the geotechnical engineer. No excavations shall be left unprotected or open overnight.

303-1.9.2 Ordinary Surface Finish. [Add the following paragraph]:

Ordinary Surface Finish shall not apply to rock pockets which, in the opinion of the City Representative, are of such extent or character as to affect the strength of the structure materially or to endanger the life of the steel reinforcement. In such cases, the City Representative may declare the concrete defective and require the removal and replacement of the structure affected.

303-1.10 Curing. [Amend first paragraph with the following]:

Exposed concrete surfaces shall be sprayed with Type 2 curing compound at a uniform rate of one gallon per 150 square feet.

303-1.11 Payment [Replace paragraph one with the following]:

Portland Cement Concrete structures shall be included in the lump sum contract price and shall include full compensation for furnishing all labor, materials, tools and equipment and doing all work required to construct the structure in conformity with the plans and specifications.

Should the Contractor request and obtain permission to use admixtures for his own benefit, he shall furnish such admixtures and incorporate them in the concrete mixture at his expense, and no additional compensation will be allowed therefor.

Should the City Representative direct the Contractor to incorporate any admixtures in the concrete when their use is not required by these specifications, furnishing the admixtures and adding them to the concrete will be paid for as Extra Work a provided in Subsection 3-3, as amended by these Special Provisions.

303-4.1.4.1 Sealants and Waterproofing

1. Sealants

   All exposed plastered, masonry constructed walls shall receive “Allguard” Concrete Masonry Sealer as manufactured by Down Corning, or City approved equal. Application shall be one (1) gallon per 100 s.f. Provide 4′ x 4′ sample mock up of sealed material prior to production applications.

2. Waterproofing

   All retaining masonry walls and masonry planters are to receive a waterproofing membrane (Miradri 860) and a protective membrane (Miradri Protection Course 200V), or City approved equal. Application shall be manufacturer’s recommendations.

303-5 CONCRETE CURBS, CONCRETE PAVING, CONCRETE SEATING, WALKS, GUTTERS, ACCESS RAMPS, AND DRIVEWAYS.

303-5.1 Requirements

303-5.1.1 General [Add the following paragraph]:

Concrete curbs, ramps, and walks shall conform to the Standard Specifications and supplied herein in conjunction with Construction Document Plans and Details.

303-5.2 Forms

303-5.2.1 Standard Form [Add the following]:

1. Use flexible metal, 1" lumber or plywood forms to form radius bends.

2. Install, align and level forms, stake, and brace forms in place. Maintain following grade and alignment tolerances except where accessibility concerns would bring non-compliance if tolerances were allowed.

   a. Top of Form: Maximum 1/8” in 10’0”.

   b. Vertical Face: Maximum 1/8” in 10’0”.

3. The Contractor shall include all fine grading and compaction with regard to setting forms during concrete placement.

4. The Contractor shall notify City a minimum of 36 hours in advance of scheduled form board review. All form work for hardscape construction (mow curbs, concrete paving, curbs, gutters, walls, etc.) shall be reviewed and approved by City Representative prior to pouring of concrete.

303-5.3 Placing Concrete. ADD the following:

The top and face of the finished concrete surfaces shall be true and straight, of uniform width and free of humps, sags, or other irregularities. The finished concrete surface shall not vary more than 0.02' (6 mm) from a 10' (3 meter) straight edge, except at grade changes or curves. No freestanding water will be permitted on slope over 1%. No freestanding water deeper than 1/16" (1.5 mm) will be permitted on slopes of less than 1%.

Concrete placed immediately before rain shall be protected to prevent rainwater from coming in contact with it. Sufficient protective covering shall be kept on hand at all times for this purpose.

303-5.4 Joints

303-5.4.1 General [Add to the first paragraph]:

1. Provide expansion joints using pre-molded joint filler at concrete work abutting curbs, walks, and other fixed objects.

    a. Locate expansion joints as indicated. When not indicated, provide joints at maximum 24'-0" on center for curbs and walks. Align expansion joints in abutting curbs and walks. Expansion joint material shall be as noted on drawings and shall extend to full depth of concrete section.

    b. Install joint fillers full-width and depth of joint. Recess top edge below finish to receive sealants as indicated on construction details.

    c. Provide joint fillers in single lengths for the full slab width, whenever possible. Fasten joint filler sections together when multiple lengths are required.

    d. Where intersecting joints occur join top edge and continue any spliced joints without deviation of form line or direction.

    e. Protect the top edge of the joint filler during concrete placement.

    f. Control joints shall be provided to a depth equal to 1/3 the thickness of the concrete pour.

303-5.9 Measurement and Payment [Add the following to this section]:

Payment for concrete work will be made as part of the contract lump sum price and no additional compensation will be allowed.

SECTION 312 – WATER POLLUTION CONTOL

312.6 WATER POLLUTION CONTROL

312.6.1 General. The Contractor shall conform to all applicable local, state and Federal regulations and laws pertaining to water pollution control. The Contractor shall conduct and schedule its operations, and follow and implement best management practices in such a manner as to prevent water pollution. The Contractor shall also conform to the following requirements:
a) Sediments shall not be discharged to a storm drain system or receiving waters.
b) Sediments generated on the Work site shall be contained on the Work site using appropriate BMPs.
c) No construction-related materials, waste, spill, or residue shall be discharged from the Work site to streets, drainage facilities, receiving waters, or adjacent property by wind or runoff.
d) Non-storm water runoff from equipment, vehicle washing, or any other activity shall be contained within the Work site using appropriate BMPs.
e) Erosion shall be prevented. Erosion susceptible slopes shall be covered, planted or otherwise protected in a way that prevents discharge from the Work site.

312.6.2 Best Management Practices (BMPs). The Contractor shall implement and maintain such BMPs as are relevant to the Work, and as are specifically required by the Plans or Special Provisions. The Contractor shall be responsible throughout the duration of the Contract for installing, constructing, inspecting, maintaining, removing and disposing of BMPs for wind erosion control, tracking control, erosion and sediment control, non-storm water control, and waste management and materials pollution control. Unless otherwise directed by the Engineer, the Contractor shall be responsible for BMP implementation and maintenance throughout any temporary suspension of the Work.

SECTION 314 – PLAYGROUND EQUIPMENT INSTALLATION

The Contractor shall install the following equipment per the manufacturer's recommendation and per the plan. Play equipment shall be as manufactured by Landscape Structure (No Substitutions) and as provided by Coast Recreation, contact: Allison Hepburn (714) 619-0100. The Contractor will supply to the City, State, and Federal installation guidelines, standards, and recommendations. The letter will be submitted prior to release of final payment. Minimum guarantees and terms of the guarantee shall be reviewed and approved by City staff prior to modifications and new installations occurring. The Contractor will also supply to the City a letter from the playground manufacturer stating that all installed equipment complies with ADA and CPSC Guidelines and Standards. Playground manufacturer to provide insurance certificate naming the "City of Laguna Hills", its agents and employees as additionally insured with respect to the manufacturing and installation of Cabot Park play equipment." Playground equipment installation must be performed by a Landscape Structures "Certified" Installer. Contact Landscape Structures for a list of certified installers.

Play Equipment as specified on the plans.

314-1 RESILIENT PLAYGROUND SURFACING

1. The Contractor shall provide all services and products to ensure a complete installation of resilient playground surfacing.

2. The resilient surfacing shall conform to ASTM-F-1292-91, ASTM-F-35586 Class A Flame spread, ASTM E108.

3. Thickness of resilient surfacing must match fall heights of proposed play equipment per Consumer Product Safety Commission.

4. Sub-base preparation, concrete base, thickened edges, and drainage including any necessary excavation will be the sole responsibility of the Contractor and shall be included in the square footage cost for resilient surfacing.

5. Concrete curbing must be installed below grade to confine the resilient surfacing and will be installed per plans.

6. Concrete sub-base shall be installed under all resilient surfacing as specified on plans and details.

7. Compaction of sub-grade material shall be at 90% minimum.

8. Compacted sub-grade shall be graded as noted on civil plans.

9. Resilient surfacing will be poured in place and its intended use will be for a shock absorbing surface under and around playground equipment.

10. The resilient surfacing will be porous, seamless, and capable of installing at various thicknesses.

11. Resilient surfacing is a two layer system consisting of a cushion layer covered by a weather resistant wearing layer.

12. Cushion Course: per specifications of "Spectraturf." The resilient surfacing shall be a minimum installed thickness as specified below: Finish surface of wearing course shall be level.

Overall Thickness	Critical Fall Height
1-3/4"	4'
2-1/2"	5'
3"	6' and 7'
3-1/2"	8'
4"	9'
4-1/2"	10'
5-1/2"	12'

13. Wearing course per Specifications of "Spectraturf." The wearing course shall be an installed thickness of 3/8". The binder for rubber particles shall be aliphatic.

14. Wearing course shall be hand troweled to produce an even, uniform surface. All edges to be transitioned to a beveled or flush condition.

15. A ten-year guarantee against defects in materials and workmanship must be provided in writing, by the Contractor, to the City prior to project completion.

16. Install "Spectraturf." Resilient surfacing available from:

    Spectraturf
    Contact: Spectraturf
    Phone: (800) 875-5788

    Substitutions:

Submit 2’ x 2’ sample and specifications for consideration a minimum of ten (10) days prior to bid opening.

PART 9 – SITE FURNISHINGS

SECTION 900 – SITE FURNISHINGS

900-1 GENERAL REQUIREMENTS

900-1.1 General

Examine Plans and Specifications and include all miscellaneous metal, which is specified in other Sections. Provide all connections, anchors, bolts, and other fastenings as required. Perform all cutting, punching, drilling, and tapping required for proper assembly of the work. All installations shall be done in accordance to manufacturer’s specifications.

900-1.2 Shop Drawings

1. Submit shop drawings of all work herein showing layouts, sizes, and methods of construction and installation, including sizes and types of all fastening devices.

2. Codes

   Materials and work shall conform to the governing Building Code. In case of conflict between these Specifications and the Building Code, the more stringent shall govern.

3. Delivery

   Ensure that items to be set in concrete are delivered at the proper time.

4. Measurements

   Verify all dimensions by taking field measurements. Proper fit and attachment of all items are required.

5. Coordination

   Coordinate with other trades to effect prompt delivery of all materials needed for erection or installation. Identify all bolts or other loose materials.

6. Storage

   Store materials in dry, protected areas. Protect from rusting, bleaching, and other damage. Remove any damaged items from site and replace at no cost to the City’s representative.

7. Certifications

   Furnish to the City’s representative copies of all material certifications.

900-2 SITE FURNISHINGS

900-2.1 Receptacles

‘Greenfield’ series waste receptacle, model #QR-GF2832W-A24 in natural color with craftsman etch texture and black steel funnel trash lid, by QCP, (866)703-3434. Surface mount per manufacturer’s recommendations.

900-2.2 Seating Furnishings

ADA concrete picnic table, model #Q-LBT102PTADA, in natural color with craftsman etch texture, by QCP, (866)703-3434. Surface mount per manufacturer’s recommendations.

‘Palm’ series bench, model #Q1-PS84B in natural color with craftsman etch texture, by QCP, (866)703-3434. Surface mount per manufacturer’s recommendations.

900-2.3 Drinking Fountain

Hi/lo drinking fountain / bottle filler, model #10145SM, color to be green, by Most Dependable Fountains, (800)552-6331. See civil engineering plan for connection to sump. Surface mount per manufacturer’s recommendations.

PLAN NOTE

BASE SHEET PREPARED FROM CIVIL BACKGROUNDS RECEIVED APRIL 13, 2026.

DEFERRED SUBMITTALS REQUIRED

DEFERRED SUBMITTALS SHALL BE REQUIRED FROM THE MANUFACTURER AND/OR SUPPLIER OF THE FOLLOWING PARK FEATURES INCLUDING ALL ANCHORING AND FOUNDATION DETAILS:

1. PLAYGROUND EQUIPMENT

NOTE: THE ABOVE ITEMS REQUIRING A DEFERRED SUBMITTAL SHALL REQUIRE SEPARATE PERMITS AND PLAN CHECK PRIOR TO INSTALLATION.

SURVEY INFORMATION

BASIS OF BEARINGS
The Bearing shown heron are based on the Bearing between OCS Horizontal control station GPS NO.7681 and Station GPS NO. 7682 Being North 40deg 53'55" West per records on File in the Office of Orange County Surveyor

24. CONSTRUCT 6" THICK CONCRETE PAD PER DETAIL THIS SHEET.
25. CONSTRUCT 24"x24" BROOKS DRAIN BOX WITH #2424 GRATE.
26. INSTALL 18" DIA. HDPE STORM DRAIN (N-12) MANUFACTURED BY ADS INCLUDING EXCAVATION, AND BACKFILL, TRENCH AND BEDDING PER O.C.E.M.A STD PLAN 1319.
27. CONNECT PROPOSED 18" STORM DRAIN TO EXISTING 18" HDPE STUB WITH CONCRETE COLLAR PER O.C.E.M.A. STD PLAN 1317.
28. MODIFY EXISTING CATCH BASIN PER DETAIL THIS SHEET.
29. CONNECT 4" DRAIN PIPE TO PROPOSED 18" HDPE STORM DRAIN. (CONTRACTOR TO DETERMINE LOCATION, SIZE AND INVERT PRIOR TO CONSTRUCTION).

EROSION CONTROL NOTES

A) IN CASE OF EMERGENCY CALL CITY NON-EMERGENCY DISPATCH
AT 714-754-5252

B) THE UNDERSIGNED CIVIL ENGINEER WILL REVIEW EROSION CONTROL WORK AND CERTIFY THAT WORK IS IN ACCORDANCE WITH THE APPROVED PLANS.

MR SURENDER DEWAN RCE 34559 — 04/14/26 DATE

C) A STANDBY CREW FOR EMERGENCY WORK SHALL BE AVAILABLE AT ALL TIMES DURING THE RAINY SEASON. (NOVEMBER 1–APRIL 15) NECESSARY MATERIALS SHALL BE AVAILABLE ON SITE AND STOCKPILED AT CONVENIENT LOCATIONS TO FACILITATE RAPID CONSTRUCTION OF TEMPORARY DEVICES OR TO REPAIR ANY DAMAGED EROSION CONTROL MEASURES WHEN RAIN IS IMMINENT.

D) DEVICES SHALL NOT BE MOVED OR MODIFIED WITHOUT THE APPROVAL OF THE CITY INSPECTOR.

E) ALL REMOVABLE PROTECTIVE DEVICES SHOWN SHALL BE IN PLACE AT THE END OF EACH WORKING DAY

F) AFTER A RAINSTORM, ALL SILT AND DEBRIS SHALL BE REMOVED FROM CHECK BERMS AND DESILTING BASINS AND THE BASINS PUMPED DRY. A GRADED SLOPE SURFACE PROTECTION MEASURES DAMAGED DURING A RAINSTORM SHALL ALSO BE IMMEDIATELY REPAIRED.

G) FILL SLOPES AT THE TRACT PERIMETER MUST DRAIN AWAY FROM THE TOP OF THE SLOPE AT THE CONCLUSION OF EACH WORKING DAY.

H) A GUARD SHALL BE POSTED ON THE SITE WHENEVER THE DEPTH OF WATER IN ANY DEVICES EXCEED TWO

PLACEMENT OF DEVICES TO REDUCE EROSION DAMAGE WITHIN THE TRACT MUST BE SHOWN ON THE PLAN.

THE CONTRACTOR SHALL BE RESPONSIBLE AND SHALL TAKE THE NECESSARY PRECAUTIONS TO PREVENT PUBLIC TRESPASS ONTO AREAS WHERE IMPOUNDED WATER CREATES A HAZARDOUS CONDITION.

I) ALL LOOSE SOIL AND DEBRIS WHICH MAY CREATE A POTENTIAL HAZARD TO OFFSITE PROPERTY SHALL BE REMOVED FROM THE SITE AS DIRECTED BY THE INSPECTOR.

THE UNDERSIGNED CIVIL ENGINEER ACCEPTS RESPONSIBILITY FOR PROFESSIONAL INSPECTION

ACCESSIBLE ROUTE OF TRAVEL

- WALKWAYS TO BE A MINIMUM 48" WIDE.
- WALKWAYS AND RAMPS SHALL NOT EXCEED 2% CROSS SLOPE.
- RAMPS WITHOUT HANDRAIL SHALL NOT EXCEED 5% SLOPE IN THE DIRECTION OF TRAVEL.
- RAILING SHALL BE PROVIDED FOR ALL RAMPS GREATER THAN 5%.
- 8.333% MAXIMUM GRADE ON RAMPS WITH RAILS.
- LANDING AT THE TOP OF RAMPS SHALL BE A MINIMUM OF 60" X 60" WITH LESS THAN 2% SLOPE IN ALL DIRECTIONS.
- INTERMEDIATE LANDINGS SHALL BE PROVIDED ON RAMPS AND SHALL BE A MINIMUM OF 60" IN LENGTH WITH LESS THAN 2% SLOPE IN ALL DIRECTIONS.
- LANDINGS SHALL BE PROVIDED AT THE BOTTOM OF RAMPS AND SHALL BE 72" IN LENGTH WITH LESS THAN 2% SLOPE IN ALL DIRECTIONS.
- RAMPS WITH TURNING PLATFORMS SHALL HAVE LANDINGS 72" IN LENGTH WITH LESS THAN 2% SLOPE IN ALL DIRECTIONS.
- CURB RAMPS SHALL HAVE A MINIMUM 4' LANDING AS WIDE AS THE RAMP AND WITH LESS THAN 2% SLOPE IN ALL DIRECTIONS.
- ALL DRINKING FOUNTAINS SHALL BE ACCESSIBLE AND LOCATED OUT OF THE PATH OF TRAVEL.
- SYMBOL REPRESENTS A 3' X 4' CLEAR SPACE FOR ADA COMPANION SEATING.

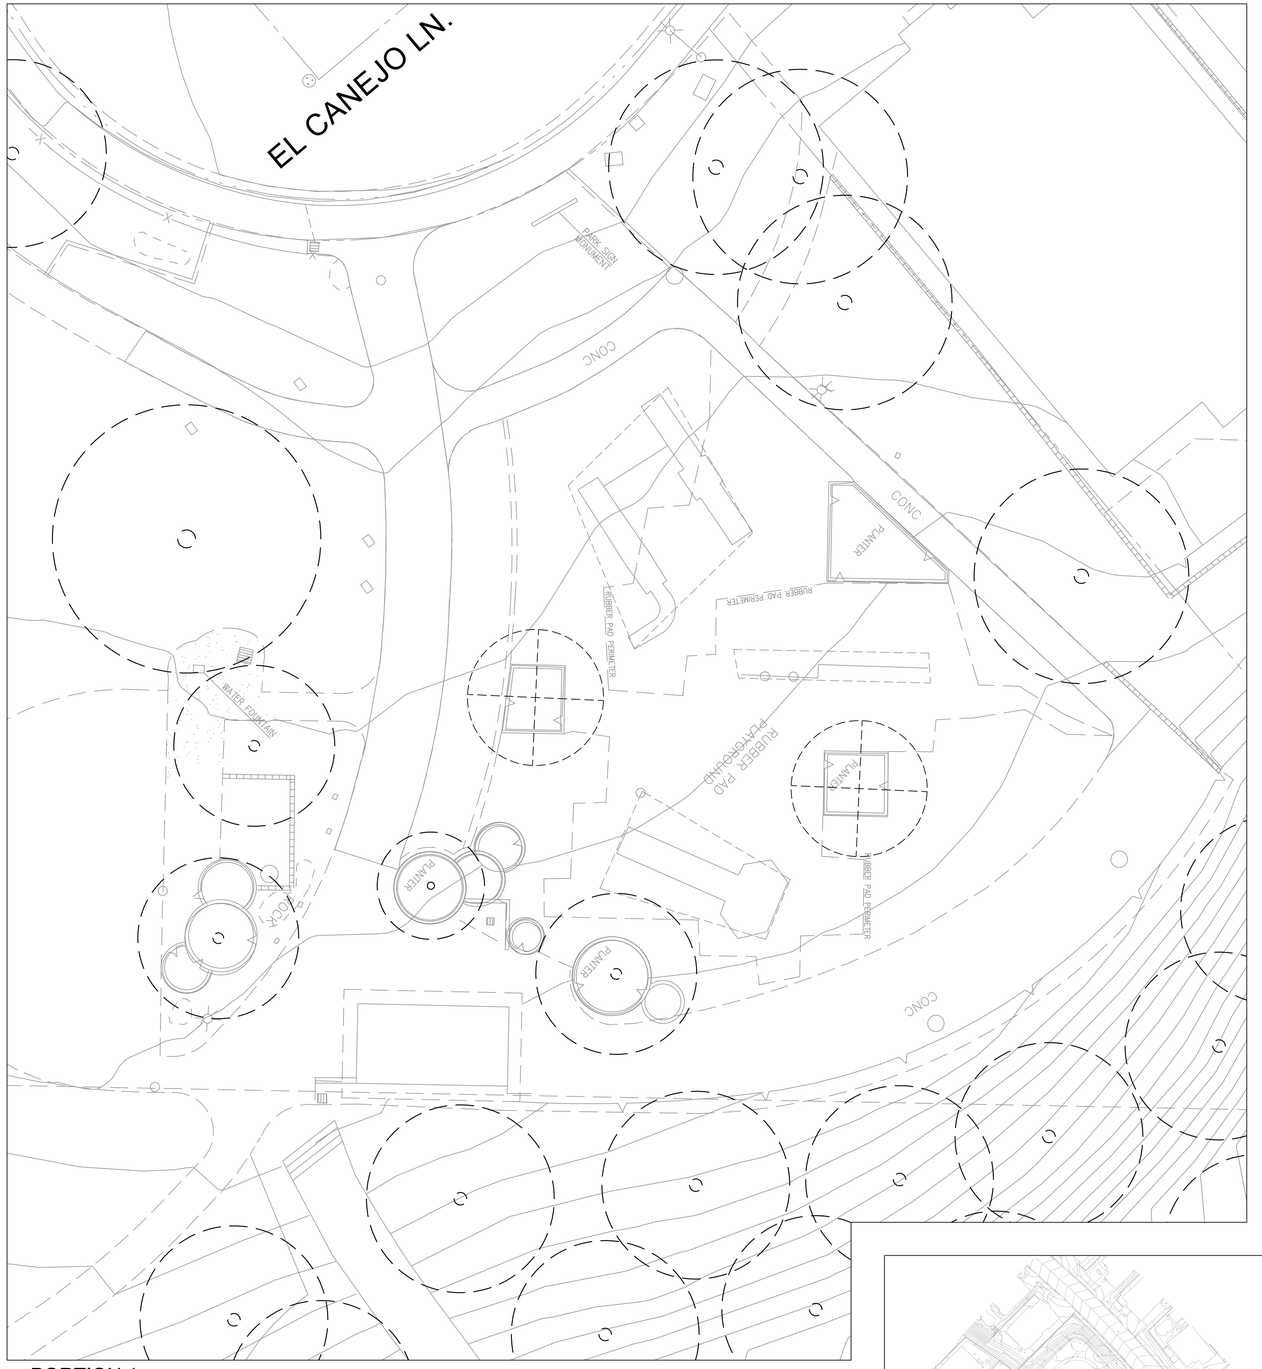
TREE PROTECTION NOTES

1. ALL TREES TO HAVE CONSTRUCTION FENCE THAT MAXIMIZES THE TREE PROTECTION ZONE AND TO THE DRIPLINE AS INDICATED ON PLAN. SEE DETAIL 1, THIS SHEET.
2. ANY TRENCHING WITHIN THAT TREE PROTECTION ZONE WILL BE DONE BY HAND OR BY JACKING AND BORING.
3. NO GRADING OTHER THAN FINE GRADING TO BE DONE WITHIN THE TREE PROTECTION ZONE.
4. NO EQUIPMENT IS TO BE OPERATED OR PARKED UNDER A TREE, NOR ARE ANY MATERIALS TO BE STORED WITHIN THE TREE PROTECTION ZONE AND WITHIN THE DRIPLINE OF A TREE.
5. IRRIGATION MAINLINE SHALL NOT BE INSTALLED WITHIN THE TREE PROTECTION ZONE AND WITHIN THE DRIPLINE OF A TREE.
6. CHEMICAL HERBICIDES SHALL NOT BE USED WITHIN 10 FT. OF TREE'S DRIPLINE.
7. DO NOT NAIL OR STAPLE MATERIALS OR SIGNS TO TREES.
8. AVOID ANY PONDING BY DRAINING LOW POINTS
9. FERTILIZE & WATER TO MINIMIZE SHOCK AS DIRECTED BY CITY ENGINEER AND CITY ARBORIST.
10. PROVIDE BERM AS NEEDED, NO CLOSER THAN DRIP LINE.
11. DURING CONSTRUCTION, TREES SHALL BE MONITORED TO MITIGATE SHOCK SYMPTOMS IF THEY OCCUR. NOTIFY THE CITY ENGINEER AND CITY ARBORIST.
12. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION AND MAINTENANCE OF ALL TREES ON SITE. THE CONTRACTOR SHALL BE RESPONSIBLE FOR WATERING TREES AND WASHING DUST OFF FOLIAGE AS NEEDED.
13. FOR CITY ARBORIST, CONTACT CITY ENGINEER.
14. CONTRACTOR TO COORDINATE WITH CITY ARBORIST TO OBTAIN DIRECTION FOR CARE AND PROTECTION OF ALL HERITAGE TREES DURING CONSTRUCTION. THIS MAY INCLUDE RESTRICTIONS OF MACHINERY SIZE, WEIGHT NEAR TREE ROOT SYSTEMS AND PROVIDING A TEMPORARY IRRIGATION SYSTEM.
15. CONTRACTOR IS TO ALSO ENSURE ALL EXISTING IRRIGATION SYSTEMS OUTSIDE LIMIT OF WORK ARE TO REMAIN OPERATION TO PROTECT ALL LANDSCAPE AND EXISTING TREES WITHIN AND OUTSIDE THE LIMIT OF WORK.



TREE DISPOSITION LEGEND

THE CONTRACTOR WILL BE RESPONSIBLE TO PROTECT THE IDENTIFIED TREES AND TO PROVIDE THE NECESSARY TREE CARE & MAINTENANCE, INCLUDING WATER, DURING CONSTRUCTION. ROOT PRUNING WILL NOT BE PERMITTED UNLESS APPROVED BY THE CITY AND THE ACTION IS TAKEN ONLY WHEN THE CITY REPRESENTATIVE IS PRESENT.

TREE TO BE REMOVED. REMOVE TREE ENTIRELY AND STUMP GRIND TO A DEPTH OF 24" BELOW FINISH GRADE OR TO A DEPTH THAT WILL NOT CONFLICT WITH THE NEW IMPROVEMENTS.

GENERAL NOTES

1. BASE INFORMATION INCLUDING THE LOCATION OF PROPERTY LINES, EASEMENTS, BUILDINGS, ROADS, AND CURBS HAVE BEEN TAKEN FROM THE CIVIL ENGINEER'S DRAWINGS. REFER TO CIVIL ENGINEERING DRAWINGS FOR ADDITIONAL INFORMATION.
2. REFER TO THE CIVIL ENGINEER'S DRAWINGS AND DRY UTILITY DRAWINGS, IF APPLICABLE, INCLUDING STORM DRAIN, SEWER, WATER, ELECTRICAL.
3. VERIFY SITE INFORMATION, INCLUDING PROPERTY LINES, TOP AND BOTTOMS OF SLOPES, ROADWAY CURB, AND GUTTERS, UTILITIES, AND OTHER INFORMATION AFFECTING THE SCOPE OF WORK INCLUDED ON THESE DRAWINGS. IF ACTUAL SITE CONDITIONS VARY FROM WHAT IS SHOWN ON THE LANDSCAPE ARCHITECT'S PLANS, THE CONTRACTOR SHALL CONTACT THE OWNER'S FOR DIRECTION ON HOW TO PROCEED.
4. SITE VISITATION: CONTRACTOR SHALL VISIT THE SITE, EXAMINE EXISTING CONDITIONS FOR THE NEW CONSTRUCTION AND DETERMINE TO ITS SATISFACTION, THE METHODS AND PROCEDURES, REMOVAL AND STORAGE OF MATERIALS, SEQUENCING OF OPERATIONS AND CONDITIONS WHICH AFFECT ITS WORK AND PROBLEMS ATTENDANT HERETO. CONTRACTOR SHALL NOTIFY THE OWNER OF ANY DISCREPANCIES PRIOR TO BIDDING. NO ALLOWANCE WILL BE MADE SUBSEQUENTLY TO THE CONTRACTOR FOR ERRORS THROUGH NEGLIGENCE IN EXAMINING SITE CONDITIONS.
5. BEFORE INSTALLING ALL UNDERGROUND FEATURES (i.e. FENCE FOOTINGS, WALL FOOTINGS, AND SERVICE LINES) VERIFY ALL LOCATIONS OF EXISTING UTILITIES AND COORDINATE WITH CIVIL AND ELECTRICAL DRAWINGS.
6. ALL WALLS, PAVING, AND FENCES SHALL BE INSTALLED IN CONFORMANCE WITH STRUCTURAL ENGINEER'S APPROVED PLANS.
7. CONSTRUCTION SHALL COMPLY WITH THE DRAWINGS OR APPLICABLE BUILDING CODES AND ORDINANCES WHERE THE REQUIREMENTS ARE MORE SPECIFIC OR STRINGENT.
8. COORDINATE WALL, PAVING, MASONRY, WORK WITH ALL DISCIPLINES FOR SLEEVING, CONDUCTS, ANCHOR BOLTS, ETC.
9. ELECTRICAL JUNCTION BOXES FOR LIGHTS AND IRRIGATION VALVE BOXES SHALL BE IN PLANTING AREAS OR AS APPROVED BY OWNER AND LANDSCAPE ARCHITECT. STAKE LOCATIONS BEFORE INSTALLATION FOR OWNER'S AND LANDSCAPE ARCHITECT'S APPROVAL PRIOR TO INSTALLATION.
10. REFERENCES TO NORTH REFER TO TRUE NORTH. REFERENCES TO SCALE IS FOR FULL-SIZED DRAWINGS ONLY. DO NOT SCALE FROM REDUCED DRAWINGS.
11. REFER TO GEOTECHNICAL SOILS REPORT LATEST EDITION FOR PAVING AND CONCRETE PAVER REINFORCEMENT, SUBBASE, AND SUBGRADE TREATMENT.
12. CONTRACTOR SHALL SURVEY PUBLIC RIGHT OF WAY AND PRIVATE LIMIT OF WORK PER THE CIVIL ENGINEER PLANS PRIOR TO BEGINNING CONSTRUCTION. CONTRACTOR SHALL STAKE LIMIT AND LAYOUT OF LANDSCAPE PAVING LIMITS AND OBTAIN APPROVAL FROM OWNER AND LANDSCAPE ARCHITECT PRIOR TO BEGINNING WORK.
13. IT IS THE CONTRACTOR'S RESPONSIBILITY TO PROTECT NEW WORK FROM VANDALISM UNTIL THE IMPROVEMENTS HAVE BEEN ACCEPTED BY THE OWNER AND A NOTICE OF SUBSTANTIAL COMPLETION HAS BEEN FILLED.
14. EXCAVATION IN THE VICINITY OF UTILITIES AND EXISTING MATERIALS SHALL BE UNDERTAKEN WITH CARE. THE CONTRACTOR BEARS FULL RESPONSIBILITY FOR HIS WORK. ANY DAMAGE CAUSED BY ANY PERSON, VEHICLE, EQUIPMENT, OR TOOL RELATED TO THE EXECUTION OF THE CONTRACT SHALL BE REPAIRED IMMEDIATELY AT NO EXPENSE TO THE OWNER.
15. PRIOR TO INSTALLATION OF ANY CONSTRUCTION ITEM, FORMS WITH STEEL IN PLACE AND COMPACTED SUBGRADE COMPLETE, SHALL BE OBSERVED AND REVIEWED BY THE OWNER'S AUTHORIZED REPRESENTATIVE.
16. WRITTEN DIMENSIONS TAKE PRECEDENCE OVER SCALE.
17. WHERE DIMENSIONS ARE CALLED AS "EQUAL", ALL REFERENCED ITEMS SHALL BE SPACED EQUALLY, MEASURED TO THEIR CENTERLINES.

PAVING NOTES

1. ALL DIMENSIONS ARE APPROXIMATE. CONTRACTOR TO VERIFY IN FIELD
2. ALL DIMENSIONS ARE FROM OUTSIDE FACE OF PAVING, CURBS, WALLS, ETC, UNLESS OTHERWISE NOTED ON PLANS.
3. ALL ANGLES TO BE 90 DEGREES AND ALL LINES OF PAVING AND FENCING TO BE PARALLEL UNLESS OTHERWISE NOTED. MAINTAIN HORIZONTAL ALIGNMENT OF ADJACENT ELEMENTS AS NOTED ON THE DRAWINGS.
4. ALL WALKS AND WALLS HAVE SMOOTH, CONTINUOUS CURVES AS INDICATED ON PLANS, UNLESS NOTED OTHERWISE.
5. ALL WALLS, PAVING, AND FENCES SHALL BE INSTALLED IN CONFORMANCE WITH STRUCTURAL ENGINEER'S APPROVED PLANS.
6. PROVIDE ISOLATION TAPE ON ALL STEEL POSTS EMBEDDED INTO CONCRETE.
7. PROVIDE APPROVED JOINTS AS SHOWN ON DRAWINGS. SUBMIT DRAWING INDICATING JOINT LOCATIONS AND DETAIL FOR APPROVAL BY OWNER AND LANDSCAPE ARCHITECT.
8. PROVIDE BUILDING FABRIC ISOLATION JOINT WITH SEALANT WHERE PAVING ABUTS CURBING, BUILDING AND COLUMNS, AND STRUCTURES. VERIFY COLOR OF SEALANT WITH OWNER AND LANDSCAPE ARCHITECT.
9. CONCRETE JOINTING AND FINISHING TO MEET ADA REQUIREMENTS FOR SLIP RESISTANCE AND JOINT WIDTH (3/16" MAX.) OR AS NOTED ON PLANS - 0.6 SLIP RESISTANCE CO-EFFICIENT.

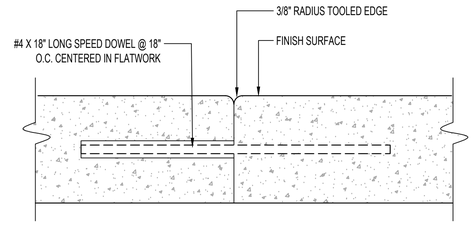
CONSTRUCTION PLAN - ADDITIVE BID



Sheet No
L-302

NOTES:
1. CONSTRUCT A WEAKENED PLANE JOINT 10FT. O.C. AND AN EXPANSION JOINT AT EVERY 30FT. O.C.
2. CONTRACTOR SHALL PROVIDE G-MAX AND TEST RESULTS FOR THE SURFACING MANUFACTURER USED ON THE PROJECT. SURFACING DEPTHS WITHIN THE PLAY EQUIPMENT FALL ZONES SHALL BE PER THE TEST RESULTS FOR THE CRITICAL FALL HEIGHTS OF THE EQUIPMENT BEING INSTALLED.
3. PAVING CONTRACTOR SHALL CONTRACT AND COORDINATE WITH RUBBER SURFACING INSTALLER PRIOR TO INSTALLATION OF CONCRETE SUB-BASE.
4. THE "SBR" DEPTH MAY VARY THROUGHOUT THE PLAYGROUND AND WILL BE BASED UPON THE CRITICAL FALL HEIGHT OF EACH PLAY PIECE. THE CRITICAL FALL HEIGHT SHALL BE CONFIRMED WITH THE MANUFACTURER PRIOR TO THE PLAY SURFACE INSTALLATION.

SPRAY SPRINKLER LEGEND

SYMBOL	MANUFACTURER	MODEL NO.	DESCRIPTION	NOZZLE	NOZZLE COLOR	RADIUS	G.P.M.	P.S.I.	PATTERN	PRECIP RATE
Φ_F	RAIN BIRD*	1806-SAM-PRS-45	6" POP-UP SPRINKLER	R-VAN14-360	LT. BLUE	8' - 14'	1.27	45	360°	0.7
Φ	RAIN BIRD*	1806-SAM-PRS-45	6" POP-UP SPRINKLER	R-VAN14-180	LT. BLUE	8' - 14'	0.63	45	180° - 270°	0.7
Φ_Q	RAIN BIRD*	1806-SAM-PRS-45	6" POP-UP SPRINKLER	R-VAN14-90	LT. BLUE	8' - 14'	0.32	45	90° - 180°	0.7

NOTES:
* WHEN RADIUS OF SPRINKLER HEADS, REQUIRED FOR PROPER COVERAGE, IS LESS THAN RADIUS SHOWN ON LEGEND, EQUIP SPRINKLER HEAD WITH PRESSURE COMPENSATING SCREEN FOR FLOW AND RADIUS CONTROL.

1. SPRINKLER RADIUS ABBREVIATIONS
   F= FULL CIRCLE Q= QUARTER V= VARIABLE
2. INSTALL SPRAY SPRINKLERS PER POP-UP SPRINKLER HEAD DETAIL 8, SHEET L-751.
3. DRAINAGE OF IRRIGATION WATER THROUGH SPRINKLER HEADS WILL NOT BE ALLOWED. SOME SPRINKLER HEADS WILL REQUIRE THE INSTALLATION OF THE SEAL-A-MATIC™ (SAM) CHECK VALVE IN THE SPRINKLER BODY TO PREVENT SPRINKLER HEAD DRAINAGE. DURING THE COURSE OF CONSTRUCTION, INCLUDE THE SAM CHECK VALVE AS REQUIRED TO PREVENT DRAINAGE FROM ANY SPRINKLER HEAD SHOWING SIGNS OF DRAINAGE AFTER THE SYSTEM HAS OPERATED FROM AN ON TO OFF POSITION. PROVIDE THE SAM SERIES SPRINKLERS WHERE DRAINAGE OCCURS AT NO ADDITIONAL COST TO OWNER.
4. REMOVE CONVENTIONAL SCREEN AND REPLACE WITH PRESSURE REDUCTION SCREEN WHERE REQUIRED TO PREVENT OVER-SPRAY ONTO HARDSCAPE.
5. WHERE VERTICAL OBSTRUCTIONS (BOLLARDS, STREET LIGHTS, TREES, ETC.) INTERFERE WITH THE SPRAY PATTERN OF THE SPRINKLER HEADS SO AS TO PREVENT PROPER COVERAGE, FIELD ADJUST THE SPRINKLER SYSTEM BY INSTALLING QUARTER CIRCLE OR HALF CIRCLE SPRINKLER HEAD ON EACH SIDE OF THE OBSTRUCTION SO AS TO PROVIDE PROPER COVERAGE. ALL ADJUSTMENTS SHALL BE MADE AT NO ADDITIONAL COST TO THE OWNER.

EQUIPMENT LOCATION NOTES

1. INSTALL ALL IRRIGATION EQUIPMENT, PRESSURE MAIN LINE PIPING, CONTROLLER WIRING, CONTROL VALVES, ETC. WITHIN PLANTING AREA. ANY IRRIGATION EQUIPMENT INDICATED OUTSIDE OF PLANTING AREA IS SHOWN FOR DRAWING CLARITY AND DESIGN INTENT ONLY.
2. INSTALL IRRIGATION MAIN LINE PIPING IN PLANTING AREA 2-FEET MINIMUM BACK OF HARDSCAPE.
3. PIPING AS SHOWN ON DRAWINGS IS SCHEMATIC AND INDICATES THE INTENT OF IRRIGATION DELIVERY METHODS.
4. IRRIGATION CONTROLLER AND OTHER IRRIGATION EQUIPMENT LOCATIONS SHOWN ON THE DRAWINGS ARE APPROXIMATE. CONTRACTOR SHALL STAKE OUT ALL IRRIGATION EQUIPMENT LOCATIONS FOR REVIEW AND APPROVAL BY THE LANDSCAPE ARCHITECT PRIOR TO INSTALLATION.
5. ELECTRIC CONTROL VALVES, QUICK COUPLING VALVES, AND ISOLATION VALVES, ETC. LOCATIONS INDICATED ON THE DRAWINGS ARE SHOWN AS APPROXIMATE. CONTRACTOR SHALL STAKE OUT EACH VALVE ASSEMBLY FOR REVIEW AND APPROVAL BY THE LANDSCAPE ARCHITECT PRIOR TO INSTALLATION.
6. FINAL LOCATIONS AND EXACT POSITIONING OF IRRIGATION EQUIPMENT ON THE DRAWINGS SHALL BE DETERMINED BY THE LANDSCAPE ARCHITECT. MINOR MODIFICATIONS OF IRRIGATION EQUIPMENT AS REQUESTED BY OWNER OR LANDSCAPE ARCHITECT SHALL BE PROVIDED BY CONTRACTOR AT NO ADDITIONAL COST. FAILURE TO OBTAIN OWNER/ LANDSCAPE ARCHITECT APPROVAL PRIOR TO INSTALLATION SHALL CAUSE CONTRACTOR TO MAKE OWNER/ LANDSCAPE ARCHITECT DIRECTED CHANGES AT NO ADDITIONAL COST.
7. ELECTRIC CONTROL VALVES, QUICK COUPLING VALVES, AND ISOLATION VALVES, ETC. SHALL NOT BE INSTALLED IN TURF. INSTALL IN NEAREST NON-TURF PLANTING AREA.
8. CONTRACTOR SHALL ROUTE PIPING WITH 2-FOOT CLEARANCE AROUND FINAL TREE LOCATIONS.
9. WHERE VERTICAL OBSTRUCTIONS (BOLLARDS, STREET LIGHTS, TREES, ETC.) INTERFERE WITH THE SPRAY PATTERN OF THE SPRINKLER HEADS SO AS TO PREVENT PROPER COVERAGE, FIELD ADJUST THE SPRINKLER SYSTEM BY INSTALLING QUARTER CIRCLE OR HALF CIRCLE SPRINKLER HEAD ON EACH SIDE OF THE OBSTRUCTION SO AS TO PROVIDE PROPER COVERAGE. ALL ADJUSTMENTS SHALL BE MADE AT NO ADDITIONAL COST TO THE OWNER.

IRRIGATION LATERAL PIPE SIZES

IRRIGATION NON PRESSURE LATERAL LINE PIPE

PIPE SIZE	¾"	1"	1-¼"	1-½"	2"	3"
FLOW (GPM)	0 - 8	8 - 12	13 - 22	23 - 30	31 - 50	51 - 150

NOTES:

1. FOR DRAWING CLARITY ALL IRRIGATION LATERAL LINES ARE NOT SIZED, BUT SHALL BE INSTALLED AND INCLUDED AS PART OF THE CONTRACTOR'S BID. ADDITIONALLY, DUE TO THE SCALE OF THE DRAWINGS AND FOR DRAWING CLARITY ALL PIPE SIZES ARE NOT SHOWN.
2. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO FAMILIARIZE ITSELF WITH ALL GRADE DIFFERENCES, LOCATION OF WALLS, RETAINING WALLS, FOOTINGS, ETC. AND COORDINATE ITS WORK WITH OTHER TRADES FOR THE LOCATION AND THE INSTALLATION OF PIPE SLEEVES THROUGH WALLS, UNDER FOOTINGS, UNDER ROADWAYS, UNDER PAVING STRUCTURES, ETC.

IRRIGATION SLEEVE SIZES

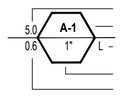
IRRIGATION PIPE

PIPE SIZE	¾"	1"	1-¼"	1-½"	2"	2-½"	3"
SLEEVE SIZE	4"	4"	4"	4"	4"	6"	6"

CONTROL WIRE CONDUIT

WIRE CONDUIT SIZE	2" MIN.	2-½"	3"	4"
NUMBER OF CONTROL AND COMMON WIRES IN CONDUIT	0-16	17-24	25-40	41-48

NOTES:



1. PIPE SLEEVES AND CONTROL WIRE CONDUITS ARE REQUIRED FOR ALL IRRIGATION PIPING AND CONTROL WIRES INSTALLED UNDER PAVING. REFER TO IRRIGATION SLEEVE SIZES CHART FOR IRRIGATION SLEEVE SIZE AND TO CONTROL WIRE SIZING CHART FOR CONTROL WIRE SLEEVE SIZE - TYP.
2. FOR DRAWING CLARITY ALL IRRIGATION SLEEVES ARE NOT SIZED, BUT SHALL BE INSTALLED AND INCLUDED AS PART OF THE CONTRACTOR'S BID. ADDITIONALLY, DUE TO THE SCALE OF THE DRAWINGS AND FOR DRAWING CLARITY ALL SLEEVES AND CONDUITS ARE NOT SHOWN. THEREFORE, IN ADDITION TO THE PIPE SLEEVE AND CONTROL WIRE CONDUITS SHOWN ON THE DRAWINGS, THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE INSTALLATION OF IRRIGATION PIPE SLEEVES AND CONTROL WIRE CONDUITS SLEEVES OF SUFFICIENT SIZE UNDER ALL PAVED AREAS.
3. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO FAMILIARIZE ITSELF WITH ALL GRADE DIFFERENCES, LOCATION OF WALLS, RETAINING WALLS, FOOTINGS, ETC. AND COORDINATE ITS WORK WITH OTHER TRADES FOR THE LOCATION AND THE INSTALLATION OF PIPE SLEEVES THROUGH WALLS, UNDER FOOTINGS, UNDER ROADWAYS, UNDER PAVING STRUCTURES, ETC.

Sheet Title
IRRIGATION LEGEND AND NOTES

Sheet No
L-700A

DRIP IRRIGATION NOTES - POTABLE WATER

1. PROVIDE DRIPLINE EMITTER TUBING SYSTEM FOR PLANTING AREAS AS SHOWN ON DRAWINGS.
2. DRIPLINE IS SHOWN SCHEMATICALLY FOR CLARITY. INSTALL DRIPLINE TUBING AND NON-PRESSURE LATERAL LEAD LINE PIPING IN LANDSCAPE AREAS AND ADJACENT TO SELECTED PLANT MATERIAL AS SHOWN IN DETAILS.
3. DRIPLINE VALVE STATION CALLOUTS INDICATE THE APPROXIMATE SIZE OF THE DRIPLINE AREA OF COVERAGE ASSIGNED TO EACH VALVE. THE APPROXIMATE LENGTH OF DRIPLINE TUBING ASSIGNED TO EACH VALVE STATION IS PROVIDED FOR ESTIMATE PURPOSES ONLY. CONTRACTOR SHALL PROVIDE AND INSTALL THE REQUIRED AMOUNT OF DRIPLINE TUBING AS REQUIRED TO PROPERLY IRRIGATE ASSIGNED LANDSCAPE AREAS WITH THE EMITTER SPACING AND DRIPLINE TUBING ROW SPACING AS INDICATED IN THE EQUIPMENT LEGEND ON SHEET L-700A.
4. REFER TO PLANTING LEGEND FOR PLANT MATERIAL NAMES, ABBREVIATIONS, SPECIFIC SIZES, ON-CENTER SPACING, AND ADDITIONAL INFORMATION.
5. DO NOT INSTALL DRIPLINE TUBING UNDER PAVED SURFACES. CONNECT DRIPLINE TUBING TO SCHEDULE 40 PVC LATERAL LINE PIPING FOR ROUTING UNDER PAVED SURFACES AND SCHEDULE 80 PVC PIPING ROUTING THROUGH PLANTER WALLS. ADAPT DRIPLINE TUBING TO PVC PIPING AS REQUIRED WITH COMPRESSION ADAPTER FITTINGS.
6. CONNECT DRIPLINE PIPING TO PRESSURE REGULATOR UNITS WITH SCHEDULE 40 PVC MALE ADAPTER FITTINGS AND COMPRESSION ADAPTER FITTINGS.
7. PROVIDE COMPRESSION SERIES FITTINGS FOR TUBING TO TUBING CONNECTIONS AND CONNECTIONS TO PVC PIPING AS INDICATED IN THE EQUIPMENT LEGEND ON SHEET L-700A.
8. PROVIDE ONE (1) EMISSION OUTLET EMITTER TO EVERY VINE LOCATED WITHIN DRIPLINE AREA, SPACED AT 6-INCHES CLEAR FROM STEM. CONNECT DRIP EMITTERS AND PVC DISTRIBUTION TUBING TO DRIPLINE TUBING WITH BARBED ADAPTERS AT LOCATION WHERE REQUIRED.

IRRIGATION DESIGN INTENT

1. THIS IRRIGATION SYSTEM IS DESIGNED FOR USE WITH POTABLE WATER.
2. THE LANDSCAPE CONTRACTOR TO PROVIDE A COMPLETE NEW AND AUTOMATIC IRRIGATION SYSTEM WITH 100% IRRIGATION COVERAGE FOR EL CONEJO PARK LANDSCAPE.
3. IRRIGATION SYSTEM TO BE DESIGNED TO NOT ALLOW OVER-SPRAY OR EXCESS RUNOFF ONTO IMPERVIOUS SURFACES.
4. PLANTS SELECTED FOR HARDINESS AND LOW WATER REQUIREMENTS.

IRRIGATION SYSTEM DESCRIPTION - POTABLE WATER

1. LANDSCAPE WATER USE SHALL COMPLY WITH THE CITY'S WATER EFFICIENCY ORDINANCE AND LANDSCAPE WATER CONSERVATION STANDARDS. THIS PROJECT IS CURRENTLY ESTIMATED TO BE OPERATING AT XX% UNDER THE MAXIMUM ANNUAL WATER ALLOWANCE (MAWA).
2. NEW IRRIGATION SYSTEM IMPROVEMENTS ARE SUPPLIED WITH POTABLE WATER. A DEDICATED POTABLE WATER POINT-OF-CONNECTION WITH A EXISTING BACKFLOW PREVENTER, MASTER VALVE AND FLOW SENSOR TO PROVIDE IRRIGATION WATER TO LANDSCAPE PLANTING AREAS.
3. LANDSCAPE AREAS ARE IRRIGATED WITH NEW HIGH EFFICIENCY DRIPLINE EMITTER TUBING ON SEPARATE LANDSCAPE HYDROZONES WHERE SHOWN. LANDSCAPE SHRUB AREAS ARE IRRIGATED WITH DRIPLINE EMITTER TUBING IN ADDITION TO SUPPLEMENTAL POINT-TO-POINT DRIP EMITTERS FOR VINES. TURF IS IRRIGATED WITH HIGH-EFFICIENT OSCILLATING SPRAY NOZZLES THAT COMPLY WITH THE AGENCY WATER EFFICIENCY ORDINANCE.
4. BALL VALVES ARE LOCATED THROUGHOUT THE SYSTEM TO PROVIDE FOR PARTIAL SHUTDOWN OF THE SYSTEM.

IRRIGATION WATER USE CALCULATIONS - POTABLE WATER

Model Water Efficient Landscape Ordinance (MWELO) Worksheet

El Canejo Park - Laguna Hills, CA

Point-of-Connections: System 'A'

Maximum Applied Water Allowance (MAWA)

Total MAWA = (ETo)(0.62)[(ETAF)(LA)+(1-ETAF)(SLA)= Gallons per Year for LA+SLA

Where:
MAWA = Maximum Applied Water Allowance (gallons per year)
EAWU = Estimated Applied Water Use (gallons per year)
ETo = Reference Evapotranspiration (43.2 inches per year)
0.45 = ET Adjustment Factor (ETAF)
1.00 = ET Adjustment Factor (ETAF) for Special Landscape Area
LA = Landscape Area (square feet)
0.62 = Conversion factor (to gallons per square foot)
SLA = Special Landscape Area (square feet)
Billing Unit = 1 Hundred Cubic feet (HCF) or 748 gallons

Maximum Applied Water Allowance (MAWA):

	ETo		ETAF		LA or SLA (SF)		Conversion	MAWA (Gallons Per Year)
MAWA for LA =	43.2	x	0.45	x	3,440	x	0.62	41,462
MAWA for SLA =	43.2	x	1.00	x	796	x	0.62	21,320
Total Landscape Area (SF) =					4,236	Total MAWA =		62,782 gallons per year
						=		84 Billing units

Estimated Applied Water Use (EAWU):

PF = Plant Factor (range = 0.0 to 1.0)
LA = Landscape Area (square feet)
0.62 = Conversion factor (to gallons per square foot)
IE = Irrigation Efficiency = IME x DU
Kd = Density Factor (range = 0.5 to 1.3) (See WUCOLS for density ranges)
Kmc = Microclimate Factor (range = 0.5 to 1.4) (See WUCOLS for density ranges)

EAWU = [(ETo)(0.62)][(PF/IE x LA/IE) + SLA] = Gallons per Year

	ETo		PF		LA		Conversion		IE		ETWU (Gallons Per Year)
Special Landscape Area	43.2	x	1.0	x	796	x	0.62	÷	1.00	=	21,320
Cool Season Turf (spray)	43.2	x	0.8	x	0	x	0.62	÷	0.75	=	0
Moderate Using Shrub (drip)	43.2	x	0.5	x	0	x	0.62	÷	0.81	=	0
Low Using Shrub (drip)	43.2	x	0.3	x	3,344	x	0.62	÷	0.81	=	33,172
Moderate Using Trees (6 ea.)	43.2	x	0.4	x	96	x	0.62	÷	0.75	=	1,371
Water Feature/ Pool	43.2	x	0.8	x	0	x	0.62	÷	0.75	=	0
					4,236 SF			Total EAWU		=	55,864 gallons per year
										=	75 Billing units

The EAWU (55,864 gallons per year) is less than the MAWA (62,782 gallons per year).
The project's Landscape Estimate of Applied Water Use complies with the City's Water Efficient Landscape Ordinance.

IRRIGATION GENERAL NOTES - POTABLE WATER

1. THIS IRRIGATION SYSTEM IS DESIGNED FOR USE WITH POTABLE WATER.
2. INSTALL POP-UP SPRINKLER HEADS POSITIONED WITHIN SHRUB OR GROUND COVER AREAS WITH THE TOP OF SPRINKLER ABOVE FINISH GRADE AS SHOWN IN THE DETAILS.
3. SET SPRINKLER HEADS PERPENDICULAR TO FINISH GRADE OF AREA TO BE IRRIGATED UNLESS INDICATED OTHERWISE ON DRAWINGS.
4. WHEN VERTICAL OBSTRUCTIONS (SITE HARDSCAPE ELEMENTS, FIRE HYDRANTS, TREES, LIGHT POLES, ETC.) INTERFERE WITH THE SPRINKLER HEAD PATTERN OF COVERAGE, ADJUST SPRINKLER SYSTEM LAYOUT BY INSTALLING A QUARTER CIRCLE, HALF CIRCLE OR ADJUSTABLE CIRCLE SPRINKLER HEAD ON EACH SIDE OF OBSTRUCTION IN ORDER TO PROVIDE PROPER COVERAGE. PERFORM SPRINKLER LAYOUT ADJUSTMENT AT NO COST TO THE OWNER.
5. SPRINKLER SYSTEM IS BASED ON MINIMUM PRESSURE AND MAXIMUM FLOW DEMAND SHOWN ON IRRIGATION DRAWINGS. REFER TO POINT-OF-CONNECTION NOTES. VERIFY PERMANENT WATER PRESSURE BEFORE THE START OF CONSTRUCTION. REPORT DIFFERENCES BETWEEN WATER PRESSURE INDICATED ON DRAWINGS AND ACTUAL SITE PRESSURE READING AT IRRIGATION POINT-OF-CONNECTION TO OWNER'S AUTHORIZED REPRESENTATIVE FOR RESOLUTION. IN THE EVENT PRESSURE DIFFERENCES ARE NOT REPORTED PRIOR TO START OF CONSTRUCTION, THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR REVISIONS.
6. THIS IRRIGATION DESIGN IS SCHEMATIC. PIPING, VALVES, ETC. SHOWN WITHIN PAVED AREAS ARE FOR DESIGN CLARIFICATION ONLY. INSTALL PIPING AND IRRIGATION FACILITIES WITHIN PLANTING AREAS WHERE POSSIBLE. AVOID CONFLICTS BETWEEN SPRINKLER SYSTEM, LANDSCAPE PLANTING, SITE IMPROVEMENTS, AND ARCHITECTURAL FEATURES.
7. FLUSH AND ADJUST SPRINKLER HEADS FOR OPTIMUM PERFORMANCE. PREVENT OVERSPRAY ONTO WALKS, ROADWAYS, WALLS, FENCES AND BUILDINGS. SELECT THE MOST APPROPRIATE PART CIRCLE PATTERN NOZZLE TO FIT THE SITE CONDITIONS AND THROTTLE THE FLOW CONTROL ADJUSTMENT AT EACH CONTROL VALVE TO OBTAIN OPTIMUM SPRINKLER HEAD PRESSURE.
8. DO NOT WILLFULLY INSTALL SPRINKLER SYSTEM AS INDICATED ON DRAWINGS WHEN IT IS OBVIOUS IN THE FIELD THAT EXISTING OBSTRUCTIONS, GRADE DIFFERENCES IN AREA DIMENSIONS, AND OTHER SITE SPECIFIC INFORMATION THAT MIGHT NOT HAVE BEEN CONSIDERED DURING DESIGN. NOTIFY THE OWNER'S AUTHORIZED REPRESENTATIVE OF SUCH OBSTRUCTIONS OR DIFFERENCES FOR RESOLUTION. IN THE EVENT THIS NOTIFICATION IS NOT PERFORMED, THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR REVISIONS.
9. IT IS THE CONTRACTOR'S RESPONSIBILITY TO BECOME FAMILIAR WITH GRADE DIFFERENCES, WALL/HARDSCAPE LOCATIONS, ETC. COORDINATE WORK FOR THE INSTALLATION OF IRRIGATION PIPE SLEEVES THROUGH WALLS, UNDER PAVEMENT AND STRUCTURES, ETC.
10. CONTRACTOR IS RESPONSIBLE FOR THE INSTALLATION OF SUFFICIENTLY SIZED SLEEVES FOR CONTROL WIRES AND NON-PRESSURE LATERAL LINE PIPING UNDER PAVED AREAS, IN ADDITION TO CONTROL WIRES AND LATERAL LINE PIPING SLEEVES SHOWN ON THE DRAWINGS.
11. INSTALL PIPING, RELATED MATERIALS AND EQUIPMENT AS SHOWN ON THE DRAWINGS. USE TEFLON TAPE ON PVC MALE PIPE THREADS, INCLUDING SPRINKLER SWING JOINT AND VALVE ASSEMBLIES. DO NOT USE PIPE DOPE.
12. TEST ALL PRESSURE MAIN LINES UNDER HYDROSTATIC PRESSURE OF 150 PSI FOR A PERIOD OF 3 HOURS. TESTING OF PRESSURE MAIN LINE PIPING SHALL OCCUR PRIOR TO THE INSTALLATION OF ANY ELECTRIC CONTROL VALVE, BASKET STRAINERS, QUICK COUPLING VALVES AND OTHER PRESSURE-SIDE IRRIGATION FACILITIES. PRESSURE TESTING RESULTS, IN WRITING, SHALL BE SUBMITTED TO OWNER'S AUTHORIZED REPRESENTATIVE PRIOR TO BACKFILLING.
13. THE ESTABLISHMENT OF AUTOMATIC SEASONAL ADJUSTMENTS AND BASIC CONTROLLER PROGRAMMING IS THE RESPONSIBILITY OF THE CONTRACTOR. MAKE ARRANGEMENTS WITH THE APPROPRIATE FIELD TECHNICIAN FOR A SITE VISIT ON INSTRUCTION OF ESTABLISHING AUTOMATIC CONTROLLER BASIC PROGRAMMING INFORMATION AND AUTOMATIC SEASONAL SCHEDULING. CONTROLLER PROGRAMMING INFORMATION REQUIRED INCLUDES, BUT IS NOT LIMITED TO; PRECIPITATION RATES, PLANT WATER-USE FACTORS, SYSTEM EFFICIENCY RATINGS, FLOW SENSOR CALIBRATION, AND MONTHLY HISTORIC DATA.

IRRIGATION MAINTENANCE SCHEDULE

1. LANDSCAPES SHALL BE MAINTAINED TO ENSURE WATER EFFICIENCY. A REGULAR MAINTENANCE SCHEDULE SHALL INCLUDE BUT NOT BE LIMITED TO CHECKING, ADJUSTING, AND REPAIRING IRRIGATION EQUIPMENT; RESETTING REPLENISHING MULCH; FERTILIZING; PRUNING; AND WEEDING IN ALL LANDSCAPE AREAS.
2. WHENEVER POSSIBLE, REPAIR OF THE IRRIGATION EQUIPMENT SHALL BE DONE WITH THE ORIGINALLY SPECIFIED MATERIALS OR THEIR EQUIVALENT SPECIFICATION.

IRRIGATION AUDIT SCHEDULE

1. AT A MINIMUM, AUDITS SHALL BE IN ACCORDANCE WITH THE STATE OF CALIFORNIA LANDSCAPE AUDITOR HANDBOOK.
2. AUDITS SHALL BE CONDUCTED BY A STATE CERTIFIED LANDSCAPE IRRIGATION AUDITOR AT LEAST ONCE EVERY FIVE YEARS AND SUBMITTED TO THE LOCAL WATER PURVEYOR.

SOIL SPECIFICATION/ ANALYSIS SAMPLE

1. PROVIDE SOIL SPECIFICATIONS OF IMPORT SOIL OR PROVIDE SOIL ANALYSIS IF USING ON SITE SOIL. THE SOIL INFORMATION MUST INCLUDE: SOIL TEXTURE (% OF ORGANIC MATTER), INFILTRATION RATE (OR ESTIMATED RANGE), PH & TOTAL SOLUBLE SALTS, INDICATE IF MULCH, SOIL AMENDMENTS OR OTHER MATERIAL WILL BE USED OR REQUIRED.

IRRIGATION CONSTRUCTION MODIFICATION NOTES

1. THE CONTRACTOR SHALL ENSURE THE FUNCTIONALITY/ OPERABILITY OF THE EXISTING IRRIGATION SYSTEM PRIOR TO ANY CONSTRUCTION. WHERE THE NEW IMPROVEMENTS IMPACT THE PERFORMANCE OF THE EXISTING IRRIGATION SYSTEM THE CONTRACTOR SHALL BE RESPONSIBLE TO REPAIR/ RELOCATE EXISTING NON-PRESSURE LATERAL LINES AND POP-UP SPRAY/ OVERHEAD IRRIGATION. THE MODIFICATION OF THE EXISTING IRRIGATION SYSTEM SHALL BE INSTALLED TO PROVIDE HEAD TO HEAD 100% COVERAGE WITH MINIMAL OVERSPRAY ONTO WALKS, SIGNS, AND HARDSCAPE. WHERE EXISTING VALVES SERVING TURF IRRIGATION ARE TO REMAIN, THE CONTRACTOR IS RESPONSIBLE FOR PROVIDING NEW IRRIGATION HEADS/ ROTORS, NOZZLES, PRESSURE MAINLINE AND NON-PRESSURE LATERAL LINE PIPE TO ENSURE FUNCTIONALITY OF THE SYSTEM.
2. SECURE PERMISSION FROM THE OWNER AND PARK MAINTENANCE STAFF TO SHUT OFF THE IRRIGATION WATER SUPPLY TO PORTIONS OF THE SITE. IN THE EVENT THAT IT IS NECESSARY CONTRACTOR TO PROVIDE HAND WATERING OR ALTERNATIVE METHODS TO IRRIGATE EXISTING PLANTING AREAS SERVED BY THE AFFECTED PORTION OF THE IRRIGATION SYSTEM.
3. CONTRACTOR TO LOCATE AND FIELD VERIFY EXISTING RECYCLED WATER BACKFLOW PREVENTER ASSEMBLY FOR EXISTING IRRIGATION SYSTEM AND IRRIGATION SYSTEM IMPROVEMENTS, NOT SHOWN ON PLANS. CONTRACTOR TO VERIFY EXISTING BACKFLOW PREVENTER ASSEMBLIES ARE INSTALLED PER CODE AND REQUIRE NO SERVICE OR REPAIR THAT WOULD PREVENT INSTALLATION OR CONNECTION PER PLAN.
4. CONTRACTOR TO LOCATE AND INTERCEPT EXISTING LATERAL LINE PIPING AND CONNECT NEW LATERAL LINE PIPING TO ENSURE 100% IRRIGATION COVERAGE AT EXISTING TURF AREAS.
5. REPAIR DAMAGE TO EXISTING PLANTING AREA FINISH GRADES CAUSED BY LANDSCAPE CONSTRUCTION OPERATIONS. PROVIDE ADDITIONAL SOIL COMPACTION AS REQUIRED TO REPAIR THE SETTLING OF GRADES TO THE SATISFACTION OF THE LANDSCAPE ARCHITECT AND OWNER.
6. REPLACE AND / OR REPAIR DAMAGE TO EXISTING IRRIGATION SYSTEM CAUSED BY INSTALLATION OF NEW IRRIGATION SYSTEM.
7. CONTRACTOR TO VERIFY AND PROVIDE WRITTEN REPORT TO OWNER THAT EXISTING SYSTEM IS IN PROPER WORKING ORDER REQUIRING NO REPAIRS PRIOR TO CONNECTION OF NEW IMPROVEMENTS.
8. ANY DAMAGE TO LANDSCAPE OR IRRIGATION OUTSIDE THE LIMITS OF WORK SHALL BE REPAIRED AT THE CONTRACTOR'S EXPENSE.

PLANTING NOTES

1. ALL LOCAL, MUNICIPAL, COUNTY AND STATE LAWS, RULES, AND REGULATIONS GOVERNING OR RELATING TO ANY PORTION OF THIS WORK ARE HEREBY INCORPORATED INTO AND MADE PART OF THE PROJECT PLANS AND SPECIFICATIONS; AND THEIR PROVISIONS SHALL BE CARRIED OUT BY THE CONTRACTOR. ADDITIONALLY, ALL WORK SHALL BE DONE IN ACCORDANCE WITH THE APPLICABLE SECTIONS OF THE LATEST EDITION OF THE APWA, STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, ("GREEN BOOK"), AND THE PROJECT SPECIFICATIONS. WHENEVER SPECIAL REQUIREMENTS CONFLICT ON ANY SUBJECT MATTER, THE CITY ENGINEER, OR HIS/HER DESIGNATED REPRESENTATIVE, WILL DETERMINE WHICH SPECIAL REQUIREMENTS AND/OR CODES SHALL GOVERN.

2. ALL EXISTING LANDSCAPE AREAS DAMAGED DURING CONSTRUCTION MUST BE RESTORED TO THEIR ORIGINAL CONDITION AT THE CONTRACTOR'S EXPENSE. RESTORATION OF EXISTING LANDSCAPE AREAS SHALL BE DONE TO THE SATISFACTION OF THE CITY ENGINEER.

3. THE CONTRACTOR SHALL NOTIFY UNDERGROUND SERVICE ALERT OF SOUTHERN CALIFORNIA (DIG ALERT) AT LEAST TWO (2) WORKING DAYS BEFORE DIGGING, EXCAVATING, OR CONSTRUCTION. PHONE 1-800-422-4333 OR 811.

4. THE CONTRACTOR SHALL NOT PROCEED WITH CONSTRUCTION AS SHOWN ON THE PLANS WHEN IT IS OBVIOUS IN THE FIELD THAT UNKNOWN OBSTRUCTIONS, GRADE DIFFERENCES, OR DISCREPANCIES IN AREA CONFIGURATION OR SIZES, OR IN DIMENSIONS EXIST THAT MIGHT NOT HAVE BEEN CONSIDERED DURING THE DESIGN PROCESS. SUCH OBSTRUCTIONS, OR DIFFERENCES, SHOULD BE BROUGHT TO THE ATTENTION OF THE CITY ENGINEER, OR HIS/HER DESIGNATED REPRESENTATIVE. IN THE EVENT THIS NOTIFICATION IS NOT PERFORMED, THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR ANY REVISIONS NECESSARY AND SHALL PERFORM SUCH REVISIONS AT HIS/HER OWN EXPENSE.

5. FINISH GRADE ALL PLANTING AREAS TO ACHIEVE A MINIMUM 2% DRAINAGE AND SMOOTH AND EVEN CONDITION, MAKING SURE THAT NO WATER POCKETS OR IRREGULARITIES REMAIN. REMOVE AND DISPOSE OF ALL SURFACE STONES, ROOTS, WEEDS, DEBRIS, FOREIGN MATERIALS, CLODS, AND ROCKS OVER (1) INCH IN DIAMETER SO THAT AFTER CONDITIONING AND PLANTING THE GRADE IS 1" AT TURF/2" AT PLANTING AREAS BELOW ADJACENT HARDSCAPE EXCEPT ALONG CURB CUT AREAS. CONTRACTOR IS TO ENSURE A SMOOTH TRANSITION FROM EXISTING TO NEW GRADE.

6. SOIL TO BE REMOVED IN PLANTING AREA IS TO BE DISPOSED OF LEGALLY OFF-SITE.

7. ALL NURSERY STOCK IS TO COMPLY TO THE INDUSTRY STANDARD IN TERMS OF HEALTH, STRUCTURE, HEIGHT/WIDTH, ROOT CONDITION AS OUTLINED IN THE PDF LOCATED ONLINE HERE: https://www.urbantree.org/PDF/NURSERYTREESPECS1.PDF ANY PLANT MATERIAL THAT DOES NOT COMPLY IS SUBJECT TO REJECTION BY THE CITY OR LANDSCAPE ARCHITECT AT NO COST TO THE OWNER. ANY REJECTED MATERIAL MUST BE REPLACED WITH COMPLIANT MATERIAL AT THE COST OF THE CONTRACTOR.

8. PROVIDE MATCHING FORMS AND SIZES FOR ALL PLANT MATERIAL WITHIN EACH SPECIES AND SIZE DESIGNATED ON THE DRAWINGS, UNLESS OTHERWISE NOTED BY THE LANDSCAPE ARCHITECT PRIOR TO PROCUREMENT.

9. STAKE TREES AS INDICATED PER TREE PLANTING DETAIL.

10. THE CONTRACTOR IS RESPONSIBLE FOR COUNT VERIFICATION AND IS TO SUPPLY THE QUANTITIES DELINEATED GRAPHICALLY ON PLANS.

11. PLANT ESTABLISHMENT AND MAINTENANCE PERIOD SHALL BEGIN IMMEDIATELY AFTER INSPECTION AND ACCEPTANCE OF THE WORK BY THE CITY ENGINEER, OR HIS/HER DESIGNATED REPRESENTATIVE. PLANT ESTABLISHMENT AND MAINTENANCE PERIOD SHALL BE FOR A DURATION STATED IN THE SPECIFICATIONS. PLANT ESTABLISHMENT AND MAINTENANCE SHALL BE PERFORMED PER THE PROJECT SPECIFICATIONS.

12. SUPPLEMENTAL HAND WATERING MAY BE REQUIRED DURING THE MAINTENANCE PERIOD TO ESTABLISH PLANT MATERIAL.

13. PLACE WOOD CHIP MULCH IN ALL PLANTED AREAS AT A MINIMUM DEPTH OF 3-INCHES. MULCH TO BE SHREDDED BARK MULCH, DARK BROWN AESTHETIC APPEARANCE DO NOT INSTALL MULCH WITHIN A 6" DIA. OF ANY TREE OR SHRUB TRUNK. CONTRACTOR TO PROVIDE A SAMPLE MULCH FOR THE REVIEW AND APPROVAL PRIOR TO INSTALLATION. REFER TO SPECIFICATIONS.

AGRONOMIC SOILS TESTING NOTES

1. UPON THE COMPLETION OF DEMOLITION AND GRADING AND PRIOR TO THE INSTALLATION OF THE IRRIGATION SYSTEM, THE CONTRACTOR SHALL BE RESPONSIBLE TO PROVIDE TWO (2) SOIL SAMPLES TAKEN AT TWO (2) SEPARATE LOCATIONS APPROVED BY THE LANDSCAPE ARCHITECT.

TWO (2) SOIL SAMPLES SHALL BE TAKEN AT EACH LOCATION:

SAMPLE ONE: TAKEN AT GROUND LEVEL TO 10" DEEP
SAMPLE TWO: TAKEN AT A DEPTH BETWEEN 24" TO 36" .

EACH SAMPLE SHALL CONTAIN APPROXIMATELY 1 QUART OF SOIL AND BE LABELED PER LOCATION AND DEPTH.

2. EACH SAMPLE SHALL BE TESTED FOR SOIL FERTILITY AND AGRICULTURAL SUITABILITY. SUBMIT SOIL REPORT, INCLUDING RECOMMENDATIONS SOIL PREPARATION FOR BACKFILL MIX AND LAWN INSTALLATION.

A. SOIL TESTING RESULTS SHALL BE SUBMITTED AND APPROVED BY THE LANDSCAPE ARCHITECT.
B. SOIL PREPARATION AND BACKFILL MIX SHALL CONFORM TO THE RECOMMENDATIONS OF THE AGRONOMIC SOILS REPORT.
C. REFER TO PLANTING SPECIFICATIONS FOR SOILS TESTING, SOIL PREPARATION, FERTILIZATION, MULCHING, AND OTHER ADDITIONAL PLANTING INFORMATION. ALL PLANT MATERIAL SHALL BE APPROVED BY THE LANDSCAPE ARCHITECT AND CITY ENGINEER PRIOR TO INSTALLATION.

PRESERVATION / RELOCATION NOTES

1. SEE SHEET L-250 FOR LOCATION OF EXISTING TREES TO BE PROTECTED/DEMO.
2. CONTRACTOR TO CONFIRM HEDGE AND SHRUBS LIMIT TO REMAIN WITH LANDSCAPE ARCHITECT IN FIELD PRIOR TO DEMOLITION OPERATIONS.
3. CONTRACTOR TO CONFIRM TREES TO REMAIN WITH LANDSCAPE ARCHITECT IN FIELD PRIOR TO DEMOLITION OPERATIONS.
4. CONTRACTOR IS RESPONSIBLE FOR THE HEALTH AND CARE OF THE TREES. IN THE EVENT OF DAMAGE OR DEATH OF THE TREE DURING CONSTRUCTION, CONTRACTOR TO REPLACE WITH EQUAL MATCHING SPECIMEN.
5. ALL TREES TO BE HAND WATERED AS NEEDED AND SPRAYED CLEAN OF DUST WEEKLY FOR THE DURATION OF THE PROJECT.

CITY OF LAGUNA HILLS
NOTICE INVITING BIDS FOR CONSTRUCTION OF

EL CONEJO PARK REHABILITATION

NOTICE IS HEREBY GIVEN that sealed bids for the **EL CONEJO PARK REHABILITATION** ("Project") in the City of Laguna Hills will be received at the Office of the City Engineer of the 24035 El Toro Road, Laguna Hills, until **3:00 p.m. on Tuesday, June 2, 2026**, at which time they will be publicly opened and read aloud.

PRE-BID MEETING: A pre-bid meeting will be held at the Project site on **Tuesday, May 19, 2026 at 10:30 a.m.** ***Site Address: 25601 El Conejo Lane, Laguna Hills, California 92653.*** The meeting is **not mandatory** but attendance is highly encouraged.

DESCRIPTION OF THE WORK: In general, the work is comprised of public works construction including playground renovation, ada improvements, drinking fountain replacement and new park sign, and other miscellaneous improvements as shown on the plans and as required to complete the work.

AWARD OF CONTRACT: The City reserves the right after opening bids to reject any or all bids, to waive any informality (non-responsiveness) in a bid, or to make award to the lowest responsive, responsible bidder**,** and reject all other bids, as it may best serve the interest of the City. Within three (3) business days of bid opening, contractor must submit a revised bid bond with numerical dollar values, both in words and with digits of bid amount. Within five (5) working days after the date of the Notice of Apparent Low Bidder, the successful bidder will be required to submit required Contract Agreement and Insurance. Within ten (10) working days after the date of the Notice of Award, the successful bidder will be required to submit Bonds (Faithful Performance and Material and Labor), Construction Schedule, Traffic Control Plan, and Water Pollution Control Plan.

CONTRACTOR'S LICENSE CLASSIFICATION: The Contractor shall possess a valid **Class A Contractor's License**, or a combination of Class C Contractor's Licenses as necessary to perform the work, at the time of submitting bids, in accordance with provisions of Chapter 9, Division III of the California Business and Professions Code.

WAGE RATE REQUIREMENTS: The wage rates applicable to this Project are the State of California Department of Industrial Relations prevailing rates of per diem wages. In accordance with the provisions of Sections 1773.2 of the California Labor Code, copies of the general prevailing rate of per diem wages as determined by the State Director of Industrial Relations are available at City Hall, which shall be made available to any interested party upon request, or on the Internet at the State Department of Industrial Relations website (www.dir.ca.gov) under Statistics and Research. It shall be mandatory upon the Contractor to whom the contract is awarded and upon any subcontractor to pay not less than said specified rates to all workers employed by them in the execution of the contract. A copy of said rates shall be posted at each job site during the course of construction. The Contractor and all subcontractors shall comply with all provisions of the California Labor Code relating to prevailing wage rates, including Sections 1770–1781.

This Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. The Department of Industrial Relations shall monitor and enforce compliance with applicable prevailing wage requirements for the contract. The reporting requirements may be found at https://www.dir.ca.gov/Public-Works/Contractors.html. The Contractor is responsible for complying with all requirements of the Department of Industrial Relations, including filing electronic payroll reports.

A contractor or subcontractor will not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an

unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded.

RETAINAGE FROM PAYMENTS: The Contractor may elect to receive 100 percent of payments due under the Contract Documents from time to time, without retention of any portion of the payments by the City, by depositing securities of equivalent value with the City in accordance with the provisions of Section 22300 of the Public Contract Code. If the Contractor chooses not to exercise its rights under Public Contract Code Section 22300, the full five percent (5%) retention will be deducted from all payments. The final retention will be authorized for payment thirty-five (35) days after the date of recordation of the Notice of Completion, if no stop notices have been filed. The City may withhold from release of the final retention amounts authorized under Public Contracts Code Section 7107 and/or 125% of amounts identified in any Stop Notices received by the City.

OBTAINING OR INSPECTING CONTRACT DOCUMENTS: Contract Documents may be inspected without charge at the Public Works Department, City Hall, 24035 El Toro Road, Laguna Hills, California 92653. Contract Documents are available in portable document form (PDF) on the City's website https://lagunahillsca.gov/bids.aspx. It is the contractor's responsibility to ensure they are on the City's Plan Holder's List and they obtain any addendums or clarifications that are issued by the City on the City's website prior to submitting a bid. For any questions regarding acquisition of Contract Documents, contact Joe Ames at JAmes@lagunahillsca.gov.

Dated this 28th day of April, 2026.

CITY OF LAGUNA HILLS

INSTRUCTIONS TO BIDDERS
FOR

EL CONEJO PARK REHABILITATION

1. PROPOSAL FORMS

Bids shall be submitted in writing on the Proposal forms provided by the City of Laguna Hills (hereinafter "CITY" or "City"). All blank spaces in the bid forms must be correctly filled in and all information requested therein must be clearly and legibly set forth in the manner and form indicated. All spaces for bid prices and lump sum price for which the bid is made, must be filled in, in both words and figures. All prices and notations must be in ink or typewritten. No erasures will be permitted. Mistakes may be crossed out and corrections typed or written in ink adjacent thereto and must be initialed by the person or persons signing the bid. Bidder acknowledges and agrees that by failing to complete the bid forms in their entirety, as set forth above, the CITY may find the bidder's entire bid non-responsive and may cause the rejection of the bidder's proposal at the discretion of the CITY.

2. PROPOSAL GUARANTEE (BID BOND)

In accordance with Public Contract Code Section 20170, proposals must be accompanied by a proposal guarantee consisting of either cash, a cashier's check, a certified check or bid bond payable to the CITY in the minimum amount of ten percent (10%) of the total amount bid. Any proposal not accompanied by such a guarantee will not be considered. **IF A BIDDER TO WHOM A CONTRACT IS AWARDED FAILS OR REFUSES TO EXECUTE THE CONTRACT DOCUMENTS OR FURNISH THE REQUIRED INSURANCE POLICIES AND BONDS AS SET FORTH IN THOSE DOCUMENTS, THE PROPOSAL GUARANTEE SHALL BE FORFEITED TO THE CITY**. The proposal guarantees of all bidders will be held until the successful bidder has properly executed all Contract Documents.

3. NON-COLLUSION AFFIDAVIT

Bidder shall declare that the only persons or parties interested in the proposal as principals are those named therein; that no officer, agent, or employee of the CITY is personally interested, directly or indirectly, in the proposal; that the proposal is made without connection to any other individual, firm, or corporation making a bid for the same work; and that the proposal is in all respects fair and without collusion or fraud. The Non-Collusion Affidavit shall be executed and submitted with the proposal.

4. PROPOSAL BID SHEET

Bidders shall give unit prices for each and all of the items set forth. No aggregate bids will be considered. The bidder shall set forth for each item of work, in clearly legible figures, a unit item price and a total for the item in the respective spaces provided for this purpose. The quantities listed in the Bid sheets are supplied to give an indication of the general scope of work, but the accuracy of figures is not guaranteed and the bidder shall make his own estimates from the drawings. In case of a variation between the unit price and the totals shown by the bidder, the unit price will be considered to be the bid.

5. DELIVERY OF PROPOSAL

Proposals may be mailed or delivered by messenger. However, it is the bidder's responsibility alone to ensure delivery of the proposal to the hands of the CITY's designated official prior to the bid opening time deadline set forth in the "Notice Inviting Sealed Bids." Late proposals will not be considered and will be returned to the bidder unopened. Proposals shall be enclosed in a sealed envelope plainly marked on the outside, "(EL CONEJO PARK) PROJECT- DO NOT OPEN WITH REGULAR MAIL."

6. WITHDRAWAL OF PROPOSALS

A proposal may be withdrawn by a written request signed by the bidder. Such requests must be delivered to the CITY's designated official prior to the bid-opening time deadline set forth in the "Notice Inviting Sealed Bids". The withdrawal of a proposal will not prejudice the right of the bidder to submit a new proposal, provided there is time remaining to do so. Proposals may not be withdrawn after the bid opening without forfeiture of the proposal guarantee, except as authorized by state law. .

7. NONRESPONSIVE PROPOSALS

Unauthorized conditions, limitations, or provisions attached to a proposal will render it nonresponsive and may cause its rejection. The completed proposal forms shall be without inter-lineation, alterations, or erasures. Alternative proposals will not be considered unless specifically requested. No oral, telegraphic, or telephonic proposal, modification, or withdrawal will be considered.

8. TAXES

No mention shall be made in the proposal of Sales Tax, Use Tax, or any other tax, as all amounts bid will be deemed and held to include any such taxes that may be applicable. Bidder acknowledges and agrees that CITY shall not be responsible for the payment of any increase in Sales Tax, Use Tax, or any other tax that takes effect after award.

9. DISQUALIFICATION OF BIDDERS

In the event that any bidder acting as a prime contractor has an interest in more than one proposal, all such proposals will be rejected, and the bidder will be disqualified. This restriction does not apply to subcontractors or suppliers who may submit quotations to more than one bidder.

No contract will be executed unless the bidder is licensed in accordance with the provisions of the Business and Professions Code.

10. INTERPRETATION OF PLANS AND DOCUMENTS

If any person contemplates submission of a bid for the proposed contract and is in doubt as to the true meaning of any part of the plans, specifications or other proposed contract documents, or finds discrepancies in, or omissions from, the drawings or specifications, he or she may submit to the City Engineer a written request for an interpretation or correction thereof five (5) working days prior to the scheduled bid opening. The person submitting the request will be responsible for its prompt delivery. Any interpretation or correction of the proposed

documents shall be made only by addendum duly issued and copy of such addendum will be mailed or delivered to each person receiving a set of such documents. The City Engineer will not be responsible for any other explanation or interpretations of the proposed documents.

11. ADDENDA OR BULLETINS

The effect of all addenda to the Contract Documents shall be considered in the bid, and said addenda shall be made a part of the Contract Documents and shall be returned with them. Before submitting a bid, each bidder shall confirm as to whether or not any addenda have been issued, and failure to cover in this bid any such addenda issued, may render bid non-responsive and may result in its rejection by the CITY.

12. LEGAL RESPONSIBILITIES

All proposals must be submitted, filed, made, and executed in accordance with State and Federal laws relating to bids for contracts of this nature whether the same are expressly referred to herein or not.

Any bidder submitting a proposal shall by such action thereby agree to each and all of the terms, conditions, provisions, and requirements set forth, contemplated, and referred to in the Plans, Specifications, and Contract Documents, and to full compliance therewith.

13. AWARD OF CONTRACT

Following a review of the bids, the CITY shall determine whether to award the contract or to reject all bids. The award of contract, if made, will be to the lowest responsive-responsible bidder as determined solely by the CITY. At the time of contract award, the successful bidder shall hold a Class A Contractor's License, or a combination of Class C Contractor's License(s), as required to perform the work, issued by the State of California. Additionally, the CITY reserves the right to reject any or all proposals, to accept any bid or portion thereof, to waive any irregularity, and to take the bids under advisement for the period of time stated in the "Notice Inviting Sealed Bids", all as may be required to provide for the best interests of the CITY. In no event will an award be made until all necessary investigations are made as to the responsibility and qualifications of the bidder to whom the award is contemplated.

Within three (3) days of bid opening contractor must submit a revised bid bond with numerical dollar values, both in words and with digits of bid amount. Within five (5) working days after the date of the Notice of Apparent Low Bidder, the successful bidder will be required to submit required Contract Agreement and Insurance. Within ten (10) working days after the date of the Notice of Award, the successful bidder will be required to submit Bonds (Faithful Performance and Material and Labor). Submission of these documents shall be at the Low Bidder's sole cost and expense and shall not be made reimbursable by City. Award of Contract, if made, shall be solely the determination of the City Council.

No bidder may withdraw its proposal for a period of forty-five (45) days after the time set for opening thereof. However, the CITY will return all proposal guarantees within ten (10) days after the award of the contract or rejection of the bids, as the case may be, to the respective bidders whose proposals they accompany.

/

/

14. PREVAILING WAGE RATES

The wage rates applicable to this Project are the State of California Department of Industrial Relations prevailing rates of per diem wages. In accordance with the provisions of Sections 1773.2 of the California Labor Code, copies of the general prevailing rate of per diem wages as determined by the State Director of Industrial Relations are available at City Hall, which shall be made available to any interested party upon request, or on the Internet at the State Department of Industrial Relations website (www.dir.ca.gov) under Statistics and Research.

It shall be mandatory upon the Contractor to whom the Contract is awarded and upon any subcontractor to pay not less than said specified rates to all workers employed by them in the execution of the Contract. A copy of said rates shall be posted at each job site during the course of construction. The Contractor and all subcontractors shall comply with all provisions of the California Labor Code relating to prevailing wage rates, including Sections 1770–1781.

This Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. The Department of Industrial Relations shall monitor and enforce compliance with applicable prevailing wage requirements for this Agreement. The reporting requirements may be found at https://www.dir.ca.gov/Public-Works/Contractors.html. The Contractor is responsible for complying with all requirements of the Department of Industrial Relations, including filing electronic payroll reports.

A contractor or subcontractor will not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded. Contractor and its subcontractors shall maintain active registration with the Department of Industrial Relations for the duration of the Project.

A contractor or subcontractor will not be qualified to bid on, be listed in a bid proposal, subject to Section 6109 of the public Contract Code, or engage in the performance of any contract for public work on a public works project if the contractor or subcontractor is ineligible to perform work pursuant to Section 1777.1 or 1777.7 of the Labor Code.

The CITY will not recognize any claim for additional compensation because of the payment by the Contractor of any wage rate in excess of the prevailing wage rate or the Federal Minimum Wage Rate (whichever is greater) as set forth in the contract. The possibility of wage increases is one of the elements to be considered by the bidder in determining his bid, and will not under any circumstances be considered as the basis of a claim against the CITY on the Contract.

The Contractor and subcontractors shall comply with Section 1777.6 of the Labor Code which stipulates that it shall be unlawful to refuse to accept otherwise qualified employees as registered apprentices on any public works on any basis listed in Government Code Section

12940(a), as those bases are defined in Government Code Sections 12926 and 12926.1, except as provided in Labor Code Section 3077 and Government Code Section 12940.

15. WORKERS' COMPENSATION CERTIFICATE

Section 3700 of the Labor Code requires that every employer shall secure the payment compensation by either being insured against liability to pay compensation with one or more insurers or by securing a certificate of consent to self-insure from the State Director of Industrial Relations.

In accordance with this section and with Section 1861 of the Labor Code, the Contractor shall sign a Compensation Insurance Certificate which is included with the Contract Agreement, and submit same to CITY along with the other required Contract Documents, prior to performing any work. Reimbursement for this requirement shall be considered as included in the various items of work.

16. CLAYTON ACT AND CARTWRIGHT ACT

In accordance with Section 7103.5 of the Public Contract Code, in entering into a public works contract or a subcontract to supply goods, services or materials pursuant to a public works contract, the Contractor or subcontractor offers and agrees to assign to CITY all rights, and interest in and all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to the Contractor, without further acknowledgment by the parties.

17. SUBLETTING AND SUBCONTRACTING.

Pursuant to the Subletting and Subcontracting Fair Practices Act (commencing with Section 4100 of the Public Contract Code), bidders are required to list in their proposal the name business address, California contractor license number, and public works contractor registration number issued pursuant to Section 1725.5 of the Labor Code of each subcontractor who will perform work or labor or render services in or about the construction of the work or improvement or a subcontractor who specially fabricates and installs a portion of the work or improvement according to detailed drawings contained in the Plans and Specifications in excess of 1/2 of 1% of this prime Contractor's total bid or $10,000, whichever is greater. If a subcontractor's California contractor license number or public works contractor registration number are submitted incorrectly in the bid, it will not be grounds for filing a bid protest or grounds for considering the bid nonresponsive if the corrected subcontractor's California contractor license number is submitted to CITY within 24 hours after the bid opening

If the bidder fails to list a subcontractor for a portion of work or if the bidder lists more than one subcontractor of the same portion of work in excess of 1/2 of 1% of the total bid or $10,000, whichever is greater, the bidder agrees that it is fully qualified to perform that portion of work itself, and that the bidder shall perform that portion of work itself. If after award of the contract, the bidder actually subcontracts that portion of work, except as provided in Public Contract Code Section 4107 or 4109, the bidder shall be subject to the penalties listed in

Section 4111 of the Public Contract Code. It is the CITY's intent for the Subletting and Subcontracting Fair Practices Act to apply to all phases of the work.

/

18. SUBSTITUTION OF SECURITIES

In conformance with Public Contract Code Section 22300, which is incorporated herein by this reference, the Contractor may substitute securities for any monies withheld by the CITY to ensure performance under the Contract or, in the alternative, may request payment of retention earned directly to an escrow agent.

At the request and expense of the Contractor, the Contractor has the option to deposit securities, which have been approved by the CITY, with a State or Federally chartered bank as the escrow agent or require the City to deposit 5% of each progress payment with the escrow agent. Said securities will be used as a substitute for retention earnings required to be withheld by the CITY, pursuant to the construction contract. Said securities shall have no obligation to any other construction contract for substitution of securities in lieu of retention. When the Contractor deposits the CITY approved securities with the escrow agent, the escrow agent shall notify the CITY within 10 calendar days of the deposit. Said securities shall be evaluated quarterly by the escrow agent to verify the current market value. If the current market value of said securities falls below the required amount, the escrow agent shall notify the Contractor and require additional securities and/or cash to be submitted for CITY approval, and be held in the escrow account to meet the Contractor's obligations. The escrow agent shall hold said securities until such time as the escrow agent receives written notification from the CITY that the Contractor has satisfactorily completed his Contract obligations.

The type of securities deposited and the method of release shall be approved by the City Attorney's office.

If the Contractor chooses not to exercise its rights under Public Contract Code Section 22300, the full five percent (5%) retention will be deducted from all payments. The final retention will be authorized for payment thirty-five (35) days after the date of recordation of the Notice of Completion, if no stop notices have been filed. The CITY may withhold from release of the final retention amounts authorized under Public Contracts Code Section 7107 and/or 125% of amounts identified in any Stop Notices received by the CITY.

19. BID DOCUMENT/PROPOSAL EDITS

No Proposer shall modify, edit, interlineate or change any portion of the Bid Proposal pages without the Agency’s written issuance of a formal Addenda. Any Proposer that modifies, edits, interlineates or changes the Bid Proposal sheets with unauthorized changes shall be deemed to be a non-responsive Bidder.

BIDDER'S NAME:_____

CITY OF LAGUNA HILLS

PROPOSAL
FOR

EL CONEJO PARK REHABILITATION

TO **CITY OF LAGUNA HILLS**, as CITY:

In accordance with CITY's "Notice Inviting Sealed Bids", the undersigned BIDDER hereby proposes to furnish all materials, equipment, tools, labor, and incidentals required for the above stated project as set forth in the Plans, Specifications, and Contract Documents therefore, and to perform all work in the manner and time prescribed therein.

BIDDER declares that this proposal is based upon careful examination of the work site, Plans, Standard Specifications, Notice Inviting Sealed Bids, Instructions to Bidders, Proposal Documents, General Specifications, Special Provisions and Contract Documents. If this proposal is accepted for award, BIDDER agrees to enter into a contract with CITY at the unit and/or lump sum prices set forth in the following Proposal Bid Sheet. BIDDER understands that failure to enter into a contract in the manner and time prescribed will result in forfeiture to CITY of the Bid Security accompanying this proposal.

BIDDER understands that a bid is required for the entire work, that the estimated quantities set forth in the Proposal Bid Sheet are solely for the purpose of comparing bids, and that final compensation under the contract will be based upon the actual quantities of work satisfactorily completed. It is agreed that the unit and/or lump sum prices bid include all appurtenant expenses, taxes, royalties, and fees. In the case of discrepancies in the amounts bid, unit prices shall govern over extended amounts.

BIDDER agrees and acknowledges that it is aware of the provisions of Section 3700 of the Labor Code, which requires every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and that the BIDDER will comply with such provisions of that code before the commencement of any work under this Contract, if awarded.

BIDDER certifies that in all previous contracts or subcontracts, all reports which may have been due under the requirements of any CITY, State, or Federal equal employment opportunity orders have been satisfactorily filed, and that no such reports are currently outstanding.

BIDDER declares that the only persons or parties interested in this proposal as principals are those named herein; that no officer, agent, or employee of the CITY is personally interested, directly or indirectly, in this proposal; that this proposal is made without connection to any other individual, firm, or corporation making a bid for the same work; and that this proposal is in all respects fair and without collusion or fraud.

BIDDER certifies that affirmative action has been taken to seek out and consider disadvantaged business enterprises for those portions of the work to be subcontracted, and that such affirmative actions have been carefully documented, that said documentation is open to inspection, and that said affirmative action will remain in effect for the life of any contract awarded hereunder.

Furthermore, BIDDER certifies that affirmative action will be taken to meet all equal employment opportunity requirements of the contract documents.

Bond Amount $_____
Bond Number_____

BIDDER'S BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS,_____ (the "Principal") has submitted a
(NAME OF BIDDER)
bid (the "Bid") to the City of Laguna Hills, California (the "City") for construction of the

_____(the "Work"), as specifically set
(NAME OF PROJECT AND/OR DESCRIPTION OF WORK)
forth in documents entitled_____,
(TITLE OF BID PACKAGE)
Dated:_____, 20____(the "Specifications").

AND WHEREAS, the Principal is required to provide bidder's security in an amount equal to at least ten percent (10%) of the amount of the Bid and has chosen to satisfy this obligation by providing this bond.

NOW, THEREFORE, we, the Principal, and_____ (the
(NAME OF SURETY)
"Surety"), an admitted surety insurer in the State of California, are held firmly bound unto the City of Laguna Hills in the sum of_____ and_____/100 DOLLARS ($_____), lawful money of the United States of America, for the payment of which sum, well and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents, this amount being ten percent (10%) of the total amount of the Bid.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

1. If (a) the City accepts the Bid and awards the Principal a contract for the Work, and (b) within the time and manner required under the Specifications or by law, after the prescribed forms are presented to the Principal for signature, the Principal executes a written contract for construction of the Work in accordance with the Bid and delivers the required faithful performance and payment bonds and insurance policies, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.
2. The Surety, for value received, hereby stipulates and agrees that the obligation of said Surety and its bond shall be in no way impaired or affected by any extension of the time within

Bond Amount $_____
Bond Number_____

which the City may accept such Bid; and said Surety does hereby waive notice of any such extension.

3. In the event suit is brought upon this bond by the City and judgment is recovered, as part of the obligation secured hereby and in addition to the face amount specified in this bond, the Surety shall pay all costs incurred by the City in such suit, including reasonable attorneys' fees to be fixed by the court.

IN WITNESS WHEREOF, this instrument has been duly executed by the Principal and Surety above named on the_____ day of_____, 20_____.

CITY OF LAGUNA HILLS

CONTRACT AGREEMENT
FOR

EL CONEJO PARK REHABILITATION

THIS CONTRACT AGREEMENT (hereinafter "Agreement" or "Contract" or "Contract Agreement") is made and entered into for the above stated Project this_____ day of _____, 20____, BY AND BETWEEN THE **CITY OF LAGUNA HILLS**, as CITY, and _____, as CONTRACTOR.

WITNESSETH that CITY and CONTRACTOR have mutually agreed as follows:

ARTICLE I

The contract documents for the aforesaid Project shall consist of the Notice Inviting Sealed Bids, Instructions to Bidders, Proposal Documents, Contract Documents, General Specifications, Standard Specifications, Special Provisions, Plans, and all referenced specifications, details, standard drawings, and all appendices attached hereto, together with this Contract Agreement and all required bonds, insurance coverage, permits, notices, and affidavits; and also including any and all addenda or supplemental agreements clarifying, amending, or extending the work contemplated as may be required to ensure its completion in an acceptable manner (hereinafter collectively the "Contract Documents"). All of the provisions of said Contract Documents are attached hereto and are incorporated by reference herein and made a part of this Contract Agreement as though fully set forth herein.

ARTICLE II

For and in consideration of the payments and agreements to be made and performed by CITY, CONTRACTOR agrees to furnish all materials and perform all work required for the above stated project, and to fulfill all other obligations as set forth in the aforesaid Contract Documents.

ARTICLE III

CONTRACTOR agrees to receive and accept the prices set forth in the Proposal as full compensation for furnishing all materials, performing all work, and fulfilling all obligations hereunder. Said compensation shall cover all expenses, losses, damages, and consequences arising out of the nature of work during its progress or prior to its acceptance including those for well and faithfully completing the work and the whole thereof in the manner and time specified in the aforesaid Contract Documents; and also including those arising from actions of the elements, unforeseen difficulties or obstructions encountered in the prosecution of the work, suspension or discontinuance of the work, and all other unknowns or risks of any description connected with the work. Notwithstanding any provisions of this Agreement to the contrary, CITY and CONTRACTOR mutually agree that CITY's maximum cumulative payment obligation hereunder (including CONTRACTOR's profit) shall be Dollars ($0.00), which shall include all amounts payable to CONTRACTOR for its subcontracts, leases, materials and costs arising from, or due to termination of, this Agreement.

ARTICLE IV

CITY hereby promises and agrees to employ, and does hereby employ, CONTRACTOR to provide the materials, do the work, and fulfill the obligations according to the terms and conditions

herein contained and referred to, for the prices aforesaid, and hereby contracts to pay the same at the time, in the manner, and upon the conditions set forth in the Contract Documents.

ARTICLE V

CONTRACTOR acknowledges the provisions of the Labor Code requiring every employer to be insured against liability for workers' compensation, or to undertake self-insurance in accordance with the provisions of that code, and certifies compliance with such provisions.

ARTICLE VI

CONTRACTOR affirms that the signatures, titles, and seals set forth hereinafter in execution of this Agreement represent all individuals, firm members, partners, joint ventures, and/or corporate officers having a principal interest herein.

ARTICLE VII

CONTRACTOR hereby represents and warrants that it will comply with all of the provisions of the Federal Immigration and Nationality Act, 8 U.S.C. Section 1101, *et seq*., as amended, and in connection therewith, shall not employ unauthorized aliens as defined therein. Should CONTRACTOR so employ such unauthorized aliens for the performance of any work and/or services under this Agreement, and should any liability or sanctions be imposed against CITY for such use of unauthorized aliens, CONTRACTOR hereby agrees to reimburse CITY for any and all liabilities, actions, suits, claims, demands, losses, costs, judgments, arbitration awards, settlements, damages, demands, orders, or penalties which arise out of or are related to such employment, together with any and all costs, including attorneys' fees, incurred by CITY.

ARTICLE VIII

To the fullest extent permitted by law, CONTRACTOR shall defend (at CONTRACTOR's sole cost and expense), indemnify, protect, and hold harmless CITY, its elected and appointed officials, officers, employees, agents, and volunteers (collectively the "Indemnified Parties"), from and against any and all liabilities, actions, suits, claims, demands, losses, costs, judgments, arbitration awards, settlements, damages, demands, orders, penalties, and expenses including legal costs and attorney fees (collectively "Claims"), including but not limited to Claims arising from injuries to or death of persons (CONTRACTOR's employees included), or for damage to property, including property owned by CITY, which Claims arise out of, pertain to, or are related to CONTRACTOR's performance under the Agreement. Under no circumstances shall the insurance requirements and limits set forth in this Agreement be construed to limit CONTRACTOR's indemnification obligation or other liability hereunder. Notwithstanding the foregoing, such obligation to defend, hold harmless, and indemnify the CITY, its elected and appointed officials, officers, employees, agents, and volunteers, shall not apply to such claims or liabilities arising from the sole or active negligence or willful misconduct of CITY.

ARTICLE IX

CONTRACTOR shall be familiar with, observe, and comply at all times during the term of this Agreement with any work rules for contractors as may be established and promulgated by the City Manager, which work rules shall be additional terms and conditions for providing the work and services to the CITY pursuant to this Agreement, as may be updated and/or amended from time to time at the sole discretion of the City Manager.

FAITHFUL PERFORMANCE BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, on_____, the City of Laguna Hills, California
(DATE OF AWARD)
("City") awarded a public works contract (the "Contract"), delineated as Contract No._____,

for the_____, as
(NAME OF PROJECT AND/OR DESCRIPTION OF WORK)

specified in the Contract , to_____, a
(NAME OF CONTRACTOR)

_____ hereby designated as the "Principal",
(CONTRACTOR ENTITY TYPE i.e., INC, LLC, ETC)
which Contract is attached hereto, and which Contract and all documents incporated thereinby reference are expressly incorporated into this bond by reference.

AND WHEREAS, the Principal is required under the terms of the Contract to furnish a bond for the faithful performance of the Contract.

NOW, THEREFORE, we, the Principal, and_____ (the
(NAME OF SURETY)
"Surety"), an admitted surety insurer in the State of California, are held firmly bound unto the City of Laguna Hills in the sum of_____ and_____/100 DOLLARS ($_____), lawful money of the United States of America, for the payment of which sum, well and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

1. If the Principal, its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly do and perform all of the covenants and obligations of the Contract, including the provisions for liquidated damages in said Contract, and including any and all amendments, supplements, and alterations made to the Contract as provided therein, on the Principal's part to be done and performed at the times and in the manner specified in the Contract, and shall indemnify and save harmless the City, its officers and agents as specified in the Contract, then this obligation shall be null and void, otherwise it shall be and remain in full force and effect;
2. In the event the Principal fails to fully perform all requirements in accordance with the terms and conditions of the Contract, then the Surety shall enforce performance by the Principal or shall pay the City for the same in an amount not exceeding the amount specified in this bond.3. In the event suit is brought upon this bond by the City and judgment is recovered, as part of the obligation secured hereby and in addition to the face amount specified in this bond, the

Surety shall pay all costs incurred by the City in such suit, including reasonable attorneys' fees to be fixed by the court.

4. The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alterations, additions, omissions or other modifications to the terms of the Contract, or in the work to be performed or the material to be furnished under the Contract, or in the specifications or plans, whether or not made pursuant to the terms of the Contract, shall in any manner release either the Principal or Surety or affect the Surety's obligations on this bond, and it does hereby waive notice of any such changes, extensions, alterations, additions, omissions or other modifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the Principal and Surety above named on the_____ day of_____, 20_____.

PAYMENT (LABOR AND MATERIAL) BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, on _____ (DATE OF AWARD), the City of Laguna Hills, California ("City") awarded a public works contract (the "Contract"), delineated as Contract No._____, for the _____ (NAME OF PROJECT AND/OR DESCRIPTION OF WORK), as specified in the Contract , to _____ (NAME OF CONTRACTOR), a _____ (CONTRACTOR ENTITY TYPE i.e., INC, LLC, ETC) hereby designated as the "Principal", which Contract is attached hereto, and which Contract and all documents incporated thereinby reference are expressly incorporated into this bond by reference.

AND WHEREAS, the Principal is required under the terms of the Contract to give this bond in connection with the execution of the Contract.

NOW, THEREFORE, we, the Principal, and _____ (NAME OF SURETY) (the "Surety"), an admitted surety insurer in the State of California, are held firmly bound unto the City of Laguna Hills in the sum of _____ and _____/100 DOLLARS ($_____), lawful money of the United States of America, for the payment of which sum, well and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

1. If the Principal, or its subcontractors, or their respective heirs, executors, administrators, successors or assigns, shall fail to pay (a) any of the persons named in Section 9100 of the California Civil Code, (b) any amounts due under the California Unemployment Insurance Code with respect to work or labor performed under the Contract, or (c) any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of the Principal and its subcontractors pursuant to Section 13020 of the California Unemployment Insurance Code with respect to such work or labor, then the Surety shall pay for the same, in an aggregate amount not exceeding the sum specified in this bond. In case suit is brought upon this bond, the Surety will pay reasonable attorney's fees to be fixed by the court.
2. This bond shall inure to the benefit of any of the persons named in Section 9100 of the California Civil Code so as to give a right of action to such persons or their assigns in any suit brought upon this bond.

3. The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alterations, additions, omissions or other modifications to the terms of the Contract, or in the work to be performed or the material to be furnished under the Contract, or in the specifications or plans, whether or not made pursuant to the terms of the Contract, shall in any manner release either the Principal or Surety or affect the Surety's obligations on this bond, and it does hereby waive notice of any such changes, extensions, alterations, additions, omissions or other modifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the Principal and Surety above named on the_____ day of_____, 20_____.

COMPENSATION INSURANCE CERTIFICATE

Pursuant to Section 1861 of the State Labor Code, each contractor to whom a public works contract has been awarded shall sign the following certificate and shall submit same to the City prior to performing any work on the contract:

"*I am aware of the provisions of Section 3700 of the Labor Code which requires every employer to be insured against liability for Workers' Compensation or to undertake self-insurance in accordance with the provisions of that Code, and I will comply with such provisions before commencing the performance of work of this contract*."

Section 3700 of the Labor Code reads as follows:

"Every employer except the State shall secure the payment of compensation in one or more of the following ways:

"(a) By being insured against liability to pay compensation in one or more insurers duly authorized to write compensation insurance in this state.

(b) By securing from the Director of Industrial Relations a certificate of consent to self-insure, which may be given upon furnishing proof satisfactory to the Director of Industrial Relations of ability to self-insure and to pay any compensation that may become due to his employee."

COMPENSATION INSURANCE CERTIFICATE

TO BE SUBMITTED WITH CONTRACT

CITY OF LAGUNA HILLS

GENERAL SPECIFICATIONS
FOR

EL CONEJO PARK REHABILITATION

SCOPE OF WORK

The work to be performed and completed by Contractor consists of playground renovation, ada improvements, drinking fountain replacement and new park sign, and all other incidental work in this specification document.

LOCATION OF WORK

The Project is located at 25601 El Conejo Lane, Laguna Hills, CA 92653, as shown on the plans.

TIME OF COMPLETION

The Contractor shall complete all work in every detail within 60 working days after the date of the Notice to Proceed.

TRAFFIC REQUIREMENTS

The Contractor shall provide delineation in accordance with the latest updated version of the California Manual on Uniform Traffic Control Devices (MUTCD). The Contractor shall schedule the order of his work such that no travel lanes are closed before 8:30 A.M. or after 4:30 P.M. daily. A minimum of one through travel lane and all turning lanes in all directions shall be maintained during construction between 8:30 A.M. and 4:30 P.M. The same number of travel lanes currently in use (at the time of bid) shall be opened to traffic each and every day between 4:30 P.M. and 8:30 A.M. No work that interferes with public traffic shall be performed after 4:30 P.M. or before 8:30 A.M. No street closures shall be made. The traffic signal and traffic signal detectors shall remain operational during the construction until their replacement is scheduled within 5 days of disruption. Night work shall only be allowed with approved, written approval by the City Engineer, at the contractor's request, and shall be completed at no additional cost if approved.

Separation between travel lanes shall be accomplished by the use of delineators placed at a maximum of 15' on center. Traffic channelization at intersections shall be accomplished by the use of delineators placed at a maximum of 10' on center.

UTILITY REQUIREMENTS

The Contractor is advised of the existence of the utility notification service provided by UNDERGROUND SERVICE ALERT (USA). USA member utilities will provide the Contractor with the precise locations of their substructures in the construction area when the Contractor gives at least 48 hours notice to the Underground Service Alert by calling 1(800) 422-4133. Contractor shall provide the City with proof of contact with USA upon request.

The Contractor shall notify the following agencies at least 48 hours in advance of excavating around any of their structures. The utility companies listed below can be contacted as indicated.

San Diego Gas & Electric	662 Camino de los Mares San Clemente, CA 92673	Erik Weigand	949/577-0005

The California Public Utilities Commission mandates that, in the interest of public safety, main line gas valves be maintained in a manner to be readily accessible and in good operating condition. The Contractor shall notify the Southern California Gas Company (714) 634-3185 at least 2 working days prior to the start of construction.

The Contractor shall exercise extreme care to protect all existing utilities in place whether shown on the plans or not, and shall assume full responsibility for all damage resulting from his operations. The Contractor shall coordinate with each utility company as to the requirements and methods for protection of their facilities during the construction period, and shall be responsible for preparation and processing of any required plans or permits. The Contractor shall assume full responsibility to maintain uninterrupted service for all utilities.

By submitting a bid, the Contractor acknowledges the above referenced utility work to be done in conjunction with this Project. The Contractor shall schedule his work and conduct his operations so as to permit access and time for the required utility work to be accomplished during the progress of the work.

The Contractor shall coordinate with each utility company as to the extent of required work and the time required to do so. The Contractor shall include this time in his schedule. Payment for the above, if any, shall be deemed as included in the items of work as shown on the proposal bid sheet and no additional compensation will be allowed.

FLOW AND ACCEPTANCE OF WATER

It is anticipated that storm, surface or other waters will be encountered at various times and locations during the work herein contemplated. The Contractor, by submitting a bid, acknowledges that he has investigated the risk arising from such waters and has prepared his bid accordingly, and Contractor, by submitting a bid, assumes all of said risk.

REMOVAL OF WATER

The Contractor shall provide and maintain at all times during construction ample means and devices to promptly remove and properly dispose of all water entering the excavations or other parts of the work. No concrete footing or floor shall be laid in water nor shall water be allowed to rise over them until the concrete or mortar has set at least two (2) hours. Water shall not be allowed to rise unequally against any walls for a period of twenty-eight (28) days. Dewatering for the structures and pipelines shall commence when ground water is first encountered, and shall be continuous until such time as water can be allowed to rise in accordance with the above statement. Dewatering shall be accomplished by well points or some other method which will insure a dry hold and preservation of final lines and grade of the bottoms of excavation, all subject to the approval of the City Engineer.

Dewatering methods and disposal of water from dewatering operations shall be the sole responsibility of the Contractor and shall conform to the requirements of the State Regional Water Quality Control Board, the requirements of the National Pollution Discharge Elimination System (NPDES), and the Federal Clean Water Act. Full compensation for dewatering shall be considered as included in the contract prices paid for the related items of work, and no additional compensation will be allowed therefore.

STANDARD SPECIFICATIONS

The Standard Specifications of the City are contained in the 2024 edition of the STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, also known as the “Greenbook”, including all supplements, as written and promulgated by the Joint Cooperative Committee of the Southern California Chapter of the American Public Works Association and the Southern California District of the Associated General Contractors of California, which is incorporated herein by this reference. Copies of these Standard Specifications are available from the publisher:

BNi Building News
Division of BNi Publications, Inc.
990 Park Center Drive, Suite E
Vista, California 92801
(760) 734-1113

The Standard Specifications set forth above will control the general provisions for this Contract except as amended by the Plans, General Specifications, Special Provisions, or other Contract Documents.

The section numbers of the following Special Provisions coincide with those of the said Standard Specifications. Only those sections requiring amendment, elaboration, addition, or that are specifying options are stated in the Special Provisions.

In case of conflict between the Standard Specifications and the General Specifications or Special Provisions, the General Specifications and Special Provisions shall take precedence over and be used in lieu of such conflicting portions of the Standard Specifications.

References in the Special Provisions to "CALTRANS Standard Specifications" shall mean the latest edition of the Standard Specifications of the State of California, Department of Transportation. Copies of these specifications and standard drawings may be obtained from:

California Department of Transportation
Publications Distribution Unit
1900 Royal Oaks Drive
Sacramento, California 95815-3800
Telephone (916) 263-0822
Fax (916) 263-0470

References in the Special Provisions to Standard Plans shall mean the Standard Plans for Public Works Construction, latest edition (written and promulgated by the Public Works Standards, Inc.), and, where applicable and as determined and selected by the City Engineer, those specific standard plans of the City of Laguna Hills, the County of Orange and/or the State Department of Transportation, latest editions.

Where the Plans or Specifications describe portions of the work in general terms, but not in complete detail, it is understood that the item is to be furnished and installed complete and in place and that only the best general practice is to prevail and that only materials and workmanship of the first quality are to be used. Unless otherwise specified, the Contractor shall furnish all labor, materials, tools, equipment and incidentals, and do all the work involved in executing the contract.

WAGE RATES AND LABOR CODE REQUIREMENTS

The City has determined that the work on this Project requires work of labor categories which are subject to the State of California Department of Industrial Relations prevailing rates of per diem wages.

Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. Contractor agrees to fully comply with all applicable federal and state labor laws (including, without limitation, if applicable, the Prevailing Wage Laws). It is agreed by the parties that, in connection with the work provided pursuant to the Agreement, Contractor shall bear all risks of payment or non-payment of prevailing wages under California law, and Contractor hereby agrees to defend, indemnify, and hold the City, its elected officials, officers, employees, and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. The foregoing indemnity shall survive termination of the Agreement.

Contractor understands and agrees to comply with the following California Labor Code compliance conditions [Labor Code Sections 1720 et seq., 1813, 1860, 1861, 3700]:

a) The Agreement is subject to the provisions of Division 2, Part 7, Chapter 1 (commencing with Section 1720) of the California Labor Code relating to public works and the awarding public agency ("City") and Contractor agree to be bound by all the provisions thereof as though set forth in full herein.

b) Contractor shall be registered with the Department of Industrial Relations ("DIR") in accordance with California Labor Code Section 1725.5 and has provided proof of registration to City prior to the effective date of this Agreement.

c) Contractor agrees to comply with the provisions of California Labor Code Sections 1771, 1774 and 1775 concerning the payment of prevailing rates of wages to workers and the penalties for failure to pay prevailing wages. The applicable prevailing wage determination(s) may be obtained at (h are on file with City, and are available to any interested party upon request. A copy of said rates shall be posted at each job site during the term of this Agreement.

d) Pursuant to California Labor Code Section 1771.4, Contractor's services are subject to compliance monitoring and enforcement by the Department of Industrial Relations. Contractor shall post job site notices as prescribed by DIR regulations and furnish the records specified in California Labor Code Section 1776 directly to the Labor Commissioner in the manner prescribed by California Labor Code Section 1771.4(a)(3) and (c)(2).

e) Eight (8) hours of labor shall constitute a legal day's work for all workmen employed in the execution of this Agreement, and the Contractor and any subcontractor shall comply with and be governed by the laws of the State of California having to do with working hours set forth in Division 2, Part 7, Chapter 1, Article 3 of the California Labor Code. Contractor shall comply with the provisions of California Labor Code Section 1813 concerning penalties for workers who work excess hours. Contractor shall, as a penalty to the City, forfeit twenty-five dollars ($25) for each worker employed in the execution of this Agreement by the Contractor or by any subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one calendar day and forty (40) hours in any one calendar week in violation of the provisions of Division 2, Part 7, Chapter 1, Article 3 of the California Labor Code. (*See, e.g.,* Cal. Labor Code §1815.)

f) Pursuant to California Labor Code Section 1771.1, Contractor and any subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the California Public Contract Code, or engage in the performance of any contract for public work on a public works project unless registered with the DIR and qualified to perform public work pursuant to California Labor Code Section 1725.2. It is not a violation of California Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by California Business and Professions Code Section 7029.1 or by California Public Contract Code Section 10164 or 20103.5, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded. Contractor shall not perform any work under this Agreement with any subcontractor who is ineligible to perform work on the public works project pursuant to Section 1777.1 or 1777.7 of the California Labor Code.

Apprentices

Section 1777.5 requires the Contractor or Subcontractor employing tradesmen in any apprenticeable occupation to apply to an applicable apprenticeship committee that can supply apprentices to the site of the public works project and which administers the apprenticeship program in that trade for a certificate of approval. The certificate will also fix the ratio of apprentices to journeymen to be used in the performance of the Contract.

The Contractor is required to make contributions to funds established for the administration of apprenticeship programs if he employs registered apprentices or journeymen in any apprenticeable trade and if other Contractors on the public works site are making such contributions.

Information relative to apprenticeship standards, contributions, wage schedules and other requirements may be obtained from the State Director of Industrial Relations or from the Division of Apprenticeship Standards.

RESOLUTION OF CONSTRUCTION CLAIMS

California Public Contract Code (PCC) section 9204 as adopted by Assembly Bill 626 prescribes a process to present, confer, and mediate all construction claims relating to the City's public works project.

"Public works project" means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or another public improvement of any kind.

"Claim" means a separate demand by the Contractor sent by registered mail or certified mail with return receipt requested for (A) a time extension, including, without limitation for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project (B) payment of money or damages arising from work done by or on behalf of the Contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled, or the amount the payment of which is disputed by the local agency. (PCC 9204(c)(1))

For any claim subject to this article, PCC section 9204 requires the following:

a) The claim shall be submitted by the Contractor in writing, sent by registered mail or certified mail with return receipt requested and must include the documents necessary to substantiate the claim. Nothing in this subdivision is intended to extend the time limit or supersede notice requirements otherwise provided by contract for the filing of claims. However, upon receipt of a claim, the City, and the Contractor may, by mutual agreement, extend the time period provided by statute.

b) For claims of all amounts, the City shall respond within 45 days of receipt of the claim, and provide the claimant a written statement identifying which portion of the claim is disputed and which portion of the claim is undisputed. If the City requires approval from the City Council, and the City Council does not meet within the 45-day period to respond, the City shall have up to three days to issue its response following the City Council meeting.

c) For all portions of a claim determined to be undisputed, the City must process payment to the claimant within 60 days of issuing the City's written determination.

d) If the claimant disputes the City's response, or if the City fails to respond within the time limits provided, the claimant may demand an informal conference to meet and confer for settlement of the issues in dispute. The demand must be sent in writing by registered or certified mail, return receipt requested. Upon receipt of a demand, the City must schedule a meet and confer conference within 30 days for settlement of the disputed claim.

e) Within 10 business days following the conclusion of the meet and confer conference, if any portion of the claim remains in dispute, the City shall provide the claimant an addition written statement identifying the portion of the claim that is undisputed and the portion that remains in dispute.

f) For all portions of a claim determined to be undisputed, the City must process payment to the claimant within 60 days of issuing the City's written determination.

g) Any remaining undisputed portion of the claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation in which the parties share the cost evenly. The City and the claimant shall mutually agree on a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree, each party shall select a mediator and those mediators shall jointly select a qualified, neutral third party to mediate the remaining undisputed claim. Each party shall bear the respective costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is

unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside of PCC section 9204.

Unless otherwise agreed to by the City and the Contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under PCC Section 20104.4 to mediate after litigation has been commenced.

PCC Section 9204 does not preclude the City from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program if mediation under this section does not resolve the parties' dispute.

Should the City fail to respond to a claim, or fail to issue written statements as required, the Contractor's claim is deemed denied. A claim denied by reason of the City's failure to respond shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

Amounts not paid in a timely manner as required by PCC 9204 shall bear interest at seven percent per annum.

NOTICE OF THIRD-PARTY CLAIMS

In accordance with PCC Section 9201, the City will provide timely notification to Contractor of the receipt of any third-party claim relating to the Agreement. The Contractor agrees to reimburse the City for its reasonable costs incurred in providing such notice.

CLAYTON ACT AND CARTWRIGHT ACT

In accordance with Section 7103.5 of the Public Contract Code, in entering into a public works contract or a subcontract to supply goods, services or materials pursuant to a public works contract, the contractor or subcontractor offers and agrees to assign to the awarding body all rights, and interest in and all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to the contractor, without further acknowledgment by the parties.

CITY OF LAGUNA HILLS

SPECIAL PROVISIONS
FOR

EL CONEJO PARK

HUD	Housing and Urban Development

1-7 AWARD AND EXECUTION OF CONTRACT.

Within three (3) days of bid opening contractor must submit:

- If a bid bond is submitted with a 10% of Bid designation for the amount as noted in the City Approved Bid Bond form, a revised Bid Bond with numerical dollar values, both in words and with digits, shall be submitted to the City within three (3) days of bid opening.

Within five (5) working days after the date of the Notice of Apparent Low Bidder, the Contractor shall execute and return the following documents to the City:

- All Insurance Requirements set forth herein
- Two (2) Original Signed Contract Agreements

Within ten (10) working days after the date of the Notice of Award, the Contractor shall execute and return the following documents to the City:

- Faithful Performance Bond
- Material and Labor Bond
- Construction Schedule
- Traffic Control Plan
- Water Pollution Control Plan
- Form W-9
- Encroachment Permit Application
- Construction Materials Submittals

FAILURE TO COMPLY WITH ALL OF THE ABOVE WILL RESULT IN ANNULMENT OF THE AWARD AND FORFEITURE OF THE PROPOSAL GUARANTEE AT THE SOLE DISCRETION OF City.

The Contract Agreement shall not be considered binding upon the City until executed by the authorized City officials. A corporation to which an award is made may be required, before the Contract Agreement is executed by the City, to furnish evidence of its corporate existence, of its right to enter into contracts in the State of California, and that the officers signing the Contract and bonds for the corporation have the authority to do so.

1-7.2 Contract Bonds. [Replace section with the following]:

Both the Faithful Performance Bond and the Material and Labor Bond shall each be for not less than one hundred percent (100%) of the total Contract amount. The Material and Labor Bond shall remain in force until thirty-five (35) days after the date of recordation of the Notice of Completion. The Faithful Performance Bond will be held for one year after the date of recordation of the Notice of Completion.

Prior to the acceptance of any bond, the City shall verify that the surety is an admitted surety in the State of California. If requested by the City, the Contractor shall provide other information specified in the Code of Civil Procedure Section 995.660 to enable the City to verify the sufficiency of the bond.

Should any bond become insufficient, the Contractor shall correct the insufficiency within ten (10) calendar days after receiving notice from the City. The Contractor shall provide the City with evidence of the correction within ten (10) calendar days of said correction. Should any surety at any time be unsatisfactory to the City, written notice will be given to the Contractor to that effect. No further payments shall be deemed due or will be payable under the Contract until Contractor submits an acceptable bond from a surety accepted by the City. Changes to the work or extensions of time made pursuant to the Contract Agreement shall in no way release the Contractor or the surety from its obligations. Notice of such changes or extensions shall be waived by the surety.

SECTION 2 – SCOPE OF WORK.

2-1.1 PLANS AND SPECIFICATIONS [Add the following to this section]:

The Contractor shall maintain a control set of Plans and Specifications on the Project site at all times. All final locations determined in the field, and any deviations from the Plans and Specifications, shall be marked in red on this control set to show the as-constructed conditions. Upon completion of all work, the Contractor shall return the control set to the Engineer. Final payment will not be made until this requirement has been met.

2-2 PERMITS. [Add the following to this section]:

Prior to the start of any work, the Contractor shall take out the applicable City and State permits and make arrangements for City and State inspections. Requests for inspections shall be made to the City at least 24 hours in advance of need. The Contractor and all subcontractors shall each obtain any and all other permits, licenses, inspections, certificates, or authorizations required by any governing body or public utility. Payment for this work shall be included in the bid items of work and no additional compensation will be allowed. The City will waive the usual City encroachment permit fees.

Further, Contractor shall ensure that its employees, agents, contractors, and subcontractors conduct themselves in compliance with such laws and licensure requirements including, without limitation, compliance with laws applicable to nondiscrimination, sexual harassment, and ethical behavior throughout the duration of the Contract. Contractor shall not retain or employ an unlicensed subcontractor to perform work pursuant to this Contract. Contractor shall notify the City immediately and in writing of its employees', agents', contractors' or subcontractors' inability to obtain or maintain, irrespective of the pendency of any appeal, any such licenses, permits, approvals, certificate, waivers, and exemptions that may be required. Such inability shall be cause for termination of this Contract

2-3 RIGHT-OF-WAY. [Add the following to this section]:

The City will acquire all rights of way, easements and rights of entry as required for this Project. The Contractor shall verify that the acquisition(s) is completed prior to beginning any work outside of the public right of way. All cost for re-mobilization, downtime, etc. due to delays in obtaining the required rights of way, easements and rights of entry shall be included in all other items of work and no additional compensation will be allowed. In the event the required easements have not yet been acquired by the City, the Contractor shall conduct its operation so as to confine its work to the limits of the existing right-of-way.

2-4 COOPERATION AND COLLATERAL WORK. [Add the following]:

The Contractor is advised as to the possibility of other construction projects within the proposed construction zone by the City of Laguna Hills, other governing agencies or private enterprises. In the event of such projects, the Contractor shall coordinate with the applicable parties as to the extent of any time required to complete their work and shall schedule his work and conduct his operations so as to permit access and time as required for the concurrent work. The Contractor shall immediately notify the Engineer in the event of a delay in scheduling caused solely by this concurrent work. Payment for the above, if any, shall be deemed as included in various items of work, including any delay impacts, as shown on the proposal bid sheet and no additional compensation will be allowed.

2-8 EXTRA WORK.

2-8.2 Payment.

2-8.3 Markup.

(a) **Work by Contractor.** [Add the following to this section]: The following percentages shall be the maximum added to the Contractor's costs and shall constitute the markup for all overhead and profits:

1) Labor	20%
2) Materials	15%

3) Equipment Rental 15%

4) Other Items and Expenditures 15%

To the sum of the costs and markups provided for in this subsection, 1 percent shall be added as compensation for bonding.

(b) **Work by Subcontractor.** [Add the following to this section]: When all or any part of the extra work is performed by a Subcontractor, the markup established in 3-3.2.3(a) shall be applied to the Subcontractor's actual cost of such work. A markup of 10 percent on the first $5,000 of the subcontracted portion of the extra work and a markup of five (5) percent on work added in excess of $5,000 of the subcontracted portion of the extra work may be added by the Contractor.

The markups mentioned hereinafter shall include, but are not limited to, all costs for the services of superintendents, project managers, timekeepers and other personnel not working directly on the change order and pickup or yard trucks used by the above personnel. These costs shall be reported as labor or equipment elsewhere except when actually performing work directly on the change order and then shall only be reported at the labor classification of the work performed.

The costs of rental equipment shall not exceed the equipment rental rates in the surcharge and Equipment Rental Rates, as published by the State of California Business, Transportation, and Housing Agency and the California Department of Transportation, Division of Construction for the current fiscal year.

2-10 DISPUTED WORK. [Add the following to this section]:

If the Contractor and the City are unable to reach an agreement on disputed work, the City may direct the Contractor to proceed as directed. The City shall have the option, at its own discretion, to pay for said work through unilateral change order executed by the City after conducting its own analysis of the reasonable costs thereof. Although not to be construed as proceeding under extra work provisions in Section 3-3, the Contractor shall keep and furnish records of disputed work in accordance with Section 3-3.

In any case where the Contractor believes extra compensation is due the Contractor for work or materials not clearly covered in the Contract, or not ordered by the City as “extra work”, the Contractor shall notify the City in writing of the Contractor's intention to make claim for such extra compensation before the Contractor begins the work on which Contractor bases the claim. If such notification is not given, or the City is not afforded proper supporting documentation by the Contractor for keeping strict account of actual cost, then the Contractor shall be deemed to have waived the claims for such extra compensation. Such notice by the Contractor, and the fact that the City has kept account of the cost as aforesaid, shall not in any way be construed as proving the validity of the claim. The validity of the claim must be determined by the City. If the City determines that the claim is well founded, it shall be allowed and paid for as “extra work”; if the City determines that the claim is not well founded, it shall be disallowed and not paid.

SECTION 3 – CONTROL OF THE WORK.

3-10 SURVEYING.

3-10.3 Survey Services. [Add sub-section]:

The Contractor will provide the initial surveying and the initial construction staking, if required for the construction of this Project. The cost of any additional surveying and/or construction staking primarily for the convenience of the Contractor and for replacement of stakes lost for any reason will be the responsibility of the Contractor. The Contractor shall make all requests in writing for construction stakes at least 48 hours in advance of the day required.

The Contractor shall be responsible for the finished work's conforming to the lines, grades and benchmarks given by the Engineer. The Contractor shall establish supplementary benchmarks, elevations, lines and grades and any other necessary controls which are not established by the Engineer and which are necessary to complete the work. Compensation for above work by the Contractor shall be included within the various items of work and no additional compensation will be allowed.

SECTION 4 - CONTROL OF MATERIALS

4-3 INSPECTIONS.

4-3.1 General. [Add the following to this section]:

The City will pay for inspection and materials testing. The Contractor shall pay for retests and re-inspections due to failure to meet Specifications. If the Contractor elects to work under this Contract more than 8 hours/day or more than 40 hours/week, Saturday, Sunday, or City holidays, it shall arrange with the Engineer for the required inspection service and pay the Special Inspection Fees as provided by the Material Inspector and City Engineer. When Special Inspection is required, the Contractor shall notify the City and pay inspection fees 24 hours in advance. A 24 hour advance notice will be given during working hours, exclusive of Saturday, Sunday or City holidays for the purpose of permitting the Engineer to make necessary assignments of his representatives. If the Contractor is directed by the City to work under this Contract more than 8 hours/day or more than 40 hours/week, the Special Inspection Fee requirements will be waived.

SECTION 5 – LEGAL RELATIONS AND RESPONSIBILITIES

5-1 LAWS AND REGULATIONS. [Add the following to this section]:

The Contractor, and all subcontractors, suppliers and vendors, shall comply with all City, State, and Federal orders regarding affirmative action to ensure equal employment opportunities and fair employment practices. Failure to file any report due under said orders will result in suspension of periodic progress payments.

The Contractor shall ensure unlimited access to the job site for all equal employment opportunity compliance officers.

5-3 LABOR.

5-3.3 Payroll Records. [Add the following to this section]:

Contractor shall comply with the provisions of California Labor Code Section 1776 which, among other things, require Contractor and each subcontractor to (1) keep accurate payroll records, (2) certify and make such payroll records available for inspection as provided by Section 1776, and (3) inform the City of the location of the records. The Contractor is responsible for compliance with Section 1776 by itself and all of its subcontractors. Verified payroll records shall be submitted

to the City by the tenth day of each month. Progress payments will be withheld pending receipt of any outstanding reports.

5-4 INSURANCE.

5-4.5 Compliance with Insurance Requirements. [Add the following to this section]:

Contractor shall obtain, maintain, and keep in full force and effect during the term of this Agreement, at its sole cost and expense, and in a form and content satisfactory to City, all insurance required under this section. Contractor shall not commence any work or services under this Agreement unless and until it has provided evidence satisfactory to City that it has secured all insurance required under this section. If Contractor's existing insurance policies do not meet the insurance requirements set forth herein, Contractor agrees to amend, supplement or endorse the policies to do so.

5-4.5.1 Types of Insurance Required. [Add the following to this section]:

As a condition precedent to the effectiveness of this Agreement, and without limiting the indemnity provisions set forth in this Agreement, Contractor shall obtain and maintain in full force and effect during the term of this Agreement, including any extension thereof, the following policies of insurance:

A. Commercial General Liability Insurance. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Commercial General Liability Insurance (Insurance Services Office form CG 00 01) written on an occurrence basis with limits of at least two million dollars ($2,000,000.00) per occurrence, four million dollars ($4,000,000.00) in the general aggregate, and four million dollars ($4,000,000.00) for completed operations aggregate. Defense costs shall be paid in addition to the limits. The policy shall contain no endorsements or provisions limiting coverage for (1) contractual liability; (2) cross liability exclusion for claims or suits by one insured against another; or (3) contain any other exclusion contrary to the Agreement.

B. Automobile Liability Insurance. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Automobile Liability Insurance (Insurance Services Office form CA 001) written on a per occurrence basis with limits of at least one million dollars ($1,000,000.00) combined limit for each occurrence covering bodily injury and property damage. The policy shall specifically include coverage for owned, non-owned, leased, and hired automobiles.

C. Workers' Compensation Insurance. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Workers' Compensation Insurance in at least the minimum statutory amounts, and in compliance with all other statutory requirements, as required by the State of California. Contractor agrees to waive and obtain endorsements from its workers' compensation insurer waiving all subrogation rights under its workers' compensation insurance policy against the City, its officials, officers, employees, agents and volunteers, and to require each of its subcontractors, if any, to do likewise under their workers' compensation insurance policies. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Employer's Liability Insurance written on a per occurrence basis with limits of at least one million dollars ($1,000,000.00) per accident for bodily injury or disease.

5-4.5.2 Acceptability of Insurers. [Add the following to this section]:

Insurance required by this section shall be issued by a licensed company authorized to transact business in the state by the Department of Insurance for the State of California with a current rating of A-:VII or better (if an admitted carrier), or a current rating of A:X or better (if offered by a non-admitted insurer listed on the State of California List of Approved Surplus Line Insurers (LASLI), by the latest edition of A.M. Best's Key Rating Guide, except that the City will accept workers' compensation insurance from the State Compensation Fund. In the event the City determines that the work or services to be performed under this Agreement creates an increased or decreased risk of loss to the City, the Contractor agrees that the minimum limits of the insurance policies may be changed accordingly upon receipt of written notice from the City. Contractor shall immediately substitute any insurer whose A.M. Best rating drops below the levels specified herein.

5-4.5.3 Insurance Endorsements. [Add the following to this section]:

Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for written approval. Required insurance policies shall contain the following provisions, or Contractor shall provide endorsements on forms approved by the City to add the following provisions to the insurance policies:

A. The policy or policies of insurance required by this section for Commercial General Liability and Automobile Liability Insurance shall be endorsed to provide the following:

(1) Additional Insured: The City, its officials, officers, employees, agents and volunteers, shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement; and

(2) Additional Insured Endorsements: Additional insured endorsements shall not (1) be restricted to "ongoing operations", (2) exclude "contractual liability", (3) restrict coverage to "sole" liability of Contractor, or (4) contain any other exclusions contrary to the Agreement; and, the coverage shall contain no special limitations on the scope of protection afforded to additional insureds.

(3) Notice: The policy or policies of insurance required by this section for Commercial General Liability and Automobile Liability Insurance shall be endorsed to state that coverage shall not be suspended, voided, cancelled, or modified, or reduced in coverage or in limits, except after thirty (30) days prior written notice by First Class U.S. Mail, postage-prepaid, has been provided to the City. Notwithstanding the foregoing, if coverage is to be suspended, voided, or cancelled because of Contractor's failure to pay the insurance premium, the notice provided to City shall be by ten (10) days prior written notice.

B. For all policies of Commercial General Liability Insurance, Contractor shall provide endorsements for completed operations to effectuate this requirement.

5-4.5.4 Deductibles and Self-Insured Retentions.

Any deductible or self-insured retention must be approved in writing by the City in advance and shall protect the City, its officials, officers, employees, agents and volunteers, in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

5-4.5.6 Primary and Non-Contributing Insurance.

All policies of Commercial General Liability Insurance and Automobile Liability Insurance shall be primary and any other insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents or volunteers, shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

5-4.5.7 Waiver of Subrogation.

All policies of Commercial General Liability and Automobile Liability Insurance shall contain or be endorsed to waive subrogation against the City, its officials, officers, employees, agents and volunteers, or shall specifically allow Contractor or others providing insurance evidence in compliance with the requirements set forth in this section to waive their right to recovery prior to a loss. Contractor hereby agrees to waive its own right of recovery against the City, its officials, officers, employees, agents and volunteers, and Contractor hereby agrees to require similar written express waivers and insurance clauses from each of its subcontractors.

5-4.5.8 Evidence of Coverage.

Concurrently with the execution of the Agreement, Contractor shall deliver certificates of insurance together with original endorsements affecting each of the insurance policies required by this section. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for written approval. The certificates of insurance and original endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15) days prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced and not replaced immediately so as to avoid a lapse in the required coverage, Contractor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. Contractor shall promptly furnish, at City's request, copies of actual policies including all declaration pages, endorsements, exclusions and any other policy documents City requires to verify coverage.

5-4.5.9 Requirements Not Limiting.

Requirement of specific coverage or minimum limits contained in this section are not intended as a limitation on coverage, limits, or other requirements, or a waiver of any coverage normally provided by any insurance. Nothing in this section shall be construed as limiting in any way the indemnification provision contained in this Agreement, or the extent to which Contractor may be held responsible for payments of damages to persons or property.

5-4.5.10 Enforcement of Agreement (Non-Estoppel).

Contractor acknowledges and agrees that actual or alleged failure on the part of the City to inform Contractor of any non-compliance with any of the insurance requirements set forth in this section imposes no additional obligation on the City nor does it waive any rights hereunder.

5-4.5.11 Insurance for Subcontractors.

Contractor shall either: (1) include all subcontractors engaged in any work or services for Contractor relating to this Agreement as additional named insureds under the Contractor's insurance policies; or (2) Contractor shall be responsible for causing its subcontractors to procure and maintain the appropriate insurance in compliance with the terms of the insurance requirements set forth in this section, including adding the City, its officials, officers, employees, agents and volunteers, as additional insureds to their respective policies. All policies of Commercial General Liability Insurance provided by Contractor's subcontractors performing any work or services related to this Agreement shall be endorsed to name the City, its officials, officers, employees, agents and volunteers, as additional insureds. Contractor shall not allow any subcontractor to commence any work or services relating to this Agreement unless and until it has provided evidence satisfactory to City that the subcontractor has secured all insurance required under this section.

5-4.5.12 Other Insurance Requirements.

The following terms and conditions shall apply to the insurance policies required of Contractor pursuant to this Agreement:

A. Contractor shall provide immediate written notice to City if (1) any of the insurance policies required herein are terminated, cancelled or suspended, (2) the limits of any of the insurance coverages required herein are reduced, or (3) the deductible or self-insured retention is increased.

B. All insurance coverage and limits provided by Contractor and available or applicable to this Agreement are intended to apply to each insured, including additional insureds, against whom a claim is made or suit is brought to the full extent of the policies. Nothing contained in this Agreement or any other agreement relating to the City or its operations shall limit the application of such insurance coverage.

C. None of the insurance coverages required herein will be in compliance with the requirements of this section if they include any limiting endorsement which substantially impairs the coverages set forth herein (e.g., elimination of contractual liability or reduction of discovery period), unless the endorsement has first been submitted to the City and approved in writing.

D. Certificates of insurance will not be accepted in lieu of required endorsements, and submittal of certificates without required endorsements may delay commencement of the Project. It is Contractor's obligation to ensure timely compliance with all insurance submittal requirements as provided herein.

E. Contractor agrees to ensure that subcontractors, if any, and any other parties involved with the Project who are brought onto or involved in the Project by Contractor, provide the same minimum insurance coverage required of Contractor. Contractor agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Contractor agrees that upon request, all agreements with subcontractors and others engaged in the Project will be submitted to the City for review.

F. Contractor agrees to provide immediate written notice to City of any claim, demand or loss against Contractor arising out of the work or services performed under this Agreement and for any other claim, demand or loss which may reduce the insurance available to pay claims, demands or losses arising out of this Agreement.

5-4.5.13 Contractor's Liability; City Not Liable; Claims Resolution

A. Contractor's liability. The Contractor shall be responsible for any loss or damage that may occur to:

- The work or any part thereof;
- Any of the materials or other things used or employed in performing the work;
- Any injury to any person or persons, either workers or the public;
- Any damage to property resulting from any cause which might have been prevented by the Contractor, including defects or obstructions at any time before completion of the work and its final acceptance.

B. City ordered precautions. If, in the opinion of the City Engineer, the precautions taken by Contractor are not safe or adequate at any time during the term of the Contract, the City Engineer may order the Contractor to take further precautions, and if the Contactor shall fail to do so, the City Engineer may order the work done by others and charge the Contractor for the cost thereof, such cost to be deducted from any moneys due or becoming due the Contractor. Failure of the City Engineer to order such additional precautions, however, shall not relieve the Contractor from his full responsibility for public safety.

C. City not liable. The City shall not be answerable or accountable in any manner, for any loss or damage that may occur to any of the following from any cause which might have been prevented by the Contractor:

- The work or any part thereof;
- Any of the materials or other things used or employed in performing the work;
- Any injury to any person or persons, either workers or the public;
- Any damage to property.

D. Claims Resolution. From time to time during the period of this contract, the City and/or the Contractor may be served with third-party claims, as a result of alleged conduct by Contractor. The following procedures shall be followed by City and Contractor:

For claims received by Contractor:

(1) Contractor shall provide City on a monthly basis details regarding any claim for damages to persons or property, including, date claim made, date of alleged damages, type of damages, alleged cause of damages and, as claims are resolved, details regarding Contractor's denial or payment of such claim and the reasons for denial or payment.

(2) Contractor shall resolve or deny any claim received within thirty (30) days of receipt. If Contractor is unable to resolve a claim within the thirty (30) days set forth above, it shall, prior to the expiration of the thirty (30) days request and extension in writing from the City.

For claims received by City:

(1) City shall process any claims received pursuant to Chapter 3-12 (Claims Against the City) of the Laguna Hills Municipal Code.

(2) If after investigation of the claim, the City determines the Contractor is liable under this Contract, City shall tender the claim to the Contractor for proper handling and resolution.

E. Retention of Claimed Damages by City. The City may retain so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the City until disposition has been made of such suits or claims for damages aforesaid.

5-7 SAFETY.

5-7.1.3 Traffic and Access. [Add the following to section]:

When entering or leaving roadways carrying public traffic, the Contractor's equipment, whether empty or loaded, shall in all cases yield to public traffic.

The Contractor shall notify in writing all affected property owners of the proposed construction schedule a minimum of forty-eight (48) hours, but not more than seventy-two (72) hours, in advance of any limitation or closure of access to their property. Form of said notice shall be as approved by the Engineer and shall contain the date and time of the closure. In the event of delay, whether beyond the control of the Contractor or not, the Contractor shall notify all affected property owners as to the extent of the delay and his revised schedule. In the event of delay over 72 hours, the Contractor shall re-notify the property owners as described above. Payment for notification and coordination as per Section 7-10 as modified herein shall be included in the compensation paid for the various items of work and no additional compensation will be allowed. The "Notices" will be furnished by the Contractor.

Pedestrian access shall be maintained at all times during construction and shall be in accordance with the Americans With Disabilities Act.

5.7.2 Safety Orders

5.7.2.1 General. [Add the following to this section]:

The Contractor shall comply with the provisions of any City ordinances or regulations regarding requirements for the protection of excavations and the nature of such protection.

In accordance with Section 6500 of the Labor Code, the Contractor is required to obtain a permit from the Division of Industrial Safety for any trench or excavation which if five feet or more in depth and into which a person is required to descent.

In accordance with Section 6705 of the Labor Code, prior to any excavation involving an expenditure in excess of twenty-five thousand dollars ($25,000) for the excavation of any trench or trenches five (5) feet or more in depth, Contractor shall submit to Engineer a written detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches.

Prior to beginning of excavations requiring shoring, the Contractor shall designate in writing to the Engineer someone whose responsibility it is to supervise the Project safety measures and someone whose responsibility it is to supervise the installation and removal of sheeting, shoring and bracing.

In addition to shoring the excavations in accordance with the minimum requirements of Industrial Safety Orders, it shall be the Contractor's responsibility to provide any and all additional shoring

required to support the sides of the excavation against the effects of load which may exceed those desired by using the criteria set forth in the Industrial Safety Orders. The Contractor shall be solely responsible for any damages which may result from his failure to provide adequate shoring of the excavation under any and all of the conditions of loading which may exist or which may arise during construction of the Project.

In accordance with Section 7104 of the Public Contract Code, any public works contract which involves excavations that extend deeper than four feet below the surface shall provide as follows:

(a) That the Contractor shall promptly, and before the following conditions are disturbed, notify the City, in writing, of any:

(1) Material that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, which is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

(2) Subsurface or latent physical conditions at the site differing from those indicated by information about the site made available to bidders prior to the deadline for submitting bids.

(3) Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally as inherent in work of the character provided for in the contract.

(b) The local public entity shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the work shall issue a change order under the procedures described in the contract.

(c) That, in the event that a dispute arises between City and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the work, the Contractor shall not be excused from any scheduled completion date provided for by the contract, but shall proceed with all work to be performed under the contract. The Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties.

5-7.2.2.1 Storage of Equipment and Materials in Public Streets. [Add the following section]:

The Contractor is required to, at his own expense, maintain and operate a work and storage area outside of the public right-of-way. In such case the Contractor shall submit to City written authorization from the owners of the subject property prior to occupation. Occupation of site without written authorization shall be grounds for immediate suspension of work. Location of site to be approved by City. Condition and operation of yard shall conform to these specifications. The Contractor shall assume full responsibility for all damage to the site resulting from his operations and shall repair and/or replace same, at his own expense, to the satisfaction of the owner of the subject property. The Contractor shall vacate site and return it to pre-Project condition within five (5) working days following application for Notice of Completion. The Contractor shall obtain a written release from the property owner accepting the condition of the vacated site and releasing the Contractor from any further clean-up or restoration work and shall submit a copy of such release to City. The Notice of Completion will not be issued until said release is submitted.

5-7.2.2.2 Street Closures, Detours, Barricades. [Add the following section]:

The Contractor shall perform lane closures and all traffic control operations in accordance with the applicable details in the California MUTCD, latest edition. No work shall be performed until the required lane closure traffic control has been installed and approved by the City. If the City does not feel that the Contractor is properly and safely implementing the MUTCD details, then work shall be stopped until such time as the Contractor can successfully remedy the deficiencies.

Portable delineators (traffic cones are not allowed), which conform to the California MUTCD, latest edition, shall be spaced as necessary for proper delineation of the travel way. The spacing between delineators shall not exceed 25 feet. The minimum lane transitions shall be a 50 to 1 taper. Double base delineators will be required.

The Contractor shall schedule the order of his work such that no travel lanes are closed before 8:30 A.M. or after 4:30 P.M. daily. A minimum of one through travel lane and all turning lanes in all directions with flaggers will be required at all times. The same number of travel lanes currently in use shall be opened to traffic during non-working hours. No street closures shall be made unless indicated on the approved traffic control plans. The traffic signal and traffic signal detectors shall remain operational continuously during the construction, and traffic loops that require replacement shall be disrupted no more than 5 calendar days before their replacement. **No weekend work (day or night) will be allowed, unless otherwise specified on the Plans or as approved by the City.**

The Contractor shall provide, at his expense, advanced warning signs advising the public of the impending major construction project and his proposed schedule. Said signs shall be posted at all major approaches to the construction zones a minimum of one week prior to the start of construction.

The Contractor shall designate at least one worker solely for the provision and maintenance of traffic control.

The Contractor shall be responsible for providing temporary access to all intersecting streets and driveways throughout the workday and at the end of each workday. A minimum of one access point shall be maintained for each commercial business during their normal business hours. **Pedestrian access shall be maintained at all times and temporary and permanent pedestrian access shall be in accordance with the Americans with Disabilities Act.**

The Contractor shall provide and maintain all other signs, barricades, pedestals, flashers, delineators and other necessary facilities for the protection of the public within the limits of the construction area and shall be maintained in a new or like new condition, free of damage and graffiti.

If the traffic delineators are damaged, displaced or not in an upright position, from any cause, said delineators shall immediately be replaced or restored to their original location, in an upright position, by the Contractor.

The Contractor shall furnish competent flagmen to give adequate warning to traffic or to the public of any dangerous conditions to be encountered. Flagmen, while on duty and assigned to give warnings to the public that the highway is under construction and of any dangerous conditions to be encountered as a result thereof, shall perform their duties and shall be provided with the necessary equipment in accordance with the California MUTCD. The equipment shall be furnished and kept clean and in good repair by the Contractor, at Contractor's expense.

Should the Contractor appear to be neglectful or negligent in furnishing warning and protective measures as provided, the Engineer may direct attention to the existence of a hazard and the

necessary warning and protective measures shall be furnished and installed by the Contractor at its own expense. Should the Engineer point out the inadequacy of warning and protective measures, such action on the part of the Engineer shall not relieve the Contractor from responsibility for public safety or abrogate his obligation to furnish and pay for these devices.

Where on-street parking is not allowed, the Contractor shall be required to post "Temporary No Parking" signs 48 hours prior to start of work. The Contractor will furnish the notification to property owners as mentioned in Section 7-10.1 and the “Temporary No Parking” signs.

No construction activities will be allowed on streets that are receiving trash pick-up services on the same day. A copy of the CR&R Waste Collection Map is available on the City’s website. The Contractor shall coordinate with the trash hauler in preparing the construction schedule. The Contractor shall provide a map showing the schedule of the work, which should coordinate with the trash and mail schedule, to the City at the preconstruction meeting.

Contractor shall notify the following entities at least forty-eight (48) hours in advance of any street closure or restriction to access.

1. Fire Department: Orange County Fire Authority, (714) 573-6000
2. Police Department: Orange County Sheriff’s Department, (714) 647-7000
3. School Districts: Saddleback Valley Unified: (949) 586-1234, Capistrano Unified: (949) 489-7000
4. Trash Collection: CR&R, (877) 728-0446
5. Street Sweeping: Sweeping Corp of America, (949) 413-0165
6. Transit Operations: Orange County Transportation Authority (OCTA), (714) 560-6282
7. Fire Department: Station 22, (949) 770-6016
8. Mail Service: US Postal Service

The City Engineer may add additional entities to this list at his discretion.

All existing stop signs, street name signs and regulatory signs shall be maintained in visible locations during construction. Where construction detours and signing conflict with existing signing, the Contractor shall cover existing signs in a manner approved by the City. The Contractor shall also provide temporary traffic restriping, or reflective white or yellow plastic tabs, at the conclusion of each working day, if not sooner, as directed by the City, for any centerline, painted median or lane line that is obliterated by construction.

The Contractor shall provide temporary delineation as directed/approved. Temporary delineation shall include sandblasting of conflicting markings; installation and removal of temporary centerlines or lane lines, detour signing, barricading; and replacement of traffic lines and markings in their proper locations upon termination of the detour. Conflicting existing and temporary striping, as required for traffic control during construction, shall be removed by the Contractor by using wet nozzle sandblasting methods with immediate clean up of residues.

Blacking-out of the pavement striping will not be allowed. Temporary reflective striping tape or reflective plastic tabs may be used, except that it shall not be applied to final asphalt surfaces. Said tape or tabs shall be removed from temporary surfaces prior to placement of additional asphalt.

The Contractor shall also be responsible for notifying adjacent businesses, residents (of affected residential tracts), and entities listed above, in writing seven (7) days in advance of any work that involves limited access. Said notice shall be reviewed and approved by the City in advance of its circulation. Contractor shall provide verification to the City that proper circulation of the notice has been accomplished.

The Contractor shall maintain a 24-hour emergency service to remove, install, relocate, and maintain warning devices. No later than 10 days after the award of the Contract, the Contractor shall furnish to the City, names, and telephone numbers of three persons responsible for this emergency service. In the event these persons do not promptly respond when notified, or it becomes necessary to call other forces to accomplish emergency service, the Contractor will be responsible for any cost incurred.

Prior to the start of each work day, the Contractor shall perform all necessary work incidental to and commensurate with the proper signing, detouring, barricading, etc., heretofore and hereinafter specified that is required for that particular day's schedule of operations. No construction shall be permitted until such signing and detouring operations have been completed and approved by the City.

Personal vehicles of the Contractor's employees shall only be parked in an allowed area as delineated by the City, and shall not be parked on the traveled way at any time, including any section closed to public traffic.

Flashing Arrow Signs:

Each flashing arrow sign shall be solar powered, mounted on a truck or on a trailer and shall be capable of operating while the vehicle is moving or as directed by the City.

Signs mounted on the cab of a truck shall be mounted to provide a minimum of 7 feet between the bottom of the sign and the roadway. Signs mounted on a trailer, or on anything other than the cab of a truck, shall be mounted to provide a minimum of 8 feet between the bottom of the sign and the roadway.

The total weight of trailer mounted flashing arrow sign including the trailer, sign, power source and other components shall not exceed 1,500 pounds and the height of the level trailer bed shall be no higher than 21 inches above the roadway. The trailer shall be equipped with a minimum of 3 leveling jacks.

Alternative types of lamps may be used in flashing arrow signs if visibility is equal to the specified lamps. Each type AX flashing arrow sign shall be a minimum of 2 feet high and 4 feet wide, and shall be finished with flat black enamel. A minimum of 13 No.4414AX 12-volt, yellow or amber lamps shall be installed in the panel. The lamp configuration shall be for 3 arrowheads or an arrow shaft with 2 arrowheads, one pointing in each direction on the face of the sign with a minimum of 5 lamps forming each arrowhead. Each lamp shall be provided with a visor.

The lamp shall be activated by a switch on a control panel and shall be controlled by electronic circuitry to provide a minimum of 4 selectable modes of operation as follows:

1. Pass Left Mode, - Sequencing of lighted arrowheads or sequencing the lamps forming the arrow shaft and arrowhead to the left or a flashing left arrow with the lamps in the arrow shaft and arrowhead flashing on and off simultaneously.

2. Pass Right Mode, - Sequencing of lighted arrowheads or sequencing the lamps forming the arrow shaft and arrowhead to the right or a flashing right arrow with the lamps in the arrow shaft and arrowhead flashing on and off simultaneously.

3. Simultaneous Mode, - Either the outside arrowheads pointing in opposite directions are continuously illuminated, except for the center lamp forming each arrowhead, while the arrow shaft lamps flash on and off simultaneously or the outside arrowhead pointing in opposite directions and the arrow shaft lamps all flash simultaneously to indicate passing on either side.

4. Travel Mode, - Travel or caution mode shall flash in a manner not resembling any other mode.

Lane Requirements:

There shall be a minimum of 5’ clearance from open excavations and two feet from other obstructions (curbs, k-rail, etc). All lanes shall be open to traffic during non-working hours.

The Contractor shall be required to use flashing arrow signs at all lane closures to direct travel and appropriate detour signing to control traffic through and/or around the construction area.

The Contractor will not be allowed to excavate a larger quantity of area (“digouts”) than can successfully be repaved in the same working day. No incomplete paving work will be allowed to remain during the hours designated as requiring “all” lanes open to traffic, except in specific instances in which a minor amount of area can safely be covered by approved means with non-skid steel plates, capable of carrying H-20 wheel loading, or patched with temporary AC to bring the excavation up to grade. Said temporary AC shall be ground down to permanent AC sub-grades and approved by the City prior to placement of any additional permanent AC.

Excavations of less than 4’ in width may be covered with non-skid steel plates capable of carrying H-20 wheel loading over the span of the excavation. Plates shall have a minimum width equal to the excavation width plus 24 inches and be securely fastened to the street surface. Asphalt fillers, a minimum of 6 inches wide shall be placed around the perimeter of the plate. When traffic is transferred to any type of temporary pavement surface good drivability of the surfaces shall be maintained and shall be subject to approval by the City prior to allowing traffic to be transferred upon it.

The Contractor shall also ensure that access to all side streets and driveways are maintained at all times. Work in front of or within driveways and side streets shall be conducted in a manner where at no time is access to property denied. Portions of driveway approaches that are not ready to be opened for traffic at the end of the workday shall be steel plated per the requirements noted in the previous paragraph. The Contractor shall use temporary AC surfacing at his own expense for traffic control as required to maintain traffic in a safe non-disruptive manner.

SECTION 6 - PROSECUTION AND PROGRESS OF WORK

6-1 CONSTRUCTION SCHEDULE AND COMMENCEMENT OF WORK.

6-1.0 General. [Add the following section]:

The Contractor's proposed Construction Schedule shall be submitted to the Engineer within ten (10) working days after the date of the Notice of Award of Contract. The schedule shall be supported by written statements from each supplier of materials or equipment indicating that all orders have been placed and acknowledged, and setting forth the dates that each item will be

delivered. The schedule shall establish the order of work which minimizes disruption of existing travel lanes.

Prior to issuing the Notice to Proceed, the Engineer will schedule a preconstruction meeting with the respective Contractor to review the proposed Construction Schedule and delivery dates, arrange the utility coordination, discuss construction methods, and clarify inspection procedures.

The Contractor shall submit periodic Progress Reports to the Engineer by the tenth day of each month. The report shall include an updated Construction Schedule. Any deviations from the original schedule shall be explained. Liquidated damages will be assessed pending receipt of any outstanding reports, as set forth in Section 6-9.1 below.

6-1.3 Construction Schedule (Critical Path Method) [Add the following section]:

The Contractor shall submit to the Engineer practicable critical path method (CPM) progress schedules in conformance with these Special Provisions. Whenever the term “schedule” is used in this section it shall mean CPM progress schedule illustrated by the Gantt Bar method. The schedule shall be prepared by qualified and experienced scheduling staff.

Schedules shall show the order in which the Contractor proposes to carry out the work with logical links between time-scaled work activities, and calculations made using the critical path method to determine the controlling operation or operations. The Contractor is responsible for assuring that all activity sequences are logical and that each schedule shows a coordinated plan for complete performance of the work.

The Contractor shall produce schedules using computer software and shall furnish compatible software for the Engineer’s exclusive possession and use. The Contractor shall furnish network diagrams, narrative reports, tabular reports and schedule data as parts of each schedule submittal.

The number of activities shall be sufficient to assure adequate planning of the Project, to permit monitoring and evaluation of progress, and to do an analysis of time impacts.

Schedule activities shall include the following:

A. A clear legible description.

B. Start and finish dates.

C. A duration of not less than one working day, except for event activities, and not more than 20 working days, unless otherwise authorized by the Engineer.

D. At least one predecessor and one successor activity, except for Project start and finish milestones.

E. Required constraints.

F. Codes for responsibility, stage, work shifts, location and contract pay item numbers.

The Contractor may show a scheduled completion date that is later than the Contract completion date on an update schedule, after the baseline schedule is accepted. The Contractor shall provide an explanation for a late scheduled completion date in the narrative report that is included with the schedule.

The Engineer's review and acceptance of schedules shall not waive any Contract requirements and shall not relieve the Contractor of any obligation thereunder or responsibility for submitting complete and accurate information. Schedules that are rejected shall be correct by the Contract and resubmitted to the Engineer within five (5) working days of notification by the Engineer, at which time a new review period of one week will begin.

Errors or omissions on schedules shall not relieve the contractor from finishing all work within the time limit specified for completion of the Contract. If, after, a schedule has been accepted by the Engineer, either the Contractor or the Engineer discovers that any aspect of the schedule has an error or omission, it shall be corrected by the Contractor on the next schedule.

Payment for the Project schedule and revisions/updates to the schedule shall be made under other items of work and no additional payment shall be made therefore.

6-1.4 Acceleration. [Add the following section]:

The City reserves the right to accelerate the work of the Contract at any time during its performance. In the event the City directs acceleration, such directive will be given to the Contractor in writing. The Contractor shall keep cost and other Project records related to the acceleration directive separately from the normal Project cost records and shall provide a written record of acceleration costs to the City on a daily basis.

In the event the Contractor believes that some action or inaction on the part of the City constitutes an acceleration directive, the Contractor shall immediately notify the City in writing that the Contractor considers the actions or inactions an acceleration directive. The Contractor shall not accelerate their work efforts until the City responds to the written notification. If acceleration is then directed or required by the City, all cost records referred to in the previous paragraph shall be maintained by the Contractor and provided to the City on a daily basis.

In order to recover additional costs due to acceleration, the Contractor must document that additional expenses were incurred and paid by the Contractor. Labor costs recoverable will only be overtime or shift premium costs or the cost of additional laborers brought to the site to accomplish the accelerated work effort. Equipment costs recoverable will only be the cost of added equipment mobilized to the site to accomplish the accelerated work effort.

6-2 PROSECUTION OF THE WORK [Replace the first sentence the following:]

To minimize public inconvenience and possible hazard and to restore street and other work areas to their original condition and state of usefulness as soon as practicable, the Contractor shall diligent prosecute the Work to completion and ensure that the construction of ARHM or FRAC overlay for any given portion of the roadway is completed no later than two (2) working days following the cold-milling of the same portion of roadway.

[Add to this section]

Construction Phasing/Scheduling Limitations:

- Construction Phasing:
    - Contractor shall submit a construction phasing plan to the City for review and approval prior to starting work. Phasing plans shall be prepared in accordance with the phasing requirements and the conditions included in the project specifications.

- Traffic Control:
    - Traffic Control setup at each location shall confirm to CA-MUTCD (Latest Edition) requirements and typical applications and shall be maintained on a daily basis by the contractor.
- Resident Access:
    - Contractor shall ensure that access is maintained in the morning and open by the end of each working day for each resident within the project limits. Working hours, as stated in Section 6-3, shall be maintained, and the contractor's operations shall be phased in such a manner to allow full access to residents during non-working hours.
- Localized Concrete Improvements (Curb/Gutter, Ramps, etc.):
    - All concrete improvements shall be completed prior to the start of any pavement grinding or reconstruction activities.
    - Contractor's operations shall be scheduled in such a way that no ramp or portion of sidewalk is left excavated, demolished, or formed over the weekend.
    - It shall be the contractor's responsibility to properly barricade the work area during non-working hours and to set up appropriate pedestrian detour/signage until the work is completed
    - Driveway access to each property shall be maintained at the end of each working day. Contractor shall ramp or plate the driveways to maintain access.
- Reconstruction Roadway Sections:
    - For roadways designated for reconstruction, phasing for each operation shall be scheduled as follows:
        - CMB installation shall be completed on the same day as the roadway demolition activities. No segment shall be left open overnight, and full access shall be maintained at the start and end of each working day.
        - Base paving asphalt for roadway segments designated to be reconstructed shall be installed no later than 5 working days after the start of roadway demolition.
        - Finished course paving for roadway segments designated to be reconstructed shall be installed no later than 10 working days after the base course paving operations for the given segment.
- Grind and/or Overlay Roadway Sections:
    - For roadways designated for grind and/or overlay, phasing for each operations shall be scheduled as follows:
    - Pavement transitions at the edge of each ground area shall be installed at the end of each work day and maintained for the duration of the project.

- Pavement dig outs and patching shall be completed within 5 working days of the start of the pavement grinding operations.

- Final paving shall be installed no later than 2 working days after the start of the pavement grinding operations.

- Slurry Seal Roadway Sections:

  - For roadways designated for slurry seal, phasing for each operation shall be scheduled as follows:

    - Contractor shall first perform weed abatement and crack sealing on all roadway segments identified for slurry seal per the project specification requirements.

    - Contractor shall locate and remove distressed portions of pavement per "Roadway Patching – Slurry Portion" below. No segment of Roadway Patching shall be left open overnight, and full access shall be maintained at the start and end of each working day.

    - Cleaning, roadway preparations, application and finishing of the slurry seal shall occur the same day

- Roadway Patching – Mill & Overlay Portion:

  - Roadway patching operations shall be scheduled PRIOR to the cold milling operations and prior to the final FRAC or ARHM overlay.

  - All localized roadway reconstruction patches shall be backfilled and compacted with base paving asphalt on the same day of excavation. No open excavations will be allowed at the end of the work day.

- Roadway Patching – Slurry Portion:

  - Roadway patching operations shall be scheduled PRIOR to the final RAP Slurry Seal.

  - All localized roadway reconstruction patches shall be paved and compacted with base paving asphalt on the same day of excavation. No open excavations will be allowed at the end of the work day.

- Asphalt Paving:

  - Roadway closures on arterial streets will not be allowed.

  - Contractor to coordinate with City regarding pavement phasing and requested work limits.

  - Roadway paving shall occur no later than 2 working days after the date of the cold milling operation.

6-3 TIME OF COMPLETION.

6-3.1 General. [Add the following to this section]:

The time for completion shall be as set forth in the General Specifications.

“The Contractor shall complete all work under the Contract within sixty (60) consecutive working days after the date on the Notice to Proceed.

The Contractor shall ensure the availability of all material prior to the start of work. Unavailability of material will not be sufficient reason to grant the Contractor an extension of time for 100 percent completion of work.”

Working Days. “Any City holiday, defined as January 1st, the third Monday in January (Martin Luther King Day), the third Monday in February (President's Day), the last Monday in May (Memorial Day), July 4th, the first Monday in September (Labor Day), November 11th (Veterans Day), the fourth Thursday and Friday in November (Thanksgiving and Friday after), December 24th through December 31st.”

Working Hours. Normal working hours are limited to 8:30 a.m. to 4:30 p.m., Monday through Friday.

The Contractor, subcontractors, suppliers, etc., shall not generate any noise at the work site, storage sites, staging areas, etc., before or after the normal working hours prescribed above.

Should the Contractor elect to work outside normal working hours, Contractor must first obtain special permission from the Engineer. The request may be for 4:30 p.m. to 6:30 p.m. on weekdays or 8:30 a.m. to 4:30 p.m. on Saturday only. A request for working during any of these hours must be made at least 72 hours in advance of the desired time period. A separate request must be made for each work shift. The Engineer reserves the right to deny any or all such requests. Additionally, the Contractor shall pay for supplemental inspection costs of $205.00 per hour when such time periods are approved.

6-3.2 Contract Time Accounting. [Add the following to this section]:

The Contractor's activities shall be confined to the hours between 8:30 AM and 4:30 PM, Monday through Friday, excluding holidays, unless otherwise specified. Slurry seal application operations, if any shall terminate no later than 1:30 PM of each working day or at the determination of the Engineer. Slurry seal application operations shall occur within two (2) days after scheduled trash pickup days. Work shall be prohibited any time on Saturday, Sunday or Federal Holidays except as provided herein. Deviation from these hours will not be permitted without the prior consent of the Engineer, except in emergencies involving immediate hazard to persons or property.

In the event of either a requested or emergency deviation, inspection service fees will be charged against the Contractor. The service fees will be calculated at overtime rates (premium time) including benefits, overhead, and travel time and are established based on the City’s current fee schedule or professional services agreement for construction inspection services. The service fees will be deducted from any amounts due the Contractor.

Construction activities during City Special Events may be restricted by City to exclude all or part of the work on primary arterial or access roads to the Special Events as determined by Engineer. The Contractor shall be responsible to ascertain the exact times of any such events within his proposed construction schedule which may restrict his operation and shall adjust his schedule accordingly. The construction restrictions shall only be for the actual days the events occur. All costs for maintaining traffic control, protection of work site and re-mobilization shall be deemed

as included in the lump sum contract for their respective items and no additional compensation will be allowed.

6-3.3 Completion, Acceptance, and Warranty. [Add the following section]:

Work will be deemed completed on the same date when the Notice of Completion is recorded with the County of Orange.

6-4 DELAYS AND EXTENSIONS OF TIME

6-4.1 General [Add the following to the end of this section:]

No time extension shall be granted unless the claimed delay meets each and every of the following conditions:

(a) The delay was caused by unforeseen events and was beyond the control of Contractor and its subcontractors and material suppliers;

(b) The delay was caused by events of which Contractor was not advised at or before the time of bidding;

(c) The delay impacted and delayed (i) the controlling items of Work (i.e., the as-built critical path, as determined from the as-planned schedule and the actual progress of the Work), or (ii) the Completion of the whole Work within the Contract time;

(d) The delay was not caused by Contractor or its subcontractors or suppliers, including but not limited to their breaches of contract or the standard of care;

(e) The delay was not associated with loss of time resulting from the necessity of submittals to CITY for approval, or from necessary CITY surveys, measurements, inspections and testing;

(f) The delay was not caused by usual or common weather for the time of year, including usual or common severe weather; and

(g) The delay could not have been prevented by the exercise of care, prudence, foresight, and diligence by Contractor.

Excusable delays may include acts of God, acts of public enemy, acts of the Owner or anyone employed by it, acts of another contractor in performance of a contract (other than this Contract) with the CITY, fires, floods, epidemics, quarantine restrictions, labor disputes, unusually and uncommonly severe weather for the time of year, unforeseen site conditions, or delays of subcontractors due to such causes. CITY shall take into consideration other relevant factors such as concurrent delays.

Contractor has the burden of proving that any delay was excusable, including but not limited to an analysis that establishes no concurrency.

No extension of time will be granted for an excusable delay caused by a shortage of materials unless the Contractor furnishes to the Engineer documentary proof that the Contractor has made every effort to obtain the materials from all known sources within reasonable reach of the Work in a diligent and timely manner, and further proof in the form of supplementary progress schedules that the inability to obtain the materials when originally planned did in fact cause a delay in final Completion of the entire Work which could not be compensated for by revising the

sequence of the Contractor's operations. The term "shortage of materials" shall apply only to materials, articles, parts or equipment which are standard items and are to be incorporated in the Work. The term "shortage of materials" shall not apply to materials, parts, articles or equipment which are processed, made, constructed, fabricated or manufactured to meet the specific requirements of the contract. Only the physical shortage of material will be considered under these provisions as a cause for extension of time. Delays in obtaining materials due to priority in filling orders will not constitute a shortage of materials.

6-4.3 Payment for Delays [Replace paragraph with the following:]

To be compensable, an excusable delay must be one for which the CITY is responsible, where the delay was unreasonable under the circumstances involved, and where the delay was not within the contemplation of the parties; **however**, Contractor shall not be entitled to monetary compensation when (a) Contractor could have reasonably anticipated the delay and avoided or minimized the cost impacts of it, such as judicious handling of forces, equipment, or plant, (b) there was a concurrent delay which does not qualify for monetary compensation under this paragraph, (c) the cause of the delay was reasonably unforeseen by the CITY or the delay was caused by factors beyond the control of the CITY, including but not limited to a delay under Section 2.2.8 above or a delay caused by a utility company's failure to perform despite CITY's reasonable arrangements for such performance; or (d) any other defense available to CITY under law or equity applies. Contractor has the burden of proving that any delay was excusable and compensable, including an analysis that establishes non-concurrency.

The Contractor may not seek damages for delay of a planned Completion of the Work before the contractual deadline for Completion of the Work.

6-9 LIQUIDATED DAMAGES. [Add the following to this section]:

It is agreed by the parties to the Contract that time is of the essence and that in the case that all the work is not complete before or upon the expiration of the time limit set forth, damage will be sustained by the City. For each consecutive calendar day in excess of the time specified for the completion of the work, the Contractor shall pay to the City $2,500.00. In addition, the City shall have the right to charge to the Contractor and to deduct from payments for the work the actual cost to the City of engineering, inspection, superintendence, and other overhead expenses, which are directly chargeable to the Contract and which accrue during the period of such delay. The expenses and damages described above shall be deducted from any money due the Contractor under this contract. The Contractor and his sureties shall be liable for any excess cost.

6-9.1 Additional Liquidated Damages. [Add the following section]:

Additional liquidated damages will also be assessed in the amount of $500.00 per calendar day for failure to follow a construction schedule or timely submit periodic progress reports as described in Section 6 of these Special Provisions.

Additional liquidated damages will also be assessed in the amount of $500.00 per calendar day for failure to mobilize to the Project site within 10 working days of the date of the Notice of Proceed as specified in these Special Provisions.

Additional liquidated damages shall be assessed in the amount of $1,000.00 per day for failure to restore damaged utilities within three (3) working days as specified in Section 5 of these Special Provisions.

Additional liquidated damages shall be assessed in the amount of $500.00 per incident that the Contractor reduces the traveled way width beyond the hours specified in Section 7-10 of these Special Provisions without written authorization from the City.

Additional liquidated damages shall be assessed in the amount of $500.00 per day for failure to comply with, or implement, or maintain the Storm Water Pollution Protection Plan (SWPPP) or Water Pollution Control Plan (WPCP), as required, by the City's NPDES permit with the Santa Ana or San Diego Regional Water Quality Board.

Additional liquidated damages shall be assessed in the amount of $500.00 per incident that the Contractor fails to install the Best Management Practices (BMP's) within 24 hours of notification as described in Section 7-8.6.2 of the Special Provisions.

SECTION 7 - MEASUREMENT AND PAYMENT

7-3 PAYMENT.

7-3.2 Partial and Final Payment. [Add the following to this section]:

The closure date for periodic progress payments will be five (5) working days prior to the first Monday of each month. The final progress payment will not be released until the Contractor returns the control set of Plans and Specifications showing the as-constructed conditions. The City shall withhold from the final payment $15,000 in the event that the Contractor fails to return the control set of Plans and Specifications showing the as-constructed conditions.

SUBSTITUTION OF SECURITIES

In conformance with Public Contract Code Section 22300, the Contractor may substitute securities for any monies withheld by the City to ensure performance under the Contract Agreement.

At the request and expense of the Contractor, the Contractor has the option to deposit securities, which have been approved by the City, and deposited with a State or Federally chartered bank as the escrow agent. Said securities will be used as a substitute for retention earnings required to be withheld by the City, pursuant to the construction contract. The Contractor shall be the beneficial owner of any securities substituted for moneys withheld and shall receive interest thereon. Said securities shall have no obligation to any other construction contract for substitution of securities in lieu of retention. When the Contractor deposits the City approved securities with the escrow agent, the escrow agent shall notify the City within 10 calendar days of the deposit. Said securities shall be evaluated quarterly by the escrow agent to verify the current market value. If the current market value of said securities falls below the required amount, the escrow agent shall notify the Contractor and require additional securities and/or cash to be submitted for City approval, and be held in the escrow account to meet the Contractor's obligations. Said securities shall be held by the escrow agent until such time as the escrow agent receives written notification from the City that the Contractor has satisfactorily completed his contract obligations.

Alternatively, the Contractor may request and the City shall make payment of retention earned directly to the escrow agent at the expense of the Contractor. The Contractor may direct the investment of the payment into securities and the Contractor shall receive the interest earned on the investments upon the same terms provided for securities deposited by the Contractor.

The type of securities deposited and the method of release shall be approved by the City Attorney's office.

The full five percent (5%) retention will be deducted from all payments. The City shall hold retainage from the Contractor and shall make prompt and regular incremental acceptances of portions, as determined by the City, of the Contract work, and pay retainage to the Contractor based on these acceptances. The Contractor, or subcontractor, shall return all monies withheld in retention from a subcontractor within 30 days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the Contract work by the City. Federal law (49 CFR Section 26.29) requires that any delay or postponement of payment over 30 days may take place only for good cause and with the City's prior written approval. Any violation of this provision shall subject the violating Contractor or subcontractor to the penalties, sanctions and other remedies specified in Section 7108.5 of the Business and Professions Code. These requirements shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to the Contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the Contractor, deficient subcontract performance, or noncompliance by a subcontractor.

The final retention will be authorized for payment thirty-five (35) days after the date of recordation of the Notice of Completion. . The City may withhold from release of the final retention amounts authorized under Public Contracts Code Sectio4n 7107 and/or 125% of amounts identified in any Stop Notices received by the City.

7-3.3 Delivered Materials. [Add the following to this section]:

Materials and equipment delivered but not incorporated into the work shall not be included in the estimate for progress payment.

7-3.4 Mobilization. [Add the following to this section]:

Mobilization shall consist of preparatory work and operations, including but not limited to those necessary for the movement of personnel, equipment, supplies, and incidentals to the Project site; for the establishment of all offices, buildings and other facilities necessary for the work on this Project; and for all other work and operations which must be performed or cost incurred prior to beginning work on the various contract items on the Project site. Mobilization is deemed to include all aspects of mobilization and de-mobilization work occurring during the life of the Project for any reason.

Full compensation for mobilization shall be included in the Contract **LUMP SUM** price bid for **Mobilization** and shall include full compensation for all costs incurred by the Contractor for doing all the work involved in mobilization as specified herein, and no additional compensation will be allowed. Mobilization shall not exceed 5% of the entire bid, excluding mobilization and as shown in the Proposal Bid Sheet.

7-3.5 Contract Unit Prices

7-3.5.1 General. [Replace with the following]:

If a change is ordered in an item of work covered by a Contract Unit Price, and such change does not involve substantial change in character of the work from that shown on the Plans or specified in the Specifications, then no adjustment in payment will be made regardless of the quantity of work performed.

If a change is ordered in an item of work covered by a Contract Unit Price, and such change does involve a substantial change in the character of the work from that shown on the Plans or specified in the Specifications, an adjustment in payment will be made per 7-3.7.

7-3.5.2 [Delete entire section]

7-3.5.3 [Delete entire Section]

7-3.7 Agreed Prices. [Replace with the following]:

Agreed Prices are prices for new or unforeseen work established by mutual agreement between the Contractor and the Agency. If mutual agreement cannot be reached, the Engineer may direct the Contractor to proceed on the basis of Extra Work in accordance with Section 7-4.

7-4 PAYMENT FOR EXTRA WORK.

7-4.2 Basis for Establishing Costs.

7-4.2.1 Labor [Amend as follows]:

Delete "Workers Compensation Insurance and Liability Insurance" from the "employer payments" in the first paragraph.

7-4.3 Markup.

7-4.3.1 Work by the Contractor. [Replace with the following]:

The following percentages shall be the maximum added to the Contractor's costs and shall constitute the markup for all overhead, profits, Workers Compensation Insurance & Liability Insurance;

1) Labor	20
2) Materials	15
3) Equipment Rental	15
4) Other Items and Expenditures	15

To the sum of the Costs and markups provided for this subsection, one percent shall be added as compensation for bonding. In any event, notwithstanding the above markups, the total labor mark-up shall not exceed 33% of the base labor hourly pay rate. No additional compensation shall be allowed.

7-4.3.2 Work by a Subcontractor. [Replace with the following]:

When all or any part of the extra work is performed by a Subcontractor, the markup established in 7-4.3.1 shall be applied to the Subcontractor's actual cost of work. A markup of ten percent (10%) on the first $5,000 of the subcontracted portion of the extra work and a markup of five percent (5%) on work added in excess of $5,000 of the subcontracted portion of the extra work may be added by the Contractor.

The markups mentioned hereinafter shall include, but are not limited to, all costs for all forms of insurance and the services of superintendents, project managers, timekeepers and other personnel not working directly on the change order and pickup or yard trucks used by the above personnel. These costs shall be reported as labor or equipment elsewhere except when actually performing work directly on the change order and then shall only be reported at the labor classification of the work performed.

7-8.6.3 STORM WATER POLLUTION PREVENTION

Construction activities will be conducted in a manner to protect channels, storm drains, and bodies of water from pollution. Water pollution control work shall consist of activities necessary to meet the requirements of the City's National Pollutant Discharge Elimination System (NPDES) Area wide Urban Storm Water Runoff Permit, the County's Drainage Area Management Plan (DAMP), The State's General Construction Activities Permit (Order No. 2022-0057-DWQ, NPDES No CAS000002, adopted September 8, 2022 and effective September 1, 2023), and as required by the Engineer. The Contractor shall coordinate water pollution control work with all other work done on the contract.

SECTION 9 – FACILITIES FOR CONTRACT PERSONNEL. [Add this section]:

9-1 EXTENDED FIELD OFFICE OVERHEAD COST.

Within fourteen (14) calendar days after receipt of the Notice to Proceed, the Contractor shall submit written statement to the City detailing its field office overhead costs which are time related. The City will review this first cost submittal and reach a written agreement with the Contractor on a daily field office overhead cost rate which shall be memorialized in a no cost change order. The daily rate agreed to in this change order will be applicable throughout the duration of the Contract. No field office costs will be paid until such an agreement is reached between the City and the Contractor and the change order concerning this daily rate is executed by both parties. Progress payments will be withheld pending receipt of the above-referenced cost submittal and executed change order.

The individual cost components of the daily field office overhead rate shall represent costs which increase as a direct result of any time extension caused solely and exclusively by an act or omission of the City. This listing may include such cost items as on-site project management, supervision, Engineering and clerical salaries; on-site utilities and rent; on-site company vehicles and their operating expenses; and site maintenance and security expenses. Field office overhead costs which are unaffected by increased time shall not be allowable cost in calculating the daily field office overhead rate. These non-time related costs include, but are not limited to, acquisition and installation of stationary equipment; temporary construction facilities; utilities and office furnishings (unless such items are rented or leased); the preparation of the site including clearing, grubbing, grading, fencing, mobilizations and demobilization costs; and the costs of permits, bonds and insurance coverage for the Project.

The individual wage cost components used to calculate the daily field office rate shall be supported by actual employee payroll records, not salary ranges or estimates. Hourly rates for management, supervisory, engineering, and clerical employees shall be based upon 2080 work hours per year and shall not include allowances for holidays, vacations, or sick time.

When applicable, the daily field office overhead rate shall be multiplied by the number of days the Contract is delayed or extended by change order and shall be added to the agreed upon change order cost. The days of delay shall be those caused solely by the acts or omissions of the City and documented by a time impact analysis prepared and submitted by the Contractor. In the event a deductive change order is issued which reduces time under the Contract, the daily field office overhead rate shall be used to calculate the deductive amount. No allowance for overhead costs and no profit allowance shall be added to the extended field office overhead cost.

SECTION 10 - RESPONSIBILITIES OF THE CONTRACTOR [Add this section]:

10-1 CONTRACTOR'S EQUIPMENT AND FACILITIES.

10-1.1 General.

Conduct of the Work. The Contractor shall behave, at all times, in a courteous, professional manner. While on site, or entering or exiting the site, there shall be no extraneous activity that might cause disruption to the Project site, surrounding areas, or residents. Failure to comply may result in the suspension of work, or removal of contractor's staff from the Project.

Noise Levels. A noise level limit of 86 dbA at a distance of fifty feet (50') shall apply to all construction equipment on or related to the job whether owned by the Contractor or not. The use of excessively loud warning signals shall be avoided except in those cases required for the protection of personnel.

10-2 COOPERATION AND COLLATERAL WORK.

The Contractor is advised as to the possibility of other construction projects within the proposed construction zone by the City, other governing agencies or private enterprises. In the event of such projects, the Contractor shall coordinate with the applicable parties as to the extent of any time required to complete their work and shall schedule its work and conduct its operations so as to permit access and time as required for the concurrent work. The Contractor shall immediately notify the City Engineer in the event of a delay in scheduling caused solely by this concurrent work. Payment for the above, if any, shall be deemed as included in the items of work as shown on the proposal bid sheet and no additional compensation will be allowed.

10-3 PROJECT SITE MAINTENANCE.

10-3.1 Cleanup and Dust Control.

The Contractor shall keep adjacent properties clean and free of rubbish and debris in a timely manner as necessary and/or as directed by the Engineer.

The Contractor shall implement effective handling, storage, usage, and disposal practices to control material pollution and manage waste and nonstormwater at the job site before they come in contact with storm drain systems and receiving waters.

10-3.1.1 Construction Cleaning [Add the following section]:

The Contractor shall:

(a) Initiate and maintain a daily program to prevent accumulation of debris on-site and along access roads and haul routes. Maintain areas under Contractor's control free of waste materials, debris, weeds 6" high, and rubbish. Maintain site in a clean and orderly condition.

(b) Provide suitable covered containers for deposit of debris and rubbish. Dispose of accumulation of extraneous materials, prohibit overloading of trucks to prevent spillages on access and haul routes and provide daily inspection of haul routes to enforce requirements.

(c) The Contractor shall supply self-loading motorized street sweepers equipped with a functional water spray system as part of his daily program.

(d) Schedule at a minimum, weekly collection and disposal of debris. Provide additional collections and disposals of debris whenever the weekly schedule is inadequate to prevent

accumulation.

The Contractor shall remove debris from closed or remote spaces prior to closing the space, control cleaning operations to minimize dust and other particulates and immediately remove clay and earth which adhere to the paved surface of the roadway. Remove by hand scraping, washing, sweeping, and/or other method(s) which will leave a clean non-skid surface without impairing, injuring or loosening the surface.

The Contractor is required to control dust throughout the life of the Contract. The control may be required by job conditions or City Engineer. In any case, the Contractor shall use water or other means to control the dust. No chemical agents may be used without written authorization from the Agency. The Contractor shall be solely responsible for safety problems, accidents or any other complications or claims arising from inadequate dust control.

No separate payment will be made for any work performed or material used to control dust resulting from the Contractor's performance of the work, or by public traffic, either inside or outside the right-of-way. Full compensation for such dust control will be considered as included in the price paid for the various items of work involved.

No separate payment will be made for any work performed or material used in cleaning the Project. Full compensation for such cleaning shall be considered as included in the price paid for the various items of work involved and no additional compensation will be allowed therefore.

10-5 TRAFFIC CONTROL PLAN (TCP).

It shall be the Contractor's responsibility to furnish a detailed traffic control plan prepared and stamped/signed by a licensed civil or traffic engineer licensed in the State of California for City approval. Detours shall be in accordance with Caltrans standards. The Contractor shall submit detailed drawings of any proposed detour(s)/lane closures to the City Engineer for approval prior to the commencement of work. **The traffic control plans shall be submitted to the City for review and approval within 10 working days after the date of the Notice of Award.**

10-6 CONTRACTORS RESPONSIBILITIES FOR WORK

Until Acceptance of the Work, the Contractor shall have the responsibility, charge and care of the Work and of the materials to be used therein (including materials for which it has received partial payment or materials which have been furnished by the City) and shall bear the risk of injury, loss or damage to any part thereof by the action of the elements or from any other cause, whether arising from the execution or from the non-execution of the Work.

The Contractor shall rebuild, repair, restore, and make good all injuries, losses, or damages to any portion of the work or the material occasioned by any cause before its completion and acceptance and shall bear the expense thereof. Where necessary to protect the work or materials from damage, the Contractor shall at his expense provide suitable drainage and erect such temporary structures as are necessary to protect the work or materials from damage. The suspension of the work from any cause whatever shall not relieve the Contractor of his responsibility for the work and materials as herein specified. If ordered by the City Engineer, the Contractor shall at his expense properly store materials which have been partially paid for by the City or which have been furnished by the City. Such storage by the Contractor shall be on behalf of the City, the City shall at all times be entitled to the possession of such materials, and the Contractor shall promptly return the same to the site of the work when requested. The Contractor shall not dispose of any of the materials so stored, except on written authorization from the City.

In an emergency affecting the safety of life or property, including adjoining property, the Contractor, without special instructions or authorizations, is authorized to act at his discretion to prevent such threatened loss or injury, and he shall so act as though instructed to do so by the City.

PART 2 - CONSTRUCTION MATERIALS

SECTION 200 – ROCK MATERIALS

200-1 ROCK PRODUCTS.

200-1.1 General. [Add the following to this section]:

Alternate Rock Material - Type "S" is specified unless otherwise indicated.

The weight loss as determined by ASTM C131, shall not exceed 15 percent during 100 revolutions nor 52 percent during 500 revolutions.

Specified gradations represent the limits which determine the suitability of aggregate for use. Actual gradation shall be uniformly graded from coarse through fine, remaining proportionately distant from these limits

Coarse aggregate is material retained on the No. 4 (4.75 mm) sieve and fine aggregate is material passing the No. 4 (4.75 mm) sieve.

Materials may be sampled at any time until final formal acceptable of the Work.

200-1.1.3 Source. [Add the following section]:

Before beginning Portland cement concrete, asphalt concrete, and slurry seal work, the Contractor shall submit the name of the supplier to the Engineer as specified in 3-8. The supplier shall have on file with the Agency mix designs for Porland cement concrete conforming to 201-1.1, asphalt concrete conforming to 203-6.2, and slurry seal conforming to 203-5.4.2, when required by Specifications.

200-1.1.2 Statistical Testing. [Add the following to this section]:

Whenever the results of an individual test for any property of a material, other than concrete compressive strength, does not comply with the limits specified for the moving average should the next test be of the same value as that of the test being considered, the production of that material shall be suspended until corrective changes have been made by the Contractor and test indicate that the quality of the next material to be used in the work complies with that specified moving average.

SECTION 201 – CONCRETE, MORTAR, AND RELATED MATERIALS

201-1 PORTLAND CEMENT CONCRETE.

201-1.1 Requirements.

201-1.1.1 General. [Add the following to this section]:

The same brand, type and source of cement and aggregate shall be used for all Portland Cement Concrete. All concrete used on the Project shall be 560-C-3250. Type V cement shall be used.

201-1.2 Materials.

201-1.2.1 Cement. [Add the following]:

Portland cement shall be Type II or Type V.

201-1.2.5.3 Fly Ash. [Delete this Section and Add the following]:

Fly ash shall not be used.

201-2 reinforcement for CONCRETE.

201-2.2 Steel Reinforcement. [Add the following]:

All reinforcing steel shall be Grade 60 unless otherwise shown on Plans.

SECTION 203 - BITUMINOUS MATERIALS

203-5.2 Mix Design. [Add the following to this section]:

The tests and mix design shall be performed by a laboratory capable of performing the applicable ASTM tests. The original laboratory report shall be signed by the laboratory that performed the tests/mix design and shall show the results of the tests on individual materials, comparing the test results to those required by the applicable ASTM tests. The laboratory shall report the quantitative effects of moisture content on the unit weight of the aggregate (bulking effect). The report shall clearly show the proportions of aggregate, filler (as determined from the tests, minimum and maximum), water (minimum and maximum), the design proportions of each component including additives, all test results used in producing the mix design and asphalt solids content based on the dry weight of aggregate and set-control agent usage. The Contractor shall submit for City approval the source of the rock and the gradation.

Prior to the time of delivery of each shipment of emulsified asphalt, the Contractor shall submit to the City test reports and certifications in accordance with Section 203-1.3 of the Standard Specifications. At the time of delivery of each shipment of aggregate, he shall also submit test reports from his vendors. No material shall be utilized until the certified reports have been checked by the City. Delays by the Contractor in furnishing the reports will not be grounds for any extension of Contract time.

The Agency will require up to 10 working days, from the time of receipt of the mix design, for evaluation of the material characteristics. This mix design will be used for the trial batches and test strips as described in Section 302-4.4.

203-5.4.2.1 Aggregate. [Add the following to this section]:

The grading of the combined aggregate and the percentage of emulsified asphalt shall be Type II and shall conform to the requirements indicated in Table 203-5.4.2.2.

Aggregate shall be dark in color from one material source.

203-5.4.2.4 Latex. [Add the following to this section]:

The emulsified asphalt shall have an additive of latex Ultra Pave 65K or approved equal. The latex shall be added at the emulsion plant after weighing the asphalt and before the addition of mixing water. The latex shall be added at a rate of two (2) percent of the weight of the emulsified asphalt. The cost for the latex additive shall be included in the unit price bid for Type II Slurry Seal.

SECTION 211 - MATERIAL TESTS

211-1 COMPACTION TESTS

211-1.1 Laboratory Maximum Density [Replace with the following:]

Laboratory maximum density tests shall be performed in accordance with Test Method No. Calif. 216G, Part II. The correction for oversized material as stated in Test Method No. Calif. 216 shall be replaced with Note 2 of ASTM D1557.

Proposed off-site fill material shall be inspected, tested and laboratory report issued prior to use in the work. Suitable excavated materials removed to accommodate new construction may be used as fill material subject to Soils Engineer's inspection and approval.

211-1.2 Field Density. [Add the following to this section]:

Field density tests will be made by the Engineer during the course of construction at the expense of the CITY. If field density tests indicate that any portion of the compacted sub-grade has density lower than that specified, the Contractor shall rework that portion until the specified density is

obtained. Retest of areas, which have failed compaction, will be performed by the Engineer at the Contractor's expense.

PART 3 - CONSTRUCTION METHODS

SECTION 300 EARTHWORK

300-1 CLEARING AND GRUBBING

300-1.1 General. [Add the following to this section]:

In addition to the work outlined in Subsection 300-1 of the Standard Specifications, the following items of work are included under Clearing and Grubbing unless otherwise covered by a specific bid item.

1. Mobilization work and operations per Subsection 7-3.4.
2. Documentation of existing conditions per Subsection 300-1.2 of these specifications.
3. Hand removal and disposal of all vegetation, trees, tree roots, trash and other objectionable material from the affected portion of the project and areas adjoining thereto.
4. Maintain dust control at all times by sweeping; including developing a water supply and furnishing and placing all water required for work done in the contract, including water used for extra work and water used for irrigation purposes.
5. Protection of utilities, trees, shrubs, fences, walls, and other facilities within the construction zone, except those specifically directed by the Engineer to be removed or relocated.
6. Daily cleanup work site including streets, sidewalks and driveways. Daily litter removal. Daily and as needed street sweeping as specified herein. Recycling of waste materials and provisions for refuse containers from CR&R.
7. Clearing and removal of debris from site of work.
8. Removal of structures, as directed by Engineer to be removed or abandoned.
9. Delay in work necessary to accommodate utility relocations by others.
10. Other items of work as directed in these specifications.

300-1.1.1 Preservation of Property. [Add the following section]:

Prior to start of demolition, the Contractor shall document existing conditions adjoining Project limits to establish preconstruction conditions that might be misconstrued as damage caused by site clearing. Contractor shall use sufficiently detailed photographs and videotape to document existing conditions of any damage. Contractor shall provide photographs and videotape to the Engineer upon request. Payment for this work shall be included in all other items of work and no additional compensation will be allowed.

300-1.2.1 Removal and Disposal of Materials. [Add the following section]:

All materials removed, except for materials indicated to be relocated or salvaged, become the property of the Contractor and shall be hauled to and lawfully disposed of at a site secured by the Contractor. The Contractor will provide the Engineer with a letter indicating the final disposition of materials hauled away and disposed offsite from the Project within five (5) working days after Project completion. No removed materials shall be left within the Project limits overnight.

Any existing irrigation system interfering with construction of new improvements shall be removed and relocated. Payment for removal and relocation of interfering existing irrigation system will be considered as included in the item of work interfering with the existing irrigation system and no additional compensation will be allowed.

Any curb drain or parkway drain within limits of removal shall be removed and replaced in kind. Payment for removal and reconstruction or curb drain and parkway drain will be

considered as included in the item of work removing the adjacent curb or sidewalk and no additional compensation will be allowed.
Prior to the removal of materials, the Contractor shall coordinate with the regional notification center (Underground Service Alert of Southern California) to mark out all existing utilities per Section 402. Contractor shall confirm location and depth of all existing utilities per Section 402 in order to avoid damage to them during removal operations.

300-1.2 Root Pruning and Tree Trimming [Add the following]:

303-1.2.1 Root Pruning.

1. Cut tree roots along both side of walk area, and behind existing edges to a minimum of 20-inches deep.
2. Tree roots will not be cut up to the base of the trunk.
3. All tree root cutting will be approved by the City's representative.

Root pruning equipment shall be specifically designed for this purpose, sharpened adequately to sever roots in a clean manner, and equipped with padded tracks or rubber tires to prevent scraping or marking of sidewalks.
All cuts shall be backfilled whether immediately upon completion of root pruning or upon completion of sidewalk and curb and gutter repairs and root barrier installation provided that adequate warning devices are placed and maintained at each location. Backfill material shall consist of dirt, Crushed Aggregate Base or crushed miscellaneous base. The Contractor shall repair or replace sprinkler system and all utility service connections within the right-of-way which are damaged or removed as a result of the root pruning operation. Repairs shall be initiated immediately and completed by the end of each working day. Repairs and replacements shall be at least equal to existing improvements, and shall match them in finish and dimension, and will be done at Contractor's expense.

300-1.3.1 General. [Add to this section:]
The work shall be done in accordance with Section 300-1.3.2 of the Standard Specifications except as modified and supplemented herein. Joins to existing pavement lines shall be full depth sawcuts. Final removal between the sawcut lines may be accomplished by the use of jackhammers or sledgehammers. Pavement breakers or stompers will not be permitted on the job. The Engineer must approve final removal accomplished by other means.
The Contractor shall maintain the job site in a clean and safe condition. The Contractor will remove any broken concrete, debris or other deleterious material from the job site at the end of each workday. All areas of roadway removal and replacement shall have a minimum trench width of 3-feet to facilitate maximum compaction. Contractor shall meet with the Engineer to mark out the areas of roadway removal and replacement."

300-1.3.2 Requirements. [Add the following]:
(a) Bituminous Pavement. It shall be the Contractor's responsibility to dispose of all suitable bituminous pavement at a recycling facility. The expense for such work shall be deemed as included in the unit price for various items of work in the contract. No additional compensation will be allowed.

(c) Concrete Curb, Walk, Gutters, Cross Gutters, Driveways, and Alley Intersections. Replace the first sentence of this Section with: "Saw cuts shall be neatly made to a minimum of two (2) inches." Replace the words "1-½ inch" of the last sentence with the words "two (2) inches".
(d) Miscellaneous

In addition to the work outlined in Subsection 300-1 of the Standard Specifications, the following items listed below will not be paid separately. The expenses for such work shall be deemed as included in the price bid for various bid items and no additional compensation will be allowed.

1. Tree removal and relocation, as required.
2. Removal of interfering portions of fences, planters, sign foundations, vegetation and irrigation systems.
3. Maintain dust control at all times by watering.
4. Protection of utilities, trees, fences, walls signs and other facilities within the construction zone, except those directed to be removed or relocated.
5. Relocation of existing parking bumpers, flag poles, posts, guard posts, curb drains, mailboxes and private property lighting systems not covered under other items of work.
6. Removal and salvaging of existing signs.
7. Removal and salvaging of existing bus shelters, street furniture and other appurtenances.
8. Removal of existing A.C. berm.
9. Removal of existing parkway drainage improvements such as curb drains, parkway culverts, etc.
10. All sawcutting of existing A.C. pavement and concrete pavement surfaces necessary to facilitate construction of the project.
11. Notifying owners of all newspaper machines and vending machines to remove their facilities from street. Contractor shall remove and dispose of said facilities if no action is taken by Owner.
12. Removal of any other items within the work zone which are not accounted for under individual items of work in these specifications.

300-1.5 Solid Waste Diversion. [Add section.]

Non reinforced concrete and asphalt wastes generated from the job site shall be disposed of at a facility that crushes such materials for reuse. Excess soil and other recyclable solid wastes shall not be disposed of at a sanitary landfill.

The Contractor shall maintain monthly tonnage records of total solid wastes generated and solid wastes disposed of at a sanitary landfill. The Contractor shall report said tonnage monthly to the Engineer on a form provided by the Engineer and provide appropriate confirmation documentation from the recycling facility.

300-2 UNCLASSIFIED EXCAVATION.

300-2.1 General [Add the following to this section]:

Unclassified Excavation shall consist of all saw cutting and excavation of existing roadway as necessary to construct the proposed AC “dig-out” improvements as directed by the Engineer.

Removals in AC pavement shall be minimum 3 inch depth and in PC concrete minimum 3 inch depth, or as directed by the Engineer.

Removal shall be done in accordance with Section 300-1 and Section 401 of the Standard Specifications and these Special Provisions.

The Contractor shall be responsible for locating and protecting manhole, water valve and utility access frames and covers or other metal appurtenances buried below the existing surface, whether shown on the plans or not.

All existing asphalt concrete pavement that is to be joined by new construction shall be saw cut in a straight line the full depth of the existing pavement. Contractor shall

exercise due caution to avoid any disruption to the existing aggregate base that is to remain below the depth of removal called out on the plans. In addition, the Contractor shall not disturb or damage existing improvements to be protected in place. Any damage done by Contractor and/or its equipment shall be repaired or replaced as called out in Section 402 of the Standard Specifications at Contractor's expense. The Contractor shall call USA prior to excavation and shall “pothole” existing utilities that fall within the proposed pavement ‘dig-out” areas as necessary to determine their depth to avoid damaging said utilities.

Removal of existing pavement sections shall be to the depth required for construction of the replacement roadway sections as shown on the plans, estimated bid quantities (proposal) and/or as directed by the Engineer before or after the Cold Mill operation, and will include the removal of existing AC pavement and conflicting portions of aggregate base. All removed material becomes the property of the Contractor and shall be hauled and recycled/disposed of properly outside of the roadway right of way.

The use of pavement breaking equipment (stomper) is not permitted. No crushing operations by Contractor will be allowed at the job site or within the Laguna Hills City limits. Contractor shall price the unclassified excavation and other related bid items accordingly.

The Contractor shall excavate a length of section of roadway not to exceed the amount of removal and placement of AC base course that can be completed within the same working day. All excavations shall be backfilled as soon as permitted under the specifications so that when the job is closed for the day, the open excavation will be kept at a minimum and adjacent utilities will receive maximum backfill support.

300-4 UNCLASSIFIED FILL

SECTION 301 –SUBGRADE PREPARATION, TREATED MATERIALS, AND PLACEMENT OF BASE MATERIALS

301-1 SUBGRADE PREPARATION

301-1.3 Relative Compaction. [Add the following to this section]:

Cross gutters are to be placed directly on subgrade material which the top 6 inches has been compacted to a relative compaction of 95 percent.

SECTION 303 - CONCRETE AND MASONRY CONSTRUCTION

303-5 CONCRETE CURBS, WALKS, GUTTERS, AND CROSS GUTTERS, ALLEY INTERSECTIONS, ACCESS RAMPS, AND DRIVEWAYS

303-5.1 Requirements.

303-5.1.1 General. [Add the following to this Section]:

Saw cuts shall be made at existing joints or cracks or at least 8 feet from an existing joint or crack, and if the saw cut is made at an existing crack, the saw cut shall include the crack within the removal area. Spandrel shall be saw cut a maximum 2 inches from curb face minimum 3 inch depth.

The Contractor shall verify with a “smart level” that the ADA required maximum ramp and sidewalk grades are not exceeded both when marking the required saw cut removal limits and when setting the concrete forms, prior to pouring any curb ramp locations. **It shall be the Contractor’s responsibility to supervise and utilize the proper experienced personnel to ensure that the proper saw cut limits are established for all curb ramp locations.** The City shall not be responsible to direct the Contactor’s crews or otherwise serve in this management capacity. The City shall be present to verity the concrete forms, prior to pouring any PCC construction improvements.

The Contractor shall verify with a “smart level”, string line and/or water testing that positive drainage is maintained. The City shall be present to verify the concrete forms, prior to pouring any concrete construction improvements.

Adjacent asphalt and base removal and replacement with full depth AC base course, associated with the curb and gutter reconstruction, shall be a minimum depth of 6-inches and a minimum width of 18-inches and shall conform to the requirements established elsewhere in these Special Provisions.

Note that existing traffic signal and interconnect conduits may be located at shallow depths under the existing PCC sidewalks at signalized intersections. The Contractor shall use extreme caution when removing existing PCC curb and gutter. The Contractor shall notify USA Dig Alert to identify existing utilities within the Project limits.

The sidewalk and curb ramp work shall include all related adjustments of pull boxes, pull box covers and protection of traffic signal poles and signs that fall within the proposed PCC ramp and sidewalk construction limits, unless otherwise called for on the plans. Since the adjustment of pull boxes and pull box covers may require lowering the pull box and pull box cover, said work shall also be considered to include the adjustment of conduit sweeps and conductors if they are found to encroach high enough into the new ramp finished surface plane. It is the Contractor’s responsibility to review in the field in advance all existing pullboxes, which fall within the proposed PCC ramp construction limits, to confirm whether the existing conduit sweeps and conductors will encroach into the proposed finished surface when the pullboxes are adjusted to grade and to bid accordingly.

The contractor shall schedule his operations in such a manner that the duration of time between demolition of curb and gutter, sidewalk and/or curb ramps and concrete placement shall not exceed 72 hours, which includes weekends. Sidewalk and curb ramps shall be opened to pedestrian access on the day following the concrete placement. In addition, all forms shall be removed, irrigation systems shall be repaired, and backfilled placed within 72 hours following concrete placement at each of the curb and gutter reconstruction locations. Section 6-9.1 of these specifications will apply for failure to adhere to these time limits.

Where retaining curbs are required at the back of curb ramp / sidewalk to make up for a difference in elevation between the existing grade and proposed curb ramp / sidewalk grade, the construction of said retaining curb shall be considered as part of the curb ramp / sidewalk work.

All work necessary to construct the improvements shall be confined to City right-of-way. All excavation and forms necessary to construct the improvements shall not disrupt private property. In cases where improvements on private property need to be removed, prior approval from the Engineer or designee shall be obtained, and said improvements shall be replaced to its original condition to the satisfaction of the Engineer or designee. **The contractor shall enter into a temporary agreement with the property owner to allow access for construction on private property. Such agreement shall be provided to the City immediately after signatures are**

obtained. Costs, if any, for obtaining authorization shall be deemed as included in all other items of work and no additional compensation will be allowed

Contractor shall ensure that the protection of all existing facilities, structures, and improvements on public and/or private property are maintained throughout the entire Project duration, including, but not limited to, the following: walls, driveways, decorative/colored concrete, stamped concrete, fencing, catch basins, curb and gutter, striping, signs, fire hydrants, landscaping, irrigation, concrete, and asphalt. Any damage to existing public and/or private facilities, structures, utilities, traffic signal loops, and improvements shall be repaired to the satisfaction of the Engineer by the Contractor at no cost to the City.

For the purpose of forming the new curbs and gutters, curb ramp, and cross gutter, a minimum of one-foot wide strip of asphalt concrete pavement shall be removed adjacent to the new curb and gutter, ramp, or cross gutter. The strip shall be replaced with a 12" full depth asphalt concrete as directed by the Engineer.

For the purpose of transitioning the new curbs and gutters, curb ramp, and cross gutter, a pavement transition may be required. The limits of removal shall be determined by the engineer. The pavement transition shall be replaced with a 12" full depth asphalt concrete as directed by the Engineer.

No open trench (forming strip or pavement digout) shall be left unattended at any time. All trenches shall be backfilled and paved or covered with steel traffic plates at the end of each working day.

In addition to concrete curb and gutter construction that is related to the concrete curb ramp construction; Concrete curb and gutter that is constructed in conjunction with the new curb ramps shall not be constructed monolithic with the adjacent curb ramp or sidewalk.

303-5.5 Finishing.

303-5.5.4 Gutter. [Add the following to this section]:

When the gutter is constructed, it shall be water tested. If any portion of the newly constructed gutter is shown to pond water, that portion, including curb if applicable, shall be removed, reconstructed and retested by the Contractor at no additional cost to the City. The exact limits of removal will be determined based on a survey conducted by City forces, unless otherwise directed by the Engineer.

303-9 SACK AND PATCH OF EXISTING CONCRETE CURB. [Add the following:]

The work done under this section is for the restoration of existing curb. All work incidental to performance of the work shall conform to Section 303-5 and the following specifications and instructions below:

Sack and Patch Procedure

Filling Large Voids:

Remove all cracked and crumbling areas using the point of a heavy-duty trowel or using a sledge and cold chisel to break away any thin or loose edges, squaring off the edges. Use a wire brush to remove any crumbling materials. Then sweep away and collect, or vacuum all dirt and debris down to a solid base. Create temporary forms as necessary for the face of the curb. Wet the areas

to be patched with water. Mix rapid-set cement according to manufacturer's instructions. Apply the mix with a trowel, using heavy trowel pressure. Overfill slightly and then trowel smooth to match the surrounding concrete. Remove formwork and trowel face and top of curb smooth. Sponge over the cement to smooth finish faces and tops. Allow cement mix to dry.

Filling Pits and Small Voids:

Use a wire brush to remove any loose materials. Then sweep away and collect, or vacuum all dirt and debris down to a solid base. Make a mortar consisting of one-part cement and two-parts, by volume, of sand passing a No. 16 screen plus enough water such that the consistency of the mortar will be that of thick cream. Wet curb with water using a sprayer. Apply the mortar thoroughly over the area by rubbing in with clean burlap or a sponge rubber float so that it fills all pits. While the mortar is still plastic, rub the surface over with a drier mix of the same material. This removes all excess plastic material and places enough dry material in the pits to stiffen and solidify the mortar. The filings should then be flush with the surface. No material should remain on the surface above the pits. Allow to cure. As necessary for color-uniformity or finished texture, prepare a paint-like cement mixture consisting of cement and water and apply with a sponge or brush to the curb top and face. It may be necessary to blend the cement with white cement to obtain a color matching that of the surrounding concrete surface.

PART 4 EXISTING IMPROVEMENTS

SECTION 400 - PROTECTION AND RESTORATION

SECTION 402 – UTILITIES

402-7 LOCATION. [Add the following section]:

The Contractor shall notify the utilities designated in the General Specifications at least 48 hours in advance of excavating around any of their structures.

The existence and locations of utilities shown on the drawings have been determined by a search of the available records as provided by the respective utility owner. The exact locations have not been determined by potholing unless so indicated on the drawings. The Contractor shall determine the exact location of all existing utilities prior to commencing work. **Contractor agrees to be fully responsible for any and all damages which may be caused by his failure to exactly locate and preserve any and all underground utilities, whether shown on the plans or not**. In the event the Contractor encounters underground utilities not shown on the plans, he shall verify the exact location of the utility and immediately notify the Engineer, regardless of whether the unknown utility conflicts with the proposed construction or not. In the event of such a previously unknown conflict, the Contractor shall immediately notify the Engineer as to the extent, if any, of delays or additional costs resulting from said conflict. The Contractor shall perform work and provide necessary materials to disconnect or relocate existing utilities as indicated. Record on record drawings all existing utility termination points before disconnecting.

When uncharted or incorrectly charted underground piping or other utilities and services are encountered during site work operations, notify the applicable utility company immediately to obtain procedure directions. Cooperate with the applicable utility company in maintaining active services in operation.

In the event the Contractor damages an existing utility line, the Contractor shall restore damaged utilities within three (3) working days.

Pursuant to Government Code Section 4215, if any main or trunkline utility facilities that are not indicated in the drawings, plans or specifications and are determined by Contractor to be located on the site of any construction project that is a subject of the contract, the City shall assume the responsibility for timely removal, relocation, or protection of the existing main or trunkline utility facilities. The Contractor will be compensated for the costs of locating, repairing damage not due to the failure of the Contractor to exercise reasonable care, and removing or relocating such utility facilities not indicated in the plans and specifications with reasonable accuracy, and for equipment on the Project necessarily idled during such work. The Contractor will not be assessed liquidated damages for delay in completion of the Project when such delay was caused by the failure of City or the utility owner to provide for removal of relocation of such utility facilities. Nothing herein shall be deemed to require the City to indicate the presence of existing service laterals or appurtenances whenever the presence of such utilities on the site of the construction Project can be inferred from the presence of other visible facilities, such as buildings, meter and junction boxes, on or adjacent to the site of the construction; provided, however, nothing herein shall relieve the City from identifying main or trunklines in the plans or specifications. Nothing herein shall preclude the City from pursuing any appropriate remedy against the utility for delays which are responsibility of the utility. Nothing herein shall be construed to relieve the utility from any obligation as required either by law or contract to pay the cost of removal or relocation of existing utility facilities. If the Contractor, while performing the contract, discovers utility facilities not identified by the City in the Contract Plans or Specifications, Contractor shall immediately notify

the Engineer and utility in writing. The public utility, whether they are the owner, has sole discretion to perform repairs or relocation work or permit the Contractor to do such repairs or relocation work at a reasonable price.

BID ITEM DESCRIPTIONS
El Conejo Park Rehabilitation
Laguna Hills, California

GENERAL STANDARD SPECIFICATIONS

The Standard Specifications for the construction materials and construction methods as set forth in the "Standard Specifications for Public Works Construction", 2018 Edition shall be the Standard Provisions for all the Work to be done and the provisions of the Contract for the Work. In case of conflict between the Standard Specifications and these Technical Provisions, the Technical Provisions shall take precedence over and prevail over such conflicting portions.

Base Bid

Mobilization

Bid Items No. 44, 54

Mobilization shall consist of preparatory work and operations including all of the labor, equipment, tools, supplies, costs, arrangements, and others that are necessary for the movement of personnel, equipment, materials, and incidentals to the project site necessary for work on the project and for all other work and operations which must be performed including, but not limited to, bonds, insurance, arranging and coordinating with the playground manufacturer, securing an adequate storage site for equipment and materials, and financing prior to beginning work on the various contract items on the project site.

The cost of time, materials, and labor to move the necessary construction equipment to and from the site, supervisory time on the job by the Contractor's personnel to keep the construction site in a safe condition, and all other related work as required at all times and for all non-working days during the construction period shall have been included in the bid.

PAYMENT

Payment for the preceding shall be included in the **LUMP SUM** for mobilization and shall be considered full compensation including the cost for obtaining all of the required business licenses and permits.

Traffic Control & Work Site Protection

Bid Item No. 1

1.1DESCRIPTION

Traffic control, construction signing, and traffic maintenance shall comply with the provisions of Subsection 7-10 of the Standard Specifications and the current requirements set forth in the "Manual of Traffic Controls for Construction and Maintenance Work Zones" published by the Department of Transportation, State of California, these Technical Provisions, and as directed by the Engineer.

1.2PROTECTION OF WORK AND PUBLIC

The Contractor shall take all necessary measures to protect work and prevent accidents during any and all phases of the work. The Contractor shall repair all damaged new improvements as a result of vandalism (i.e., vehicle tracks, footprints, writing, etc.). If deemed necessary by the City, the Contractor shall repair, at its cost, the defective area in accordance with these Technical Provisions.

1.3CONSTRUCTION SIGNING

Construction signing shall consist of furnishing, installing, maintaining and removing construction signs and barricades as required by the "Manual of Traffic Controls for Construction and Maintenance Work Zones". The traffic control system shall be installed prior to starting work and shall not be removed until all work has been completed.

Also, in conjunction to the public relations effort, Contractor shall supply and erect project construction information signs at the designated locations as determined by the City. Such signs shall conform to the City's specifications. Specific verbiage to be determined by the City. There shall be a minimum of four (4) such signs posted.

1.4TRAFFIC MAINTENANCE

The Contractor shall be responsible for handling vehicular and pedestrian traffic in accordance with Subsection 7-10 of the Standard Specifications and these Technical Provisions.

The Contractor shall cooperate with the Engineer relative to handling traffic through all work areas and shall make his own arrangements relative to keeping the working area clear of parked vehicles and maintaining clear access to driveways.

Contractor's equipment and personal vehicles of the Contractor's employees shall not be parked on the traveled way at any time. Overnight parking of construction equipment in the work zone or on adjacent roads is not permitted. Parking of construction equipment shall be confined to the approved storage site.

1.5RESTRICTIONS ON CLOSURE OF STREETS AND TRAFFIC LANES

The Contractor shall conduct all operations so as to provide reasonable access to the existing park facilities and have no greater length or quantity of work under construction that can be properly constructed with a minimum of inconvenience to the public. Traffic lane closures shall be coordinated with the City Engineer. The contractor shall provide adequate notice to the City.

PAYMENT

Payment for traffic control shall be made at the contract **LUMP SUM** price bid and shall be considered full payment for furnishing all materials, labor, equipment, and all incidentals necessary to complete work in accordance with the Standard Specifications and these Technical Provisions.

Temporary Construction Fencing

Bid Item No. 2

Temporary Construction Fence shall be 6’ tall chain link fence with screening. Fence shall be secured and locked at all times. Fence shall be anchored and utilize base plates and sandbags for wind protection. Contractor shall remove graffiti immediately.

PAYMENT

Payment for **Temporary Construction Fence** shall be made at the contract unit price per **Lump sum (LS)** as set forth in the bid schedule and shall be considered full compensation for furnishing labor, materials, tools, equipment, incidentals, for the installation and maintenance and removal of the construction fence. No additional compensation will be allowed

Softscape Demolition

Bid Item No. 3

Softscape Demolition shall conform to Subsection 300-1 of the GREEN BOOK and shall include all clearing and grubbing for the construction of the new improvements, and any

clearing and grubbing and/or removal and replacement shown on the plans for which there is no bid item of work.
Clearing and grubbing shall include the removal and disposal of existing trees/shrubs and existing irrigation valves within the limits of work, as shown on the plans and as directed by the City. Contractor shall coordinate with the City prior to the removal of the existing. Any improvements, landscaping and irrigation destroyed by construction operations shall be replaced by the Contractor. Any replacement including plant materials and irrigation system shall be approved by the City prior to any construction. The Contractor shall control any dust that is caused by clearing and grubbing operations.
No additional compensation will be allowed for removal or disposal of any other materials, which may require special handling or disposal.

PAYMENT
Payment for **Softscape Demolition** shall be paid at the contract unit price per **Lump Sum (LS)**, and shall include full compensation for providing all labor, materials, equipment, and other related work as required. No additional compensation shall be allowed. Payment for this item of work shall be paid as a percentage of completed work to date.

Earthwork
Bid Item No. 4
Earthwork, removal and grading, removal and disposal of unclassified excavation, structural excavation, import and placement of selected backfill in existing swale being replaced with underground storm drain, export of existing material as indicated on Plans, removal of asphalt concrete pavement, sidewalk, driveways, etc. for proposed improvements shall conform to the applicable portions of Section 300 of the Standard Specifications for Public Works Construction and recommendations of a Geotechnical Report prepared by Global Geo-Engineering, Inc. Such work shall include all the cost of all labor, equipment, tools, supplies, and all other costs required to:

- Arrange with DigAlert to mark all potential interfering underground wet and dry utilities within the work limits;
- To the extent possible search, identify, and mark other underground utilities that were not identified by DigAlert;
- Expose, cut, and cap all existing irrigation lines and components along the excavate limits;
- Excavate, remove, and properly dispose of existing interfering soil and landscape materials;
- Remove and dispose of all interfering tree roots and organic matters. Root prune as described on the Landscaping Plan; and
- Grade to the elevations shown on plans. Backfill all voids and holes with similar and clean materials. Import as needed.
- Remove, and dispose of existing subgrade and compact soil backfill under the new concrete walks, and other areas of work as shown on the Plans and in accordance with the Geotechnical Report.
- Import and placement of selected backfill.

PAYMENT
Payment for **Earthwork** shall be paid at the contract unit price **per Lump Sum (LS)**, and shall be paid based on the percentage of work completed. The compensation shall include the compliance with the requirements specified and shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved and no additional compensation will be made therefor.

Water Pollution Control
Bid Item No. 5
Construction activities will be conducted in a manner to protect channels, storm drains, and bodies of water from pollution. Water pollution control work shall consist of activities necessary to meet the requirements of the City's National Pollutant Discharge Elimination System (NPDES) Area wide Urban Storm Water Runoff Permit, the County's Drainage Area Management Plan (DAMP), The State's General Construction Activities Permit (Order No. 2022-0057-DWQ, NPDES No CAS000002, adopted September 8, 2022 and effective September 1, 2023), and as required by the Engineer. The Contractor shall coordinate water pollution control work with all other work done on the contract.

Contractor shall install erosion and sediment control measures as indicated on Improvement Plans.

PAYMENT
Full compensation for Water Pollution Control shall be paid at the contract unit price per the **Lump Sum (LS)**, and shall include full compensation for all costs incurred by the Contractor for Implementing Best Management Practices, complying with the requirements of the Project's Erosion Control Plan and the cost of any required permits and no additional compensation will be made therefore. Payment shall be on a lump sum basis of the percentage of total contract work performed.

Trees
Bid Item No. 6
Work under this bid item shall include all costs associated with the furnishing and installation of the Trees from various box sizes as indicated on the Planting Plans and Planting Schedule in the Construction Documents and specifications Section 32 90 00 Landscaping.

PAYMENT
Payment for **Tree** shall be paid for at the contract price per **Each (EA)** as set forth in the bid schedule and shall include full compensation for all labor, materials, tree stakes, tree brace, tools, equipment, and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

90-Day Maintenance
Bid Item No. 7
Work under this bid item shall include all costs associated with the Ninety Day Maintenance Period per technical specifications Section 32 93 95 and as per the direction of the City Engineer.

PAYMENT
Payment for the **Ninety Day Maintenance** shall be made at the **Lump Sum (LS)** contract unit price bid as shown in the Bid Schedule and shall include full compensation for all labor, materials, tools, equipment, mulching, removals and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

Drinking Fountain Demo
Bid Item No. 8
Perform Drinking Fountain demolition work in a pre-planned, systematic, efficient, and orderly manner. Deploy customary and acceptable methods as required to complete the Work indicated on the Plans in accordance with governing regulations. This includes all costs associated with removing and properly disposing of the drinking fountain and all necessary other aspects of the existing drinking fountain system that aren't to be repurposed as outlined in the plans.

1.1 DISPOSAL OF DEMOLISHED MATERIALS

All removed materials not salvaged or reused shall be removed from the project site no later than the end of each workday and transported legally for disposal at a qualified site. If hazardous materials are encountered, notify the City Inspector immediately.
Burning of removed materials is not permitted.

1.2 ADJUSTMENT OF EXISTING SANITARY SEWERAGE, WATER, GAS, ELECTRICAL AND TELECOMMUNICATION SYSTEMS

All existing utility facilities, i.e. manholes, vaults, irrigation boxes, valve cans, etc. may or may not have been indicated on the plans. While these items are not expected on this project, the Contractor is nevertheless hereby made aware that such encounter will require the contractor to bear the cost to raise ALL to finished grade at no additional cost to the City.
Drawings show existing major underground utilities using the best information available. Verification of existing utilities and the actual locations are the Contractor's responsibility. Any utility inadvertently damaged by the Contractor shall be immediately called to the City's attention for shutoff and then be immediately repaired by the Contractor at its own cost within 4 hours.

1.3 CLEANUP AND REPAIR

The Contractor, at the end of each workday, shall dispose of all removed materials from the site. The Contractor also shall protect the site and new improvements from vandals or other damages at all times until City acceptance.

PAYMENT
Payment for drinking fountain demolition shall be made at the contract **LUMP SUM** included in the bid price and shall have included all of the costs for labor, equipment, supplies, tools, haulers, permit and disposal dump fees, security personnel, and other items of work to dispose of all unwanted materials and to clear, protect, and maintain the jobsite at no additional cost to the City.

Drinking Fountain Paving Demo
Bid Item No. 9
Unless separately designated, **Drinking Fountain Paving Demo** shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to

the depth indicated on the plans or as directed by the **Engineer**. All removal of asphalt concrete, base material, debris, concrete, curbs, berms, pipes, structures, foundations, fences, and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Drinking Fountain Paving Demo.**

PAYMENT
Payment for **Drinking Fountain Paving Demo** shall be paid at the contract unit price per **Square Foot (SF)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Drinking Fountain
Bid Item No. 10
Work under this bid item shall include all costs associated with the installation of all **Drinking Fountain** as provided by (purchased by) the Contractor and specifications Section 12 93 00 Site Furnishings and Miscellaneous Materials and as required by product manufacturers installation instructions.

PAYMENT
Payment for the **Drinking Fountain** shall be paid at their respective contract unit prices per **Lump Sum (LS)** as indicated in the Bid Schedule and shall be considered full compensation for furnishing labor, materials, tools, equipment, fittings, footings, hardware, and incidentals for doing all work involved in hauling, lifting, assembling for the installation complete, permanently attached in place as shown on the plans and Manufacturer's instructions. No additional compensation shall be allowed.

Concrete Paving at Drinking Fountain
Bid Item No. 11
Work under this bid item shall include all costs associated with the construction of **Concrete Paving at Drinking Fountain** with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(P-101)** on sheet L-300 in the Construction Documents and specifications Civil Section 4" Thk. Reinforced Concrete Walkway over 8" Crushed Aggregate Base, Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, No additional compensation will be allowed, No additional compensation will be allowed.

PAYMENT
Payment for Bid Items **Concrete Paving at Drinking Fountain** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, hardware, stone, grout, base materials, sand, aggregate, rock, sealers, sealant, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement paving complete in-place with thickened edge, reinforcement, jointing, and scoring, finishing, including additional cleaning, taping, masking required for joint sealant as shown on the Plans. No additional compensation shall be allowed.

Modify Lawn and Irrigation at Drinking Fountain

Bid Item No. 12

Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new sod around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 92 23 Sod and Section 32 93 95 90 Day Maintenance

PAYMENT

Payment for **Modify Law and Irrigation at Drinking Foutain** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of turf from sod including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

Existing Monument Sign Demo

Bid Item No. 13

Unless separately designated, Existing Monument Sign Demo shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to the depth indicated on the plans or as directed by the **Engineer**. All removal of sign material, debris, concrete, foundations and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Existing Monument Sign Demo**

PAYMENT

Payment for **Existing Monument Sign Demo** shall be paid at the contract unit price per **Lump Sum (LS)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Monument Sign

Bid Item No. 14

Work under these bid items shall include all costs associated with the construction of Monument Sign with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(W-101A)** on sheet L-300 in the Construction Documents and specifications Section 09 96 23 Graffiti Resistant Coating.

PAYMENT

Payment for Bid Items under Monument Sign shall be at the contract unit price for **Lump Sum (LS)** as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, inspections, testing, sealers and anti-graffiti coatings, water proofing, reinforcement, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and construction Cast-in-place (CIP) and including footings as shown on the plans, specifications. No additional compensation shall be allowed.

Paving Demo for ADA Pathway Compliance

Bid Item No. 15

Unless separately designated, **Paving Demo for ADA Pathway Compliance** shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to the depth indicated on the plans or as directed by the Engineer. All removal of asphalt concrete, base material, debris, concrete, curbs, berms, pipes, structures, foundations, fences, and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Paving Demo for ADA Pathway Compliance.**

PAYMENT

Payment for **Paving Demo for ADA Pathway Compliance** shall be paid at the contract unit price per **Square Foot (SF)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Remove Existing and Install NDS 1200 Square Polypropylene Catch Basin w/ 1212 Square Grate

Bid Item No. 16

Removal of existing drain grate and installation of NDS 1200 Square Polypropylene Catch Basin w/ 1212 Square Grate shall be as shown per the project plans. Demolition, Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans, the Special Provisions and these Technical Specifications, unless otherwise noted. Material for polypropylene for the installation. Location for installation of grate shall be verified prior to construction.

PAYMENT

Payment for **Remove Existing and Install NDS 1200 Square Polypropylene Catch Basin w/ 1212 Square Grate** shall be paid at the contract unit price per **Each (EA)**, and shall include full compensation for providing all labor, demolition, installation of new drain grate system, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

Concrete Paving at ADA Pathway Compliance

Bid Item No. 17

Work under this bid item shall include all costs associated with the construction of **Concrete Paving at ADA Pathway Compliance** with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(P-101)** on sheet L-300 in the Construction Documents and specifications Civil Section 4” Thk. Reinforced Concrete

Walkway over 8” Crushed Aggregate Base, Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, No additional compensation will be allowed.

PAYMENT
Payment for Bid Items **Concrete Paving at ADA Pathway Compliance** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, hardware, stone, grout, base materials, sand, aggregate, rock, sealers, sealant, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement paving complete in-place with thickened edge, reinforcement, jointing, and scoring, finishing, including additional cleaning, taping, masking required for joint sealant as shown on the Plans. No additional compensation shall be allowed.

ADA Pathway Ramp Handrail
Bid Item No. 18
Work under this bid item shall include all costs associated with the construction, fabrication and installation of the metal handrail with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(R-101)** on sheet L-300 in the Construction Documents and specifications Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, Section 05 50 00 Metal Fabrications, No additional compensation will be allowed. All railings shall be set plum and shall be accessible, complying with the 2022 CBC.

PAYMENT
Payment for Bid Items **ADA Pathway Ramp Handrail** shall be at the **Linear Feet (LF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, hardware, stone, grout, base materials, sand, aggregate, rock, steel pipe and posts, sealers, sealant, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, reinforcement, jointing, and scoring, finishing, including additional cleaning, taping, masking required for joint sealant, installing, grouting and steel railing for handrails complete in-place as shown on the Plans. No additional compensation shall be allowed.

Demo and Install New Removable Bollard
Bid Item No. 19
Work under this bid item shall include all costs associated with the demolition of existing and construction/installation of the removable bollard and footing with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(S-109)** on sheet L-300 in the Construction Documents and specifications Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, Section 05 50 00 Metal Fabrications, No additional compensation will be allowed. All bollard shall be set plum.

PAYMENT
Payment for Bid Items **Demo and Installation New Removable Bollard** shall be at the **EACH (EA)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for remove of existing bollard and footing, cleaning,

furnishing labor, materials, integral coloring agents, acid finishes, hardware, stone, grout, base materials, sand, aggregate, rock, bollard system, sealers, sealant, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, reinforcement, jointing, and scoring, finishing, including additional cleaning, taping, masking required for joint sealant, installing, grouting complete in-place as shown on the Plans. No additional compensation shall be allowed.

Modify Lawn and Irrigation at ADA Pathway
Bid Item No. 20
Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new sod around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 92 23 Sod and Section 32 93 95 90 Day Maintenance

PAYMENT
Payment for **Modify Law and Irrigation at ADA Pathway** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of turf from sod including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

New Planting and Irrigation at ADA Pathway
Bid Item No. 21
Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new planting from, various box and gallon sizes as indicated on the Planting Plans and Planting Schedule, around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 90 00 Landscaping and Section 32 93 95 90 Day Maintenance

PAYMENT
Payment for **New Planting and Irrigation at ADA Pathway** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters,

valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of shrubs from various gallon size including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

Playground Demo

Bid Item No. 22

Perform demolition of the existing playground structures work in a pre-planned, systematic, efficient, and orderly manner. Deploy customary and acceptable methods as required to complete the Work indicated on the Plans in accordance with governing regulations. This includes all costs associated with removing above ground playground equipment and all below grade concrete footings and structures.

1.1DISPOSAL OF DEMOLISHED MATERIALS

All removed materials not salvaged or reused shall be removed from the project site no later than the end of each workday and transported legally for disposal at a qualified site. If hazardous materials are encountered, notify the City Inspector immediately.
Burning of removed materials is not permitted.

1.2 ADJUSTMENT OF EXISTING SANITARY SEWERAGE, WATER, GAS, ELECTRICAL AND TELECOMMUNICATION SYSTEMS

All existing utility facilities, i.e. manholes, vaults, irrigation boxes, valve cans, etc. may or may not have been indicated on the plans. While these items are not expected on this project, the Contractor is nevertheless hereby made aware that such encounter will require the contractor to bear the cost to raise ALL to finished grade at no additional cost to the City.
Drawings show existing major underground utilities using the best information available. Verification of existing utilities and the actual locations are the Contractor's responsibility. Any utility inadvertently damaged by the Contractor shall be immediately called to the City's attention for shutoff and then be immediately repaired by the Contractor at its own cost within 4 hours.

1.3 CLEANUP AND REPAIR

The Contractor, at the end of each workday, shall dispose of all removed materials from the site. The Contractor also shall protect the site and new improvements from vandals or other damages at all times until City acceptance.

PAYMENT

Payment for demolition and site clearing shall be made at the contract **LUMP SUM** included in the bid price and shall have included all of the costs for labor, equipment, supplies, tools, haulers, permit and disposal dump fees, security personnel, and other items of work to dispose of all unwanted materials and to clear, protect, and maintain the jobsite at no additional cost to the City.

Raised Planter Wall Demo and Tree Demo

Bid Item No. 23
Unless separately designated, **Raised Planter Wall Demo and Tree Demo** shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to the depth indicated on the plans or as directed by the Engineer. And removal of all trees and planting material, soil, and capping of irrigation system. All removal of base material, concrete wall, footings, sand material and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Raised Planter Wall Demo and Tree Demo.**

PAYMENT
Payment for **Raised Planter Wall Demo and Tree Demo** shall be paid at the contract unit price per **Square Foot (SF)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Concrete Paving Demo at Playground
Bid Item No. 24
Unless separately designated, **Concrete Paving Demo at Playground** shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to the depth indicated on the plans or as directed by the Engineer. All removal of asphalt concrete, base material, debris, concrete, curbs, berms, pipes, structures, foundations, fences, and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Concrete Paving Demo at Playground.**

PAYMENT
Payment for **Concrete Paving Demo at Playground** shall be paid at the contract unit price per **Square Foot (SF)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Playground Paving/Sand Demo
Bid Item No. 25
Unless separately designated, **Playground Paving/Sand Demo** shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to the depth indicated on the plans or as directed by the Engineer. All removal of base material and rubberized surfacing and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Playground Paving/Sand Demo.**

PAYMENT
Payment for **Playground Paving/Sand Demo** shall be paid at the contract unit price per **Square Foot (SF)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Install 4" PVC SDR35 Drain Pipe – Base Bid
Bid Item No. 26

Installation of 4” PVC drain line shall be as shown per the project plans (Sheet L-301, G-1A). Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans (SHEET G-1A), the Special Provisions and these Technical Specifications, unless otherwise noted. Material for PVC shall be 4” PVC SDR35 for the installation. Location for installation of PVC shall be verified prior to construction.

PAYMENT
Payment for **Install 4” PVC SDR35 Drain Pipe – Base Bid** shall be paid at the contract unit price per **Linear Foot (LF)**, and shall include full compensation for providing all labor, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

Install 6” PVC SDR35 Drain Pipe – Base Bid
Bid Item No. 27
Installation of 6” PVC drain line shall be as shown per the project plans (Sheet L-301, G-1A). Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans (SHEET G-1A), the Special Provisions and these Technical Specifications, unless otherwise noted. Material for PVC shall be 6” PVC SDR35 for the installation. Location for installation of PVC shall be verified prior to construction.

PAYMENT
Payment for **Install 6” PVC SDR35 Drain Pipe – Base Bid** shall be paid at the contract unit price per **Linear Foot (LF)**, and shall include full compensation for providing all labor, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

Drain Inlet Under Rubberized Surface Playground – Base Bid
Bid Item No. 28
Installation of Drain Inlet under Rubberized Surface Playground shall be as shown per the project plans (Sheet L-301, G-1A). Drain, Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans (SHEET G-1A), the Special Provisions and these Technical Specifications, unless otherwise noted. Material for polypropylene for the installation. Location for installation of grate shall be verified prior to construction.

PAYMENT
Payment for **Drain Inlet Under Rubberized Surface Playground – Base Bid** shall be paid at the contract unit price per **Each (EA)**, and shall include full compensation for vwork as required. No additional compensation shall be allowed.

New Curb Drain
Bid Item No. 29
Installation of a New Curb Drain shall be installed per city standard plans and civil engineering plans and notes. Drain, Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans, the Special Provisions and these Technical Specifications, unless

otherwise noted. Location for installation of Curb Drain shall be verified prior to construction.

PAYMENT
Payment for New Curb Drain shall be paid at the contract unit price of Each (EA), and shall include full compensation for providing all labor, backfill, trenching, saw cutting, materials, equipment, concrete, formwork, and other related work as required. No additional compensation shall be allowed.

Flush Concrete Header – Base Bid
Bid Item No. 30
Work under these bid items shall include all costs associated with the construction of concrete **Flush Concrete Header – Base Bid** with color and finish as indicated on the Civil Plans/Landscape Plans (Sheet L-301, G-1A) and Landscape Construction Material Schedule **(P-102)**. Landscape Layout Plans, and the Landscape Construction Material Schedule on sheet L-300 and on plan view sheet L-301 in the Construction Documents and specifications Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete.

PAYMENT
Payment for Bid Items under **Flush Concrete Header – Base Bid** shall be at the contract unit price for **Linear Foot (LF)** as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, base materials, aggregate, sealers, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement Concrete Bands complete in-place, reinforcement, jointing, and scoring, finishing as shown on the Plans. No additional compensation shall be allowed.

Playground Railing along Street Edge – Base Bid
Bid Item No. 31
Work under this bid item shall include all costs associated with the fabrication and installation of **Playground Railing along Street Edge – Base Bid** as indicated on the Plans (Sheet L-301) and the Landscape Construction Material Schedule on sheet L-300 **(R-201)** in the Construction Documents and specifications Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, Section 05 50 00 Metal Fabrications, No additional compensation will be allowed. All railings shall be set plum and shall be accessible, complying with the 2022 CBC.

PAYMENT
Payment for **Playground Railing along Street Edge – Base Bid** bid items shall be paid at the contract unit price as indicated in the Project Bid Schedule and shall be considered full compensation for furnishing labor, materials, tools, equipment, containers, steel plates, wood, paint, stain, galvanizing, fittings, hardware, and incidentals for doing all work involved in hauling, excavation, lifting, erecting, trenching, compaction, backfilling, preparation of sub grade, testing, painting, coating, staining, and installing Fences complete and operative in place as shown on the plans,

specifications, structural detail, and calculations. No additional compensation shall be allowed.

Concrete Paving at Playground
Bid Item No. 32
Work under this bid item shall include all costs associated with the construction of **Concrete Paving at Playground** with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(P-101)** on sheet L-300 in the Construction Documents and specifications Civil Section 4" Thk. Reinforced Concrete Walkway over 8" Crushed Aggregate Base, Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, No additional compensation will be allowed.

PAYMENT
Payment for Bid Items **Concrete Paving at Playground** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, hardware, stone, grout, base materials, sand, aggregate, rock, sealers, sealant, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement paving complete in-place with thickened edge, reinforcement, jointing, and scoring, finishing, including additional cleaning, taping, masking required for joint sealant as shown on the Plans. No additional compensation shall be allowed.

Rubber Play Surface with Base – Base Bid
Bid Item No. 33
Work for this item shall be conducted as described in Section 32 18 16 Synthetic Resilient Surfacing and as indicated in the Plans (Sheet L-301, G-1A) and Landscape Construction Material Schedule **(P-601).** Colors and Layout shall be as indicated on the Construction Plans.

PAYMENT
Payment for **Rubber Play Surface with Base – Base Bid** shall be at the contract unit price per **Square Foot (SF)** as set forth in the Bid Schedule and shall be considered full compensation for furnishing labor, materials, base materials, sealers, binders, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement poured-in-place Resilient Thermal Plastic Vulcanized Play Surfacing including base complete in-place as shown on the Plans and as directed by the City Engineer. No additional compensation shall be allowed.

Purchase and Delivery of Playground Equipment – Base Bid
Bid Item No. 34
Work under this bid item shall include all costs associated with the purchase, submittals and final approvals of Play Equipment with color and finish and play features as indicated on the Plans (Sheet L-301), Landscape Construction Material Schedule on sheet L-300 **(PE-101, PE-102, PE-103, PE-104, PE-105, PE-106, PE-107)**, technical specifications Section 02 88 20 – Playground Equipment, and Play Equipment Manufacturer's Quote # 1194757-01-04. All play components shall be purchased by the

contractor. The contractor shall be responsible for accepting delivery and providing secure storage.

PAYMENT
Payment for Play Equipment shall be at the Lump Sum (LS) contract unit as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all play equipment as shown on the plans.
This payment shall also include permitting, taxes and shipping, and procurement of the manufacturer's engineered drawings, and completion of deferred submittals. No additional compensation shall be allowed.

Installation of Playground Equipment – Base Bid
Bid Item No. 35
Work under this bid item shall include all costs associated with the preparation and installation of Play Equipment with color and finish and play features as indicated on the Plans (Sheet L-301), Landscape Construction Material Schedule on sheet L-300 **(PE-101, PE-102, PE-103, PE-104, PE-105, PE-106, PE-107)**, technical specifications Section 02 88 20 – Playground Equipment, and Play Equipment Manufacturer's Quote # 1194757-01-04. All play components shall be installed by the contractor per the project technical specifications. The contractor shall be responsible for accepting delivery and providing secure storage.
Play equipment installer shall be factory certified. The contractor shall be responsible for coordinating access for the construction of play equipment and rubberized surfacing, protecting each through construction operations.
The contractor shall be responsible for verifying and respecting all equipment fall zones and play area boundaries. All play areas and playground elements shall be accessible. All equipment clearances and deck heights shall be per the manufacturer's installation plans. All deck heights shall be coordinated with the rubber surfacing installer to ensure proper thickness to meet HIC requirements. Drains shall be located plans. Drain conflicts with utilities and footings shall be brought to the attention of the City Engineer and Landscape Architect immediately. Subbase thickness, drain grate elevations and locations, and invert elevations shall be reviewed by the City Engineer and Landscape Architect prior to the placement of subbase.
The contractor shall retain an Independent Certified Playground Safety Inspector. This inspector shall provide a Safety Inspection report per the requirements of the project specifications. All corrections noted in the report shall be corrected as a part of this Bid Item.
Play equipment footings shall be as indicated in the construction plans and per the play equipment manufacturer's drawings. Footing recommendations shall comply with the requirements of the geotechnical report. Foundation / footing design by the play equipment manufacturer shall be constructed per manufacture provided structural plans and calculations. Refer to Section 02 88 20 – Playground Equipment.

PAYMENT
Payment for Play Equipment shall be at the Lump Sum (LS) contract unit as set forth in the Project Bid Schedule and shall be considered full compensation for installing, providing: labor, materials, tools, equipment, fittings, electrical work (associated with play equipment), footings, concrete, hardware, corrections, and incidentals for doing all

work involved in purchasing, delivery unloading, erecting and assembling all play equipment operative in place as shown on the plans, specifications, structural details and calculations, and manufacturer's engineered drawings and instructions. No additional compensation shall be allowed.

New Planting and Irrigation at Playground – Base Bid
Bid Item No. 36
Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new planting from, various box and gallon sizes as indicated on the Planting Plans – (Sheet L-901) and Planting Schedule, around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans (Sheet L-701) in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 90 00 Landscaping and Section 32 93 95 90 Day Maintenance

PAYMENT
Payment for **New Planting and Irrigation at Playground – Base Bid** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of shrubs from various gallon size including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

Creek Demo and Infill with Dirt
Bid Item No. 37
Perform demolition of the existing creek work in a pre-planned, systematic, efficient, and orderly manner. Deploy customary and acceptable methods as required to complete the Work indicated on the Plans in accordance with governing regulations. This includes all costs associated with removing above ground playground equipment and all below grade concrete footings and structures.
1.1DISPOSAL OF DEMOLISHED MATERIALS
All removed materials not salvaged or reused shall be removed from the project site no later than the end of each workday and transported legally for disposal at a qualified site. If hazardous materials are encountered, notify the City Inspector immediately.
Burning of removed materials is not permitted.

1.2 ADJUSTMENT OF EXISTING SANITARY SEWERAGE, WATER, GAS, ELECTRICAL AND TELECOMMUNICATION SYSTEMS
All existing utility facilities, i.e. manholes, vaults, irrigation boxes, valve cans, etc. may or

may not have been indicated on the plans. While these items are not expected on this project, the Contractor is nevertheless hereby made aware that such encounter will require the contractor to bear the cost to raise ALL to finished grade at no additional cost to the City.
Drawings show existing major underground utilities using the best information available. Verification of existing utilities and the actual locations are the Contractor's responsibility. Any utility inadvertently damaged by the Contractor shall be immediately called to the City's attention for shutoff and then be immediately repaired by the Contractor at its own cost within 4 hours.
1.3 CLEANUP AND REPAIR
The Contractor, at the end of each workday, shall dispose of all removed materials from the site. The Contractor also shall protect the site and new improvements from vandals or other damages at all times until City acceptance.

PAYMENT
Payment for demolition and site clearing shall be made at the contract **Square Foot (SF)** included in the bid price and shall have included all of the costs for labor, equipment, supplies, tools, haulers, permit and disposal dump fees, security personnel, and other items of work to dispose of all unwanted materials and to clear, protect, and maintain the jobsite at no additional cost to the City.

The contractor shall also provide the option to relocate 'Salvagable' boulders on site to avoid further hauling costs. Those costs shall be made aware to the city at the time of bidding.

24" x 24" Brooks Drain with #2424 Grate
Bid Item No. 38
The construction of the Brooks Drain is apart of drainage improvements shall conform to Standard Specifications and to the details shown on Improvement Plans.

PAYMENT
Payment for the installation of the Brooks drain shall consist of furnishing all labor, material, tools, equipment and incidentals and for doing all the work involved. Work shall be paid at the contract unit price per **Each (EA).**

6" Thick Concrete Pad over 6" CAB
Bid Item No. 39
All concrete work shall conform to Section 201-1 of the Standard Specifications and these Special Provisions.

PRODUCTS

1.1 CRUSHED AGGREGATE BASE

A. Crushed aggregate base will consist of entirely crushed rock and rock dust conforming to the requirements of Subsection 200-1.2 for ¾-inch crushed aggregate, of the Standard Specifications. Percentage of wear and grading will

conform to Subsections 200-2.2.1 and 200-2.2.2 of the Standard Specifications. Maximum size aggregate will be ¾-inch.

1.2 CONCRETE FLATWORK

A. Concrete flatwork shall be 520-C-2500. Curing compound shall be Type 2 (if required).

PAYMENT
Payment for 6" thick concrete pad over 6" thick crushed aggregate base shall be per **Square Foot (SF)**, complete in place, and shall be in conformance with the provisions of Subsection 201-2.4, "Measurement and Payment" of the Standard Specifications. Full compensation for labor, materials, and equipment to complete the construction is considered as included in the price paid, and no additional compensation shall be made.

Concrete Collard
Bid Item No. 40
Construction of concrete collar shall be per OCEMA Standard Plan 1317

PAYMENT
Payment for this item shall be at the contract unit price per **Each (EA)** and shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing all the work involved.

Modify Existing Catch Basin
Bid Item No. 41
Work under this item consists of modifying the existing catch basin per detail on Plans. Concrete shall be 520-C-2500.

PAYMENT
Payment for modification of existing catch basin shall be at the contract unit price per **Each (EA)** and shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing all the work involved.

Cobblestone River Washed Rock
Bid Item No. 42
Cobblestone river washed rock shall conform to details shown on Plans.

PAYMENT
Payment for this work shall be at the contract **Lump Sum (LS)** bid price and shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing all the work involved.

18" Dia. HDPE Storm Drain
Bid Item No. 43
Construction of HDPE storm drain shall conform to Section 306 of the Standard Specifications and manufacturer's specifications. Trench resurfacing shall be per trenching detail on Plans.

PAYMENT

Payment for installation of 18” HDPE storm drain shall include excavation. Backfill and backfill compaction and shall be paid at the contract unit price per **Linear Foot (LF)** and no additional compensation shall be made.

BID ITEM DESCRIPTIONS
El Conejo Park Rehabilitation
Laguna Hills, California

Additive Alternate Bid #1 – Playground Equipment Alternate

Install 4" PVC SDR35 Drain Pipe – Alternate Bid
Bid Item No. 45

Installation of 4" PVC drain line shall be as shown per the project plans (Sheet L-302, G-1B). Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans (SHEET G-1A), the Special Provisions and these Technical Specifications, unless otherwise noted. Material for PVC shall be 4" PVC SDR35 for the installation. Location for installation of PVC shall be verified prior to construction.

PAYMENT

Payment for **Install 4" PVC SDR35 Drain Pipe – Alternate Bid** shall be paid at the contract unit price per **Linear Foot (LF)**, and shall include full compensation for providing all labor, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

Install 6" PVC SDR35 Drain Pipe – Alternate Bid
Bid Item No. 46

Installation of 6" PVC drain line shall be as shown per the project plans (Sheet L-302, G-1B). Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans (SHEET G-1A), the Special Provisions and these Technical Specifications, unless otherwise noted. Material for PVC shall be 6" PVC SDR35 for the installation. Location for installation of PVC shall be verified prior to construction.

PAYMENT

Payment for **Install 6" PVC SDR35 Drain Pipe – Alternate Bid** shall be paid at the contract unit price per **Linear Foot (LF)**, and shall include full compensation for providing all labor, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

Drain Inlet Under Rubberized Surface Playground – Alternate Bid
Bid Item No. 47

Installation of Drain Inlet under Rubberized Surface Playground shall be as shown per the project plans (Sheet L-302, G-1B). Drain, Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans (SHEET G-1B), the Special Provisions and these Technical Specifications, unless otherwise noted. Material for polypropylene for the installation. Location for installation of grate shall be verified prior to construction.

PAYMENT

Payment for **Drain Inlet Under Rubberized Surface Playground – Alternate Bid** shall be paid at the contract unit price per **Each (EA)**, and shall include full compensation for

providing all labor, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

Flush Concrete Header – Alternate Bid
Bid Item No. 48
Work under these bid items shall include all costs associated with the construction of concrete **Flush Concrete Header – Alternate Bid** with color and finish as indicated on the Civil Plans/Landscape Plans (Sheet L-302, G-1B) and Landscape Construction Material Schedule **(P-102)**. Landscape Layout Plans, and the Landscape Construction Material Schedule on sheet L-300 and on plan view sheet L-302 in the Construction Documents and specifications Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete.

PAYMENT
Payment for Bid Items under **Flush Concrete Header – Alternate Bid** shall be at the contract unit price for **Linear Foot (LF)** as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, base materials, aggregate, sealers, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement Concrete Bands complete in-place, reinforcement, jointing, and scoring, finishing as shown on the Plans. No additional compensation shall be allowed.

Playground Railing along Street Edge – Alternate Bid
Bid Item No. 49
Work under this bid item shall include all costs associated with the fabrication and installation of **Playground Railing along Street Edge – Alternate Bid** as indicated on the Plans (Sheet L-302) and the Landscape Construction Material Schedule on sheet L-300 **(R-201)** in the Construction Documents and specifications Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, Section 05 50 00 Metal Fabrications, No additional compensation will be allowed. All railings shall be set plum and shall be accessible, complying with the 2022 CBC.

PAYMENT
Payment for **Playground Railing along Street Edge – Alternate Bid** bid items shall be paid at the contract unit price as indicated in the Project Bid Schedule and shall be considered full compensation for furnishing labor, materials, tools, equipment, containers, steel plates, wood, paint, stain, galvanizing, fittings, hardware, and incidentals for doing all work involved in hauling, excavation, lifting, erecting, trenching, compaction, backfilling, preparation of sub grade, testing, painting, coating, staining, and installing Fences complete and operative in place as shown on the plans, specifications, structural detail, and calculations. No additional compensation shall be allowed.

Rubber Play Surface with Base – Alternate Bid
Bid Item No. 50
Work for this item shall be conducted as described in Section 32 18 16 Synthetic Resilient Surfacing and as indicated in the Plans (Sheet L-302, G-1B) and Landscape

Construction Material Schedule **(P-601).** Colors and Layout shall be as indicated on the Construction Plans.

PAYMENT
Payment for **Rubber Play Surface with Base – Alternate Bid** shall be at the contract unit price per **Square Foot (SF)** as set forth in the Bid Schedule and shall be considered full compensation for furnishing labor, materials, base materials, sealers, binders, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement poured-in-place Resilient Thermal Plastic Vulcanized Play Surfacing including base complete in-place as shown on the Plans and as directed by the City Engineer. No additional compensation shall be allowed.

Purchase and Delivery of Playground Equipment – Alternate Bid
Bid Item No. 51
Work under this bid item shall include all costs associated with the purchase, submittals and final approvals of Play Equipment with color and finish and play features as indicated on the Plans (Sheet L-302), Landscape Construction Material Schedule on sheet L-300 **(PE-108, PE-109, PE-110, PE-111, PE-112, PE-113)**, technical specifications Section 02 88 20 – Playground Equipment, and Play Equipment Manufacturer's Quote # 1194757-02-02. All play components shall be purchased by the contractor. The contractor shall be responsible for accepting delivery and providing secure storage.

PAYMENT
Payment for Play Equipment shall be at the Lump Sum (LS) contract unit as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all play equipment as shown on the plans.
This payment shall also include permitting, taxes and shipping, and procurement of the manufacturer's engineered drawings, and completion of deferred submittals. No additional compensation shall be allowed.

Installation of Playground Equipment – Alternate Bid
Bid Item No. 52
Work under this bid item shall include all costs associated with the preparation and installation of Play Equipment with color and finish and play features as indicated on the Plans (Sheet L-302), Landscape Construction Material Schedule on sheet L-300 **(PE-108, PE-109, PE-110, PE-111, PE-112, PE-113)**, technical specifications Section 02 88 20 – Playground Equipment, and Play Equipment Manufacturer's Quote # 1194757-02-02. All play components shall be installed by the contractor per the project technical specifications. The contractor shall be responsible for accepting delivery and providing secure storage.
Play equipment installer shall be factory certified. The contractor shall be responsible for coordinating access for the construction of play equipment and rubberized surfacing, protecting each through construction operations.
The contractor shall be responsible for verifying and respecting all equipment fall zones and play area boundaries. All play areas and playground elements shall be accessible. All equipment clearances and deck heights shall be per the manufacturer's installation plans. All deck heights shall be coordinated with the rubber surfacing installer to ensure

proper thickness to meet HIC requirements. Drains shall be located plans. Drain conflicts with utilities and footings shall be brought to the attention of the City Engineer and Landscape Architect immediately. Subbase thickness, drain grate elevations and locations, and invert elevations shall be reviewed by the City Engineer and Landscape Architect prior to the placement of subbase.
The contractor shall retain an Independent Certified Playground Safety Inspector. This inspector shall provide a Safety Inspection report per the requirements of the project specifications. All corrections noted in the report shall be corrected as a part of this Bid Item.
Play equipment footings shall be as indicated in the construction plans and per the play equipment manufacturer's drawings. Footing recommendations shall comply with the requirements of the geotechnical report. Foundation / footing design by the play equipment manufacturer shall be constructed per manufacture provided structural plans and calculations. Refer to Section 02 88 20 – Playground Equipment.

PAYMENT
Payment for Play Equipment shall be at the Lump Sum (LS) contract unit as set forth in the Project Bid Schedule and shall be considered full compensation for installing, providing: labor, materials, tools, equipment, fittings, electrical work (associated with play equipment), footings, concrete, hardware, corrections, and incidentals for doing all work involved in purchasing, delivery unloading, erecting and assembling all play equipment operative in place as shown on the plans, specifications, structural details and calculations, and manufacturer's engineered drawings and instructions. No additional compensation shall be allowed.

New Planting and Irrigation at Playground – Alternate Bid
Bid Item No. 53
Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new planting from, various box and gallon sizes as indicated on the Planting Plans – (Sheet L-902) and Planting Schedule, around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans (Sheet L-702) in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 90 00 Landscaping and Section 32 93 95 90 Day Maintenance

PAYMENT
Payment for **New Planting and Irrigation at Playground – Alternate Bid** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And

installation of shrubs from various gallon size including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

BID ITEM DESCRIPTIONS
El Conejo Park Rehabilitation
Laguna Hills, California

Additive Alternate Bid #2 – Table and BBQ Replacement

Demo Existing Site Furniture – Table and BBQ

Bid Item No. 55, 56

Perform Site Furniture demolition work in a pre-planned, systematic, efficient, and orderly manner. Deploy customary and acceptable methods as required to complete the Work indicated on the Plans in accordance with governing regulations. This includes all costs associated with removing and properly disposing of all identified and all necessary other aspects of the existing site furniture that aren't to be repurposed as outlined in the plans.

1.1DISPOSAL OF DEMOLISHED MATERIALS

All removed materials not salvaged or reused shall be removed from the project site no later than the end of each workday and transported legally for disposal at a qualified site. If hazardous materials are encountered, notify the City Inspector immediately.
Burning of removed materials is not permitted.

1.2CLEANUP AND REPAIR

The Contractor, at the end of each workday, shall dispose of all removed materials from the site. The Contractor also shall protect the site and new improvements from vandals or other damages at all times until City acceptance.

PAYMENT

Payment for site furniture demolition shall be made at the contract **LUMP SUM** included in the bid price and shall have included all of the costs for labor, equipment, supplies, tools, haulers, permit and disposal dump fees, security personnel, and other items of work to dispose of all unwanted materials and to clear, protect, and maintain the jobsite at no additional cost to the City.

Purchase and Delivery New Site Furniture

Bid Items No. 57, 59, 61

Work under this bid item shall include all costs associated with the purchase and delivery of all **New Site Furnishings** as provided by the contractor.

PAYMENT

Payment for the **New Site Furnishings** shall be paid at their respective contract unit prices per **Each (EA)** as indicated in the Bid Schedule and shall be considered full compensation for procuring and arranging delivery of all site furnishings pieces, including applicable taxes and freight. No additional compensation shall be allowed.

Installation New Site Furniture

Bid Items No. 58, 60, 62

Work under this bid item shall include all costs associated with the installation of all **New Site Furnishings** as provided by under Bid Items 40, 42 and 44 and specifications Section 12 93 00 Site Furnishings and Miscellaneous Materials and as required by product manufacturers installation instructions.

PAYMENT

Payment for the **New Site Furnishings** shall be paid at their respective contract unit prices per **Each (EA)** as indicated in the Bid Schedule and shall be considered full compensation for furnishing labor for installation only and incidentals for doing all work involved in hauling, lifting, assembling for the installation of all Site Furnishings complete, permanently attached in place as shown on the plans and Manufacturer's instructions. No additional compensation shall be allowed.

BID ITEM DESCRIPTIONS
El Conejo Park Rehabilitation
Laguna Hills, California

Additive Alternate Bid #3 – Hillside Erosion Control Drain

NDS 1200 Square Polypropylene Catch Basin w/ 1212 Solid Grate
Bid Item No. 63

Installation of NDS 1200 Square Polypropylene Catch Basin w/ 1212 Solid Grate shall be as shown per the project plans. Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans, the Special Provisions and these Technical Specifications, unless otherwise noted. Material for polypropylene for the installation. Location for installation of grate shall be verified prior to construction.

PAYMENT

Payment for **NDS 1200 Square Polypropylene Catch Basin w/ 1212 Solid Grate** shall be paid at the contract unit price per **Each (EA)**, and shall include full compensation for providing all labor, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

Install 6" PVC SDR35 Drain Pipe
Bid Item No. 64

Installation of 6" PVC drain line shall be as shown per the project plans. Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans, the Special Provisions and these Technical Specifications, unless otherwise noted. Material for PVC shall be 6" PVC SDR35 for the installation. Location for installation of PVC shall be verified prior to construction.

PAYMENT

Payment for **Install 6" PVC SDR35 Drain Pipe** shall be paid at the contract unit price per **Linear Foot (LF)**, and shall include full compensation for providing all labor, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

Retaining Curb at Back of Sidewalk
Bid Item No. 65

Work under these bid items shall include all costs associated with the construction of concrete **Retaining Curb at Back of Sidewalk** with color and finish as indicated on the Civil Plans/Landscape Plans and Landscape Construction Material Schedule **(C-101)** Landscape Layout Plans, and the Landscape Construction Material Schedule on sheet L-300 in the Construction Documents and specifications Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete.

PAYMENT

Payment for Bid Items under **Retaining Curb at Back of Sidewalk** shall be at the contract unit price for **Linear Foot (LF)** as set forth in the Project Bid Schedule shall be

considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, base materials, aggregate, sealers, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement Concrete Curbs, complete in-place, reinforcement, jointing, and scoring, finishing as shown on the Plans. No additional compensation shall be allowed.

New Planting and Irrigation at Hillside Erosion Control
Bid Item No. 66
Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new planting from, various box and gallon sizes as indicated on the Planting Plans and Planting Schedule, around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 90 00 Landscaping and Section 32 93 95 90 Day Maintenance

PAYMENT
Payment for **New Planting and Irrigation at Hillside Erosion Control** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of shrubs from various gallon size including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

El Conejo Park Rehabilitation
Laguna Hills, California

Additive Alternate Bid #4 – Playground Seating

Concrete Paving at Playground Seating
Bid Item No. 67

Work under this bid item shall include all costs associated with the construction of **Concrete Paving at Playground Seating** with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(P-101)** on sheet L-300 in the Construction Documents and specifications Civil Section 4" Thk. Reinforced Concrete Walkway over 8" Crushed Aggregate Base, Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, No additional compensation will be allowed, No additional compensation will be allowed.

PAYMENT

Payment for Bid Items **Concrete Paving at Playground Seating** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, hardware, stone, grout, base materials, sand, aggregate, rock, sealers, sealant, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement paving complete in-place with thickened edge, reinforcement, jointing, and scoring, finishing, including additional cleaning, taping, masking required for joint sealant as shown on the Plans. No additional compensation shall be allowed.

Purchase and Delivery New Bench Seating at Playground
Bid Item No. 68

Work under this bid item shall include all costs associated with the **Purchase and Delivery of all New Bench Seating at Playground** as provided by the contractor.

PAYMENT

Payment for the **Purchase and Delivery of all New Bench Seating at Playground** shall be paid at their respective contract unit prices per **Each (EA)** as indicated in the Bid Schedule and shall be considered full compensation for procuring and arranging delivery of all site furnishings pieces, including applicable taxes and freight. No additional compensation shall be allowed.

Installation New Bench Seating at Playground
Bid Item No. 69

Work under this bid item shall include all costs associated with the **Installation New Bench Seating at Playground** as provided by under Bid Items 40, 42 and 44 and specifications Section 12 93 00 Site Furnishings and Miscellaneous Materials and as required by product manufacturers installation instructions.

PAYMENT

Payment for the **Installation New Bench Seating at Playground** shall be paid at their respective contract unit prices per **Each (EA)** as indicated in the Bid Schedule and shall be considered full compensation for furnishing labor for installation only and incidentals for doing all work involved in hauling, lifting, assembling for the installation of all Site Furnishings complete, permanently attached in place as shown on the plans and Manufacturer's instructions. No additional compensation shall be allowed.

El Conejo Park Rehabilitation
Laguna Hills, California

Additive Alternate Bid #5 – Alternate Park Sign

Stone and Metal Monument Sign (W101-B)
Bid Item No. 70
In Lieu of Bid Item 14, the **STONE AND METAL MONUMENT SIGN (W101-B)** shall include all necessary materials, footings, tools, excavating, fabrication, reinforcement, slurry, hardware, tools, cmu block, stone classing, metal signage and brackets, shop drawings and any other material or services needed to install the Monument Sign W101-B as shown on the project plans and details. All work will be considered part of the **STONE AND METAL MONUMENT SIGN (W101-B).**

PAYMENT
Payment for **STONE AND METAL MONUMENT SIGN (W101-B)** shall be paid at the contract unit price per **Lump Sum (LS)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

TECHNICAL PROVISIONS

EL CONEJO PARK IMPROVEMENTS, LAGUNA HILLS

GENERAL STANDARD SPECIFICATIONS

The Standard Specifications for the construction materials and construction methods as set forth in the "Standard Specifications for Public Works Construction", 2018 Edition and supplements shall be the Standard Provisions for all the Work to be done and the provisions of the Contract for the Work. In case of conflict between the Standard Specifications and these Technical Provisions, the Technical Provisions shall take precedence over and prevail over such conflicting portions.

MOBILIZATION
BID ITEM 1:

Mobilization shall consist of preparatory work and operations including all of the labor, equipment, tools, supplies, costs, insurance, arrangements, and all others that are necessary for the movement of personnel, equipment, materials, and incidentals to the project site necessary for work on the project and for all other work and operations which must be performed including, but not limited to, bonds, insurance, securing an adequate storage site for equipment and materials, and construction site fencing prior to beginning work on the various contract items on the project site.

The cost of time, materials, and labor to move the necessary construction equipment to and from the site, supervisory time on the job by the Contractor's personnel to keep the construction site in a safe condition, and all other related work as required at all times and for all non-working days during the construction period shall have been included in the bid.

PAYMENT

Payment for the preceding shall be included in the **LUMP SUM** for mobilization and shall be considered full compensation including the cost for obtaining all the required business licenses and permits.

TRAFFIC CONTROL AND WORK SITE PROTECTION
BID ITEM 2:

1.1 DESCRIPTION

Traffic control, construction signing and traffic maintenance shall comply with the provisions of Subsection 7-10 of the Standard Specifications and the current requirements set forth in the "Manual of Traffic Controls for Construction and Maintenance Work Zones" and "Manual on Uniform Traffic Controls" published by the Department of Transportation, State of California, these Technical Provisions, and as directed by the Engineer.

1.2 PROTECTION OF WORK AND PUBLIC

The Contractor shall take all necessary measures to protect work and prevent accidents during all phases of the work. The Contractor shall repair all damaged new improvements as a result

of vandalism (i.e., vehicle tracks, footprints, writing, etc.). If deemed necessary by the City, the Contractor shall repair, at its cost, the defective area in accordance with these Technical Provisions.

1.3 CONSTRUCTION SIGNING

Construction signing shall consist of furnishing, installing, maintaining and removing construction signs and barricades as required by the "Manual of Traffic Controls for Construction and Maintenance Work Zones". The traffic control system shall be installed prior to starting work and shall not be removed until all work has been completed.

Also, in conjunction to the public relations effort, Contractor shall supply and erect project construction information signs at the designated locations as determined by the City. Such signs shall conform to the City's specifications. Specific verbiage to be determined by the City. There shall be a minimum of two (2) such signs posted.

1.4 TRAFFIC MAINTENANCE

The Contractor shall be responsible for handling vehicular and pedestrian traffic in accordance with Subsection 7-10 of the Standard Specifications and these Technical Provisions.

The Contractor shall cooperate with the Engineer relative to handling traffic through all work areas and shall make his own arrangements relative to keeping the working area clear of parked vehicles and maintaining clear access to the park drive areas.

Contractor's equipment and personal vehicles of the Contractor's employees shall not be parked on the traveled way at any time. Overnight parking for construction equipment in the work zone or on adjacent roads is not permitted. Parking of construction equipment shall be confined to the approved storage site.

1.5 STRIPING

Temporary striping and marking for traffic control if required shall conform to Section 310-5.6.5 of the Standard Specifications. Temporary striping and marking which has no further use shall be removed by wet sandblasting, and all sand used in sandblasting shall be removed without delay as the sandblasting operation progresses.

1.6 RESTRICTIONS ON SITE CLOSURE OF STREETS AND TRAFFIC LANES

The Contractor shall conduct all operations so as to provide reasonable access to the existing park facilities and have no greater quantity of work under construction that can be properly constructed with a minimum of inconvenience to the public.

PAYMENT

Payment for traffic control shall be made at the contract **LUMP SUM** price bid and shall be considered full payment for furnishing all materials, labor, equipment, and all incidentals necessary to complete the work in accordance with the Standard Specifications and these Technical Provisions.

DEMOLITION AND SITE CLEARING
BID ITEM 3, 8, 13, 15, 21, 22, 43, 44:

Perform demolition work in a pre-planned, systematic, efficient, and orderly manner. Deploy customary and acceptable methods as required to complete the Work indicated on the Plans in accordance with governing regulations.

Provide services for effective air and water pollution controls as required by City and County Air Pollution Control District and the Southern California Air Quality Management District.

1.1 DISPOSAL OF DEMOLISHED MATERIALS

All removed materials not salvaged or reused shall be removed from the project site no later than the end of each work day and transported legally for disposal at a qualified site.

If hazardous materials are encountered, notify the City Inspector immediately.

Burning of removed materials is not permitted.

1.2 ADJUSTMENT OF EXISTING SANITARY SEWERAGE, WATER, GAS, ELECTRICAL AND TELECOMMUNICATION SYSTEMS

All existing utility facilities, i.e. manholes, vaults, irrigation boxes, valve cans, etc. may or may not have been indicated on the plans. While these items are not expected on this project, the Contractor is nevertheless hereby made aware that such encounter will require the contractor to bear the cost to raise ALL to finished grade at no additional cost to the City.

Drawings show existing major underground utilities using the best information available. Verification of existing utilities and the actual locations are the Contractor's responsibility.

Any utility inadvertently damaged by the Contractor shall be immediately called to the City's attention for shutoff and then be immediately repaired by the Contractor at its own cost within 4 hours.

1.3 CLEANUP AND REPAIR

The Contractor, at the end of each workday, shall dispose of all removed materials from the site. The Contractor also shall protect the site and the new improvements from vandals or other damages at all times until City acceptance.

PAYMENT

Payment for demolition and site clearing shall be made at the contract **LUMP SUM** included in the bid price and shall have included all of the costs for labor, equipment, supplies, tools, haulers, permit and disposal dump fees, security personnel, and other items of work to dispose of all unwanted materials and to clear, protect, and maintain the jobsite at no additional cost to the City.

EARTHWORK, REMOVAL AND GRADING, REMOVAL OF EXISTING PAVEMENT, AND CONCRETE IMPROVEMENTS
BID ITEM 4, 15, 23, 24, 36:

Earthwork, removal and grading, removal and disposal of unclassified excavation, structural excavation, import and placement of selected backfill in existing swale being replaced with underground storm drain, export of existing material as indicated on Plans, removal of asphalt concrete pavement, sidewalk, driveways, etc. for proposed improvements shall conform to the applicable portions of Section 300 of the Standard Specifications for Public Works Construction and recommendations of a Geotechnical Report prepared by Global Geo-Engineering, Inc. Such work shall include all the cost of all labor, equipment, tools, supplies, and all other costs required to:

- Arrange with DigAlert to mark all potential interfering underground wet and dry utilities within the work limits;
- To the extent possible search, identify, and mark other underground utilities that were not identified by DigAlert;
- Expose, cut, and cap all existing irrigation lines and components along the excavate limits;
- Excavate, remove, and properly dispose of existing interfering soil and landscape materials;
- Remove and dispose of all interfering tree roots and organic matters. Root prune as described on the Landscaping Plan; and
- Grade to the elevations shown on plans. Backfill all voids and holes with similar and clean materials. Import as needed.
- Remove, and dispose of existing subgrade and compact soil backfill under the new concrete walks, and other areas of work as shown on the Plans and in accordance with the Geotechnical Report.
- Import and placement of selected backfill.

PAYMENT

Payment for this item shall be made per the contract **LUMP SUM** bid price for removal and disposal/export of excavated material, import and placement of selected backfill and no additional compensation for this item of work shall be made.

WATER POLLUTION CONTROL
BID ITEM 5:

Construction activities will be conducted in a manner to protect channels, storm drains, and bodies of water from pollution. Water pollution control work shall consist of activities necessary to meet the requirements of the City's National Pollutant Discharge Elimination System (NPDES) Area wide Urban Storm Water Runoff Permit, the County's Drainage Area Management Plan (DAMP), The State's General Construction Activities Permit (Order No. 2022-0057-DWQ, NPDES No CAS000002, adopted September 8, 2022 and effective September 1, 2023), and as required by the Engineer. The Contractor shall coordinate water pollution control work with all other work done on the contract.

Contractor shall install erosion and sediment control measures as indicated on Improvement Plans.

PAYMENT

Payment for water pollution control shall be at the contract **LUMP SUM** bid price and shall be full compensation for all items of work and all appurtenant work including installation of all erosion and sediment control measures and furnishing all labor, materials, tools, equipment and incidentals.

4" THICK REINFORCED CONCRETE WALKWAY OVER 8" CRUSHED AGGREGATE BASE
BID ITEM 11, 17, 31, :

All concrete work shall conform to Section 201-1 of the Standard Specifications and these Special Provisions.

PRODUCTS

1.1 CRUSHED AGGREGATE BASE

A. Crushed aggregate base will consist of entirely crushed rock and rock dust conforming to the requirements of Subsection 200-1.2 for ¾-inch crushed aggregate, of the Standard Specifications. Percentage of wear and grading will conform to Subsections 200-2.2.1 and 200-2.2.2 of the Standard Specifications. Maximum size aggregate will be ¾-inch.

1.2 CONCRETE FLATWORK

A. Concrete flatwork shall be 520-C-2500. Curing compound shall be Type 2 (if required).

PAYMENT

Payment for 6" thick concrete walkway over 6" thick crushed aggregate base shall be per **SQUARE FOOT**, complete in place, and shall be in conformance with the provisions of Subsection 201-2.4, "Measurement and Payment" of the Standard Specifications. Full compensation for labor, materials, and equipment to complete the construction is considered as included in the price paid, and no additional compensation shall be made.

6" THICK CONCRETE PAD OVER 6" CRUSHED AGGREGATE BASE
BID ITEM 38:

All concrete work shall conform to Section 201-1 of the Standard Specifications and these Special Provisions.

PRODUCTS

1.2 CRUSHED AGGREGATE BASE

B. Crushed aggregate base will consist of entirely crushed rock and rock dust conforming to the requirements of Subsection 200-1.2 for ¾-inch crushed aggregate, of the Standard Specifications. Percentage of wear and grading will

conform to Subsections 200-2.2.1 and 200-2.2.2 of the Standard Specifications. Maximum size aggregate will be ¾-inch.

1.2 CONCRETE FLATWORK

B. Concrete flatwork shall be 520-C-2500. Curing compound shall be Type 2 (if required).

PAYMENT

Payment for 6" thick concrete pad over 6" thick crushed aggregate base shall be per **SQUARE FOOT**, complete in place, and shall be in conformance with the provisions of Subsection 201-2.4, "Measurement and Payment" of the Standard Specifications. Full compensation for labor, materials, and equipment to complete the construction is considered as included in the price paid, and no additional compensation shall be made.

PVC DRAIN PIPE, BROOKS DRAIN BOX, DRAIN INLETS, AND REMOVAL OF DRAIN INLET BOX LID
BID ITEM 16, 25, 26, 27, 37, 48, 49:

These items are for the construction of drainage improvements shall conform to Standard Specifications and to the details shown on Improvement Plans.

PAYMENT

Payment for installation of 4" and 6" PVC SDR 35 drain pipe and 4" PVC pipe shall include excavation, backfill and backfill compaction and shall be paid at the contract unit price bid per **LINEAR FOOT** and no additional compensation shall be made. Payment for this item shall also include connecting the proposed PVC drain to existing inlet box per details on plans.

Payment for drain inlets and removal of top box of existing inlet and placing a lid at bottom of existing box shall be at the contract unit price bid per **EACH** and no additional compensation shall be made.

Payment for curb drain shall be at the contract unit price per **EACH** and no additional compensation shall be made.

18" DIAMETER HDPE STORM DRAIN
BID ITEM 42:

Construction of HDPE storm drain shall conform to Section 306 of the Standard Specifications and manufacturer's specifications. Trench resurfacing shall be per trenching detail on Plans.

PAYMENT

Payment for installation of 18" HDPE storm drain shall include excavation. Backfill and backfill compaction and shall be paid at the contract unit price per **LINEAR FOOT** and no additional compensation shall be made.

CONCRETE COLLAR
BID ITEM 39:

Construction of concrete collar shall be per OCEMA Standard Plan 1317.

PAYMENT

Payment for this item shall be at the contract unit price per **EACH** and shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing all the work involved.

MODIFY EXISTING CATCH BASIN
BID ITEM 40:

Work under this item consists of modifying the existing catch basin per detail on Plans. Concrete shall be 520-C-2500.

PAYMENT

Payment for modification of existing catch basin shall be at the contract unit price per **EACH** and shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing all the work involved.

COBBLESTONE RIVER WASHED ROCK
BID ITEM 41:

Cobblestone river washed rock shall conform to details shown on Plans.

PAYMENT

Payment for this work shall be at the contract **LUMP SUM** bid price and shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing all the work involved.

SECTION 01 56 39- TEMPORARY TREE PROTECTION

PART 1: GENERAL

1.01 GENERAL CONDITIONS

Requirements of "General Conditions of the Contract" and of Division 1, "General Requirements", apply to work in this Section with same force and effect as though repeated in full herein.

1.02 DESCRIPTION OF WORK

Furnish all materials, labor, transportation, services, and equipment necessary to protect existing trees as indicated on Drawings and as specified herein. Prior to the start of demolition, the contractor shall meet on site with the City Engineer.

Work related in other Sections:

1. Section 32 84 00 – Irrigation
2. Section 32 90 00 - Planting
3. Section 32 92 23 – Sod
4. Section 32 93 95 – 90 Day Maintenance

1.03 TERMINOLOGY

Pruning terminology to be utilized as developed by the National Arborist Association and is herein attacked.

1.04 SUBMITTALS

Certification:

1. Submit written certification by a qualified Arborist that trees indicated to remain have been protected during course of construction in accordance with recognized standards and that where damage did occur, trees were promptly and properly treated.
2. Indicate which damaged trees, if any, are incapable of retaining full growth potential and are recommended to be replaced.

3. Arborist - an individual currently a member of the National Arborist Association or International Society of Arboriculture and verify proof of certification by such organization.

1.05 QUALITY ASSURANCE

Arborist Qualifications: Engage a qualified certified Arborist who has successfully completed tree protection and trimming, to perform the following work:

1. Remove branches from trees that are to remain.
2. Recommend procedures to compensate for loss of roots and perform initial pruning of branches and stimulation of root growth where removed to accommodate new construction.
3. Recommend procedures for excavation and grading work juxtaposed to established plants.
4. Perform tree repair work for damage incurred by new construction.
5. Pruning to conform to ISA Pruning Standards and National Arborist Association Class I-IV as specified.

1.06 PROJECT CONDITIONS

Temporary Protections: Provide temporary fencing, barricades, or other suitable guards located outside dripline to protect trees and other plants that are to remain from damage. Tree protection fence / barrier shall be as indicated in the construction documents. At a minimum tree protection shall consist of a 6’ chain-link fence around significant trees. Trees on slopes shall be protected with a 3’ orange snow fence with wood stakes. Fences shall protect tree branches and the tree’s rootzone.

Protect Root Systems:

1. Do not store construction materials, debris, or excavated material within dripline of trees to remain.
2. Do not permit vehicles within dripline of existing trees.
3. Restrict foot traffic to prevent excessive compaction of soil over root systems within dripline.

PART 2: PRODUCTS

2.01 MATERIALS

Drainage Fill: Selected stone or gravel, graded to pass a 3-inch sieve and retained on a 1-inch sieve.

New Topsoil:

1. Fertile, friable, surface soil, containing natural loam.
2. Obtain from local sources or from areas having similar characteristics to indigenous topsoil.
3. Provide topsoil that is reasonably free of subsoil and clay lumps, and free of brush, weeds, roots, stones larger than 2-inches and free of other extraneous or toxic matter harmful to plant growth.
4. Obtain topsoil only from well-drained sites where soil occurs in depth of 4-inches or more. Do not obtain from bogs or marshes.
5. Topsoil, prior to use, must be laboratory tested for horticulture suitability and such test must be approved by Owner's Authorized Representative prior to placement.
6. Utilize mulch from tree removals, or purchase and place 2" medium grind mulch, or utilize mulch as provided by the City.
7. Water, clean domestic or well water shall be utilized for watering to maintain trees and shrubs that are to be protected.

PART 3: EXECUTION

3.01 GENERAL

Protect tree root systems from damage due to noxious materials caused by runoff or spillage during mixing, placement, or storage of construction materials. Protect root systems from flooding, eroding, or excessive wetting resulting from dewatering operations.

Do not allow fires under or adjacent to trees or other plants that are to remain.

Branches may be removed for construction purposes only upon approval of Owner's Authorized Representative or Arborist and subject to local governing agency ordinances.

1. Where directed by City Engineer or Arborist, extend pruning operation to restore natural shape of entire tree.
2. Cut branches and roots, if required, with sharp pruning instruments. Do not break or chop.

Mulch shall be placed to protect tree root zones. Mulch shall be 6” to 8” thick organic mulch. Do not place mulch within 6” of tree trunks. For Oak trees, do not place mulch within 24” of tree trunk.

3.02 ON-GOING MAINTENANCE / TREE AND SHRUB WATERING

A. Provide maintenance of existing trees and shrubs that are indicated in the drawings as “protect in place”

B. Maintenance shall consist of watering, weed control, mulching, re-staking, pruning / trimming, tightening, restoration of planting saucers, aeration where areas have been compacted, and furnishing and applying such sprays and invigorants as are necessary to maintain the plants free of insects and disease and in thriving condition.

C. Irrigate planting areas as required to ensure active growth. Maintain planting areas in a moist, but not saturated, condition. Regulate irrigation as necessary to avoid erosion and gullying.

1. Supplemental hand watering may be required to maintain new and existing planting.

2. When hand watering, use water wand to break the water force.

3.03 EXCAVATION AROUND EXISTING TREES

Excavate within proximity of existing trees only where indicated on Drawings. Do not machine-excavate within dripline. Consult City Engineer, City Arborist and Landscape Architect prior to excavating thru a trees drip line.

1. Acceptable methods are hand digging, boring, and air-spade under the supervision of the City’s Arborist.

Where excavating for new construction is required within dripline of trees, hand-excavate to minimize damage to root systems. Provide sheeting at excavations if required. Use narrow-tine spading forks and comb soil to expose roots.

2. Relocate roots in backfill areas wherever possible. If large, main lateral roots are encountered, expose beyond excavation limits as required to bend and relocate without breaking. If encountered immediately adjacent

to location of new construction and relocation is not practical, cut roots approximately 3-inches back from new construction.

Do not allow exposed roots to dry out before permanent backfill is placed. Provide temporary earth cover or pack with peat moss and wrap with burlap. Water and maintain in moist condition and temporarily support and protect from damage until permanently relocated and covered with earth.

3. Root greater than 3” in diameter shall be protected within 3 hours of excavation.
4. Roots greater than 3” in diameter shall not remain unprotected at the end of a workday.

Where trenching for utilities is required within dripline, tunnel under or around roots by hand digging. Do not cut main lateral roots or tap roots; cut only smaller roots that interfere with installation of new work. Cut roots cleanly with sharp, appropriate pruning instruments. Do not break or chop roots.

Prune branches to balance loss to root system caused by damage or cutting of root system as directed by Owner’s Authorized Representative or Arborist.

Avoid heavy compaction in areas that include major roots. Any work within dripline should be done by hand and under the supervision of a certified arborist.

3.04 GRADING AND FILLING AROUND EXISTING TREES

Maintain existing grade within dripline of trees.

Lowering Grades:

1. Where existing grade is to be lowered around a protected tree, gradually slope grade away from tree as recommended by Arborist. Do not reduce grade within tree dripline.
2. Consult Owner’s Authorized Representative or Arborist for appropriate plans on grade cuts exceeding 12-inches which may require details as to drains, special backfill mixes and retaining walls.

Raising Grades:

3. Where existing grade is to be raised 6-inches or more within tree root zone, consult the Engineer or Arborist to provide appropriate remedial plans to accommodate this grade change.

4. Such plans may address perforated pipe bends, drain lines, grates and retaining walls as may be required.
5. No soil fill will be allowed to cover over existing tree root zone grade.
6. Do not place soil as to cover tree trunk root flare.
7. For bidding purposes only: assume grades will be raise by placing a 2" layer of sand over the existing finish grade to achieve the design elevation for new finish surface.

3.05 ROOT PRUNING

Branch pruning may be required to stimulate root growth and to compensate for loss of roots.

Prune only per written recommendations from Arborist and conform to established pruning standard practices.

Ensure that Arborist provides Owner typed instructions for recommended long term maintenance procedures to be followed after completion of construction operations.

3.06 REPAIR AND REPLACEMENT OF TREES

Repair trees damaged by construction operations. Make repairs promptly after damage occurs to prevent progressive deterioration of damaged trees.

Remove and replace dead and damaged trees that Arborist determines to be incapable of restoration to normal growth pattern.

Provide new trees at a 48" box size and species of a species as selected by the Landscape Architect.

If trees over 6-inches in caliper measurement (taken 12-inches above grade) are required to be replaced, provide new trees of 6-inch caliper size and of species selected by Owner's Authorized Representative.

3.07 DISPOSAL

Do not burn trees or branches on-site.

Removal from Owner's Property: Remove excess excavation, displaced trees, and trimmings and dispose of off City's property.

END OF SECTION

SECTION 02 88 20 - PLAYGROUND EQUIPMENT

PART 1 - GENERAL

1.01 DESCRIPTION

A. Furnish all labor, materials, tools, equipment, appliances and necessary incidentals for the complete installation of all play structures, stand-alone play equipment, exercise equipment, and rock/rope climbing equipment.

B. Related sections.

Section 03 30 53: Concrete Formwork
Section 12 93 00: Site Furnishings and Miscellaneous Materials
Section 32 18 16: Synthetic Resilient Surfacing

C. Provide play ground certification.

1. The contractor shall retain a certified playground safety inspector at his own expense and provide a play ground safety certification report.

2. Any discrepancies found in the play ground safety report shall be resolved to the satisfaction of the city prior to acceptance of the play ground and prior to the start of the maintenance period.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

E. All vendors, suppliers, and manufacturer's representatives and the associated addresses, phone and fax numbers on the Plans and in the Specification are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 SUBMITTALS

A. Product Data: Submit complete manufacturer's descriptive literature and specifications.

B. Shop Drawings: Submit Shop Drawings describing the fabrication and installation of equipment proposed for use.

C. Samples: Submit the manufacturer's standard palettes for the selection of color.

D. Calculations:

1. Provide Structural calculations for all materials proposed as required by local building code.

2. Design Data: Submit engineering' calculations confirming the design of the play equipment, structures, and protective devices proposed for use.

a. Calculations for framing members, steel supports, and anchorage to the structure shall be prepared and signed by a Structural Engineer currently licensed to practice in the State of California.

E. A Certificate of Insurance shall be provided by all equipment manufacturers.

1.03 SUBSTITUTIONS

A. Submit three (3) sets of a typewritten list of equipment and materials as specified to the Engineer within twenty-one (21) days after award of contract. This list shall give the name, model number, and manufacturer, and shall be accompanied by cut sheets or reproductions of catalog pages for all of the equipment and material to be installed.

B. Approval of substitutions will not relieve the Contractor from complying with the requirements of the Contract Documents, Plans and Specifications. Pay at Contractor’s sole expense for all changes caused by approved substitutions which affect other items of work.

C. Substitutions will be rejected if materials proposed do not meet or exceed those specified on the plans or within the contract documents. Comparison for proposed substitutions shall be provided in writing by the contractor.

1. Product equivalency shall be base on maintaining the design intent as well as a qualitative analysis of strength and durability, Finishes, UV Exposure, warranty, and cost and savings to city.

1.04 FIELD CONDITIONS

A. Field Measurements: The contractor shall be responsible for verifying all field measurements prior to the installation if the play equipment and the surrounding hardscape.

B. The contractor shall be responsible for making any adjustments necessary to ensure the safety fall zones with-in the play areas.

C. Any discrepancies within the layout of the design shall be immediately brought to the attention of the City Engineer, designer, and play equipment manufacturer's representative.

D. Improper installation of play equipment resulting in a compromise or safety shall be corrected by the contractor at no additional cost to the city.

E. All fall zone distances shall be field verified by the contractor prior to the installation of the adjacent hardscape and again prior to the installation of the synthetic grass surfacing. Fall zones shall be marked on the finished grade and reviewed by the City's designated representative.

1.05 WARRANTY

A. Provide product warranty information for all items included in this section.

PART 2 PRODUCTS

2.01 MANUFACTURERS

A. Design, play value, materials, and warranty are based on the use of products manufactured by:

1. Play Equipment
   Landscape Structures
   Coast Recreation Inc.
   Contact: Allison Hepburn
   (714) 619-0100

2.02 MATERIALS

See Construction Details for specific playground components.

PART 3 EXECUTION

3.01 INSTALLATION

A. The installing contractor shall provide proof experience with references showing 5 similar projects constructed within the past 5 years.

B. General: Install the playground equipment in accordance with the manufacturer's recommended procedures and installation sequence. Equipment shall be rigid, straight, plumb and level. Secure equipment with manufacturer's fastening devices.

C. Foundations: Support holes shall be filled with concrete to the full required depth. The top of the concrete shall be 6" below finished grade. Primary supports shall be temporarily supported until concrete has sufficiently cured.

D. Metal Connectors: Secure with pins or spot welding to prevent loosening of the connection.

3.02 CLEANING

A. Clean surfaces of equipment thoroughly and leave ready for intended use.

3.03 CERTIFICATION

A. The Contractor shall retain an independent certified playground safety inspector to review the play equipment after installation. The Playground inspector shall be certified by CPSI with no less than 5 years experience. The Playground safety inspector shall submit a letter report detailing any deficiencies or accessibility issues related to the design and manufacturing, or installation of the structure.

B. Any deficiencies in the playground as noted for immediate correction by the certified playground inspector shall be reconciled by the contractor prior to acceptance at no additional cost to the city.

END SECTION

SECTION 03 11 13 - CONCRETE FORMWORK

PART 1: GENERAL

1.01 DESCRIPTION

A. The General Provisions shall apply to all Concrete Formwork operations. Provide all labor, materials, tools, transportation, equipment and incidentals necessary to perform work as indicated on the Plans and as herein specified.

B. Related Section.

Section 03 30 53: Miscellaneous Concrete

C. The Standard Specifications for Public Works Construction, "Greenbook", latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

1.02 QUALITY ASSURANCE

A. Comply with all applicable local, state, federal requirements regarding materials, methods of work, and disposal of excess and waste materials.

B. Manufacturer's directions, specifications and detailed drawings shall be followed in all cases where articles used furnish directions covering points not delineated on the Plans or Specifications.

C. The work included in this Section shall be done to the satisfaction of the Engineer. The decision by the Engineer as to the true construction meaning of the Plans and Specifications will be final.

PART 2: PRODUCTS

2.01 MATERIALS

A. Where finish concrete is below grade, plywood or sawed lumber formwork shall be constructed of substantial material as selected by the Contractor.

B. Where finished concrete is above grade and scheduled to be exposed, use Plyform Class I and II B-B, EXT-DFPA.

C. Form coating shall be a non-grain-raising and non-staining type that will not leave residual matter on the surface of the concrete or adversely affect bonding to concrete of paint, plaster, or other applied materials.

D. Portland cement shall be Type V, ion alkali and shall conform to ASTM C150.

PART 3: EXECUTION

3.01 INSTALLATION

A. All concrete above grade shall be cast in plywood or sawed lumber forms.

B. Concrete below grade may be poured directly against earth in open trenches.

C. All forms shall be constructed true to line and level, sufficiently tight to prevent leakage of mortar, and shall conform exactly to the dimensions of the finished concrete as shown on the drawings. Forms for curved surfaces shall be so constructed and placed that the finished surface shall not deviate from the arc of the curve; flat spots will not be accepted.

D. Where studs in formwork are spaced not over 12” o.c., 5/8” minimum plywood shall be used. Where studs are spaced not over 16” o.c., 3/4” minimum plywood shall be used.

E. Place long dimension of plywood sheets perpendicular to direction of studs.

F. Forms and metal reinforcement shall be checked and approved by the Engineer before concrete is placed.

3.02 REMOVAL OF FORMS

Do not disturb or remove forms until the concrete has developed sufficient strength to safely sustain its own weight and the superimposed loads above. After concrete is placed, the following minimum time periods shall elapse before the removal of forms.

ITEM	FORMS	SHORING
Sides of walls and edge of slabs and footings	3 days	5 days

END OF SECTION

SECTION 03 30 53 - MISCELLANEOUS CONCRETE

PART 1: GENERAL

1.01 DESCRIPTION

A. The General Provisions shall apply to all miscellaneous concrete work operations. Provide labor, materials, tools, transportation, equipment and incidentals necessary to perform work as indicated on the Plans and as herein specified.

B. Related Sections.

Section 03 11 13 - Concrete Formwork

C. The Standard Specifications for Public Works Construction, “Greenbook”, latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the “Greenbook”, unless otherwise determined by the Engineer.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer’s designated representative.

3. ASTM: American Society of Testing Materials

E. All vendors, suppliers, and manufacturer’s representatives and the associated addresses, phone and fax numbers on the Plans and in the Specification are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 QUALITY ASSURANCE

A. Comply with all applicable local, state, federal requirements regarding materials, methods of work, and disposal of excess and waste materials.

B. Manufacturer’s directions, specifications and detailed drawings will be followed in all cases where articles used furnish directions covering points not delineated on the Plans or Specifications.

C. The work included in this section will be done to the satisfaction of the Engineer. The decision by the Engineer as to the true construction meaning of the Plans and Specifications will be final.

D. Material quality standards and testing procedures shall be in accordance with all ASTM standards and testing procedures and shall be the latest requirements.

1. All tests shall be made by a testing laboratory acceptable and approved by the Engineer.

2. One mechanical analysis and one decantation test shall be made of the sand and coarse aggregate proposed for the work.

E. Reinforcing Steel: All steel shall be Grade 60 billet steel conforming to ASTM A-615.

1.03 SUBMITTALS:

A. Shop Drawings: Submit for concrete slabs showing dimensioned locations and types of construction and expansion joints.

B. Samples: Prepare minimum 4-foot square samples of each required slab finish excluding only monolithic trowel and float finishes. Include a transverse expansion joint, scoring, and edging.

PART 2: PRODUCTS

2.01 MATERIALS

A. Concrete shall have a minimum compressive strength at 28 days of 2500 psi.

B. Portland Cement shall be Type V, low alkali, and shall conform to ASTM C150.

C. Concrete aggregate shall conform to ASTM C33. All aggregate shall be well graded and selected from a source that has a proven history of non-reactivity. Maximum aggregate size shall be 3/4 inch.

D. Fine aggregate shall consist of washed natural sand having hard, strong and durable particles and which does not contain more than 2% by weight of clay, loam, shale, alkali, organic matter or other deleterious substances.

E. Coarse aggregate shall consist of clean, hard, fine grained, sound crushed rock or gravel, which does not contain more than 5% by weight of flat, chip-like, thin, elongated, friable or laminated pieces. Any piece having a major dimension in excess of two and one-half (2 1/2) times the average thickness and which will adversely affect the strength of the concrete shall not be used.

F. Water shall be clean and free from deleterious amounts of acids, alkalis, and organic materials.

G. Imprint pattern and color shall be as noted on the plan under construction materials schedule.

H. Each component of the concrete mix shall be supplied from the same source for the entire project.

2.02 PROPORTIONS AND MIXING

A. The concrete shall be composed of cement, sand and coarse aggregate in the proportions as determined by the testing laboratory. Cost of mix design shall be borne by Contractor.

B. Slump: Adjust quantity of water so concrete at time of placing does not exceed the following slumps when tested according to ASTM C143. Use the minimum water necessary for workability required by part of structure being cast.

Part of Structure	Maximum Slump Inches	Maximum Water-Cement Ratio
Footings, foundation walls, and mass concrete, not reinforced	4	0.6
Slabs on grade, reinforced and non-reinforced	3	0.45
Reinforced concrete over 8” thick	4	0.5
Reinforced concrete 8” or less thick	4-1/2	0.5
All other concrete	4	0.5

C. The concrete shall be mixed as follows:

1. Each transit mixer shall be equipped with automatic devices for recording the number of revolutions of the drum prior to completing the mixing, with peripheral drum speed of approximately 200 feet per minute.

2. Transit-mix concrete shall be mixed for a period of not less than ten (10) minutes. At least three (3) minutes of the mixing period shall be immediately prior to discharging at the job.

3. Transit-mix concrete shall not be delivered to the work with the total specified amount of water incorporated therein. Two (2) gallons of water per cubic yard shall be withheld, and may be incorporated in the mix, before the concrete is discharged from the mixer truck.

4. The concrete, at time of placing, shall be in such condition that it can be properly placed.

2.03 MISCELLANEOUS CONCRETE

A. Concrete footings
B. Concrete flatwork
C. Concrete header
D. Concrete Curbs

PART 3: EXECUTION

3.01 PLACING CONCRETE

A. Before the placing of any concrete, all forms shall be thoroughly cleaned and wet. Concrete shall be poured into forms immediately after it is mixed, so that no separation will occur. No concrete which has stood for more than fifteen (15) minutes after leaving the mixer shall be used. Concrete shall be rejected if not placed in its final position within ninety (90) minutes after water is first added to the batch.

B. Maximum free drop of concrete shall not be more than 5’-0”. Use tremies in deep sections.

C. The location of all stoppages shall be approved by the Engineer.

D. The flow surface of the freshly poured concrete shall be level whenever any pour is stopped and tight dams shall be built as necessary to accomplish this result. Construction joints shall be made only when unavoidable, and then only at the point determined by the Engineer. Details of such joints shall be as directed by the Engineer.

E. Before the placing of any concrete, the surface of the previously poured concrete shall be clean, wet and free of oil or any other contamination.

F. Install concrete and cement finish work true to lines, dimensions, levels, and finish with smooth unblemished surfaces for exterior finishes specified on Plans.

G. Remove and replace defective concrete or cement work with new materials. Permission to patch any defective area shall not be a waiver of the right of the City to require complete removal of defective work if patching does not restore quality and appearance of work.

H. No advertising impression, stamp, or mark of any description will be permitted on surface of concrete or cement finish.

3.02 CONCRETE FINISH

A. Compact and tamp concrete as specified to bring 3/8” of mortar to surface, wood float to straight edges and screeds, and apply following finishes. Do not use steel or plastic floats of any kind for initial floating operations. Unless otherwise specified, do not apply finishes until surface water disappears and surface is sufficiently hardened. Remove any bleed water and laitance as it appears.

B. The color for concrete paving shall be as shown on plans.

C. Integral color concrete shall be incorporated per manufacturer’s rates and specifications.

D. The pattern for imprint concrete shall be as shown on plans.

3.03 CONSTRUCTION/CONTRACTION AND EXPANSION JOINTS

A. Expansion joint material shall be at all vertical surfaces.

B. Locate construction and contraction joints to least impair the strength and appearance of the structure. In no case place an intersecting construction joint in such a way that two intersecting walks are separated by a construction or control joint at the point of intersection. Transition curves shall be part of a continuous pour of the intersection slab.

1. Construction joints shall be a maximum of twenty feet (30’) apart, with contraction joints a maximum of ten feet (10’) from construction joints. See plans for design layout.

2. The Contractor shall obtain the Engineer’s approval of layout showing proposed location of joints before pouring concrete.

C. Caulking of expansion joints where called for on the Plans shall be done with a non-tracking, multi-part flow type, self-leveling, polyurethane sealant manufactured by Chem-Seat, Grace, 3-H or approved equivalent.

1. Color shall match the color of the concrete where the expansion joint occurs unless shown otherwise on the plans.

2. Caulking shall be done by an experienced applicator in a workmanlike manner, in smooth straight runs, after thoroughly cleaning and priming joints.

3. All work shall be done in strict accordance with manufacturer's printed recommendations. Do not permit traffic to travel over seated joints until sealer has fully cured.

3.04 QUALITY CONTROL

A. Smoothness tolerance exterior concrete finish surfaces shall be of such smoothness and evenness that they shall contact the entire length of a 10' straight edge laid in any direction, with an allowable tolerance of 1/8 inch. Any operations necessary to achieve this result shall be performed by the Contractor at no additional cost to the City.

B. Inspections will be provided as necessary. Call for inspection two (2) working days prior to need.

C. The Contractor shall call for inspection during specific phases of construction. They shall include:

1. All form work prior to pouring.

2. All footings prior to pouring.

3. Subgrade prior to pouring.

4. Drag form approval.

5. At beginning of imprinting.

D. Contractor shall notify the Engineer twenty-four (24) hours prior to pouring any concrete.

E. Any work covered prior to inspection shall be opened to view by the Contractor at his expense.

3.05 TESTING

A. Compression tests of concrete shall be made as required by the Building Code except that compression tests of any grade of concrete shall be made whenever the quantity of that grade used in the project exceeds 25 cubic yards. At least two identical cylinders of each grade of concrete shall be taken of each 100 cubic yards of concrete or fraction thereof placed in the work. The cylinders shall be tested in a testing laboratory and test reports submitted to the City.

B. Storage of test cylinders on the site and after delivery to the testing shall be in accordance with ASTM Designation C31.

1. Should the strength by test fail, the mix shall be adjusted so that the resulting concrete shall comply with the minimum requirements, and all additional expense resulting from such adjustment shall be borne by the Contractor.

2. Should the strength of any grade by test fall below minimum, concrete from the defective pours which is in place may be tested by the core method. If such tests show the concrete to be defective, the concrete shall be removed and replaced or adequately strengthened as required under the governing Code. All expenses involved shall be borne by the Contractor.

3. Testing of concrete shall be at the discretion of the Engineer.

END OF SECTION

SECTION 04 22 00 -CONCRETE MASONRY UNITS

PART 1: GENERAL

1.01 DESCRIPTION

A. Provide all labor, materials, tools, transportation and incidentals to provide and install concrete masonry units (CMU) including reinforcement, anchorage, and accessories as indicated on the Plans and as herein specified.

B. Related Section.

Section 03 11 13: Concrete Formwork
Section 03 30 53: Miscellaneous Concrete
Section 12 93 00: Site Furnishings and Miscellaneous Materials

C. The Standard Specifications for Public Works Construction, "Greenbook", latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

E. All vendors, suppliers, and manufacturer's representatives and the associated addresses, phone and fax numbers on the Plans and in the Specification are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 QUALITY ASSURANCE

A. Perform Work in accordance with the current edition of the California Building Code.

B. Mortar and grout mix design:

1. The Contractor shall employ and pay for, an independent testing laboratory acceptable to the Engineer to design the mortar and grout mixes required.

2. The mixes shall be designed by the testing laboratory to produce mortar and grout of the strengths shown on the Drawings. Refer herein for tests to be used in determining masonry strengths.

1.03 REFERENCES

A. ACI 530 - Building Code Requirements for Masonry Structures.
B. ACI 530.1 - Specifications for Masonry Structures.
C. ASTM A 82 - Cold-Drawn Steel Wire for Concrete Reinforcement.
D. ASTM A 123 - Zinc (Hot-Dipped Galvanized) Coatings on Iron and Steel Products.
E. ASTM A 167 - Stainless and Heat-Resisting Chromium-Nickel Steel Plate.
F. ASTM A 525 - Steel Sheet, Zinc Coated, (Galvanized) by the Hot-Dip Process.
G. ASTM A 580 - Stainless and Heat-Resisting Steel Wire.
H. ASTM A 615 - Deformed and Plain Billet Steel Bars for Concrete Reinforcement.
I. ASTM C 55 - Concrete Building Brick.
J. ASTM C 90 - Load-Bearing Concrete Masonry Units.
K. ASTM C 652 - Hollow Brick (Hollow Masonry Units Made from Clay or Shale).
L. IMIAC - International Masonry Industry All-Weather Council: Recommended Practices and Guide Specification for Cold Weather Masonry Construction.
M. UL - Fire Resistance Directory.

1.04 SUBMITTALS

A. Submit under provisions of City specifications.

B. Shop Drawings: Indicate bars sizes, spacings, locations, reinforcement quantities, bending and cutting schedules, supporting and spacing devices for reinforcement and accessories.

C. Product Data: Provide data for masonry units.

D. Manufacturer's Certificate: Certify that Products meet or exceed specified requirements.

1.05 QUALIFICATIONS

A. Manufacturer: Company specializing in manufacturing the Products

specified in this section with minimum 5 years experience.

1.06 REGULATORY REQUIREMENTS

A. Conform to applicable code for masonry construction.

PART 2: PRODUCTS

2.01 MATERIALS

A. CMU: Size and Finish noted in detail

C. Portland cement: ASTM C 150, Type I, II or III.

D. Lime: ASTM C 207, Type S.

E. Aggregates:

1. For grout: ASTM C 404. Modify coarse aggregate grading requirements so that not more than 5% pass a No. 8 sieve and 100% passes a 3/8 in. sieve.

2. For mortar: ASTM C 144.

F. Mortar coloring pigments: Chemically inert, color-fast, finely ground limeproof pigment by LM Scofield & Co., or equal, of the color selected to match Engineer approved sample.

G. Admixture for grout: Sika Grout-Aid by the Sika Corp. or equal.

H. Water: Potable and fresh.

I. Reinforcing steel: ASTM A 615, grade shown.

J. Miscellaneous materials: As hereinafter specified and as necessary to complete this work.

2.02 MORTAR AND GROUT MIXING

A. Mix in the proportions designed by testing laboratory.

B. Use admixtures according to their manufacturer's printed instructions. Secure manufacturer or distributor initial supervision by a qualified field representative to assure proper use of admixture.

C. Mix by placing 1/2 of water and sand in operating mixer. Then add cement, lime, admixture and the remainder of sand and water. After all ingredients are in the mixer, mix mechanically for not less than three minutes. Do not hand-mix ingredients.

D. Use grout for placing of consistency as fluid as possible for placing without segregation of constituent parts.

E. Mortar may be retempered with water as required to maintain high plasticity.

F. Retemper on mortar boards only by adding water within a basin formed with the mortar and rework the mortar into the water.

G. Discard mortar and grout which are unused after 1-1/2 hour from initial mixing time.

PART 3: EXECUTION

3.01 SHORES AND CENTERING

A. Design, erect, support, brace and maintain shoring and centering for temporary support of cobble elements.

B. Construct true to required shape, size and form, well braced and made rigid in all parts and capable of supporting and sustaining the loads to which they are subjected.

C. Leave shores and centering in place until cobble can safely carry its own weight and the added loads of construction.

D. Brace Pilaster adequately to withstand all forces they will be subjected to during construction. Walls are not designed to be self-supporting for lateral loads until attached to floor and roof elements.

3.02 WORKMANSHIP

A. Erect pilaster plumb, square, straight and true to indicate lines, position and dimensions, in level courses with joints properly aligned.

B. Use sound, dry, clean cobble units free from cracks when placed in the structure.

C. If it is necessary to move a unit after it as been once set in place, remove the unit from the wall, clean and set in fresh mortar.

D. Do not exceed the tolerances contained in ACI 117 for completed work.

3.03 REINFORCEMENT

Embed reinforcement completely in grout with minimum coverage specified below.

3.04 BONDING

A. For bonding the cobble to the foundation, clean top surface of concrete foundation, remove laitance and expose aggregates before starting masonry construction.

B. Lay-up sides in straight uniform courses.

C. Corners shall have a standard bond by overlapping units and grouting solid.

3.05 JOINTS

A. Lay the starting joint on foundations with full mortar coverage on the bed joint. Keep area where grout occurs free from mortar so that grout will contact the foundation.

B. Mortar surfaces between cobbles shall be smooth and uniform cobble to produce a dense, slightly concave surface well bonded to the cobble on each side where exposed in the Work.

C. Perform tooling when mortar is partially set but still sufficiently plastic to bond. Use a tool which compacts the mortar, pressing excess mortar out of joint rather than dragging it out.

D. Rake out joints which are not right at the time of tooling, point and then tool.

E. Set capping units and bearing plates in a full bed of mortar.

F. Do not wet the cobbles units except that in very dry weather the contact surfaces of the units shall be moistened immediately before laying.

3.06 GROUTING

A. Keep mortar droppings out of or remove from the grout space before grouting.

B. Perform grouting from the inside of the cobble. Vibrate grout after initial absorption of water, but before plasticity is lost, to encase steel and to insure contact. Encase reinforcement in minimum of 1/2 in. of grout between

cobble and reinforcement.

3.07 FIELD QUALITY CONTROL

A. The Owner's Testing Agency will test mortar and grout as required by governing [CAC] .

B. The Testing Agency shall make the following tests in accord with these Specifications and the requirements of the [CAC]. The minimum acceptable test results are listed below.

C. At the beginning of masonry work, at least 2 test samples of mortar grout shall be taken and prepared for each 50 cu. yds. or fractional part hereof, and continuously stored in most air until tested. The compressive strengths shall meet the minimum strengths specified. Perform tests in compliance with the following:

D. Compression test strengths:

1. Mortar compression tests: On 2 in. x 2 in. cubes tested in compliance with ASTM C 109.

   a. 7 day: 1800 psi.

   b. 28 day: 3000 psi.

2. Grout compression tests: On cylinders made and cured in compliance with ASTM C 31. Compressive strength shall be determined in compliance with ASTM C 39.

   a. 7 day: 2000 psi.

   b. 28 day: 3300 psi.

E. Additional samples shall be taken whenever any change in materials or job conditions occurs or whenever, in the judgment of the Engineer, such tests are necessary to determine the quality of the material and installed work.

F. In making mortar test specimens, the mortar shall be taken from the unit soon after spreading. After molding, the molds shall be carefully protected by a covering which shall be kept damp for at least 24 hours, after which the specimens shall be stored and tested as required for concrete cylinders.

G. In making grout test specimens, remove molds after the grout has taken its set but before it has hardened. Store cylinders as required for concrete cylinders and test in the vertical position.

H. The compressive strength of masonry work shall be established by preliminary tests made in advance of the operations, using prisms of similar materials under the same conditions and insofar as possible, with the same bonding arrangement, mortar composition and joint thickness as for the structure. In building the prisms, the moisture content of the unit at time of laying, the consistency of the mortar, the workmanship and curing conditions shall be the same as will be used in the structure.

I. Test specimens shall be large enough to approximate the actual conditions in the finished structure, but small enough to facilitate handling and cutting to the size prisms required to fit the testing machines available. All tests shall be made in accord with the [UBC] [CAC].

J. Whenever there is any evidence that materials to be used in masonry construction do not conform to the Specifications, the material shall be tested for compliance before being used in the work.

K. All tests shall be made by the Testing Agency of record.

L. Testing of mortar and grout shall e at the discretion of the Engineer.

3.09 CLEANING

A. Remove grout scum and grout stains from the pilaster and all other surfaces immediately.

B. After pilaster is constructed, do not saturate with water for curing or any other purpose.

C. Where atmosphere is dry, dampen pilaster surface with a very light fog spray for 3 days.

END OF SECTION

SECTION 05 73 13 – ORNAMENTAL TUBULAR STEEL FENCES AND GATES

PART 1: GENERAL

1.01 DESCRIPTION

A. Tube Steel Fence and Gate.

B. Related Sections

Section 03 11 13 – Concrete Formwork
Section 03 30 53 – Miscellaneous Concrete

C. The Standard Specifications for Public Works Construction, "Greenbook", latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

E. All vendors, suppliers, and manufacturer's representatives and the associated addresses, phone and fax numbers on the Plans and in the Specification are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 SUBMITTALS:

A. Shop Drawings: Layout of railing and fence with dimensions, details and finishes of component accessories and post foundations.

B. Product Data: Manufacturer's catalogue cuts indicating material compliance and specified options.

C. Samples: Color selections for finishes. If requested, samples of materials, (e.g. finials, caps, and accessories).

PART 2: PRODUCTS

2.01 MANUFACTURER

A. Products from qualified manufacturers having a minimum of 5 years experience manufacturing ornamental picket fencing.

B. Ornamental Picket Fence:
Style: Per detail - see plans
Height: Per detail – see plans

C. Ramp Handrail:
Style: Per detail - see plans
Height: Per detail – see plans

2.02 TUBE STEEL PICKETS, RAILS AND POSTS

A. Pickets: Per plan-see detail

B. Rails: Per plan-see detail

C. Posts: Per plan-see detail

D. Finish: Per plan-see detail l

1. In accordance with ASTM A123 Grade 85, for steel and iron products; use ASTM A153, Class B2, for steel and iron hardware.
2. Fabricate items for galvanneal finish in one piece in greatest extent possible for separate panels. Field welding of main components will not be permitted.
3. Surfaces shall be free of icicles, spangles and puddling. Provide venting holes at all enclosed sections; Drilled holes are acceptable. Locate venting holes at a low point to prevent rainwater from entering and standing water. See drawings and schedules for extent of steel items to be provided with a galvanized finish.

PART 3: EXECUTION

3.01 EXAMINATION

A. Verify areas to receive fencing are completed to final grades and elevations.

B. Ensure concrete alignment and elevations are clearly established.

3.02 INSTALLATION

A. Install fence in accordance with these plans and specifications.

B. Space posts uniformly at on center, as indicated in detail.

C. Concrete Set Posts: All post will be set in a concrete footing as indicated in detail. Construct concrete footing as indicated in detail.

D. Gate Posts and Hardware: Not applicable on this project

E. Check each panel for vertical and top alignment and maintain in position during placement and finishing operation.

3.03 CLEANING

Clean up debris and unused material and remove from site.

C. ASTM C 177-71: Test Method for Thermal Conductivity by Means of Guarded Hot Plate.

D. ASTM C 207: Specification for Hydrated Lime for Masonry Purposes

E. ASTM C 270: Specification for Mortar for Unit Masonry

1.04 SUBMITTALS

A. Submit three copies of manufacturer's data and cut sheets.

B. Submit three full sized samples for each type material used.

C. Submit three copies of manufacturer's installation instructions.

1.05 QUALITY ASSURANCE

A. Applicator: Company experienced in the installation of manufactured stone and brick veneers of the types specified, with a minimum of 5 years experience.

1.06 DELIVERY, STORAGE AND HANDLING

A. Store mortar and other moisture-sensitive materials in protected enclosures; handle by methods which avoid exposure to moisture.

1.07 PROJECT CONDITIONS

A. Protect materials from rain, moisture and freezing temperatures prior to, during and for 48 hours after completion of work.

B. Allow no construction activity on opposite side of wall during installation and for 48 hours after completion of work.

1.08 WARRANTY

A. Provide manufacturer's warranty.

PART 2: PRODUCTS

2.01 MANUFACTURERS

A. Creative Mines or approved equal

2.02 MATERIALS

A. Craft Foothill Rubble, color Toasted

B. Mortar

1. Portland Cement, ASTM C 150, Type I or masonry cement (Type N), ASTM C 91.

2. Masonry sand.

3. Lime: ASTM C 207

4. Iron oxide pigments (if required)

C. Masonry Sealer: If specifying use: breather type (non-film forming) sealer.

2.03 MANUFACTURED UNITS - CULTURED STONE

A. Compressive Strength: Tested in accordance with UBC Standard No. 26-10, Parts I and IV.

B. Shear (adhesion) strength: tested in accordance with ASTM C 482 using a unit thickness approximately the same as the stone unit.

C. Thermal Resistance: K factor 2.82 in accordance with ASTM C 177. R factor is .355 per 1 inch of thickness.

D. Fire Hazard Test on 1 7/8 inch thick Sample: Flame spread of 0, smoke development of 0 in accordance with UL723

PART 3: EXECUTION

3.01 PREPARATION

A. Open Studs: Install paper backed metal lath to studs using galvanized nails or staples which penetrate a minimum of 1 inch and place 4 inches on center. Apply ½ inch to ¾ inch scratch coat and allow to dry 48 hours. Wrap weather resistant barrier and metal lath a minimum of 16 inches around all outside and inside corners.

B. Sheathed Surfaces: Install one layer of weather-resistant barrier with lap joints 4 inch shingle fashion. Apply code approved metal lath, attach with galvanized nails or staples which penetrate a minimum of 1 inch. Apply 6 inches on center vertically and 16 inches on center horizontally. Wrap weather resistant barrier and metal lath a minimum of 16 inches around all outside and inside corners.

C. Concrete and Masonry Surfaces, New, Clean and Untreated: (no preparation needed) Examine newly poured concrete closely to ensure that its finished surface contains no releasing agents (form oil). If it does contain form oil, etch surface with muriatic acid, rinse thoroughly and/or score with a wire brush, or use high pressure water or sandblasting to remove.

D. Existing Concrete and Masonry Surfaces: If required remove paint, coatings, sealers and dirt as recommended in 3.01 C, or apply metal lath to surfaces, attach with galvanized concrete nails. Apply 6 inches apart, 16 inches on centers.

3.02 MORTAR MIXING

A. Thoroughly mix mortar ingredients in quantities needed for immediate use in accordance with ASTM C 270, Type N.

B. Do not use anti-freeze compounds to lower the freezing point of mortar.

3.03 APPLICATION

A. Apply in accordance with Manufacturer's Installation Instructions.

B. Apply ½ inch to ¾ inch of mortar to lath and/or dampened masonry, stucco or concrete surfaces, covering a maximum of 10 square feet at one time. Press the units firmly into position in soft mortar bed, jiggle and apply slight pressure to unit to ensure firm bonding causing mortar to extrude slightly around edges of units.

C. Install hearth pieces in full ½ inch to ¾ inch deep mortar bed.

D. Place units with uniform mortar joints. Stone joints should be over ¾ inch in width. When installing pre-fitted stone textures such as; Profit Ledge stone, Carolina ledge stone and European Castle Stone, units should be fitted with no allowance for mortar joints. Brick joints should be uniform

3/8 inch in width, with horizontal joints level; with head joints of brick evenly spaced and centered above unit below. Install outside corner return units with short and long lengths alternated.

E. Plan to work to minimize job site cutting. Perform necessary cutting with proper tools to provide uniform edges; take care to prevent breaking unit corners or edges.

F. Remove excess mortar; do not allow mortar to set up on face of units. Tool joints before mortar has set. Clean and finish joints in accordance with manufacturer's instructions.

END OF SECTION

SECTION 09 96 23 - GRAFFITI RESISTANT COATINGS

PART 1: GENERAL

1.01 DESCRIPTION

A. Provide all labor, materials, tools, transportation and incidentals to provide and install anti-graffiti and graffiti resistant coatings as indicated on the Plans and as herein specified.

B. Related Sections

Section 03 11 13: Miscellaneous Concrete
Section 12 93 00: Site Furnishings and Miscellaneous Materials

C. The Standard Specifications for Public Works Construction, "Greenbook", latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

E. All vendors, suppliers, and manufacturer's representatives and the associated addresses, phone and fax numbers on the Plans and in the Specification are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 QUALITY ASSURANCE

A. Qualifications:

1. Use Products by manufacturers regularly engaged in manufacturing of this product and with a history of at least three successful applications within the last 3 years.

2. Use skilled workers who are thoroughly trained and experienced and who are completely familiar with the specified requirements and methods.

B. Regulatory Requirements:

1. Comply with applicable codes and regulations. All products must comply with current VOC requirements for the air quality management district where application takes place. Where those requirements conflict with this Specification, comply with the more stringent provisions.

C. Field Samples:

1. Apply the system as specified in a designated area. This will serve as an indication that applicator can provide acceptable results and will be used as the standard for the rest of the work.

1.03 SUBMITTALS

A. Product Data:

1. Submit complete manufacturer's literature and specifications. Include complete lists of materials proposed for use, giving the manufacturer's name, product numbers, and product information sheets for each specified item.

B. Samples:

1. When specified system requires that the graffiti resistant coating be applied over a paint color, submit sample of system showing each coat. The architect will use this sample to approve color.

C. Application and Safety:

1. Submit the manufacturer's recommended methods of installation, including limitations, safety and environmental cautions, material safety data sheets and application rates.

1.04 DELIVERY, STORAGE AND HANDLING

A. Acceptance at Site:

1. Material shall be delivered to Project in original containers, completely sealed and bearing name of coating contained therein.

B. Storage and Protection:

1. Use all means necessary to protect the materials of this Section before, during and after installation.

1.05 PROJECT AND SITE CONDITIONS

A. Project Conditions:

1. Do not apply coatings when surface temperature is more than 90° F, in the shade, or when relative humidity is more than 70 percent. Do not apply coating when adverse weather conditions are imminent.

PART 2: PRODUCTS

2.01 MANUFACTURERS

A. Manufacture or distributed by: Genesis Coating Inc., 2780 La Mirada Drive, Suite D, Vista CA 92081 (760) 599-6011

3.01 MATERIALS AND FINISH

A. Anti-graffiti coating to be GCP 1000, Non-sacrificial

B. Finish over concrete, brick or stone: Clear Satin

C. Finish over Concrete Masonry Units (CMU): Clear Satin

D. Finish over painted surfaces: Clear Gloss

PART 3: EXECUTION

3.01 EXAMINATION

A. Verification of Conditions:

1. Prior to the commencement of the Work of this Section, examine the installed work of other trades and verify that all such work is complete or properly corrected to the point where this installation may properly commence. Commencement of work will indicate that applicator has accepted the conditions.

3.02 PREPARATION

A. Protection:

1. Protect and cover finished work and materials of all other trades, which may be affected by work of this Section during coating application. Protect all surrounding vegetation and adjacent areas from over-spray.

B. Surface Preparation:

1. Substrates to receive sealers or primers prior to graffiti resistant coatings must be cleaned of all dirt, bond-breakers and all other foreign materials

which will adversely affect the required appearance of the finished product.

2. Power wash all surfaces in accordance with manufacturer's recommendations.

3.03 APPLICATION

A. General:

1. Apply graffiti resistant coatings to all precast, cast-in-place items including rock finishes on walls and columns.

2. Apply primers, paints and coatings in strict accordance with manufacturer's recommendations as accepted by the Engineer.

3. The number of coats specified is the minimum that will be applied. Apply additional coats when undercoats, stains or other conditions show through final paint coat, until paint film is of uniform color and appearance.

4. When additional coats of the graffiti resistant coating are required, allow no more than 48 hours between coats.

5. Apply a total dry film thickness of not less than 1.2 mils for primers and paint finishes and not less than 1.5 mils for graffiti resistant coatings.

6. Back roll all work to assure that material impregnates all voids and uneven surfaces.

3.04 CLEANING, TOUCH-UP AND REFINISHING

A. General:

1. Carefully remove all splatters, spots and blemishes caused by work of this Section.

2. Upon completion of the work, remove all rubbish, cans and accumulated materials. All areas must be left in a clean and orderly condition.

3. Runs, sags, misses, holidays, stains and other defects in the coated surfaces, including inadequate coverage and mil thickness will be satisfactorily touched-up or refinished.

END OF SECTION

SECTION 12 93 00 – SITE FURNISHINGS AND MISCELLANEOUS MATERIALS

PART 1: GENERAL

1.01 DESCRIPTION

A. Provide all labor, materials, tools, transportation and incidentals to provide and install Site Furnishings and Miscellaneous Materials as indicated on the Plans and as herein specified.

B. Related Section.
Section 03 30 53: Miscellaneous Concrete
Section 03 11 13: Concrete Formwork

C. The Standard Specifications for Public Works Construction, "Greenbook", latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

E. All vendors, suppliers, and manufacturer's representatives and the associated addresses, phone and fax numbers on the Plans and in the Specification are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 QUALITY ASSURANCE

A. Shop Drawings: Provide shop drawings for each component and each item of site furniture. Shop drawings shall indicate layouts, component locations, dimensions, set-backs, details of assembly, anchors, footing details and all appurtenances required to assemble components. Submit three (3) sets of shop drawings to the City within twenty-one (21) calendar days after award of contract.

B. Product Data: Provide data on all site furnishings, equipment and materials, including accessories, utility characteristics, connection requirements and product cut-sheets. Submit three (3) sets of product data to the City within twenty-one (21) calendar days after award of contract.

C. Manufacturer's Installation Instructions: Submit three (3) sets of the manufacturer's installation instructions to the City within twenty (21) calendar days of award after the contract.

1.03 DELIVERY, STORAGE AND HANDLING

Store and protect all site furnishings.

1.04 RELATED REQUIREMENTS

A. Obtain all permits (except permanent easements) and licenses and give notice and pay for all fees necessary to complete work under this Section as delineated or specified. Permit fees required by the City shall be waived.

B. Manufacturer's directions, specifications and detailed drawings will be followed in all cases where the articles used furnish directions and cover points not delineated on the Plans or in the Specifications.

C. The Specifications only indicate the quality and workmanship to be performed rather than a detailed description of the performance of the work. Install said site furnishings, materials and equipment in such a manner that they will operate efficiently and evenly.

D. In the event of any discrepancies between the Plans and the Specifications, the final decision as to which will be followed shall be made by the Engineer, or his designated representative. In the event the installation is contradictory to the direction of the Engineer, the installation shall be rectified by the Contractor at no additional cost to City.

1.05 REGULATORY REQUIREMENTS

A. The work shall conform to Americans with Disabilities Act (ADA), U.S. Consumer Product Safety Commission-Public Playground Handbook for Safety and California Disabled Access Regulations-Title 24. The Contractor shall be responsible for compliance and provide written documentation for compliance to the Engineer upon installation of all equipment and material governed by said regulations.

B. All work shall conform to the City standards for public construction and any other agency's standards for public construction having jurisdiction over the work.

C. Provide certificate(s) of compliance from authority(s) having jurisdiction over the work. The certificate(s) shall indicate approval of products and their installation. Comply with all applicable local, state, federal requirements regarding materials, methods of work, and disposal of excess and waste materials.

1.06 SAMPLES AND SUBSTITUTIONS

A. All workmanship, equipment, materials, and articles incorporated shall be the best available grade of their respective kind.

B. Provide a sample of each component specified. Accepted samples may be used in the Work.

Submit three (3) sets of a typewritten list of equipment and materials as specified to the Engineer within twenty-one (21) days after award of contract. This list shall give the name, model number, and manufacturer, and shall be accompanied by cut sheets or reproductions of catalog pages for all of the equipment and material to be installed.

C. Substitutes must be approved a minimum of 10 days prior to the date of the bid opening. The City will issue an addendum, stating that an alternate product or manufacturer is acceptable. An alternate product or manufacture will not be accepted without issuing a formal addendum.

Alternate suppliers shall meet the requirements of the specified product and shall provide proof of equivalency.

D. Approval of substitutions will not relieve the Contractor from complying with the requirements of the Contract Documents, Plans and Specifications. Any costs and expenses associated with an approved substitution which affects other items of work, shall be sole responsibility of the Contractor.

PART 2: PRODUCTS

2.01 MATERIAL

A. Whenever a material or process is delineated or specified by patent, proprietary name or process, or manufacturer's name, such specifications

are used for the purpose of facilitating the description of material or process desired.

B. Information pertaining to the product as to the manufacturer, material, model, color, finish, etc. is shown on the plan.

2.02 COMPONENTS

A. Picnic table

B. ADA Picnic Table

C. Trash receptacle

D. Recycle Trash receptacle

E. Hot Coal Container

F. Bench

G. Charcoal BBQ

H. Drinking Fountain

I. Removable Bollard

PART 3: EXECUTION

3.01 EXAMINATION

A. Verify site conditions and surfaces are ready to receive work.

B. Verify that layout and site are compatible.

3.02 PREPARATION

A. Layout and stake locations of components for approval by Engineer prior to installation.

B. Review layout requirements with other affected work.

3.03 INSTALLATION

A. Install in accordance with City standards and manufacturer’s instruction.

B. Provide concrete footings for site furnishings as detailed Plans or as specified by the site furnishing manufacture.

3.04 SITE CONDITIONS

The Contractor will promptly repair any damage to existing and/or new facilities caused by construction operations. Cost of repairs shall be done at the Contractor's sole expense.

END OF SECTION

SECTION 31 10 00 - SITE PREPARATION AND CLEARING

PART 1 - GENERAL

1.01 SUMMARY

A. Section includes protection of existing improvements, utilities and plant material; removal of surface debris and trash; removal of abandoned utilities; and repair of damaged vegetation and irrigation systems/system components.

B. Related Sections:

1. Section 32 84 00 - Irrigation

1.02 REGULATORY REQUIREMENTS

A. Perform all work of this Section in strict accordance with applicable Government Codes and Regulations especially meeting all safety standards and requirements of CAL/OSHA, County of Orange and the City of Laguna Hills. Provide additional measures, added materials and devices as may be needed as directed by the Engineer at no added cost to the City.

B. Comply strictly to Rule 1404, South Coast Air Quality Management District.

C. Coordinate clearing Work with utility companies.

PART 2 - PRODUCTS

2.01 MATERIALS

A. Provide materials not specifically described but required for completion of the work of this Section, as selected by the Contractor subject to the approval of the Engineer.

PART 3 - EXECUTION

3.01 PREPARATION

A. Verify that existing plant life designated to remain is tagged or identified.

B. Identify a waste area for placing removed materials.

3.02 PROTECTION

A. Protect existing structures and site improvements indicated to remain, from damage by approved methods and as authorized by the Engineer. Removal of all protections shall be when work of this Section is completed or when so authorized by the Engineer.

B. Protect existing utilities indicated or made known to remain traversing the job-site and serving existing adjacent facilities.

C. Protect Existing Trees indicated to remain.

D. Protect bench marks, survey control points, and existing structures from damage or displacement.

E. Protection of Persons and Property (existing structures and site improvements):

1. Provide barricades, warning signs, tape, etc. at open depressions and holes and during pole, chain link fabric and concrete wall removals on the site and adjacent property and public accesses.

2. Provide operating warning lights during hours from dusk to dawn each day or as otherwise required.

3. Protect existing remaining structures, utilities, sidewalks, pavements other facilities from damage as caused by settlement, undermining, washout or other hazards created by site-clearing operations of this Section.

F. Use means necessary to prevent dust from becoming a nuisance to the public, to neighbors and to others performing work on or near the job-site.

G. Maintain access to the job-site at all times.

3.03 SITE CLEARING

A. General: All site clearing shall conform to Section 300-1.1 of the Standard Specifications for Public Works Construction. Site clearing shall include but not be limited to removal of trash, weeds, plants and debris, including rubble of broken concrete or asphalt and any other items encountered. The Contractor shall furnish all labor, materials, tools, equipment, appliances and necessary incidentals for the completion of site clearing as shown on the drawings and as specified herein.

B. Removal of Improvements: Remove existing above-grade and below-grade improvements necessary to permit construction, and other work as

indicated and conform to Section 300-1.3 of the Standard specifications for Public Works Construction. Removal of abandoned underground piping or conduit interfering with construction is included in this section. Securely cap or seal exposed end of remaining conduits. Cap utilities beyond the limits of the work area and remove servicing lines off site. Re-route existing utilities to remain as required.

C. Remove all rubbish and debris existing and resulting from work operations of this Section as soon as possible and dispose off site, do not allow to pile up. Do not burn rubbish and debris on the job-site.

D. Where active utility lines need to be capped or plugged, perform such work in accordance with requirements of the Utility Company.

3.04 REPAIRS

A. During demolition and construction, ensure that trees, shrubs and other plant material and vegetation are protected inside and outside of the work zone and that the vegetation is being watered, maintaining the proper moisture content according to the season. Failed vegetation, including sod, due to lack of water, and/or plant material destroyed during construction period are to be replaced to equal or better size and condition at no additional cost to the City.

B. If the irrigation system is damaged or modified during construction, it shall be repaired to the City standards, and shall be in equal or better condition than prior to damage or modification. All repairs shall be inspected and approved by the Engineer prior to backfilling or covering of said repairs. The City requires forty-eight hours prior notice, when contractor requests inspection of completed repairs. All repairs shall be made so as to ensure proper operation prior to the close of the contract at no additional cost to the City.

3.06 EXCESS MATERIALS DISPOSAL

Legally dispose of off-site materials removed and not to be reused. Adjacent areas shall be left clean.

END OF SECTION

SECTION 31 22 13 – EARTHWORK AND SITE GRADING

PART 1 – GENERAL

1.01 DESCRIPTION:

A. Provide and perform earthwork and site grading complete as follows:

1. Survey
2. Excavation and on-site disposal.
3. Scarify subgrade prior to placement of imported topsoil.
4. Imported topsoil.
5. Site Grading
6. Control of surface water.
7. Testing and inspection of work of this section.
8. Clean up and disposal.

B. Related Sections

Section 32 13 14 – Miscellaneous Concrete

1.02 QUALITY ASSURANCE:

A. Preconstruction Conference: Conduct a preconstruction conference prior to starting work of this section, to develop a program for quality control of the work. The requirements for observation of the work by the Engineer, scheduling of the work to be observed, any additional observation requirements, and planned construction procedures, will be discussed. The existing prepared site will be inspected, and required remedial measures will be defined.

B. Survey: The Contractor shall employ a qualified professional Engineer or land surveyor; establish exact elevations at fixed points to act as bench marks. Clearly identify bench marks and record existing elevations. The Contractor shall provide surveys for the purpose of survey control, layout, grade and cross sections required to control work. Survey shall conform to section 2-9.4 and 2-9.5 of the Standard Specifications for Public Works Construction.

1. Contactor shall tag and protect existing survey monuments found during course of work. Contractor shall replace monuments or stakes damaged during course of work at no added expense to City.
2. Contractor shall establish grid control for site to provide basis for location construction, utilities and other facilities. Provide copies of all survey control and grade sheets to the Engineer.

a. Flag limits of removal and construction
b. Stake for location and grade.

3. Contractor shall be responsible for layout and alignment of prefabricated restroom, walks, curbs and grade, concrete pavement, fencing, landscape materials, etc.
4. Verify the location and elevation of improvements and utilities to be joined.
5. Submit grade sheet for verification prior to start of work.

C. Observation and testing required for work of this Section:

1. Field density and compaction testing to determine the percentage of compaction achieved during placement of backfills.
2. Probe foundation bearing materials to confirm that suitable bearing materials are present at the design grades.
3. Observe the backfill of utility trenches.
4. Observe the construction of the subgrade and base for exterior paving.
5. Observe the excavation for footing.

D. Source Quality Control: Obtain approval by the Engineer of imported fill material before material is brought to site, and same approval of excavated material for use in fills or backfills prior to placing.

1.03 PROJECT SITE CONDITIONS:

A. Protection: Provide and maintain protection to retain earth banks and to protect adjoining grades from caving, sliding, erosion, or other damage. Provide suitable protection against all bodily injury. Construct all bulkheads and shoring to requirements of State and Local codes and regulations. Shore vertical banks or slope banks back as required for stability and safety.

PART 2 – PRODUCTS

1.01 MATERIALS: Provide approved imported material as required and as shown on the plans and specified.

A. Earthwork Materials: Approved excavated or imported granular soil such as silty sand of the non-expansive type (that undergoes no undesirable volumetric change with changes in the moisture content) and containing not more than 20 percent by weight of material passing the No. 200 sieve, free from trash, roots, organic material, clay lumps, and rocks over 1” size. Class “A” topsoil shall be placed to a depth of 12” where new sod is to be installed.

B. Imported Topsoil

1. Topsoil in planting areas shall be Class “A” (imported). Topsoil shall be transported from the source to its final position unless stockpiling is specified. Imported Top Soil for new sod areas shall

be Class “A” topsoil and shall be placed at a minimum depth of 12”.

2. Class “A” topsoil shall be from a source outside the limits of the project selected by the Contractor and in compliance with the requirements specified herein. The Engineer may make such inspections and require the Contractor to perform such tests as deemed necessary to determine that the material meets the requirements.

3. At least ***thirty (30) calendar days*** before scheduled use, the proposed source of topsoil must be submitted to the Engineer for approval so that it may be tested. Submit a written request for approval which shall be accompanied by a written soils test report which states that the proposed source complies with these Specifications.

4. Class “A” topsoil shall have the same relative composition and structure, a friable sandy loam character, and be free of roots, clods, and stones larger than one inch (1”) in greatest dimension, pockets of coarse sand, noxious weeds, sticks, brush, and other litter. It shall not be infested with nematodes or other undesirable insects and plant disease organisms.

5. All Class “A” topsoil shall meet the following additional requirements:

   a. Gradation Limits: Sand, 50-80 percent, clay 20 percent maximum, and silt, 30 percent maximum. The sand, clay, and silt gradation limits shall be as defined in ASTM D422.

   b. Permeability Rate: Not less than 0.5 inches per hour nor more than 2 inches per hour when tested in accordance with ASTM D 2434, California Test 220, or other approved methods.

   c. Agricultural Suitability: The topsoil shall be suitable to sustain the growth of the seed and plants specified.

   d. In no case shall there be more than five percent (5%) by volume of stones smaller than one inch (1”), coarse sand and small clay lumps.

C. Sand: ASTM D2488, with not more than 3 percent passing No. 200 sieve.

PART 3 – EXECUTION

3.01 EXCAVATION

A. Perform excavation to the dimensions and elevations indicated on drawings, with additional space allowed as required for the installation and stripping of forms, and inspection of the various types of work, except where approval may be given to deposit certain miscellaneous concrete directly against earth banks. Avoid loosening of soils in bottoms or sides of excavations.

B. Unauthorized Excavation: If excavations are carried below the elevations indicated without written authorization, provide satisfactory construction to correct the fault as approved, at no additional cost.

3.02 SOIL STABILIZATION: Provide soil stabilization, as required throughout the work area, during and following construction, to prevent erosion damage. Establish and maintain vegetation or suitable matting as directed.

3.03 SCARIFY SUBGRADE: Prior to placing the topsoil, the native soil on which the topsoil is to be placed shall be thoroughly scarified to a minimum depth of 6” by rototilling or cross ripping with tractor tines spaced at a minimum 18” on center to the satisfaction of the engineer.

3.04 SITE GRADING

A. General: Uniformly grade areas within limits of grading under this section, including adjacent transitions areas. Smooth finished surface within specified tolerances, compact with uniform levels or slopes between points where elevations are indicated, or between such points and existing grades.

1. Lawn or Unpaved Areas: Finish areas to receive topsoil to within not more than 0.04 feet above or below required subgrade elevations.
2. Walks: Shape surface of areas under walks to line, grade and cross section, with finish grade surface not more than 0.02 feet above or below required subgrade elevation.
3. Pavements: Shape surface of areas under pavement to line, grade and cross-section, with finish grade surface not more than 0.02 feet above or below required subgrade elevation.
4. Contour grade slopes and mounds to plan grades, to a desired smooth, even ground surface free of sharp grade breaks.

B. Compaction: After grading, compact subgrade surfaces to the depth and indicated percentage of maximum or relative density for each area of classification.

3.05 COMPACTION CONTROL

A. General: Control soil compaction during construction providing minimum percentage of density specified for each area classification indicated below. Percentage of Maximum Density Requirements: Compact soil to not less than the following percentages of maximum density for soils which exhibit a well-defined moisture density relationship (cohesive soils)

determined in accordance with ASTM D 1557; and not less than the following percentages of relative density, determined in accordance with ASTM D 2049, for soils which will not exhibit a well defined moisture density relationship (cohesionless soils).

1. Lawn or Unpaved Areas: Compact top 24 inches of subgrade and each layer of backfill or fill material at 85 percent maximum density.
2. Walkways, PCC paving and decomposed granite: Compact top 24 inches of subgrade and each layer of backfill or fill material at 90 percent maximum density.
3. Fill placement shall be in lifts not exceed 6-inches and compacted prior to placement of additional fill at 90 percent maximum density.

B. Moisture Control: Where subgrade or layer of soil material must be moisture conditioned before compaction, uniformly apply water to surface of subgrade, or layer of soil material. Apply water in manner to prevent free water from appearing on surface during or subsequent to compaction operations.

1. Remove and replace, or scarify and air dry, soil that is too wet to permit compaction to specified density.
2. Soil material that has been removed because it is too wet to permit compaction may be stockpiled or spread and allowed to dry. Assist drying by discing, harrowing, or pulverizing until moisture content is reduced to a satisfactory value.

3.06 BACKFILLS: Do not place backfills until after concrete forms are removed, and pointing and patching of concrete, and waterproofing with protection course are done and approved.

3.07 SUBGRADE PREPARATION FOR CONCRETE: Prepare subgrade for concrete items placed directly on earth by excavating, filling, and grading as required and as specified, and bring to optimum moisture content. Finish the subgrade within 3/8” tolerance when tested along a 10-foot straightedge in any direction at any location. Compact to density specified for fills and maintain moisture content until concrete is placed.

3.08 DISPOSAL: Clean up and remove all trash, debris, waste, and surplus and rejected earthwork materials from the site to a legal disposal area. Conform to pertaining laws, codes, and regulations, obtain and pay for required hauling and dumping permits, and pay all dumping charges. Perform trucking and material handling in a careful manner to prevent spillage and dusting or damage to surfaces and structures. Remove planks used to protect surfaces subject to public traffic at finish of each day’s operations. Maintain public streets and sidewalks in broom clean condition.

3.09 Repair or replace any damages to existing lawn, irrigation and concrete sidewalk caused by the Contractor’s operations or neglect at no additional cost to the City.

END OF SECTION

SECTION 32 18 16 – SYNTHETIC RESILIENT SURFACING

PART 1 GENERAL

1.01 SUMMARY

A. Section Includes: Poured-in-place playground surfacing system.

1.03 WORK SCOPE

A. Furnish labor, material, and equipment necessary to install the poured-in-place, resilient surfacing system and resilient synthetic play turf system as shown on the drawings and specified herein.

a. Work shall include, but not be limited to the following: layout; excavation; backfill; furnishing and installing of base material; furnishing and installing of poured-in- place, resilient surfacing and all other incidental work to provide a complete resilient surfacing system.

b. Poured in place playground surfacing shall consist of a polyurethane binder mixed with recycled rubber, which will make up the attenuation cushion layer. The attenuation cushion layer is capped with EPDM, mixed with a polyurethane binder creating the Wear Course. Surfaces shall comply with ADA and CPSC guidelines as well as ASTM Standards. Manufacturer is to be certified by IPEMA, a third- party testing organization for playground surfaces and equipment.

1.04 PERMORMANCE REQUIREMENTS

A. Area Safety: Poured in place within playground use zones shall meet or exceed the performance requirements of the CPSC, ADA and Fall Height Test ASTM F1292-18. The surface must yield both a peak deceleration of no more than 100 G-max and a Head Injury Criteria (HIC) value of no more than 500 for a head-first fall from the highest accessible portion of play equipment being installed as shown on drawings. IPEMA certification is required. (ASTM F1292-18, section 15 The laboratory test used to determine critical fall height shall have been conducted on surfacing material samples identical in design, materials, components, and thickness and manufactured as the installed playground surface). ASTM F3351-19 standard test method for playground surface impact testing in laboratory at specified test height for 8’ critical fall height.

B. Surfaces shall comply with ADA and CPSC guidelines as well as ASTM Standards. The manufacturer is to be certified by IPEMA, a third-party testing organization for playground surfaces and equipment.

C. Play area shall conform to Uniform Federal Accessibility Standards FED-STD-795 and Architectural and Engineer Instructions (9AEI) Design Criteria.

D. The requirements of the Americans with Disabilities Act. Accessibility Guidelines (ADAAG) 28 CFR Part 36 that provide equal or greater accessibility

than the requirements of UFAS must also be met in children's outdoor play areas.

1.04 DELIVERY STORAGE AND HANDLING

A. Delivery, Storage and Handling: Materials and equipment shall be delivered and stored in accordance with the manufacturer's recommendations.

1.05 SITE CONDITIONS

A. Project Site Conditions: Poured in Place surfacing must be installed on a dry sub-surface, with no prospect of rain within the initial drying period, and within the recommend temperature range of the manufacturer. Installation in weather condition of extreme heat, cold (less than 55°F), and/or high humidity may affect cure time, and the structural integrity of the final product. Immediate surrounding sites must be reasonably free of dust conditions or this could affect the final surface look.

1.06 SEQUENCING AND SCHEDULING

A. Sequencing and Scheduling: Poured in Place surfacing shall be installed after all playground equipment, shade structures, signs and any other items that will be within the surfacing area. Coordinate with General Contractor.

B. Surface installation coordinated by manufacturer representative.

1.07 SUBMITTALS

A. The Contractor shall submit a complete set of the material submittals, as required, including manufacturer's name and address, specific trade names, catalog and model numbers, illustrations and descriptive material, and samples of the proposed material for this project clearly marked as to proposed items for approval by the City Engineer.

B. Products submitted as equal must include hard copies of manufacturers' written specifications, warranty, purchase and use of materials.

C. Manufacturer's descriptive data and installation instructions.

D. Manufacturer's details showing depths of wear course and sub-base materials, anchoring systems and edge details.

E. A signed statement by an authorized official certifying that the surfacing system meets the requirements of ASTM F1292-18, section 15 for a head-first fall from the highest accessible portion of the specified playground equipment.

F. A signed statement from the manufacturer of the poured in place surfacing attesting that all materials under this section shall be installed only by the Manufacturer's Trained Installers.

G. A Certificate of Insurance shall be provided by the Manufacturer for poured in place surfacing for use as playground safety surfacing, covering general and product liability, of not less than $1,000,000 for each occurrence, $2,000,000 general aggregate, with an excess/umbrella liability of $25,000,000. The issuing underwrite shall be AA rated.

H. IPEMA Certification

1.08 QUALITY ASSURANCE

A. Qualifications: Utilize an installer approved and trained by the manufacturer of the playground surfacing system, having experience with other projects of the scope and scale of the work described in this section.

B. Certifications: Certification by manufacturer that the installer is trained, experienced company employees or certified installers who have successfully completed the "Certified Installers Training Program",

C. Experience: The installer shall provide a list and photographs of at least five installations where TPV Poured in Place Resilient Playground Surfacing has been installed and have been in service for a minimum period of three years. The list shall include owner or purchaser, address of installation, date of installation, contact person, and phone number

D. International Play Equipment Manufacturers Association (IPEMA) certified.

1.09 TURN OVER AND CLOSE OUT SUBMITTALS

A. 10% Additional TPV granules of each color specified are to be turned over to the City Maintenance Department / City Engineer in sealed containers and clearly marked.

B. Closeout Submittals: Submit warranty documents and owner's manual(s) and maintenance document(s), and installation and safety certification letter specified herein.

1.10 WARRANTY

A. Warranty: Poured in Place surface shall maintain required impact attenuation characteristics and be guaranteed against defects in workmanship AND

material for a limited seven-year period or as specified and agreed upon per alternate contract. Warranty will be specific to maintenance requirements and performance standards of completed product. Warranty is void if not installed by Manufacturers Trained and Certified Poured in Place Surfacing Installers.

1.11 TESTING

A. Testing: NOTE: Critical Fall Height Four feet through 10 feet have been tested in accordance with Section 15 – Critical Fall Height Test Procedure of ASTM F1292-18.

PART 2 PRODUCTS

1.01 MATERIALS

A. Resilient material shall be based on the following performance requirements. Provide a two-layer system consisting of a polyurethane binder mixed with recycled rubber, which will make up the attenuation cushion layer. The attenuation cushion layer is capped with Thermal Plastic Vulcanized (TPV) granules, mixed with a polyurethane binder creating the Wear Course.

1. Safety surfacing shall consist of both recycled and synthetic materials meeting the requirements of this specification. Poured in Place Surface: The poured in place surface shall consist of recycled rubber mixed with a polyurethane binder, then capped with .5-1.5mm TPV granules mixed with an aliphatic binder.

2. Approved Manufacturers: Robertson Industries Inc. (800) 858-0519 or approved equivalent.

3. Poured in Place Surface shall consist of a uniform material manufactured in such a way that the top portion meets the requirements specified herein for wear surface.

4. The type of safety surfacing shall be a poured-in-place system and shall be indicated in the construction drawings.

2.02 ATTENUATION CUSHION LAYER SECTION:

A. Impact attenuation cushion layer consists of these materials; recycled styrene butadiene rubber (SBR) and/or cryogenic crumb rubber and/or pre consumer postindustrial reclaimed scrap rubber adhered with a 100% solids polyurethane binder to form a resilient porous material.

B. Strands of SBR may vary from 0.5 mm – 2.0 mm in thickness by 3.0 mm – 20 mm in length.

C. Chunk Premium Black Rubber Granules are 5/8” granules: This rubber is pre-consumer, post-industrial, reclaimed rubber, granulated through a 5/8” screen and contains less than 2% dust.

D. SBR Crumb Rubber (5-9 Mesh) using sieve analysis ASTM D5644 with a fiber content of .1% or less mixed in.

E. Binder shall be between 7-12% of the total weight of the material and shall provide 100 % coating of the particles.

F. The attenuation cushion layer shall be compatible with the wear course and must meet requirements herein for impact attenuation.

2.03 WEAR COURSE

A. Wear course shall consist of .5-1.5mm Thermal Plastic Vulcanized (TPV) granules with polyurethane binder formulated to produce an even, uniform, seamless surface. Installation of surfacing shall be seamless (unless otherwise agreed upon by the City Engineer).

B. TPV shall be peroxide cured with an TPV content of 26% and shall include a processing aid to prevent hardness with 26% poly content to maintain dynamic testing characteristics, weatherization and UV stability.

C. ASTM D2240 (Shore A) hardness of 55-65, not less than 26 percent rubber hydrocarbons.

D. Size of TPV granules .5-1.5mm across. Binder shall be not less than 20% of total weight of rubber used in the wear surface and shall provide 100% coating of the particles.

E. Thickness of wear course shall be a minimum .5” (12.7 mm).

F. The wear course shall be porous.

2.04 SURFACING BINDER

A. No Toluene Diphenyl Isocyanate (TDI) shall be used.

B. No filler materials shall be used in urethane such as plasticizers and the catalyzing agent shall contain no heavy metals.

C. Weight of polyurethane shall be no less than 8.5 lbs. /gal (1.02 Kg/1) and no more than 9.5 lbs. /gal (1.14 Kg/1).

D. Manufacturer is permitted to modify the type of urethane required to match extreme weather conditions. Substitutions must be equal to or exceed original quality.

2.05 MANUFACTURERS

A. Wear Course – TPV Granules

Manufacturers: Rosehill Polymers or approved equivalent

As Distributed by: Robertson Industries Inc. or approved equivalent

Location Used: Playground Area

B. Attenuation cushion layer – Shredded and/or Chunk Rubber

C. Binder – Aliphatic Urethane Premium, Non-Ambering

Manufacturer: Accella Polyurethane Systems or approved equivalent

D. Chunk Premium Black Rubber Granules

Manufacturer: American Recycling Center, Inc. (989) 725-5100

or approved equivalent

PART 3 EXECUTION

3.01 FINISH GRADING AND SUB-BASE

A. Finished Grade/Slope: Verify that finished elevations or adjacent areas are as indicated on the architectural or site plans, that the appropriate sub-grade elevation has been established for the safety surface to be installed, and that the subsurface has been installed per architectural, site or equipment plans while meeting accessibility and use zones requirements.

B. Sub-Base: Tolerance of sub-base shall be with .125” (3.0 mm) in 10’ (3050 mm). Per ADA Guidelines: Surface shall be clean and dry.

C. Drainage: Verify that sub-surfacing drainage, if required, has been installed to provide positive drainage.

3.02 INSTALLATION

A. Poured in Place Surfacing: Components of the poured in place surfacing shall be mixed on site in a rotating tumbler to ensure components are thoroughly mixed and are in accordance with manufactures recommendations. Installation of surfacing shall be seamless up to 2,000

square feet per day. Material shall cover all foundations and fill around all elements penetrating the surface.

B. Attenuation Cushion Layer: Whenever practical, attenuation cushion layer of surfacing material shall be installed in one continuous pour on the same day of up to 2,000 square feet. When a second pour is required, step the seam (see detail) and fully coat the step of the previous work with polyurethane binder to ensure 100% bond with new work. Apply adhesive in small quantities so that new attenuation cushion layer can be placed before the adhesive dries.

C. Wear Course: Wear course must be quality peroxide cured TPV granules. wear surface shall be bonded to attenuation cushion layer. If necessary, additional primer will be used between the attenuation cushion layer and wear course. Apply adhesive to attenuation cushion layer in small quantities allowing the wear course to be applied before adhesive dries. Surface shall be hand troweled to a smooth, even finish. Expect continuous and seamless up to 2,000 square feet per day (contact sales representative for seamless in excess of 2,000 square feet). Where seams are required due to color change, size or adverse weather, a step configuration will be constructed to maintain wear course integrity. The edge of initial pour shall be coated with adhesive and wearing surface mixture shall be immediately applied. Pads with multiple seams are encouraged to include a top coat of urethane before being placed into use. Butt joint seams are not acceptable except for repairs.

D. Perimeter: For installations over existing concrete, the perimeter shall be saw cut to provide a keyway 1” deep x 1” wide, or formed during the pour, with surfacing rolled down into the void. Primer adhesive must be applied to all sides of the void. When connecting to a concrete curb or border, the inside vertical edge shall be primed with adhesive and the final 2” of the attenuation cushion layer shall be tapered to allow the wear surface material to be 1.5”– 2” thick where it joins the concrete.

G. Thickness: Construction methods such as the use of measured screeds or guides shall be employed to ensure that the full depth of specified surfacing material is installed. Surfacing system thickness throughout the playground equipment use zone shall be as required to meet the impact attenuation requirements specified herein.

H. Clean Up: Manufacturer installers shall work to minimize excessive adhesive on adjacent surfaces or play equipment. Spills of excess adhesive shall be promptly cleaned.

I. Protection: The safety surface shall be allowed to fully cure in accordance with Manufacturer’s instructions. The surface shall be protected by the

Prime Contractor from all traffic during the curing period of at a minimum of 48 hours or as instructed by the Manufacturer.

J. Manufacturer Services: For poured in place safety surfacing, a Manufacturer's representative who is experienced in the installation of playground safety surfacing shall be provided. The representative shall supervise the installation to ensure that the system meets the impact attenuation requirements as specified herein.

3.03 SITE AREA CLEAN UP

A. The site shall be kept clean and free of tools, trash, and debris and installation materials daily. Products may be stored on site during installation with appropriate protective measures and approval by the City Engineer.

END OF SECTION

SECTION 32 84 00 – IRRIGATION

PART 1: GENERAL

1.01 DESCRIPTION

A It is the intent of these Specifications that any adjustments or modifications to the existing irrigation system shall be done so that the systems remains complete and be fully operable during construction and after construction is complete. All modifications to the pressure mainline will be done to the satisfaction of the City.

B The work shall include, but not limited to, coordination with the City's Authorized Representative to determine the extent of any adjustments, all labor and materials, including pot holing services to determine water line locations, transportation, and equipment necessary to perform the work.

C Irrigation modifications shall include, but not limited to, the re-alignment of the existing pressure main line to avoid conflict with the proposed improvements.

D The removal and disposal of existing piping and/or irrigation equipment determined by the City as not useful in making the irrigation system complete.

E Related Sections.

Section 32 90 00: Planting

F. Do not willfully modify the existing irrigation system when it is obvious in the field that obstructions, grade differences or discrepancies in area dimensions exist that will not result in a workable irrigation system. Such obstructions or differences shall be brought to the attention of the City's Authorized Representative as soon as detected. In the event this notification is not performed the Contractor will bare all costs to correct the problem.

1.02 QUALITY ASSURANCE

A. Provide at least one English speaking person who shall be present at all times during execution of this portion of the work and who shall be thoroughly familiar with the type of materials being installed and the manufacturer's recommended methods of installation and who shall direct all work performed under this Section.

B. Manufacturer's directions shall be followed in all cases where the manufacturer of articles used furnishes directions covering points not shown in the Drawings and Specifications.

C. All local, municipal, and state laws, rules and regulations governing or relating to the installation of a irrigation pressure main lines are hereby incorporated into and made a part of these Specifications, and their provisions shall be carried out by the Contractor. Anything contained in these Specifications shall not be construed to conflict with any of the above rules and regulations of the same. However, when these Specifications and Drawings call for or describe materials, workmanship, or construction of a better quality, higher standard, or larger size than is required by the above rules and regulations, the provisions of these Specifications and Drawings shall take precedence.

D. All materials supplied for this project shall be new and free from any defects. All defective materials shall be replaced immediately at no additional cost to City.

E. Obtain the required licenses and permits including payments of charges and fees, give required notices to public authorities, verify permits secured or arrangements made by others affecting the work of this Section.

1.03 SUBMITTALS

A. Water Pressure Test:
   1. After award of contract and before any irrigation system materials are ordered from suppliers or delivered to the job site, submit to the city engineer a written verification of the existing water pressure on the project at each of the points of connection shown.
   2. The water pressure test shall be performed to measure the dynamic water pressure at the point of connection at the maximum flow rate of the proposed irrigation system as shown on the point of connection note. Dynamic water pressure is when water is flowing through the point of connection. Static water pressure readings when water is not flowing, are not acceptable.
   3. Written dynamic water pressure test confirmation shall be made on the contractor’s letterhead and include the flow rate during the test, the recorded water pressure, the date of the test and the time of the test.

B. Material List:
   1. After award of contract and before any irrigation system materials are ordered from suppliers or delivered to the job site, submit to the city engineer a complete list of all irrigation system materials, or processes proposed to be furnished and installed as part of this contract.
   2. The submittal materials list shall include the following information:
      a. A title sheet with the job name, the contractor's name, contractor's address and telephone number, submittal date and submittal number.
      b. An index sheet showing the item number (e.g. 1,2,3, etc.); an item description (e.g. sprinkler head); the manufacturer's name (e.g. Hunter Industries); the item model number (e.g. I-40-ADV/36V); and the page(s) in the submittal set that contain the catalog cuts.
      c. The catalog cuts shall be one or two pages copied from the most recent manufacturer's catalog that indicate the product submitted. Do not submit parts lists, exploded diagrams, price lists or other extra information.
      d. The catalog cuts shall clearly indicate the manufacturer's name and the item model number. The item model number, all specified options and specified sizes shall be circled on the catalog cuts.
      e. Submittals for equipment indicated on the legend without manufacturer names, or "as approved", shall contain the manufacturer, Class or Schedule, ASTM numbers and/or other certifications as indicated in these specifications.
   3. Submittal materials list format requirements:
      a. Submittals shall be provided as one complete package for the project in electronic pdf format. Multiple partial submittals will not be reviewed.
      b. Submittal package shall have all pages numbered in the lower right hand corner. Page numbers shall correspond with submittal index.
      c. Re-submitted packages must be revised to include only the equipment being re-submitted. Equipment previously reviewed and accepted shall not be re-submitted in the materials list/index sheet or in the catalog cut sheet package.

C. Substitutions: If the Contractor wishes to substitute any equipment or materials for those equipment or materials listed on the irrigation drawings and specifications, he may do so by providing the following information to the Architect for approval.
   1. Provide a written statement indicating the reason for making the substitution.
   2. Provide catalog cut sheets, technical data, and performance information for each substitute item.
   3. Provide in writing the difference in installed price if the item is accepted.

D. The Landscape Architect or city engineer will allow no substitutions without prior written acceptance

E. No substitutions of pump manufacturers, distributors or assemblies will be accepted.

F. Manufacturer's warranties shall not relieve the Contractor of his liability under the guarantee. Such warranties shall only supplement the guarantee.

G. The Architect will not review the submittal package unless provided in the format described above.

1.04 EXISTING CONDITIONS

A. Prior to excavating for new construction, the Contractor shall meet with the City Authorized Representative in the field to verify and be familiar with the possible locations and crossings of the existing pressure main lines.

B. Prior to cutting into the soil, locate all cables, conduits, sewer septic tanks, and other utilities as are commonly encountered underground and it shall take proper precautions not to damage or disturb such improvements. If a conflict exists between the obstacles and the proposed work, promptly notify the City's Authorized Representative who will arrange for relocations.

C. Protect all existing utilities and features to remain on and adjacent to the project site during construction. The Contractor will repair, solely at their cost, all damage resulting from its operations or negligence.

1.05 INSPECTIONS

A. Permit the City's Authorized Representative to visit and inspect at all times any part of the work and shall provide safe access for such visits.

B. Where the Specifications require work to be tested by the Contractor, it shall not be covered over until accepted by the Engineer. Notify the City's Authorized Representative, a minimum of 48 hours in advance of where and when the work is ready for testing. Should any work be covered without testing or acceptance, it shall be, if so ordered, uncovered at the Contractor's sole expense.

C. <u>Inspections will be required for the following at a minimum</u>:

1. Extent of repair and/or re-alignment of any portion of the existing pressure main line.

2. Testing any new connections to the existing main line

3. Prior to backfilling trenches.

D. Work that fails testing and is not accepted will be re-tested. Hourly rates and expenses of the City's Authorized Representative for re-inspection or re-testing will be paid by the Contractor at no additional expense to City.

1.06 STORAGE AND HANDLING

A. Use all means necessary to protect irrigation system materials before, during, and after installation and to protect the installation work and materials of all other trades. In the event of damage, immediately make all repairs and replacements necessary to the acceptance of the Engineer and at no additional cost to the City.

B. Exercise care in handling, loading, unloading, and storing plastic pipe and fittings under cover until ready to install. Transport plastic pipe only on a vehicle with a bed long enough to allow the pipe to lay flat to avoid undue bending and concentrated external load.

1.07 CLEANUP AND DISPOSAL

A. Dispose of waste, trash, and debris in accordance with applicable laws and ordinances and as prescribed by authorities having jurisdiction. Do not bury waste material and debris on the site. Burning of trash and debris will not be permitted. Remove and dispose of rubbish and debris generated by his work and workmen at frequent intervals or when ordered to do so by the Engineer.

B. At the time of completion the entire site will be cleared of tools, equipment, rubbish and debris which shall be disposed of off-site in a disposal area that is fully and legally licensed.

1.08 COMPLETION

A. At the time of the pre-maintenance period inspection, the City's Authorized Representative and governing agencies will inspect the work and, if not accepted, prepare a list of items to be completed by the Contractor. At the time of the post-maintenance period or final inspection the work will be re-inspected and final acceptance will be in writing by the Engineer.

B. The City Engineer shall have final authority on all portions of the work.

C. Without any additional expense to the City, repair any settling of trenches, which may occur during the maintenance and establishment period following acceptance, to the City's satisfaction. Repairs shall include the complete restoration of all damage to planting, paving or other improvements of any kind as a result of the work.

1.09 GUARANTEE

A. The entire sprinkler system shall be unconditionally guaranteed against all defects and fault of material and workmanship, including settling of backfilled areas below grade, for a period of one (1) year following the filing of the Notice of Completion. The guarantee shall be valid unless existing equipment utilized on the project fails within the guarantee period.

B. Should any problem with the irrigation system be discovered within the guarantee period, and at no additional expense to City, correct it within ten (10) calendar days after receipt of written notice from City. When the nature of the repairs as determined by the City constitute an emergency (i.e. broken pressure line) the City may proceed to make repairs at the Contractor's expense. Any and all damages to existing improvement resulting either from faulty materials or workmanship, or from the necessary repairs to correct same, shall be repaired to the satisfaction of the owner by the Contractor, all at no additional cost to the City.

C. Guarantee shall be submitted on Contractors own letterhead as follows:

GUARANTEE FOR IRRIGATION SYSTEM

We hereby guarantee that the irrigation system we have furnished and installed is free from defects in materials and workmanship, and the work has been completed in accordance with the Drawings and Specifications, ordinary wear and tear and unusual abuse, or neglect excepted. We shall repair or replace any defective material during the period of one year after date of filing of the Notice of Completion and also repair or replace any damage resulting from the repairing or replacing of such defects at no additional cost to the owner. We shall make such repairs or replacements within 10 calendar days following written notification by the owner. In the event of our failure to make such repairs or replacements within the time specified after receipt of written notice from owner, we authorize the owner to proceed to have said repairs or replacements made at our expense and we will pay the costs and charges therefor upon demand.

PART 2: MATERIALS

2.01 SUMMARY

Use only new materials of the manufacturer, size and type satisfactory to the City. Materials or equipment installed or furnished that do not meet City standards will be rejected and shall be removed from the site at no expense to the City.

2.02 PIPE

A. All pressure supply lines downstream of backflow prevention unit shall be Schedule 40 solvent weld PVC. Piping shall conform to ASTM 1785.

2.03 PLASTIC PIPE AND FITTINGS

A. Pipe shall be marked continuously with manufacturer's name, nominal pipe size, schedule or class, PVC type and grade, National Sanitation Foundation approval, Commercial Standards designation, and date of extrusion.

B. All plastic pipe shall be extruded of an improved PVC virgin pipe compound in accordance with ASTM D2241 or ASTM D1785.

C. All solvent weld PVC fittings shall be standard weight Schedule 40 and shall be injection molded of an improved virgin PVC fitting compound. Slip PVC fittings shall be the "deep socket" bracketed type. Threaded plastic fittings shall be injection molded. All tees and ells shall be side gated. All fittings shall conform to ASTM D2466.

D. All threaded nipples shall be standard weight Schedule 80 with molded threads and shall conform to ASTM D1785.

E. All solvent cementing of plastic pipe and fittings shall be a two-step process, using primer and solvent cement applied per the manufacturer's recommendations. Cement shall be of a fluid consistency, not gel-like or ropy. Solvent cementing shall be in conformance with ASTM D2564 and ASTM D2855.

F. When connection is plastic to metal, female adapters shall be hand tightened, plus one turn with a strap wrench. Joint compound shall be non-lead base teflon paste, tape, or approved equal.

2.04 BACKFLOW PREVENTION UNIT (EXISTING)

2.05 VALVES

A. Gate Valves

1. Gate valves shall be of the manufacturer, size, and type indicated on the Drawings.

2. Gate valves shall be constructed of a bronze body, gate and stem with a malleable iron hand wheel. Gate valves shall have threaded connections.

3. All gate valves shall have a minimum working pressure of not less than 150 psi and shall conform to AWWA standards.

B. Quick Coupler Valves:

1. Quick coupler valves shall be of the manufacturer, size, and type indicated on the Drawings.

2. Quick coupler valves shall be brass with a wall thickness guaranteed to withstand normal working pressure of 150 psi without leakage. Valves shall have 1” female threads opening at base, with two-piece body. Valves shall be operated only with a coupler key designed for that purpose. Coupler key shall be inserted into valve and a positive, watertight connection shall be made between the coupler key and valve.

C. Automatic Control Valves:

1. Automatic control valves shall be of the manufacturer, size, and type indicated on the Drawings.

2. Automatic control valves shall be electrically operated.

2.06 VALVE BOXES

A. Valve boxes shall be fabricated from a durable, weather-resistant plastic material resistant to sunlight and chemical action of soils.\

B. The valve box cover shall be green in color and secured with a hidden latch mechanism or bolts.

C. The cover and box shall be capable of sustaining a load of 1,500 pounds.

D. Valve box extensions shall be by the same manufacturer as the valve box.

E. Automatic control valve boxes shall be 16"x11"x12" rectangular size. Valve box covers shall be marked "RCV" with the valve identification number "heat branded" onto the cover in 2 inch high letters / numbers.

F. Gate and quick coupler valve boxes shall be 10" circular size. Valve box covers shall be marked with either "GV" or "QCV" "heat branded" onto the cover in 2 inch high letters.

2.07 AUTOMATIC CONTROLLER (EXISTING)

2.08 ELECTRICAL

A. All electrical equipment shall be NEMA Type 3, waterproofed for exterior installations.

B. All electrical work shall conform to local codes and ordinances.

2.08 LOW VOLTAGE CONTROL WIRING

A. Remote control wire shall be direct-burial AWG-UF type, size as required by the City and in no case smaller than 14 gauge.

B. Connections shall be either epoxy-sealed packet type or Penn-Tite connectors.

C. Ground wires shall be white in color. Control wires shall be red (where two or more controllers are used, the control wires shall be a different color for each controller. These colors shall be noted on the "Record Drawings" Plans located on controller door).

PART 3: EXECUTION

3.01 SITE CONDITIONS

A. Inspections:

1. Prior to all work of this Section, carefully inspect the installed work of all other trades and verify that all such work is complete to the point where this installation may properly commence.

2. Verify that irrigation system may be installed in strict accordance with all pertinent codes and regulations, the original design, the referenced standards, and the manufacturer's recommendations.

B. Discrepancies:

1. In the event of discrepancy, immediately notify the City’s Authorized Representative.

2. Do not proceed with installation in areas of discrepancy until all discrepancies have been resolved.

C. Grades:

1. Before starting work, carefully check all grades to determine that work may safely proceed, keeping within the specified material depths with respect to finish grade.

2. The Engineer shall accept final grades before work on this Section will be allowed to begin.

D. Field Measurements:

1. Make all necessary measurements in the field to ensure precise fit of items in accordance with the City requirements. Coordinate the installation of all irrigation materials with all other work.

2. Exercise extreme care in excavating and working near existing utilities. Repair damages to utilities, which are caused by Contractor's operations or neglect, at no additional cost to City.

E. Layout:

1. Prior to installation, stake out all pressure supply lines and routing. Locate all pressure supply lines in planted areas.

2. Cap and mark the locations of capped non-pressure lateral lines for future identification.

F. Water Supply:

Connections to, or the installation of, the water supply shall be as required by the City. Minor changes caused by actual site conditions shall be made at no additional expense to the City.

3.02 TRENCHING

A. Excavations shall be straight with vertical sides, even grade, and support pipe continuously on bottom of trench. Trenching excavation shall follow layout as coordinated with the City requirements to the depths below finished grade and as noted. Where lines occur under paved area, these dimensions shall be considered below subgrade.

B. Provide minimum cover of 24 inches on pressure supply lines.

C. Provide minimum cover of 24 inches for control wires.

D. Trenching across streets shall be done in accordance City standards. The method of installing piping under pavement will be approved by the City Engineer. Repair and/or replacement of damaged pavement including

Curb and Gutter will be done per City standards and to the satisfaction to the City Engineer.

E. Pipes installed in a common trench shall have a 6-inch minimum space between pipes.

3.03 BACKFILLING

A. Backfill material on all lines shall be the same as adjacent soil free of debris, litter, and rocks over 1/2 inch in diameter.

B. Backfill shall be tamped in 4-inch layers under the pipe and uniformly on both sides for the full width of the trench and the full length of the pipe. Backfill materials shall be sufficiently damp to permit thorough compaction, free of voids. Backfill shall be compacted to 90% relative compaction and shall conform to adjacent grades.

C. Flooding in lieu of tamping is not allowed.

D. Under no circumstances shall truck wheels be used to compact backfill.

E. Provide sand backfill a minimum of 6 inches over and under all piping under paved areas.

3.04 PIPING

A. The method to install piping under existing pavement will be approved by the City Engineer. Jacking, boring, or hydraulic driving will be considered. No hydraulic driving is permitted under asphalt pavement.

B. Cutting or breaking of existing pavement is not permitted.

C. Carefully inspect all pipe and fittings before installation, removing dirt, scale, burrs, and reaming. Install pipe with all markings up for visual inspection and verification.

D. Remove all dented and damaged pipe Sections.

E. All lines shall have a minimum clearance of 6 inches from each other and 12 inches from lines of other trades.

F. Parallel lines shall not be installed directly over each other.

G. In solvent welding, use only the specified primer and solvent cement and make all joints in strict accordance with the manufacturer's recommended methods including wiping all excess solvent from each weld. Allow

solvent welds at least 15 minutes setup time before moving or handling and 24 hours curing time before filling.

H. PVC pipe shall be installed in a manner, which will provide for expansion and contraction as recommended by the pipe manufacturer.

I. Center load all plastic pipe prior to pressure testing.

J. All threaded plastic-to-plastic connections shall be assembled using Teflon tape or Teflon paste.

K. For plastic-to-metal connections, work the metal connections first. Use a non-hardening pipe dope an all threaded plastic-to-metal connections, except where noted otherwise. All plastic-to-metal connections shall be made with plastic female adapters.

3.05 MISCELLANEOUS EQUIPMENT

A. Install all assemblies specified herein according to the requirements of the City using best standard practices.

B. Quick coupler valves shall be set approximately 12 inches from walks, curbs, header boards, or paved areas where applicable.

3.06 FLUSHING THE SYSTEM

A. The Contractor will flush the pressure supply line daily, when new connections are made.

B. Not used

3.07 TESTING AND OBSERVATION

A. Do not allow or cause any of the work of this Section to be covered up or enclosed until it has been observed, tested and accepted by the Engineer.

B. Notify the City's Authorized Representative a minimum of 48 hours in advance where and when the work is ready for testing.

C. Furnish all materials and perform all work required to correct any inadequacies of coverage due to deviations from City requirements or where the system has been willfully installed as required by the City when it is obviously inadequate, without bringing this to the attention of the City's Authorized Representative. This test shall be accepted by the City's Authorized Representative and accomplished before starting any planting.

3.08 COMPLETION CLEANING

A. Clean-up shall be made as each portion of the work progresses. Refuse and excess dirt shall be removed from the site, all walks and paving shall be broomed, and any damage sustained on the work of others shall be repaired to original conditions.

END OF SECTION

SECTION 32 90 00 - PLANTING

PART 1: GENERAL

1.01 DESCRIPTION

A. The general requirements apply to all Landscaping work operations. Provide labor, materials, tools, transportation and all incidentals necessary to perform work as indicated on the Plans and as herein specified.

B. Related Sections.

Section 32 84 00: Irrigation

C. The Standard Specifications for Public Works Construction, "Greenbook", latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

1.02 QUALITY ASSURANCE

A. Comply with all applicable local, state, federal requirements regarding materials, methods of work, and disposal of excess and waste materials.

B. Manufacturer's directions, specifications and detailed drawings will be followed in all cases where articles used furnish directions covering points not delineated on the Plans or Specifications.

C. The work included in this section will be done to the satisfaction of the City and the decision by the City as to the true construction meaning of the Plans and Specifications will be final.

D. All drop slips for landscape materials (including plants and fertilizers) shall be given to the Engineer.

1.03 ENVIRONMENTAL REQUIREMENTS

A. Do not install landscape materials when ambient temperatures may drop below 45 degrees F (12 degrees C) or above 95 degrees F (39 degrees C).

B. Do not install landscape materials when wind velocity exceeds 30 mph (48 k/hr).

PART 2: PRODUCTS

2.01 REFERENCES

A. ANSI Z60.1 - Nursery Stock.

B. California State Department of Agriculture - Regulations for nursery inspections, rules, and grading.

2.02 TREES

A. Trees shall be grown by an established nursery having been in the business of growing trees, a minimum of five (5) years. At the option of the Engineer, trees shall be inspected and tagged at the nursery prior to shipment to the planting site.

Trees: All trees shall be of the specified container size and of the species specified.

B. Tree species indicated or listed in the “Plant Legend” on the Plans, shall be in accordance with the Standards of Practice recommended by the American Association of Nurserymen. Except for names not covered therein, the established custom of the nursery shall be followed.

C. Condition of trees shall be in accordance with the California State Department of Agriculture’s regulations for nursery inspections, rules, and grading and shall be symmetrical, typical for variety and species, sound, healthy, vigorous, free from plant disease, insect pests, or their eggs, and shall have healthy normal root systems, well filling their containers, but not to the point of being root bound.

D. Trees shall not be pruned prior to delivery, except as authorized by the City. In no case shall trees be topped before delivery.

E. The size of the trees shall correspond with that normally expected for species and variety of commercially available nursery stock, or as specified on the Plans. The minimum acceptable size of all trees,

measured before pruning with the branches in normal position, shall conform with the measurements, if any, specified on the Plans. Trees larger in size than specified may be used with the approval of the City, but the use of larger plants will not serve as the basis for a change order.

F. All trees shall be subject to the inspection and acceptance of the City before planting. Trees will be inspected for size and condition of root growth, insects, injuries and defects and will be tagged at the nursery prior to delivery to the site.

2.04 FERTILIZERS, BACKFILL MATERIALS AND WATER

A. General.

1. Fertilizing and backfill materials shall comply with the applicable requirements of the State Food and Agricultural Code. All materials shall be packaged first grade, commercial quality products identified as to source, type of material, weight, and manufacturer's guaranteed analysis. Fertilizing and backfill material shall not contain toxic ingredients or fillers in quantities harmful to human life, animals, or plants.

2. Furnish a Certificate of Compliance stating that the material substantially meets the specifications.

3. Backfill Mix:

a. 6 parts by volume on-site soil
b. 4 parts by volume composted organic amendment
c. 18 lb. Gro-Power per cubic yard of mix
d. 2lbs Iron Sulphate per cubic yard of mix

B. Commercial Fertilizer.

Commercial fertilizer shall be a palletized or granular product having a chemical analysis as specified on the Plans or in the Specifications. Commercial fertilizer shall be free-flowing material delivered in unopened sacks. Material which becomes caked or otherwise damaged shall not be used.

C. Composted Organic Soil Amendment.

1. Humus material shall have an acid-soluble ash content of no less than 5% and no more than 20%. Organic matter shall be at least 50% on a dry weight basis.

2. The pH of the material shall be between 6 and 7.5.

3. The salt content shall be less than 10 millimho/cm @ 25° C. in a saturated paste extract.

4. Boron content of the saturated extract shall be less than 1.0 parts per million.

5. Silicon content (acid-insoluble ash) shall be less than 50%.

6. Organic matter shall be at least 50% on a dry weight basis.

7. Calcium carbonate shall not be present if to be applied on alkaline soils.

8. Types of acceptable products are composts, manures, mushroom composts, straw, alfalfa, peat mosses etc. low in salts, low in heavy metals, free from weed seeds, free of pathogens and other deleterious materials.

9. Composted wood products are conditionally acceptable [stable humus must be present]. Wood based products are not acceptable which are based on red wood or cedar.

10. Sludge-based materials are not acceptable.

11. Carbon: nitrogen ratio is less than 25:1.

12. The compost shall be aerobic without malodorous presence of decomposition products.

13. The maximum particle size shall be 0.5 inch, 80% or more shall pass a No. 4 screen for soil amending. The maximum particle size shall be 0.25 inch for hydroseeding.

Maximum total permissible pollutant concentrations in amendment in parts per million on a dry weight basis:

arsenic	20	copper	150	selenium	50
cadmium	15	lead	200	silver	10
chromium	300	mercury	10	vanadium	400
cobalt	50	molybdenum	20	zinc	250
nickel	100				

D. Water.

1. Water shall be clean, fresh and free of substances or matter which could inhibit vigorous growth of plants

2. Water shall be supplied at Contractor's sole expense at no additional cost to City through the end of the maintenance period.

2.05 WOOD MULCH

A. Mulch shall be "Forest Floor" (0-2")

Available from or equal to:
Aguinaga Green
7992 Irvine Boulevard
Irvine, CA 92618
(949) 786-9558

B. The mulch shall consist of fibrous, woody bark mixture of varied particle size with the following characteristics:

Percent Passing	Sieve Size
90-100	25.4 mm (1")
80-100	12.7 mm (1/2")
20-60	6.35 mm (1/4")

C. Mulch shall be packaged in bales or bags unless the City approves a bulk source in advance of delivery to the site of the work. The Contractor shall submit one sample of three (3) different mulch materials.

D. The Engineer has the right to reject all samples and request additional samples until a suitable mulch material is approved.

2.06 SAMPLES

A. Samples of products and materials shall be required by the City. Submittals for inspection shall be stored on the site until furnishing of material is complete.

B. Delivery of products and materials may begin upon acceptance of samples or as directed by the City.

2.07 PLANT TABLETS

Plant tablets shall be Scotts Agriform, Gro-power or approved equal, 20-10-5 applied at the following rates:

Tablet Size	21 Gram					5 Gram
Container Size	1 Gallon and 10” pots	5 Gallon	15 Gallon	24” Box	36” Box and Larger	Ground Cover Plants
Application Rates (No. of Tablets)	1	3	8	20	One Tablet per each foot of height	1

PART 3: EXECUTION

3.01 GENERAL

Earthwork and on-site disposal of excavated material shall include placement, spreading, densification, cultivation and raking.

1. Unless otherwise provided, curbs, walks, irrigation systems, and similar improvements required by the Plans or Specifications shall be constructed following rough grading and before sodding.

2. Planting holes and backfill shall be as herein specified.

3. For preliminary rough grading and related earthwork, prepare areas for sodding work to within one-tenth foot (0.1’) of finish grade.

3. Fertilizing and conditioning materials shall be mechanically spread at a uniform rate. The quantities of materials necessary for the planting area shall be at the site and shall be verified by delivery tickets furnished to the Engineer before spreading.

3.02 FINISH GRADING

A. After spreading and raking, the soil shall be watered and allowed to settle to provide a stable surface, not overly densified to the extent that it will prevent aeration and water infiltration. After the soil has dried out to a workable condition, the planting areas shall be regraded, raked, and smoothed to the required grades and contours. Finish surfaces shall be clean and suitable for planting.

B. The finish grade shall be smooth, uniform, and free of abrupt grade changes and depressions to ensure surface drainage.

C. The finish grade below adjacent paving, curbs, or headers shall be one inch (1”) in lawn areas and two inches (2”) in shrub or ground cover areas.

3.03 TREE PLANTING GENERAL

A. All sprinkler/irrigation work shall be inspected and accepted by the City, prior to start of any work of this subsection.

B. Location of utility, structures and lines.

1. Prior to excavation for planting or placing of stakes, locate all utilities, electric cables, conduits, irrigation lines, heads, valves and valve control wires, and all utility lines so that proper precautions may be taken not to damage such improvements.

2. In the event of a conflict between utilities and plant locations, promptly notify the Engineer who will arrange for one or the other to be relocated. If contractor fails to follow this procedure it shall repair all damages resulting from the work at contractor's sole expense.

C. All plants will be inspected by the Engineer prior to planting, including plants previously approved at the nursery. The Contractor shall be responsible for the condition of all trees, planted or otherwise, until acceptance.

D. Quantities.

1. Trees shall be furnished in the quantities and/or spacing as shown or noted for each location, and shall be of the species, kinds, sizes, etc., as symbolized, and/or described in the Plant Legend, as indicated on the Plans.

2. Verify all sizes and quantities on the Plans. Promptly report any discrepancy to the Engineer.

E. Substitution.

1. Any trees specified by trade name or equal, shall be according to these Plans and Specifications.

2. Installation and use of substitute trees shall not be made until the Contractor is in receipt of written approval from the Engineer. Substitution proposals must be accompanied by written proof of non-availability within a five hundred mile radius of the project site for trees originally specified and proof that material was ordered in a timely manner upon award of contract.

F. Protection and Storage.

1. Regularly water all nursery stock in containers and place them in a cool area protected from sun and drying winds.

2. Do not allow trees to dry out before or while being planted. Keep exposed roots moist by means of wet sawdust, peat moss or burlap at all times during planting operations. Do not expose roots to the air except while being placed in the ground. Wilted or diseased trees, whether in place or not, will not be accepted and shall be replaced at the Contractor's sole expense.

G. Moisten prepared surface immediately prior to installing trees.

H. Install trees within 24 hours after delivery to site.

I. Water trees immediately after installation.

J. Layout and Tree Location.

1. Layout of trees shall be performed by the Contractor and approved by the Engineer prior to planting

2. Tree locations will be staked by the Contractor and approved by the Engineer.

3.04 TREE AND SHRUB PLANTING

A. Planting Holes. Planting holes shall be approximately square. The holes shall be twice the width of the container, unless otherwise shown on the Plans. The holes shall be one-and-half times the depth of the root ball, or as shown on the Plans. The hole shall be larger, if necessary, to permit handling and planting without injury or breakage of the root ball or root system. Any trees having a broken or cracked root ball before or during planting shall not be planted.

B. Underground Obstructions. In the event that underground construction work or obstructions are encountered in the planting operation, alternate locations will be selected by the City. Operation shall be done at no extra cost to the City.

C. Planting Procedures.

1. The backfill mix shall be as specified under paragraph 2.04, A, 3 and shall be thoroughly blended.

No mixing for individual planting holes is permitted. Mix planting soil prior to backfilling and stockpile at the site. Iron sulfate shall

not contact cement surfaces because severe staining could occur; repair or replace stained cement at Contractor's sole cost.

2. Remove bottom of box and set trees so that, when settled, they bear the same relation to the required grade as they bore to the natural grade before being transplanted. Place each tree in the center of the pit, remove box sides and backfill with prepared backfill. Compact the backfill mix around the ball or roots. Do not use soil in muddy condition for backfilling. Cut off all broken or frayed roots.

3. Thoroughly water each tree when the hole is one-half filled.

4. After watering, backfill the remainder of the hole and tamp the soil in place until the surface of the backfill is level with the surrounding area and the crown of the tree is at the finished grade of the surrounding area.

5. After backfilling, a basin shall be constructed around each tree. Each basin shall be of a depth sufficient to hold at least six inches (6") of water. Basins shall be the same size as the container size of each individual tree. The the basins shall be constructed of amended backfill material.

6. Set the plant tablets to be used with each tree on the top of the root ball so the required number of tablets to be used in each hole can be easily verified. Bury tablets upon approval by the Engineer.

7. Immediately after planting, apply water to each tree by means of a hose. Apply water in a moderate stream in the planting hole until the material about the roots is completely saturated from the bottom of the hole to the top of the ground.

8. Apply water in sufficient quantities and as often as seasonal conditions require to keep the tree moist at all times, well below the root system.

9. Basins shall be maintained *thirty (30) days* following tree planting. They shall be removed at that time, unless otherwise directed by the Engineer.

D. Pruning. Pruning shall be limited to the minimum necessary to remove injured twigs and branches, and to compensate for loss of roots during transplanting, but never to exceed one-third of the branching structure. Upon approval of the Engineer, pruning may be done before delivery of plants, but not before plants have been inspected and approved.

E. Staking. All trees shall be staked per the planting details on the Plans. Staking shall be done immediately after planting.

3.05 MULCHING

Mulch shrub areas and trees after planting with two (2”) inches of mulch.

3.06 MAINTENANCE AND ESTABLISHMENT PERIOD

A. Maintenance and establishment period for trees will be one (1) year after “Date of Acceptance of Installation” of all planting areas. Request in writing from the Engineer notification of the date of the start of the maintenance period. At the acceptance of all planting, request in writing from the Engineer notification of the date of the completion of the maintenance period. The maintenance period shall not officially begin or end without written notification from the Engineer.

B. Construction fencing shall remain until after the maintenance period is complete or as directed by the Engineer.

C. Maintain all trees on a continuous basis as they are completed during the progress of the work and during the establishment and maintenance period and shall continue to maintain them until final acceptance in accordance with the following.

1. Water and reapply mulch as necessary to promote a healthy growing condition. Re-stake if staking is not straight or solid. All areas shall be kept free of debris, weeds or litter. Keep project neat and attractive throughout the maintenance period.

2. Adjust the irrigation system to sufficiently saturate root zone without rotting trees.

3. Fertilize with “Gro-Power Plus” at 30 lbs./1000 sf every *thirty (30) calendar days*, during the maintenance period. Apply “Gro-Power Controlled Release Nitrogen” *five (5) calendar days* before the end of the maintenance period at manufacturer’s recommended rate.

D. Maintenance period shall be extended if plant material is not in a healthy growing condition. When all maintenance work has been completed to the satisfaction of Engineer, the Engineer will issue to the Contractor a written notice of completion of maintenance.

3.09 WEED ABATEMENT

A. The weed abatement program shall proceed upon the completion of the irrigation system and after all existing weeds and growth has been removed from the planting areas. Begin watering daily for twenty-one (21) consecutive days and until weed seeds have germinated. Cease watering for three (3) days. Spray a non-selective herbicide (Roundup) to eradicate the germinated weeds. Allow herbicide sufficient time to kill weeds. Remove dead weeds within 1" of the soil surface. Repeat the non-selective herbicide application two more times. The contractor shall include a dye indicator with the third application of the non-selective herbicide.

B. If perennial weeds or grasses still exist, re-water four (4) times daily for fourteen (14) consecutive days until new growth appears. Reapply a non-selective herbicide with a dye indicator. Remove weeds after herbicide has had sufficient time to kill.

3.10 INSPECTION

A. All inspections herein specified shall be made by the City. Request inspection at least forty-eight (48) hours in advance of the time the inspection is required. Requested inspections, subsequently canceled without twenty-four (24) hours notice, will be billed to the Contractor.

B. Inspection is required for, and not necessarily limited to, the following parts of the work.

1. At completion of the incorporation of soil amendments and fine grading

2. Prior to digging plant pits for trees and shrubs.

3. Installing trees in the planting hole.

4. During backfilling of plant pits with amended backfill.

5. Final inspection at the end of the maintenance period.

END OF SECTION

SECTION 32 92 23 - SODDING

PART 1: GENERAL

1.01 DESCRIPTION

A. The General Provisions shall apply to all Sod work operations. Provide all labor, materials, tools, transportation, equipment and incidentals necessary to perform work as indicated on the Plans and as herein specified.

B. Related Sections.

Section 32 84 00 Irrigation
Section 32 90 00 Planting

C. The Standard Specifications for Public Works Construction, "Greenbook" 2018 edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These specifications shall supersede conflicts with information given in the Standard Specification, unless otherwise determined by the Engineer.

D. Definitions.

1. City: City of Laguna Hills

2. Engineer: City Engineer, or the City Engineer's designated representative.

E. All vendors, suppliers, and manufacturer's representatives and the associated addresses, phone, and fax numbers on the Plans and in the Specifications are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 QUALITY ASSURANCE

A. Comply with all applicable local, state, federal requirements regarding materials, methods of work, and disposal of excess and waste materials.

B. Grower's directions, specifications and detailed drawings will be followed in all cases where articles used furnish directions covering points not delineated on the Plans or Specifications.

C. The work included in this section will be done to the satisfaction of the Engineer. The decision by the Engineer as to the true construction meaning of the Plans and Specifications will be final.

D. All drop slips for sod fertilizers shall be given to the Engineer.

1.03 ENVIRONMENTAL REQUIREMENTS

A. Do not install sod when ambient temperatures may drop below 45 degrees F (12 degrees C) or above 95 degrees F (39 degrees C).

B. Do not install sod when wind velocity exceeds 30 mph (48 k/hr).

PART 2: PRODUCTS

2.01 REFERENCES

A. ANSI Z60.1 - Nursery Stock.

B. California State Department of Agriculture - Regulations for nursery inspections, rules, and grading.

2.02 SOD

A. Sod shall be West Coaster Tall Fescue, Big Rolls (42” Wide x 100’ Long) or approved equivalent grown by an established sod nursery having been in the business of growing sod a minimum of five (5) years. Sod shall be free of turf disease, insects, or weeds, and capable of healthy, vigorous growth.

B. Sod shall be grown in a blown sand medium. It shall be cut with a 1/2” to 3/4” thickness of soil that completely covers the root zone. Sod shall be wide cut, big roll. The sod shall arrive vigorous and have a lush appearance, uniform texture, and dark green color throughout with no dead or dying edge. The sod shall be sufficiently dense to bear handling and placement without tearing.

C. Nylon mesh in sod will not be accepted.

D. Sod to be certified RED ANT free by the grower.

E. Sod may be obtained from:

West Coast Sod
42-540 Melanie Pl

Palm Desert, CA 92211

2.03 FERTILIZERS, SOIL CONDITIONING MATERIALS AND WATER

A. General.

1. Fertilizing and soil conditioning materials shall comply with the applicable requirements of the City's Standards and Specifications. All materials shall be packaged first grade, commercial quality products identified as to source, type of material, weight, and manufacturer's guaranteed analysis. Fertilizing and soil conditioning material shall not contain toxic ingredients or fillers in quantities harmful to human life, animals, or plants.

2. The Contractor shall furnish to the Engineer the Certificate of Compliance stating that the material substantially meets the City's specifications.

3. Exact fertilizing and conditioning materials and the required composition and quantities shall be determined by the agronomic soils test.

B. Commercial Fertilizer.

1. Commercial fertilizer shall be a palletized or granular product having a chemical analysis as specified on the Plans or in the Specifications. Commercial fertilizer shall be free-flowing material delivered in unopened sacks. Material which becomes caked or otherwise damaged shall not be used.

2. Pre-planting fertilizer composition to be 6-20-20. Post-planting composition shall be 6-20-20XB. Fertilizer shall provide one pound of P and K per 1,000 square feet. Nitrogen shall not exceed 1/3 pound per 1,000 square feet. Exact composition and type to be determined by agronomic soil test.

3. Fertilizer available from:

J.R. Simplot
Lathrop, CA 95330
Phone: (209) 858-2511, Fax: (209) 858-2519

C. Water.

1. Water shall be clean, fresh, and free of substances or matter which could inhibit vigorous growth of plants.

2. Water shall be supplied at Contractor's expense at no additional cost to the City through the end of the maintenance period.

PART 3: EXECUTION

3.01 FERTILIZING

A. Two to three days prior to sodding, fertilize with J.R. Simplot Best 6-20-20 at one pound of P and K per 1,000 square feet. Exact quantity shall be determined by the agronomic soil test

Adequately irrigate after application.

B. Fifteen days after sod installation is complete, fertilize as above with J. R. Simplot Best 16-20-20XB

3.02 INSTALLING SOD

A. Soil conditioning and fine grading shall be completed before sodding. No heavy equipment shall operate over the subgrade after grading is completed.

B. The subgrade shall be moist but not wet when sod is laid. Sod shall be laid with closely fitted joints, and the ends of the trips shall be staggered. Openings shall be plugged with sod.

C. Within two hours after installing sod and before rolling, the sod shall be adequately irrigated with a minimum of 1/2" of water. All seams and joints shall then be rolled until the sod is well bonded to the subgrade.

D. The area shall then be watered thoroughly with 2 to 4 inches of water to penetrate the subsoil at least 8 inches. Watering shall be repeated as necessary to keep the sod moist until rooted into the subgrade. Sodded areas shall be protected against foot traffic until the sod is well established.

3.03 MAINTENANCE

A. Maintenance period will be a minimum of ***ninety (90) days*** after Date of Acceptance by the City of all sod installation.

B. Maintenance includes:

1. Water, weed, fertilize, mow, edge and spray as necessary to promote a healthy growing condition. Keep project neat and attractive throughout the maintenance period.

2. Applying herbicides for weed control, as needed or directed by City, in accordance with manufacturer's instructions. Remedy damage resulting from the use of herbicides.

3. Exterminate rodents and insects as required.

4. Adjust irrigation system scheduling to sufficiently saturate root zone.

5. Repair or replace any damaged item caused by vehicles, vandals, bicycles, or foot traffic during the maintenance period.

6. (During growing season) fertilize turf every four weeks with one pound of nitrogen per 1,000 square feet in a complete fertilizer product (4-1-4 ratio).

C. Maintenance period may be extended if turf grass and other plant material is not in a healthy growing condition. When all maintenance work has been completed to the satisfaction of the Engineer, the Contractor will be released through written notification by the Engineer.

D. Mow turf a minimum of two (2) times a week with the first mowing to be completed ***seven (7) days*** after installation of sod. Maintain a mowing height of 3/8" to ¾" inches. Do not cut more than 1/3 of grass blade at any one mowing. Grass shall be mowed with a sharp power driven reel mower. Clippings shall be collected and removed.

END OF SECTION

SECTION 32 90 10 - 90 DAY MAINTENANCE

PART 1: GENERAL

1.01 DESCRIPTION

A. The general requirements apply to all Landscaping work operations. Provide labor, materials, tools, transportation and all incidentals necessary to perform work as indicated on the Plans and as herein specified.

B. Related Sections.

Section 32 84 00: Irrigation
Section 32 90 00: Planting
Section 32 92 23: Sod

C. The Standard Specifications for Public Works Construction, "Greenbook", 2018, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

1.02 QUALITY ASSURANCE

A. Comply with all applicable local, state, federal requirements regarding materials, methods of work, and disposal of excess and waste materials.

B. Manufacturer's directions, specifications and detailed drawings will be followed in all cases where articles used furnish directions covering points not delineated on the Plans or Specifications.

C. The work included in this section will be done to the satisfaction of the City and the decision by the City as to the true construction meaning of the Plans and Specifications will be final.

D. All drop slips for landscape materials (including plants and fertilizers) shall be given to the Engineer.

1.03 ENVIRONMENTAL REQUIREMENTS

A. Do not install landscape materials when ambient temperatures may drop below 45 degrees F (12 degrees C) or above 95 degrees F (39 degrees C).

B. Do not install landscape materials when wind velocity exceeds 30 mph (48 k/hr).

PART 2: EXECUTION

2.01 MAINTENANCE AND ESTABLISHMENT PERIOD

A. Maintenance and establishment period for trees will be one (1) year after "Date of Acceptance of Installation" of all planting areas. Request in writing from the Engineer notification of the date of the start of the maintenance period. At the acceptance of all planting, request in writing from the Engineer notification of the date of the completion of the maintenance period. The maintenance period shall not officially begin or end without written notification from the Engineer.

B. Construction fencing shall remain until after the maintenance period is complete or as directed by the Engineer.

C. Maintain all trees on a continuous basis as they are completed during the progress of the work and during the establishment and maintenance period and shall continue to maintain them until final acceptance in accordance with the following.

1. Water and reapply mulch as necessary to promote a healthy growing condition. Re-stake if staking is not straight or solid. All areas shall be kept free of debris, weeds or litter. Keep project neat and attractive throughout the maintenance period.

2. Adjust the irrigation system to sufficiently saturate root zone without rotting trees.

3. Fertilize with "Gro-Power Plus" at 30 lbs./1000 sf every *thirty (30) calendar days*, during the maintenance period. Apply "Gro-Power Controlled Release Nitrogen" *five (5) calendar days* before the end of the maintenance period at manufacturer's recommended rate.

D. Maintenance period shall be extended if plant material is not in a healthy growing condition. When all maintenance work has been completed to the satisfaction of Engineer, the Engineer will issue to the Contractor a written notice of completion of maintenance.

2.02 WEED ABATEMENT

A. The weed abatement program shall proceed upon the completion of the irrigation system and after all existing weeds and growth has been removed from the planting areas. Begin watering daily for twenty-one (21) consecutive days and until weed seeds have germinated. Cease watering for three (3) days. Spray a non-selective herbicide (Roundup) to eradicate the germinated weeds. Allow herbicide sufficient time to kill weeds. Remove dead weeds within 1" of the soil surface. Repeat the non-selective herbicide application two more times. The contractor shall include a dye indicator with the third application of the non-selective herbicide.

B. If perennial weeds or grasses still exist, re-water four (4) times daily for fourteen (14) consecutive days until new growth appears. Reapply a non-selective herbicide with a dye indicator. Remove weeds after herbicide has had sufficient time to kill.

2.03 INSPECTION

A. All inspections herein specified shall be made by the City. Request inspection at least forty-eight (48) hours in advance of the time the inspection is required. Requested inspections, subsequently canceled without twenty-four (24) hours notice, will be billed to the Contractor.

B. Inspection is required for, and not necessarily limited to, the following parts of the work.

1. At completion of the incorporation of soil amendments and fine grading

2. Prior to digging plant pits for trees and shrubs.

3. Installing trees in the planting hole.

4. During backfilling of plant pits with amended backfill.

5. Final inspection at the end of the maintenance period.

EROSION CONTROL NOTES

A) IN CASE OF EMERGENCY CALL CITY NON-EMERGENCY DISPATCH
AT 714-754-5252

B) THE UNDERSIGNED CIVIL ENGINEER WILL REVIEW EROSION CONTROL WORK AND CERTIFY THAT WORK IS IN ACCORDANCE WITH THE APPROVED PLANS.

MR SURENDER DEWAN RCE 34559 — 04/14/26 DATE

C) A STANDBY CREW FOR EMERGENCY WORK SHALL BE AVAILABLE AT ALL TIMES DURING THE RAINY SEASON. (NOVEMBER 1–APRIL 15) NECESSARY MATERIALS SHALL BE AVAILABLE ON SITE AND STOCKPILED AT CONVENIENT LOCATIONS TO FACILITATE RAPID CONSTRUCTION OF TEMPORARY DEVICES OR TO REPAIR ANY DAMAGED EROSION CONTROL MEASURES WHEN RAIN IS IMMINENT.

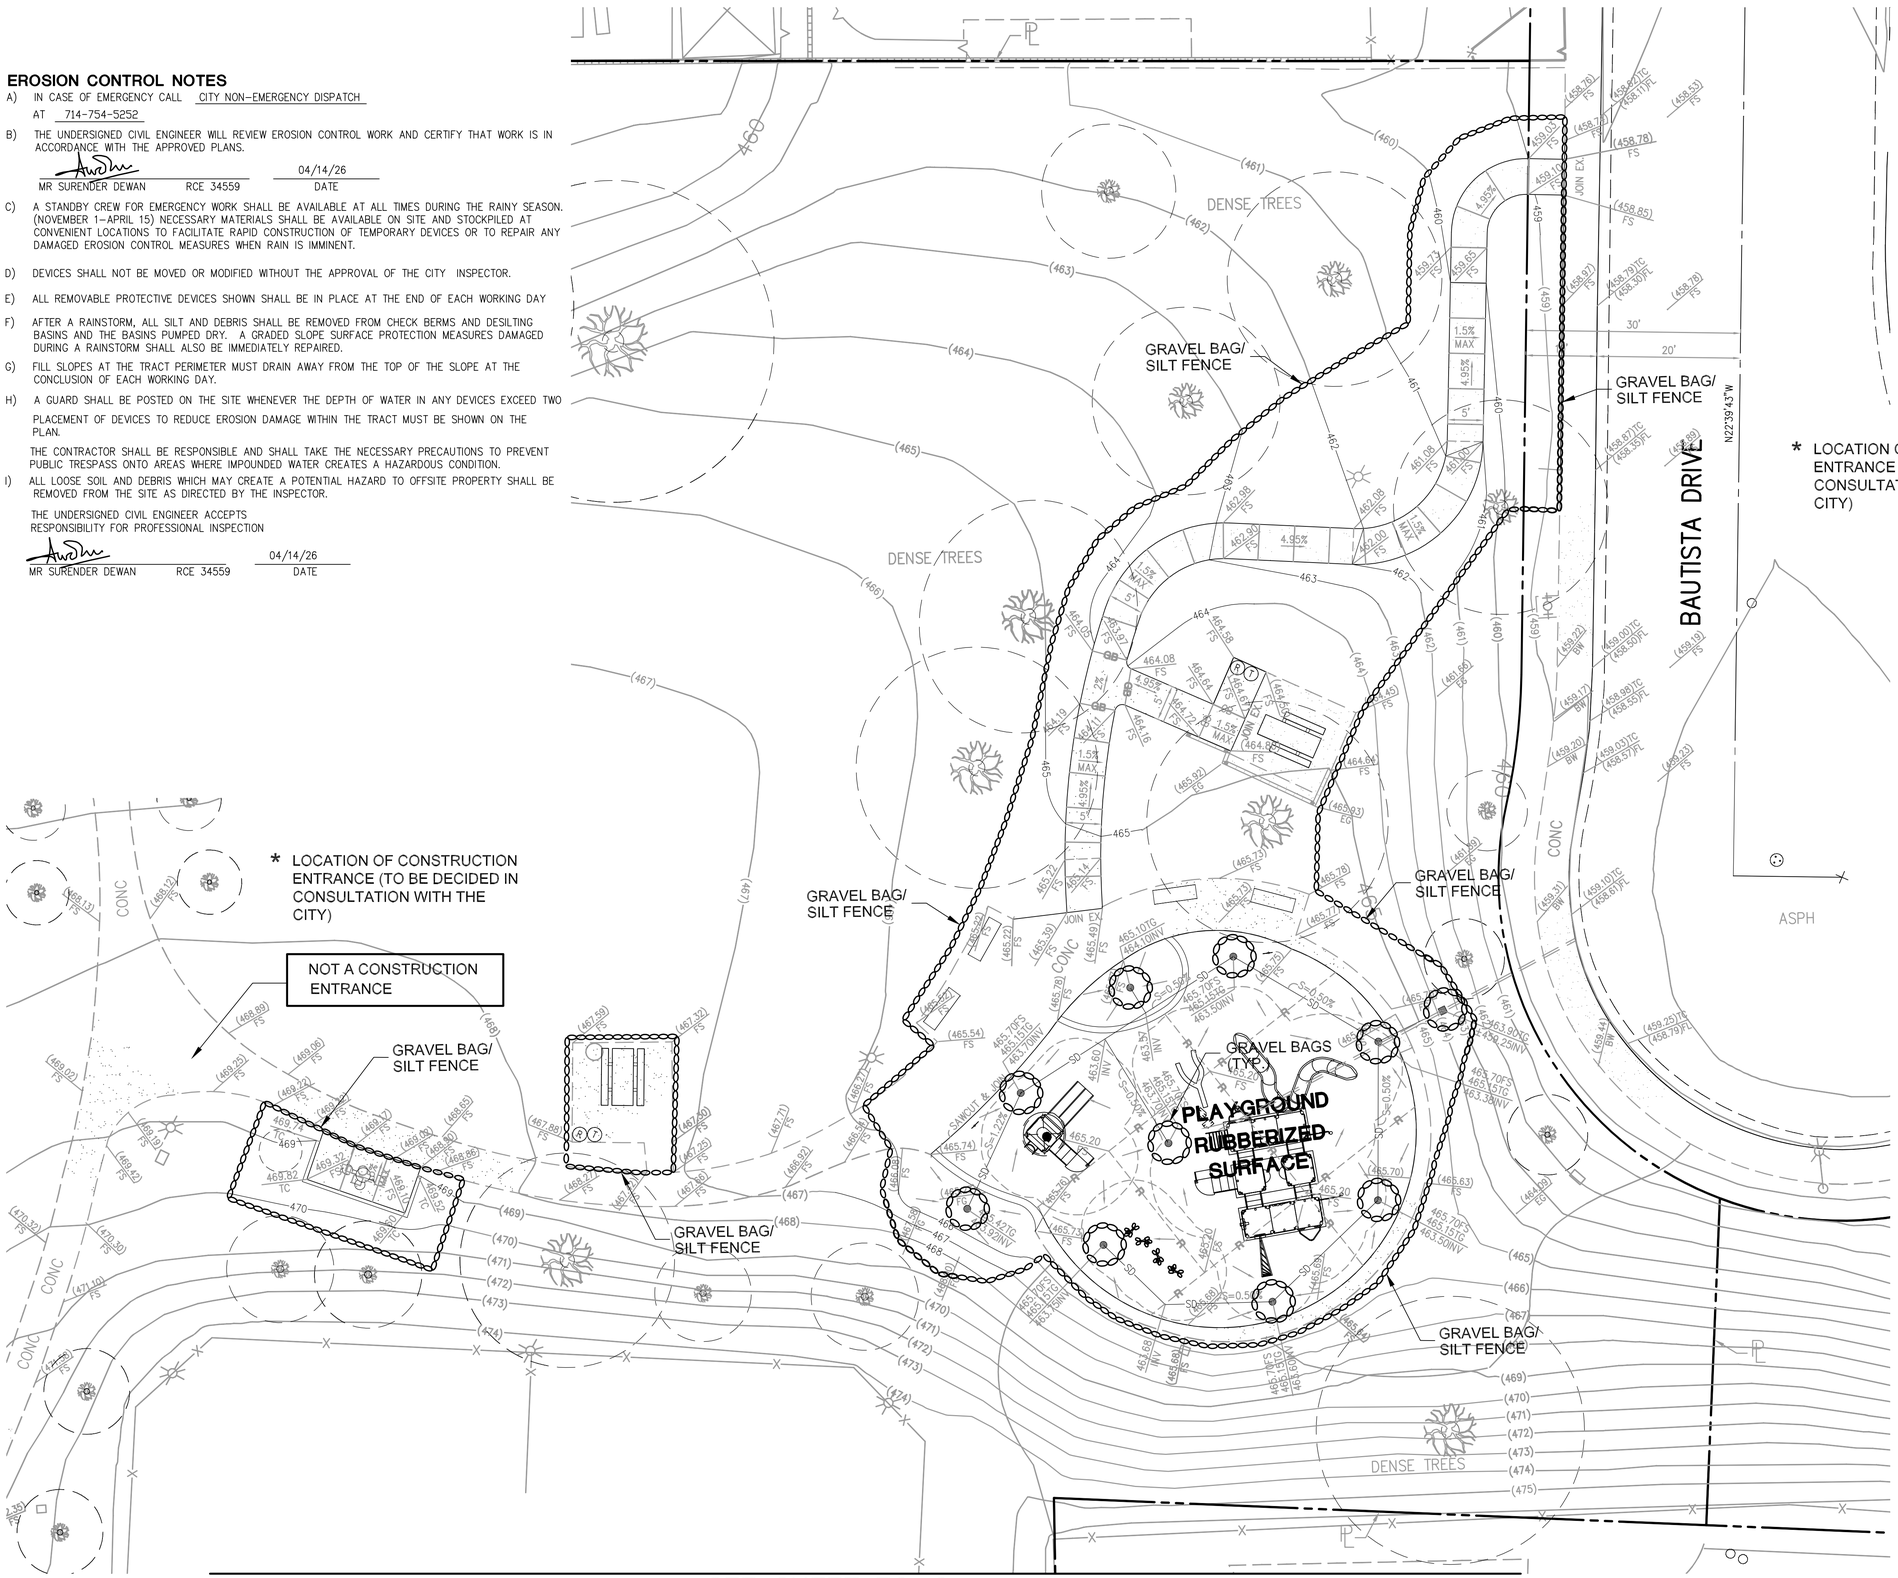
D) DEVICES SHALL NOT BE MOVED OR MODIFIED WITHOUT THE APPROVAL OF THE CITY INSPECTOR.

E) ALL REMOVABLE PROTECTIVE DEVICES SHOWN SHALL BE IN PLACE AT THE END OF EACH WORKING DAY

F) AFTER A RAINSTORM, ALL SILT AND DEBRIS SHALL BE REMOVED FROM CHECK BERMS AND DESILTING BASINS AND THE BASINS PUMPED DRY. A GRADED SLOPE SURFACE PROTECTION MEASURES DAMAGED DURING A RAINSTORM SHALL ALSO BE IMMEDIATELY REPAIRED.

G) FILL SLOPES AT THE TRACT PERIMETER MUST DRAIN AWAY FROM THE TOP OF THE SLOPE AT THE CONCLUSION OF EACH WORKING DAY.

H) A GUARD SHALL BE POSTED ON THE SITE WHENEVER THE DEPTH OF WATER IN ANY DEVICES EXCEED TWO



PLACEMENT OF DEVICES TO REDUCE EROSION DAMAGE WITHIN THE TRACT MUST BE SHOWN ON THE PLAN.

THE CONTRACTOR SHALL BE RESPONSIBLE AND SHALL TAKE THE NECESSARY PRECAUTIONS TO PREVENT PUBLIC TRESPASS ONTO AREAS WHERE IMPOUNDED WATER CREATES A HAZARDOUS CONDITION.

I) ALL LOOSE SOIL AND DEBRIS WHICH MAY CREATE A POTENTIAL HAZARD TO OFFSITE PROPERTY SHALL BE REMOVED FROM THE SITE AS DIRECTED BY THE INSPECTOR.

THE UNDERSIGNED CIVIL ENGINEER ACCEPTS RESPONSIBILITY FOR PROFESSIONAL INSPECTION

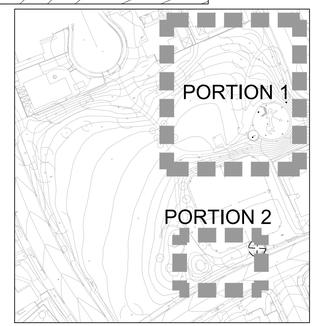
TREE PROTECTION NOTES

1. ALL TREES TO HAVE CONSTRUCTION FENCE THAT MAXIMIZES THE TREE PROTECTION ZONE AND TO THE DRIPLINE AS INDICATED ON PLAN. SEE DETAIL 1, THIS SHEET.
2. ANY TRENCHING WITHIN THAT TREE PROTECTION ZONE WILL BE DONE BY HAND OR BY JACKING AND BORING.
3. NO GRADING OTHER THAN FINE GRADING TO BE DONE WITHIN THE TREE PROTECTION ZONE.
4. NO EQUIPMENT IS TO BE OPERATED OR PARKED UNDER A TREE, NOR ARE ANY MATERIALS TO BE STORED WITHIN THE TREE PROTECTION ZONE AND WITHIN THE DRIPLINE OF A TREE.
5. IRRIGATION MAINLINE SHALL NOT BE INSTALLED WITHIN THE TREE PROTECTION ZONE AND WITHIN THE DRIPLINE OF A TREE.
6. CHEMICAL HERBICIDES SHALL NOT BE USED WITHIN 10 FT. OF TREE'S DRIPLINE.
7. DO NOT NAIL OR STAPLE MATERIALS OR SIGNS TO TREES.
8. AVOID ANY PONDING BY DRAINING LOW POINTS
9. FERTILIZE & WATER TO MINIMIZE SHOCK AS DIRECTED BY CITY ENGINEER AND CITY ARBORIST.
10. PROVIDE BERM AS NEEDED, NO CLOSER THAN DRIP LINE.
11. DURING CONSTRUCTION, TREES SHALL BE MONITORED TO MITIGATE SHOCK SYMPTOMS IF THEY OCCUR. NOTIFY THE CITY ENGINEER AND CITY ARBORIST.
12. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION AND MAINTENANCE OF ALL TREES ON SITE. THE CONTRACTOR SHALL BE RESPONSIBLE FOR WATERING TREES AND WASHING DUST OFF FOLIAGE AS NEEDED.
13. FOR CITY ARBORIST, CONTACT CITY ENGINEER.
14. CONTRACTOR TO COORDINATE WITH CITY ARBORIST TO OBTAIN DIRECTION FOR CARE AND PROTECTION OF ALL HERITAGE TREES DURING CONSTRUCTION. THIS MAY INCLUDE RESTRICTIONS OF MACHINERY SIZE, WEIGHT NEAR TREE ROOT SYSTEMS AND PROVIDING A TEMPORARY IRRIGATION SYSTEM.
15. CONTRACTOR IS TO ALSO ENSURE ALL EXISTING IRRIGATION SYSTEMS OUTSIDE LIMIT OF WORK ARE TO REMAIN OPERATION TO PROTECT ALL LANDSCAPE AND EXISTING TREES WITHIN AND OUTSIDE THE LIMIT OF WORK.

TREE DISPOSITION LEGEND

THE CONTRACTOR WILL BE RESPONSIBLE TO PROTECT THE IDENTIFIED TREES AND TO PROVIDE THE NECESSARY TREE CARE & MAINTENANCE, INCLUDING WATER, DURING CONSTRUCTION. ROOT PRUNING WILL NOT BE PERMITTED UNLESS APPROVED BY THE CITY AND THE ACTION IS TAKEN ONLY WHEN THE CITY REPRESENTATIVE IS PRESENT.



TREE TO BE REMOVED. REMOVE TREE ENTIRELY AND STUMP GRIND TO A DEPTH OF 24" BELOW FINISH GRADE OR TO A DEPTH THAT WILL NOT CONFLICT WITH THE NEW IMPROVEMENTS.

L-250

GENERAL NOTES

1. BASE INFORMATION INCLUDING THE LOCATION OF PROPERTY LINES, EASEMENTS, BUILDINGS, ROADS, AND CURBS HAVE BEEN TAKEN FROM THE CIVIL ENGINEER'S DRAWINGS. REFER TO CIVIL ENGINEERING DRAWINGS FOR ADDITIONAL INFORMATION.
2. REFER TO THE CIVIL ENGINEER'S DRAWINGS AND DRY UTILITY DRAWINGS, IF APPLICABLE, INCLUDING STORM DRAIN, SEWER, WATER, ELECTRICAL.
3. VERIFY SITE INFORMATION, INCLUDING PROPERTY LINES, TOP AND BOTTOMS OF SLOPES, ROADWAY CURB, AND GUTTERS, UTILITIES, AND OTHER INFORMATION AFFECTING THE SCOPE OF WORK INCLUDED ON THESE DRAWINGS. IF ACTUAL SITE CONDITIONS VARY FROM WHAT IS SHOWN ON THE LANDSCAPE ARCHITECT'S PLANS, THE CONTRACTOR SHALL CONTACT THE OWNER'S FOR DIRECTION ON HOW TO PROCEED.
4. SITE VISITATION: CONTRACTOR SHALL VISIT THE SITE, EXAMINE EXISTING CONDITIONS FOR THE NEW CONSTRUCTION AND DETERMINE TO ITS SATISFACTION, THE METHODS AND PROCEDURES, REMOVAL AND STORAGE OF MATERIALS, SEQUENCING OF OPERATIONS AND CONDITIONS WHICH AFFECT ITS WORK AND PROBLEMS ATTENDANT HERETO. CONTRACTOR SHALL NOTIFY THE OWNER OF ANY DISCREPANCIES PRIOR TO BIDDING. NO ALLOWANCE WILL BE MADE SUBSEQUENTLY TO THE CONTRACTOR FOR ERRORS THROUGH NEGLIGENCE IN EXAMINING SITE CONDITIONS.
5. BEFORE INSTALLING ALL UNDERGROUND FEATURES (i.e. FENCE FOOTINGS, WALL FOOTINGS, AND SERVICE LINES) VERIFY ALL LOCATIONS OF EXISTING UTILITIES AND COORDINATE WITH CIVIL AND ELECTRICAL DRAWINGS.
6. ALL WALLS, PAVING, AND FENCES SHALL BE INSTALLED IN CONFORMANCE WITH STRUCTURAL ENGINEER'S APPROVED PLANS.
7. CONSTRUCTION SHALL COMPLY WITH THE DRAWINGS OR APPLICABLE BUILDING CODES AND ORDINANCES WHERE THE REQUIREMENTS ARE MORE SPECIFIC OR STRINGENT.
8. COORDINATE WALL, PAVING, MASONRY, WORK WITH ALL DISCIPLINES FOR SLEEVING, CONDUCTS, ANCHOR BOLTS, ETC.
9. ELECTRICAL JUNCTION BOXES FOR LIGHTS AND IRRIGATION VALVE BOXES SHALL BE IN PLANTING AREAS OR AS APPROVED BY OWNER AND LANDSCAPE ARCHITECT. STAKE LOCATIONS BEFORE INSTALLATION FOR OWNER'S AND LANDSCAPE ARCHITECT'S APPROVAL PRIOR TO INSTALLATION.
10. REFERENCES TO NORTH REFER TO TRUE NORTH. REFERENCES TO SCALE IS FOR FULL-SIZED DRAWINGS ONLY. DO NOT SCALE FROM REDUCED DRAWINGS.
11. REFER TO GEOTECHNICAL SOILS REPORT LATEST EDITION FOR PAVING AND CONCRETE PAVER REINFORCEMENT, SUBBASE, AND SUBGRADE TREATMENT.
12. CONTRACTOR SHALL SURVEY PUBLIC RIGHT OF WAY AND PRIVATE LIMIT OF WORK PER THE CIVIL ENGINEER PLANS PRIOR TO BEGINNING CONSTRUCTION. CONTRACTOR SHALL STAKE LIMIT AND LAYOUT OF LANDSCAPE PAVING LIMITS AND OBTAIN APPROVAL FROM OWNER AND LANDSCAPE ARCHITECT PRIOR TO BEGINNING WORK.
13. IT IS THE CONTRACTOR'S RESPONSIBILITY TO PROTECT NEW WORK FROM VANDALISM UNTIL THE IMPROVEMENTS HAVE BEEN ACCEPTED BY THE OWNER AND A NOTICE OF SUBSTANTIAL COMPLETION HAS BEEN FILLED.
14. EXCAVATION IN THE VICINITY OF UTILITIES AND EXISTING MATERIALS SHALL BE UNDERTAKEN WITH CARE. THE CONTRACTOR BEARS FULL RESPONSIBILITY FOR HIS WORK. ANY DAMAGE CAUSED BY ANY PERSON, VEHICLE, EQUIPMENT, OR TOOL RELATED TO THE EXECUTION OF THE CONTRACT SHALL BE REPAIRED IMMEDIATELY AT NO EXPENSE TO THE OWNER.
15. PRIOR TO INSTALLATION OF ANY CONSTRUCTION ITEM, FORMS WITH STEEL IN PLACE AND COMPACTED SUBGRADE COMPLETE, SHALL BE OBSERVED AND REVIEWED BY THE OWNER'S AUTHORIZED REPRESENTATIVE.
16. WRITTEN DIMENSIONS TAKE PRECEDENCE OVER SCALE.
17. WHERE DIMENSIONS ARE CALLED AS "EQUAL", ALL REFERENCED ITEMS SHALL BE SPACED EQUALLY, MEASURED TO THEIR CENTERLINES.

PAVING NOTES

1. ALL DIMENSIONS ARE APPROXIMATE. CONTRACTOR TO VERIFY IN FIELD
2. ALL DIMENSIONS ARE FROM OUTSIDE FACE OF PAVING, CURBS, WALLS, ETC, UNLESS OTHERWISE NOTED ON PLANS.
3. ALL ANGLES TO BE 90 DEGREES AND ALL LINES OF PAVING AND FENCING TO BE PARALLEL UNLESS OTHERWISE NOTED. MAINTAIN HORIZONTAL ALIGNMENT OF ADJACENT ELEMENTS AS NOTED ON THE DRAWINGS.
4. ALL WALKS AND WALLS HAVE SMOOTH, CONTINUOUS CURVES AS INDICATED ON PLANS, UNLESS NOTED OTHERWISE.
5. ALL WALLS, PAVING, AND FENCES SHALL BE INSTALLED IN CONFORMANCE WITH STRUCTURAL ENGINEER'S APPROVED PLANS.
6. PROVIDE ISOLATION TAPE ON ALL STEEL POSTS EMBEDDED INTO CONCRETE.
7. PROVIDE APPROVED JOINTS AS SHOWN ON DRAWINGS. SUBMIT DRAWING INDICATING JOINT LOCATIONS AND DETAIL FOR APPROVAL BY OWNER AND LANDSCAPE ARCHITECT.
8. PROVIDE BUILDING FABRIC ISOLATION JOINT WITH SEALANT WHERE PAVING ABUTS CURBING, BUILDING AND COLUMNS, AND STRUCTURES. VERIFY COLOR OF SEALANT WITH OWNER AND LANDSCAPE ARCHITECT.
9. CONCRETE JOINTING AND FINISHING TO MEET ADA REQUIREMENTS FOR SLIP RESISTANCE AND JOINT WIDTH (3/16" MAX.) OR AS NOTED ON PLANS - 0.6 SLIP RESISTANCE CO-EFFICIENT.

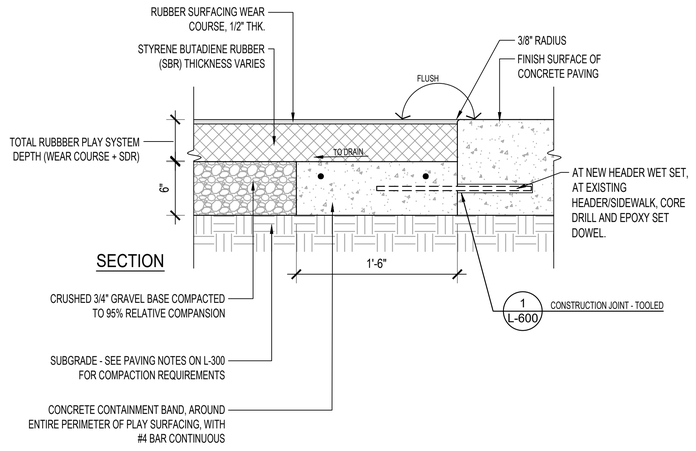
P-M-07

4 CONCRETE HEADER AT PLAYGROUND SURFACING — 1 1/2" = 1'-0"

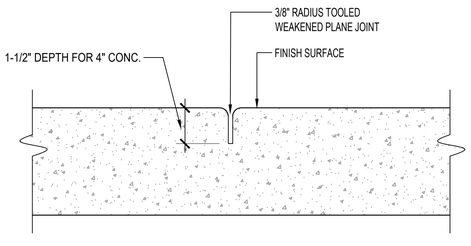


SECTION

NOTES:
1. PLACE JOINTS AT 10' MIN. TO 30' MAX. OR 300 SQ. FT. MAX.
2. CONTRACTOR TO PROVIDE A COMPLETE POUR SEQUENCE PLAN INDICATING ALL JOINT LOCATIONS FOR APPROVAL BY LANDSCAPE ARCHITECT.

P-M-02

1 CONSTRUCTION JOINT - TOOLED — 3" = 1'-0"

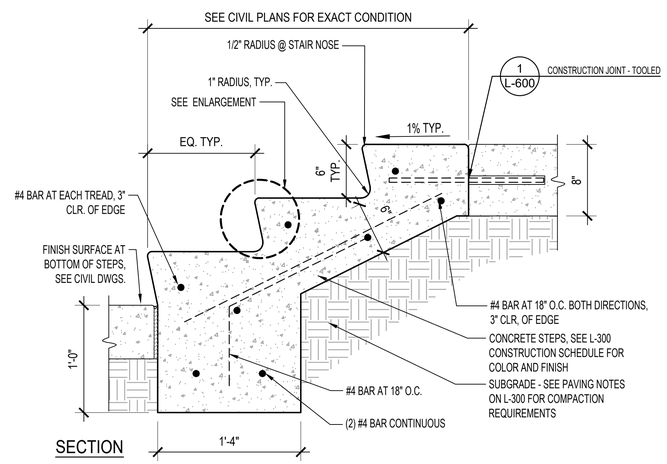


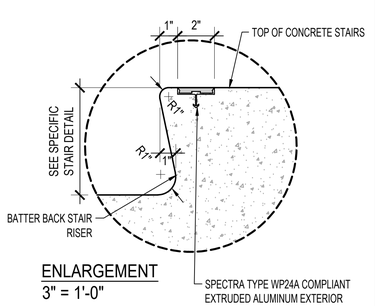
NOTES:
1. CONSTRUCT A WEAKENED PLANE JOINT 10FT. O.C. AND AN EXPANSION JOINT AT EVERY 30FT. O.C.
2. CONTRACTOR SHALL PROVIDE G-MAX AND TEST RESULTS FOR THE SURFACING MANUFACTURER USED ON THE PROJECT. SURFACING DEPTHS WITHIN THE PLAY EQUIPMENT FALL ZONES SHALL BE PER THE TEST RESULTS FOR THE CRITICAL FALL HEIGHTS OF THE EQUIPMENT BEING INSTALLED.
3. PAVING CONTRACTOR SHALL CONTRACT AND COORDINATE WITH RUBBER SURFACING INSTALLER PRIOR TO INSTALLATION OF CONCRETE SUB-BASE.
4. THE "SBR" DEPTH MAY VARY THROUGHOUT THE PLAYGROUND AND WILL BE BASED UPON THE CRITICAL FALL HEIGHT OF EACH PLAY PIECE. THE CRITICAL FALL HEIGHT SHALL BE CONFIRMED WITH THE MANUFACTURER PRIOR TO THE PLAY SURFACE INSTALLATION.

P-601

P-M-06

5 GRAVEL BASE W/ PLAYGROUND SURFACING — 1 1/2" = 1'-0"



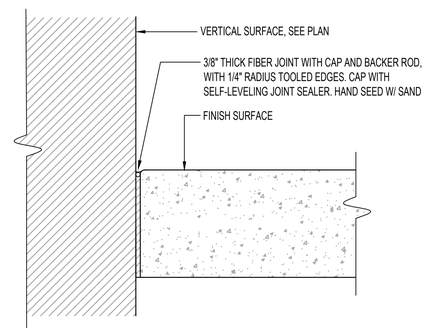


SECTION

NOTES:
1. PLACE JOINTS AT 10' MAX. OR 100 SQ. FT. MAX.
2. CONTRACTOR TO PROVIDE A COMPLETE POUR SEQUENCE PLAN INDICATING ALL JOINT LOCATIONS FOR APPROVAL BY LANDSCAPE ARCHITECT.

P-M-03

2 CONTRACTION JOINT - TOOLED — 3" = 1'-0"



ST-101

P-M-08

6 CONCRETE STAIRS — 1 1/2" = 1'-0"

SECTION

NOTES:
1. PLACE JOINTS AT ALL VERTICAL SURFACES. I.E. WALLS, CURBS, BUILDINGS, ECT.
2. CONTRACTOR TO PROVIDE A COMPLETE POUR SEQUENCE PLAN INDICATING ALL JOINT LOCATIONS FOR APPROVAL BY LANDSCAPE ARCHITECT.

P-M-05

3 ISOLATION JOINT @ VERTICAL SURFACE — 3" = 1'-0"

SPRAY SPRINKLER LEGEND

SYMBOL	MANUFACTURER	MODEL NO.	DESCRIPTION	NOZZLE	NOZZLE COLOR	RADIUS	G.P.M.	P.S.I.	PATTERN	PRECIP RATE
Φ_F	RAIN BIRD*	1806-SAM-PRS-45	6" POP-UP SPRINKLER	R-VAN14-360	LT. BLUE	8' - 14'	1.27	45	360°	0.7
Φ	RAIN BIRD*	1806-SAM-PRS-45	6" POP-UP SPRINKLER	R-VAN14-180	LT. BLUE	8' - 14'	0.63	45	180° - 270°	0.7
Φ_Q	RAIN BIRD*	1806-SAM-PRS-45	6" POP-UP SPRINKLER	R-VAN14-90	LT. BLUE	8' - 14'	0.32	45	90° - 180°	0.7

NOTES:
* WHEN RADIUS OF SPRINKLER HEADS, REQUIRED FOR PROPER COVERAGE, IS LESS THAN RADIUS SHOWN ON LEGEND, EQUIP SPRINKLER HEAD WITH PRESSURE COMPENSATING SCREEN FOR FLOW AND RADIUS CONTROL.

1. SPRINKLER RADIUS ABBREVIATIONS
   F= FULL CIRCLE Q= QUARTER V= VARIABLE
2. INSTALL SPRAY SPRINKLERS PER POP-UP SPRINKLER HEAD DETAIL 8, SHEET L-751.
3. DRAINAGE OF IRRIGATION WATER THROUGH SPRINKLER HEADS WILL NOT BE ALLOWED. SOME SPRINKLER HEADS WILL REQUIRE THE INSTALLATION OF THE SEAL-A-MATIC™ (SAM) CHECK VALVE IN THE SPRINKLER BODY TO PREVENT SPRINKLER HEAD DRAINAGE. DURING THE COURSE OF CONSTRUCTION, INCLUDE THE SAM CHECK VALVE AS REQUIRED TO PREVENT DRAINAGE FROM ANY SPRINKLER HEAD SHOWING SIGNS OF DRAINAGE AFTER THE SYSTEM HAS OPERATED FROM AN ON TO OFF POSITION. PROVIDE THE SAM SERIES SPRINKLERS WHERE DRAINAGE OCCURS AT NO ADDITIONAL COST TO OWNER.
4. REMOVE CONVENTIONAL SCREEN AND REPLACE WITH PRESSURE REDUCTION SCREEN WHERE REQUIRED TO PREVENT OVER-SPRAY ONTO HARDSCAPE.
5. WHERE VERTICAL OBSTRUCTIONS (BOLLARDS, STREET LIGHTS, TREES, ETC.) INTERFERE WITH THE SPRAY PATTERN OF THE SPRINKLER HEADS SO AS TO PREVENT PROPER COVERAGE, FIELD ADJUST THE SPRINKLER SYSTEM BY INSTALLING QUARTER CIRCLE OR HALF CIRCLE SPRINKLER HEAD ON EACH SIDE OF THE OBSTRUCTION SO AS TO PROVIDE PROPER COVERAGE. ALL ADJUSTMENTS SHALL BE MADE AT NO ADDITIONAL COST TO THE OWNER.

EQUIPMENT LOCATION NOTES

1. INSTALL ALL IRRIGATION EQUIPMENT, PRESSURE MAIN LINE PIPING, CONTROLLER WIRING, CONTROL VALVES, ETC. WITHIN PLANTING AREA. ANY IRRIGATION EQUIPMENT INDICATED OUTSIDE OF PLANTING AREA IS SHOWN FOR DRAWING CLARITY AND DESIGN INTENT ONLY.
2. INSTALL IRRIGATION MAIN LINE PIPING IN PLANTING AREA 2-FEET MINIMUM BACK OF HARDSCAPE.
3. PIPING AS SHOWN ON DRAWINGS IS SCHEMATIC AND INDICATES THE INTENT OF IRRIGATION DELIVERY METHODS.
4. IRRIGATION CONTROLLER AND OTHER IRRIGATION EQUIPMENT LOCATIONS SHOWN ON THE DRAWINGS ARE APPROXIMATE. CONTRACTOR SHALL STAKE OUT ALL IRRIGATION EQUIPMENT LOCATIONS FOR REVIEW AND APPROVAL BY THE LANDSCAPE ARCHITECT PRIOR TO INSTALLATION.
5. ELECTRIC CONTROL VALVES, QUICK COUPLING VALVES, AND ISOLATION VALVES, ETC. LOCATIONS INDICATED ON THE DRAWINGS ARE SHOWN AS APPROXIMATE. CONTRACTOR SHALL STAKE OUT EACH VALVE ASSEMBLY FOR REVIEW AND APPROVAL BY THE LANDSCAPE ARCHITECT PRIOR TO INSTALLATION.
6. FINAL LOCATIONS AND EXACT POSITIONING OF IRRIGATION EQUIPMENT ON THE DRAWINGS SHALL BE DETERMINED BY THE LANDSCAPE ARCHITECT. MINOR MODIFICATIONS OF IRRIGATION EQUIPMENT AS REQUESTED BY OWNER OR LANDSCAPE ARCHITECT SHALL BE PROVIDED BY CONTRACTOR AT NO ADDITIONAL COST. FAILURE TO OBTAIN OWNER/ LANDSCAPE ARCHITECT APPROVAL PRIOR TO INSTALLATION SHALL CAUSE CONTRACTOR TO MAKE OWNER/ LANDSCAPE ARCHITECT DIRECTED CHANGES AT NO ADDITIONAL COST.
7. ELECTRIC CONTROL VALVES, QUICK COUPLING VALVES, AND ISOLATION VALVES, ETC. SHALL NOT BE INSTALLED IN TURF. INSTALL IN NEAREST NON-TURF PLANTING AREA.
8. CONTRACTOR SHALL ROUTE PIPING WITH 2-FOOT CLEARANCE AROUND FINAL TREE LOCATIONS.
9. WHERE VERTICAL OBSTRUCTIONS (BOLLARDS, STREET LIGHTS, TREES, ETC.) INTERFERE WITH THE SPRAY PATTERN OF THE SPRINKLER HEADS SO AS TO PREVENT PROPER COVERAGE, FIELD ADJUST THE SPRINKLER SYSTEM BY INSTALLING QUARTER CIRCLE OR HALF CIRCLE SPRINKLER HEAD ON EACH SIDE OF THE OBSTRUCTION SO AS TO PROVIDE PROPER COVERAGE. ALL ADJUSTMENTS SHALL BE MADE AT NO ADDITIONAL COST TO THE OWNER.

IRRIGATION LATERAL PIPE SIZES

IRRIGATION NON PRESSURE LATERAL LINE PIPE

PIPE SIZE	¾"	1"	1-¼"	1-½"	2"	3"
FLOW (GPM)	0 - 8	8 - 12	13 - 22	23 - 30	31 - 50	51 - 150

NOTES:

1. FOR DRAWING CLARITY ALL IRRIGATION LATERAL LINES ARE NOT SIZED, BUT SHALL BE INSTALLED AND INCLUDED AS PART OF THE CONTRACTOR'S BID. ADDITIONALLY, DUE TO THE SCALE OF THE DRAWINGS AND FOR DRAWING CLARITY ALL PIPE SIZES ARE NOT SHOWN.
2. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO FAMILIARIZE ITSELF WITH ALL GRADE DIFFERENCES, LOCATION OF WALLS, RETAINING WALLS, FOOTINGS, ETC. AND COORDINATE ITS WORK WITH OTHER TRADES FOR THE LOCATION AND THE INSTALLATION OF PIPE SLEEVES THROUGH WALLS, UNDER FOOTINGS, UNDER ROADWAYS, UNDER PAVING STRUCTURES, ETC.

IRRIGATION SLEEVE SIZES

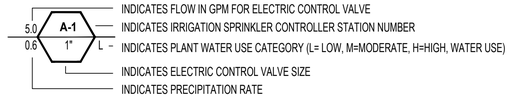
IRRIGATION PIPE

PIPE SIZE	¾"	1"	1-¼"	1-½"	2"	2-½"	3"
SLEEVE SIZE	4"	4"	4"	4"	4"	6"	6"

CONTROL WIRE CONDUIT

WIRE CONDUIT SIZE	2" MIN.	2-½"	3"	4"
NUMBER OF CONTROL AND COMMON WIRES IN CONDUIT	0-16	17-24	25-40	41-48

NOTES:



1. PIPE SLEEVES AND CONTROL WIRE CONDUITS ARE REQUIRED FOR ALL IRRIGATION PIPING AND CONTROL WIRES INSTALLED UNDER PAVING. REFER TO IRRIGATION SLEEVE SIZES CHART FOR IRRIGATION SLEEVE SIZE AND TO CONTROL WIRE SIZING CHART FOR CONTROL WIRE SLEEVE SIZE - TYP.
2. FOR DRAWING CLARITY ALL IRRIGATION SLEEVES ARE NOT SIZED, BUT SHALL BE INSTALLED AND INCLUDED AS PART OF THE CONTRACTOR'S BID. ADDITIONALLY, DUE TO THE SCALE OF THE DRAWINGS AND FOR DRAWING CLARITY ALL SLEEVES AND CONDUITS ARE NOT SHOWN. THEREFORE, IN ADDITION TO THE PIPE SLEEVE AND CONTROL WIRE CONDUITS SHOWN ON THE DRAWINGS, THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE INSTALLATION OF IRRIGATION PIPE SLEEVES AND CONTROL WIRE CONDUITS SLEEVES OF SUFFICIENT SIZE UNDER ALL PAVED AREAS.
3. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO FAMILIARIZE ITSELF WITH ALL GRADE DIFFERENCES, LOCATION OF WALLS, RETAINING WALLS, FOOTINGS, ETC. AND COORDINATE ITS WORK WITH OTHER TRADES FOR THE LOCATION AND THE INSTALLATION OF PIPE SLEEVES THROUGH WALLS, UNDER FOOTINGS, UNDER ROADWAYS, UNDER PAVING STRUCTURES, ETC.

EQUIPMENT LEGEND - RECYCLED WATER

SYMBOL	MANUFACTURER	MODEL NO.	DETAIL REFERENCE	DESCRIPTION
A	-	EXISTING	-	EXISTING CONTROLLER - CONTRACTOR TO LOCATE EXISTING CONTROLLER AS SHOWN ON PLANS, VERIFY AVAILABLE STATION ASSIGNMENTS AND CONTROL WIRES AT STUB OUT LOCATION FOR FUTURE IRRIGATION IMPROVEMENTS - CONTRACTOR TO PROGRAM CONTROLLER TO ACCOMMODATE ADDITIONAL VALVES REQUIRED FOR NEW IRRIGATION SYSTEM IMPROVEMENTS AND CONNECT TO EXISTING CONTROLLER A USING "ADD-A-ZONE" - SEE "IRRIGATION CONSTRUCTION NOTES" ON SHEET L-701 FOR ADDITIONAL INFORMATION
●	RAIN BIRD*	100-PESB-R-PRS-D ** 150-PESB-R-PRS-D **	1, 3 / L-750	ELECTRIC CONTROL VALVE WITH PRESSURE REGULATING VALVE - SIZE NOTED IN INCHES
●	EXISTING	EXISTING	-	EXISTING ELECTRIC CONTROL VALVE, PROTECT IN PLACE
⋈	HAMMIOND *	UP8303	2, 3 / L-750	BALL VALVE - TWO PIECE LOW LEAD BRONZE - TRUE UNION THREAD - LINE SIZE
NONE SHOWN	3M CONNECTOR	DBR/Y-6	4, 5 / L-750	DIRECT BURY SPLICE (I.L. APPROVED) WATERPROOF WIRE CONNECTORS FOR USE ON ALL WIRE SPICES AND CONNECTIONS
	EXISTING PRESSURE MAIN LINE PIPING		-	EXISTING LOCATION IS APPROXIMATE - LOCATE AND INTERCEPT EXISTING MAIN LINE PIPING WHERE SHOWN ON PLANS CONNECT TO NEW IRRIGATION IMPROVEMENTS
	PRESSURE MAIN LINE PIPING		8, 9 / L-750	CLASS 315 PVC - 2-INCH SIZE PIPING AND LARGER AND SCHEDULE 40 PVC FOR 1-1/2-INCH SIZE PIPING AND SMALLER AS SHOWN ON PLANS (NOTED IN INCHES) - PURPLE COLOR PIPE FOR RECYCLED WATER USE
INDICATES CONNECTION TO ASSIGNED DRIP LINES, TYP.	NON-PRESSURE LATERAL LINE PIPING		8, 9 / L-750	SCHEDULE 40 PVC - 3/4-INCH MINIMUM SIZE PIPING AND OTHER SIZES (NOTED IN INCHES) AS SHOWN ON PLANS AND IRRIGATION LATERAL PIPE SIZES CHART, SHEET L-700A - PURPLE COLOR PIPE FOR RECYCLED WATER USE
	CONTROL WIRE SLEEVE UNDER PAVED AREA		9 / L-750	SCHEDULE 40 PVC - 2-INCH MINIMUM (2-INCH ABBREVIATED ON DRAWING AS "2SL") - SIZE SLEEVING (NOTED IN INCHES) AS SHOWN ON DRAWINGS AND IRRIGATION SLEEVE SIZES CHART, SHEET L-700A
	PIPING SLEEVE UNDER PAVED AREA		9 / L-750	SCHEDULE 40 PVC - 4-INCH MINIMUM SIZE (4-INCH ABBREVIATED ON DRAWING AS "4SL") - SIZE SLEEVING (NOTED IN INCHES) AS SHOWN ON DRAWINGS AND IRRIGATION SLEEVE SIZES CHART, SHEET L-700A

NOTES:
* PROVIDE LANDSCAPE FABRIC MODEL NUMBER 140N, AS MANUFACTURED BY MIRAFI, OR APPROVED EQUAL - TYPICAL FOR ALL ROUND AND RECTANGULAR VALVE BOX INSTALLATIONS.
** THE IRRIGATION CONTRACTOR SHALL ADJUST EACH PRESSURE REGULATING MODULE AT EACH ELECTRIC CONTROL VALVE SO THAT THE SPRINKLER HEAD FURTHEST AND HIGHEST IN ELEVATION FROM ITS RESPECTIVE CONTROL VALVE OPERATES WITHIN THE OPERATING PRESSURE SHOWN ON THE IRRIGATION LEGEND - NOT TO EXCEED FIVE (5) PSI ABOVE THE GIVEN OPERATING PRESSURE.

IRRIGATION WATER USE CALCULATIONS - RECYCLED WATER

Model Water Efficient Landscape Ordinance (MWELO) Worksheet

MacKensie Park - Laguna Hills, CA

Point-of-Connections: System 'A'

Maximum Applied Water Allowance (MAWA)

Total MAWA = (ETo)(0.62)[(ETAF)(LA)+(1-ETAF)(SLA)= Gallons per Year for LA+SLA

Where:
MAWA = Maximum Applied Water Allowance (gallons per year)
EAWU = Estimated Applied Water Use (gallons per year)
ETo = Reference Evapotranspiration (43.2 inches per year)
0.45 = ET Adjustment Factor (ETAF)
1.00 = ET Adjustment Factor (ETAF) for Special Landscape Area
LA = Landscape Area (square feet)
0.62 = Conversion factor (to gallons per square foot)
SLA = Special Landscape Area (square feet)
Billing Unit = 1 Hundred Cubic feet (HCF) or 748 gallons

Maximum Applied Water Allowance (MAWA):

	ETo		ETAF		LA or SLA (SF)		Conversion	MAWA (Gallons Per Year)
MAWA for LA =	43.2	x	0.45	x	152	x	0.62	1,832
MAWA for SLA =	43.2	x	1.00	x	3,641	x	0.62	97,521
Total Landscape Area (SF) =					3,793		Total MAWA =	99,353 gallons per year
							=	133 Billing units

Estimated Applied Water Use (EAWU):

PF = Plant Factor (range = 0.0 to 1.0)
LA = Landscape Area (square feet)
0.62 = Conversion factor (to gallons per square foot)
IE = Irrigation Efficiency = IME x DU
Kd = Density Factor (range = 0.5 to 1.3) (See WUCOLS for density ranges)
Kmc = Microclimate Factor (range = 0.5 to 1.4) (See WUCOLS for density ranges)

EAWU = [(ETo)(0.62)][(PF/IE x LA/IE) + SLA] = Gallons per Year

	ETo		PF		LA		Conversion		IE		ETWU (Gallons Per Year)
Special Landscape Area	43.2	x	1.0	x	3,641	x	0.62	÷	1.00	=	97,521
Cool Season Turf (spray)	43.2	x	0.8	x	0	x	0.62	÷	0.75	=	0
Moderate Using Shrub (drip)	43.2	x	0.5	x	0	x	0.62	÷	0.81	=	0
Low Using Shrub (drip)	43.2	x	0.3	x	120	x	0.62	÷	0.81	=	1,190
Moderate Using Trees (2 ea.)	43.2	x	0.3	x	32	x	0.62	÷	0.75	=	343
Water Feature/ Pool	43.2	x	0.8	x	0	x	0.62	÷	0.75	=	0
					3,793 SF			Total EAWU =			99,054 gallons per year
								=			132 Billing units

The EAWU (99,054 gallons per year) is less than the MAWA (99,353 gallons per year).
The project's Landscape Estimate of Applied Water Use complies with the City's Water Efficient Landscape Ordinance.

IRRIGATION GENERAL NOTES - RECYCLED WATER

1. THIS IRRIGATION SYSTEM IS DESIGNED FOR USE WITH RECYCLED WATER.
2. INSTALL POP-UP SPRINKLER HEADS POSITIONED WITHIN SHRUB OR GROUND COVER AREAS WITH THE TOP OF SPRINKLER ABOVE FINISH GRADE AS SHOWN IN THE DETAILS.
3. SET SPRINKLER HEADS PERPENDICULAR TO FINISH GRADE OF AREA TO BE IRRIGATED UNLESS INDICATED OTHERWISE ON DRAWINGS.
4. WHEN VERTICAL OBSTRUCTIONS (SITE HARDSCAPE ELEMENTS, FIRE HYDRANTS, TREES, LIGHT POLES, ETC.) INTERFERE WITH THE SPRINKLER HEAD PATTERN OF COVERAGE, ADJUST SPRINKLER SYSTEM LAYOUT BY INSTALLING A QUARTER CIRCLE, HALF CIRCLE OR ADJUSTABLE CIRCLE SPRINKLER HEAD ON EACH SIDE OF OBSTRUCTION IN ORDER TO PROVIDE PROPER COVERAGE. PERFORM SPRINKLER LAYOUT ADJUSTMENT AT NO COST TO THE OWNER.
5. SPRINKLER SYSTEM IS BASED ON MINIMUM PRESSURE AND MAXIMUM FLOW DEMAND SHOWN ON IRRIGATION DRAWINGS. REFER TO POINT-OF-CONNECTION NOTES. VERIFY PERMANENT WATER PRESSURE BEFORE THE START OF CONSTRUCTION. REPORT DIFFERENCES BETWEEN WATER PRESSURE INDICATED ON DRAWINGS AND ACTUAL SITE PRESSURE READING AT IRRIGATION POINT-OF-CONNECTION TO OWNER'S AUTHORIZED REPRESENTATIVE FOR RESOLUTION. IN THE EVENT PRESSURE DIFFERENCES ARE NOT REPORTED PRIOR TO START OF CONSTRUCTION, ASSUME FULL RESPONSIBILITY FOR REVISIONS.
6. THIS IRRIGATION DESIGN IS SCHEMATIC. PIPING, VALVES, ETC. SHOWN WITHIN PAVED AREAS ARE FOR DESIGN CLARIFICATION ONLY. INSTALL PIPING AND IRRIGATION FACILITIES WITHIN PLANTING AREAS WHERE POSSIBLE. AVOID CONFLICTS BETWEEN SPRINKLER SYSTEM, LANDSCAPE PLANTING, SITE IMPROVEMENTS, AND ARCHITECTURAL FEATURES.
7. FLUSH AND ADJUST SPRINKLER HEADS FOR OPTIMUM PERFORMANCE. PREVENT OVER-SPRAY ONTO WALKS, ROADWAYS, WALLS, FENCES AND BUILDINGS. SELECT THE MOST APPROPRIATE PART CIRCLE PATTERN NOZZLE TO FIT THE SITE CONDITIONS AND THROTTLE THE FLOW CONTROL ADJUSTMENT AT EACH CONTROL VALVE TO OBTAIN OPTIMUM SPRINKLER HEAD PRESSURE.
8. DO NOT WILLFULLY INSTALL SPRINKLER SYSTEM AS INDICATED ON DRAWINGS WHEN IT IS OBVIOUS IN THE FIELD THAT EXISTING OBSTRUCTIONS, GRADE DIFFERENCES IN AREA DIMENSIONS, AND OTHER SITE SPECIFIC INFORMATION THAT MIGHT NOT HAVE BEEN CONSIDERED DURING DESIGN. NOTIFY THE OWNER'S AUTHORIZED REPRESENTATIVE OF SUCH OBSTRUCTIONS OR DIFFERENCES FOR RESOLUTION. IN THE EVENT THIS NOTIFICATION IS NOT PERFORMED,THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR REVISIONS.
9. IT IS THE CONTRACTOR'S RESPONSIBILITY TO BECOME FAMILIAR WITH GRADE DIFFERENCES, WALL/HARDSCAPE LOCATIONS, ETC. COORDINATE WORK FOR THE INSTALLATION OF IRRIGATION PIPE SLEEVES THROUGH WALLS, UNDER PAVEMENT AND STRUCTURES, ETC.
10. CONTRACTOR IS RESPONSIBLE FOR THE INSTALLATION OF SUFFICIENTLY SIZED SLEEVES FOR CONTROL WIRES AND NON-PRESSURE LATERAL LINE PIPING UNDER PAVED AREAS, IN ADDITION TO CONTROL WIRES AND LATERAL LINE PIPING SLEEVES SHOWN ON THE DRAWINGS.
11. INSTALL PIPING, RELATED MATERIALS AND EQUIPMENT AS SHOWN ON THE DRAWINGS. USE TEFLON TAPE ON PVC MALE PIPE THREADS, INCLUDING SPRINKLER SWING JOINT AND VALVE ASSEMBLIES. DO NOT USE PIPE DOPE.
12. TEST ALL PRESSURE MAIN LINES UNDER HYDROSTATIC PRESSURE OF 150 PSI FOR A PERIOD OF 3 HOURS. TESTING OF PRESSURE MAIN LINE PIPING SHALL OCCUR PRIOR TO THE INSTALLATION OF ANY ELECTRIC CONTROL VALVE, BASKET STRAINERS, QUICK COUPLING VALVES AND OTHER PRESSURE-SIDE IRRIGATION FACILITIES. PRESSURE TESTING RESULTS, IN WRITING, SHALL BE SUBMITTED TO OWNER'S AUTHORIZED REPRESENTATIVE PRIOR TO BACKFILLING.
13. THE ESTABLISHMENT OF AUTOMATIC SEASONAL ADJUSTMENTS AND BASIC CONTROLLER PROGRAMMING IS THE RESPONSIBILITY OF THE CONTRACTOR. MAKE ARRANGEMENTS WITH THE APPROPRIATE FIELD TECHNICIAN FOR A SITE VISIT ON INSTRUCTION OF ESTABLISHING AUTOMATIC CONTROLLER BASIC PROGRAMMING INFORMATION AND AUTOMATIC SEASONAL SCHEDULING. CONTROLLER PROGRAMMING INFORMATION REQUIRED INCLUDES, BUT IS NOT LIMITED TO; PRECIPITATION RATES, PLANT WATER-USE FACTORS, SYSTEM EFFICIENCY RATINGS, FLOW SENSOR CALIBRATION, AND MONTHLY HISTORIC DATA.

IRRIGATION MAINTENANCE SCHEDULE

1. LANDSCAPES SHALL BE MAINTAINED TO ENSURE WATER EFFICIENCY. A REGULAR MAINTENANCE SCHEDULE SHALL INCLUDE BUT NOT BE LIMITED TO CHECKING, ADJUSTING, AND REPAIRING IRRIGATION EQUIPMENT; RESETTING REPLENISHING MULCH; FERTILIZING; PRUNING; AND WEEDING IN ALL LANDSCAPE AREAS.
2. WHENEVER POSSIBLE, REPAIR OF THE IRRIGATION EQUIPMENT SHALL BE DONE WITH THE ORIGINALLY SPECIFIED MATERIALS OR THEIR EQUIVALENT SPECIFICATION.

IRRIGATION AUDIT SCHEDULE

1. AT A MINIMUM, AUDITS SHALL BE IN ACCORDANCE WITH THE STATE OF CALIFORNIA LANDSCAPE AUDITOR HANDBOOK.
2. AUDITS SHALL BE CONDUCTED BY A STATE CERTIFIED LANDSCAPE IRRIGATION AUDITOR AT LEAST ONCE EVERY FIVE YEARS AND SUBMITTED TO THE LOCAL WATER PURVEYOR.

SOIL SPECIFICATION/ ANALYSIS SAMPLE

1. PROVIDE SOIL SPECIFICATIONS OF IMPORT SOIL OR PROVIDE SOIL ANALYSIS IF USING ON SITE SOIL. THE SOIL INFORMATION MUST INCLUDE: SOIL TEXTURE (% OF ORGANIC MATTER), INFILTRATION RATE (OR ESTIMATED RANGE), PH & TOTAL SOLUBLE SALTS, INDICATE IF MULCH, SOIL AMENDMENTS OR OTHER MATERIAL WILL BE USED OR REQUIRED.

IRRIGATION DESIGN INTENT

1. THIS IRRIGATION SYSTEM IS DESIGNED FOR USE WITH RECYCLED WATER.
2. THE LANDSCAPE CONTRACTOR TO PROVIDE A COMPLETE AUTOMATIC IRRIGATION SYSTEM WITH 100% IRRIGATION COVERAGE FOR MACKENZIE LANDSCAPE.
3. IRRIGATION SYSTEM TO BE DESIGNED TO NOT ALLOW OVER-SPRAY OR EXCESS RUNOFF ONTO IMPERVIOUS SURFACES.
4. PLANTS SELECTED FOR HARDINESS AND LOW WATER REQUIREMENTS.
5. PURPLE COLORED IRRIGATION PIPING AND RECYCLED WATER ADVISEMENT IDENTIFICATION SHALL BE INSTALLED FOR USE WITH RECYCLED WATER.

IRRIGATION SYSTEM DESCRIPTION - RECYCLED WATER

1. LANDSCAPE WATER USE SHALL COMPLY WITH THE CITY'S WATER EFFICIENCY ORDINANCE AND LANDSCAPE WATER CONSERVATION STANDARDS. THIS PROJECT IS CURRENTLY ESTIMATED TO BE OPERATING AT XX% UNDER THE MAXIMUM ANNUAL WATER ALLOWANCE (MAWA).
2. NEW IRRIGATION SYSTEM IMPROVEMENTS ARE SUPPLIED WITH RECYCLED WATER. A DEDICATED RECYCLED WATER POINT-OF-CONNECTION WITH A EXISTING BACKFLOW PREVENTER, MASTER VALVE AND FLOW SENSOR TO PROVIDE IRRIGATION WATER TO LANDSCAPE PLANTING AREAS.
3. TURF IS IRRIGATED WITH HIGH-EFFICIENT OSCILLATING SPRAY NOZZLES THAT COMPLY WITH THE AGENCY WATER EFFICIENCY ORDINANCE.
4. BALL VALVES ARE LOCATED THROUGHOUT THE SYSTEM TO PROVIDE FOR PARTIAL SHUTDOWN OF THE SYSTEM.

PORTION 1

IRRIGATION CONSTRUCTION MODIFICATION NOTES

1. THE CONTRACTOR SHALL ENSURE THE FUNCTIONALITY/ OPERABILITY OF THE EXISTING IRRIGATION SYSTEM PRIOR TO ANY CONSTRUCTION. WHERE THE NEW IMPROVEMENTS IMPACT THE PERFORMANCE OF THE EXISTING IRRIGATION SYSTEM THE CONTRACTOR SHALL BE RESPONSIBLE TO REPAIR/ RELOCATE EXISTING NON-PRESSURE LATERAL LINES AND POP-UP SPRAY/ OVERHEAD IRRIGATION. THE MODIFICATION OF THE EXISTING IRRIGATION SYSTEM SHALL BE INSTALLED TO PROVIDE HEAD TO HEAD 100% COVERAGE WITH MINIMAL OVERSPRAY ONTO WALKS, SIGNS, AND HARDSCAPE. WHERE EXISTING VALVES SERVING TURF IRRIGATION ARE TO REMAIN, THE CONTRACTOR IS RESPONSIBLE FOR PROVIDING NEW IRRIGATION HEADS/ ROTORS, NOZZLES, PRESSURE MAINLINE AND NON-PRESSURE LATERAL LINE PIPE TO ENSURE FUNCTIONALITY OF THE SYSTEM.
2. SECURE PERMISSION FROM THE OWNER AND PARK MAINTENANCE STAFF TO SHUT OFF THE IRRIGATION WATER SUPPLY TO PORTIONS OF THE SITE. IN THE EVENT THAT IT IS NECESSARY CONTRACTOR TO PROVIDE HAND WATERING OR ALTERNATIVE METHODS TO IRRIGATE EXISTING PLANTING AREAS SERVED BY THE AFFECTED PORTION OF THE IRRIGATION SYSTEM.
3. CONTRACTOR TO LOCATE AND FIELD VERIFY EXISTING RECYCLED WATER BACKFLOW PREVENTER ASSEMBLY FOR EXISTING IRRIGATION SYSTEM AND IRRIGATION SYSTEM IMPROVEMENTS, NOT SHOWN ON PLANS. CONTRACTOR TO VERIFY EXISTING BACKFLOW PREVENTER ASSEMBLIES ARE INSTALLED PER CODE AND REQUIRE NO SERVICE OR REPAIR THAT WOULD PREVENT INSTALLATION OR CONNECTION PER PLAN.
4. CONTRACTOR TO LOCATE AND INTERCEPT EXISTING LATERAL LINE PIPING AND CONNECT NEW LATERAL LINE PIPING TO ENSURE 100% IRRIGATION COVERAGE AT EXISTING TURF AREAS.
5. REPAIR DAMAGE TO EXISTING PLANTING AREA FINISH GRADES CAUSED BY LANDSCAPE CONSTRUCTION OPERATIONS. PROVIDE ADDITIONAL SOIL COMPACTION AS REQUIRED TO REPAIR THE SETTLING OF GRADES TO THE SATISFACTION OF THE LANDSCAPE ARCHITECT AND OWNER.
6. REPLACE AND / OR REPAIR DAMAGE TO EXISTING IRRIGATION SYSTEM CAUSED BY INSTALLATION OF NEW IRRIGATION SYSTEM.
7. CONTRACTOR TO VERIFY AND PROVIDE WRITTEN REPORT TO OWNER THAT EXISTING SYSTEM IS IN PROPER WORKING ORDER REQUIRING NO REPAIRS PRIOR TO CONNECTION OF NEW IMPROVEMENTS.
8. ANY DAMAGE TO LANDSCAPE OR IRRIGATION OUTSIDE THE LIMITS OF WORK SHALL BE REPAIRED AT THE CONTRACTOR'S EXPENSE.

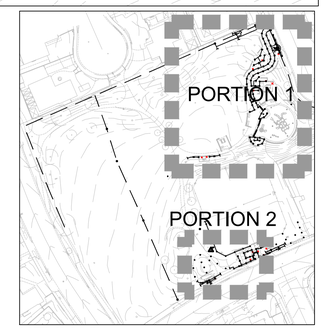
	EXISTING NON-PRESSURE LATERAL LINE - PROTECT-IN-PLACE
	EXISTING OVERHEAD SPRAY BODIES - PROTECT-IN-PLACE
	EXISTING NON-PRESSURE LATERAL LINE CONNECTION TO NEW NON-PRESSURE LATERAL LINE PIPING

VALVE CALLOUT LEGEND



- INDICATES FLOW IN GPM FOR ELECTRIC CONTROL VALVE
- INDICATES IRRIGATION SPRINKLER CONTROLLER STATION NUMBER
- INDICATES PLANT WATER USE CATEGORY (L= LOW, M=MODERATE, H=HIGH, WATER USE).
- INDICATES ELECTRIC CONTROL VALVE SIZE
- INDICATES PRECIPITATION RATE

IRRIGATION CONSTRUCTION NOTES

1	LOCATE AND INTERCEPT EXISTING MAIN LINE PIPING AND CONNECT NEW MAIN LINE PIPING - ADAPT NEW PIPING AS REQUIRED FOR PERMANENT CONNECTION - PROTECT IN PLACE EXISTING CONTROLLER WIRES LOCATED WITH MAIN LINE
2	LOCATE AND INTERCEPT EXISTING LATERAL LINE PIPING AND CONNECT NEW LINE SIZE LATERAL LINE PIPING TO EXISTING OVERHEAD SPRAY SPRINKLERS AND INSTALL SLEEVES UNDER HARDSCAPE AS SHOWN PER PLAN
3	VERIFY EXISTING IRRIGATION VALVE ASSIGNMENTS AND CONNECT NEW ECV TO NEXT AVAILABLE STATION AT EXISTING IRRIGATION CONTROLLER 'A' - INSTALL ADD-A-ZONE MODEL NO. RCO860009 SERIES STATION MULTIPLIER AT NEW VALVE

VERIFY THE ACTUAL P.O.C. LOCATION, SIZE AND STATIC WATER PRESSURE IN THE FIELD PRIOR TO STARTING WORK. IF THERE ARE ANY DISCREPANCIES WITH THE P.O.C. INFORMATION SHOWN HEREIN WITH THAT OF ACTUAL P.O.C. INFORMATION GATHERED IN THE FIELD, IMMEDIATELY NOTIFY THE LANDSCAPE ARCHITECT. SHOULD THE CONTRACTOR FAIL TO VERIFY THE P.O.C. INFORMATION, ANY CHANGES REQUIRED BY LOW PRESSURE OR VOLUME SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR.

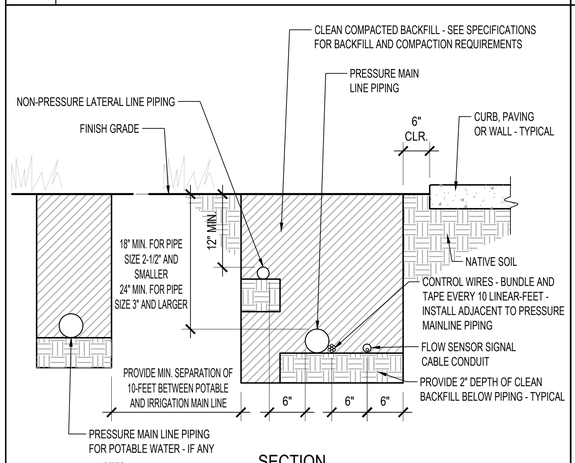
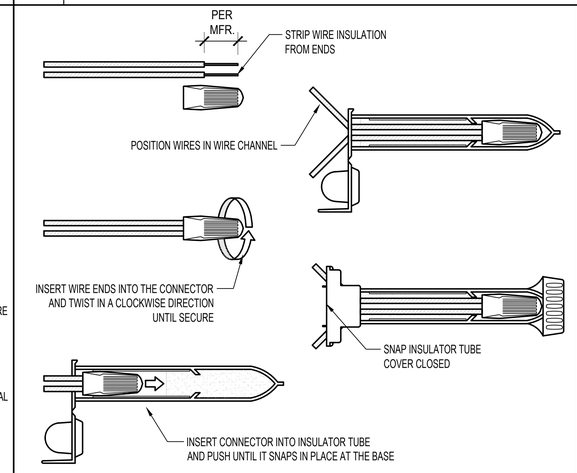
7 POP-UP STREAM ROTOR N.T.S.



P-M-19

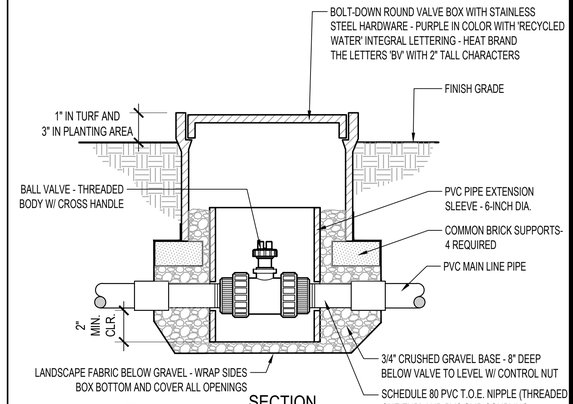
4 SIGNAL CABLE PULL BOX - R/W N.T.S.

P-M-20



1 ELECTRIC CONTROL VALVE - R/W N.T.S.

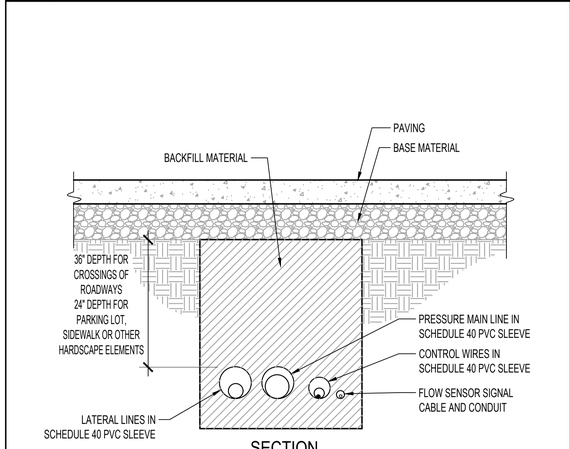
NOTES:
1. LOCATE SIGNAL CABLE WITHIN MAIN LINE AND CONTROL WIRE TRENCH WHERE POSSIBLE.
2. COORDINATE TRENCHING WITH ALL OTHER EXISTING/ NEW UTILITIES AND UNDERGROUND STRUCTURES.



P-M-23

8 TRENCHING - RECYCLED WATER N.T.S.

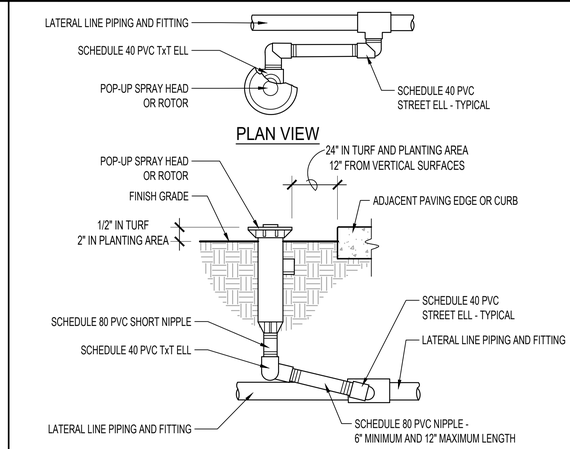
P-M-33



5 3M "DBR/Y-6" WIRE CONNECTOR N.T.S.

NOTE:
1. INSTALL VALVE BOX AND EXTENSION AS REQUIRED TO POSITION VALVE AT MAIN LINE PIPE DEPTH.

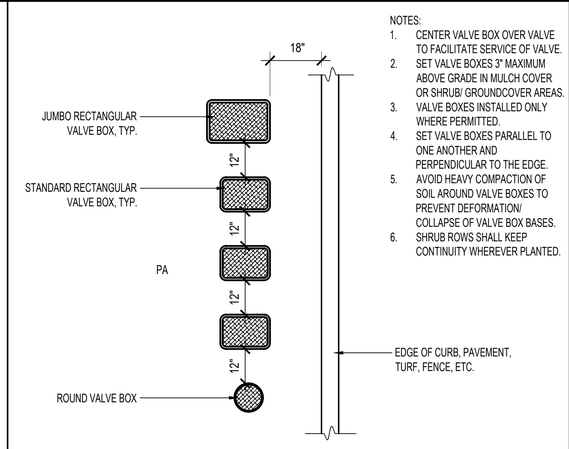
P-M-18



2 BALL VALVE - R/W N.T.S.

NOTES:
1. PIPING TO BE INSTALLED IN ACCORDANCE WITH MANUFACTURERS' INSTALLATION SPECIFICATIONS.
2. MAIN LINE, LATERAL LINES AND CONTROL WIRES SHALL BE SLEEVED BELOW HARDSCAPE ELEMENTS WITH SCHEDULE 40 PVC, 2-TIMES THE DIAMETER OF THE PIPE OR WIRE BUNDLE WIDTH.

P-M-24



9 SLEEVE TRENCHING - RECYCLED WATER N.T.S.

NOTE:
1. USE TEFLON TAPE ON ALL THREADED FITTINGS.

P-M-29

6 POP-UP SPRINKLER N.T.S.

NOTES:
1. CENTER VALVE BOX OVER VALVE TO FACILITATE SERVICE OF VALVE.
2. SET VALVE BOXES 3" MAXIMUM ABOVE GRADE IN MULCH COVER OR SHRUB/ GROUNDCOVER AREAS.
3. VALVE BOXES INSTALLED ONLY WHERE PERMITTED.
4. SET VALVE BOXES PARALLEL TO ONE ANOTHER AND PERPENDICULAR TO THE EDGE.
5. AVOID HEAVY COMPACTION OF SOIL AROUND VALVE BOXES TO PREVENT DEFORMATION/ COLLAPSE OF VALVE BOX BASES.
6. SHRUB ROWS SHALL KEEP CONTINUITY WHEREVER PLANTED.

P-M-32

3 VALVE BOX LAYOUT N.T.S.

AGRONOMIC SOILS TESTING NOTES

1. UPON THE COMPLETION OF DEMOLITION AND GRADING AND PRIOR TO THE INSTALLATION OF THE IRRIGATION SYSTEM, THE CONTRACTOR SHALL BE RESPONSIBLE TO PROVIDE TWO (2) SOIL SAMPLES TAKEN AT TWO (2) SEPARATE LOCATIONS APPROVED BY THE LANDSCAPE ARCHITECT.

TWO (2) SOIL SAMPLES SHALL BE TAKEN AT EACH LOCATION:

SAMPLE ONE: TAKEN AT GROUND LEVEL TO 10" DEEP
SAMPLE TWO: TAKEN AT A DEPTH BETWEEN 24" TO 36" .

EACH SAMPLE SHALL CONTAIN APPROXIMATELY 1 QUART OF SOIL AND BE LABELED PER LOCATION AND DEPTH.

2. EACH SAMPLE SHALL BE TESTED FOR SOIL FERTILITY AND AGRICULTURAL SUITABILITY. SUBMIT SOIL REPORT, INCLUDING RECOMMENDATIONS SOIL PREPARATION FOR BACKFILL MIX AND LAWN INSTALLATION.

A. SOIL TESTING RESULTS SHALL BE SUBMITTED AND APPROVED BY THE LANDSCAPE ARCHITECT.
B. SOIL PREPARATION AND BACKFILL MIX SHALL CONFORM TO THE RECOMMENDATIONS OF THE AGRONOMIC SOILS REPORT.
C. REFER TO PLANTING SPECIFICATIONS FOR SOILS TESTING, SOIL PREPARATION, FERTILIZATION, MULCHING, AND OTHER ADDITIONAL PLANTING INFORMATION. ALL PLANT MATERIAL SHALL BE APPROVED BY THE LANDSCAPE ARCHITECT AND CITY ENGINEER PRIOR TO INSTALLATION.

PRESERVATION / RELOCATION NOTES

1. SEE SHEET L-250 FOR LOCATION OF EXISTING TREES TO BE PROTECTED/DEMO.
2. CONTRACTOR TO CONFIRM HEDGE AND SHRUBS LIMIT TO REMAIN WITH LANDSCAPE ARCHITECT IN FIELD PRIOR TO DEMOLITION OPERATIONS.
3. CONTRACTOR TO CONFIRM TREES TO REMAIN WITH LANDSCAPE ARCHITECT IN FIELD PRIOR TO DEMOLITION OPERATIONS.
4. CONTRACTOR IS RESPONSIBLE FOR THE HEALTH AND CARE OF THE TREES. IN THE EVENT OF DAMAGE OR DEATH OF THE TREE DURING CONSTRUCTION, CONTRACTOR TO REPLACE WITH EQUAL MATCHING SPECIMEN.
5. ALL TREES TO BE HAND WATERED AS NEEDED AND SPRAYED CLEAN OF DUST WEEKLY FOR THE DURATION OF THE PROJECT.

PLANTING NOTES

1. ALL LOCAL, MUNICIPAL, COUNTY AND STATE LAWS, RULES, AND REGULATIONS GOVERNING OR RELATING TO ANY PORTION OF THIS WORK ARE HEREBY INCORPORATED INTO AND MADE PART OF THE PROJECT PLANS AND SPECIFICATIONS; AND THEIR PROVISIONS SHALL BE CARRIED OUT BY THE CONTRACTOR. ADDITIONALLY, ALL WORK SHALL BE DONE IN ACCORDANCE WITH THE APPLICABLE SECTIONS OF THE LATEST EDITION OF THE APWA, STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, ("GREEN BOOK"), AND THE PROJECT SPECIFICATIONS. WHENEVER SPECIAL REQUIREMENTS CONFLICT ON ANY SUBJECT MATTER, THE CITY ENGINEER, OR HIS/HER DESIGNATED REPRESENTATIVE, WILL DETERMINE WHICH SPECIAL REQUIREMENTS AND/OR CODES SHALL GOVERN.

2. ALL EXISTING LANDSCAPE AREAS DAMAGED DURING CONSTRUCTION MUST BE RESTORED TO THEIR ORIGINAL CONDITION AT THE CONTRACTOR'S EXPENSE. RESTORATION OF EXISTING LANDSCAPE AREAS SHALL BE DONE TO THE SATISFACTION OF THE CITY ENGINEER.

3. THE CONTRACTOR SHALL NOTIFY UNDERGROUND SERVICE ALERT OF SOUTHERN CALIFORNIA (DIG ALERT) AT LEAST TWO (2) WORKING DAYS BEFORE DIGGING, EXCAVATING, OR CONSTRUCTION. PHONE 1-800-422-4333 OR 811.

4. THE CONTRACTOR SHALL NOT PROCEED WITH CONSTRUCTION AS SHOWN ON THE PLANS WHEN IT IS OBVIOUS IN THE FIELD THAT UNKNOWN OBSTRUCTIONS, GRADE DIFFERENCES, OR DISCREPANCIES IN AREA CONFIGURATION OR SIZES, OR IN DIMENSIONS EXIST THAT MIGHT NOT HAVE BEEN CONSIDERED DURING THE DESIGN PROCESS. SUCH OBSTRUCTIONS, OR DIFFERENCES, SHOULD BE BROUGHT TO THE ATTENTION OF THE CITY ENGINEER, OR HIS/HER DESIGNATED REPRESENTATIVE. IN THE EVENT THIS NOTIFICATION IS NOT PERFORMED, THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR ANY REVISIONS NECESSARY AND SHALL PERFORM SUCH REVISIONS AT HIS/HER OWN EXPENSE.

5. FINISH GRADE ALL PLANTING AREAS TO ACHIEVE A MINIMUM 2% DRAINAGE AND SMOOTH AND EVEN CONDITION, MAKING SURE THAT NO WATER POCKETS OR IRREGULARITIES REMAIN. REMOVE AND DISPOSE OF ALL SURFACE STONES, ROOTS, WEEDS, DEBRIS, FOREIGN MATERIALS, CLODS, AND ROCKS OVER (1) INCH IN DIAMETER SO THAT AFTER CONDITIONING AND PLANTING THE GRADE IS 1" AT TURF/2" AT PLANTING AREAS BELOW ADJACENT HARDSCAPE EXCEPT ALONG CURB CUT AREAS. CONTRACTOR IS TO ENSURE A SMOOTH TRANSITION FROM EXISTING TO NEW GRADE.

6. SOIL TO BE REMOVED IN PLANTING AREA IS TO BE DISPOSED OF LEGALLY OFF-SITE.

7. ALL NURSERY STOCK IS TO COMPLY TO THE INDUSTRY STANDARD IN TERMS OF HEALTH, STRUCTURE, HEIGHT/WIDTH, ROOT CONDITION AS OUTLINED IN THE PDF LOCATED ONLINE HERE: https://www.urbantree.org/PDF/NURSERYTREESPECS1.PDF ANY PLANT MATERIAL THAT DOES NOT COMPLY IS SUBJECT TO REJECTION BY THE CITY OR LANDSCAPE ARCHITECT AT NO COST TO THE OWNER. ANY REJECTED MATERIAL MUST BE REPLACED WITH COMPLIANT MATERIAL AT THE COST OF THE CONTRACTOR.

8. PROVIDE MATCHING FORMS AND SIZES FOR ALL PLANT MATERIAL WITHIN EACH SPECIES AND SIZE DESIGNATED ON THE DRAWINGS, UNLESS OTHERWISE NOTED BY THE LANDSCAPE ARCHITECT PRIOR TO PROCUREMENT.

9. STAKE TREES AS INDICATED PER TREE PLANTING DETAIL.

10. THE CONTRACTOR IS RESPONSIBLE FOR COUNT VERIFICATION AND IS TO SUPPLY THE QUANTITIES DELINEATED GRAPHICALLY ON PLANS.

11. PLANT ESTABLISHMENT AND MAINTENANCE PERIOD SHALL BEGIN IMMEDIATELY AFTER INSPECTION AND ACCEPTANCE OF THE WORK BY THE CITY ENGINEER, OR HIS/HER DESIGNATED REPRESENTATIVE. PLANT ESTABLISHMENT AND MAINTENANCE PERIOD SHALL BE FOR A DURATION STATED IN THE SPECIFICATIONS. PLANT ESTABLISHMENT AND MAINTENANCE SHALL BE PERFORMED PER THE PROJECT SPECIFICATIONS.

12. SUPPLEMENTAL HAND WATERING MAY BE REQUIRED DURING THE MAINTENANCE PERIOD TO ESTABLISH PLANT MATERIAL.

13. PLACE WOOD CHIP MULCH IN ALL PLANTED AREAS AT A MINIMUM DEPTH OF 3-INCHES. MULCH TO BE SHREDDED BARK MULCH, DARK BROWN AESTHETIC APPEARANCE DO NOT INSTALL MULCH WITHIN A 6" DIA. OF ANY TREE OR SHRUB TRUNK. CONTRACTOR TO PROVIDE A SAMPLE MULCH FOR THE REVIEW AND APPROVAL PRIOR TO INSTALLATION. REFER TO SPECIFICATIONS.

CITY OF LAGUNA HILLS
NOTICE INVITING BIDS FOR CONSTRUCTION OF

MACKENZIE PARK REHABILITATION

NOTICE IS HEREBY GIVEN that sealed bids for the **MACKENZIE PARK REHABILITATION** ("Project") in the City of Laguna Hills will be received at the Office of the City Engineer of the 24035 El Toro Road, Laguna Hills, until **3:30 p.m. on Tuesday, June 2, 2026**, at which time they will be publicly opened and read aloud.

PRE-BID MEETING: A pre-bid meeting will be held at the Project site on **Tuesday, May 19, 2026 at 1:00 p.m.** ***Site Address: 25222 MacKenzie Street, Laguna Hills, California 92653.*** The meeting is **not mandatory** but attendance is highly encouraged.

DESCRIPTION OF THE WORK: In general, the work is comprised of public works construction including playground renovation, ada improvements, drinking fountain replacement and new park sign, and other miscellaneous improvements as shown on the plans and as required to complete the work.

AWARD OF CONTRACT: The City reserves the right after opening bids to reject any or all bids, to waive any informality (non-responsiveness) in a bid, or to make award to the lowest responsive, responsible bidder**,** and reject all other bids, as it may best serve the interest of the City. Within three (3) business days of bid opening, contractor must submit a revised bid bond with numerical dollar values, both in words and with digits of bid amount. Within five (5) working days after the date of the Notice of Apparent Low Bidder, the successful bidder will be required to submit required Contract Agreement and Insurance. Within ten (10) working days after the date of the Notice of Award, the successful bidder will be required to submit Bonds (Faithful Performance and Material and Labor), Construction Schedule, Traffic Control Plan, and Water Pollution Control Plan.

CONTRACTOR'S LICENSE CLASSIFICATION: The Contractor shall possess a valid **Class A Contractor's License**, or a combination of Class C Contractor's Licenses as necessary to perform the work, at the time of submitting bids, in accordance with provisions of Chapter 9, Division III of the California Business and Professions Code.

WAGE RATE REQUIREMENTS: The wage rates applicable to this Project are the State of California Department of Industrial Relations prevailing rates of per diem wages. In accordance with the provisions of Sections 1773.2 of the California Labor Code, copies of the general prevailing rate of per diem wages as determined by the State Director of Industrial Relations are available at City Hall, which shall be made available to any interested party upon request, or on the Internet at the State Department of Industrial Relations website (www.dir.ca.gov) under Statistics and Research. It shall be mandatory upon the Contractor to whom the contract is awarded and upon any subcontractor to pay not less than said specified rates to all workers employed by them in the execution of the contract. A copy of said rates shall be posted at each job site during the course of construction. The Contractor and all subcontractors shall comply with all provisions of the California Labor Code relating to prevailing wage rates, including Sections 1770–1781.

This Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. The Department of Industrial Relations shall monitor and enforce compliance with applicable prevailing wage requirements for the contract. The reporting requirements may be found at https://www.dir.ca.gov/Public-Works/Contractors.html. The Contractor is responsible for complying with all requirements of the Department of Industrial Relations, including filing electronic payroll reports.

A contractor or subcontractor will not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an

unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded.

RETAINAGE FROM PAYMENTS: The Contractor may elect to receive 100 percent of payments due under the Contract Documents from time to time, without retention of any portion of the payments by the City, by depositing securities of equivalent value with the City in accordance with the provisions of Section 22300 of the Public Contract Code. If the Contractor chooses not to exercise its rights under Public Contract Code Section 22300, the full five percent (5%) retention will be deducted from all payments. The final retention will be authorized for payment thirty-five (35) days after the date of recordation of the Notice of Completion, if no stop notices have been filed. The City may withhold from release of the final retention amounts authorized under Public Contracts Code Section 7107 and/or 125% of amounts identified in any Stop Notices received by the City.

OBTAINING OR INSPECTING CONTRACT DOCUMENTS: Contract Documents may be inspected without charge at the Public Works Department, City Hall, 24035 El Toro Road, Laguna Hills, California 92653. Contract Documents are available in portable document form (PDF) on the City's website https://lagunahillsca.gov/bids.aspx. It is the contractor's responsibility to ensure they are on the City's Plan Holder's List and they obtain any addendums or clarifications that are issued by the City on the City's website prior to submitting a bid. For any questions regarding acquisition of Contract Documents, contact Joe Ames at JAmes@lagunahillsca.gov.

Dated this 28th day of April 2026.

CITY OF LAGUNA HILLS

INSTRUCTIONS TO BIDDERS
FOR

MACKENZIE PARK REHABILITATION

1. PROPOSAL FORMS

Bids shall be submitted in writing on the Proposal forms provided by the City of Laguna Hills (hereinafter "CITY" or "City"). All blank spaces in the bid forms must be correctly filled in and all information requested therein must be clearly and legibly set forth in the manner and form indicated. All spaces for bid prices and lump sum price for which the bid is made, must be filled in, in both words and figures. All prices and notations must be in ink or typewritten. No erasures will be permitted. Mistakes may be crossed out and corrections typed or written in ink adjacent thereto and must be initialed by the person or persons signing the bid. Bidder acknowledges and agrees that by failing to complete the bid forms in their entirety, as set forth above, the CITY may find the bidder's entire bid non-responsive and may cause the rejection of the bidder's proposal at the discretion of the CITY.

2. PROPOSAL GUARANTEE (BID BOND)

In accordance with Public Contract Code Section 20170, proposals must be accompanied by a proposal guarantee consisting of either cash, a cashier's check, a certified check or bid bond payable to the CITY in the minimum amount of ten percent (10%) of the total amount bid. Any proposal not accompanied by such a guarantee will not be considered. **IF A BIDDER TO WHOM A CONTRACT IS AWARDED FAILS OR REFUSES TO EXECUTE THE CONTRACT DOCUMENTS OR FURNISH THE REQUIRED INSURANCE POLICIES AND BONDS AS SET FORTH IN THOSE DOCUMENTS, THE PROPOSAL GUARANTEE SHALL BE FORFEITED TO THE CITY**. The proposal guarantees of all bidders will be held until the successful bidder has properly executed all Contract Documents.

3. NON-COLLUSION AFFIDAVIT

Bidder shall declare that the only persons or parties interested in the proposal as principals are those named therein; that no officer, agent, or employee of the CITY is personally interested, directly or indirectly, in the proposal; that the proposal is made without connection to any other individual, firm, or corporation making a bid for the same work; and that the proposal is in all respects fair and without collusion or fraud. The Non-Collusion Affidavit shall be executed and submitted with the proposal.

4. PROPOSAL BID SHEET

Bidders shall give unit prices for each and all of the items set forth. No aggregate bids will be considered. The bidder shall set forth for each item of work, in clearly legible figures, a unit item price and a total for the item in the respective spaces provided for this purpose. The quantities listed in the Bid sheets are supplied to give an indication of the general scope of work, but the accuracy of figures is not guaranteed and the bidder shall make his own estimates from the drawings. In case of a variation between the unit price and the totals shown by the bidder, the unit price will be considered to be the bid.

5. DELIVERY OF PROPOSAL

Proposals may be mailed or delivered by messenger. However, it is the bidder's responsibility alone to ensure delivery of the proposal to the hands of the CITY's designated official prior to the bid opening time deadline set forth in the "Notice Inviting Sealed Bids." Late proposals will not be considered and will be returned to the bidder unopened. Proposals shall be enclosed in a sealed envelope plainly marked on the outside, "MACKENZIE PARK REHABILITATION PROJECT- DO NOT OPEN WITH REGULAR MAIL."

6. WITHDRAWAL OF PROPOSALS

A proposal may be withdrawn by a written request signed by the bidder. Such requests must be delivered to the CITY's designated official prior to the bid-opening time deadline set forth in the "Notice Inviting Sealed Bids". The withdrawal of a proposal will not prejudice the right of the bidder to submit a new proposal, provided there is time remaining to do so. Proposals may not be withdrawn after the bid opening without forfeiture of the proposal guarantee, except as authorized by state law. .

7. NONRESPONSIVE PROPOSALS

Unauthorized conditions, limitations, or provisions attached to a proposal will render it nonresponsive and may cause its rejection. The completed proposal forms shall be without inter-lineation, alterations, or erasures. Alternative proposals will not be considered unless specifically requested. No oral, telegraphic, or telephonic proposal, modification, or withdrawal will be considered.

8. TAXES

No mention shall be made in the proposal of Sales Tax, Use Tax, or any other tax, as all amounts bid will be deemed and held to include any such taxes that may be applicable. Bidder acknowledges and agrees that CITY shall not be responsible for the payment of any increase in Sales Tax, Use Tax, or any other tax that takes effect after award.

9. DISQUALIFICATION OF BIDDERS

In the event that any bidder acting as a prime contractor has an interest in more than one proposal, all such proposals will be rejected, and the bidder will be disqualified. This restriction does not apply to subcontractors or suppliers who may submit quotations to more than one bidder.

No contract will be executed unless the bidder is licensed in accordance with the provisions of the Business and Professions Code.

10. INTERPRETATION OF PLANS AND DOCUMENTS

If any person contemplates submission of a bid for the proposed contract and is in doubt as to the true meaning of any part of the plans, specifications or other proposed contract documents, or finds discrepancies in, or omissions from, the drawings or specifications, he or she may submit to the City Engineer a written request for an interpretation or correction thereof five (5) working days prior to the scheduled bid opening. The person submitting the request will be responsible for its prompt delivery. Any interpretation or correction of the proposed

documents shall be made only by addendum duly issued and copy of such addendum will be mailed or delivered to each person receiving a set of such documents. The City Engineer will not be responsible for any other explanation or interpretations of the proposed documents.

11. ADDENDA OR BULLETINS

The effect of all addenda to the Contract Documents shall be considered in the bid, and said addenda shall be made a part of the Contract Documents and shall be returned with them. Before submitting a bid, each bidder shall confirm as to whether or not any addenda have been issued, and failure to cover in this bid any such addenda issued, may render bid non-responsive and may result in its rejection by the CITY.

12. LEGAL RESPONSIBILITIES

All proposals must be submitted, filed, made, and executed in accordance with State and Federal laws relating to bids for contracts of this nature whether the same are expressly referred to herein or not.

Any bidder submitting a proposal shall by such action thereby agree to each and all of the terms, conditions, provisions, and requirements set forth, contemplated, and referred to in the Plans, Specifications, and Contract Documents, and to full compliance therewith.

13. AWARD OF CONTRACT

Following a review of the bids, the CITY shall determine whether to award the contract or to reject all bids. The award of contract, if made, will be to the lowest responsive-responsible bidder as determined solely by the CITY. At the time of contract award, the successful bidder shall hold a Class A Contractor's License, or a combination of Class C Contractor's License(s), as required to perform the work, issued by the State of California. Additionally, the CITY reserves the right to reject any or all proposals, to accept any bid or portion thereof, to waive any irregularity, and to take the bids under advisement for the period of time stated in the "Notice Inviting Sealed Bids", all as may be required to provide for the best interests of the CITY. In no event will an award be made until all necessary investigations are made as to the responsibility and qualifications of the bidder to whom the award is contemplated.

Within three (3) days of bid opening contractor must submit a revised bid bond with numerical dollar values, both in words and with digits of bid amount. Within five (5) working days after the date of the Notice of Apparent Low Bidder, the successful bidder will be required to submit required Contract Agreement and Insurance. Within ten (10) working days after the date of the Notice of Award, the successful bidder will be required to submit Bonds (Faithful Performance and Material and Labor). Submission of these documents shall be at the Low Bidder's sole cost and expense and shall not be made reimbursable by City. Award of Contract, if made, shall be solely the determination of the City Council.

No bidder may withdraw its proposal for a period of forty-five (45) days after the time set for opening thereof. However, the CITY will return all proposal guarantees within ten (10) days after the award of the contract or rejection of the bids, as the case may be, to the respective bidders whose proposals they accompany.

/

/

14. PREVAILING WAGE RATES

The wage rates applicable to this Project are the State of California Department of Industrial Relations prevailing rates of per diem wages. In accordance with the provisions of Sections 1773.2 of the California Labor Code, copies of the general prevailing rate of per diem wages as determined by the State Director of Industrial Relations are available at City Hall, which shall be made available to any interested party upon request, or on the Internet at the State Department of Industrial Relations website (www.dir.ca.gov) under Statistics and Research.

It shall be mandatory upon the Contractor to whom the Contract is awarded and upon any subcontractor to pay not less than said specified rates to all workers employed by them in the execution of the Contract. A copy of said rates shall be posted at each job site during the course of construction. The Contractor and all subcontractors shall comply with all provisions of the California Labor Code relating to prevailing wage rates, including Sections 1770–1781.

This Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. The Department of Industrial Relations shall monitor and enforce compliance with applicable prevailing wage requirements for this Agreement. The reporting requirements may be found at https://www.dir.ca.gov/Public-Works/Contractors.html. The Contractor is responsible for complying with all requirements of the Department of Industrial Relations, including filing electronic payroll reports.

A contractor or subcontractor will not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded. Contractor and its subcontractors shall maintain active registration with the Department of Industrial Relations for the duration of the Project.

A contractor or subcontractor will not be qualified to bid on, be listed in a bid proposal, subject to Section 6109 of the public Contract Code, or engage in the performance of any contract for public work on a public works project if the contractor or subcontractor is ineligible to perform work pursuant to Section 1777.1 or 1777.7 of the Labor Code.

The CITY will not recognize any claim for additional compensation because of the payment by the Contractor of any wage rate in excess of the prevailing wage rate or the Federal Minimum Wage Rate (whichever is greater) as set forth in the contract. The possibility of wage increases is one of the elements to be considered by the bidder in determining his bid, and will not under any circumstances be considered as the basis of a claim against the CITY on the Contract.

The Contractor and subcontractors shall comply with Section 1777.6 of the Labor Code which stipulates that it shall be unlawful to refuse to accept otherwise qualified employees as registered apprentices on any public works on any basis listed in Government Code Section

12940(a), as those bases are defined in Government Code Sections 12926 and 12926.1, except as provided in Labor Code Section 3077 and Government Code Section 12940.

15. WORKERS' COMPENSATION CERTIFICATE

Section 3700 of the Labor Code requires that every employer shall secure the payment compensation by either being insured against liability to pay compensation with one or more insurers or by securing a certificate of consent to self-insure from the State Director of Industrial Relations.

In accordance with this section and with Section 1861 of the Labor Code, the Contractor shall sign a Compensation Insurance Certificate which is included with the Contract Agreement, and submit same to CITY along with the other required Contract Documents, prior to performing any work. Reimbursement for this requirement shall be considered as included in the various items of work.

16. CLAYTON ACT AND CARTWRIGHT ACT

In accordance with Section 7103.5 of the Public Contract Code, in entering into a public works contract or a subcontract to supply goods, services or materials pursuant to a public works contract, the Contractor or subcontractor offers and agrees to assign to CITY all rights, and interest in and all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to the Contractor, without further acknowledgment by the parties.

17. SUBLETTING AND SUBCONTRACTING.

Pursuant to the Subletting and Subcontracting Fair Practices Act (commencing with Section 4100 of the Public Contract Code), bidders are required to list in their proposal the name business address, California contractor license number, and public works contractor registration number issued pursuant to Section 1725.5 of the Labor Code of each subcontractor who will perform work or labor or render services in or about the construction of the work or improvement or a subcontractor who specially fabricates and installs a portion of the work or improvement according to detailed drawings contained in the Plans and Specifications in excess of 1/2 of 1% of this prime Contractor's total bid or $10,000, whichever is greater. If a subcontractor's California contractor license number or public works contractor registration number are submitted incorrectly in the bid, it will not be grounds for filing a bid protest or grounds for considering the bid nonresponsive if the corrected subcontractor's California contractor license number is submitted to CITY within 24 hours after the bid opening

If the bidder fails to list a subcontractor for a portion of work or if the bidder lists more than one subcontractor of the same portion of work in excess of 1/2 of 1% of the total bid or $10,000, whichever is greater, the bidder agrees that it is fully qualified to perform that portion of work itself, and that the bidder shall perform that portion of work itself. If after award of the contract, the bidder actually subcontracts that portion of work, except as provided in Public Contract Code Section 4107 or 4109, the bidder shall be subject to the penalties listed in

Section 4111 of the Public Contract Code. It is the CITY's intent for the Subletting and Subcontracting Fair Practices Act to apply to all phases of the work.

/

18. SUBSTITUTION OF SECURITIES

In conformance with Public Contract Code Section 22300, which is incorporated herein by this reference, the Contractor may substitute securities for any monies withheld by the CITY to ensure performance under the Contract or, in the alternative, may request payment of retention earned directly to an escrow agent.

At the request and expense of the Contractor, the Contractor has the option to deposit securities, which have been approved by the CITY, with a State or Federally chartered bank as the escrow agent or require the City to deposit 5% of each progress payment with the escrow agent. Said securities will be used as a substitute for retention earnings required to be withheld by the CITY, pursuant to the construction contract. Said securities shall have no obligation to any other construction contract for substitution of securities in lieu of retention. When the Contractor deposits the CITY approved securities with the escrow agent, the escrow agent shall notify the CITY within 10 calendar days of the deposit. Said securities shall be evaluated quarterly by the escrow agent to verify the current market value. If the current market value of said securities falls below the required amount, the escrow agent shall notify the Contractor and require additional securities and/or cash to be submitted for CITY approval, and be held in the escrow account to meet the Contractor's obligations. The escrow agent shall hold said securities until such time as the escrow agent receives written notification from the CITY that the Contractor has satisfactorily completed his Contract obligations.

The type of securities deposited and the method of release shall be approved by the City Attorney's office.

If the Contractor chooses not to exercise its rights under Public Contract Code Section 22300, the full five percent (5%) retention will be deducted from all payments. The final retention will be authorized for payment thirty-five (35) days after the date of recordation of the Notice of Completion, if no stop notices have been filed. The CITY may withhold from release of the final retention amounts authorized under Public Contracts Code Section 7107 and/or 125% of amounts identified in any Stop Notices received by the CITY.

19. BID DOCUMENT/PROPOSAL EDITS

No Proposer shall modify, edit, interlineate or change any portion of the Bid Proposal pages without the Agency’s written issuance of a formal Addenda. Any Proposer that modifies, edits, interlineates or changes the Bid Proposal sheets with unauthorized changes shall be deemed to be a non-responsive Bidder.

BIDDER'S NAME:_____

CITY OF LAGUNA HILLS

PROPOSAL
FOR

MACKENZIE PARK REHABILITATION

TO **CITY OF LAGUNA HILLS**, as CITY:

In accordance with CITY's "Notice Inviting Sealed Bids", the undersigned BIDDER hereby proposes to furnish all materials, equipment, tools, labor, and incidentals required for the above stated project as set forth in the Plans, Specifications, and Contract Documents therefore, and to perform all work in the manner and time prescribed therein.

BIDDER declares that this proposal is based upon careful examination of the work site, Plans, Standard Specifications, Notice Inviting Sealed Bids, Instructions to Bidders, Proposal Documents, General Specifications, Special Provisions and Contract Documents. If this proposal is accepted for award, BIDDER agrees to enter into a contract with CITY at the unit and/or lump sum prices set forth in the following Proposal Bid Sheet. BIDDER understands that failure to enter into a contract in the manner and time prescribed will result in forfeiture to CITY of the Bid Security accompanying this proposal.

BIDDER understands that a bid is required for the entire work, that the estimated quantities set forth in the Proposal Bid Sheet are solely for the purpose of comparing bids, and that final compensation under the contract will be based upon the actual quantities of work satisfactorily completed. It is agreed that the unit and/or lump sum prices bid include all appurtenant expenses, taxes, royalties, and fees. In the case of discrepancies in the amounts bid, unit prices shall govern over extended amounts.

BIDDER agrees and acknowledges that it is aware of the provisions of Section 3700 of the Labor Code, which requires every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and that the BIDDER will comply with such provisions of that code before the commencement of any work under this Contract, if awarded.

BIDDER certifies that in all previous contracts or subcontracts, all reports which may have been due under the requirements of any CITY, State, or Federal equal employment opportunity orders have been satisfactorily filed, and that no such reports are currently outstanding.

BIDDER declares that the only persons or parties interested in this proposal as principals are those named herein; that no officer, agent, or employee of the CITY is personally interested, directly or indirectly, in this proposal; that this proposal is made without connection to any other individual, firm, or corporation making a bid for the same work; and that this proposal is in all respects fair and without collusion or fraud.

BIDDER certifies that affirmative action has been taken to seek out and consider disadvantaged business enterprises for those portions of the work to be subcontracted, and that such affirmative actions have been carefully documented, that said documentation is open to inspection, and that said affirmative action will remain in effect for the life of any contract awarded hereunder.

Furthermore, BIDDER certifies that affirmative action will be taken to meet all equal employment opportunity requirements of the contract documents.

BIDDER'S BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS,_____ (the "Principal") has submitted a
(NAME OF BIDDER)
bid (the "Bid") to the City of Laguna Hills, California (the "City") for construction of the

_____(the "Work"), as specifically set
(NAME OF PROJECT AND/OR DESCRIPTION OF WORK)
forth in documents entitled_____,
(TITLE OF BID PACKAGE)
Dated:_____, 20____(the "Specifications").

AND WHEREAS, the Principal is required to provide bidder's security in an amount equal to at least ten percent (10%) of the amount of the Bid and has chosen to satisfy this obligation by providing this bond.

NOW, THEREFORE, we, the Principal, and_____ (the
(NAME OF SURETY)
"Surety"), an admitted surety insurer in the State of California, are held firmly bound unto the City of Laguna Hills in the sum of_____ and_____/100 DOLLARS ($_____), lawful money of the United States of America, for the payment of which sum, well and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents, this amount being ten percent (10%) of the total amount of the Bid.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

1. If (a) the City accepts the Bid and awards the Principal a contract for the Work, and (b) within the time and manner required under the Specifications or by law, after the prescribed forms are presented to the Principal for signature, the Principal executes a written contract for construction of the Work in accordance with the Bid and delivers the required faithful performance and payment bonds and insurance policies, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.
2. The Surety, for value received, hereby stipulates and agrees that the obligation of said Surety and its bond shall be in no way impaired or affected by any extension of the time within

Bond Amount $_____
Bond Number_____

which the City may accept such Bid; and said Surety does hereby waive notice of any such extension.

3. In the event suit is brought upon this bond by the City and judgment is recovered, as part of the obligation secured hereby and in addition to the face amount specified in this bond, the Surety shall pay all costs incurred by the City in such suit, including reasonable attorneys' fees to be fixed by the court.

IN WITNESS WHEREOF, this instrument has been duly executed by the Principal and Surety above named on the_____ day of_____, 20_____.

CITY OF LAGUNA HILLS

CONTRACT AGREEMENT
FOR

MACKENZIE PARK REHABILITATION

THIS CONTRACT AGREEMENT (hereinafter "Agreement" or "Contract" or "Contract Agreement") is made and entered into for the above stated Project this_____ day of _____, 20____, BY AND BETWEEN THE **CITY OF LAGUNA HILLS**, as CITY, and _____, as CONTRACTOR.

WITNESSETH that CITY and CONTRACTOR have mutually agreed as follows:

ARTICLE I

The contract documents for the aforesaid Project shall consist of the Notice Inviting Sealed Bids, Instructions to Bidders, Proposal Documents, Contract Documents, General Specifications, Standard Specifications, Special Provisions, Plans, and all referenced specifications, details, standard drawings, and all appendices attached hereto, together with this Contract Agreement and all required bonds, insurance coverage, permits, notices, and affidavits; and also including any and all addenda or supplemental agreements clarifying, amending, or extending the work contemplated as may be required to ensure its completion in an acceptable manner (hereinafter collectively the "Contract Documents"). All of the provisions of said Contract Documents are attached hereto and are incorporated by reference herein and made a part of this Contract Agreement as though fully set forth herein.

ARTICLE II

For and in consideration of the payments and agreements to be made and performed by CITY, CONTRACTOR agrees to furnish all materials and perform all work required for the above stated project, and to fulfill all other obligations as set forth in the aforesaid Contract Documents.

ARTICLE III

CONTRACTOR agrees to receive and accept the prices set forth in the Proposal as full compensation for furnishing all materials, performing all work, and fulfilling all obligations hereunder. Said compensation shall cover all expenses, losses, damages, and consequences arising out of the nature of work during its progress or prior to its acceptance including those for well and faithfully completing the work and the whole thereof in the manner and time specified in the aforesaid Contract Documents; and also including those arising from actions of the elements, unforeseen difficulties or obstructions encountered in the prosecution of the work, suspension or discontinuance of the work, and all other unknowns or risks of any description connected with the work. Notwithstanding any provisions of this Agreement to the contrary, CITY and CONTRACTOR mutually agree that CITY's maximum cumulative payment obligation hereunder (including CONTRACTOR's profit) shall be Dollars ($0.00), which shall include all amounts payable to CONTRACTOR for its subcontracts, leases, materials and costs arising from, or due to termination of, this Agreement.

ARTICLE IV

CITY hereby promises and agrees to employ, and does hereby employ, CONTRACTOR to provide the materials, do the work, and fulfill the obligations according to the terms and conditions

herein contained and referred to, for the prices aforesaid, and hereby contracts to pay the same at the time, in the manner, and upon the conditions set forth in the Contract Documents.

ARTICLE V

CONTRACTOR acknowledges the provisions of the Labor Code requiring every employer to be insured against liability for workers' compensation, or to undertake self-insurance in accordance with the provisions of that code, and certifies compliance with such provisions.

ARTICLE VI

CONTRACTOR affirms that the signatures, titles, and seals set forth hereinafter in execution of this Agreement represent all individuals, firm members, partners, joint ventures, and/or corporate officers having a principal interest herein.

ARTICLE VII

CONTRACTOR hereby represents and warrants that it will comply with all of the provisions of the Federal Immigration and Nationality Act, 8 U.S.C. Section 1101, *et seq*., as amended, and in connection therewith, shall not employ unauthorized aliens as defined therein. Should CONTRACTOR so employ such unauthorized aliens for the performance of any work and/or services under this Agreement, and should any liability or sanctions be imposed against CITY for such use of unauthorized aliens, CONTRACTOR hereby agrees to reimburse CITY for any and all liabilities, actions, suits, claims, demands, losses, costs, judgments, arbitration awards, settlements, damages, demands, orders, or penalties which arise out of or are related to such employment, together with any and all costs, including attorneys' fees, incurred by CITY.

ARTICLE VIII

To the fullest extent permitted by law, CONTRACTOR shall defend (at CONTRACTOR's sole cost and expense), indemnify, protect, and hold harmless CITY, its elected and appointed officials, officers, employees, agents, and volunteers (collectively the "Indemnified Parties"), from and against any and all liabilities, actions, suits, claims, demands, losses, costs, judgments, arbitration awards, settlements, damages, demands, orders, penalties, and expenses including legal costs and attorney fees (collectively "Claims"), including but not limited to Claims arising from injuries to or death of persons (CONTRACTOR's employees included), or for damage to property, including property owned by CITY, which Claims arise out of, pertain to, or are related to CONTRACTOR's performance under the Agreement. Under no circumstances shall the insurance requirements and limits set forth in this Agreement be construed to limit CONTRACTOR's indemnification obligation or other liability hereunder. Notwithstanding the foregoing, such obligation to defend, hold harmless, and indemnify the CITY, its elected and appointed officials, officers, employees, agents, and volunteers, shall not apply to such claims or liabilities arising from the sole or active negligence or willful misconduct of CITY.

ARTICLE IX

CONTRACTOR shall be familiar with, observe, and comply at all times during the term of this Agreement with any work rules for contractors as may be established and promulgated by the City Manager, which work rules shall be additional terms and conditions for providing the work and services to the CITY pursuant to this Agreement, as may be updated and/or amended from time to time at the sole discretion of the City Manager.

FAITHFUL PERFORMANCE BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, on_____, the City of Laguna Hills, California
(DATE OF AWARD)
("City") awarded a public works contract (the "Contract"), delineated as Contract No._____,

for the_____, as
(NAME OF PROJECT AND/OR DESCRIPTION OF WORK)

specified in the Contract , to_____, a
(NAME OF CONTRACTOR)

_____ hereby designated as the "Principal",
(CONTRACTOR ENTITY TYPE i.e., INC, LLC, ETC)
which Contract is attached hereto, and which Contract and all documents incporated thereinby reference are expressly incorporated into this bond by reference.

AND WHEREAS, the Principal is required under the terms of the Contract to furnish a bond for the faithful performance of the Contract.

NOW, THEREFORE, we, the Principal, and_____ (the
(NAME OF SURETY)
"Surety"), an admitted surety insurer in the State of California, are held firmly bound unto the City of Laguna Hills in the sum of_____ and_____/100 DOLLARS ($_____), lawful money of the United States of America, for the payment of which sum, well and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

1. If the Principal, its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly do and perform all of the covenants and obligations of the Contract, including the provisions for liquidated damages in said Contract, and including any and all amendments, supplements, and alterations made to the Contract as provided therein, on the Principal's part to be done and performed at the times and in the manner specified in the Contract, and shall indemnify and save harmless the City, its officers and agents as specified in the Contract, then this obligation shall be null and void, otherwise it shall be and remain in full force and effect;
2. In the event the Principal fails to fully perform all requirements in accordance with the terms and conditions of the Contract, then the Surety shall enforce performance by the Principal or shall pay the City for the same in an amount not exceeding the amount specified in this bond.3. In the event suit is brought upon this bond by the City and judgment is recovered, as part of the obligation secured hereby and in addition to the face amount specified in this bond, the

Surety shall pay all costs incurred by the City in such suit, including reasonable attorneys' fees to be fixed by the court.

4. The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alterations, additions, omissions or other modifications to the terms of the Contract, or in the work to be performed or the material to be furnished under the Contract, or in the specifications or plans, whether or not made pursuant to the terms of the Contract, shall in any manner release either the Principal or Surety or affect the Surety's obligations on this bond, and it does hereby waive notice of any such changes, extensions, alterations, additions, omissions or other modifications.

PAYMENT (LABOR AND MATERIAL) BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, on _____ (DATE OF AWARD), the City of Laguna Hills, California ("City") awarded a public works contract (the "Contract"), delineated as Contract No._____, for the _____ (NAME OF PROJECT AND/OR DESCRIPTION OF WORK), as specified in the Contract , to _____ (NAME OF CONTRACTOR), a _____ (CONTRACTOR ENTITY TYPE i.e., INC, LLC, ETC) hereby designated as the "Principal", which Contract is attached hereto, and which Contract and all documents incporated thereinby reference are expressly incorporated into this bond by reference.

AND WHEREAS, the Principal is required under the terms of the Contract to give this bond in connection with the execution of the Contract.

NOW, THEREFORE, we, the Principal, and _____ (NAME OF SURETY) (the "Surety"), an admitted surety insurer in the State of California, are held firmly bound unto the City of Laguna Hills in the sum of _____ and _____/100 DOLLARS ($_____), lawful money of the United States of America, for the payment of which sum, well and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

1. If the Principal, or its subcontractors, or their respective heirs, executors, administrators, successors or assigns, shall fail to pay (a) any of the persons named in Section 9100 of the California Civil Code, (b) any amounts due under the California Unemployment Insurance Code with respect to work or labor performed under the Contract, or (c) any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of the Principal and its subcontractors pursuant to Section 13020 of the California Unemployment Insurance Code with respect to such work or labor, then the Surety shall pay for the same, in an aggregate amount not exceeding the sum specified in this bond. In case suit is brought upon this bond, the Surety will pay reasonable attorney's fees to be fixed by the court.
2. This bond shall inure to the benefit of any of the persons named in Section 9100 of the California Civil Code so as to give a right of action to such persons or their assigns in any suit brought upon this bond.

3. The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alterations, additions, omissions or other modifications to the terms of the Contract, or in the work to be performed or the material to be furnished under the Contract, or in the specifications or plans, whether or not made pursuant to the terms of the Contract, shall in any manner release either the Principal or Surety or affect the Surety's obligations on this bond, and it does hereby waive notice of any such changes, extensions, alterations, additions, omissions or other modifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the Principal and Surety above named on the_____ day of_____, 20_____.

COMPENSATION INSURANCE CERTIFICATE

Pursuant to Section 1861 of the State Labor Code, each contractor to whom a public works contract has been awarded shall sign the following certificate and shall submit same to the City prior to performing any work on the contract:

"*I am aware of the provisions of Section 3700 of the Labor Code which requires every employer to be insured against liability for Workers' Compensation or to undertake self-insurance in accordance with the provisions of that Code, and I will comply with such provisions before commencing the performance of work of this contract*."

Section 3700 of the Labor Code reads as follows:

"Every employer except the State shall secure the payment of compensation in one or more of the following ways:

"(a) By being insured against liability to pay compensation in one or more insurers duly authorized to write compensation insurance in this state.

(b) By securing from the Director of Industrial Relations a certificate of consent to self-insure, which may be given upon furnishing proof satisfactory to the Director of Industrial Relations of ability to self-insure and to pay any compensation that may become due to his employee."

COMPENSATION INSURANCE CERTIFICATE

TO BE SUBMITTED WITH CONTRACT

CITY OF LAGUNA HILLS

GENERAL SPECIFICATIONS
FOR

MACKENZIE PARK REHABILITATION

SCOPE OF WORK

The work to be performed and completed by Contractor consists of playground renovation, ada improvements, drinking fountain replacement and new park sign, and all other incidental work in this specification document.

LOCATION OF WORK

The Project is located at 25222 MacKenzie St, Laguna Hills, CA 92653, as shown on the plans.

TIME OF COMPLETION

The Contractor shall complete all work in every detail within 60 working days after the date of the Notice to Proceed.

TRAFFIC REQUIREMENTS

The Contractor shall provide delineation in accordance with the latest updated version of the California Manual on Uniform Traffic Control Devices (MUTCD). The Contractor shall schedule the order of his work such that no travel lanes are closed before 8:30 A.M. or after 4:30 P.M. daily. A minimum of one through travel lane and all turning lanes in all directions shall be maintained during construction between 8:30 A.M. and 4:30 P.M. The same number of travel lanes currently in use (at the time of bid) shall be opened to traffic each and every day between 4:30 P.M. and 8:30 A.M. No work that interferes with public traffic shall be performed after 4:30 P.M. or before 8:30 A.M. No street closures shall be made. The traffic signal and traffic signal detectors shall remain operational during the construction until their replacement is scheduled within 5 days of disruption. Night work shall only be allowed with approved, written approval by the City Engineer, at the contractor’s request, and shall be completed at no additional cost if approved.

Separation between travel lanes shall be accomplished by the use of delineators placed at a maximum of 15' on center. Traffic channelization at intersections shall be accomplished by the use of delineators placed at a maximum of 10' on center.

UTILITY REQUIREMENTS

The Contractor is advised of the existence of the utility notification service provided by UNDERGROUND SERVICE ALERT (USA). USA member utilities will provide the Contractor with the precise locations of their substructures in the construction area when the Contractor gives at least 48 hours notice to the Underground Service Alert by calling 1(800) 422-4133. Contractor shall provide the City with proof of contact with USA upon request.

The Contractor shall notify the following agencies at least 48 hours in advance of excavating around any of their structures. The utility companies listed below can be contacted as indicated.

NAME	ADDRESS	ATTENTION	Phone Number
AT&T	3939 E. Coronado St. Anaheim, CA 92807	Robert Fleisher	714/618-9129

San Diego Gas & Electric	662 Camino de los Mares San Clemente, CA 92673	Erik Weigand	949/577-0005

The California Public Utilities Commission mandates that, in the interest of public safety, main line gas valves be maintained in a manner to be readily accessible and in good operating condition. The Contractor shall notify the Southern California Gas Company (714) 634-3185 at least 2 working days prior to the start of construction.

The Contractor shall exercise extreme care to protect all existing utilities in place whether shown on the plans or not, and shall assume full responsibility for all damage resulting from his operations. The Contractor shall coordinate with each utility company as to the requirements and methods for protection of their facilities during the construction period, and shall be responsible for preparation and processing of any required plans or permits. The Contractor shall assume full responsibility to maintain uninterrupted service for all utilities.

By submitting a bid, the Contractor acknowledges the above referenced utility work to be done in conjunction with this Project. The Contractor shall schedule his work and conduct his operations so as to permit access and time for the required utility work to be accomplished during the progress of the work.

The Contractor shall coordinate with each utility company as to the extent of required work and the time required to do so. The Contractor shall include this time in his schedule. Payment for the above, if any, shall be deemed as included in the items of work as shown on the proposal bid sheet and no additional compensation will be allowed.

FLOW AND ACCEPTANCE OF WATER

It is anticipated that storm, surface or other waters will be encountered at various times and locations during the work herein contemplated. The Contractor, by submitting a bid, acknowledges that he has investigated the risk arising from such waters and has prepared his bid accordingly, and Contractor, by submitting a bid, assumes all of said risk.

REMOVAL OF WATER

The Contractor shall provide and maintain at all times during construction ample means and devices to promptly remove and properly dispose of all water entering the excavations or other parts of the work. No concrete footing or floor shall be laid in water nor shall water be allowed to rise over them until the concrete or mortar has set at least two (2) hours. Water shall not be allowed to rise unequally against any walls for a period of twenty-eight (28) days. Dewatering for the structures and pipelines shall commence when ground water is first encountered, and shall be continuous until such time as water can be allowed to rise in accordance with the above statement. Dewatering shall be accomplished by well points or some other method which will insure a dry hold and preservation of final lines and grade of the bottoms of excavation, all subject to the approval of the City Engineer.

Dewatering methods and disposal of water from dewatering operations shall be the sole responsibility of the Contractor and shall conform to the requirements of the State Regional Water Quality Control Board, the requirements of the National Pollution Discharge Elimination System (NPDES), and the Federal Clean Water Act. Full compensation for dewatering shall be considered as included in the contract prices paid for the related items of work, and no additional compensation will be allowed therefore.

STANDARD SPECIFICATIONS

The Standard Specifications of the City are contained in the 2024 edition of the STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, also known as the “Greenbook”, including all supplements, as written and promulgated by the Joint Cooperative Committee of the Southern California Chapter of the American Public Works Association and the Southern California District of the Associated General Contractors of California, which is incorporated herein by this reference. Copies of these Standard Specifications are available from the publisher:

BNi Building News
Division of BNi Publications, Inc.
990 Park Center Drive, Suite E
Vista, California 92801
(760) 734-1113

The Standard Specifications set forth above will control the general provisions for this Contract except as amended by the Plans, General Specifications, Special Provisions, or other Contract Documents.

The section numbers of the following Special Provisions coincide with those of the said Standard Specifications. Only those sections requiring amendment, elaboration, addition, or that are specifying options are stated in the Special Provisions.

In case of conflict between the Standard Specifications and the General Specifications or Special Provisions, the General Specifications and Special Provisions shall take precedence over and be used in lieu of such conflicting portions of the Standard Specifications.

References in the Special Provisions to "CALTRANS Standard Specifications" shall mean the latest edition of the Standard Specifications of the State of California, Department of Transportation. Copies of these specifications and standard drawings may be obtained from:

California Department of Transportation
Publications Distribution Unit
1900 Royal Oaks Drive
Sacramento, California 95815-3800
Telephone (916) 263-0822
Fax (916) 263-0470

References in the Special Provisions to Standard Plans shall mean the Standard Plans for Public Works Construction, latest edition (written and promulgated by the Public Works Standards, Inc.), and, where applicable and as determined and selected by the City Engineer, those specific standard plans of the City of Laguna Hills, the County of Orange and/or the State Department of Transportation, latest editions.

Where the Plans or Specifications describe portions of the work in general terms, but not in complete detail, it is understood that the item is to be furnished and installed complete and in place and that only the best general practice is to prevail and that only materials and workmanship of the first quality are to be used. Unless otherwise specified, the Contractor shall furnish all labor, materials, tools, equipment and incidentals, and do all the work involved in executing the contract.

WAGE RATES AND LABOR CODE REQUIREMENTS

The City has determined that the work on this Project requires work of labor categories which are subject to the State of California Department of Industrial Relations prevailing rates of per diem wages.

Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. Contractor agrees to fully comply with all applicable federal and state labor laws (including, without limitation, if applicable, the Prevailing Wage Laws). It is agreed by the parties that, in connection with the work provided pursuant to the Agreement, Contractor shall bear all risks of payment or non-payment of prevailing wages under California law, and Contractor hereby agrees to defend, indemnify, and hold the City, its elected officials, officers, employees, and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. The foregoing indemnity shall survive termination of the Agreement.

Contractor understands and agrees to comply with the following California Labor Code compliance conditions [Labor Code Sections 1720 et seq., 1813, 1860, 1861, 3700]:

a) The Agreement is subject to the provisions of Division 2, Part 7, Chapter 1 (commencing with Section 1720) of the California Labor Code relating to public works and the awarding public agency ("City") and Contractor agree to be bound by all the provisions thereof as though set forth in full herein.

b) Contractor shall be registered with the Department of Industrial Relations ("DIR") in accordance with California Labor Code Section 1725.5 and has provided proof of registration to City prior to the effective date of this Agreement.

c) Contractor agrees to comply with the provisions of California Labor Code Sections 1771, 1774 and 1775 concerning the payment of prevailing rates of wages to workers and the penalties for failure to pay prevailing wages. The applicable prevailing wage determination(s) may be obtained at (http://www.dir.ca.gov/OPRUDPreWageDetermination.htm), are on file with City, and are available to any interested party upon request. A copy of said rates shall be posted at each job site during the term of this Agreement.

d) Pursuant to California Labor Code Section 1771.4, Contractor's services are subject to compliance monitoring and enforcement by the Department of Industrial Relations. Contractor shall post job site notices as prescribed by DIR regulations and furnish the records specified in California Labor Code Section 1776 directly to the Labor Commissioner in the manner prescribed by California Labor Code Section 1771.4(a)(3) and (c)(2).

e) Eight (8) hours of labor shall constitute a legal day's work for all workmen employed in the execution of this Agreement, and the Contractor and any subcontractor shall comply with and be governed by the laws of the State of California having to do with working hours set forth in Division 2, Part 7, Chapter 1, Article 3 of the California Labor Code. Contractor shall comply with the provisions of California Labor Code Section 1813 concerning penalties for workers who work excess hours. Contractor shall, as a penalty to the City, forfeit twenty-five dollars ($25) for each worker employed in the execution of this Agreement by the Contractor or by any subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one calendar day and forty (40) hours in any one calendar week in violation of the provisions of Division 2, Part 7, Chapter 1, Article 3 of the California Labor Code. (*See, e.g.,* Cal. Labor Code §1815.)

f) Pursuant to California Labor Code Section 1771.1, Contractor and any subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the California Public Contract Code, or engage in the performance of any contract for public work on a public works project unless registered with the DIR and qualified to perform public work pursuant to California Labor Code Section 1725.2. It is not a violation of California Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by California Business and Professions Code Section 7029.1 or by California Public Contract Code Section 10164 or 20103.5, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded. Contractor shall not perform any work under this Agreement with any subcontractor who is ineligible to perform work on the public works project pursuant to Section 1777.1 or 1777.7 of the California Labor Code.

Apprentices

Section 1777.5 requires the Contractor or Subcontractor employing tradesmen in any apprenticeable occupation to apply to an applicable apprenticeship committee that can supply apprentices to the site of the public works project and which administers the apprenticeship program in that trade for a certificate of approval. The certificate will also fix the ratio of apprentices to journeymen to be used in the performance of the Contract.

The Contractor is required to make contributions to funds established for the administration of apprenticeship programs if he employs registered apprentices or journeymen in any apprenticeable trade and if other Contractors on the public works site are making such contributions.

Information relative to apprenticeship standards, contributions, wage schedules and other requirements may be obtained from the State Director of Industrial Relations or from the Division of Apprenticeship Standards.

RESOLUTION OF CONSTRUCTION CLAIMS

California Public Contract Code (PCC) section 9204 as adopted by Assembly Bill 626 prescribes a process to present, confer, and mediate all construction claims relating to the City's public works project.

"Public works project" means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or another public improvement of any kind.

"Claim" means a separate demand by the Contractor sent by registered mail or certified mail with return receipt requested for (A) a time extension, including, without limitation for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project (B) payment of money or damages arising from work done by or on behalf of the Contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled, or the amount the payment of which is disputed by the local agency. (PCC 9204(c)(1))

For any claim subject to this article, PCC section 9204 requires the following:

a) The claim shall be submitted by the Contractor in writing, sent by registered mail or certified mail with return receipt requested and must include the documents necessary to substantiate the claim. Nothing in this subdivision is intended to extend the time limit or supersede notice requirements otherwise provided by contract for the filing of claims. However, upon receipt of a claim, the City, and the Contractor may, by mutual agreement, extend the time period provided by statute.

b) For claims of all amounts, the City shall respond within 45 days of receipt of the claim, and provide the claimant a written statement identifying which portion of the claim is disputed and which portion of the claim is undisputed. If the City requires approval from the City Council, and the City Council does not meet within the 45-day period to respond, the City shall have up to three days to issue its response following the City Council meeting.

c) For all portions of a claim determined to be undisputed, the City must process payment to the claimant within 60 days of issuing the City's written determination.

d) If the claimant disputes the City's response, or if the City fails to respond within the time limits provided, the claimant may demand an informal conference to meet and confer for settlement of the issues in dispute. The demand must be sent in writing by registered or certified mail, return receipt requested. Upon receipt of a demand, the City must schedule a meet and confer conference within 30 days for settlement of the disputed claim.

e) Within 10 business days following the conclusion of the meet and confer conference, if any portion of the claim remains in dispute, the City shall provide the claimant an addition written statement identifying the portion of the claim that is undisputed and the portion that remains in dispute.

f) For all portions of a claim determined to be undisputed, the City must process payment to the claimant within 60 days of issuing the City's written determination.

g) Any remaining undisputed portion of the claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation in which the parties share the cost evenly. The City and the claimant shall mutually agree on a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree, each party shall select a mediator and those mediators shall jointly select a qualified, neutral third party to mediate the remaining undisputed claim. Each party shall bear the respective costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is

unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside of PCC section 9204.

Unless otherwise agreed to by the City and the Contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under PCC Section 20104.4 to mediate after litigation has been commenced.

PCC Section 9204 does not preclude the City from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program if mediation under this section does not resolve the parties' dispute.

Should the City fail to respond to a claim, or fail to issue written statements as required, the Contractor's claim is deemed denied. A claim denied by reason of the City's failure to respond shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

Amounts not paid in a timely manner as required by PCC 9204 shall bear interest at seven percent per annum.

NOTICE OF THIRD-PARTY CLAIMS

In accordance with PCC Section 9201, the City will provide timely notification to Contractor of the receipt of any third-party claim relating to the Agreement. The Contractor agrees to reimburse the City for its reasonable costs incurred in providing such notice.

CLAYTON ACT AND CARTWRIGHT ACT

In accordance with Section 7103.5 of the Public Contract Code, in entering into a public works contract or a subcontract to supply goods, services or materials pursuant to a public works contract, the contractor or subcontractor offers and agrees to assign to the awarding body all rights, and interest in and all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to the contractor, without further acknowledgment by the parties.

CITY OF LAGUNA HILLS

SPECIAL PROVISIONS
FOR

MACKENZIE PARK REHABILITATION

PART 1 - GENERAL PROVISIONS

SECTION 1 - TERMS, DEFINITIONS, ABBREVIATIONS AND SYMBOLS.

1-2 DEFINITIONS.

City	**City of Laguna Hills**
Board	City Council
Caltrans	California Department of Transportation
County	County of Orange
Engineer	City Engineer
Federal	United States of America
State	State of California
Contractor	Contractor, its workers, employees and agents
Project	MacKenzie Park Playground Renovation and other miscellaneous park improvements

1-3 ABBREVIATIONS.

1-3.2 Common Usage. [Add the following to this section]:

MUTCD	Manual of Uniform Traffic Control Devices, including the California Supplement
OCPW	Orange County Public Works Department
SPPWC	Standard Plans for Public Works Construction
SSPWC	Standard Specifications for Public Works Construction
FHWA	Federal Highway Administration
HUD	Housing and Urban Development

1-7 AWARD AND EXECUTION OF CONTRACT.

Within three (3) days of bid opening contractor must submit:

- If a bid bond is submitted with a 10% of Bid designation for the amount as noted in the City Approved Bid Bond form, a revised Bid Bond with numerical dollar values, both in words and with digits, shall be submitted to the City within three (3) days of bid opening.

Within five (5) working days after the date of the Notice of Apparent Low Bidder, the Contractor shall execute and return the following documents to the City:

- All Insurance Requirements set forth herein
- Two (2) Original Signed Contract Agreements

Within ten (10) working days after the date of the Notice of Award, the Contractor shall execute and return the following documents to the City:

- Faithful Performance Bond
- Material and Labor Bond
- Construction Schedule
- Traffic Control Plan
- Water Pollution Control Plan
- Form W-9
- Encroachment Permit Application
- Construction Materials Submittals

FAILURE TO COMPLY WITH ALL OF THE ABOVE WILL RESULT IN ANNULMENT OF THE AWARD AND FORFEITURE OF THE PROPOSAL GUARANTEE AT THE SOLE DISCRETION OF City.

The Contract Agreement shall not be considered binding upon the City until executed by the authorized City officials. A corporation to which an award is made may be required, before the Contract Agreement is executed by the City, to furnish evidence of its corporate existence, of its right to enter into contracts in the State of California, and that the officers signing the Contract and bonds for the corporation have the authority to do so.

1-7.2 Contract Bonds. [Replace section with the following]:

Both the Faithful Performance Bond and the Material and Labor Bond shall each be for not less than one hundred percent (100%) of the total Contract amount. The Material and Labor Bond shall remain in force until thirty-five (35) days after the date of recordation of the Notice of Completion. The Faithful Performance Bond will be held for one year after the date of recordation of the Notice of Completion.

Prior to the acceptance of any bond, the City shall verify that the surety is an admitted surety in the State of California. If requested by the City, the Contractor shall provide other information specified in the Code of Civil Procedure Section 995.660 to enable the City to verify the sufficiency of the bond.

Should any bond become insufficient, the Contractor shall correct the insufficiency within ten (10) calendar days after receiving notice from the City. The Contractor shall provide the City with evidence of the correction within ten (10) calendar days of said correction. Should any surety at any time be unsatisfactory to the City, written notice will be given to the Contractor to that effect. No further payments shall be deemed due or will be payable under the Contract until Contractor submits an acceptable bond from a surety accepted by the City. Changes to the work or extensions of time made pursuant to the Contract Agreement shall in no way release the Contractor or the surety from its obligations. Notice of such changes or extensions shall be waived by the surety.

SECTION 2 – SCOPE OF WORK.

2-1.1 PLANS AND SPECIFICATIONS [Add the following to this section]:

The Contractor shall maintain a control set of Plans and Specifications on the Project site at all times. All final locations determined in the field, and any deviations from the Plans and Specifications, shall be marked in red on this control set to show the as-constructed conditions. Upon completion of all work, the Contractor shall return the control set to the Engineer. Final payment will not be made until this requirement has been met.

2-2 PERMITS. [Add the following to this section]:

Prior to the start of any work, the Contractor shall take out the applicable City and State permits and make arrangements for City and State inspections. Requests for inspections shall be made to the City at least 24 hours in advance of need. The Contractor and all subcontractors shall each obtain any and all other permits, licenses, inspections, certificates, or authorizations required by any governing body or public utility. Payment for this work shall be included in the bid items of work and no additional compensation will be allowed. The City will waive the usual City encroachment permit fees.

Further, Contractor shall ensure that its employees, agents, contractors, and subcontractors conduct themselves in compliance with such laws and licensure requirements including, without limitation, compliance with laws applicable to nondiscrimination, sexual harassment, and ethical behavior throughout the duration of the Contract. Contractor shall not retain or employ an unlicensed subcontractor to perform work pursuant to this Contract. Contractor shall notify the City immediately and in writing of its employees', agents', contractors' or subcontractors' inability to obtain or maintain, irrespective of the pendency of any appeal, any such licenses, permits, approvals, certificate, waivers, and exemptions that may be required. Such inability shall be cause for termination of this Contract

2-3 RIGHT-OF-WAY. [Add the following to this section]:

The City will acquire all rights of way, easements and rights of entry as required for this Project. The Contractor shall verify that the acquisition(s) is completed prior to beginning any work outside of the public right of way. All cost for re-mobilization, downtime, etc. due to delays in obtaining the required rights of way, easements and rights of entry shall be included in all other items of work and no additional compensation will be allowed. In the event the required easements have not yet been acquired by the City, the Contractor shall conduct its operation so as to confine its work to the limits of the existing right-of-way.

2-4 COOPERATION AND COLLATERAL WORK. [Add the following]:

The Contractor is advised as to the possibility of other construction projects within the proposed construction zone by the City of Laguna Hills, other governing agencies or private enterprises. In the event of such projects, the Contractor shall coordinate with the applicable parties as to the extent of any time required to complete their work and shall schedule his work and conduct his operations so as to permit access and time as required for the concurrent work. The Contractor shall immediately notify the Engineer in the event of a delay in scheduling caused solely by this concurrent work. Payment for the above, if any, shall be deemed as included in various items of work, including any delay impacts, as shown on the proposal bid sheet and no additional compensation will be allowed.

2-8 EXTRA WORK.

2-8.2 Payment.

2-8.3 Markup.

(a) **Work by Contractor.** [Add the following to this section]: The following percentages shall be the maximum added to the Contractor's costs and shall constitute the markup for all overhead and profits:

1) Labor	20%
2) Materials	15%

3) Equipment Rental 15%

4) Other Items and Expenditures 15%

To the sum of the costs and markups provided for in this subsection, 1 percent shall be added as compensation for bonding.

(b) **Work by Subcontractor.** [Add the following to this section]: When all or any part of the extra work is performed by a Subcontractor, the markup established in 3-3.2.3(a) shall be applied to the Subcontractor's actual cost of such work. A markup of 10 percent on the first $5,000 of the subcontracted portion of the extra work and a markup of five (5) percent on work added in excess of $5,000 of the subcontracted portion of the extra work may be added by the Contractor.

The markups mentioned hereinafter shall include, but are not limited to, all costs for the services of superintendents, project managers, timekeepers and other personnel not working directly on the change order and pickup or yard trucks used by the above personnel. These costs shall be reported as labor or equipment elsewhere except when actually performing work directly on the change order and then shall only be reported at the labor classification of the work performed.

The costs of rental equipment shall not exceed the equipment rental rates in the surcharge and Equipment Rental Rates, as published by the State of California Business, Transportation, and Housing Agency and the California Department of Transportation, Division of Construction for the current fiscal year.

2-10 DISPUTED WORK. [Add the following to this section]:

If the Contractor and the City are unable to reach an agreement on disputed work, the City may direct the Contractor to proceed as directed. The City shall have the option, at its own discretion, to pay for said work through unilateral change order executed by the City after conducting its own analysis of the reasonable costs thereof. Although not to be construed as proceeding under extra work provisions in Section 3-3, the Contractor shall keep and furnish records of disputed work in accordance with Section 3-3.

In any case where the Contractor believes extra compensation is due the Contractor for work or materials not clearly covered in the Contract, or not ordered by the City as “extra work”, the Contractor shall notify the City in writing of the Contractor's intention to make claim for such extra compensation before the Contractor begins the work on which Contractor bases the claim. If such notification is not given, or the City is not afforded proper supporting documentation by the Contractor for keeping strict account of actual cost, then the Contractor shall be deemed to have waived the claims for such extra compensation. Such notice by the Contractor, and the fact that the City has kept account of the cost as aforesaid, shall not in any way be construed as proving the validity of the claim. The validity of the claim must be determined by the City. If the City determines that the claim is well founded, it shall be allowed and paid for as “extra work”; if the City determines that the claim is not well founded, it shall be disallowed and not paid.

SECTION 3 – CONTROL OF THE WORK.

3-10 SURVEYING.

3-10.3 Survey Services. [Add sub-section]:

The Contractor will provide the initial surveying and the initial construction staking, if required for the construction of this Project. The cost of any additional surveying and/or construction staking primarily for the convenience of the Contractor and for replacement of stakes lost for any reason will be the responsibility of the Contractor. The Contractor shall make all requests in writing for construction stakes at least 48 hours in advance of the day required.

The Contractor shall be responsible for the finished work's conforming to the lines, grades and benchmarks given by the Engineer. The Contractor shall establish supplementary benchmarks, elevations, lines and grades and any other necessary controls which are not established by the Engineer and which are necessary to complete the work. Compensation for above work by the Contractor shall be included within the various items of work and no additional compensation will be allowed.

SECTION 4 - CONTROL OF MATERIALS

4-3 INSPECTIONS.

4-3.1 General. [Add the following to this section]:

The City will pay for inspection and materials testing. The Contractor shall pay for retests and re-inspections due to failure to meet Specifications. If the Contractor elects to work under this Contract more than 8 hours/day or more than 40 hours/week, Saturday, Sunday, or City holidays, it shall arrange with the Engineer for the required inspection service and pay the Special Inspection Fees as provided by the Material Inspector and City Engineer. When Special Inspection is required, the Contractor shall notify the City and pay inspection fees 24 hours in advance. A 24 hour advance notice will be given during working hours, exclusive of Saturday, Sunday or City holidays for the purpose of permitting the Engineer to make necessary assignments of his representatives. If the Contractor is directed by the City to work under this Contract more than 8 hours/day or more than 40 hours/week, the Special Inspection Fee requirements will be waived.

SECTION 5 – LEGAL RELATIONS AND RESPONSIBILITIES

5-1 LAWS AND REGULATIONS. [Add the following to this section]:

The Contractor, and all subcontractors, suppliers and vendors, shall comply with all City, State, and Federal orders regarding affirmative action to ensure equal employment opportunities and fair employment practices. Failure to file any report due under said orders will result in suspension of periodic progress payments.

The Contractor shall ensure unlimited access to the job site for all equal employment opportunity compliance officers.

5-3 LABOR.

5-3.3 Payroll Records. [Add the following to this section]:

Contractor shall comply with the provisions of California Labor Code Section 1776 which, among other things, require Contractor and each subcontractor to (1) keep accurate payroll records, (2) certify and make such payroll records available for inspection as provided by Section 1776, and (3) inform the City of the location of the records. The Contractor is responsible for compliance with Section 1776 by itself and all of its subcontractors. Verified payroll records shall be submitted

to the City by the tenth day of each month. Progress payments will be withheld pending receipt of any outstanding reports.

5-4 INSURANCE.

5-4.5 Compliance with Insurance Requirements. [Add the following to this section]:

Contractor shall obtain, maintain, and keep in full force and effect during the term of this Agreement, at its sole cost and expense, and in a form and content satisfactory to City, all insurance required under this section. Contractor shall not commence any work or services under this Agreement unless and until it has provided evidence satisfactory to City that it has secured all insurance required under this section. If Contractor's existing insurance policies do not meet the insurance requirements set forth herein, Contractor agrees to amend, supplement or endorse the policies to do so.

5-4.5.1 Types of Insurance Required. [Add the following to this section]:

As a condition precedent to the effectiveness of this Agreement, and without limiting the indemnity provisions set forth in this Agreement, Contractor shall obtain and maintain in full force and effect during the term of this Agreement, including any extension thereof, the following policies of insurance:

A. Commercial General Liability Insurance. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Commercial General Liability Insurance (Insurance Services Office form CG 00 01) written on an occurrence basis with limits of at least two million dollars ($2,000,000.00) per occurrence, four million dollars ($4,000,000.00) in the general aggregate, and four million dollars ($4,000,000.00) for completed operations aggregate. Defense costs shall be paid in addition to the limits. The policy shall contain no endorsements or provisions limiting coverage for (1) contractual liability; (2) cross liability exclusion for claims or suits by one insured against another; or (3) contain any other exclusion contrary to the Agreement.

B. Automobile Liability Insurance. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Automobile Liability Insurance (Insurance Services Office form CA 001) written on a per occurrence basis with limits of at least one million dollars ($1,000,000.00) combined limit for each occurrence covering bodily injury and property damage. The policy shall specifically include coverage for owned, non-owned, leased, and hired automobiles.

C. Workers' Compensation Insurance. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Workers' Compensation Insurance in at least the minimum statutory amounts, and in compliance with all other statutory requirements, as required by the State of California. Contractor agrees to waive and obtain endorsements from its workers' compensation insurer waiving all subrogation rights under its workers' compensation insurance policy against the City, its officials, officers, employees, agents and volunteers, and to require each of its subcontractors, if any, to do likewise under their workers' compensation insurance policies. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Employer's Liability Insurance written on a per occurrence basis with limits of at least one million dollars ($1,000,000.00) per accident for bodily injury or disease.

5-4.5.2 Acceptability of Insurers. [Add the following to this section]:

Insurance required by this section shall be issued by a licensed company authorized to transact business in the state by the Department of Insurance for the State of California with a current rating of A-:VII or better (if an admitted carrier), or a current rating of A:X or better (if offered by a non-admitted insurer listed on the State of California List of Approved Surplus Line Insurers (LASLI), by the latest edition of A.M. Best's Key Rating Guide, except that the City will accept workers' compensation insurance from the State Compensation Fund. In the event the City determines that the work or services to be performed under this Agreement creates an increased or decreased risk of loss to the City, the Contractor agrees that the minimum limits of the insurance policies may be changed accordingly upon receipt of written notice from the City. Contractor shall immediately substitute any insurer whose A.M. Best rating drops below the levels specified herein.

5-4.5.3 Insurance Endorsements. [Add the following to this section]:

Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for written approval. Required insurance policies shall contain the following provisions, or Contractor shall provide endorsements on forms approved by the City to add the following provisions to the insurance policies:

A. The policy or policies of insurance required by this section for Commercial General Liability and Automobile Liability Insurance shall be endorsed to provide the following:

(1) Additional Insured: The City, its officials, officers, employees, agents and volunteers, shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement; and

(2) Additional Insured Endorsements: Additional insured endorsements shall not (1) be restricted to "ongoing operations", (2) exclude "contractual liability", (3) restrict coverage to "sole" liability of Contractor, or (4) contain any other exclusions contrary to the Agreement; and, the coverage shall contain no special limitations on the scope of protection afforded to additional insureds.

(3) Notice: The policy or policies of insurance required by this section for Commercial General Liability and Automobile Liability Insurance shall be endorsed to state that coverage shall not be suspended, voided, cancelled, or modified, or reduced in coverage or in limits, except after thirty (30) days prior written notice by First Class U.S. Mail, postage-prepaid, has been provided to the City. Notwithstanding the foregoing, if coverage is to be suspended, voided, or cancelled because of Contractor's failure to pay the insurance premium, the notice provided to City shall be by ten (10) days prior written notice.

B. For all policies of Commercial General Liability Insurance, Contractor shall provide endorsements for completed operations to effectuate this requirement.

5-4.5.4 Deductibles and Self-Insured Retentions.

Any deductible or self-insured retention must be approved in writing by the City in advance and shall protect the City, its officials, officers, employees, agents and volunteers, in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

5-4.5.6 Primary and Non-Contributing Insurance.

All policies of Commercial General Liability Insurance and Automobile Liability Insurance shall be primary and any other insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents or volunteers, shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

5-4.5.7 Waiver of Subrogation.

All policies of Commercial General Liability and Automobile Liability Insurance shall contain or be endorsed to waive subrogation against the City, its officials, officers, employees, agents and volunteers, or shall specifically allow Contractor or others providing insurance evidence in compliance with the requirements set forth in this section to waive their right to recovery prior to a loss. Contractor hereby agrees to waive its own right of recovery against the City, its officials, officers, employees, agents and volunteers, and Contractor hereby agrees to require similar written express waivers and insurance clauses from each of its subcontractors.

5-4.5.8 Evidence of Coverage.

Concurrently with the execution of the Agreement, Contractor shall deliver certificates of insurance together with original endorsements affecting each of the insurance policies required by this section. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for written approval. The certificates of insurance and original endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15) days prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced and not replaced immediately so as to avoid a lapse in the required coverage, Contractor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. Contractor shall promptly furnish, at City's request, copies of actual policies including all declaration pages, endorsements, exclusions and any other policy documents City requires to verify coverage.

5-4.5.9 Requirements Not Limiting.

Requirement of specific coverage or minimum limits contained in this section are not intended as a limitation on coverage, limits, or other requirements, or a waiver of any coverage normally provided by any insurance. Nothing in this section shall be construed as limiting in any way the indemnification provision contained in this Agreement, or the extent to which Contractor may be held responsible for payments of damages to persons or property.

5-4.5.10 Enforcement of Agreement (Non-Estoppel).

Contractor acknowledges and agrees that actual or alleged failure on the part of the City to inform Contractor of any non-compliance with any of the insurance requirements set forth in this section imposes no additional obligation on the City nor does it waive any rights hereunder.

5-4.5.11 Insurance for Subcontractors.

Contractor shall either: (1) include all subcontractors engaged in any work or services for Contractor relating to this Agreement as additional named insureds under the Contractor's insurance policies; or (2) Contractor shall be responsible for causing its subcontractors to procure and maintain the appropriate insurance in compliance with the terms of the insurance requirements set forth in this section, including adding the City, its officials, officers, employees, agents and volunteers, as additional insureds to their respective policies. All policies of Commercial General Liability Insurance provided by Contractor's subcontractors performing any work or services related to this Agreement shall be endorsed to name the City, its officials, officers, employees, agents and volunteers, as additional insureds. Contractor shall not allow any subcontractor to commence any work or services relating to this Agreement unless and until it has provided evidence satisfactory to City that the subcontractor has secured all insurance required under this section.

5-4.5.12 Other Insurance Requirements.

The following terms and conditions shall apply to the insurance policies required of Contractor pursuant to this Agreement:

A. Contractor shall provide immediate written notice to City if (1) any of the insurance policies required herein are terminated, cancelled or suspended, (2) the limits of any of the insurance coverages required herein are reduced, or (3) the deductible or self-insured retention is increased.

B. All insurance coverage and limits provided by Contractor and available or applicable to this Agreement are intended to apply to each insured, including additional insureds, against whom a claim is made or suit is brought to the full extent of the policies. Nothing contained in this Agreement or any other agreement relating to the City or its operations shall limit the application of such insurance coverage.

C. None of the insurance coverages required herein will be in compliance with the requirements of this section if they include any limiting endorsement which substantially impairs the coverages set forth herein (e.g., elimination of contractual liability or reduction of discovery period), unless the endorsement has first been submitted to the City and approved in writing.

D. Certificates of insurance will not be accepted in lieu of required endorsements, and submittal of certificates without required endorsements may delay commencement of the Project. It is Contractor's obligation to ensure timely compliance with all insurance submittal requirements as provided herein.

E. Contractor agrees to ensure that subcontractors, if any, and any other parties involved with the Project who are brought onto or involved in the Project by Contractor, provide the same minimum insurance coverage required of Contractor. Contractor agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Contractor agrees that upon request, all agreements with subcontractors and others engaged in the Project will be submitted to the City for review.

F. Contractor agrees to provide immediate written notice to City of any claim, demand or loss against Contractor arising out of the work or services performed under this Agreement and for any other claim, demand or loss which may reduce the insurance available to pay claims, demands or losses arising out of this Agreement.

5-4.5.13 Contractor's Liability; City Not Liable; Claims Resolution

A. Contractor's liability. The Contractor shall be responsible for any loss or damage that may occur to:

- The work or any part thereof;
- Any of the materials or other things used or employed in performing the work;
- Any injury to any person or persons, either workers or the public;
- Any damage to property resulting from any cause which might have been prevented by the Contractor, including defects or obstructions at any time before completion of the work and its final acceptance.

B. City ordered precautions. If, in the opinion of the City Engineer, the precautions taken by Contractor are not safe or adequate at any time during the term of the Contract, the City Engineer may order the Contractor to take further precautions, and if the Contactor shall fail to do so, the City Engineer may order the work done by others and charge the Contractor for the cost thereof, such cost to be deducted from any moneys due or becoming due the Contractor. Failure of the City Engineer to order such additional precautions, however, shall not relieve the Contractor from his full responsibility for public safety.

C. City not liable. The City shall not be answerable or accountable in any manner, for any loss or damage that may occur to any of the following from any cause which might have been prevented by the Contractor:

- The work or any part thereof;
- Any of the materials or other things used or employed in performing the work;
- Any injury to any person or persons, either workers or the public;
- Any damage to property.

D. Claims Resolution. From time to time during the period of this contract, the City and/or the Contractor may be served with third-party claims, as a result of alleged conduct by Contractor. The following procedures shall be followed by City and Contractor:

For claims received by Contractor:

(1) Contractor shall provide City on a monthly basis details regarding any claim for damages to persons or property, including, date claim made, date of alleged damages, type of damages, alleged cause of damages and, as claims are resolved, details regarding Contractor's denial or payment of such claim and the reasons for denial or payment.

(2) Contractor shall resolve or deny any claim received within thirty (30) days of receipt. If Contractor is unable to resolve a claim within the thirty (30) days set forth above, it shall, prior to the expiration of the thirty (30) days request and extension in writing from the City.

For claims received by City:

(1) City shall process any claims received pursuant to Chapter 3-12 (Claims Against the City) of the Laguna Hills Municipal Code.

(2) If after investigation of the claim, the City determines the Contractor is liable under this Contract, City shall tender the claim to the Contractor for proper handling and resolution.

E. Retention of Claimed Damages by City. The City may retain so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the City until disposition has been made of such suits or claims for damages aforesaid.

5-7 SAFETY.

5-7.1.3 Traffic and Access. [Add the following to section]:

When entering or leaving roadways carrying public traffic, the Contractor's equipment, whether empty or loaded, shall in all cases yield to public traffic.

The Contractor shall notify in writing all affected property owners of the proposed construction schedule a minimum of forty-eight (48) hours, but not more than seventy-two (72) hours, in advance of any limitation or closure of access to their property. Form of said notice shall be as approved by the Engineer and shall contain the date and time of the closure. In the event of delay, whether beyond the control of the Contractor or not, the Contractor shall notify all affected property owners as to the extent of the delay and his revised schedule. In the event of delay over 72 hours, the Contractor shall re-notify the property owners as described above. Payment for notification and coordination as per Section 7-10 as modified herein shall be included in the compensation paid for the various items of work and no additional compensation will be allowed. The "Notices" will be furnished by the Contractor.

Pedestrian access shall be maintained at all times during construction and shall be in accordance with the Americans With Disabilities Act.

5.7.2 Safety Orders

5.7.2.1 General. [Add the following to this section]:

The Contractor shall comply with the provisions of any City ordinances or regulations regarding requirements for the protection of excavations and the nature of such protection.

In accordance with Section 6500 of the Labor Code, the Contractor is required to obtain a permit from the Division of Industrial Safety for any trench or excavation which if five feet or more in depth and into which a person is required to descent.

In accordance with Section 6705 of the Labor Code, prior to any excavation involving an expenditure in excess of twenty-five thousand dollars ($25,000) for the excavation of any trench or trenches five (5) feet or more in depth, Contractor shall submit to Engineer a written detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches.

Prior to beginning of excavations requiring shoring, the Contractor shall designate in writing to the Engineer someone whose responsibility it is to supervise the Project safety measures and someone whose responsibility it is to supervise the installation and removal of sheeting, shoring and bracing.

In addition to shoring the excavations in accordance with the minimum requirements of Industrial Safety Orders, it shall be the Contractor's responsibility to provide any and all additional shoring

required to support the sides of the excavation against the effects of load which may exceed those desired by using the criteria set forth in the Industrial Safety Orders. The Contractor shall be solely responsible for any damages which may result from his failure to provide adequate shoring of the excavation under any and all of the conditions of loading which may exist or which may arise during construction of the Project.

In accordance with Section 7104 of the Public Contract Code, any public works contract which involves excavations that extend deeper than four feet below the surface shall provide as follows:

(a) That the Contractor shall promptly, and before the following conditions are disturbed, notify the City, in writing, of any:

(1) Material that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, which is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

(2) Subsurface or latent physical conditions at the site differing from those indicated by information about the site made available to bidders prior to the deadline for submitting bids.

(3) Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally as inherent in work of the character provided for in the contract.

(b) The local public entity shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the work shall issue a change order under the procedures described in the contract.

(c) That, in the event that a dispute arises between City and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the work, the Contractor shall not be excused from any scheduled completion date provided for by the contract, but shall proceed with all work to be performed under the contract. The Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties.

5-7.2.2.1 Storage of Equipment and Materials in Public Streets. [Add the following section]:

The Contractor is required to, at his own expense, maintain and operate a work and storage area outside of the public right-of-way. In such case the Contractor shall submit to City written authorization from the owners of the subject property prior to occupation. Occupation of site without written authorization shall be grounds for immediate suspension of work. Location of site to be approved by City. Condition and operation of yard shall conform to these specifications. The Contractor shall assume full responsibility for all damage to the site resulting from his operations and shall repair and/or replace same, at his own expense, to the satisfaction of the owner of the subject property. The Contractor shall vacate site and return it to pre-Project condition within five (5) working days following application for Notice of Completion. The Contractor shall obtain a written release from the property owner accepting the condition of the vacated site and releasing the Contractor from any further clean-up or restoration work and shall submit a copy of such release to City. The Notice of Completion will not be issued until said release is submitted.

5-7.2.2.2 Street Closures, Detours, Barricades. [Add the following section]:

The Contractor shall perform lane closures and all traffic control operations in accordance with the applicable details in the California MUTCD, latest edition. No work shall be performed until the required lane closure traffic control has been installed and approved by the City. If the City does not feel that the Contractor is properly and safely implementing the MUTCD details, then work shall be stopped until such time as the Contractor can successfully remedy the deficiencies.

Portable delineators (traffic cones are not allowed), which conform to the California MUTCD, latest edition, shall be spaced as necessary for proper delineation of the travel way. The spacing between delineators shall not exceed 25 feet. The minimum lane transitions shall be a 50 to 1 taper. Double base delineators will be required.

The Contractor shall schedule the order of his work such that no travel lanes are closed before 8:30 A.M. or after 4:30 P.M. daily. A minimum of one through travel lane and all turning lanes in all directions with flaggers will be required at all times. The same number of travel lanes currently in use shall be opened to traffic during non-working hours. No street closures shall be made unless indicated on the approved traffic control plans. The traffic signal and traffic signal detectors shall remain operational continuously during the construction, and traffic loops that require replacement shall be disrupted no more than 5 calendar days before their replacement. **No weekend work (day or night) will be allowed, unless otherwise specified on the Plans or as approved by the City.**

The Contractor shall provide, at his expense, advanced warning signs advising the public of the impending major construction project and his proposed schedule. Said signs shall be posted at all major approaches to the construction zones a minimum of one week prior to the start of construction.

The Contractor shall designate at least one worker solely for the provision and maintenance of traffic control.

The Contractor shall be responsible for providing temporary access to all intersecting streets and driveways throughout the workday and at the end of each workday. A minimum of one access point shall be maintained for each commercial business during their normal business hours. **Pedestrian access shall be maintained at all times and temporary and permanent pedestrian access shall be in accordance with the Americans with Disabilities Act.**

The Contractor shall provide and maintain all other signs, barricades, pedestals, flashers, delineators and other necessary facilities for the protection of the public within the limits of the construction area and shall be maintained in a new or like new condition, free of damage and graffiti.

If the traffic delineators are damaged, displaced or not in an upright position, from any cause, said delineators shall immediately be replaced or restored to their original location, in an upright position, by the Contractor.

The Contractor shall furnish competent flagmen to give adequate warning to traffic or to the public of any dangerous conditions to be encountered. Flagmen, while on duty and assigned to give warnings to the public that the highway is under construction and of any dangerous conditions to be encountered as a result thereof, shall perform their duties and shall be provided with the necessary equipment in accordance with the California MUTCD. The equipment shall be furnished and kept clean and in good repair by the Contractor, at Contractor's expense.

Should the Contractor appear to be neglectful or negligent in furnishing warning and protective measures as provided, the Engineer may direct attention to the existence of a hazard and the

necessary warning and protective measures shall be furnished and installed by the Contractor at its own expense. Should the Engineer point out the inadequacy of warning and protective measures, such action on the part of the Engineer shall not relieve the Contractor from responsibility for public safety or abrogate his obligation to furnish and pay for these devices.

Where on-street parking is not allowed, the Contractor shall be required to post "Temporary No Parking" signs 48 hours prior to start of work. The Contractor will furnish the notification to property owners as mentioned in Section 7-10.1 and the “Temporary No Parking” signs.

No construction activities will be allowed on streets that are receiving trash pick-up services on the same day. A copy of the CR&R Waste Collection Map is available on the City’s website. The Contractor shall coordinate with the trash hauler in preparing the construction schedule. The Contractor shall provide a map showing the schedule of the work, which should coordinate with the trash and mail schedule, to the City at the preconstruction meeting.

Contractor shall notify the following entities at least forty-eight (48) hours in advance of any street closure or restriction to access.

1. Fire Department: Orange County Fire Authority, (714) 573-6000
2. Police Department: Orange County Sheriff’s Department, (714) 647-7000
3. School Districts: Saddleback Valley Unified: (949) 586-1234, Capistrano Unified: (949) 489-7000
4. Trash Collection: CR&R, (877) 728-0446
5. Street Sweeping: Sweeping Corp of America, (949) 413-0165
6. Transit Operations: Orange County Transportation Authority (OCTA), (714) 560-6282
7. Fire Department: Station 22, (949) 770-6016
8. Mail Service: US Postal Service

The City Engineer may add additional entities to this list at his discretion.

All existing stop signs, street name signs and regulatory signs shall be maintained in visible locations during construction. Where construction detours and signing conflict with existing signing, the Contractor shall cover existing signs in a manner approved by the City. The Contractor shall also provide temporary traffic restriping, or reflective white or yellow plastic tabs, at the conclusion of each working day, if not sooner, as directed by the City, for any centerline, painted median or lane line that is obliterated by construction.

The Contractor shall provide temporary delineation as directed/approved. Temporary delineation shall include sandblasting of conflicting markings; installation and removal of temporary centerlines or lane lines, detour signing, barricading; and replacement of traffic lines and markings in their proper locations upon termination of the detour. Conflicting existing and temporary striping, as required for traffic control during construction, shall be removed by the Contractor by using wet nozzle sandblasting methods with immediate clean up of residues.

Blacking-out of the pavement striping will not be allowed. Temporary reflective striping tape or reflective plastic tabs may be used, except that it shall not be applied to final asphalt surfaces. Said tape or tabs shall be removed from temporary surfaces prior to placement of additional asphalt.

The Contractor shall also be responsible for notifying adjacent businesses, residents (of affected residential tracts), and entities listed above, in writing seven (7) days in advance of any work that involves limited access. Said notice shall be reviewed and approved by the City in advance of its circulation. Contractor shall provide verification to the City that proper circulation of the notice has been accomplished.

The Contractor shall maintain a 24-hour emergency service to remove, install, relocate, and maintain warning devices. No later than 10 days after the award of the Contract, the Contractor shall furnish to the City, names, and telephone numbers of three persons responsible for this emergency service. In the event these persons do not promptly respond when notified, or it becomes necessary to call other forces to accomplish emergency service, the Contractor will be responsible for any cost incurred.

Prior to the start of each work day, the Contractor shall perform all necessary work incidental to and commensurate with the proper signing, detouring, barricading, etc., heretofore and hereinafter specified that is required for that particular day's schedule of operations. No construction shall be permitted until such signing and detouring operations have been completed and approved by the City.

Personal vehicles of the Contractor's employees shall only be parked in an allowed area as delineated by the City, and shall not be parked on the traveled way at any time, including any section closed to public traffic.

Flashing Arrow Signs:

Each flashing arrow sign shall be solar powered, mounted on a truck or on a trailer and shall be capable of operating while the vehicle is moving or as directed by the City.

Signs mounted on the cab of a truck shall be mounted to provide a minimum of 7 feet between the bottom of the sign and the roadway. Signs mounted on a trailer, or on anything other than the cab of a truck, shall be mounted to provide a minimum of 8 feet between the bottom of the sign and the roadway.

The total weight of trailer mounted flashing arrow sign including the trailer, sign, power source and other components shall not exceed 1,500 pounds and the height of the level trailer bed shall be no higher than 21 inches above the roadway. The trailer shall be equipped with a minimum of 3 leveling jacks.

Alternative types of lamps may be used in flashing arrow signs if visibility is equal to the specified lamps. Each type AX flashing arrow sign shall be a minimum of 2 feet high and 4 feet wide, and shall be finished with flat black enamel. A minimum of 13 No.4414AX 12-volt, yellow or amber lamps shall be installed in the panel. The lamp configuration shall be for 3 arrowheads or an arrow shaft with 2 arrowheads, one pointing in each direction on the face of the sign with a minimum of 5 lamps forming each arrowhead. Each lamp shall be provided with a visor.

The lamp shall be activated by a switch on a control panel and shall be controlled by electronic circuitry to provide a minimum of 4 selectable modes of operation as follows:

1. Pass Left Mode, - Sequencing of lighted arrowheads or sequencing the lamps forming the arrow shaft and arrowhead to the left or a flashing left arrow with the lamps in the arrow shaft and arrowhead flashing on and off simultaneously.

2. Pass Right Mode, - Sequencing of lighted arrowheads or sequencing the lamps forming the arrow shaft and arrowhead to the right or a flashing right arrow with the lamps in the arrow shaft and arrowhead flashing on and off simultaneously.

3. Simultaneous Mode, - Either the outside arrowheads pointing in opposite directions are continuously illuminated, except for the center lamp forming each arrowhead, while the arrow shaft lamps flash on and off simultaneously or the outside arrowhead pointing in opposite directions and the arrow shaft lamps all flash simultaneously to indicate passing on either side.

4. Travel Mode, - Travel or caution mode shall flash in a manner not resembling any other mode.

Lane Requirements:

There shall be a minimum of 5’ clearance from open excavations and two feet from other obstructions (curbs, k-rail, etc). All lanes shall be open to traffic during non-working hours.

The Contractor shall be required to use flashing arrow signs at all lane closures to direct travel and appropriate detour signing to control traffic through and/or around the construction area.

The Contractor will not be allowed to excavate a larger quantity of area (“digouts”) than can successfully be repaved in the same working day. No incomplete paving work will be allowed to remain during the hours designated as requiring “all” lanes open to traffic, except in specific instances in which a minor amount of area can safely be covered by approved means with non-skid steel plates, capable of carrying H-20 wheel loading, or patched with temporary AC to bring the excavation up to grade. Said temporary AC shall be ground down to permanent AC sub-grades and approved by the City prior to placement of any additional permanent AC.

Excavations of less than 4’ in width may be covered with non-skid steel plates capable of carrying H-20 wheel loading over the span of the excavation. Plates shall have a minimum width equal to the excavation width plus 24 inches and be securely fastened to the street surface. Asphalt fillers, a minimum of 6 inches wide shall be placed around the perimeter of the plate. When traffic is transferred to any type of temporary pavement surface good drivability of the surfaces shall be maintained and shall be subject to approval by the City prior to allowing traffic to be transferred upon it.

The Contractor shall also ensure that access to all side streets and driveways are maintained at all times. Work in front of or within driveways and side streets shall be conducted in a manner where at no time is access to property denied. Portions of driveway approaches that are not ready to be opened for traffic at the end of the workday shall be steel plated per the requirements noted in the previous paragraph. The Contractor shall use temporary AC surfacing at his own expense for traffic control as required to maintain traffic in a safe non-disruptive manner.

SECTION 6 - PROSECUTION AND PROGRESS OF WORK

6-1 CONSTRUCTION SCHEDULE AND COMMENCEMENT OF WORK.

6-1.0 General. [Add the following section]:

The Contractor's proposed Construction Schedule shall be submitted to the Engineer within ten (10) working days after the date of the Notice of Award of Contract. The schedule shall be supported by written statements from each supplier of materials or equipment indicating that all orders have been placed and acknowledged, and setting forth the dates that each item will be

delivered. The schedule shall establish the order of work which minimizes disruption of existing travel lanes.

Prior to issuing the Notice to Proceed, the Engineer will schedule a preconstruction meeting with the respective Contractor to review the proposed Construction Schedule and delivery dates, arrange the utility coordination, discuss construction methods, and clarify inspection procedures.

The Contractor shall submit periodic Progress Reports to the Engineer by the tenth day of each month. The report shall include an updated Construction Schedule. Any deviations from the original schedule shall be explained. Liquidated damages will be assessed pending receipt of any outstanding reports, as set forth in Section 6-9.1 below.

6-1.3 Construction Schedule (Critical Path Method) [Add the following section]:

The Contractor shall submit to the Engineer practicable critical path method (CPM) progress schedules in conformance with these Special Provisions. Whenever the term “schedule” is used in this section it shall mean CPM progress schedule illustrated by the Gantt Bar method. The schedule shall be prepared by qualified and experienced scheduling staff.

Schedules shall show the order in which the Contractor proposes to carry out the work with logical links between time-scaled work activities, and calculations made using the critical path method to determine the controlling operation or operations. The Contractor is responsible for assuring that all activity sequences are logical and that each schedule shows a coordinated plan for complete performance of the work.

The Contractor shall produce schedules using computer software and shall furnish compatible software for the Engineer’s exclusive possession and use. The Contractor shall furnish network diagrams, narrative reports, tabular reports and schedule data as parts of each schedule submittal.

The number of activities shall be sufficient to assure adequate planning of the Project, to permit monitoring and evaluation of progress, and to do an analysis of time impacts.

Schedule activities shall include the following:

A. A clear legible description.

B. Start and finish dates.

C. A duration of not less than one working day, except for event activities, and not more than 20 working days, unless otherwise authorized by the Engineer.

D. At least one predecessor and one successor activity, except for Project start and finish milestones.

E. Required constraints.

F. Codes for responsibility, stage, work shifts, location and contract pay item numbers.

The Contractor may show a scheduled completion date that is later than the Contract completion date on an update schedule, after the baseline schedule is accepted. The Contractor shall provide an explanation for a late scheduled completion date in the narrative report that is included with the schedule.

The Engineer's review and acceptance of schedules shall not waive any Contract requirements and shall not relieve the Contractor of any obligation thereunder or responsibility for submitting complete and accurate information. Schedules that are rejected shall be correct by the Contract and resubmitted to the Engineer within five (5) working days of notification by the Engineer, at which time a new review period of one week will begin.

Errors or omissions on schedules shall not relieve the contractor from finishing all work within the time limit specified for completion of the Contract. If, after, a schedule has been accepted by the Engineer, either the Contractor or the Engineer discovers that any aspect of the schedule has an error or omission, it shall be corrected by the Contractor on the next schedule.

Payment for the Project schedule and revisions/updates to the schedule shall be made under other items of work and no additional payment shall be made therefore.

6-1.4 Acceleration. [Add the following section]:

The City reserves the right to accelerate the work of the Contract at any time during its performance. In the event the City directs acceleration, such directive will be given to the Contractor in writing. The Contractor shall keep cost and other Project records related to the acceleration directive separately from the normal Project cost records and shall provide a written record of acceleration costs to the City on a daily basis.

In the event the Contractor believes that some action or inaction on the part of the City constitutes an acceleration directive, the Contractor shall immediately notify the City in writing that the Contractor considers the actions or inactions an acceleration directive. The Contractor shall not accelerate their work efforts until the City responds to the written notification. If acceleration is then directed or required by the City, all cost records referred to in the previous paragraph shall be maintained by the Contractor and provided to the City on a daily basis.

In order to recover additional costs due to acceleration, the Contractor must document that additional expenses were incurred and paid by the Contractor. Labor costs recoverable will only be overtime or shift premium costs or the cost of additional laborers brought to the site to accomplish the accelerated work effort. Equipment costs recoverable will only be the cost of added equipment mobilized to the site to accomplish the accelerated work effort.

6-2 PROSECUTION OF THE WORK [Replace the first sentence the following:]

To minimize public inconvenience and possible hazard and to restore street and other work areas to their original condition and state of usefulness as soon as practicable, the Contractor shall diligent prosecute the Work to completion and ensure that the construction of ARHM or FRAC overlay for any given portion of the roadway is completed no later than two (2) working days following the cold-milling of the same portion of roadway.

[Add to this section]

Construction Phasing/Scheduling Limitations:

- Construction Phasing:
    - Contractor shall submit a construction phasing plan to the City for review and approval prior to starting work. Phasing plans shall be prepared in accordance with the phasing requirements and the conditions included in the project specifications.

- Traffic Control:
    - Traffic Control setup at each location shall confirm to CA-MUTCD (Latest Edition) requirements and typical applications and shall be maintained on a daily basis by the contractor.
- Resident Access:
    - Contractor shall ensure that access is maintained in the morning and open by the end of each working day for each resident within the project limits. Working hours, as stated in Section 6-3, shall be maintained, and the contractor's operations shall be phased in such a manner to allow full access to residents during non-working hours.
- Localized Concrete Improvements (Curb/Gutter, Ramps, etc.):
    - All concrete improvements shall be completed prior to the start of any pavement grinding or reconstruction activities.
    - Contractor's operations shall be scheduled in such a way that no ramp or portion of sidewalk is left excavated, demolished, or formed over the weekend.
    - It shall be the contractor's responsibility to properly barricade the work area during non-working hours and to set up appropriate pedestrian detour/signage until the work is completed
    - Driveway access to each property shall be maintained at the end of each working day. Contractor shall ramp or plate the driveways to maintain access.
- Reconstruction Roadway Sections:
    - For roadways designated for reconstruction, phasing for each operation shall be scheduled as follows:
        - CMB installation shall be completed on the same day as the roadway demolition activities. No segment shall be left open overnight, and full access shall be maintained at the start and end of each working day.
        - Base paving asphalt for roadway segments designated to be reconstructed shall be installed no later than 5 working days after the start of roadway demolition.
        - Finished course paving for roadway segments designated to be reconstructed shall be installed no later than 10 working days after the base course paving operations for the given segment.
- Grind and/or Overlay Roadway Sections:
    - For roadways designated for grind and/or overlay, phasing for each operations shall be scheduled as follows:
    - Pavement transitions at the edge of each ground area shall be installed at the end of each work day and maintained for the duration of the project.

- Pavement dig outs and patching shall be completed within 5 working days of the start of the pavement grinding operations.

- Final paving shall be installed no later than 2 working days after the start of the pavement grinding operations.

- Slurry Seal Roadway Sections:

  - For roadways designated for slurry seal, phasing for each operation shall be scheduled as follows:

    - Contractor shall first perform weed abatement and crack sealing on all roadway segments identified for slurry seal per the project specification requirements.

    - Contractor shall locate and remove distressed portions of pavement per "Roadway Patching – Slurry Portion" below. No segment of Roadway Patching shall be left open overnight, and full access shall be maintained at the start and end of each working day.

    - Cleaning, roadway preparations, application and finishing of the slurry seal shall occur the same day

- Roadway Patching – Mill & Overlay Portion:

  - Roadway patching operations shall be scheduled PRIOR to the cold milling operations and prior to the final FRAC or ARHM overlay.

  - All localized roadway reconstruction patches shall be backfilled and compacted with base paving asphalt on the same day of excavation. No open excavations will be allowed at the end of the work day.

- Roadway Patching – Slurry Portion:

  - Roadway patching operations shall be scheduled PRIOR to the final RAP Slurry Seal.

  - All localized roadway reconstruction patches shall be paved and compacted with base paving asphalt on the same day of excavation. No open excavations will be allowed at the end of the work day.

- Asphalt Paving:

  - Roadway closures on arterial streets will not be allowed.

  - Contractor to coordinate with City regarding pavement phasing and requested work limits.

  - Roadway paving shall occur no later than 2 working days after the date of the cold milling operation.

6-3 TIME OF COMPLETION.

6-3.1 General. [Add the following to this section]:

The time for completion shall be as set forth in the General Specifications.

“The Contractor shall complete all work under the Contract within sixty (60) consecutive working days after the date on the Notice to Proceed.

The Contractor shall ensure the availability of all material prior to the start of work. Unavailability of material will not be sufficient reason to grant the Contractor an extension of time for 100 percent completion of work.”

Working Days. “Any City holiday, defined as January 1st, the third Monday in January (Martin Luther King Day), the third Monday in February (President's Day), the last Monday in May (Memorial Day), July 4th, the first Monday in September (Labor Day), November 11th (Veterans Day), the fourth Thursday and Friday in November (Thanksgiving and Friday after), December 24th through December 31st.”

Working Hours. Normal working hours are limited to 8:30 a.m. to 4:30 p.m., Monday through Friday.

The Contractor, subcontractors, suppliers, etc., shall not generate any noise at the work site, storage sites, staging areas, etc., before or after the normal working hours prescribed above.

Should the Contractor elect to work outside normal working hours, Contractor must first obtain special permission from the Engineer. The request may be for 4:30 p.m. to 6:30 p.m. on weekdays or 8:30 a.m. to 4:30 p.m. on Saturday only. A request for working during any of these hours must be made at least 72 hours in advance of the desired time period. A separate request must be made for each work shift. The Engineer reserves the right to deny any or all such requests. Additionally, the Contractor shall pay for supplemental inspection costs of $205.00 per hour when such time periods are approved.

6-3.2 Contract Time Accounting. [Add the following to this section]:

The Contractor's activities shall be confined to the hours between 8:30 AM and 4:30 PM, Monday through Friday, excluding holidays, unless otherwise specified. Slurry seal application operations, if any shall terminate no later than 1:30 PM of each working day or at the determination of the Engineer. Slurry seal application operations shall occur within two (2) days after scheduled trash pickup days. Work shall be prohibited any time on Saturday, Sunday or Federal Holidays except as provided herein. Deviation from these hours will not be permitted without the prior consent of the Engineer, except in emergencies involving immediate hazard to persons or property.

In the event of either a requested or emergency deviation, inspection service fees will be charged against the Contractor. The service fees will be calculated at overtime rates (premium time) including benefits, overhead, and travel time and are established based on the City’s current fee schedule or professional services agreement for construction inspection services. The service fees will be deducted from any amounts due the Contractor.

Construction activities during City Special Events may be restricted by City to exclude all or part of the work on primary arterial or access roads to the Special Events as determined by Engineer. The Contractor shall be responsible to ascertain the exact times of any such events within his proposed construction schedule which may restrict his operation and shall adjust his schedule accordingly. The construction restrictions shall only be for the actual days the events occur. All costs for maintaining traffic control, protection of work site and re-mobilization shall be deemed

as included in the lump sum contract for their respective items and no additional compensation will be allowed.

6-3.3 Completion, Acceptance, and Warranty. [Add the following section]:

Work will be deemed completed on the same date when the Notice of Completion is recorded with the County of Orange.

6-4 DELAYS AND EXTENSIONS OF TIME

6-4.1 General [Add the following to the end of this section:]

No time extension shall be granted unless the claimed delay meets each and every of the following conditions:

(a) The delay was caused by unforeseen events and was beyond the control of Contractor and its subcontractors and material suppliers;

(b) The delay was caused by events of which Contractor was not advised at or before the time of bidding;

(c) The delay impacted and delayed (i) the controlling items of Work (i.e., the as-built critical path, as determined from the as-planned schedule and the actual progress of the Work), or (ii) the Completion of the whole Work within the Contract time;

(d) The delay was not caused by Contractor or its subcontractors or suppliers, including but not limited to their breaches of contract or the standard of care;

(e) The delay was not associated with loss of time resulting from the necessity of submittals to CITY for approval, or from necessary CITY surveys, measurements, inspections and testing;

(f) The delay was not caused by usual or common weather for the time of year, including usual or common severe weather; and

(g) The delay could not have been prevented by the exercise of care, prudence, foresight, and diligence by Contractor.

Excusable delays may include acts of God, acts of public enemy, acts of the Owner or anyone employed by it, acts of another contractor in performance of a contract (other than this Contract) with the CITY, fires, floods, epidemics, quarantine restrictions, labor disputes, unusually and uncommonly severe weather for the time of year, unforeseen site conditions, or delays of subcontractors due to such causes. CITY shall take into consideration other relevant factors such as concurrent delays.

Contractor has the burden of proving that any delay was excusable, including but not limited to an analysis that establishes no concurrency.

No extension of time will be granted for an excusable delay caused by a shortage of materials unless the Contractor furnishes to the Engineer documentary proof that the Contractor has made every effort to obtain the materials from all known sources within reasonable reach of the Work in a diligent and timely manner, and further proof in the form of supplementary progress schedules that the inability to obtain the materials when originally planned did in fact cause a delay in final Completion of the entire Work which could not be compensated for by revising the

sequence of the Contractor's operations. The term "shortage of materials" shall apply only to materials, articles, parts or equipment which are standard items and are to be incorporated in the Work. The term "shortage of materials" shall not apply to materials, parts, articles or equipment which are processed, made, constructed, fabricated or manufactured to meet the specific requirements of the contract. Only the physical shortage of material will be considered under these provisions as a cause for extension of time. Delays in obtaining materials due to priority in filling orders will not constitute a shortage of materials.

6-4.3 Payment for Delays [Replace paragraph with the following:]

To be compensable, an excusable delay must be one for which the CITY is responsible, where the delay was unreasonable under the circumstances involved, and where the delay was not within the contemplation of the parties; **however**, Contractor shall not be entitled to monetary compensation when (a) Contractor could have reasonably anticipated the delay and avoided or minimized the cost impacts of it, such as judicious handling of forces, equipment, or plant, (b) there was a concurrent delay which does not qualify for monetary compensation under this paragraph, (c) the cause of the delay was reasonably unforeseen by the CITY or the delay was caused by factors beyond the control of the CITY, including but not limited to a delay under Section 2.2.8 above or a delay caused by a utility company's failure to perform despite CITY's reasonable arrangements for such performance; or (d) any other defense available to CITY under law or equity applies. Contractor has the burden of proving that any delay was excusable and compensable, including an analysis that establishes non-concurrency.

The Contractor may not seek damages for delay of a planned Completion of the Work before the contractual deadline for Completion of the Work.

6-9 LIQUIDATED DAMAGES. [Add the following to this section]:

It is agreed by the parties to the Contract that time is of the essence and that in the case that all the work is not complete before or upon the expiration of the time limit set forth, damage will be sustained by the City. For each consecutive calendar day in excess of the time specified for the completion of the work, the Contractor shall pay to the City $2,500.00. In addition, the City shall have the right to charge to the Contractor and to deduct from payments for the work the actual cost to the City of engineering, inspection, superintendence, and other overhead expenses, which are directly chargeable to the Contract and which accrue during the period of such delay. The expenses and damages described above shall be deducted from any money due the Contractor under this contract. The Contractor and his sureties shall be liable for any excess cost.

6-9.1 Additional Liquidated Damages. [Add the following section]:

Additional liquidated damages will also be assessed in the amount of $500.00 per calendar day for failure to follow a construction schedule or timely submit periodic progress reports as described in Section 6 of these Special Provisions.

Additional liquidated damages will also be assessed in the amount of $500.00 per calendar day for failure to mobilize to the Project site within 10 working days of the date of the Notice of Proceed as specified in these Special Provisions.

Additional liquidated damages shall be assessed in the amount of $1,000.00 per day for failure to restore damaged utilities within three (3) working days as specified in Section 5 of these Special Provisions.

Additional liquidated damages shall be assessed in the amount of $500.00 per incident that the Contractor reduces the traveled way width beyond the hours specified in Section 7-10 of these Special Provisions without written authorization from the City.

Additional liquidated damages shall be assessed in the amount of $500.00 per day for failure to comply with, or implement, or maintain the Storm Water Pollution Protection Plan (SWPPP) or Water Pollution Control Plan (WPCP), as required, by the City's NPDES permit with the Santa Ana or San Diego Regional Water Quality Board.

Additional liquidated damages shall be assessed in the amount of $500.00 per incident that the Contractor fails to install the Best Management Practices (BMP's) within 24 hours of notification as described in Section 7-8.6.2 of the Special Provisions.

SECTION 7 - MEASUREMENT AND PAYMENT

7-3 PAYMENT.

7-3.2 Partial and Final Payment. [Add the following to this section]:

The closure date for periodic progress payments will be five (5) working days prior to the first Monday of each month. The final progress payment will not be released until the Contractor returns the control set of Plans and Specifications showing the as-constructed conditions. The City shall withhold from the final payment $15,000 in the event that the Contractor fails to return the control set of Plans and Specifications showing the as-constructed conditions.

SUBSTITUTION OF SECURITIES

In conformance with Public Contract Code Section 22300, the Contractor may substitute securities for any monies withheld by the City to ensure performance under the Contract Agreement.

At the request and expense of the Contractor, the Contractor has the option to deposit securities, which have been approved by the City, and deposited with a State or Federally chartered bank as the escrow agent. Said securities will be used as a substitute for retention earnings required to be withheld by the City, pursuant to the construction contract. The Contractor shall be the beneficial owner of any securities substituted for moneys withheld and shall receive interest thereon. Said securities shall have no obligation to any other construction contract for substitution of securities in lieu of retention. When the Contractor deposits the City approved securities with the escrow agent, the escrow agent shall notify the City within 10 calendar days of the deposit. Said securities shall be evaluated quarterly by the escrow agent to verify the current market value. If the current market value of said securities falls below the required amount, the escrow agent shall notify the Contractor and require additional securities and/or cash to be submitted for City approval, and be held in the escrow account to meet the Contractor's obligations. Said securities shall be held by the escrow agent until such time as the escrow agent receives written notification from the City that the Contractor has satisfactorily completed his contract obligations.

Alternatively, the Contractor may request and the City shall make payment of retention earned directly to the escrow agent at the expense of the Contractor. The Contractor may direct the investment of the payment into securities and the Contractor shall receive the interest earned on the investments upon the same terms provided for securities deposited by the Contractor.

The type of securities deposited and the method of release shall be approved by the City Attorney's office.

The full five percent (5%) retention will be deducted from all payments. The City shall hold retainage from the Contractor and shall make prompt and regular incremental acceptances of portions, as determined by the City, of the Contract work, and pay retainage to the Contractor based on these acceptances. The Contractor, or subcontractor, shall return all monies withheld in retention from a subcontractor within 30 days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the Contract work by the City. Federal law (49 CFR Section 26.29) requires that any delay or postponement of payment over 30 days may take place only for good cause and with the City's prior written approval. Any violation of this provision shall subject the violating Contractor or subcontractor to the penalties, sanctions and other remedies specified in Section 7108.5 of the Business and Professions Code. These requirements shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to the Contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the Contractor, deficient subcontract performance, or noncompliance by a subcontractor.

The final retention will be authorized for payment thirty-five (35) days after the date of recordation of the Notice of Completion. . The City may withhold from release of the final retention amounts authorized under Public Contracts Code Sectio4n 7107 and/or 125% of amounts identified in any Stop Notices received by the City.

7-3.3 Delivered Materials. [Add the following to this section]:

Materials and equipment delivered but not incorporated into the work shall not be included in the estimate for progress payment.

7-3.4 Mobilization. [Add the following to this section]:

Mobilization shall consist of preparatory work and operations, including but not limited to those necessary for the movement of personnel, equipment, supplies, and incidentals to the Project site; for the establishment of all offices, buildings and other facilities necessary for the work on this Project; and for all other work and operations which must be performed or cost incurred prior to beginning work on the various contract items on the Project site. Mobilization is deemed to include all aspects of mobilization and de-mobilization work occurring during the life of the Project for any reason.

Full compensation for mobilization shall be included in the Contract **LUMP SUM** price bid for **Mobilization** and shall include full compensation for all costs incurred by the Contractor for doing all the work involved in mobilization as specified herein, and no additional compensation will be allowed. Mobilization shall not exceed 5% of the entire bid, excluding mobilization and as shown in the Proposal Bid Sheet.

7-3.5 Contract Unit Prices

7-3.5.1 General. [Replace with the following]:

If a change is ordered in an item of work covered by a Contract Unit Price, and such change does not involve substantial change in character of the work from that shown on the Plans or specified in the Specifications, then no adjustment in payment will be made regardless of the quantity of work performed.

If a change is ordered in an item of work covered by a Contract Unit Price, and such change does involve a substantial change in the character of the work from that shown on the Plans or specified in the Specifications, an adjustment in payment will be made per 7-3.7.

7-3.5.2 [Delete entire section]

7-3.5.3 [Delete entire Section]

7-3.7 Agreed Prices. [Replace with the following]:

Agreed Prices are prices for new or unforeseen work established by mutual agreement between the Contractor and the Agency. If mutual agreement cannot be reached, the Engineer may direct the Contractor to proceed on the basis of Extra Work in accordance with Section 7-4.

7-4 PAYMENT FOR EXTRA WORK.

7-4.2 Basis for Establishing Costs.

7-4.2.1 Labor [Amend as follows]:

Delete "Workers Compensation Insurance and Liability Insurance" from the "employer payments" in the first paragraph.

7-4.3 Markup.

7-4.3.1 Work by the Contractor. [Replace with the following]:

The following percentages shall be the maximum added to the Contractor's costs and shall constitute the markup for all overhead, profits, Workers Compensation Insurance & Liability Insurance;

1) Labor	20
2) Materials	15
3) Equipment Rental	15
4) Other Items and Expenditures	15

To the sum of the Costs and markups provided for this subsection, one percent shall be added as compensation for bonding. In any event, notwithstanding the above markups, the total labor mark-up shall not exceed 33% of the base labor hourly pay rate. No additional compensation shall be allowed.

7-4.3.2 Work by a Subcontractor. [Replace with the following]:

When all or any part of the extra work is performed by a Subcontractor, the markup established in 7-4.3.1 shall be applied to the Subcontractor's actual cost of work. A markup of ten percent (10%) on the first $5,000 of the subcontracted portion of the extra work and a markup of five percent (5%) on work added in excess of $5,000 of the subcontracted portion of the extra work may be added by the Contractor.

The markups mentioned hereinafter shall include, but are not limited to, all costs for all forms of insurance and the services of superintendents, project managers, timekeepers and other personnel not working directly on the change order and pickup or yard trucks used by the above personnel. These costs shall be reported as labor or equipment elsewhere except when actually performing work directly on the change order and then shall only be reported at the labor classification of the work performed.

7-8.6.3 STORM WATER POLLUTION PREVENTION

Construction activities will be conducted in a manner to protect channels, storm drains, and bodies of water from pollution. Water pollution control work shall consist of activities necessary to meet the requirements of the City's National Pollutant Discharge Elimination System (NPDES) Area wide Urban Storm Water Runoff Permit, the County's Drainage Area Management Plan (DAMP), The State's General Construction Activities Permit (Order No. 2022-0057-DWQ, NPDES No CAS000002, adopted September 8, 2022 and effective September 1, 2023), and as required by the Engineer. The Contractor shall coordinate water pollution control work with all other work done on the contract.

SECTION 9 – FACILITIES FOR CONTRACT PERSONNEL. [Add this section]:

9-1 EXTENDED FIELD OFFICE OVERHEAD COST.

Within fourteen (14) calendar days after receipt of the Notice to Proceed, the Contractor shall submit written statement to the City detailing its field office overhead costs which are time related. The City will review this first cost submittal and reach a written agreement with the Contractor on a daily field office overhead cost rate which shall be memorialized in a no cost change order. The daily rate agreed to in this change order will be applicable throughout the duration of the Contract. No field office costs will be paid until such an agreement is reached between the City and the Contractor and the change order concerning this daily rate is executed by both parties. Progress payments will be withheld pending receipt of the above-referenced cost submittal and executed change order.

The individual cost components of the daily field office overhead rate shall represent costs which increase as a direct result of any time extension caused solely and exclusively by an act or omission of the City. This listing may include such cost items as on-site project management, supervision, Engineering and clerical salaries; on-site utilities and rent; on-site company vehicles and their operating expenses; and site maintenance and security expenses. Field office overhead costs which are unaffected by increased time shall not be allowable cost in calculating the daily field office overhead rate. These non-time related costs include, but are not limited to, acquisition and installation of stationary equipment; temporary construction facilities; utilities and office furnishings (unless such items are rented or leased); the preparation of the site including clearing, grubbing, grading, fencing, mobilizations and demobilization costs; and the costs of permits, bonds and insurance coverage for the Project.

The individual wage cost components used to calculate the daily field office rate shall be supported by actual employee payroll records, not salary ranges or estimates. Hourly rates for management, supervisory, engineering, and clerical employees shall be based upon 2080 work hours per year and shall not include allowances for holidays, vacations, or sick time.

When applicable, the daily field office overhead rate shall be multiplied by the number of days the Contract is delayed or extended by change order and shall be added to the agreed upon change order cost. The days of delay shall be those caused solely by the acts or omissions of the City and documented by a time impact analysis prepared and submitted by the Contractor. In the event a deductive change order is issued which reduces time under the Contract, the daily field office overhead rate shall be used to calculate the deductive amount. No allowance for overhead costs and no profit allowance shall be added to the extended field office overhead cost.

SECTION 10 - RESPONSIBILITIES OF THE CONTRACTOR [Add this section]:

10-1 CONTRACTOR'S EQUIPMENT AND FACILITIES.

10-1.1 General.

Conduct of the Work. The Contractor shall behave, at all times, in a courteous, professional manner. While on site, or entering or exiting the site, there shall be no extraneous activity that might cause disruption to the Project site, surrounding areas, or residents. Failure to comply may result in the suspension of work, or removal of contractor's staff from the Project.

Noise Levels. A noise level limit of 86 dbA at a distance of fifty feet (50') shall apply to all construction equipment on or related to the job whether owned by the Contractor or not. The use of excessively loud warning signals shall be avoided except in those cases required for the protection of personnel.

10-2 COOPERATION AND COLLATERAL WORK.

The Contractor is advised as to the possibility of other construction projects within the proposed construction zone by the City, other governing agencies or private enterprises. In the event of such projects, the Contractor shall coordinate with the applicable parties as to the extent of any time required to complete their work and shall schedule its work and conduct its operations so as to permit access and time as required for the concurrent work. The Contractor shall immediately notify the City Engineer in the event of a delay in scheduling caused solely by this concurrent work. Payment for the above, if any, shall be deemed as included in the items of work as shown on the proposal bid sheet and no additional compensation will be allowed.

10-3 PROJECT SITE MAINTENANCE.

10-3.1 Cleanup and Dust Control.

The Contractor shall keep adjacent properties clean and free of rubbish and debris in a timely manner as necessary and/or as directed by the Engineer.

The Contractor shall implement effective handling, storage, usage, and disposal practices to control material pollution and manage waste and nonstormwater at the job site before they come in contact with storm drain systems and receiving waters.

10-3.1.1 Construction Cleaning [Add the following section]:

The Contractor shall:

(a) Initiate and maintain a daily program to prevent accumulation of debris on-site and along access roads and haul routes. Maintain areas under Contractor's control free of waste materials, debris, weeds 6" high, and rubbish. Maintain site in a clean and orderly condition.

(b) Provide suitable covered containers for deposit of debris and rubbish. Dispose of accumulation of extraneous materials, prohibit overloading of trucks to prevent spillages on access and haul routes and provide daily inspection of haul routes to enforce requirements.

(c) The Contractor shall supply self-loading motorized street sweepers equipped with a functional water spray system as part of his daily program.

(d) Schedule at a minimum, weekly collection and disposal of debris. Provide additional collections and disposals of debris whenever the weekly schedule is inadequate to prevent

accumulation.

The Contractor shall remove debris from closed or remote spaces prior to closing the space, control cleaning operations to minimize dust and other particulates and immediately remove clay and earth which adhere to the paved surface of the roadway. Remove by hand scraping, washing, sweeping, and/or other method(s) which will leave a clean non-skid surface without impairing, injuring or loosening the surface.

The Contractor is required to control dust throughout the life of the Contract. The control may be required by job conditions or City Engineer. In any case, the Contractor shall use water or other means to control the dust. No chemical agents may be used without written authorization from the Agency. The Contractor shall be solely responsible for safety problems, accidents or any other complications or claims arising from inadequate dust control.

No separate payment will be made for any work performed or material used to control dust resulting from the Contractor's performance of the work, or by public traffic, either inside or outside the right-of-way. Full compensation for such dust control will be considered as included in the price paid for the various items of work involved.

No separate payment will be made for any work performed or material used in cleaning the Project. Full compensation for such cleaning shall be considered as included in the price paid for the various items of work involved and no additional compensation will be allowed therefore.

10-4 WATER POLLUTION CONTROL

10-4.1 Best Management Practices (BMPs)

Per the Federal Clean Water Act, the Contractor is required to eliminate pollution to waters of the United States in regards to this Project. This Project will require the Contractor to implement "Best Management Practices".

The Contractor shall submit a Water Pollution Control Plan (WPCP) as detailed in Appendix A. The Contractor shall confirm that all of the Best Management Practices (BMP's) have been adequately detailed that addresses his or her anticipated construction operations and meets the intent of the NPDES requirements. The Contractor shall obtain a Notice of Intent (NOI) from the State Water Resources Control Board and pay all related fees. The NOI shall be submitted as part of the WPCP. After the Notice of Award, the Contractor shall submit to the City a finalized and signed WPCP, which establishes the construction BMP requirements, for review and approval. No work will be allowed to begin without an approved WPCP on file with the City.

The Contractor shall utilize Best Management Practices (BMP's) outlined in the WPCP during construction to ensure that sediment from storm runoff and construction activities does not enter storm drains. Some of the primary Water Pollution Control measures anticipated for this Project include, but are not limited to, covering all storm drain inlets in the Project vicinity with water permeable fabric and gravel bags prior to performing any adjacent AC grinding, removal or paving operations or PCC ramp lip grinding; properly fueling and cleaning all equipment/vehicles; maintaining an ample supply of gravel/sand bags on-hand when excavating new PCC sidewalk/ramp/curb/gutter improvements in the event of rain; properly containing all PCC treatment materials such as the coloring agents, exposed aggregate etching chemicals and surface treatment chemicals required to install the detectable warning mats; properly covering all incoming material trucks and all out going debris hauling vehicles; providing restroom facilities for workers; and regular street sweeping of the work area and haul routes to the satisfaction of the Owner's Representative.

The requirements of all of the following agencies shall be met and maintained and where there is a conflict between requirements, the most stringent requirement shall govern.

1. San Diego Regional Water Quality Control Board
2. Santa Ana Regional Water Quality Control Board
3. County of Orange

10-5 TRAFFIC CONTROL PLAN (TCP).

It shall be the Contractor's responsibility to furnish a detailed traffic control plan prepared and stamped/signed by a licensed civil or traffic engineer licensed in the State of California for City approval. Detours shall be in accordance with Caltrans standards. The Contractor shall submit detailed drawings of any proposed detour(s)/lane closures to the City Engineer for approval prior to the commencement of work. **The traffic control plans shall be submitted to the City for review and approval within 10 working days after the date of the Notice of Award.**

10-6 CONTRACTORS RESPONSIBILITIES FOR WORK

Until Acceptance of the Work, the Contractor shall have the responsibility, charge and care of the Work and of the materials to be used therein (including materials for which it has received partial payment or materials which have been furnished by the City) and shall bear the risk of injury, loss or damage to any part thereof by the action of the elements or from any other cause, whether arising from the execution or from the non-execution of the Work.

The Contractor shall rebuild, repair, restore, and make good all injuries, losses, or damages to any portion of the work or the material occasioned by any cause before its completion and acceptance and shall bear the expense thereof. Where necessary to protect the work or materials from damage, the Contractor shall at his expense provide suitable drainage and erect such temporary structures as are necessary to protect the work or materials from damage. The suspension of the work from any cause whatever shall not relieve the Contractor of his responsibility for the work and materials as herein specified. If ordered by the City Engineer, the Contractor shall at his expense properly store materials which have been partially paid for by the City or which have been furnished by the City. Such storage by the Contractor shall be on behalf of the City, the City shall at all times be entitled to the possession of such materials, and the Contractor shall promptly return the same to the site of the work when requested. The Contractor shall not dispose of any of the materials so stored, except on written authorization from the City.

In an emergency affecting the safety of life or property, including adjoining property, the Contractor, without special instructions or authorizations, is authorized to act at his discretion to prevent such threatened loss or injury, and he shall so act as though instructed to do so by the City.

PART 2 - CONSTRUCTION MATERIALS

SECTION 200 – ROCK MATERIALS

200-1 ROCK PRODUCTS.

200-1.1 General. [Add the following to this section]:

Alternate Rock Material - Type "S" is specified unless otherwise indicated.

The weight loss as determined by ASTM C131, shall not exceed 15 percent during 100 revolutions nor 52 percent during 500 revolutions.

Specified gradations represent the limits which determine the suitability of aggregate for use. Actual gradation shall be uniformly graded from coarse through fine, remaining proportionately distant from these limits

Coarse aggregate is material retained on the No. 4 (4.75 mm) sieve and fine aggregate is material passing the No. 4 (4.75 mm) sieve.

Materials may be sampled at any time until final formal acceptable of the Work.

200-1.1.3 Source. [Add the following section]:

Before beginning Portland cement concrete, asphalt concrete, and slurry seal work, the Contractor shall submit the name of the supplier to the Engineer as specified in 3-8. The supplier shall have on file with the Agency mix designs for Porland cement concrete conforming to 201-1.1, asphalt concrete conforming to 203-6.2, and slurry seal conforming to 203-5.4.2, when required by Specifications.

200-1.1.2 Statistical Testing. [Add the following to this section]:

Whenever the results of an individual test for any property of a material, other than concrete compressive strength, does not comply with the limits specified for the moving average should the next test be of the same value as that of the test being considered, the production of that material shall be suspended until corrective changes have been made by the Contractor and test indicate that the quality of the next material to be used in the work complies with that specified moving average.

SECTION 201 – CONCRETE, MORTAR, AND RELATED MATERIALS

201-1 PORTLAND CEMENT CONCRETE.

201-1.1 Requirements.

201-1.1.1 General. [Add the following to this section]:

The same brand, type and source of cement and aggregate shall be used for all Portland Cement Concrete. All concrete used on the Project shall be 560-C-3250. Type V cement shall be used.

201-1.2 Materials.

201-1.2.1 Cement. [Add the following]:

Portland cement shall be Type II or Type V.

201-1.2.5.3 Fly Ash. [Delete this Section and Add the following]:

Fly ash shall not be used.

201-2 reinforcement for CONCRETE.

201-2.2 Steel Reinforcement. [Add the following]:

All reinforcing steel shall be Grade 60 unless otherwise shown on Plans.

SECTION 203 - BITUMINOUS MATERIALS

203-5.2 Mix Design. [Add the following to this section]:

The tests and mix design shall be performed by a laboratory capable of performing the applicable ASTM tests. The original laboratory report shall be signed by the laboratory that performed the tests/mix design and shall show the results of the tests on individual materials, comparing the test results to those required by the applicable ASTM tests. The laboratory shall report the quantitative effects of moisture content on the unit weight of the aggregate (bulking effect). The report shall clearly show the proportions of aggregate, filler (as determined from the tests, minimum and maximum), water (minimum and maximum), the design proportions of each component including additives, all test results used in producing the mix design and asphalt solids content based on the dry weight of aggregate and set-control agent usage. The Contractor shall submit for City approval the source of the rock and the gradation.

Prior to the time of delivery of each shipment of emulsified asphalt, the Contractor shall submit to the City test reports and certifications in accordance with Section 203-1.3 of the Standard Specifications. At the time of delivery of each shipment of aggregate, he shall also submit test reports from his vendors. No material shall be utilized until the certified reports have been checked by the City. Delays by the Contractor in furnishing the reports will not be grounds for any extension of Contract time.

The Agency will require up to 10 working days, from the time of receipt of the mix design, for evaluation of the material characteristics. This mix design will be used for the trial batches and test strips as described in Section 302-4.4.

203-5.4.2.1 Aggregate. [Add the following to this section]:

The grading of the combined aggregate and the percentage of emulsified asphalt shall be Type II and shall conform to the requirements indicated in Table 203-5.4.2.2.

Aggregate shall be dark in color from one material source.

203-5.4.2.4 Latex. [Add the following to this section]:

The emulsified asphalt shall have an additive of latex Ultra Pave 65K or approved equal. The latex shall be added at the emulsion plant after weighing the asphalt and before the addition of mixing water. The latex shall be added at a rate of two (2) percent of the weight of the emulsified asphalt. The cost for the latex additive shall be included in the unit price bid for Type II Slurry Seal.

SECTION 211 - MATERIAL TESTS

211-1 COMPACTION TESTS

211-1.1 Laboratory Maximum Density [Replace with the following:]

Laboratory maximum density tests shall be performed in accordance with Test Method No. Calif. 216G, Part II. The correction for oversized material as stated in Test Method No. Calif. 216 shall be replaced with Note 2 of ASTM D1557.

Proposed off-site fill material shall be inspected, tested and laboratory report issued prior to use in the work. Suitable excavated materials removed to accommodate new construction may be used as fill material subject to Soils Engineer's inspection and approval.

211-1.2 Field Density. [Add the following to this section]:

Field density tests will be made by the Engineer during the course of construction at the expense of the CITY. If field density tests indicate that any portion of the compacted sub-grade has density lower than that specified, the Contractor shall rework that portion until the specified density is

obtained. Retest of areas, which have failed compaction, will be performed by the Engineer at the Contractor's expense.

PART 3 - CONSTRUCTION METHODS

SECTION 300 EARTHWORK

300-1 CLEARING AND GRUBBING

300-1.1 General. [Add the following to this section]:

In addition to the work outlined in Subsection 300-1 of the Standard Specifications, the following items of work are included under Clearing and Grubbing unless otherwise covered by a specific bid item.

1. Mobilization work and operations per Subsection 7-3.4.
2. Documentation of existing conditions per Subsection 300-1.2 of these specifications.
3. Hand removal and disposal of all vegetation, trees, tree roots, trash and other objectionable material from the affected portion of the project and areas adjoining thereto.
4. Maintain dust control at all times by sweeping; including developing a water supply and furnishing and placing all water required for work done in the contract, including water used for extra work and water used for irrigation purposes.
5. Protection of utilities, trees, shrubs, fences, walls, and other facilities within the construction zone, except those specifically directed by the Engineer to be removed or relocated.
6. Daily cleanup work site including streets, sidewalks and driveways. Daily litter removal. Daily and as needed street sweeping as specified herein. Recycling of waste materials and provisions for refuse containers from CR&R.
7. Clearing and removal of debris from site of work.
8. Removal of structures, as directed by Engineer to be removed or abandoned.
9. Delay in work necessary to accommodate utility relocations by others.
10. Other items of work as directed in these specifications.

300-1.1.1 Preservation of Property. [Add the following section]:

Prior to start of demolition, the Contractor shall document existing conditions adjoining Project limits to establish preconstruction conditions that might be misconstrued as damage caused by site clearing. Contractor shall use sufficiently detailed photographs and videotape to document existing conditions of any damage. Contractor shall provide photographs and videotape to the Engineer upon request. Payment for this work shall be included in all other items of work and no additional compensation will be allowed.

300-1.2.1 Removal and Disposal of Materials. [Add the following section]:

All materials removed, except for materials indicated to be relocated or salvaged, become the property of the Contractor and shall be hauled to and lawfully disposed of at a site secured by the Contractor. The Contractor will provide the Engineer with a letter indicating the final disposition of materials hauled away and disposed offsite from the Project within five (5) working days after Project completion. No removed materials shall be left within the Project limits overnight.

Any existing irrigation system interfering with construction of new improvements shall be removed and relocated. Payment for removal and relocation of interfering existing irrigation system will be considered as included in the item of work interfering with the existing irrigation system and no additional compensation will be allowed.

Any curb drain or parkway drain within limits of removal shall be removed and replaced in kind. Payment for removal and reconstruction or curb drain and parkway drain will be considered as included in the item of work removing the adjacent curb or sidewalk and no additional compensation will be allowed.

Prior to the removal of materials, the Contractor shall coordinate with the regional notification center (Underground Service Alert of Southern California) to mark out all existing utilities per Section 402. Contractor shall confirm location and depth of all existing utilities per Section 402 in order to avoid damage to them during removal operations.

300-1.2 Root Pruning and Tree Trimming [Add the following]:

303-1.2.1 Root Pruning.

1. Cut tree roots along both side of walk area, and behind existing edges to a minimum of 20-inches deep.
2. Tree roots will not be cut up to the base of the trunk.
3. All tree root cutting will be approved by the City's representative.

Root pruning equipment shall be specifically designed for this purpose, sharpened adequately to sever roots in a clean manner, and equipped with padded tracks or rubber tires to prevent scraping or marking of sidewalks.

All cuts shall be backfilled whether immediately upon completion of root pruning or upon completion of sidewalk and curb and gutter repairs and root barrier installation provided that adequate warning devices are placed and maintained at each location. Backfill material shall consist of dirt, Crushed Aggregate Base or crushed miscellaneous base. The Contractor shall repair or replace sprinkler system and all utility service connections within the right-of-way which are damaged or removed as a result of the root pruning operation. Repairs shall be initiated immediately and completed by the end of each working day. Repairs and replacements shall be at least equal to existing improvements, and shall match them in finish and dimension, and will be done at Contractor's expense.

300-1.3.1 General. [Add to this section:]

The work shall be done in accordance with Section 300-1.3.2 of the Standard Specifications except as modified and supplemented herein. Joins to existing pavement lines shall be full depth sawcuts. Final removal between the sawcut lines may be accomplished by the use of jackhammers or sledgehammers. Pavement breakers or stompers will not be permitted on the job. The Engineer must approve final removal accomplished by other means.

The Contractor shall maintain the job site in a clean and safe condition. The Contractor will remove any broken concrete, debris or other deleterious material from the job site at the end of each workday. All areas of roadway removal and replacement shall have a minimum trench width of 3-feet to facilitate maximum compaction. Contractor shall meet with the Engineer to mark out the areas of roadway removal and replacement."

300-1.3.2 Requirements. [Add the following]:

(a) Bituminous Pavement. It shall be the Contractor's responsibility to dispose of all suitable bituminous pavement at a recycling facility. The expense for such work shall be deemed as included in the unit price for various items of work in the contract. No additional compensation will be allowed.

(c) Concrete Curb, Walk, Gutters, Cross Gutters, Driveways, and Alley Intersections. Replace the first sentence of this Section with: "Saw cuts shall be neatly

made to a minimum of two (2) inches." Replace the words "1-½ inch" of the last sentence with the words "two (2) inches".

(d) Miscellaneous

In addition to the work outlined in Subsection 300-1 of the Standard Specifications, the following items listed below will not be paid separately. The expenses for such work shall be deemed as included in the price bid for various bid items and no additional compensation will be allowed.

1. Tree removal and relocation, as required.
2. Removal of interfering portions of fences, planters, sign foundations, vegetation and irrigation systems.
3. Maintain dust control at all times by watering.
4. Protection of utilities, trees, fences, walls signs and other facilities within the construction zone, except those directed to be removed or relocated.
5. Relocation of existing parking bumpers, flag poles, posts, guard posts, curb drains, mailboxes and private property lighting systems not covered under other items of work.
6. Removal and salvaging of existing signs.
7. Removal and salvaging of existing bus shelters, street furniture and other appurtenances.
8. Removal of existing A.C. berm.
9. Removal of existing parkway drainage improvements such as curb drains, parkway culverts, etc.
10. All sawcutting of existing A.C. pavement and concrete pavement surfaces necessary to facilitate construction of the project.
11. Notifying owners of all newspaper machines and vending machines to remove their facilities from street. Contractor shall remove and dispose of said facilities if no action is taken by Owner.
12. Removal of any other items within the work zone which are not accounted for under individual items of work in these specifications.

300-1.5 Solid Waste Diversion. [Add section.]

Non reinforced concrete and asphalt wastes generated from the job site shall be disposed of at a facility that crushes such materials for reuse. Excess soil and other recyclable solid wastes shall not be disposed of at a sanitary landfill.

The Contractor shall maintain monthly tonnage records of total solid wastes generated and solid wastes disposed of at a sanitary landfill. The Contractor shall report said tonnage monthly to the Engineer on a form provided by the Engineer and provide appropriate confirmation documentation from the recycling facility.

300-2 UNCLASSIFIED EXCAVATION.

300-2.1 General [Add the following to this section]:

Unclassified Excavation shall consist of all saw cutting and excavation of existing roadway as necessary to construct the proposed AC "dig-out" improvements as directed by the Engineer.

Removals in AC pavement shall be minimum 3 inch depth and in PC concrete minimum 3 inch depth, or as directed by the Engineer.

Removal shall be done in accordance with Section 300-1 and Section 401 of the Standard Specifications and these Special Provisions.

The Contractor shall be responsible for locating and protecting manhole, water valve and utility access frames and covers or other metal appurtenances buried below the existing surface, whether shown on the plans or not.
All existing asphalt concrete pavement that is to be joined by new construction shall be saw cut in a straight line the full depth of the existing pavement. Contractor shall exercise due caution to avoid any disruption to the existing aggregate base that is to remain below the depth of removal called out on the plans. In addition, the Contractor shall not disturb or damage existing improvements to be protected in place. Any damage done by Contractor and/or its equipment shall be repaired or replaced as called out in Section 402 of the Standard Specifications at Contractor's expense. The Contractor shall call USA prior to excavation and shall “pothole” existing utilities that fall within the proposed pavement ‘dig-out” areas as necessary to determine their depth to avoid damaging said utilities.
Removal of existing pavement sections shall be to the depth required for construction of the replacement roadway sections as shown on the plans, estimated bid quantities (proposal) and/or as directed by the Engineer before or after the Cold Mill operation, and will include the removal of existing AC pavement and conflicting portions of aggregate base. All removed material becomes the property of the Contractor and shall be hauled and recycled/disposed of properly outside of the roadway right of way.
The use of pavement breaking equipment (stomper) is not permitted. No crushing operations by Contractor will be allowed at the job site or within the Laguna Hills City limits. Contractor shall price the unclassified excavation and other related bid items accordingly.
The Contractor shall excavate a length of section of roadway not to exceed the amount of removal and placement of AC base course that can be completed within the same working day. All excavations shall be backfilled as soon as permitted under the specifications so that when the job is closed for the day, the open excavation will be kept at a minimum and adjacent utilities will receive maximum backfill support.

300-4 UNCLASSIFIED FILL

SECTION 301 –SUBGRADE PREPARATION, TREATED MATERIALS, AND PLACEMENT OF BASE MATERIALS

301-1 SUBGRADE PREPARATION

301-1.3 Relative Compaction. [Add the following to this section]:

Cross gutters are to be placed directly on subgrade material which the top 6 inches has been compacted to a relative compaction of 95 percent.

SECTION 303 - CONCRETE AND MASONRY CONSTRUCTION

303-5 CONCRETE CURBS, WALKS, GUTTERS, AND CROSS GUTTERS, ALLEY INTERSECTIONS, ACCESS RAMPS, AND DRIVEWAYS

303-5.1 Requirements.

303-5.1.1 General. [Add the following to this Section]:

Saw cuts shall be made at existing joints or cracks or at least 8 feet from an existing joint or crack, and if the saw cut is made at an existing crack, the saw cut shall include the crack within the removal area. Spandrel shall be saw cut a maximum 2 inches from curb face minimum 3 inch depth.

The Contractor shall verify with a "smart level" that the ADA required maximum ramp and sidewalk grades are not exceeded both when marking the required saw cut removal limits and when setting the concrete forms, prior to pouring any curb ramp locations. **It shall be the Contractor's responsibility to supervise and utilize the proper experienced personnel to ensure that the proper saw cut limits are established for all curb ramp locations.** The City shall not be responsible to direct the Contactor's crews or otherwise serve in this management capacity. The City shall be present to verity the concrete forms, prior to pouring any PCC construction improvements.

The Contractor shall verify with a "smart level", string line and/or water testing that positive drainage is maintained. The City shall be present to verify the concrete forms, prior to pouring any concrete construction improvements.

Adjacent asphalt and base removal and replacement with full depth AC base course, associated with the curb and gutter reconstruction, shall be a minimum depth of 6-inches and a minimum width of 18-inches and shall conform to the requirements established elsewhere in these Special Provisions.

Note that existing traffic signal and interconnect conduits may be located at shallow depths under the existing PCC sidewalks at signalized intersections. The Contractor shall use extreme caution when removing existing PCC curb and gutter. The Contractor shall notify USA Dig Alert to identify existing utilities within the Project limits.

The sidewalk and curb ramp work shall include all related adjustments of pull boxes, pull box covers and protection of traffic signal poles and signs that fall within the proposed PCC ramp and sidewalk construction limits, unless otherwise called for on the plans. Since the adjustment of pull boxes and pull box covers may require lowering the pull box and pull box cover, said work shall also be considered to include the adjustment of conduit sweeps and conductors if they are found to encroach high enough into the new ramp finished surface plane. It is the Contractor's responsibility to review in the field in advance all existing pullboxes, which fall within the proposed PCC ramp construction limits, to confirm whether the existing conduit sweeps and conductors will encroach into the proposed finished surface when the pullboxes are adjusted to grade and to bid accordingly.

The contractor shall schedule his operations in such a manner that the duration of time between demolition of curb and gutter, sidewalk and/or curb ramps and concrete placement shall not exceed 72 hours, which includes weekends. Sidewalk and curb ramps shall be opened to pedestrian access on the day following the concrete placement. In addition, all forms shall be removed, irrigation systems shall be repaired, and backfilled placed within 72 hours following concrete placement at each of the curb and gutter reconstruction locations. Section 6-9.1 of these specifications will apply for failure to adhere to these time limits.

Where retaining curbs are required at the back of curb ramp / sidewalk to make up for a difference in elevation between the existing grade and proposed curb ramp / sidewalk grade, the construction of said retaining curb shall be considered as part of the curb ramp / sidewalk work.

All work necessary to construct the improvements shall be confined to City right-of-way. All excavation and forms necessary to construct the improvements shall not disrupt private

property. In cases where improvements on private property need to be removed, prior approval from the Engineer or designee shall be obtained, and said improvements shall be replaced to its original condition to the satisfaction of the Engineer or designee. **The contractor shall enter into a temporary agreement with the property owner to allow access for construction on private property. Such agreement shall be provided to the City immediately after signatures are obtained. Costs, if any, for obtaining authorization shall be deemed as included in all other items of work and no additional compensation will be allowed**

Contractor shall ensure that the protection of all existing facilities, structures, and improvements on public and/or private property are maintained throughout the entire Project duration, including, but not limited to, the following: walls, driveways, decorative/colored concrete, stamped concrete, fencing, catch basins, curb and gutter, striping, signs, fire hydrants, landscaping, irrigation, concrete, and asphalt. Any damage to existing public and/or private facilities, structures, utilities, traffic signal loops, and improvements shall be repaired to the satisfaction of the Engineer by the Contractor at no cost to the City.

For the purpose of forming the new curbs and gutters, curb ramp, and cross gutter, a minimum of one-foot wide strip of asphalt concrete pavement shall be removed adjacent to the new curb and gutter, ramp, or cross gutter. The strip shall be replaced with a 12" full depth asphalt concrete as directed by the Engineer.

For the purpose of transitioning the new curbs and gutters, curb ramp, and cross gutter, a pavement transition may be required. The limits of removal shall be determined by the engineer. The pavement transition shall be replaced with a 12" full depth asphalt concrete as directed by the Engineer.

No open trench (forming strip or pavement digout) shall be left unattended at any time. All trenches shall be backfilled and paved or covered with steel traffic plates at the end of each working day.

In addition to concrete curb and gutter construction that is related to the concrete curb ramp construction; Concrete curb and gutter that is constructed in conjunction with the new curb ramps shall not be constructed monolithic with the adjacent curb ramp or sidewalk.

303-5.5 Finishing.

303-5.5.4 Gutter. [Add the following to this section]:

When the gutter is constructed, it shall be water tested. If any portion of the newly constructed gutter is shown to pond water, that portion, including curb if applicable, shall be removed, reconstructed and retested by the Contractor at no additional cost to the City. The exact limits of removal will be determined based on a survey conducted by City forces, unless otherwise directed by the Engineer.

303-9 SACK AND PATCH OF EXISTING CONCRETE CURB. [Add the following:]

The work done under this section is for the restoration of existing curb. All work incidental to performance of the work shall conform to Section 303-5 and the following specifications and instructions below:

Sack and Patch Procedure

Filling Large Voids:

Remove all cracked and crumbling areas using the point of a heavy-duty trowel or using a sledge and cold chisel to break away any thin or loose edges, squaring off the edges. Use a wire brush to remove any crumbling materials. Then sweep away and collect, or vacuum all dirt and debris down to a solid base. Create temporary forms as necessary for the face of the curb. Wet the areas to be patched with water. Mix rapid-set cement according to manufacturer's instructions. Apply the mix with a trowel, using heavy trowel pressure. Overfill slightly and then trowel smooth to match the surrounding concrete. Remove formwork and trowel face and top of curb smooth. Sponge over the cement to smooth finish faces and tops. Allow cement mix to dry.

Filling Pits and Small Voids:

Use a wire brush to remove any loose materials. Then sweep away and collect, or vacuum all dirt and debris down to a solid base. Make a mortar consisting of one-part cement and two-parts, by volume, of sand passing a No. 16 screen plus enough water such that the consistency of the mortar will be that of thick cream. Wet curb with water using a sprayer. Apply the mortar thoroughly over the area by rubbing in with clean burlap or a sponge rubber float so that it fills all pits. While the mortar is still plastic, rub the surface over with a drier mix of the same material. This removes all excess plastic material and places enough dry material in the pits to stiffen and solidify the mortar. The filings should then be flush with the surface. No material should remain on the surface above the pits. Allow to cure. As necessary for color-uniformity or finished texture, prepare a paint-like cement mixture consisting of cement and water and apply with a sponge or brush to the curb top and face. It may be necessary to blend the cement with white cement to obtain a color matching that of the surrounding concrete surface.

PART 4 EXISTING IMPROVEMENTS

SECTION 400 - PROTECTION AND RESTORATION

SECTION 402 – UTILITIES

402-7 LOCATION. [Add the following section]:

The Contractor shall notify the utilities designated in the General Specifications at least 48 hours in advance of excavating around any of their structures.

The existence and locations of utilities shown on the drawings have been determined by a search of the available records as provided by the respective utility owner. The exact locations have not been determined by potholing unless so indicated on the drawings. The Contractor shall determine the exact location of all existing utilities prior to commencing work. **Contractor agrees to be fully responsible for any and all damages which may be caused by his failure to exactly locate and preserve any and all underground utilities, whether shown on the plans or not**. In the event the Contractor encounters underground utilities not shown on the plans, he shall verify the exact location of the utility and immediately notify the Engineer, regardless of whether the unknown utility conflicts with the proposed construction or not. In the event of such a previously unknown conflict, the Contractor shall immediately notify the Engineer as to the extent, if any, of delays or additional costs resulting from said conflict. The Contractor shall perform work and provide necessary materials to disconnect or relocate existing utilities as indicated. Record on record drawings all existing utility termination points before disconnecting.

When uncharted or incorrectly charted underground piping or other utilities and services are encountered during site work operations, notify the applicable utility company immediately to obtain procedure directions. Cooperate with the applicable utility company in maintaining active services in operation.

In the event the Contractor damages an existing utility line, the Contractor shall restore damaged utilities within three (3) working days.

Pursuant to Government Code Section 4215, if any main or trunkline utility facilities that are not indicated in the drawings, plans or specifications and are determined by Contractor to be located on the site of any construction project that is a subject of the contract, the City shall assume the responsibility for timely removal, relocation, or protection of the existing main or trunkline utility facilities. The Contractor will be compensated for the costs of locating, repairing damage not due to the failure of the Contractor to exercise reasonable care, and removing or relocating such utility facilities not indicated in the plans and specifications with reasonable accuracy, and for equipment on the Project necessarily idled during such work. The Contractor will not be assessed liquidated damages for delay in completion of the Project when such delay was caused by the failure of City or the utility owner to provide for removal of relocation of such utility facilities. Nothing herein shall be deemed to require the City to indicate the presence of existing service laterals or appurtenances whenever the presence of such utilities on the site of the construction Project can be inferred from the presence of other visible facilities, such as buildings, meter and junction boxes, on or adjacent to the site of the construction; provided, however, nothing herein shall relieve the City from identifying main or trunklines in the plans or specifications. Nothing herein shall preclude the City from pursuing any appropriate remedy against the utility for delays which are responsibility of the utility. Nothing herein shall be construed to relieve the utility from any obligation as required either by law or contract to pay the cost of removal or relocation of existing utility facilities. If the Contractor, while performing the contract, discovers utility facilities not identified by the City in the Contract Plans or Specifications, Contractor shall immediately notify

the Engineer and utility in writing. The public utility, whether they are the owner, has sole discretion to perform repairs or relocation work or permit the Contractor to do such repairs or relocation work at a reasonable price.

BID ITEM DESCRIPTIONS
MacKenzie Park Rehabilitation
Laguna Hills, California

GENERAL STANDARD SPECIFICATIONS

The Standard Specifications for the construction materials and construction methods as set forth in the "Standard Specifications for Public Works Construction", 2018 Edition shall be the Standard Provisions for all the Work to be done and the provisions of the Contract for the Work. In case of conflict between the Standard Specifications and these Technical Provisions, the Technical Provisions shall take precedence over and prevail over such conflicting portions.

Base Bid

Mobilization

Bid Items No. 34

Mobilization shall consist of preparatory work and operations including all of the labor, equipment, tools, supplies, costs, arrangements, and others that are necessary for the movement of personnel, equipment, materials, and incidentals to the project site necessary for work on the project and for all other work and operations which must be performed including, but not limited to, bonds, insurance, arranging and coordinating with the playground manufacturer, securing an adequate storage site for equipment and materials, and financing prior to beginning work on the various contract items on the project site.

The cost of time, materials, and labor to move the necessary construction equipment to and from the site, supervisory time on the job by the Contractor's personnel to keep the construction site in a safe condition, and all other related work as required at all times and for all non-working days during the construction period shall have been included in the bid.

PAYMENT

Payment for the preceding shall be included in the **LUMP SUM** for mobilization and shall be considered full compensation including the cost for obtaining all of the required business licenses and permits.

Traffic Control & Work Site Protection

Bid Item No. 1

1.1DESCRIPTION

Traffic control, construction signing, and traffic maintenance shall comply with the provisions of Subsection 7-10 of the Standard Specifications and the current requirements set forth in the "Manual of Traffic Controls for Construction and Maintenance Work Zones" published by the Department of Transportation, State of California, these Technical Provisions, and as directed by the Engineer.

1.2PROTECTION OF WORK AND PUBLIC

The Contractor shall take all necessary measures to protect work and prevent accidents during any and all phases of the work. The Contractor shall repair all damaged new improvements as a result of vandalism (i.e., vehicle tracks, footprints, writing, etc.). If deemed necessary by the City, the Contractor shall repair, at its cost, the defective area in accordance with these Technical Provisions.

1.3CONSTRUCTION SIGNING

Construction signing shall consist of furnishing, installing, maintaining and removing construction signs and barricades as required by the "Manual of Traffic Controls for Construction and Maintenance Work Zones". The traffic control system shall be installed prior to starting work and shall not be removed until all work has been completed.

Also, in conjunction to the public relations effort, Contractor shall supply and erect project construction information signs at the designated locations as determined by the City. Such signs shall conform to the City's specifications. Specific verbiage to be determined by the City. There shall be a minimum of four (4) such signs posted.

1.4TRAFFIC MAINTENANCE

The Contractor shall be responsible for handling vehicular and pedestrian traffic in accordance with Subsection 7-10 of the Standard Specifications and these Technical Provisions.

The Contractor shall cooperate with the Engineer relative to handling traffic through all work areas and shall make his own arrangements relative to keeping the working area clear of parked vehicles and maintaining clear access to driveways.

Contractor's equipment and personal vehicles of the Contractor's employees shall not be parked on the traveled way at any time. Overnight parking of construction equipment in the work zone or on adjacent roads is not permitted. Parking of construction equipment shall be confined to the approved storage site.

1.5RESTRICTIONS ON CLOSURE OF STREETS AND TRAFFIC LANES

The Contractor shall conduct all operations so as to provide reasonable access to the existing park facilities and have no greater length or quantity of work under construction that can be properly constructed with a minimum of inconvenience to the public. Traffic lane closures shall be coordinated with the City Engineer. The contractor shall provide adequate notice to the City.

PAYMENT

Payment for traffic control shall be made at the contract **LUMP SUM** price bid and shall be considered full payment for furnishing all materials, labor, equipment, and all incidentals necessary to complete work in accordance with the Standard Specifications and these Technical Provisions.

Temporary Construction Fencing

Bid Item No. 2

Temporary Construction Fence shall be 6’ tall chain link fence with screening. Fence shall be secured and locked at all times. Fence shall be anchored and utilize base plates and sandbags for wind protection. Contractor shall remove graffiti immediately.

PAYMENT

Payment for **Temporary Construction Fence** shall be made at the contract unit price per **Lump sum (LS)** as set forth in the bid schedule and shall be considered full compensation for furnishing labor, materials, tools, equipment, incidentals, for the installation and maintenance and removal of the construction fence. No additional compensation will be allowed

Softscape Demolition

Bid Item No. 3

Softscape Demolition shall conform to Subsection 300-1 of the GREEN BOOK and shall include all clearing and grubbing for the construction of the new improvements, and any

clearing and grubbing and/or removal and replacement shown on the plans for which there is no bid item of work.
Clearing and grubbing shall include the removal and disposal of existing trees/shrubs and existing irrigation valves within the limits of work, as shown on the plans and as directed by the City. Contractor shall coordinate with the City prior to the removal of the existing. Any improvements, landscaping and irrigation destroyed by construction operations shall be replaced by the Contractor. Any replacement including plant materials and irrigation system shall be approved by the City prior to any construction. The Contractor shall control any dust that is caused by clearing and grubbing operations.
No additional compensation will be allowed for removal or disposal of any other materials, which may require special handling or disposal.

PAYMENT
Payment for **Softscape Demolition** shall be paid at the contract unit price per **Lump Sum (LS)**, and shall include full compensation for providing all labor, materials, equipment, and other related work as required. No additional compensation shall be allowed. Payment for this item of work shall be paid as a percentage of completed work to date.

Earthwork
Bid Item No. 4
Earthwork, removal and grading, removal and disposal of unclassified excavation, structural excavation, import and placement of selected backfill in existing swale being replaced with underground storm drain, export of existing material as indicated on Plans, removal of asphalt concrete pavement, sidewalk, driveways, etc. for proposed improvements shall conform to the applicable portions of Section 300 of the Standard Specifications for Public Works Construction and recommendations of a Geotechnical Report prepared by Global Geo-Engineering, Inc. Such work shall include all the cost of all labor, equipment, tools, supplies, and all other costs required to:

- Arrange with DigAlert to mark all potential interfering underground wet and dry utilities within the work limits;
- To the extent possible search, identify, and mark other underground utilities that were not identified by DigAlert;
- Expose, cut, and cap all existing irrigation lines and components along the excavate limits;
- Excavate, remove, and properly dispose of existing interfering soil and landscape materials;
- Remove and dispose of all interfering tree roots and organic matters. Root prune as described on the Landscaping Plan; and
- Grade to the elevations shown on plans. Backfill all voids and holes with similar and clean materials. Import as needed.
- Remove, and dispose of existing subgrade and compact soil backfill under the new concrete walks, and other areas of work as shown on the Plans and in accordance with the Geotechnical Report.
- Import and placement of selected backfill.

PAYMENT
Payment for **Earthwork** shall be paid at the contract unit price **per Lump Sum (LS)**, and shall be paid based on the percentage of work completed. The compensation shall include the compliance with the requirements specified and shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved and no additional compensation will be made therefor.

Water Pollution Control
Bid Item No. 5
Construction activities will be conducted in a manner to protect channels, storm drains, and bodies of water from pollution. Water pollution control work shall consist of activities necessary to meet the requirements of the City's National Pollutant Discharge Elimination System (NPDES) Area wide Urban Storm Water Runoff Permit, the County's Drainage Area Management Plan (DAMP), The State's General Construction Activities Permit (Order No. 2022-0057-DWQ, NPDES No CAS000002, adopted September 8, 2022 and effective September 1, 2023), and as required by the Engineer. The Contractor shall coordinate water pollution control work with all other work done on the contract.

Contractor shall install erosion and sediment control measures as indicated on Improvement Plans.

PAYMENT
Full compensation for Water Pollution Control shall be paid at the contract unit price per the **Lump Sum (LS)**, and shall include full compensation for all costs incurred by the Contractor for Implementing Best Management Practices, complying with the requirements of the Project's Erosion Control Plan and the cost of any required permits and no additional compensation will be made therefore. Payment shall be on a lump sum basis of the percentage of total contract work performed.

Trees (CFCI)
Bid Item No. 6
Work under this bid item shall include all costs associated with the furnishing and installation of the Trees from various box sizes as indicated on the Planting Plans and Planting Schedule in the Construction Documents and specifications Section 32 90 00 Landscaping.

PAYMENT
Payment for **Tree** shall be paid for at the contract price per **Each (EA)** as set forth in the bid schedule and shall include full compensation for all labor, materials, tree stakes, tree brace, tools, equipment, and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

90-Day Maintenance
Bid Item No. 7
Work under this bid item shall include all costs associated with the Ninety Day Maintenance Period per technical specifications Section 32 93 95 and as per the direction of the City Engineer.

PAYMENT
Payment for the **Ninety Day Maintenance** shall be made at the **Lump Sum (LS)** contract unit price bid as shown in the Bid Schedule and shall include full compensation for all labor, materials, tools, equipment, mulching, removals and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

Drinking Fountain Demo
Bid Item No. 8
Perform Drinking Fountain demolition work in a pre-planned, systematic, efficient, and orderly manner. Deploy customary and acceptable methods as required to complete the Work indicated on the Plans in accordance with governing regulations. This includes all costs associated with removing and properly disposing of the drinking fountain and all necessary other aspects of the existing drinking fountain system that aren't to be repurposed as outlined in the plans.

1.1 DISPOSAL OF DEMOLISHED MATERIALS

All removed materials not salvaged or reused shall be removed from the project site no later than the end of each workday and transported legally for disposal at a qualified site. If hazardous materials are encountered, notify the City Inspector immediately.
Burning of removed materials is not permitted.

1.2 ADJUSTMENT OF EXISTING SANITARY SEWERAGE, WATER, GAS, ELECTRICAL AND TELECOMMUNICATION SYSTEMS

All existing utility facilities, i.e. manholes, vaults, irrigation boxes, valve cans, etc. may or may not have been indicated on the plans. While these items are not expected on this project, the Contractor is nevertheless hereby made aware that such encounter will require the contractor to bear the cost to raise ALL to finished grade at no additional cost to the City.
Drawings show existing major underground utilities using the best information available. Verification of existing utilities and the actual locations are the Contractor's responsibility. Any utility inadvertently damaged by the Contractor shall be immediately called to the City's attention for shutoff and then be immediately repaired by the Contractor at its own cost within 4 hours.

1.3 CLEANUP AND REPAIR

The Contractor, at the end of each workday, shall dispose of all removed materials from the site. The Contractor also shall protect the site and new improvements from vandals or other damages at all times until City acceptance.

PAYMENT
Payment for drinking fountain demolition shall be made at the contract **LUMP SUM** included in the bid price and shall have included all of the costs for labor, equipment, supplies, tools, haulers, permit and disposal dump fees, security personnel, and other items of work to dispose of all unwanted materials and to clear, protect, and maintain the jobsite at no additional cost to the City.

Drinking Fountain Paving Demo
Bid Item No. 9

Unless separately designated, **Drinking Fountain Paving Demo** shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to the depth indicated on the plans or as directed by the **Engineer**. All removal of asphalt concrete, base material, debris, concrete, curbs, berms, pipes, structures, foundations, fences, and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Drinking Fountain Paving Demo.**

PAYMENT
Payment for **Drinking Fountain Paving Demo** shall be paid at the contract unit price per **Square Foot (SF)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Drinking Fountain
Bid Item No. 10
Work under this bid item shall include all costs associated with the installation of all **Drinking Fountain** as provided by (purchased by) the Contractor and specifications Section 12 93 00 Site Furnishings and Miscellaneous Materials and as required by product manufacturers installation instructions.

PAYMENT
Payment for the **Drinking Fountain** shall be paid at their respective contract unit prices per **Lump Sum (LS)** as indicated in the Bid Schedule and shall be considered full compensation for furnishing labor, materials, tools, equipment, fittings, footings, hardware, and incidentals for doing all work involved in hauling, lifting, assembling for the installation complete, permanently attached in place as shown on the plans and Manufacturer's instructions. No additional compensation shall be allowed.

Concrete Paving at Drinking Fountain
Bid Item No. 11
Work under this bid item shall include all costs associated with the construction of **Concrete Paving at Drinking Fountain** with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(P-101)** on sheet L-300 in the Construction Documents and specifications Civil Section 4" Thk. Reinforced Concrete Walkway over 8" Crushed Aggregate Base, Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, No additional compensation will be allowed, No additional compensation will be allowed.

PAYMENT
Payment for Bid Items **Concrete Paving at Drinking Fountain** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, hardware, stone, grout, base materials, sand, aggregate, rock, sealers, sealant, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement paving complete in-place with thickened edge, reinforcement, jointing, and scoring, finishing, including additional

cleaning, taping, masking required for joint sealant as shown on the Plans. No additional compensation shall be allowed.

Concrete Retaining Curb at Drinking Fountain
Bid Item No. 12
Work under these bid items shall include all costs associated with the construction of concrete **Concrete Retaining Curb at Drinking Fountain** with color and finish as indicated on the Civil Plans/Landscape Plans and Landscape Construction Material Schedule **(C-101)** Landscape Layout Plans, and the Landscape Construction Material Schedule on sheet L-300 in the Construction Documents and specifications Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete.

PAYMENT
Payment for Bid Items under **Concrete Retaining Curb at Drinking Fountain** shall be at the contract unit price for **Linear Foot (LF)** as set forth in the Project Bid Schedule shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, base materials, aggregate, sealers, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement Concrete Curbs, complete in-place, reinforcement, jointing, and scoring, finishing as shown on the Plans. No additional compensation shall be allowed.

Modify Lawn and Irrigation at Drinking Fountain
Bid Item No. 13
Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new sod around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 92 23 Sod and Section 32 93 95 90 Day Maintenance

PAYMENT
Payment for **Modify Law and Irrigation at Drinking Foutain** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of turf from sod including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

Existing Monument Sign Demo
Bid Item No. 14
Unless separately designated, Existing Monument Sign Demo shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to the depth indicated on the plans or as directed by the **Engineer**. All removal of sign material,

debris, concrete, foundations and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Existing Monument Sign Demo**

PAYMENT
Payment for **Existing Monument Sign Demo** shall be paid at the contract unit price per **Lump Sum (LS)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Monument Sign
Bid Item No. 15
Work under these bid items shall include all costs associated with the construction of Monument Sign with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(W-101A)** on sheet L-300 in the Construction Documents and specifications Section 09 96 23 Graffiti Resistant Coating.

PAYMENT
Payment for Bid Items under Monument Sign shall be at the contract unit price for **Lump Sum (LS)** as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, inspections, testing, sealers and anti-graffiti coatings, water proofing, reinforcement, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and construction Cast-in-place (CIP) and including footings as shown on the plans, specifications. No additional compensation shall be allowed.

Modify Lawn and Irrigation at Monument Sign
Bid Item No. 16
Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new sod around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 92 23 Sod and Section 32 93 95 90 Day Maintenance

PAYMENT
Payment for **Modify Law and Irrigation at Monument Sign** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of turf from sod including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

Paving Demo at Tennis Court Entry
Bid Item No. 17
Unless separately designated, **Paving Demo at Tennis Court Entry** shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to the depth indicated on the plans or as directed by the Engineer. All removal of asphalt concrete, base material, debris, concrete, curbs, berms, pipes, structures, foundations, fences, and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Paving Demo at Tennis Court Entry.**

PAYMENT
Payment for **Paving Demo at Tennis Court Entry** shall be paid at the contract unit price per **Square Foot (SF)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Tree Removal at Tennis Court Entry
Bid Item No. 18
Tree Removal shall conform to Subsection 300-1 of the GREEN BOOK. Work shall include the removal and disposal of identified for removal existing trees within the limits of work, as shown on the plans and as directed by the City. Contractor shall coordinate with the City prior to the removal of the existing trees. Any improvements, landscaping and irrigation destroyed by construction operations shall be replaced by the Contractor. Any replacement including plant materials and irrigation system shall be approved by the City prior to any construction. The Contractor shall control any dust that is caused by clearing and grubbing operations.
No additional compensation will be allowed for removal or disposal of any other materials, which may require special handling or disposal.

PAYMENT
Payment for **Tree Removal at Tennis Court Entry** shall be paid at the contract unit price per **Each (EA)**, and shall include full compensation for providing all labor, materials, equipment, and other related work as required. No additional compensation shall be allowed. Payment for this item of work shall be paid as a percentage of completed work to date.

Adjust Utility Pull Box to Grade at Tennis Court Entry
Bid Item No. 19
The Contractor shall adjust existing pull box to grade at locations shown on the Plans.

PAYMENT
Payment for this item shall be at the contract unit price per **Each (EA)** and shall include full compensation for all labor, materials, tools, equipment and incidentals, and for doing all the work involved.

Concrete Paving at Tennis Court Entry
Bid Item No. 20

Work under this bid item shall include all costs associated with the construction of **Concrete Paving at Tennis Court Entry** with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(P-101)** on sheet L-300 in the Construction Documents and specifications Civil Section 4" Thk. Reinforced Concrete Walkway over 8" Crushed Aggregate Base, Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, No additional compensation will be allowed.

PAYMENT
Payment for Bid Items **Concrete Paving at Tennis Court Entry** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, hardware, stone, grout, base materials, sand, aggregate, rock, sealers, sealant, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement paving complete in-place with thickened edge, reinforcement, jointing, and scoring, finishing, including additional cleaning, taping, masking required for joint sealant as shown on the Plans. No additional compensation shall be allowed.

Concrete Stairs and Handrail at Tennis Court Entry
Bid Item No. 21
Work under this bid item shall include all costs associated with the construction concrete stairs and fabrication and installation of themetal handrail with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(ST-101, R-101)** on sheet L-300 in the Construction Documents and specifications Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, Section 05 50 00 Metal Fabrications, No additional compensation will be allowed. All railings shall be set plum and shall be accessible, complying with the 2022 CBC.

PAYMENT
Payment for Bid Items **Concrete Stairs and Handrail at Tennic Court Entry** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, aluminum safety tread, hardware, stone, grout, base materials, sand, aggregate, rock, aggregate pebbles for finishes, steel pipe and posts, sealers, sealant, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, reinforcement, jointing, and scoring, finishing, including additional cleaning, taping, masking required for joint sealant, installing, grouting and steel railing for handrails and stairs complete in-place as shown on the Plans. No additional compensation shall be allowed.

Modify Lawn and Irrigation at Tennis Court Entry
Bid Item No. 22
Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new sod around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated

on the Irrigation Plans in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 92 23 Sod and Section 32 93 95 90 Day Maintenance

PAYMENT

Payment for **Modify Law and Irrigation at Tennis Court Entry** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of turf from sod including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

New Planting and Irrigation at Tennis Court Entry

Bid Item No. 23

Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new planting from, various box and gallon sizes as indicated on the Planting Plans and Planting Schedule, around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 90 00 Landscaping and Section 32 93 95 90 Day Maintenance

PAYMENT

Payment for **New Planting and Irrigation at Tennis Court Entry** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of shrubs from various gallon size including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

Playground Demo

Bid Item No. 24

Perform demolition of the existing playground structures work in a pre-planned, systematic, efficient, and orderly manner. Deploy customary and acceptable methods as required to complete the Work indicated on the Plans in accordance with governing regulations. This includes all costs associated with removing above ground playground equipment and all below grade concrete footings and structures.

1.1 DISPOSAL OF DEMOLISHED MATERIALS

All removed materials not salvaged or reused shall be removed from the project site no

later than the end of each workday and transported legally for disposal at a qualified site. If hazardous materials are encountered, notify the City Inspector immediately.
Burning of removed materials is not permitted.

1.2 ADJUSTMENT OF EXISTING SANITARY SEWERAGE, WATER, GAS, ELECTRICAL AND TELECOMMUNICATION SYSTEMS

All existing utility facilities, i.e. manholes, vaults, irrigation boxes, valve cans, etc. may or may not have been indicated on the plans. While these items are not expected on this project, the Contractor is nevertheless hereby made aware that such encounter will require the contractor to bear the cost to raise ALL to finished grade at no additional cost to the City.
Drawings show existing major underground utilities using the best information available. Verification of existing utilities and the actual locations are the Contractor's responsibility. Any utility inadvertently damaged by the Contractor shall be immediately called to the City's attention for shutoff and then be immediately repaired by the Contractor at its own cost within 4 hours.

1.3 CLEANUP AND REPAIR

The Contractor, at the end of each workday, shall dispose of all removed materials from the site. The Contractor also shall protect the site and new improvements from vandals or other damages at all times until City acceptance.

PAYMENT

Payment for demolition and site clearing shall be made at the contract **LUMP SUM** included in the bid price and shall have included all of the costs for labor, equipment, supplies, tools, haulers, permit and disposal dump fees, security personnel, and other items of work to dispose of all unwanted materials and to clear, protect, and maintain the jobsite at no additional cost to the City.

Concrete Paving Demo at Playground
Bid Item No. 25

Unless separately designated, **Concrete Paving Demo at Playground** shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to the depth indicated on the plans or as directed by the Engineer. All removal of asphalt concrete, base material, debris, concrete, curbs, berms, pipes, structures, foundations, fences, and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Concrete Paving Demo at Playground.**

PAYMENT

Payment for **Concrete Paving Demo at Playground** shall be paid at the contract unit price per **Square Foot (SF)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Playground Paving Demo
Bid Item No. 26

Unless separately designated, **Playground Paving Demo** shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to the depth

indicated on the plans or as directed by the Engineer. All removal of base material and rubberized surfacing and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Playground Paving Demo.**

PAYMENT
Payment for **Playground Paving Demo** shall be paid at the contract unit price per **Square Foot (SF)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Retaining Wall and Sand Pit Demo
Bid Item No. 27
Unless separately designated, **Retaining Wall and Sand Pit Demo** shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to the depth indicated on the plans or as directed by the Engineer. All removal of base material, concrete wall, footings, sand material and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Retaining Wall and Sand Pit Demo.**

PAYMENT
Payment for **Retaining Wall and Sand Pit Demo** shall be paid at the contract unit price per **Square Foot (SF)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Flush Concrete Header
Bid Item No. 28
Work under these bid items shall include all costs associated with the construction of concrete **Flush Concrete Header** with color and finish as indicated on the Civil Plans/Landscape Plans and Landscape Construction Material Schedule **(P-102)**. Landscape Layout Plans, and the Landscape Construction Material Schedule on sheet L-300 in the Construction Documents and specifications Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete.

PAYMENT
Payment for Bid Items under **Flush Concrete Header** shall be at the contract unit price for **Linear Foot (LF)** as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, base materials, aggregate, sealers, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement Concrete Bands complete in-place, reinforcement, jointing, and scoring, finishing as shown on the Plans. No additional compensation shall be allowed.

Rubber Play Surface with Base
Bid Item No. 29

Work for this item shall be conducted as described in Section 32 18 16 Synthetic Resilient Surfacing and as indicated in the Plans and Landscape Construction Material Schedule **(P-601).** Colors and Layout shall be as indicated on the Construction Plans.

PAYMENT
Payment for **Rubber Play Surface with Base** shall be at the contract unit price per **Square Foot (SF)** as set forth in the Bid Schedule and shall be considered full compensation for furnishing labor, materials, base materials, sealers, binders, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement poured-in-place Resilient Thermal Plastic Vulcanized Play Surfacing including base complete in-place as shown on the Plans and as directed by the City Engineer. No additional compensation shall be allowed.

Purchase and Delivery of Playground Equipment
Bid Item No. 30
Work under this bid item shall include all costs associated with the purchase, submittals and final approvals of Play Equipment with color and finish and play features as indicated on the Plans, Landscape Construction Material Schedule on sheet L-300 **(PE-101, PE-102, PE-103, PE-104, PE-105)**, technical specifications Section 02 88 20 – Playground Equipment, and Play Equipment Manufacturer's Quote # 1194886-03-04. All play components shall be purchased by the contractor. The contractor shall be responsible for accepting delivery and providing secure storage.

PAYMENT
Payment for Play Equipment shall be at the Lump Sum (LS) contract unit as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all play equipment as shown on the plans.
This payment shall also include permitting, taxes and shipping, and procurement of the manufacturer's engineered drawings, and completion of deferred submittals. No additional compensation shall be allowed.

Installation of Playground Equipment
Bid Item No. 31
Work under this bid item shall include all costs associated with the preparation and installation of Play Equipment with color and finish and play features as indicated on the Plans, Landscape Construction Material Schedule on sheet L-300 **(PE-101, PE-102, PE-103, PE-104, PE-105)**, technical specifications Section 02 88 20 – Playground Equipment, and Play Equipment Manufacturer's Quote # 1194886-03-04. All play components shall be installed by the contractor per the project technical specifications. The contractor shall be responsible for accepting delivery and providing secure storage. Play equipment installer shall be factory certified. The contractor shall be responsible for coordinating access for the construction of play equipment and rubberized surfacing, protecting each through construction operations.
The contractor shall be responsible for verifying and respecting all equipment fall zones and play area boundaries. All play areas and playground elements shall be accessible. All equipment clearances and deck heights shall be per the manufacturer's installation plans. All deck heights shall be coordinated with the rubber surfacing installer to ensure

proper thickness to meet HIC requirements. Drains shall be located plans. Drain conflicts with utilities and footings shall be brought to the attention of the City Engineer and Landscape Architect immediately. Subbase thickness, drain grate elevations and locations, and invert elevations shall be reviewed by the City Engineer and Landscape Architect prior to the placement of subbase.
The contractor shall retain an Independent Certified Playground Safety Inspector. This inspector shall provide a Safety Inspection report per the requirements of the project specifications. All corrections noted in the report shall be corrected as a part of this Bid Item.
Play equipment footings shall be as indicated in the construction plans and per the play equipment manufacturer's drawings. Footing recommendations shall comply with the requirements of the geotechnical report. Foundation / footing design by the play equipment manufacturer shall be constructed per manufacture provided structural plans and calculations. Refer to Section 02 88 20 – Playground Equipment.

PAYMENT
Payment for Play Equipment shall be at the Lump Sum (LS) contract unit as set forth in the Project Bid Schedule and shall be considered full compensation for installing, providing: labor, materials, tools, equipment, fittings, electrical work (associated with play equipment), footings, concrete, hardware, corrections, and incidentals for doing all work involved in purchasing, delivery unloading, erecting and assembling all play equipment operative in place as shown on the plans, specifications, structural details and calculations, and manufacturer's engineered drawings and instructions. No additional compensation shall be allowed.

Modify Lawn and Irrigation at Playground
Bid Item No. 32
Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new sod around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 92 23 Sod and Section 32 93 95 90 Day Maintenance

PAYMENT
Payment for **Modify Law and Irrigation at Playground** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of turf from sod including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

New Planting and Irrigation at Playground

Bid Item No. 33

Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new planting from, various box and gallon sizes as indicated on the Planting Plans and Planting Schedule, around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 90 00 Landscaping and Section 32 93 95 90 Day Maintenance

PAYMENT

Payment for **New Planting and Irrigation at Playground** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of shrubs from various gallon size including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

Additive Alternate Bid #1 – ADA Compliance Pathway Replacement

Paving Demo of Existing Park Walkway North of Playground
Bid Item No. 35

Unless separately designated, **Paving Demo of Existing Park Walkway North of Playground** shall include saw cutting, excavating, loading, stockpiling, hauling, and disposing of surplus material to the depth indicated on the plans or as directed by the Engineer. All removal of asphalt concrete, base material, debris, concrete, curbs, berms, pipes, structures, foundations, fences, and all other interfering items within limits of construction shall be removed and disposed of in the legal manner and will be considered part of **Paving Demo of Existing Park Walkway North of Playground.**

PAYMENT

Payment for **Paving Demo of Existing Park Walkway North of Playground** shall be paid at the contract unit price per **Square Foot (SF)**, and shall include full compensation for furnishing all labor, materials, tools, and equipment and doing all work required in conformity with the plans & specifications.

Concrete Paving at Tennis Court Entry
Bid Item No. 36

Work under this bid item shall include all costs associated with the construction of **Concrete Paving at Pathway** with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(P-101)** on sheet L-300 in the Construction Documents and specifications Civil Section 4” Thk. Reinforced Concrete Walkway over 8” Crushed Aggregate Base, Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, No additional compensation will be allowed.

PAYMENT

Payment for Bid Items **Concrete Paving at Pathway** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, hardware, stone, grout, base materials, sand, aggregate, rock, sealers, sealant, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement paving complete in-place with thickened edge, reinforcement, jointing, and scoring, finishing, including additional cleaning, taping, masking required for joint sealant as shown on the Plans. No additional compensation shall be allowed.

Modify Lawn and Irrigation at Pathway
Bid Item No. 37

Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new sod around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and

reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 92 23 Sod and Section 32 93 95 90 Day Maintenance

PAYMENT

Payment for **Modify Law and Irrigation at Pathway** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of turf from sod including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

Additive Alternate Bid #2 – New Site Furniture

Demo Existing Site Furniture

Bid Item No. 38

Perform Site Furniture demolition work in a pre-planned, systematic, efficient, and orderly manner. Deploy customary and acceptable methods as required to complete the Work indicated on the Plans in accordance with governing regulations. This includes all costs associated with removing and properly disposing of all identified and all necessary other aspects of the existing site furniture that aren't to be repurposed as outlined in the plans.

1.1DISPOSAL OF DEMOLISHED MATERIALS

All removed materials not salvaged or reused shall be removed from the project site no later than the end of each workday and transported legally for disposal at a qualified site. If hazardous materials are encountered, notify the City Inspector immediately.
Burning of removed materials is not permitted.

1.2CLEANUP AND REPAIR

The Contractor, at the end of each workday, shall dispose of all removed materials from the site. The Contractor also shall protect the site and new improvements from vandals or other damages at all times until City acceptance.

PAYMENT

Payment for site furniture demolition shall be made at the contract **LUMP SUM** included in the bid price and shall have included all of the costs for labor, equipment, supplies, tools, haulers, permit and disposal dump fees, security personnel, and other items of work to dispose of all unwanted materials and to clear, protect, and maintain the jobsite at no additional cost to the City.

Purchase and Delivery New Site Furniture

Bid Items No. 39, 41, 43

Work under this bid item shall include all costs associated with the purchase and delivery of all **New Site Furnishings** as provided by the contractor.

PAYMENT

Payment for the **New Site Furnishings** shall be paid at their respective contract unit prices per **Each (EA)** as indicated in the Bid Schedule and shall be considered full compensation for procuring and arranging delivery of all site furnishings pieces, including applicable taxes and freight. No additional compensation shall be allowed.

Installation New Site Furniture

Bid Items No. 40, 42, 44

Work under this bid item shall include all costs associated with the installation of all **New Site Furnishings** as provided by under Bid Items 40, 42 and 44 and specifications Section 12 93 00 Site Furnishings and Miscellaneous Materials and as required by product manufacturers installation instructions.

PAYMENT

Payment for the **New Site Furnishings** shall be paid at their respective contract unit prices per **Each (EA)** as indicated in the Bid Schedule and shall be considered full compensation for furnishing labor for installation only and incidentals for doing all work involved in hauling, lifting, assembling for the installation of all Site Furnishings complete, permanently attached in place as shown on the plans and Manufacturer's instructions. No additional compensation shall be allowed.

Additive Alternate Bid #3 – Drinking Fountain at Tennis Court Entry

Drinking Fountain Demo at Tennis Court

Bid Item No. 45

Perform Drinking Fountain demolition work in a pre-planned, systematic, efficient, and orderly manner. Deploy customary and acceptable methods as required to complete the Work indicated on the Plans in accordance with governing regulations. This includes all costs associated with removing and properly disposing of the drinking fountain and all necessary other aspects of the existing drinking fountain system that aren't to be repurposed as outlined in the plans.

1.2 DISPOSAL OF DEMOLISHED MATERIALS

All removed materials not salvaged or reused shall be removed from the project site no later than the end of each workday and transported legally for disposal at a qualified site. If hazardous materials are encountered, notify the City Inspector immediately.

Burning of removed materials is not permitted.

1.2 ADJUSTMENT OF EXISTING SANITARY SEWERAGE, WATER, GAS, ELECTRICAL AND TELECOMMUNICATION SYSTEMS

All existing utility facilities, i.e. manholes, vaults, irrigation boxes, valve cans, etc. may or may not have been indicated on the plans. While these items are not expected on this project, the Contractor is nevertheless hereby made aware that such encounter will require the contractor to bear the cost to raise ALL to finished grade at no additional cost to the City.

Drawings show existing major underground utilities using the best information available. Verification of existing utilities and the actual locations are the Contractor's responsibility. Any utility inadvertently damaged by the Contractor shall be immediately called to the City's attention for shutoff and then be immediately repaired by the Contractor at its own cost within 4 hours.

1.4 CLEANUP AND REPAIR

The Contractor, at the end of each workday, shall dispose of all removed materials from the site. The Contractor also shall protect the site and new improvements from vandals or other damages at all times until City acceptance.

PAYMENT

Payment for drinking fountain demolition shall be made at the contract **LUMP SUM** included in the bid price and shall have included all of the costs for labor, equipment, supplies, tools, haulers, permit and disposal dump fees, security personnel, and other items of work to dispose of all unwanted materials and to clear, protect, and maintain the jobsite at no additional cost to the City.

Drinking Fountain at Tennis Court

Bid Item No. 46

Work under this bid item shall include all costs associated with the installation of all **Drinking Fountain at Tennis Court** as provided by (purchased by) the Contractor and

specifications Section 12 93 00 Site Furnishings and Miscellaneous Materials and as required by product manufacturers installation instructions.

PAYMENT
Payment for the **Drinking Fountain at Tennis Court** shall be paid at their respective contract unit prices per **Lump Sum (LS)** as indicated in the Bid Schedule and shall be considered full compensation for furnishing labor, materials, tools, equipment, fittings, footings, hardware, and incidentals for doing all work involved in hauling, lifting, assembling for the installation complete, permanently attached in place as shown on the plans and Manufacturer's instructions. No additional compensation shall be allowed.

Concrete Paving at Drinking Fountain at Tennis Court
Bid Item No. 47
Work under this bid item shall include all costs associated with the construction of **Concrete Paving at Drinking Fountain at Tennis Court** with color and finish as indicated on the Plans and the Landscape Construction Material Schedule **(P-101)** on sheet L-300 in the Construction Documents and specifications Civil Section 4" Thk. Reinforced Concrete Walkway over 8" Crushed Aggregate Base, Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete, No additional compensation will be allowed, No additional compensation will be allowed.

PAYMENT
Payment for Bid Items **Concrete Paving at Drinking Fountain at Tennis Court** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, hardware, stone, grout, base materials, sand, aggregate, rock, sealers, sealant, tools, equipment, containers, and incidentals, and for doing all work involved in subgrade preparation, forming, and placement paving complete in-place with thickened edge, reinforcement, jointing, and scoring, finishing, including additional cleaning, taping, masking required for joint sealant as shown on the Plans. No additional compensation shall be allowed.

BID ITEM DESCRIPTIONS
MacKenzie Park Rehabilitation
Laguna Hills, California

Additive Alternate Bid #4 – Playground Drainage

Install 4" PVC SDR35 Drain Pipe
Bid Item No. 48

Installation of 4" PVC drain line shall be as shown per the project plans. Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans, the Special Provisions and these Technical Specifications, unless otherwise noted. Material for PVC shall be 4" PVC SDR35 for the installation. Location for installation of PVC shall be verified prior to construction.

PAYMENT

Payment for **Install 4" PVC SDR35 Drain Pipe** shall be paid at the contract unit price per **Linear Foot (LF)**, and shall include full compensation for providing all labor, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

Install 6" PVC SDR35 Drain Pipe
Bid Item No. 49

Installation of 6" PVC drain line shall be as shown per the project plans. Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans, the Special Provisions and these Technical Specifications, unless otherwise noted. Material for PVC shall be 6" PVC SDR35 for the installation. Location for installation of PVC shall be verified prior to construction.

PAYMENT

Payment for **Install 6" PVC SDR35 Drain Pipe** shall be paid at the contract unit price per **Linear Foot (LF)**, and shall include full compensation for providing all labor, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

NDS 1200 Square Polypropylene Catch Basin w/ 1212 Solid Grate
Bid Item No. 50

Installation of NDS 1200 Square Polypropylene Catch Basin w/ 1212 Solid Grate shall be as shown per the project plans. Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans, the Special Provisions and these Technical Specifications, unless otherwise noted. Material for polypropylene for the installation. Location for installation of grate shall be verified prior to construction.

PAYMENT

Payment for **NDS 1200 Square Polypropylene Catch Basin w/ 1212 Solid Grate** shall be paid at the contract unit price per **Each (EA)**, and shall include full compensation for providing all labor, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

NDS 1200 Square Polypropylene Catch Basin w/ 1212 Green Grate
Bid Item No. 51
Installation of NDS 1200 Square Polypropylene Catch Basin w/ 1212 Green Grate shall be as shown per the project plans. Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans, the Special Provisions and these Technical Specifications, unless otherwise noted. Material for polypropylene for the installation. Location for installation of grate shall be verified prior to construction.

PAYMENT
Payment for **NDS 1200 Square Polypropylene Catch Basin w/ 1212 Green Grate** shall be paid at the contract unit price per **Each (EA)**, and shall include full compensation for providing all labor, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

Drain Inlet Under Rubberized Surface Playground
Bid Item No. 52
Installation of Drain Inlet under Rubberized Surface Playground shall be as shown per the project plans. Drain, Pipes, connections, and other work included shall conform to the applicable Standard Plans for Public Works Construction as shown on the project plans, the Special Provisions and these Technical Specifications, unless otherwise noted. Material for polypropylene for the installation. Location for installation of grate shall be verified prior to construction.

PAYMENT
Payment for **Drain Inlet Under Rubberized Surface Playground** shall be paid at the contract unit price per **Each (EA)**, and shall include full compensation for providing all labor, backfill, trenching, saw cutting, materials, equipment, and other related work as required. No additional compensation shall be allowed.

Flush Concrete Header
Bid Item No. 53
Work under these bid items shall include all costs associated with the construction of concrete **Flush Concrete Header** with color and finish as indicated on the Civil Plans/Landscape Plans and Landscape Construction Material Schedule **(P-102)**. Landscape Layout Plans, and the Landscape Construction Material Schedule on sheet L-300 in the Construction Documents and specifications Section 03 10 00 Formwork, Section 03 30 53 Miscellaneous Concrete.
PAYMENT
Payment for Bid Items under **Flush Concrete Header** shall be at the contract unit price for **Linear Foot (LF)** as set forth in the Project Bid Schedule and shall be considered full compensation for cleaning, furnishing labor, materials, integral coloring agents, acid finishes, base materials, aggregate, sealers, tools, equipment, containers, and

incidentals, and for doing all work involved in subgrade preparation, forming, and placement Concrete Bands complete in-place, reinforcement, jointing, and scoring, finishing as shown on the Plans. No additional compensation shall be allowed.

Modify Lawn and Irrigation at Playground due to Drainage
Bid Item No. 54
Work under this bid item shall include all costs associated with modifying the existing irrigation system and installing new sod around paving improvement areas. This scope includes any costs associated to modifying the existing automatic irrigation system, such as reprogramming of controllers, moving valve boxes as needed, repair and reconnections of areas damaged that are outside of new irrigation scope, as indicated on the Irrigation Plans in the Construction Documents and specifications Section 32 84 00 Irrigation, Section 32 92 23 Sod and Section 32 93 95 90 Day Maintenance

PAYMENT
Payment for **Modify Law and Irrigation at Playground due to Drainage** shall be at the **Square Foot (SF)** contract unit price as set forth in the Project Bid Schedule and shall be considered full compensation for furnishing all materials, labor, service connections, and irrigation equipment, such as rotors, rotary nozzles, spray heads, drip line tubing, drip emitters, valves, PVC piping, sleeving, wireless remote controls, data connections, backflow preventer, quick couplers and irrigation controller, wire, decoders, gate valves, conduit, repairs or modifications to existing mainline/lateral/valves/irrigation heads/drip/wiring as described in the plans and specifications for the Irrigation System complete and operational in place as shown on the plans and specifications with acceptance from the City's Maintenance Division and Local Water District. And installation of turf from sod including all labor, material, tools, equipment, watering and incidentals for doing all work involved to complete in place. No additional compensation shall be allowed.

BID ITEM DESCRIPTIONS

TECHNICAL PROVISIONS

MACKENZIE PARK IMPROVEMENTS, LAGUNA HILLS

GENERAL STANDARD SPECIFICATIONS

The Standard Specifications for the construction materials and construction methods as set forth in the "Standard Specifications for Public Works Construction", 2018 Edition and supplements shall be the Standard Provisions for all the Work to be done and the provisions of the Contract for the Work. In case of conflict between the Standard Specifications and these Technical Provisions, the Technical Provisions shall take precedence over and prevail over such conflicting portions.

MOBILIZATION
BID ITEM 1:

Mobilization shall consist of preparatory work and operations including all of the labor, equipment, tools, supplies, costs, insurance, arrangements, and all others that are necessary for the movement of personnel, equipment, materials, and incidentals to the project site necessary for work on the project and for all other work and operations which must be performed including, but not limited to, bonds, insurance, securing an adequate storage site for equipment and materials, and construction site fencing prior to beginning work on the various contract items on the project site.

The cost of time, materials, and labor to move the necessary construction equipment to and from the site, supervisory time on the job by the Contractor's personnel to keep the construction site in a safe condition, and all other related work as required at all times and for all non-working days during the construction period shall have been included in the bid.

PAYMENT

Payment for the preceding shall be included in the **LUMP SUM** for mobilization and shall be considered full compensation including the cost for obtaining all the required business licenses and permits.

TRAFFIC CONTROL AND WORK SITE PROTECTION
BID ITEM 2:

1.1 DESCRIPTION

Traffic control, construction signing and traffic maintenance shall comply with the provisions of Subsection 7-10 of the Standard Specifications and the current requirements set forth in the "Manual of Traffic Controls for Construction and Maintenance Work Zones" and "Manual on Uniform Traffic Controls" published by the Department of Transportation, State of California, these Technical Provisions, and as directed by the Engineer.

1.2 PROTECTION OF WORK AND PUBLIC

The Contractor shall take all necessary measures to protect work and prevent accidents during all phases of the work. The Contractor shall repair all damaged new improvements as a result

of vandalism (i.e., vehicle tracks, footprints, writing, etc.). If deemed necessary by the City, the Contractor shall repair, at its cost, the defective area in accordance with these Technical Provisions.

1.3 CONSTRUCTION SIGNING

Construction signing shall consist of furnishing, installing, maintaining and removing construction signs and barricades as required by the "Manual of Traffic Controls for Construction and Maintenance Work Zones". The traffic control system shall be installed prior to starting work and shall not be removed until all work has been completed.

Also, in conjunction to the public relations effort, Contractor shall supply and erect project construction information signs at the designated locations as determined by the City. Such signs shall conform to the City's specifications. Specific verbiage to be determined by the City. There shall be a minimum of two (2) such signs posted.

1.4 TRAFFIC MAINTENANCE

The Contractor shall be responsible for handling vehicular and pedestrian traffic in accordance with Subsection 7-10 of the Standard Specifications and these Technical Provisions.

The Contractor shall cooperate with the Engineer relative to handling traffic through all work areas and shall make his own arrangements relative to keeping the working area clear of parked vehicles and maintaining clear access to the park drive areas.

Contractor's equipment and personal vehicles of the Contractor's employees shall not be parked on the traveled way at any time. Overnight parking for construction equipment in the work zone or on adjacent roads is not permitted. Parking of construction equipment shall be confined to the approved storage site.

1.5 STRIPING

Temporary striping and marking for traffic control if required shall conform to Section 310-5.6.5 of the Standard Specifications. Temporary striping and marking which has no further use shall be removed by wet sandblasting, and all sand used in sandblasting shall be removed without delay as the sandblasting operation progresses.

1.6 RESTRICTIONS ON SITE CLOSURE OF STREETS AND TRAFFIC LANES

The Contractor shall conduct all operations so as to provide reasonable access to the existing park facilities and have no greater quantity of work under construction that can be properly constructed with a minimum of inconvenience to the public.

PAYMENT

Payment for traffic control shall be made at the contract **LUMP SUM** price bid and shall be considered full payment for furnishing all materials, labor, equipment, and all incidentals necessary to complete the work in accordance with the Standard Specifications and these Technical Provisions.

DEMOLITION AND SITE CLEARING
BID ITEM 3, 8, 14, 18, 23, 25, 42:

Perform demolition work in a pre-planned, systematic, efficient, and orderly manner. Deploy customary and acceptable methods as required to complete the Work indicated on the Plans in accordance with governing regulations.

Provide services for effective air and water pollution controls as required by City and County Air Pollution Control District and the Southern California Air Quality Management District.

1.1 DISPOSAL OF DEMOLISHED MATERIALS

All removed materials not salvaged or reused shall be removed from the project site no later than the end of each work day and transported legally for disposal at a qualified site.

If hazardous materials are encountered, notify the City Inspector immediately.

Burning of removed materials is not permitted.

1.2 ADJUSTMENT OF EXISTING SANITARY SEWERAGE, WATER, GAS, ELECTRICAL AND TELECOMMUNICATION SYSTEMS

All existing utility facilities, i.e. manholes, vaults, irrigation boxes, valve cans, etc. may or may not have been indicated on the plans. While these items are not expected on this project, the Contractor is nevertheless hereby made aware that such encounter will require the contractor to bear the cost to raise ALL to finished grade at no additional cost to the City.

Drawings show existing major underground utilities using the best information available. Verification of existing utilities and the actual locations are the Contractor's responsibility.

Any utility inadvertently damaged by the Contractor shall be immediately called to the City's attention for shutoff and then be immediately repaired by the Contractor at its own cost within 4 hours.

1.3 CLEANUP AND REPAIR

The Contractor, at the end of each workday, shall dispose of all removed materials from the site. The Contractor also shall protect the site and the new improvements from vandals or other damages at all times until City acceptance.

PAYMENT

Payment for demolition and site clearing shall be made at the contract **LUMP SUM** included in the bid price and shall have included all of the costs for labor, equipment, supplies, tools, haulers, permit and disposal dump fees, security personnel, and other items of work to dispose of all unwanted materials and to clear, protect, and maintain the jobsite at no additional cost to the City.

EARTHWORK, REMOVAL AND GRADING, REMOVAL OF EXISTING PAVEMENT, AND CONCRETE IMPROVEMENTS
BID ITEM 4, 9, 17, 26, 27, 28, 39:

Earthwork, removal and grading, removal and disposal of unclassified excavation, structural excavation, export of existing material as indicated on Plans, removal of asphalt concrete pavement, sidewalk, driveways, etc. for proposed improvements shall conform to the applicable portions of Section 300 of the Standard Specifications for Public Works Construction and recommendations of a Geotechnical Report prepared by Global Geo-Engineering, Inc. Such work shall include all the cost of all labor, equipment, tools, supplies, and all other costs required to:

- Arrange with DigAlert to mark all potential interfering underground wet and dry utilities within the work limits;
- To the extent possible search, identify, and mark other underground utilities that were not identified by DigAlert;
- Expose, cut, and cap all existing irrigation lines and components along the excavate limits;
- Excavate, remove, and properly dispose of existing interfering soil and landscape materials;
- Remove and dispose of all interfering tree roots and organic matters. Root prune as described on the Landscaping Plan; and
- Grade to the elevations shown on plans. Backfill all voids and holes with similar and clean materials. Import as needed.
- Remove, and dispose of existing subgrade and compact soil backfill under the new concrete walks, pickleball courts, and other areas of work as shown on the Plans and in accordance with the Geotechnical Report.

PAYMENT

Payment for this item shall be made per the contract **LUMP SUM** bid price for removal and disposal/export of excavated material and no additional compensation for this item of work shall be made.

WATER POLLUTION CONTROL
BID ITEM 5:

Construction activities will be conducted in a manner to protect channels, storm drains, and bodies of water from pollution. Water pollution control work shall consist of activities necessary to meet the requirements of the City's National Pollutant Discharge Elimination System (NPDES) Area wide Urban Storm Water Runoff Permit, the County's Drainage Area Management Plan (DAMP), The State's General Construction Activities Permit (Order No. 2022-0057-DWQ, NPDES No CAS000002, adopted September 8, 2022 and effective September 1, 2023), and as required by the Engineer. The Contractor shall coordinate water pollution control work with all other work done on the contract.

Contractor shall install erosion and sediment control measures as indicated on Improvement Plans.

PAYMENT

Payment for water pollution control shall be at the contract **LUMP SUM** bid price and shall be full compensation for all items of work and all appurtenant work including installation of all erosion and sediment control measures and furnishing all labor, materials, tools, equipment and incidentals.

4" THICK REINFORCED CONCRETE WALKWAY OVER 8" CRUSHED AGGREGATE BASE
BID ITEM 11, 20, 34, 40:

All concrete work shall conform to Section 201-1 of the Standard Specifications and these Special Provisions.

PRODUCTS

1.1 CRUSHED AGGREGATE BASE

A. Crushed aggregate base will consist of entirely crushed rock and rock dust conforming to the requirements of Subsection 200-1.2 for ¾-inch crushed aggregate, of the Standard Specifications. Percentage of wear and grading will conform to Subsections 200-2.2.1 and 200-2.2.2 of the Standard Specifications. Maximum size aggregate will be ¾-inch.

1.2 CONCRETE FLATWORK

A. Concrete flatwork shall be 520-C-2500. Curing compound shall be Type 2 (if required).

PAYMENT

Payment for 6" thick concrete walkway over 6" thick crushed aggregate base shall be per **SQUARE FOOT**, complete in place, and shall be in conformance with the provisions of Subsection 201-2.4, "Measurement and Payment" of the Standard Specifications. Full compensation for labor, materials, and equipment to complete the construction is considered as included in the price paid, and no additional compensation shall be made.

PVC DRAIN PIPE, BROOKS DRAIN BOX, DRAIN INLETS, AND REMOVAL OF DRAIN INLET BOX LID
BID ITEM 29, 30, 31, 32, 33:

These items are for the construction of drainage improvements shall conform to Standard Specifications and to the details shown on Improvement Plans.

PAYMENT

Payment for installation of 4" and 6" PVC SDR 35 drain pipe and 4" PVC pipe shall include excavation, backfill and backfill compaction and shall be paid at the contract unit price bid per **LINEAR FOOT** and no additional compensation shall be made. Payment for this item shall also include connecting the proposed PVC drain to existing inlet box per details on plans.

Payment for drain inlets and removal of top box of existing inlet and placing a lid at bottom of

existing box shall be paid at the contract unit price bid per **EACH** and no additional compensation shall be made.

ADJUST EXISTING PULL BOX TO GRADE
BID ITEM 19:

The Contractor shall adjust existing pull box to grade at locations shown on the Plans.

PAYMENT

Payment for this item shall be at the contract unit price per **EACH** and shall include full compensation for all labor, materials, tools, equipment and incidentals, and for doing all the work involved.

SECTION 01 56 39- TEMPORARY TREE PROTECTION

PART 1: GENERAL

1.01 GENERAL CONDITIONS

Requirements of "General Conditions of the Contract" and of Division 1, "General Requirements", apply to work in this Section with same force and effect as though repeated in full herein.

1.02 DESCRIPTION OF WORK

Furnish all materials, labor, transportation, services, and equipment necessary to protect existing trees as indicated on Drawings and as specified herein. Prior to the start of demolition, the contractor shall meet on site with the City Engineer.

Work related in other Sections:

1. Section 32 84 00 – Irrigation
2. Section 32 90 00 - Planting
3. Section 32 92 23 – Sod
4. Section 32 93 95 – 90 Day Maintenance

1.03 TERMINOLOGY

Pruning terminology to be utilized as developed by the National Arborist Association and is herein attacked.

1.04 SUBMITTALS

Certification:

1. Submit written certification by a qualified Arborist that trees indicated to remain have been protected during course of construction in accordance with recognized standards and that where damage did occur, trees were promptly and properly treated.
2. Indicate which damaged trees, if any, are incapable of retaining full growth potential and are recommended to be replaced.

3. Arborist - an individual currently a member of the National Arborist Association or International Society of Arboriculture and verify proof of certification by such organization.

1.05 QUALITY ASSURANCE

Arborist Qualifications: Engage a qualified certified Arborist who has successfully completed tree protection and trimming, to perform the following work:

1. Remove branches from trees that are to remain.
2. Recommend procedures to compensate for loss of roots and perform initial pruning of branches and stimulation of root growth where removed to accommodate new construction.
3. Recommend procedures for excavation and grading work juxtaposed to established plants.
4. Perform tree repair work for damage incurred by new construction.
5. Pruning to conform to ISA Pruning Standards and National Arborist Association Class I-IV as specified.

1.06 PROJECT CONDITIONS

Temporary Protections: Provide temporary fencing, barricades, or other suitable guards located outside dripline to protect trees and other plants that are to remain from damage. Tree protection fence / barrier shall be as indicated in the construction documents. At a minimum tree protection shall consist of a 6’ chain-link fence around significant trees. Trees on slopes shall be protected with a 3’ orange snow fence with wood stakes. Fences shall protect tree branches and the tree’s rootzone.

Protect Root Systems:

1. Do not store construction materials, debris, or excavated material within dripline of trees to remain.
2. Do not permit vehicles within dripline of existing trees.
3. Restrict foot traffic to prevent excessive compaction of soil over root systems within dripline.

PART 2: PRODUCTS

2.01 MATERIALS

Drainage Fill: Selected stone or gravel, graded to pass a 3-inch sieve and retained on a 1-inch sieve.

New Topsoil:

1. Fertile, friable, surface soil, containing natural loam.
2. Obtain from local sources or from areas having similar characteristics to indigenous topsoil.
3. Provide topsoil that is reasonably free of subsoil and clay lumps, and free of brush, weeds, roots, stones larger than 2-inches and free of other extraneous or toxic matter harmful to plant growth.
4. Obtain topsoil only from well-drained sites where soil occurs in depth of 4-inches or more. Do not obtain from bogs or marshes.
5. Topsoil, prior to use, must be laboratory tested for horticulture suitability and such test must be approved by Owner's Authorized Representative prior to placement.
6. Utilize mulch from tree removals, or purchase and place 2" medium grind mulch, or utilize mulch as provided by the City.
7. Water, clean domestic or well water shall be utilized for watering to maintain trees and shrubs that are to be protected.

PART 3: EXECUTION

3.01 GENERAL

Protect tree root systems from damage due to noxious materials caused by runoff or spillage during mixing, placement, or storage of construction materials. Protect root systems from flooding, eroding, or excessive wetting resulting from dewatering operations.

Do not allow fires under or adjacent to trees or other plants that are to remain.

Branches may be removed for construction purposes only upon approval of Owner's Authorized Representative or Arborist and subject to local governing agency ordinances.

1. Where directed by City Engineer or Arborist, extend pruning operation to restore natural shape of entire tree.
2. Cut branches and roots, if required, with sharp pruning instruments. Do not break or chop.

Mulch shall be placed to protect tree root zones. Mulch shall be 6” to 8” thick organic mulch. Do not place mulch within 6” of tree trunks. For Oak trees, do not place mulch within 24” of tree trunk.

3.02 ON-GOING MAINTENANCE / TREE AND SHRUB WATERING

A. Provide maintenance of existing trees and shrubs that are indicated in the drawings as “protect in place”

B. Maintenance shall consist of watering, weed control, mulching, re-staking, pruning / trimming, tightening, restoration of planting saucers, aeration where areas have been compacted, and furnishing and applying such sprays and invigorants as are necessary to maintain the plants free of insects and disease and in thriving condition.

C. Irrigate planting areas as required to ensure active growth. Maintain planting areas in a moist, but not saturated, condition. Regulate irrigation as necessary to avoid erosion and gullying.

1. Supplemental hand watering may be required to maintain new and existing planting.

2. When hand watering, use water wand to break the water force.

3.03 EXCAVATION AROUND EXISTING TREES

Excavate within proximity of existing trees only where indicated on Drawings. Do not machine-excavate within dripline. Consult City Engineer, City Arborist and Landscape Architect prior to excavating thru a trees drip line.

1. Acceptable methods are hand digging, boring, and air-spade under the supervision of the City’s Arborist.

Where excavating for new construction is required within dripline of trees, hand-excavate to minimize damage to root systems. Provide sheeting at excavations if required. Use narrow-tine spading forks and comb soil to expose roots.

2. Relocate roots in backfill areas wherever possible. If large, main lateral roots are encountered, expose beyond excavation limits as required to bend and relocate without breaking. If encountered immediately adjacent

to location of new construction and relocation is not practical, cut roots approximately 3-inches back from new construction.

Do not allow exposed roots to dry out before permanent backfill is placed. Provide temporary earth cover or pack with peat moss and wrap with burlap. Water and maintain in moist condition and temporarily support and protect from damage until permanently relocated and covered with earth.

3. Root greater than 3” in diameter shall be protected within 3 hours of excavation.
4. Roots greater than 3” in diameter shall not remain unprotected at the end of a workday.

Where trenching for utilities is required within dripline, tunnel under or around roots by hand digging. Do not cut main lateral roots or tap roots; cut only smaller roots that interfere with installation of new work. Cut roots cleanly with sharp, appropriate pruning instruments. Do not break or chop roots.

Prune branches to balance loss to root system caused by damage or cutting of root system as directed by Owner’s Authorized Representative or Arborist.

Avoid heavy compaction in areas that include major roots. Any work within dripline should be done by hand and under the supervision of a certified arborist.

3.04 GRADING AND FILLING AROUND EXISTING TREES

Maintain existing grade within dripline of trees.

Lowering Grades:

1. Where existing grade is to be lowered around a protected tree, gradually slope grade away from tree as recommended by Arborist. Do not reduce grade within tree dripline.
2. Consult Owner’s Authorized Representative or Arborist for appropriate plans on grade cuts exceeding 12-inches which may require details as to drains, special backfill mixes and retaining walls.

Raising Grades:

3. Where existing grade is to be raised 6-inches or more within tree root zone, consult the Engineer or Arborist to provide appropriate remedial plans to accommodate this grade change.

4. Such plans may address perforated pipe bends, drain lines, grates and retaining walls as may be required.
5. No soil fill will be allowed to cover over existing tree root zone grade.
6. Do not place soil as to cover tree trunk root flare.
7. For bidding purposes only: assume grades will be raise by placing a 2" layer of sand over the existing finish grade to achieve the design elevation for new finish surface.

3.05 ROOT PRUNING

Branch pruning may be required to stimulate root growth and to compensate for loss of roots.

Prune only per written recommendations from Arborist and conform to established pruning standard practices.

Ensure that Arborist provides Owner typed instructions for recommended long term maintenance procedures to be followed after completion of construction operations.

3.06 REPAIR AND REPLACEMENT OF TREES

Repair trees damaged by construction operations. Make repairs promptly after damage occurs to prevent progressive deterioration of damaged trees.

Remove and replace dead and damaged trees that Arborist determines to be incapable of restoration to normal growth pattern.

Provide new trees at a 48" box size and species of a species as selected by the Landscape Architect.

If trees over 6-inches in caliper measurement (taken 12-inches above grade) are required to be replaced, provide new trees of 6-inch caliper size and of species selected by Owner's Authorized Representative.

3.07 DISPOSAL

Do not burn trees or branches on-site.

Removal from Owner's Property: Remove excess excavation, displaced trees, and trimmings and dispose of off City's property.

END OF SECTION

SECTION 02 88 20 - PLAYGROUND EQUIPMENT

PART 1 - GENERAL

1.01 DESCRIPTION

A. Furnish all labor, materials, tools, equipment, appliances and necessary incidentals for the complete installation of all play structures, stand-alone play equipment, exercise equipment, and rock/rope climbing equipment.

B. Related sections.

Section 03 30 53: Concrete Formwork
Section 12 93 00: Site Furnishings and Miscellaneous Materials
Section 32 18 16: Synthetic Resilient Surfacing

C. Provide play ground certification.

1. The contractor shall retain a certified playground safety inspector at his own expense and provide a play ground safety certification report.

2. Any discrepancies found in the play ground safety report shall be resolved to the satisfaction of the city prior to acceptance of the play ground and prior to the start of the maintenance period.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

E. All vendors, suppliers, and manufacturer's representatives and the associated addresses, phone and fax numbers on the Plans and in the Specification are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 SUBMITTALS

A. Product Data: Submit complete manufacturer's descriptive literature and specifications.

B. Shop Drawings: Submit Shop Drawings describing the fabrication and installation of equipment proposed for use.

C. Samples: Submit the manufacturer's standard palettes for the selection of color.

D. Calculations:

1. Provide Structural calculations for all materials proposed as required by local building code.

2. Design Data: Submit engineering' calculations confirming the design of the play equipment, structures, and protective devices proposed for use.

a. Calculations for framing members, steel supports, and anchorage to the structure shall be prepared and signed by a Structural Engineer currently licensed to practice in the State of California.

E. A Certificate of Insurance shall be provided by all equipment manufacturers.

1.03 SUBSTITUTIONS

A. Submit three (3) sets of a typewritten list of equipment and materials as specified to the Engineer within twenty-one (21) days after award of contract. This list shall give the name, model number, and manufacturer, and shall be accompanied by cut sheets or reproductions of catalog pages for all of the equipment and material to be installed.

B. Approval of substitutions will not relieve the Contractor from complying with the requirements of the Contract Documents, Plans and Specifications. Pay at Contractor’s sole expense for all changes caused by approved substitutions which affect other items of work.

C. Substitutions will be rejected if materials proposed do not meet or exceed those specified on the plans or within the contract documents. Comparison for proposed substitutions shall be provided in writing by the contractor.

1. Product equivalency shall be base on maintaining the design intent as well as a qualitative analysis of strength and durability, Finishes, UV Exposure, warranty, and cost and savings to city.

1.04 FIELD CONDITIONS

A. Field Measurements: The contractor shall be responsible for verifying all field measurements prior to the installation if the play equipment and the surrounding hardscape.

B. The contractor shall be responsible for making any adjustments necessary to ensure the safety fall zones with-in the play areas.

C. Any discrepancies within the layout of the design shall be immediately brought to the attention of the City Engineer, designer, and play equipment manufacturer's representative.

D. Improper installation of play equipment resulting in a compromise or safety shall be corrected by the contractor at no additional cost to the city.

E. All fall zone distances shall be field verified by the contractor prior to the installation of the adjacent hardscape and again prior to the installation of the synthetic grass surfacing. Fall zones shall be marked on the finished grade and reviewed by the City's designated representative.

1.05 WARRANTY

A. Provide product warranty information for all items included in this section.

PART 2 PRODUCTS

2.01 MANUFACTURERS

A. Design, play value, materials, and warranty are based on the use of products manufactured by:

1. Play Equipment
   Landscape Structures
   Coast Recreation Inc.
   Contact: Allison Hepburn
   (714) 619-0100

2.02 MATERIALS

See Construction Details for specific playground components.

PART 3 EXECUTION

3.01 INSTALLATION

A. The installing contractor shall provide proof experience with references showing 5 similar projects constructed within the past 5 years.

B. General: Install the playground equipment in accordance with the manufacturer's recommended procedures and installation sequence. Equipment shall be rigid, straight, plumb and level. Secure equipment with manufacturer's fastening devices.

C. Foundations: Support holes shall be filled with concrete to the full required depth. The top of the concrete shall be 6" below finished grade. Primary supports shall be temporarily supported until concrete has sufficiently cured.

D. Metal Connectors: Secure with pins or spot welding to prevent loosening of the connection.

3.02 CLEANING

A. Clean surfaces of equipment thoroughly and leave ready for intended use.

3.03 CERTIFICATION

A. The Contractor shall retain an independent certified playground safety inspector to review the play equipment after installation. The Playground inspector shall be certified by CPSI with no less than 5 years experience. The Playground safety inspector shall submit a letter report detailing any deficiencies or accessibility issues related to the design and manufacturing, or installation of the structure.

B. Any deficiencies in the playground as noted for immediate correction by the certified playground inspector shall be reconciled by the contractor prior to acceptance at no additional cost to the city.

END SECTION

SECTION 03 11 13 - CONCRETE FORMWORK

PART 1: GENERAL

1.01 DESCRIPTION

A. The General Provisions shall apply to all Concrete Formwork operations. Provide all labor, materials, tools, transportation, equipment and incidentals necessary to perform work as indicated on the Plans and as herein specified.

B. Related Section.

Section 03 30 53: Miscellaneous Concrete

C. The Standard Specifications for Public Works Construction, "Greenbook", latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

1.02 QUALITY ASSURANCE

A. Comply with all applicable local, state, federal requirements regarding materials, methods of work, and disposal of excess and waste materials.

B. Manufacturer's directions, specifications and detailed drawings shall be followed in all cases where articles used furnish directions covering points not delineated on the Plans or Specifications.

C. The work included in this Section shall be done to the satisfaction of the Engineer. The decision by the Engineer as to the true construction meaning of the Plans and Specifications will be final.

PART 2: PRODUCTS

2.01 MATERIALS

A. Where finish concrete is below grade, plywood or sawed lumber formwork shall be constructed of substantial material as selected by the Contractor.

B. Where finished concrete is above grade and scheduled to be exposed, use Plyform Class I and II B-B, EXT-DFPA.

C. Form coating shall be a non-grain-raising and non-staining type that will not leave residual matter on the surface of the concrete or adversely affect bonding to concrete of paint, plaster, or other applied materials.

D. Portland cement shall be Type V, ion alkali and shall conform to ASTM C150.

PART 3: EXECUTION

3.01 INSTALLATION

A. All concrete above grade shall be cast in plywood or sawed lumber forms.

B. Concrete below grade may be poured directly against earth in open trenches.

C. All forms shall be constructed true to line and level, sufficiently tight to prevent leakage of mortar, and shall conform exactly to the dimensions of the finished concrete as shown on the drawings. Forms for curved surfaces shall be so constructed and placed that the finished surface shall not deviate from the arc of the curve; flat spots will not be accepted.

D. Where studs in formwork are spaced not over 12” o.c., 5/8” minimum plywood shall be used. Where studs are spaced not over 16” o.c., 3/4” minimum plywood shall be used.

E. Place long dimension of plywood sheets perpendicular to direction of studs.

F. Forms and metal reinforcement shall be checked and approved by the Engineer before concrete is placed.

3.02 REMOVAL OF FORMS

Do not disturb or remove forms until the concrete has developed sufficient strength to safely sustain its own weight and the superimposed loads above. After concrete is placed, the following minimum time periods shall elapse before the removal of forms.

ITEM	FORMS	SHORING
Sides of walls and edge of slabs and footings	3 days	5 days

END OF SECTION

SECTION 03 30 53 - MISCELLANEOUS CONCRETE

PART 1: GENERAL

1.01 DESCRIPTION

A. The General Provisions shall apply to all miscellaneous concrete work operations. Provide labor, materials, tools, transportation, equipment and incidentals necessary to perform work as indicated on the Plans and as herein specified.

B. Related Sections.

Section 03 11 13 - Concrete Formwork

C. The Standard Specifications for Public Works Construction, “Greenbook”, latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the “Greenbook”, unless otherwise determined by the Engineer.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer’s designated representative.

3. ASTM: American Society of Testing Materials

E. All vendors, suppliers, and manufacturer’s representatives and the associated addresses, phone and fax numbers on the Plans and in the Specification are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 QUALITY ASSURANCE

A. Comply with all applicable local, state, federal requirements regarding materials, methods of work, and disposal of excess and waste materials.

B. Manufacturer’s directions, specifications and detailed drawings will be followed in all cases where articles used furnish directions covering points not delineated on the Plans or Specifications.

C. The work included in this section will be done to the satisfaction of the Engineer. The decision by the Engineer as to the true construction meaning of the Plans and Specifications will be final.

D. Material quality standards and testing procedures shall be in accordance with all ASTM standards and testing procedures and shall be the latest requirements.

1. All tests shall be made by a testing laboratory acceptable and approved by the Engineer.

2. One mechanical analysis and one decantation test shall be made of the sand and coarse aggregate proposed for the work.

E. Reinforcing Steel: All steel shall be Grade 60 billet steel conforming to ASTM A-615.

1.03 SUBMITTALS:

A. Shop Drawings: Submit for concrete slabs showing dimensioned locations and types of construction and expansion joints.

B. Samples: Prepare minimum 4-foot square samples of each required slab finish excluding only monolithic trowel and float finishes. Include a transverse expansion joint, scoring, and edging.

PART 2: PRODUCTS

2.01 MATERIALS

A. Concrete shall have a minimum compressive strength at 28 days of 2500 psi.

B. Portland Cement shall be Type V, low alkali, and shall conform to ASTM C150.

C. Concrete aggregate shall conform to ASTM C33. All aggregate shall be well graded and selected from a source that has a proven history of non-reactivity. Maximum aggregate size shall be 3/4 inch.

D. Fine aggregate shall consist of washed natural sand having hard, strong and durable particles and which does not contain more than 2% by weight of clay, loam, shale, alkali, organic matter or other deleterious substances.

E. Coarse aggregate shall consist of clean, hard, fine grained, sound crushed rock or gravel, which does not contain more than 5% by weight of flat, chip-like, thin, elongated, friable or laminated pieces. Any piece having a major dimension in excess of two and one-half (2 1/2) times the average thickness and which will adversely affect the strength of the concrete shall not be used.

F. Water shall be clean and free from deleterious amounts of acids, alkalis, and organic materials.

G. Imprint pattern and color shall be as noted on the plan under construction materials schedule.

H. Each component of the concrete mix shall be supplied from the same source for the entire project.

2.02 PROPORTIONS AND MIXING

A. The concrete shall be composed of cement, sand and coarse aggregate in the proportions as determined by the testing laboratory. Cost of mix design shall be borne by Contractor.

B. Slump: Adjust quantity of water so concrete at time of placing does not exceed the following slumps when tested according to ASTM C143. Use the minimum water necessary for workability required by part of structure being cast.

Part of Structure	Maximum Slump Inches	Maximum Water-Cement Ratio
Footings, foundation walls, and mass concrete, not reinforced	4	0.6
Slabs on grade, reinforced and non-reinforced	3	0.45
Reinforced concrete over 8” thick	4	0.5
Reinforced concrete 8” or less thick	4-1/2	0.5
All other concrete	4	0.5

C. The concrete shall be mixed as follows:

1. Each transit mixer shall be equipped with automatic devices for recording the number of revolutions of the drum prior to completing the mixing, with peripheral drum speed of approximately 200 feet per minute.

2. Transit-mix concrete shall be mixed for a period of not less than ten (10) minutes. At least three (3) minutes of the mixing period shall be immediately prior to discharging at the job.

3. Transit-mix concrete shall not be delivered to the work with the total specified amount of water incorporated therein. Two (2) gallons of water per cubic yard shall be withheld, and may be incorporated in the mix, before the concrete is discharged from the mixer truck.

4. The concrete, at time of placing, shall be in such condition that it can be properly placed.

2.03 MISCELLANEOUS CONCRETE

A. Concrete footings
B. Concrete flatwork
C. Concrete header
D. Concrete Curbs

PART 3: EXECUTION

3.01 PLACING CONCRETE

A. Before the placing of any concrete, all forms shall be thoroughly cleaned and wet. Concrete shall be poured into forms immediately after it is mixed, so that no separation will occur. No concrete which has stood for more than fifteen (15) minutes after leaving the mixer shall be used. Concrete shall be rejected if not placed in its final position within ninety (90) minutes after water is first added to the batch.

B. Maximum free drop of concrete shall not be more than 5’-0”. Use tremies in deep sections.

C. The location of all stoppages shall be approved by the Engineer.

D. The flow surface of the freshly poured concrete shall be level whenever any pour is stopped and tight dams shall be built as necessary to accomplish this result. Construction joints shall be made only when unavoidable, and then only at the point determined by the Engineer. Details of such joints shall be as directed by the Engineer.

E. Before the placing of any concrete, the surface of the previously poured concrete shall be clean, wet and free of oil or any other contamination.

F. Install concrete and cement finish work true to lines, dimensions, levels, and finish with smooth unblemished surfaces for exterior finishes specified on Plans.

G. Remove and replace defective concrete or cement work with new materials. Permission to patch any defective area shall not be a waiver of the right of the City to require complete removal of defective work if patching does not restore quality and appearance of work.

H. No advertising impression, stamp, or mark of any description will be permitted on surface of concrete or cement finish.

3.02 CONCRETE FINISH

A. Compact and tamp concrete as specified to bring 3/8” of mortar to surface, wood float to straight edges and screeds, and apply following finishes. Do not use steel or plastic floats of any kind for initial floating operations. Unless otherwise specified, do not apply finishes until surface water disappears and surface is sufficiently hardened. Remove any bleed water and laitance as it appears.

B. The color for concrete paving shall be as shown on plans.

C. Integral color concrete shall be incorporated per manufacturer’s rates and specifications.

D. The pattern for imprint concrete shall be as shown on plans.

3.03 CONSTRUCTION/CONTRACTION AND EXPANSION JOINTS

A. Expansion joint material shall be at all vertical surfaces.

B. Locate construction and contraction joints to least impair the strength and appearance of the structure. In no case place an intersecting construction joint in such a way that two intersecting walks are separated by a construction or control joint at the point of intersection. Transition curves shall be part of a continuous pour of the intersection slab.

1. Construction joints shall be a maximum of twenty feet (30’) apart, with contraction joints a maximum of ten feet (10’) from construction joints. See plans for design layout.

2. The Contractor shall obtain the Engineer’s approval of layout showing proposed location of joints before pouring concrete.

C. Caulking of expansion joints where called for on the Plans shall be done with a non-tracking, multi-part flow type, self-leveling, polyurethane sealant manufactured by Chem-Seat, Grace, 3-H or approved equivalent.

1. Color shall match the color of the concrete where the expansion joint occurs unless shown otherwise on the plans.

2. Caulking shall be done by an experienced applicator in a workmanlike manner, in smooth straight runs, after thoroughly cleaning and priming joints.

3. All work shall be done in strict accordance with manufacturer's printed recommendations. Do not permit traffic to travel over seated joints until sealer has fully cured.

3.04 QUALITY CONTROL

A. Smoothness tolerance exterior concrete finish surfaces shall be of such smoothness and evenness that they shall contact the entire length of a 10' straight edge laid in any direction, with an allowable tolerance of 1/8 inch. Any operations necessary to achieve this result shall be performed by the Contractor at no additional cost to the City.

B. Inspections will be provided as necessary. Call for inspection two (2) working days prior to need.

C. The Contractor shall call for inspection during specific phases of construction. They shall include:

1. All form work prior to pouring.

2. All footings prior to pouring.

3. Subgrade prior to pouring.

4. Drag form approval.

5. At beginning of imprinting.

D. Contractor shall notify the Engineer twenty-four (24) hours prior to pouring any concrete.

E. Any work covered prior to inspection shall be opened to view by the Contractor at his expense.

3.05 TESTING

A. Compression tests of concrete shall be made as required by the Building Code except that compression tests of any grade of concrete shall be made whenever the quantity of that grade used in the project exceeds 25 cubic yards. At least two identical cylinders of each grade of concrete shall be taken of each 100 cubic yards of concrete or fraction thereof placed in the work. The cylinders shall be tested in a testing laboratory and test reports submitted to the City.

B. Storage of test cylinders on the site and after delivery to the testing shall be in accordance with ASTM Designation C31.

1. Should the strength by test fail, the mix shall be adjusted so that the resulting concrete shall comply with the minimum requirements, and all additional expense resulting from such adjustment shall be borne by the Contractor.

2. Should the strength of any grade by test fall below minimum, concrete from the defective pours which is in place may be tested by the core method. If such tests show the concrete to be defective, the concrete shall be removed and replaced or adequately strengthened as required under the governing Code. All expenses involved shall be borne by the Contractor.

3. Testing of concrete shall be at the discretion of the Engineer.

END OF SECTION

SECTION 04 22 00 -CONCRETE MASONRY UNITS

PART 1: GENERAL

1.01 DESCRIPTION

A. Provide all labor, materials, tools, transportation and incidentals to provide and install concrete masonry units (CMU) including reinforcement, anchorage, and accessories as indicated on the Plans and as herein specified.

B. Related Section.

Section 03 11 13: Concrete Formwork
Section 03 30 53: Miscellaneous Concrete
Section 12 93 00: Site Furnishings and Miscellaneous Materials

C. The Standard Specifications for Public Works Construction, "Greenbook", latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

E. All vendors, suppliers, and manufacturer's representatives and the associated addresses, phone and fax numbers on the Plans and in the Specification are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 QUALITY ASSURANCE

A. Perform Work in accordance with the current edition of the California Building Code.

B. Mortar and grout mix design:

1. The Contractor shall employ and pay for, an independent testing laboratory acceptable to the Engineer to design the mortar and grout mixes required.

2. The mixes shall be designed by the testing laboratory to produce mortar and grout of the strengths shown on the Drawings. Refer herein for tests to be used in determining masonry strengths.

1.04 SUBMITTALS

A. Submit under provisions of City specifications.

B. Shop Drawings: Indicate bars sizes, spacings, locations, reinforcement quantities, bending and cutting schedules, supporting and spacing devices for reinforcement and accessories.

C. Product Data: Provide data for masonry units.

D. Manufacturer's Certificate: Certify that Products meet or exceed specified requirements.

1.05 QUALIFICATIONS

A. Manufacturer: Company specializing in manufacturing the Products

specified in this section with minimum 5 years experience.

1.06 REGULATORY REQUIREMENTS

A. Conform to applicable code for masonry construction.

PART 2: PRODUCTS

2.01 MATERIALS

A. CMU: Size and Finish noted in detail

C. Portland cement: ASTM C 150, Type I, II or III.

D. Lime: ASTM C 207, Type S.

E. Aggregates:

1. For grout: ASTM C 404. Modify coarse aggregate grading requirements so that not more than 5% pass a No. 8 sieve and 100% passes a 3/8 in. sieve.

2. For mortar: ASTM C 144.

F. Mortar coloring pigments: Chemically inert, color-fast, finely ground limeproof pigment by LM Scofield & Co., or equal, of the color selected to match Engineer approved sample.

G. Admixture for grout: Sika Grout-Aid by the Sika Corp. or equal.

H. Water: Potable and fresh.

I. Reinforcing steel: ASTM A 615, grade shown.

J. Miscellaneous materials: As hereinafter specified and as necessary to complete this work.

2.02 MORTAR AND GROUT MIXING

A. Mix in the proportions designed by testing laboratory.

B. Use admixtures according to their manufacturer's printed instructions. Secure manufacturer or distributor initial supervision by a qualified field representative to assure proper use of admixture.

C. Mix by placing 1/2 of water and sand in operating mixer. Then add cement, lime, admixture and the remainder of sand and water. After all ingredients are in the mixer, mix mechanically for not less than three minutes. Do not hand-mix ingredients.

D. Use grout for placing of consistency as fluid as possible for placing without segregation of constituent parts.

E. Mortar may be retempered with water as required to maintain high plasticity.

F. Retemper on mortar boards only by adding water within a basin formed with the mortar and rework the mortar into the water.

G. Discard mortar and grout which are unused after 1-1/2 hour from initial mixing time.

PART 3: EXECUTION

3.01 SHORES AND CENTERING

A. Design, erect, support, brace and maintain shoring and centering for temporary support of cobble elements.

B. Construct true to required shape, size and form, well braced and made rigid in all parts and capable of supporting and sustaining the loads to which they are subjected.

C. Leave shores and centering in place until cobble can safely carry its own weight and the added loads of construction.

D. Brace Pilaster adequately to withstand all forces they will be subjected to during construction. Walls are not designed to be self-supporting for lateral loads until attached to floor and roof elements.

3.02 WORKMANSHIP

A. Erect pilaster plumb, square, straight and true to indicate lines, position and dimensions, in level courses with joints properly aligned.

B. Use sound, dry, clean cobble units free from cracks when placed in the structure.

C. If it is necessary to move a unit after it as been once set in place, remove the unit from the wall, clean and set in fresh mortar.

D. Do not exceed the tolerances contained in ACI 117 for completed work.

3.03 REINFORCEMENT

Embed reinforcement completely in grout with minimum coverage specified below.

3.04 BONDING

A. For bonding the cobble to the foundation, clean top surface of concrete foundation, remove laitance and expose aggregates before starting masonry construction.

B. Lay-up sides in straight uniform courses.

C. Corners shall have a standard bond by overlapping units and grouting solid.

3.05 JOINTS

A. Lay the starting joint on foundations with full mortar coverage on the bed joint. Keep area where grout occurs free from mortar so that grout will contact the foundation.

B. Mortar surfaces between cobbles shall be smooth and uniform cobble to produce a dense, slightly concave surface well bonded to the cobble on each side where exposed in the Work.

C. Perform tooling when mortar is partially set but still sufficiently plastic to bond. Use a tool which compacts the mortar, pressing excess mortar out of joint rather than dragging it out.

D. Rake out joints which are not right at the time of tooling, point and then tool.

E. Set capping units and bearing plates in a full bed of mortar.

F. Do not wet the cobbles units except that in very dry weather the contact surfaces of the units shall be moistened immediately before laying.

3.06 GROUTING

A. Keep mortar droppings out of or remove from the grout space before grouting.

B. Perform grouting from the inside of the cobble. Vibrate grout after initial absorption of water, but before plasticity is lost, to encase steel and to insure contact. Encase reinforcement in minimum of 1/2 in. of grout between

cobble and reinforcement.

3.07 FIELD QUALITY CONTROL

A. The Owner's Testing Agency will test mortar and grout as required by governing [CAC] .

B. The Testing Agency shall make the following tests in accord with these Specifications and the requirements of the [CAC]. The minimum acceptable test results are listed below.

C. At the beginning of masonry work, at least 2 test samples of mortar grout shall be taken and prepared for each 50 cu. yds. or fractional part hereof, and continuously stored in most air until tested. The compressive strengths shall meet the minimum strengths specified. Perform tests in compliance with the following:

D. Compression test strengths:

1. Mortar compression tests: On 2 in. x 2 in. cubes tested in compliance with ASTM C 109.

   a. 7 day: 1800 psi.

   b. 28 day: 3000 psi.

2. Grout compression tests: On cylinders made and cured in compliance with ASTM C 31. Compressive strength shall be determined in compliance with ASTM C 39.

   a. 7 day: 2000 psi.

   b. 28 day: 3300 psi.

E. Additional samples shall be taken whenever any change in materials or job conditions occurs or whenever, in the judgment of the Engineer, such tests are necessary to determine the quality of the material and installed work.

F. In making mortar test specimens, the mortar shall be taken from the unit soon after spreading. After molding, the molds shall be carefully protected by a covering which shall be kept damp for at least 24 hours, after which the specimens shall be stored and tested as required for concrete cylinders.

G. In making grout test specimens, remove molds after the grout has taken its set but before it has hardened. Store cylinders as required for concrete cylinders and test in the vertical position.

H. The compressive strength of masonry work shall be established by preliminary tests made in advance of the operations, using prisms of similar materials under the same conditions and insofar as possible, with the same bonding arrangement, mortar composition and joint thickness as for the structure. In building the prisms, the moisture content of the unit at time of laying, the consistency of the mortar, the workmanship and curing conditions shall be the same as will be used in the structure.

I. Test specimens shall be large enough to approximate the actual conditions in the finished structure, but small enough to facilitate handling and cutting to the size prisms required to fit the testing machines available. All tests shall be made in accord with the [UBC] [CAC].

J. Whenever there is any evidence that materials to be used in masonry construction do not conform to the Specifications, the material shall be tested for compliance before being used in the work.

K. All tests shall be made by the Testing Agency of record.

L. Testing of mortar and grout shall e at the discretion of the Engineer.

3.09 CLEANING

A. Remove grout scum and grout stains from the pilaster and all other surfaces immediately.

B. After pilaster is constructed, do not saturate with water for curing or any other purpose.

C. Where atmosphere is dry, dampen pilaster surface with a very light fog spray for 3 days.

END OF SECTION

SECTION 05 73 13 – ORNAMENTAL TUBULAR STEEL FENCES AND GATES

PART 1: GENERAL

1.01 DESCRIPTION

A. Tube Steel Fence and Gate.

B. Related Sections

Section 03 11 13 – Concrete Formwork
Section 03 30 53 – Miscellaneous Concrete

C. The Standard Specifications for Public Works Construction, "Greenbook", latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

E. All vendors, suppliers, and manufacturer's representatives and the associated addresses, phone and fax numbers on the Plans and in the Specification are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 SUBMITTALS:

A. Shop Drawings: Layout of railing and fence with dimensions, details and finishes of component accessories and post foundations.

B. Product Data: Manufacturer's catalogue cuts indicating material compliance and specified options.

C. Samples: Color selections for finishes. If requested, samples of materials, (e.g. finials, caps, and accessories).

PART 2: PRODUCTS

2.01 MANUFACTURER

A. Products from qualified manufacturers having a minimum of 5 years experience manufacturing ornamental picket fencing.

B. Ornamental Picket Fence:
Style: Per detail - see plans
Height: Per detail – see plans

C. Ramp Handrail:
Style: Per detail - see plans
Height: Per detail – see plans

2.02 TUBE STEEL PICKETS, RAILS AND POSTS

A. Pickets: Per plan-see detail

B. Rails: Per plan-see detail

C. Posts: Per plan-see detail

D. Finish: Per plan-see detail l

1. In accordance with ASTM A123 Grade 85, for steel and iron products; use ASTM A153, Class B2, for steel and iron hardware.
2. Fabricate items for galvanneal finish in one piece in greatest extent possible for separate panels. Field welding of main components will not be permitted.
3. Surfaces shall be free of icicles, spangles and puddling. Provide venting holes at all enclosed sections; Drilled holes are acceptable. Locate venting holes at a low point to prevent rainwater from entering and standing water. See drawings and schedules for extent of steel items to be provided with a galvanized finish.

PART 3: EXECUTION

3.01 EXAMINATION

A. Verify areas to receive fencing are completed to final grades and elevations.

B. Ensure concrete alignment and elevations are clearly established.

3.02 INSTALLATION

A. Install fence in accordance with these plans and specifications.

B. Space posts uniformly at on center, as indicated in detail.

C. Concrete Set Posts: All post will be set in a concrete footing as indicated in detail. Construct concrete footing as indicated in detail.

D. Gate Posts and Hardware: Not applicable on this project

E. Check each panel for vertical and top alignment and maintain in position during placement and finishing operation.

3.03 CLEANING

Clean up debris and unused material and remove from site.

END OF SECTION

SECTION 09 75 00 - MANUFACTURED STONE AND BRICK VENEERS

PART 1: GENERAL

1.01 SECTION INCLUDES

A. Manufactured stone and brick veneer.

1.02 RELATED SECTIONS

A. Section 042200 – Concrete Masonry Units

1.03 REFERENCES

A. ASTM C 91: Specification for Masonry Cement.

B. ASTM C 150: Specification for Portland Cement.

C. ASTM C 177-71: Test Method for Thermal Conductivity by Means of Guarded Hot Plate.

D. ASTM C 207: Specification for Hydrated Lime for Masonry Purposes

E. ASTM C 270: Specification for Mortar for Unit Masonry

1.04 SUBMITTALS

A. Submit three copies of manufacturer’s data and cut sheets.

B. Submit three full sized samples for each type material used.

C. Submit three copies of manufacturer’s installation instructions.

1.05 QUALITY ASSURANCE

A. Applicator: Company experienced in the installation of manufactured stone and brick veneers of the types specified, with a minimum of 5 years experience.

1.06 DELIVERY, STORAGE AND HANDLING

A. Store mortar and other moisture-sensitive materials in protected enclosures; handle by methods which avoid exposure to moisture.

1.07 PROJECT CONDITIONS

A. Protect materials from rain, moisture and freezing temperatures prior to, during and for 48 hours after completion of work.

B. Allow no construction activity on opposite side of wall during installation and for 48 hours after completion of work.

1.08 WARRANTY

A. Provide manufacturer's warranty.

PART 2: PRODUCTS

2.01 MANUFACTURERS

A. Creative Mines or approved equal

2.02 MATERIALS

A. Craft Foothill Rubble, color Toasted

B. Mortar

1. Portland Cement, ASTM C 150, Type I or masonry cement (Type N), ASTM C 91.

2. Masonry sand.

3. Lime: ASTM C 207

4. Iron oxide pigments (if required)

C. Masonry Sealer: If specifying use: breather type (non-film forming) sealer.

2.03 MANUFACTURED UNITS - CULTURED STONE

A. Compressive Strength: Tested in accordance with UBC Standard No. 26-10, Parts I and IV.

B. Shear (adhesion) strength: tested in accordance with ASTM C 482 using a unit thickness approximately the same as the stone unit.

C. Thermal Resistance: K factor 2.82 in accordance with ASTM C 177. R factor is .355 per 1 inch of thickness.

D. Fire Hazard Test on 1 7/8 inch thick Sample: Flame spread of 0, smoke development of 0 in accordance with UL723

PART 3: EXECUTION

3.01 PREPARATION

A. Open Studs: Install paper backed metal lath to studs using galvanized nails or staples which penetrate a minimum of 1 inch and place 4 inches on center. Apply ½ inch to ¾ inch scratch coat and allow to dry 48 hours. Wrap weather resistant barrier and metal lath a minimum of 16 inches around all outside and inside corners.

B. Sheathed Surfaces: Install one layer of weather-resistant barrier with lap joints 4 inch shingle fashion. Apply code approved metal lath, attach with galvanized nails or staples which penetrate a minimum of 1 inch. Apply 6 inches on center vertically and 16 inches on center horizontally. Wrap weather resistant barrier and metal lath a minimum of 16 inches around all outside and inside corners.

C. Concrete and Masonry Surfaces, New, Clean and Untreated: (no preparation needed) Examine newly poured concrete closely to ensure that its finished surface contains no releasing agents (form oil). If it does contain form oil, etch surface with muriatic acid, rinse thoroughly and/or score with a wire brush, or use high pressure water or sandblasting to remove.

D. Existing Concrete and Masonry Surfaces: If required remove paint, coatings, sealers and dirt as recommended in 3.01 C, or apply metal lath to surfaces, attach with galvanized concrete nails. Apply 6 inches apart, 16 inches on centers.

3.02 MORTAR MIXING

A. Thoroughly mix mortar ingredients in quantities needed for immediate use in accordance with ASTM C 270, Type N.

B. Do not use anti-freeze compounds to lower the freezing point of mortar.

3.03 APPLICATION

A. Apply in accordance with Manufacturer's Installation Instructions.

B. Apply ½ inch to ¾ inch of mortar to lath and/or dampened masonry, stucco or concrete surfaces, covering a maximum of 10 square feet at one time. Press the units firmly into position in soft mortar bed, jiggle and apply slight pressure to unit to ensure firm bonding causing mortar to extrude slightly around edges of units.

C. Install hearth pieces in full ½ inch to ¾ inch deep mortar bed.

D. Place units with uniform mortar joints. Stone joints should be over ¾ inch in width. When installing pre-fitted stone textures such as; Profit Ledge stone, Carolina ledge stone and European Castle Stone, units should be fitted with no allowance for mortar joints. Brick joints should be uniform

3/8 inch in width, with horizontal joints level; with head joints of brick evenly spaced and centered above unit below. Install outside corner return units with short and long lengths alternated.

E. Plan to work to minimize job site cutting. Perform necessary cutting with proper tools to provide uniform edges; take care to prevent breaking unit corners or edges.

F. Remove excess mortar; do not allow mortar to set up on face of units. Tool joints before mortar has set. Clean and finish joints in accordance with manufacturer's instructions.

END OF SECTION

SECTION 09 96 23 - GRAFFITI RESISTANT COATINGS

PART 1: GENERAL

1.01 DESCRIPTION

A. Provide all labor, materials, tools, transportation and incidentals to provide and install anti-graffiti and graffiti resistant coatings as indicated on the Plans and as herein specified.

B. Related Sections

Section 03 11 13: Miscellaneous Concrete
Section 12 93 00: Site Furnishings and Miscellaneous Materials

C. The Standard Specifications for Public Works Construction, "Greenbook", latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

E. All vendors, suppliers, and manufacturer's representatives and the associated addresses, phone and fax numbers on the Plans and in the Specification are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 QUALITY ASSURANCE

A. Qualifications:

1. Use Products by manufacturers regularly engaged in manufacturing of this product and with a history of at least three successful applications within the last 3 years.

2. Use skilled workers who are thoroughly trained and experienced and who are completely familiar with the specified requirements and methods.

B. Regulatory Requirements:

1. Comply with applicable codes and regulations. All products must comply with current VOC requirements for the air quality management district where application takes place. Where those requirements conflict with this Specification, comply with the more stringent provisions.

C. Field Samples:

1. Apply the system as specified in a designated area. This will serve as an indication that applicator can provide acceptable results and will be used as the standard for the rest of the work.

1.03 SUBMITTALS

A. Product Data:

1. Submit complete manufacturer's literature and specifications. Include complete lists of materials proposed for use, giving the manufacturer's name, product numbers, and product information sheets for each specified item.

B. Samples:

1. When specified system requires that the graffiti resistant coating be applied over a paint color, submit sample of system showing each coat. The architect will use this sample to approve color.

C. Application and Safety:

1. Submit the manufacturer's recommended methods of installation, including limitations, safety and environmental cautions, material safety data sheets and application rates.

1.04 DELIVERY, STORAGE AND HANDLING

A. Acceptance at Site:

1. Material shall be delivered to Project in original containers, completely sealed and bearing name of coating contained therein.

B. Storage and Protection:

1. Use all means necessary to protect the materials of this Section before, during and after installation.

1.05 PROJECT AND SITE CONDITIONS

A. Project Conditions:

1. Do not apply coatings when surface temperature is more than 90° F, in the shade, or when relative humidity is more than 70 percent. Do not apply coating when adverse weather conditions are imminent.

PART 2: PRODUCTS

2.01 MANUFACTURERS

A. Manufacture or distributed by: Genesis Coating Inc., 2780 La Mirada Drive, Suite D, Vista CA 92081 (760) 599-6011

3.01 MATERIALS AND FINISH

A. Anti-graffiti coating to be GCP 1000, Non-sacrificial

B. Finish over concrete, brick or stone: Clear Satin

C. Finish over Concrete Masonry Units (CMU): Clear Satin

D. Finish over painted surfaces: Clear Gloss

PART 3: EXECUTION

3.01 EXAMINATION

A. Verification of Conditions:

1. Prior to the commencement of the Work of this Section, examine the installed work of other trades and verify that all such work is complete or properly corrected to the point where this installation may properly commence. Commencement of work will indicate that applicator has accepted the conditions.

3.02 PREPARATION

A. Protection:

1. Protect and cover finished work and materials of all other trades, which may be affected by work of this Section during coating application. Protect all surrounding vegetation and adjacent areas from over-spray.

B. Surface Preparation:

1. Substrates to receive sealers or primers prior to graffiti resistant coatings must be cleaned of all dirt, bond-breakers and all other foreign materials

which will adversely affect the required appearance of the finished product.

2. Power wash all surfaces in accordance with manufacturer's recommendations.

3.03 APPLICATION

A. General:

1. Apply graffiti resistant coatings to all precast, cast-in-place items including rock finishes on walls and columns.

2. Apply primers, paints and coatings in strict accordance with manufacturer's recommendations as accepted by the Engineer.

3. The number of coats specified is the minimum that will be applied. Apply additional coats when undercoats, stains or other conditions show through final paint coat, until paint film is of uniform color and appearance.

4. When additional coats of the graffiti resistant coating are required, allow no more than 48 hours between coats.

5. Apply a total dry film thickness of not less than 1.2 mils for primers and paint finishes and not less than 1.5 mils for graffiti resistant coatings.

6. Back roll all work to assure that material impregnates all voids and uneven surfaces.

3.04 CLEANING, TOUCH-UP AND REFINISHING

A. General:

1. Carefully remove all splatters, spots and blemishes caused by work of this Section.

2. Upon completion of the work, remove all rubbish, cans and accumulated materials. All areas must be left in a clean and orderly condition.

3. Runs, sags, misses, holidays, stains and other defects in the coated surfaces, including inadequate coverage and mil thickness will be satisfactorily touched-up or refinished.

END OF SECTION

SECTION 12 93 00 – SITE FURNISHINGS AND MISCELLANEOUS MATERIALS

PART 1: GENERAL

1.01 DESCRIPTION

A. Provide all labor, materials, tools, transportation and incidentals to provide and install Site Furnishings and Miscellaneous Materials as indicated on the Plans and as herein specified.

B. Related Section.
Section 03 30 53: Miscellaneous Concrete
Section 03 11 13: Concrete Formwork

C. The Standard Specifications for Public Works Construction, "Greenbook", latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

E. All vendors, suppliers, and manufacturer's representatives and the associated addresses, phone and fax numbers on the Plans and in the Specification are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 QUALITY ASSURANCE

A. Shop Drawings: Provide shop drawings for each component and each item of site furniture. Shop drawings shall indicate layouts, component locations, dimensions, set-backs, details of assembly, anchors, footing details and all appurtenances required to assemble components. Submit three (3) sets of shop drawings to the City within twenty-one (21) calendar days after award of contract.

B. Product Data: Provide data on all site furnishings, equipment and materials, including accessories, utility characteristics, connection requirements and product cut-sheets. Submit three (3) sets of product data to the City within twenty-one (21) calendar days after award of contract.

C. Manufacturer's Installation Instructions: Submit three (3) sets of the manufacturer's installation instructions to the City within twenty (21) calendar days of award after the contract.

1.03 DELIVERY, STORAGE AND HANDLING

Store and protect all site furnishings.

1.04 RELATED REQUIREMENTS

A. Obtain all permits (except permanent easements) and licenses and give notice and pay for all fees necessary to complete work under this Section as delineated or specified. Permit fees required by the City shall be waived.

B. Manufacturer's directions, specifications and detailed drawings will be followed in all cases where the articles used furnish directions and cover points not delineated on the Plans or in the Specifications.

C. The Specifications only indicate the quality and workmanship to be performed rather than a detailed description of the performance of the work. Install said site furnishings, materials and equipment in such a manner that they will operate efficiently and evenly.

D. In the event of any discrepancies between the Plans and the Specifications, the final decision as to which will be followed shall be made by the Engineer, or his designated representative. In the event the installation is contradictory to the direction of the Engineer, the installation shall be rectified by the Contractor at no additional cost to City.

1.05 REGULATORY REQUIREMENTS

A. The work shall conform to Americans with Disabilities Act (ADA), U.S. Consumer Product Safety Commission-Public Playground Handbook for Safety and California Disabled Access Regulations-Title 24. The Contractor shall be responsible for compliance and provide written documentation for compliance to the Engineer upon installation of all equipment and material governed by said regulations.

B. All work shall conform to the City standards for public construction and any other agency's standards for public construction having jurisdiction over the work.

C. Provide certificate(s) of compliance from authority(s) having jurisdiction over the work. The certificate(s) shall indicate approval of products and their installation. Comply with all applicable local, state, federal requirements regarding materials, methods of work, and disposal of excess and waste materials.

1.06 SAMPLES AND SUBSTITUTIONS

A. All workmanship, equipment, materials, and articles incorporated shall be the best available grade of their respective kind.

B. Provide a sample of each component specified. Accepted samples may be used in the Work.

Submit three (3) sets of a typewritten list of equipment and materials as specified to the Engineer within twenty-one (21) days after award of contract. This list shall give the name, model number, and manufacturer, and shall be accompanied by cut sheets or reproductions of catalog pages for all of the equipment and material to be installed.

C. Substitutes must be approved a minimum of 10 days prior to the date of the bid opening. The City will issue an addendum, stating that an alternate product or manufacturer is acceptable. An alternate product or manufacture will not be accepted without issuing a formal addendum.

Alternate suppliers shall meet the requirements of the specified product and shall provide proof of equivalency.

D. Approval of substitutions will not relieve the Contractor from complying with the requirements of the Contract Documents, Plans and Specifications. Any costs and expenses associated with an approved substitution which affects other items of work, shall be sole responsibility of the Contractor.

PART 2: PRODUCTS

2.01 MATERIAL

A. Whenever a material or process is delineated or specified by patent, proprietary name or process, or manufacturer's name, such specifications

are used for the purpose of facilitating the description of material or process desired.

B. Information pertaining to the product as to the manufacturer, material, model, color, finish, etc. is shown on the plan.

2.02 COMPONENTS

A. Picnic table

B. ADA Picnic Table

C. Bench

D. Drinking Fountain

E. Trash receptacle

F. Recycle Trash receptacle

PART 3: EXECUTION

3.01 EXAMINATION

A. Verify site conditions and surfaces are ready to receive work.

B. Verify that layout and site are compatible.

3.02 PREPARATION

A. Layout and stake locations of components for approval by Engineer prior to installation.

B. Review layout requirements with other affected work.

3.03 INSTALLATION

A. Install in accordance with City standards and manufacturer's instruction.

B. Provide concrete footings for site furnishings as detailed Plans or as specified by the site furnishing manufacture.

3.04 SITE CONDITIONS

The Contractor will promptly repair any damage to existing and/or new facilities caused by construction operations. Cost of repairs shall be done at the Contractor's sole expense.

END OF SECTION

SECTION 31 10 00 - SITE PREPARATION AND CLEARING

PART 1 - GENERAL

1.01 SUMMARY

A. Section includes protection of existing improvements, utilities and plant material; removal of surface debris and trash; removal of abandoned utilities; and repair of damaged vegetation and irrigation systems/system components.

B. Related Sections:

1. Section 32 84 00 - Irrigation

1.02 REGULATORY REQUIREMENTS

A. Perform all work of this Section in strict accordance with applicable Government Codes and Regulations especially meeting all safety standards and requirements of CAL/OSHA, County of Orange and the City of Laguna Hills. Provide additional measures, added materials and devices as may be needed as directed by the Engineer at no added cost to the City.

B. Comply strictly to Rule 1404, South Coast Air Quality Management District.

C. Coordinate clearing Work with utility companies.

PART 2 - PRODUCTS

2.01 MATERIALS

A. Provide materials not specifically described but required for completion of the work of this Section, as selected by the Contractor subject to the approval of the Engineer.

PART 3 - EXECUTION

3.01 PREPARATION

A. Verify that existing plant life designated to remain is tagged or identified.

B. Identify a waste area for placing removed materials.

3.02 PROTECTION

A. Protect existing structures and site improvements indicated to remain, from damage by approved methods and as authorized by the Engineer. Removal of all protections shall be when work of this Section is completed or when so authorized by the Engineer.

B. Protect existing utilities indicated or made known to remain traversing the job-site and serving existing adjacent facilities.

C. Protect Existing Trees indicated to remain.

D. Protect bench marks, survey control points, and existing structures from damage or displacement.

E. Protection of Persons and Property (existing structures and site improvements):

1. Provide barricades, warning signs, tape, etc. at open depressions and holes and during pole, chain link fabric and concrete wall removals on the site and adjacent property and public accesses.

2. Provide operating warning lights during hours from dusk to dawn each day or as otherwise required.

3. Protect existing remaining structures, utilities, sidewalks, pavements other facilities from damage as caused by settlement, undermining, washout or other hazards created by site-clearing operations of this Section.

F. Use means necessary to prevent dust from becoming a nuisance to the public, to neighbors and to others performing work on or near the job-site.

G. Maintain access to the job-site at all times.

3.03 SITE CLEARING

A. General: All site clearing shall conform to Section 300-1.1 of the Standard Specifications for Public Works Construction. Site clearing shall include but not be limited to removal of trash, weeds, plants and debris, including rubble of broken concrete or asphalt and any other items encountered. The Contractor shall furnish all labor, materials, tools, equipment, appliances and necessary incidentals for the completion of site clearing as shown on the drawings and as specified herein.

B. Removal of Improvements: Remove existing above-grade and below-grade improvements necessary to permit construction, and other work as

indicated and conform to Section 300-1.3 of the Standard specifications for Public Works Construction. Removal of abandoned underground piping or conduit interfering with construction is included in this section. Securely cap or seal exposed end of remaining conduits. Cap utilities beyond the limits of the work area and remove servicing lines off site. Re-route existing utilities to remain as required.

C. Remove all rubbish and debris existing and resulting from work operations of this Section as soon as possible and dispose off site, do not allow to pile up. Do not burn rubbish and debris on the job-site.

D. Where active utility lines need to be capped or plugged, perform such work in accordance with requirements of the Utility Company.

3.04 REPAIRS

A. During demolition and construction, ensure that trees, shrubs and other plant material and vegetation are protected inside and outside of the work zone and that the vegetation is being watered, maintaining the proper moisture content according to the season. Failed vegetation, including sod, due to lack of water, and/or plant material destroyed during construction period are to be replaced to equal or better size and condition at no additional cost to the City.

B. If the irrigation system is damaged or modified during construction, it shall be repaired to the City standards, and shall be in equal or better condition than prior to damage or modification. All repairs shall be inspected and approved by the Engineer prior to backfilling or covering of said repairs. The City requires forty-eight hours prior notice, when contractor requests inspection of completed repairs. All repairs shall be made so as to ensure proper operation prior to the close of the contract at no additional cost to the City.

3.06 EXCESS MATERIALS DISPOSAL

Legally dispose of off-site materials removed and not to be reused. Adjacent areas shall be left clean.

END OF SECTION

SECTION 31 22 13 – EARTHWORK AND SITE GRADING

PART 1 – GENERAL

1.01 DESCRIPTION:

A. Provide and perform earthwork and site grading complete as follows:

1. Survey
2. Excavation and on-site disposal.
3. Scarify subgrade prior to placement of imported topsoil.
4. Imported topsoil.
5. Site Grading
6. Control of surface water.
7. Testing and inspection of work of this section.
8. Clean up and disposal.

B. Related Sections

Section 32 13 14 – Miscellaneous Concrete

1.02 QUALITY ASSURANCE:

A. Preconstruction Conference: Conduct a preconstruction conference prior to starting work of this section, to develop a program for quality control of the work. The requirements for observation of the work by the Engineer, scheduling of the work to be observed, any additional observation requirements, and planned construction procedures, will be discussed. The existing prepared site will be inspected, and required remedial measures will be defined.

B. Survey: The Contractor shall employ a qualified professional Engineer or land surveyor; establish exact elevations at fixed points to act as bench marks. Clearly identify bench marks and record existing elevations. The Contractor shall provide surveys for the purpose of survey control, layout, grade and cross sections required to control work. Survey shall conform to section 2-9.4 and 2-9.5 of the Standard Specifications for Public Works Construction.

1. Contactor shall tag and protect existing survey monuments found during course of work. Contractor shall replace monuments or stakes damaged during course of work at no added expense to City.
2. Contractor shall establish grid control for site to provide basis for location construction, utilities and other facilities. Provide copies of all survey control and grade sheets to the Engineer.

a. Flag limits of removal and construction
b. Stake for location and grade.

3. Contractor shall be responsible for layout and alignment of prefabricated restroom, walks, curbs and grade, concrete pavement, fencing, landscape materials, etc.
4. Verify the location and elevation of improvements and utilities to be joined.
5. Submit grade sheet for verification prior to start of work.

C. Observation and testing required for work of this Section:

1. Field density and compaction testing to determine the percentage of compaction achieved during placement of backfills.
2. Probe foundation bearing materials to confirm that suitable bearing materials are present at the design grades.
3. Observe the backfill of utility trenches.
4. Observe the construction of the subgrade and base for exterior paving.
5. Observe the excavation for footing.

D. Source Quality Control: Obtain approval by the Engineer of imported fill material before material is brought to site, and same approval of excavated material for use in fills or backfills prior to placing.

1.03 PROJECT SITE CONDITIONS:

A. Protection: Provide and maintain protection to retain earth banks and to protect adjoining grades from caving, sliding, erosion, or other damage. Provide suitable protection against all bodily injury. Construct all bulkheads and shoring to requirements of State and Local codes and regulations. Shore vertical banks or slope banks back as required for stability and safety.

PART 2 – PRODUCTS

1.01 MATERIALS: Provide approved imported material as required and as shown on the plans and specified.

A. Earthwork Materials: Approved excavated or imported granular soil such as silty sand of the non-expansive type (that undergoes no undesirable volumetric change with changes in the moisture content) and containing not more than 20 percent by weight of material passing the No. 200 sieve, free from trash, roots, organic material, clay lumps, and rocks over 1” size. Class “A” topsoil shall be placed to a depth of 12” where new sod is to be installed.

B. Imported Topsoil

1. Topsoil in planting areas shall be Class “A” (imported). Topsoil shall be transported from the source to its final position unless stockpiling is specified. Imported Top Soil for new sod areas shall

be Class “A” topsoil and shall be placed at a minimum depth of 12”.

2. Class “A” topsoil shall be from a source outside the limits of the project selected by the Contractor and in compliance with the requirements specified herein. The Engineer may make such inspections and require the Contractor to perform such tests as deemed necessary to determine that the material meets the requirements.

3. At least ***thirty (30) calendar days*** before scheduled use, the proposed source of topsoil must be submitted to the Engineer for approval so that it may be tested. Submit a written request for approval which shall be accompanied by a written soils test report which states that the proposed source complies with these Specifications.

4. Class “A” topsoil shall have the same relative composition and structure, a friable sandy loam character, and be free of roots, clods, and stones larger than one inch (1”) in greatest dimension, pockets of coarse sand, noxious weeds, sticks, brush, and other litter. It shall not be infested with nematodes or other undesirable insects and plant disease organisms.

5. All Class “A” topsoil shall meet the following additional requirements:

   a. Gradation Limits: Sand, 50-80 percent, clay 20 percent maximum, and silt, 30 percent maximum. The sand, clay, and silt gradation limits shall be as defined in ASTM D422.

   b. Permeability Rate: Not less than 0.5 inches per hour nor more than 2 inches per hour when tested in accordance with ASTM D 2434, California Test 220, or other approved methods.

   c. Agricultural Suitability: The topsoil shall be suitable to sustain the growth of the seed and plants specified.

   d. In no case shall there be more than five percent (5%) by volume of stones smaller than one inch (1”), coarse sand and small clay lumps.

C. Sand: ASTM D2488, with not more than 3 percent passing No. 200 sieve.

PART 3 – EXECUTION

3.01 EXCAVATION

A. Perform excavation to the dimensions and elevations indicated on drawings, with additional space allowed as required for the installation and stripping of forms, and inspection of the various types of work, except where approval may be given to deposit certain miscellaneous concrete directly against earth banks. Avoid loosening of soils in bottoms or sides of excavations.

B. Unauthorized Excavation: If excavations are carried below the elevations indicated without written authorization, provide satisfactory construction to correct the fault as approved, at no additional cost.

3.02 SOIL STABILIZATION: Provide soil stabilization, as required throughout the work area, during and following construction, to prevent erosion damage. Establish and maintain vegetation or suitable matting as directed.

3.03 SCARIFY SUBGRADE: Prior to placing the topsoil, the native soil on which the topsoil is to be placed shall be thoroughly scarified to a minimum depth of 6” by rototilling or cross ripping with tractor tines spaced at a minimum 18” on center to the satisfaction of the engineer.

3.04 SITE GRADING

A. General: Uniformly grade areas within limits of grading under this section, including adjacent transitions areas. Smooth finished surface within specified tolerances, compact with uniform levels or slopes between points where elevations are indicated, or between such points and existing grades.

1. Lawn or Unpaved Areas: Finish areas to receive topsoil to within not more than 0.04 feet above or below required subgrade elevations.
2. Walks: Shape surface of areas under walks to line, grade and cross section, with finish grade surface not more than 0.02 feet above or below required subgrade elevation.
3. Pavements: Shape surface of areas under pavement to line, grade and cross-section, with finish grade surface not more than 0.02 feet above or below required subgrade elevation.
4. Contour grade slopes and mounds to plan grades, to a desired smooth, even ground surface free of sharp grade breaks.

B. Compaction: After grading, compact subgrade surfaces to the depth and indicated percentage of maximum or relative density for each area of classification.

3.05 COMPACTION CONTROL

A. General: Control soil compaction during construction providing minimum percentage of density specified for each area classification indicated below. Percentage of Maximum Density Requirements: Compact soil to not less than the following percentages of maximum density for soils which exhibit a well-defined moisture density relationship (cohesive soils)

determined in accordance with ASTM D 1557; and not less than the following percentages of relative density, determined in accordance with ASTM D 2049, for soils which will not exhibit a well defined moisture density relationship (cohesionless soils).

1. Lawn or Unpaved Areas: Compact top 24 inches of subgrade and each layer of backfill or fill material at 85 percent maximum density.
2. Walkways, PCC paving and decomposed granite: Compact top 24 inches of subgrade and each layer of backfill or fill material at 90 percent maximum density.
3. Fill placement shall be in lifts not exceed 6-inches and compacted prior to placement of additional fill at 90 percent maximum density.

B. Moisture Control: Where subgrade or layer of soil material must be moisture conditioned before compaction, uniformly apply water to surface of subgrade, or layer of soil material. Apply water in manner to prevent free water from appearing on surface during or subsequent to compaction operations.

1. Remove and replace, or scarify and air dry, soil that is too wet to permit compaction to specified density.
2. Soil material that has been removed because it is too wet to permit compaction may be stockpiled or spread and allowed to dry. Assist drying by discing, harrowing, or pulverizing until moisture content is reduced to a satisfactory value.

3.06 BACKFILLS: Do not place backfills until after concrete forms are removed, and pointing and patching of concrete, and waterproofing with protection course are done and approved.

3.07 SUBGRADE PREPARATION FOR CONCRETE: Prepare subgrade for concrete items placed directly on earth by excavating, filling, and grading as required and as specified, and bring to optimum moisture content. Finish the subgrade within 3/8” tolerance when tested along a 10-foot straightedge in any direction at any location. Compact to density specified for fills and maintain moisture content until concrete is placed.

3.08 DISPOSAL: Clean up and remove all trash, debris, waste, and surplus and rejected earthwork materials from the site to a legal disposal area. Conform to pertaining laws, codes, and regulations, obtain and pay for required hauling and dumping permits, and pay all dumping charges. Perform trucking and material handling in a careful manner to prevent spillage and dusting or damage to surfaces and structures. Remove planks used to protect surfaces subject to public traffic at finish of each day’s operations. Maintain public streets and sidewalks in broom clean condition.

3.09 Repair or replace any damages to existing lawn, irrigation and concrete sidewalk caused by the Contractor’s operations or neglect at no additional cost to the City.

END OF SECTION

SECTION 32 18 16 – SYNTHETIC RESILIENT SURFACING

PART 1 GENERAL

1.01 SUMMARY

A. Section Includes: Poured-in-place playground surfacing system.

B. Related Sections

a. SECTION 03 30 53 - Miscellaneous Concrete
b. SECTION 11 68 13 - Playground Equipment

1.02 REFERENCES

A. American Society for Testing and Materials (ASTM):

2. ASTM D624 Standard Test Method for Tear Strength of Conventional Vulcanized Rubber and Thermoplastic Elastomers.

3. ASTM D2047 Standard Test Method for Static Coefficient of Friction of Polish-Coated Floor Surfaces as Measured by the James Machine.

4. ASTM D2859 Standard Test Method for Flammability of Finished Textile Floor Covering Materials.

5. ASTM E303 Standard Test Method for Measuring Surface Frictional Properties Using the British Pendulum Tester.

6. ASTM F1292 Standard Specification for Impact Attenuation of Surface Systems Under and Around Playground Equipment.

7. ASTM F1951 Standard Specification for Determination of Accessibility of Surface Systems Under and Around Playground Equipment.

1.03 WORK SCOPE

A. Furnish labor, material, and equipment necessary to install the poured-in-place, resilient surfacing system and resilient synthetic play turf system as shown on the drawings and specified herein.

a. Work shall include, but not be limited to the following: layout; excavation; backfill; furnishing and installing of base material; furnishing and installing of poured-in- place, resilient surfacing and all other incidental work to provide a complete resilient surfacing system.

b. Poured in place playground surfacing shall consist of a polyurethane binder mixed with recycled rubber, which will make up the attenuation cushion layer. The attenuation cushion layer is capped with EPDM, mixed with a polyurethane binder creating the Wear Course. Surfaces shall comply with ADA and CPSC guidelines as well as ASTM Standards. Manufacturer is to be certified by IPEMA, a third- party testing organization for playground surfaces and equipment.

1.04 PERMORMANCE REQUIREMENTS

A. Area Safety: Poured in place within playground use zones shall meet or exceed the performance requirements of the CPSC, ADA and Fall Height Test ASTM F1292-18. The surface must yield both a peak deceleration of no more than 100 G-max and a Head Injury Criteria (HIC) value of no more than 500 for a head-first fall from the highest accessible portion of play equipment being installed as shown on drawings. IPEMA certification is required. (ASTM F1292-18, section 15 The laboratory test used to determine critical fall height shall have been conducted on surfacing material samples identical in design, materials, components, and thickness and manufactured as the installed playground surface). ASTM F3351-19 standard test method for playground surface impact testing in laboratory at specified test height for 8’ critical fall height.

B. Surfaces shall comply with ADA and CPSC guidelines as well as ASTM Standards. The manufacturer is to be certified by IPEMA, a third-party testing organization for playground surfaces and equipment.

C. Play area shall conform to Uniform Federal Accessibility Standards FED-STD-795 and Architectural and Engineer Instructions (9AEI) Design Criteria.

D. The requirements of the Americans with Disabilities Act. Accessibility Guidelines (ADAAG) 28 CFR Part 36 that provide equal or greater accessibility

than the requirements of UFAS must also be met in children's outdoor play areas.

1.04 DELIVERY STORAGE AND HANDLING

A. Delivery, Storage and Handling: Materials and equipment shall be delivered and stored in accordance with the manufacturer's recommendations.

1.05 SITE CONDITIONS

A. Project Site Conditions: Poured in Place surfacing must be installed on a dry sub-surface, with no prospect of rain within the initial drying period, and within the recommend temperature range of the manufacturer. Installation in weather condition of extreme heat, cold (less than 55°F), and/or high humidity may affect cure time, and the structural integrity of the final product. Immediate surrounding sites must be reasonably free of dust conditions or this could affect the final surface look.

1.06 SEQUENCING AND SCHEDULING

A. Sequencing and Scheduling: Poured in Place surfacing shall be installed after all playground equipment, shade structures, signs and any other items that will be within the surfacing area. Coordinate with General Contractor.

B. Surface installation coordinated by manufacturer representative.

1.07 SUBMITTALS

A. The Contractor shall submit a complete set of the material submittals, as required, including manufacturer's name and address, specific trade names, catalog and model numbers, illustrations and descriptive material, and samples of the proposed material for this project clearly marked as to proposed items for approval by the City Engineer.

B. Products submitted as equal must include hard copies of manufacturers' written specifications, warranty, purchase and use of materials.

C. Manufacturer's descriptive data and installation instructions.

D. Manufacturer's details showing depths of wear course and sub-base materials, anchoring systems and edge details.

E. A signed statement by an authorized official certifying that the surfacing system meets the requirements of ASTM F1292-18, section 15 for a head-first fall from the highest accessible portion of the specified playground equipment.

F. A signed statement from the manufacturer of the poured in place surfacing attesting that all materials under this section shall be installed only by the Manufacturer's Trained Installers.

G. A Certificate of Insurance shall be provided by the Manufacturer for poured in place surfacing for use as playground safety surfacing, covering general and product liability, of not less than $1,000,000 for each occurrence, $2,000,000 general aggregate, with an excess/umbrella liability of $25,000,000. The issuing underwrite shall be AA rated.

H. IPEMA Certification

1.08 QUALITY ASSURANCE

A. Qualifications: Utilize an installer approved and trained by the manufacturer of the playground surfacing system, having experience with other projects of the scope and scale of the work described in this section.

B. Certifications: Certification by manufacturer that the installer is trained, experienced company employees or certified installers who have successfully completed the "Certified Installers Training Program",

C. Experience: The installer shall provide a list and photographs of at least five installations where TPV Poured in Place Resilient Playground Surfacing has been installed and have been in service for a minimum period of three years. The list shall include owner or purchaser, address of installation, date of installation, contact person, and phone number

D. International Play Equipment Manufacturers Association (IPEMA) certified.

1.09 TURN OVER AND CLOSE OUT SUBMITTALS

A. 10% Additional TPV granules of each color specified are to be turned over to the City Maintenance Department / City Engineer in sealed containers and clearly marked.

B. Closeout Submittals: Submit warranty documents and owner's manual(s) and maintenance document(s), and installation and safety certification letter specified herein.

1.10 WARRANTY

A. Warranty: Poured in Place surface shall maintain required impact attenuation characteristics and be guaranteed against defects in workmanship AND

material for a limited seven-year period or as specified and agreed upon per alternate contract. Warranty will be specific to maintenance requirements and performance standards of completed product. Warranty is void if not installed by Manufacturers Trained and Certified Poured in Place Surfacing Installers.

1.11 TESTING

A. Testing: NOTE: Critical Fall Height Four feet through 10 feet have been tested in accordance with Section 15 – Critical Fall Height Test Procedure of ASTM F1292-18.

PART 2 PRODUCTS

1.01 MATERIALS

A. Resilient material shall be based on the following performance requirements. Provide a two-layer system consisting of a polyurethane binder mixed with recycled rubber, which will make up the attenuation cushion layer. The attenuation cushion layer is capped with Thermal Plastic Vulcanized (TPV) granules, mixed with a polyurethane binder creating the Wear Course.

1. Safety surfacing shall consist of both recycled and synthetic materials meeting the requirements of this specification. Poured in Place Surface: The poured in place surface shall consist of recycled rubber mixed with a polyurethane binder, then capped with .5-1.5mm TPV granules mixed with an aliphatic binder.

2. Approved Manufacturers: Robertson Industries Inc. (800) 858-0519 or approved equivalent.

3. Poured in Place Surface shall consist of a uniform material manufactured in such a way that the top portion meets the requirements specified herein for wear surface.

4. The type of safety surfacing shall be a poured-in-place system and shall be indicated in the construction drawings.

2.02 ATTENUATION CUSHION LAYER SECTION:

A. Impact attenuation cushion layer consists of these materials; recycled styrene butadiene rubber (SBR) and/or cryogenic crumb rubber and/or pre consumer postindustrial reclaimed scrap rubber adhered with a 100% solids polyurethane binder to form a resilient porous material.

B. Strands of SBR may vary from 0.5 mm – 2.0 mm in thickness by 3.0 mm – 20 mm in length.

C. Chunk Premium Black Rubber Granules are 5/8” granules: This rubber is pre-consumer, post-industrial, reclaimed rubber, granulated through a 5/8” screen and contains less than 2% dust.

D. SBR Crumb Rubber (5-9 Mesh) using sieve analysis ASTM D5644 with a fiber content of .1% or less mixed in.

E. Binder shall be between 7-12% of the total weight of the material and shall provide 100 % coating of the particles.

F. The attenuation cushion layer shall be compatible with the wear course and must meet requirements herein for impact attenuation.

2.03 WEAR COURSE

A. Wear course shall consist of .5-1.5mm Thermal Plastic Vulcanized (TPV) granules with polyurethane binder formulated to produce an even, uniform, seamless surface. Installation of surfacing shall be seamless (unless otherwise agreed upon by the City Engineer).

B. TPV shall be peroxide cured with an TPV content of 26% and shall include a processing aid to prevent hardness with 26% poly content to maintain dynamic testing characteristics, weatherization and UV stability.

C. ASTM D2240 (Shore A) hardness of 55-65, not less than 26 percent rubber hydrocarbons.

D. Size of TPV granules .5-1.5mm across. Binder shall be not less than 20% of total weight of rubber used in the wear surface and shall provide 100% coating of the particles.

E. Thickness of wear course shall be a minimum .5” (12.7 mm).

F. The wear course shall be porous.

2.04 SURFACING BINDER

A. No Toluene Diphenyl Isocyanate (TDI) shall be used.

B. No filler materials shall be used in urethane such as plasticizers and the catalyzing agent shall contain no heavy metals.

C. Weight of polyurethane shall be no less than 8.5 lbs. /gal (1.02 Kg/1) and no more than 9.5 lbs. /gal (1.14 Kg/1).

D. Manufacturer is permitted to modify the type of urethane required to match extreme weather conditions. Substitutions must be equal to or exceed original quality.

2.05 MANUFACTURERS

A. Wear Course – TPV Granules

Manufacturers: Rosehill Polymers or approved equivalent

As Distributed by: Robertson Industries Inc. or approved equivalent

Location Used: Playground Area

B. Attenuation cushion layer – Shredded and/or Chunk Rubber

C. Binder – Aliphatic Urethane Premium, Non-Ambering

Manufacturer: Accella Polyurethane Systems or approved equivalent

D. Chunk Premium Black Rubber Granules

Manufacturer: American Recycling Center, Inc. (989) 725-5100

or approved equivalent

PART 3 EXECUTION

3.01 FINISH GRADING AND SUB-BASE

A. Finished Grade/Slope: Verify that finished elevations or adjacent areas are as indicated on the architectural or site plans, that the appropriate sub-grade elevation has been established for the safety surface to be installed, and that the subsurface has been installed per architectural, site or equipment plans while meeting accessibility and use zones requirements.

B. Sub-Base: Tolerance of sub-base shall be with .125” (3.0 mm) in 10’ (3050 mm). Per ADA Guidelines: Surface shall be clean and dry.

C. Drainage: Verify that sub-surfacing drainage, if required, has been installed to provide positive drainage.

3.02 INSTALLATION

A. Poured in Place Surfacing: Components of the poured in place surfacing shall be mixed on site in a rotating tumbler to ensure components are thoroughly mixed and are in accordance with manufactures recommendations. Installation of surfacing shall be seamless up to 2,000

square feet per day. Material shall cover all foundations and fill around all elements penetrating the surface.

B. Attenuation Cushion Layer: Whenever practical, attenuation cushion layer of surfacing material shall be installed in one continuous pour on the same day of up to 2,000 square feet. When a second pour is required, step the seam (see detail) and fully coat the step of the previous work with polyurethane binder to ensure 100% bond with new work. Apply adhesive in small quantities so that new attenuation cushion layer can be placed before the adhesive dries.

C. Wear Course: Wear course must be quality peroxide cured TPV granules. wear surface shall be bonded to attenuation cushion layer. If necessary, additional primer will be used between the attenuation cushion layer and wear course. Apply adhesive to attenuation cushion layer in small quantities allowing the wear course to be applied before adhesive dries. Surface shall be hand troweled to a smooth, even finish. Expect continuous and seamless up to 2,000 square feet per day (contact sales representative for seamless in excess of 2,000 square feet). Where seams are required due to color change, size or adverse weather, a step configuration will be constructed to maintain wear course integrity. The edge of initial pour shall be coated with adhesive and wearing surface mixture shall be immediately applied. Pads with multiple seams are encouraged to include a top coat of urethane before being placed into use. Butt joint seams are not acceptable except for repairs.

D. Perimeter: For installations over existing concrete, the perimeter shall be saw cut to provide a keyway 1” deep x 1” wide, or formed during the pour, with surfacing rolled down into the void. Primer adhesive must be applied to all sides of the void. When connecting to a concrete curb or border, the inside vertical edge shall be primed with adhesive and the final 2” of the attenuation cushion layer shall be tapered to allow the wear surface material to be 1.5”– 2” thick where it joins the concrete.

G. Thickness: Construction methods such as the use of measured screeds or guides shall be employed to ensure that the full depth of specified surfacing material is installed. Surfacing system thickness throughout the playground equipment use zone shall be as required to meet the impact attenuation requirements specified herein.

H. Clean Up: Manufacturer installers shall work to minimize excessive adhesive on adjacent surfaces or play equipment. Spills of excess adhesive shall be promptly cleaned.

I. Protection: The safety surface shall be allowed to fully cure in accordance with Manufacturer’s instructions. The surface shall be protected by the

Prime Contractor from all traffic during the curing period of at a minimum of 48 hours or as instructed by the Manufacturer.

J. Manufacturer Services: For poured in place safety surfacing, a Manufacturer's representative who is experienced in the installation of playground safety surfacing shall be provided. The representative shall supervise the installation to ensure that the system meets the impact attenuation requirements as specified herein.

3.03 SITE AREA CLEAN UP

A. The site shall be kept clean and free of tools, trash, and debris and installation materials daily. Products may be stored on site during installation with appropriate protective measures and approval by the City Engineer.

END OF SECTION

SECTION 32 84 00 – IRRIGATION

PART 1: GENERAL

1.01 DESCRIPTION

A It is the intent of these Specifications that any adjustments or modifications to the existing irrigation system shall be done so that the systems remains complete and be fully operable during construction and after construction is complete. All modifications to the pressure mainline will be done to the satisfaction of the City.

B The work shall include, but not limited to, coordination with the City's Authorized Representative to determine the extent of any adjustments, all labor and materials, including pot holing services to determine water line locations, transportation, and equipment necessary to perform the work.

C Irrigation modifications shall include, but not limited to, the re-alignment of the existing pressure main line to avoid conflict with the proposed improvements.

D The removal and disposal of existing piping and/or irrigation equipment determined by the City as not useful in making the irrigation system complete.

E Related Sections.

Section 32 90 00: Planting

F. Do not willfully modify the existing irrigation system when it is obvious in the field that obstructions, grade differences or discrepancies in area dimensions exist that will not result in a workable irrigation system. Such obstructions or differences shall be brought to the attention of the City's Authorized Representative as soon as detected. In the event this notification is not performed the Contractor will bare all costs to correct the problem.

1.02 QUALITY ASSURANCE

A. Provide at least one English speaking person who shall be present at all times during execution of this portion of the work and who shall be thoroughly familiar with the type of materials being installed and the manufacturer's recommended methods of installation and who shall direct all work performed under this Section.

B. Manufacturer's directions shall be followed in all cases where the manufacturer of articles used furnishes directions covering points not shown in the Drawings and Specifications.

C. All local, municipal, and state laws, rules and regulations governing or relating to the installation of a irrigation pressure main lines are hereby incorporated into and made a part of these Specifications, and their provisions shall be carried out by the Contractor. Anything contained in these Specifications shall not be construed to conflict with any of the above rules and regulations of the same. However, when these Specifications and Drawings call for or describe materials, workmanship, or construction of a better quality, higher standard, or larger size than is required by the above rules and regulations, the provisions of these Specifications and Drawings shall take precedence.

D. All materials supplied for this project shall be new and free from any defects. All defective materials shall be replaced immediately at no additional cost to City.

E. Obtain the required licenses and permits including payments of charges and fees, give required notices to public authorities, verify permits secured or arrangements made by others affecting the work of this Section.

1.03 SUBMITTALS

A. Water Pressure Test:
   1. After award of contract and before any irrigation system materials are ordered from suppliers or delivered to the job site, submit to the city engineer a written verification of the existing water pressure on the project at each of the points of connection shown.
   2. The water pressure test shall be performed to measure the dynamic water pressure at the point of connection at the maximum flow rate of the proposed irrigation system as shown on the point of connection note. Dynamic water pressure is when water is flowing through the point of connection. Static water pressure readings when water is not flowing, are not acceptable.
   3. Written dynamic water pressure test confirmation shall be made on the contractor’s letterhead and include the flow rate during the test, the recorded water pressure, the date of the test and the time of the test.

B. Material List:
   1. After award of contract and before any irrigation system materials are ordered from suppliers or delivered to the job site, submit to the city engineer a complete list of all irrigation system materials, or processes proposed to be furnished and installed as part of this contract.
   2. The submittal materials list shall include the following information:
      a. A title sheet with the job name, the contractor's name, contractor's address and telephone number, submittal date and submittal number.
      b. An index sheet showing the item number (e.g. 1,2,3, etc.); an item description (e.g. sprinkler head); the manufacturer's name (e.g. Hunter Industries); the item model number (e.g. I-40-ADV/36V); and the page(s) in the submittal set that contain the catalog cuts.
      c. The catalog cuts shall be one or two pages copied from the most recent manufacturer's catalog that indicate the product submitted. Do not submit parts lists, exploded diagrams, price lists or other extra information.
      d. The catalog cuts shall clearly indicate the manufacturer's name and the item model number. The item model number, all specified options and specified sizes shall be circled on the catalog cuts.
      e. Submittals for equipment indicated on the legend without manufacturer names, or "as approved", shall contain the manufacturer, Class or Schedule, ASTM numbers and/or other certifications as indicated in these specifications.
   3. Submittal materials list format requirements:
      a. Submittals shall be provided as one complete package for the project in electronic pdf format. Multiple partial submittals will not be reviewed.
      b. Submittal package shall have all pages numbered in the lower right hand corner. Page numbers shall correspond with submittal index.
      c. Re-submitted packages must be revised to include only the equipment being re-submitted. Equipment previously reviewed and accepted shall not be re-submitted in the materials list/index sheet or in the catalog cut sheet package.

C. Substitutions: If the Contractor wishes to substitute any equipment or materials for those equipment or materials listed on the irrigation drawings and specifications, he may do so by providing the following information to the Architect for approval.
   1. Provide a written statement indicating the reason for making the substitution.
   2. Provide catalog cut sheets, technical data, and performance information for each substitute item.
   3. Provide in writing the difference in installed price if the item is accepted.

D. The Landscape Architect or city engineer will allow no substitutions without prior written acceptance

E. No substitutions of pump manufacturers, distributors or assemblies will be accepted.

F. Manufacturer's warranties shall not relieve the Contractor of his liability under the guarantee. Such warranties shall only supplement the guarantee.

G. The Architect will not review the submittal package unless provided in the format described above.

1.04 EXISTING CONDITIONS

A. Prior to excavating for new construction, the Contractor shall meet with the City Authorized Representative in the field to verify and be familiar with the possible locations and crossings of the existing pressure main lines.

B. Prior to cutting into the soil, locate all cables, conduits, sewer septic tanks, and other utilities as are commonly encountered underground and it shall take proper precautions not to damage or disturb such improvements. If a conflict exists between the obstacles and the proposed work, promptly notify the City's Authorized Representative who will arrange for relocations.

C. Protect all existing utilities and features to remain on and adjacent to the project site during construction. The Contractor will repair, solely at their cost, all damage resulting from its operations or negligence.

1.05 INSPECTIONS

A. Permit the City's Authorized Representative to visit and inspect at all times any part of the work and shall provide safe access for such visits.

B. Where the Specifications require work to be tested by the Contractor, it shall not be covered over until accepted by the Engineer. Notify the City's Authorized Representative, a minimum of 48 hours in advance of where and when the work is ready for testing. Should any work be covered without testing or acceptance, it shall be, if so ordered, uncovered at the Contractor's sole expense.

C. <u>Inspections will be required for the following at a minimum</u>:

1. Extent of repair and/or re-alignment of any portion of the existing pressure main line.

2. Testing any new connections to the existing main line

3. Prior to backfilling trenches.

D. Work that fails testing and is not accepted will be re-tested. Hourly rates and expenses of the City's Authorized Representative for re-inspection or re-testing will be paid by the Contractor at no additional expense to City.

1.06 STORAGE AND HANDLING

A. Use all means necessary to protect irrigation system materials before, during, and after installation and to protect the installation work and materials of all other trades. In the event of damage, immediately make all repairs and replacements necessary to the acceptance of the Engineer and at no additional cost to the City.

B. Exercise care in handling, loading, unloading, and storing plastic pipe and fittings under cover until ready to install. Transport plastic pipe only on a vehicle with a bed long enough to allow the pipe to lay flat to avoid undue bending and concentrated external load.

1.07 CLEANUP AND DISPOSAL

A. Dispose of waste, trash, and debris in accordance with applicable laws and ordinances and as prescribed by authorities having jurisdiction. Do not bury waste material and debris on the site. Burning of trash and debris will not be permitted. Remove and dispose of rubbish and debris generated by his work and workmen at frequent intervals or when ordered to do so by the Engineer.

B. At the time of completion the entire site will be cleared of tools, equipment, rubbish and debris which shall be disposed of off-site in a disposal area that is fully and legally licensed.

1.08 COMPLETION

A. At the time of the pre-maintenance period inspection, the City's Authorized Representative and governing agencies will inspect the work and, if not accepted, prepare a list of items to be completed by the Contractor. At the time of the post-maintenance period or final inspection the work will be re-inspected and final acceptance will be in writing by the Engineer.

B. The City Engineer shall have final authority on all portions of the work.

C. Without any additional expense to the City, repair any settling of trenches, which may occur during the maintenance and establishment period following acceptance, to the City's satisfaction. Repairs shall include the complete restoration of all damage to planting, paving or other improvements of any kind as a result of the work.

1.09 GUARANTEE

A. The entire sprinkler system shall be unconditionally guaranteed against all defects and fault of material and workmanship, including settling of backfilled areas below grade, for a period of one (1) year following the filing of the Notice of Completion. The guarantee shall be valid unless existing equipment utilized on the project fails within the guarantee period.

B. Should any problem with the irrigation system be discovered within the guarantee period, and at no additional expense to City, correct it within ten (10) calendar days after receipt of written notice from City. When the nature of the repairs as determined by the City constitute an emergency (i.e. broken pressure line) the City may proceed to make repairs at the Contractor's expense. Any and all damages to existing improvement resulting either from faulty materials or workmanship, or from the necessary repairs to correct same, shall be repaired to the satisfaction of the owner by the Contractor, all at no additional cost to the City.

C. Guarantee shall be submitted on Contractors own letterhead as follows:

GUARANTEE FOR IRRIGATION SYSTEM

We hereby guarantee that the irrigation system we have furnished and installed is free from defects in materials and workmanship, and the work has been completed in accordance with the Drawings and Specifications, ordinary wear and tear and unusual abuse, or neglect excepted. We shall repair or replace any defective material during the period of one year after date of filing of the Notice of Completion and also repair or replace any damage resulting from the repairing or replacing of such defects at no additional cost to the owner. We shall make such repairs or replacements within 10 calendar days following written notification by the owner. In the event of our failure to make such repairs or replacements within the time specified after receipt of written notice from owner, we authorize the owner to proceed to have said repairs or replacements made at our expense and we will pay the costs and charges therefor upon demand.

PART 2: MATERIALS

2.01 SUMMARY

Use only new materials of the manufacturer, size and type satisfactory to the City. Materials or equipment installed or furnished that do not meet City standards will be rejected and shall be removed from the site at no expense to the City.

2.02 PIPE

A. All pressure supply lines downstream of backflow prevention unit shall be Schedule 40 solvent weld PVC. Piping shall conform to ASTM 1785.

2.03 PLASTIC PIPE AND FITTINGS

A. Pipe shall be marked continuously with manufacturer's name, nominal pipe size, schedule or class, PVC type and grade, National Sanitation Foundation approval, Commercial Standards designation, and date of extrusion.

B. All plastic pipe shall be extruded of an improved PVC virgin pipe compound in accordance with ASTM D2241 or ASTM D1785.

C. All solvent weld PVC fittings shall be standard weight Schedule 40 and shall be injection molded of an improved virgin PVC fitting compound. Slip PVC fittings shall be the "deep socket" bracketed type. Threaded plastic fittings shall be injection molded. All tees and ells shall be side gated. All fittings shall conform to ASTM D2466.

D. All threaded nipples shall be standard weight Schedule 80 with molded threads and shall conform to ASTM D1785.

E. All solvent cementing of plastic pipe and fittings shall be a two-step process, using primer and solvent cement applied per the manufacturer's recommendations. Cement shall be of a fluid consistency, not gel-like or ropy. Solvent cementing shall be in conformance with ASTM D2564 and ASTM D2855.

F. When connection is plastic to metal, female adapters shall be hand tightened, plus one turn with a strap wrench. Joint compound shall be non-lead base teflon paste, tape, or approved equal.

2.04 BACKFLOW PREVENTION UNIT (EXISTING)

2.05 VALVES

A. Gate Valves

1. Gate valves shall be of the manufacturer, size, and type indicated on the Drawings.

2. Gate valves shall be constructed of a bronze body, gate and stem with a malleable iron hand wheel. Gate valves shall have threaded connections.

3. All gate valves shall have a minimum working pressure of not less than 150 psi and shall conform to AWWA standards.

B. Quick Coupler Valves:

1. Quick coupler valves shall be of the manufacturer, size, and type indicated on the Drawings.

2. Quick coupler valves shall be brass with a wall thickness guaranteed to withstand normal working pressure of 150 psi without leakage. Valves shall have 1” female threads opening at base, with two-piece body. Valves shall be operated only with a coupler key designed for that purpose. Coupler key shall be inserted into valve and a positive, watertight connection shall be made between the coupler key and valve.

C. Automatic Control Valves:

1. Automatic control valves shall be of the manufacturer, size, and type indicated on the Drawings.

2. Automatic control valves shall be electrically operated.

2.06 VALVE BOXES

A. Valve boxes shall be fabricated from a durable, weather-resistant plastic material resistant to sunlight and chemical action of soils.\

B. The valve box cover shall be green in color and secured with a hidden latch mechanism or bolts.

C. The cover and box shall be capable of sustaining a load of 1,500 pounds.

D. Valve box extensions shall be by the same manufacturer as the valve box.

E. Automatic control valve boxes shall be 16"x11"x12" rectangular size. Valve box covers shall be marked "RCV" with the valve identification number "heat branded" onto the cover in 2 inch high letters / numbers.

F. Gate and quick coupler valve boxes shall be 10" circular size. Valve box covers shall be marked with either "GV" or "QCV" "heat branded" onto the cover in 2 inch high letters.

2.07 AUTOMATIC CONTROLLER (EXISTING)

2.08 ELECTRICAL

A. All electrical equipment shall be NEMA Type 3, waterproofed for exterior installations.

B. All electrical work shall conform to local codes and ordinances.

2.08 LOW VOLTAGE CONTROL WIRING

A. Remote control wire shall be direct-burial AWG-UF type, size as required by the City and in no case smaller than 14 gauge.

B. Connections shall be either epoxy-sealed packet type or Penn-Tite connectors.

C. Ground wires shall be white in color. Control wires shall be red (where two or more controllers are used, the control wires shall be a different color for each controller. These colors shall be noted on the "Record Drawings" Plans located on controller door).

PART 3: EXECUTION

3.01 SITE CONDITIONS

A. Inspections:

1. Prior to all work of this Section, carefully inspect the installed work of all other trades and verify that all such work is complete to the point where this installation may properly commence.

2. Verify that irrigation system may be installed in strict accordance with all pertinent codes and regulations, the original design, the referenced standards, and the manufacturer's recommendations.

B. Discrepancies:

1. In the event of discrepancy, immediately notify the City’s Authorized Representative.

2. Do not proceed with installation in areas of discrepancy until all discrepancies have been resolved.

C. Grades:

1. Before starting work, carefully check all grades to determine that work may safely proceed, keeping within the specified material depths with respect to finish grade.

2. The Engineer shall accept final grades before work on this Section will be allowed to begin.

D. Field Measurements:

1. Make all necessary measurements in the field to ensure precise fit of items in accordance with the City requirements. Coordinate the installation of all irrigation materials with all other work.

2. Exercise extreme care in excavating and working near existing utilities. Repair damages to utilities, which are caused by Contractor's operations or neglect, at no additional cost to City.

E. Layout:

1. Prior to installation, stake out all pressure supply lines and routing. Locate all pressure supply lines in planted areas.

2. Cap and mark the locations of capped non-pressure lateral lines for future identification.

F. Water Supply:

Connections to, or the installation of, the water supply shall be as required by the City. Minor changes caused by actual site conditions shall be made at no additional expense to the City.

3.02 TRENCHING

A. Excavations shall be straight with vertical sides, even grade, and support pipe continuously on bottom of trench. Trenching excavation shall follow layout as coordinated with the City requirements to the depths below finished grade and as noted. Where lines occur under paved area, these dimensions shall be considered below subgrade.

B. Provide minimum cover of 24 inches on pressure supply lines.

C. Provide minimum cover of 24 inches for control wires.

D. Trenching across streets shall be done in accordance City standards. The method of installing piping under pavement will be approved by the City Engineer. Repair and/or replacement of damaged pavement including

Curb and Gutter will be done per City standards and to the satisfaction to the City Engineer.

E. Pipes installed in a common trench shall have a 6-inch minimum space between pipes.

3.03 BACKFILLING

A. Backfill material on all lines shall be the same as adjacent soil free of debris, litter, and rocks over 1/2 inch in diameter.

B. Backfill shall be tamped in 4-inch layers under the pipe and uniformly on both sides for the full width of the trench and the full length of the pipe. Backfill materials shall be sufficiently damp to permit thorough compaction, free of voids. Backfill shall be compacted to 90% relative compaction and shall conform to adjacent grades.

C. Flooding in lieu of tamping is not allowed.

D. Under no circumstances shall truck wheels be used to compact backfill.

E. Provide sand backfill a minimum of 6 inches over and under all piping under paved areas.

3.04 PIPING

A. The method to install piping under existing pavement will be approved by the City Engineer. Jacking, boring, or hydraulic driving will be considered. No hydraulic driving is permitted under asphalt pavement.

B. Cutting or breaking of existing pavement is not permitted.

C. Carefully inspect all pipe and fittings before installation, removing dirt, scale, burrs, and reaming. Install pipe with all markings up for visual inspection and verification.

D. Remove all dented and damaged pipe Sections.

E. All lines shall have a minimum clearance of 6 inches from each other and 12 inches from lines of other trades.

F. Parallel lines shall not be installed directly over each other.

G. In solvent welding, use only the specified primer and solvent cement and make all joints in strict accordance with the manufacturer's recommended methods including wiping all excess solvent from each weld. Allow

solvent welds at least 15 minutes setup time before moving or handling and 24 hours curing time before filling.

H. PVC pipe shall be installed in a manner, which will provide for expansion and contraction as recommended by the pipe manufacturer.

I. Center load all plastic pipe prior to pressure testing.

J. All threaded plastic-to-plastic connections shall be assembled using Teflon tape or Teflon paste.

K. For plastic-to-metal connections, work the metal connections first. Use a non-hardening pipe dope an all threaded plastic-to-metal connections, except where noted otherwise. All plastic-to-metal connections shall be made with plastic female adapters.

3.05 MISCELLANEOUS EQUIPMENT

A. Install all assemblies specified herein according to the requirements of the City using best standard practices.

B. Quick coupler valves shall be set approximately 12 inches from walks, curbs, header boards, or paved areas where applicable.

3.06 FLUSHING THE SYSTEM

A. The Contractor will flush the pressure supply line daily, when new connections are made.

B. Not used

3.07 TESTING AND OBSERVATION

A. Do not allow or cause any of the work of this Section to be covered up or enclosed until it has been observed, tested and accepted by the Engineer.

B. Notify the City's Authorized Representative a minimum of 48 hours in advance where and when the work is ready for testing.

C. Furnish all materials and perform all work required to correct any inadequacies of coverage due to deviations from City requirements or where the system has been willfully installed as required by the City when it is obviously inadequate, without bringing this to the attention of the City's Authorized Representative. This test shall be accepted by the City's Authorized Representative and accomplished before starting any planting.

3.08 COMPLETION CLEANING

A. Clean-up shall be made as each portion of the work progresses. Refuse and excess dirt shall be removed from the site, all walks and paving shall be broomed, and any damage sustained on the work of others shall be repaired to original conditions.

END OF SECTION

SECTION 32 90 00 - PLANTING

PART 1: GENERAL

1.01 DESCRIPTION

A. The general requirements apply to all Landscaping work operations. Provide labor, materials, tools, transportation and all incidentals necessary to perform work as indicated on the Plans and as herein specified.

B. Related Sections.

Section 32 84 00: Irrigation

C. The Standard Specifications for Public Works Construction, "Greenbook", latest edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

D. Definitions.

1. City: City of Laguna Hills.

2. Engineer: City Engineer, or the City Engineer's designated representative.

3. ASTM: American Society of Testing Materials

1.02 QUALITY ASSURANCE

A. Comply with all applicable local, state, federal requirements regarding materials, methods of work, and disposal of excess and waste materials.

B. Manufacturer's directions, specifications and detailed drawings will be followed in all cases where articles used furnish directions covering points not delineated on the Plans or Specifications.

C. The work included in this section will be done to the satisfaction of the City and the decision by the City as to the true construction meaning of the Plans and Specifications will be final.

D. All drop slips for landscape materials (including plants and fertilizers) shall be given to the Engineer.

1.03 ENVIRONMENTAL REQUIREMENTS

A. Do not install landscape materials when ambient temperatures may drop below 45 degrees F (12 degrees C) or above 95 degrees F (39 degrees C).

B. Do not install landscape materials when wind velocity exceeds 30 mph (48 k/hr).

PART 2: PRODUCTS

2.01 REFERENCES

A. ANSI Z60.1 - Nursery Stock.

B. California State Department of Agriculture - Regulations for nursery inspections, rules, and grading.

2.02 TREES

A. Trees shall be grown by an established nursery having been in the business of growing trees, a minimum of five (5) years. At the option of the Engineer, trees shall be inspected and tagged at the nursery prior to shipment to the planting site.

Trees: All trees shall be of the specified container size and of the species specified.

B. Tree species indicated or listed in the “Plant Legend” on the Plans, shall be in accordance with the Standards of Practice recommended by the American Association of Nurserymen. Except for names not covered therein, the established custom of the nursery shall be followed.

C. Condition of trees shall be in accordance with the California State Department of Agriculture’s regulations for nursery inspections, rules, and grading and shall be symmetrical, typical for variety and species, sound, healthy, vigorous, free from plant disease, insect pests, or their eggs, and shall have healthy normal root systems, well filling their containers, but not to the point of being root bound.

D. Trees shall not be pruned prior to delivery, except as authorized by the City. In no case shall trees be topped before delivery.

E. The size of the trees shall correspond with that normally expected for species and variety of commercially available nursery stock, or as specified on the Plans. The minimum acceptable size of all trees,

measured before pruning with the branches in normal position, shall conform with the measurements, if any, specified on the Plans. Trees larger in size than specified may be used with the approval of the City, but the use of larger plants will not serve as the basis for a change order.

F. All trees shall be subject to the inspection and acceptance of the City before planting. Trees will be inspected for size and condition of root growth, insects, injuries and defects and will be tagged at the nursery prior to delivery to the site.

2.04 FERTILIZERS, BACKFILL MATERIALS AND WATER

A. General.

1. Fertilizing and backfill materials shall comply with the applicable requirements of the State Food and Agricultural Code. All materials shall be packaged first grade, commercial quality products identified as to source, type of material, weight, and manufacturer's guaranteed analysis. Fertilizing and backfill material shall not contain toxic ingredients or fillers in quantities harmful to human life, animals, or plants.

2. Furnish a Certificate of Compliance stating that the material substantially meets the specifications.

3. Backfill Mix:

a. 6 parts by volume on-site soil
b. 4 parts by volume composted organic amendment
c. 18 lb. Gro-Power per cubic yard of mix
d. 2lbs Iron Sulphate per cubic yard of mix

B. Commercial Fertilizer.

Commercial fertilizer shall be a palletized or granular product having a chemical analysis as specified on the Plans or in the Specifications. Commercial fertilizer shall be free-flowing material delivered in unopened sacks. Material which becomes caked or otherwise damaged shall not be used.

C. Composted Organic Soil Amendment.

1. Humus material shall have an acid-soluble ash content of no less than 5% and no more than 20%. Organic matter shall be at least 50% on a dry weight basis.

2. The pH of the material shall be between 6 and 7.5.

3. The salt content shall be less than 10 millimho/cm @ 25° C. in a saturated paste extract.

4. Boron content of the saturated extract shall be less than 1.0 parts per million.

5. Silicon content (acid-insoluble ash) shall be less than 50%.

6. Organic matter shall be at least 50% on a dry weight basis.

7. Calcium carbonate shall not be present if to be applied on alkaline soils.

8. Types of acceptable products are composts, manures, mushroom composts, straw, alfalfa, peat mosses etc. low in salts, low in heavy metals, free from weed seeds, free of pathogens and other deleterious materials.

9. Composted wood products are conditionally acceptable [stable humus must be present]. Wood based products are not acceptable which are based on red wood or cedar.

10. Sludge-based materials are not acceptable.

11. Carbon: nitrogen ratio is less than 25:1.

12. The compost shall be aerobic without malodorous presence of decomposition products.

13. The maximum particle size shall be 0.5 inch, 80% or more shall pass a No. 4 screen for soil amending. The maximum particle size shall be 0.25 inch for hydroseeding.

Maximum total permissible pollutant concentrations in amendment in parts per million on a dry weight basis:

arsenic	20	copper	150	selenium	50
cadmium	15	lead	200	silver	10
chromium	300	mercury	10	vanadium	400
cobalt	50	molybdenum	20	zinc	250
nickel	100				

D. Water.

1. Water shall be clean, fresh and free of substances or matter which could inhibit vigorous growth of plants

2. Water shall be supplied at Contractor's sole expense at no additional cost to City through the end of the maintenance period.

2.05 WOOD MULCH

A. Mulch shall be "Forest Floor" (0-2")

Available from or equal to:
Aguinaga Green
7992 Irvine Boulevard
Irvine, CA 92618
(949) 786-9558

B. The mulch shall consist of fibrous, woody bark mixture of varied particle size with the following characteristics:

Percent Passing	Sieve Size
90-100	25.4 mm (1")
80-100	12.7 mm (1/2")
20-60	6.35 mm (1/4")

C. Mulch shall be packaged in bales or bags unless the City approves a bulk source in advance of delivery to the site of the work. The Contractor shall submit one sample of three (3) different mulch materials.

D. The Engineer has the right to reject all samples and request additional samples until a suitable mulch material is approved.

2.06 SAMPLES

A. Samples of products and materials shall be required by the City. Submittals for inspection shall be stored on the site until furnishing of material is complete.

B. Delivery of products and materials may begin upon acceptance of samples or as directed by the City.

2.07 PLANT TABLETS

Plant tablets shall be Scotts Agriform, Gro-power or approved equal, 20-10-5 applied at the following rates:

Tablet Size	21 Gram					5 Gram
Container Size	1 Gallon and 10” pots	5 Gallon	15 Gallon	24” Box	36” Box and Larger	Ground Cover Plants
Application Rates (No. of Tablets)	1	3	8	20	One Tablet per each foot of height	1

PART 3: EXECUTION

3.01 GENERAL

Earthwork and on-site disposal of excavated material shall include placement, spreading, densification, cultivation and raking.

1. Unless otherwise provided, curbs, walks, irrigation systems, and similar improvements required by the Plans or Specifications shall be constructed following rough grading and before sodding.

2. Planting holes and backfill shall be as herein specified.

3. For preliminary rough grading and related earthwork, prepare areas for sodding work to within one-tenth foot (0.1’) of finish grade.

3. Fertilizing and conditioning materials shall be mechanically spread at a uniform rate. The quantities of materials necessary for the planting area shall be at the site and shall be verified by delivery tickets furnished to the Engineer before spreading.

3.02 FINISH GRADING

A. After spreading and raking, the soil shall be watered and allowed to settle to provide a stable surface, not overly densified to the extent that it will prevent aeration and water infiltration. After the soil has dried out to a workable condition, the planting areas shall be regraded, raked, and smoothed to the required grades and contours. Finish surfaces shall be clean and suitable for planting.

B. The finish grade shall be smooth, uniform, and free of abrupt grade changes and depressions to ensure surface drainage.

C. The finish grade below adjacent paving, curbs, or headers shall be one inch (1”) in lawn areas and two inches (2”) in shrub or ground cover areas.

3.03 TREE PLANTING GENERAL

A. All sprinkler/irrigation work shall be inspected and accepted by the City, prior to start of any work of this subsection.

B. Location of utility, structures and lines.

1. Prior to excavation for planting or placing of stakes, locate all utilities, electric cables, conduits, irrigation lines, heads, valves and valve control wires, and all utility lines so that proper precautions may be taken not to damage such improvements.

2. In the event of a conflict between utilities and plant locations, promptly notify the Engineer who will arrange for one or the other to be relocated. If contractor fails to follow this procedure it shall repair all damages resulting from the work at contractor's sole expense.

C. All plants will be inspected by the Engineer prior to planting, including plants previously approved at the nursery. The Contractor shall be responsible for the condition of all trees, planted or otherwise, until acceptance.

D. Quantities.

1. Trees shall be furnished in the quantities and/or spacing as shown or noted for each location, and shall be of the species, kinds, sizes, etc., as symbolized, and/or described in the Plant Legend, as indicated on the Plans.

2. Verify all sizes and quantities on the Plans. Promptly report any discrepancy to the Engineer.

E. Substitution.

1. Any trees specified by trade name or equal, shall be according to these Plans and Specifications.

2. Installation and use of substitute trees shall not be made until the Contractor is in receipt of written approval from the Engineer. Substitution proposals must be accompanied by written proof of non-availability within a five hundred mile radius of the project site for trees originally specified and proof that material was ordered in a timely manner upon award of contract.

F. Protection and Storage.

1. Regularly water all nursery stock in containers and place them in a cool area protected from sun and drying winds.

2. Do not allow trees to dry out before or while being planted. Keep exposed roots moist by means of wet sawdust, peat moss or burlap at all times during planting operations. Do not expose roots to the air except while being placed in the ground. Wilted or diseased trees, whether in place or not, will not be accepted and shall be replaced at the Contractor's sole expense.

G. Moisten prepared surface immediately prior to installing trees.

H. Install trees within 24 hours after delivery to site.

I. Water trees immediately after installation.

J. Layout and Tree Location.

1. Layout of trees shall be performed by the Contractor and approved by the Engineer prior to planting

2. Tree locations will be staked by the Contractor and approved by the Engineer.

3.04 TREE AND SHRUB PLANTING

A. Planting Holes. Planting holes shall be approximately square. The holes shall be twice the width of the container, unless otherwise shown on the Plans. The holes shall be one-and-half times the depth of the root ball, or as shown on the Plans. The hole shall be larger, if necessary, to permit handling and planting without injury or breakage of the root ball or root system. Any trees having a broken or cracked root ball before or during planting shall not be planted.

B. Underground Obstructions. In the event that underground construction work or obstructions are encountered in the planting operation, alternate locations will be selected by the City. Operation shall be done at no extra cost to the City.

C. Planting Procedures.

1. The backfill mix shall be as specified under paragraph 2.04, A, 3 and shall be thoroughly blended.

No mixing for individual planting holes is permitted. Mix planting soil prior to backfilling and stockpile at the site. Iron sulfate shall

not contact cement surfaces because severe staining could occur; repair or replace stained cement at Contractor's sole cost.

2. Remove bottom of box and set trees so that, when settled, they bear the same relation to the required grade as they bore to the natural grade before being transplanted. Place each tree in the center of the pit, remove box sides and backfill with prepared backfill. Compact the backfill mix around the ball or roots. Do not use soil in muddy condition for backfilling. Cut off all broken or frayed roots.

3. Thoroughly water each tree when the hole is one-half filled.

4. After watering, backfill the remainder of the hole and tamp the soil in place until the surface of the backfill is level with the surrounding area and the crown of the tree is at the finished grade of the surrounding area.

5. After backfilling, a basin shall be constructed around each tree. Each basin shall be of a depth sufficient to hold at least six inches (6") of water. Basins shall be the same size as the container size of each individual tree. The the basins shall be constructed of amended backfill material.

6. Set the plant tablets to be used with each tree on the top of the root ball so the required number of tablets to be used in each hole can be easily verified. Bury tablets upon approval by the Engineer.

7. Immediately after planting, apply water to each tree by means of a hose. Apply water in a moderate stream in the planting hole until the material about the roots is completely saturated from the bottom of the hole to the top of the ground.

8. Apply water in sufficient quantities and as often as seasonal conditions require to keep the tree moist at all times, well below the root system.

9. Basins shall be maintained *thirty (30) days* following tree planting. They shall be removed at that time, unless otherwise directed by the Engineer.

D. Pruning. Pruning shall be limited to the minimum necessary to remove injured twigs and branches, and to compensate for loss of roots during transplanting, but never to exceed one-third of the branching structure. Upon approval of the Engineer, pruning may be done before delivery of plants, but not before plants have been inspected and approved.

E. Staking. All trees shall be staked per the planting details on the Plans. Staking shall be done immediately after planting.

3.05 MULCHING

Mulch shrub areas and trees after planting with two (2”) inches of mulch.

3.06 MAINTENANCE AND ESTABLISHMENT PERIOD

A. Maintenance and establishment period for trees will be one (1) year after “Date of Acceptance of Installation” of all planting areas. Request in writing from the Engineer notification of the date of the start of the maintenance period. At the acceptance of all planting, request in writing from the Engineer notification of the date of the completion of the maintenance period. The maintenance period shall not officially begin or end without written notification from the Engineer.

B. Construction fencing shall remain until after the maintenance period is complete or as directed by the Engineer.

C. Maintain all trees on a continuous basis as they are completed during the progress of the work and during the establishment and maintenance period and shall continue to maintain them until final acceptance in accordance with the following.

1. Water and reapply mulch as necessary to promote a healthy growing condition. Re-stake if staking is not straight or solid. All areas shall be kept free of debris, weeds or litter. Keep project neat and attractive throughout the maintenance period.

2. Adjust the irrigation system to sufficiently saturate root zone without rotting trees.

3. Fertilize with “Gro-Power Plus” at 30 lbs./1000 sf every *thirty (30) calendar days*, during the maintenance period. Apply “Gro-Power Controlled Release Nitrogen” *five (5) calendar days* before the end of the maintenance period at manufacturer’s recommended rate.

D. Maintenance period shall be extended if plant material is not in a healthy growing condition. When all maintenance work has been completed to the satisfaction of Engineer, the Engineer will issue to the Contractor a written notice of completion of maintenance.

3.09 WEED ABATEMENT

A. The weed abatement program shall proceed upon the completion of the irrigation system and after all existing weeds and growth has been removed from the planting areas. Begin watering daily for twenty-one (21) consecutive days and until weed seeds have germinated. Cease watering for three (3) days. Spray a non-selective herbicide (Roundup) to eradicate the germinated weeds. Allow herbicide sufficient time to kill weeds. Remove dead weeds within 1" of the soil surface. Repeat the non-selective herbicide application two more times. The contractor shall include a dye indicator with the third application of the non-selective herbicide.

B. If perennial weeds or grasses still exist, re-water four (4) times daily for fourteen (14) consecutive days until new growth appears. Reapply a non-selective herbicide with a dye indicator. Remove weeds after herbicide has had sufficient time to kill.

3.10 INSPECTION

A. All inspections herein specified shall be made by the City. Request inspection at least forty-eight (48) hours in advance of the time the inspection is required. Requested inspections, subsequently canceled without twenty-four (24) hours notice, will be billed to the Contractor.

B. Inspection is required for, and not necessarily limited to, the following parts of the work.

1. At completion of the incorporation of soil amendments and fine grading

2. Prior to digging plant pits for trees and shrubs.

3. Installing trees in the planting hole.

4. During backfilling of plant pits with amended backfill.

5. Final inspection at the end of the maintenance period.

END OF SECTION

SECTION 32 92 23 - SODDING

PART 1: GENERAL

1.01 DESCRIPTION

A. The General Provisions shall apply to all Sod work operations. Provide all labor, materials, tools, transportation, equipment and incidentals necessary to perform work as indicated on the Plans and as herein specified.

B. Related Sections.

Section 32 84 00 Irrigation
Section 32 90 00 Planting

C. The Standard Specifications for Public Works Construction, "Greenbook" 2018 edition, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These specifications shall supersede conflicts with information given in the Standard Specification, unless otherwise determined by the Engineer.

D. Definitions.

1. City: City of Laguna Hills

2. Engineer: City Engineer, or the City Engineer's designated representative.

E. All vendors, suppliers, and manufacturer's representatives and the associated addresses, phone, and fax numbers on the Plans and in the Specifications are listed for convenience only. They are subject to change and their inclusion in no way constitutes an endorsement by the City.

1.02 QUALITY ASSURANCE

A. Comply with all applicable local, state, federal requirements regarding materials, methods of work, and disposal of excess and waste materials.

B. Grower's directions, specifications and detailed drawings will be followed in all cases where articles used furnish directions covering points not delineated on the Plans or Specifications.

C. The work included in this section will be done to the satisfaction of the Engineer. The decision by the Engineer as to the true construction meaning of the Plans and Specifications will be final.

D. All drop slips for sod fertilizers shall be given to the Engineer.

1.03 ENVIRONMENTAL REQUIREMENTS

A. Do not install sod when ambient temperatures may drop below 45 degrees F (12 degrees C) or above 95 degrees F (39 degrees C).

B. Do not install sod when wind velocity exceeds 30 mph (48 k/hr).

PART 2: PRODUCTS

2.01 REFERENCES

A. ANSI Z60.1 - Nursery Stock.

B. California State Department of Agriculture - Regulations for nursery inspections, rules, and grading.

2.02 SOD

A. Sod shall be West Coaster Tall Fescue, Big Rolls (42” Wide x 100’ Long) or approved equivalent grown by an established sod nursery having been in the business of growing sod a minimum of five (5) years. Sod shall be free of turf disease, insects, or weeds, and capable of healthy, vigorous growth.

B. Sod shall be grown in a blown sand medium. It shall be cut with a 1/2” to 3/4” thickness of soil that completely covers the root zone. Sod shall be wide cut, big roll. The sod shall arrive vigorous and have a lush appearance, uniform texture, and dark green color throughout with no dead or dying edge. The sod shall be sufficiently dense to bear handling and placement without tearing.

C. Nylon mesh in sod will not be accepted.

D. Sod to be certified RED ANT free by the grower.

E. Sod may be obtained from:

West Coast Sod
42-540 Melanie Pl

Palm Desert, CA 92211

2.03 FERTILIZERS, SOIL CONDITIONING MATERIALS AND WATER

A. General.

1. Fertilizing and soil conditioning materials shall comply with the applicable requirements of the City's Standards and Specifications. All materials shall be packaged first grade, commercial quality products identified as to source, type of material, weight, and manufacturer's guaranteed analysis. Fertilizing and soil conditioning material shall not contain toxic ingredients or fillers in quantities harmful to human life, animals, or plants.

2. The Contractor shall furnish to the Engineer the Certificate of Compliance stating that the material substantially meets the City's specifications.

3. Exact fertilizing and conditioning materials and the required composition and quantities shall be determined by the agronomic soils test.

B. Commercial Fertilizer.

1. Commercial fertilizer shall be a palletized or granular product having a chemical analysis as specified on the Plans or in the Specifications. Commercial fertilizer shall be free-flowing material delivered in unopened sacks. Material which becomes caked or otherwise damaged shall not be used.

2. Pre-planting fertilizer composition to be 6-20-20. Post-planting composition shall be 6-20-20XB. Fertilizer shall provide one pound of P and K per 1,000 square feet. Nitrogen shall not exceed 1/3 pound per 1,000 square feet. Exact composition and type to be determined by agronomic soil test.

3. Fertilizer available from:

J.R. Simplot
Lathrop, CA 95330
Phone: (209) 858-2511, Fax: (209) 858-2519

C. Water.

1. Water shall be clean, fresh, and free of substances or matter which could inhibit vigorous growth of plants.

2. Water shall be supplied at Contractor's expense at no additional cost to the City through the end of the maintenance period.

PART 3: EXECUTION

3.01 FERTILIZING

A. Two to three days prior to sodding, fertilize with J.R. Simplot Best 6-20-20 at one pound of P and K per 1,000 square feet. Exact quantity shall be determined by the agronomic soil test

Adequately irrigate after application.

B. Fifteen days after sod installation is complete, fertilize as above with J. R. Simplot Best 16-20-20XB

3.02 INSTALLING SOD

A. Soil conditioning and fine grading shall be completed before sodding. No heavy equipment shall operate over the subgrade after grading is completed.

B. The subgrade shall be moist but not wet when sod is laid. Sod shall be laid with closely fitted joints, and the ends of the trips shall be staggered. Openings shall be plugged with sod.

C. Within two hours after installing sod and before rolling, the sod shall be adequately irrigated with a minimum of 1/2" of water. All seams and joints shall then be rolled until the sod is well bonded to the subgrade.

D. The area shall then be watered thoroughly with 2 to 4 inches of water to penetrate the subsoil at least 8 inches. Watering shall be repeated as necessary to keep the sod moist until rooted into the subgrade. Sodded areas shall be protected against foot traffic until the sod is well established.

3.03 MAINTENANCE

A. Maintenance period will be a minimum of ***ninety (90) days*** after Date of Acceptance by the City of all sod installation.

B. Maintenance includes:

1. Water, weed, fertilize, mow, edge and spray as necessary to promote a healthy growing condition. Keep project neat and attractive throughout the maintenance period.

2. Applying herbicides for weed control, as needed or directed by City, in accordance with manufacturer's instructions. Remedy damage resulting from the use of herbicides.

3. Exterminate rodents and insects as required.

4. Adjust irrigation system scheduling to sufficiently saturate root zone.

5. Repair or replace any damaged item caused by vehicles, vandals, bicycles, or foot traffic during the maintenance period.

6. (During growing season) fertilize turf every four weeks with one pound of nitrogen per 1,000 square feet in a complete fertilizer product (4-1-4 ratio).

C. Maintenance period may be extended if turf grass and other plant material is not in a healthy growing condition. When all maintenance work has been completed to the satisfaction of the Engineer, the Contractor will be released through written notification by the Engineer.

D. Mow turf a minimum of two (2) times a week with the first mowing to be completed ***seven (7) days*** after installation of sod. Maintain a mowing height of 3/8" to ¾" inches. Do not cut more than 1/3 of grass blade at any one mowing. Grass shall be mowed with a sharp power driven reel mower. Clippings shall be collected and removed.

END OF SECTION

SECTION 32 90 10 - 90 DAY MAINTENANCE

PART 1: GENERAL

1.01 DESCRIPTION

A. The general requirements apply to all Landscaping work operations. Provide labor, materials, tools, transportation and all incidentals necessary to perform work as indicated on the Plans and as herein specified.

B. Related Sections.

Section 32 84 00: Irrigation
Section 32 90 00: Planting
Section 32 92 23: Sod

C. The Standard Specifications for Public Works Construction, "Greenbook", 2018, is referenced as if herein contained and the Contractor shall keep a copy at the project site. These Specifications shall supersede conflicts with information given in the "Greenbook", unless otherwise determined by the City.

1.02 QUALITY ASSURANCE

A. Comply with all applicable local, state, federal requirements regarding materials, methods of work, and disposal of excess and waste materials.

B. Manufacturer's directions, specifications and detailed drawings will be followed in all cases where articles used furnish directions covering points not delineated on the Plans or Specifications.

C. The work included in this section will be done to the satisfaction of the City and the decision by the City as to the true construction meaning of the Plans and Specifications will be final.

D. All drop slips for landscape materials (including plants and fertilizers) shall be given to the Engineer.

1.03 ENVIRONMENTAL REQUIREMENTS

A. Do not install landscape materials when ambient temperatures may drop below 45 degrees F (12 degrees C) or above 95 degrees F (39 degrees C).

B. Do not install landscape materials when wind velocity exceeds 30 mph (48 k/hr).

PART 2: EXECUTION

2.01 MAINTENANCE AND ESTABLISHMENT PERIOD

A. Maintenance and establishment period for trees will be one (1) year after "Date of Acceptance of Installation" of all planting areas. Request in writing from the Engineer notification of the date of the start of the maintenance period. At the acceptance of all planting, request in writing from the Engineer notification of the date of the completion of the maintenance period. The maintenance period shall not officially begin or end without written notification from the Engineer.

B. Construction fencing shall remain until after the maintenance period is complete or as directed by the Engineer.

C. Maintain all trees on a continuous basis as they are completed during the progress of the work and during the establishment and maintenance period and shall continue to maintain them until final acceptance in accordance with the following.

1. Water and reapply mulch as necessary to promote a healthy growing condition. Re-stake if staking is not straight or solid. All areas shall be kept free of debris, weeds or litter. Keep project neat and attractive throughout the maintenance period.

2. Adjust the irrigation system to sufficiently saturate root zone without rotting trees.

3. Fertilize with "Gro-Power Plus" at 30 lbs./1000 sf every *thirty (30) calendar days*, during the maintenance period. Apply "Gro-Power Controlled Release Nitrogen" *five (5) calendar days* before the end of the maintenance period at manufacturer's recommended rate.

D. Maintenance period shall be extended if plant material is not in a healthy growing condition. When all maintenance work has been completed to the satisfaction of Engineer, the Engineer will issue to the Contractor a written notice of completion of maintenance.

2.02 WEED ABATEMENT

A. The weed abatement program shall proceed upon the completion of the irrigation system and after all existing weeds and growth has been removed from the planting areas. Begin watering daily for twenty-one (21) consecutive days and until weed seeds have germinated. Cease watering for three (3) days. Spray a non-selective herbicide (Roundup) to eradicate the germinated weeds. Allow herbicide sufficient time to kill weeds. Remove dead weeds within 1" of the soil surface. Repeat the non-selective herbicide application two more times. The contractor shall include a dye indicator with the third application of the non-selective herbicide.

B. If perennial weeds or grasses still exist, re-water four (4) times daily for fourteen (14) consecutive days until new growth appears. Reapply a non-selective herbicide with a dye indicator. Remove weeds after herbicide has had sufficient time to kill.

2.03 INSPECTION

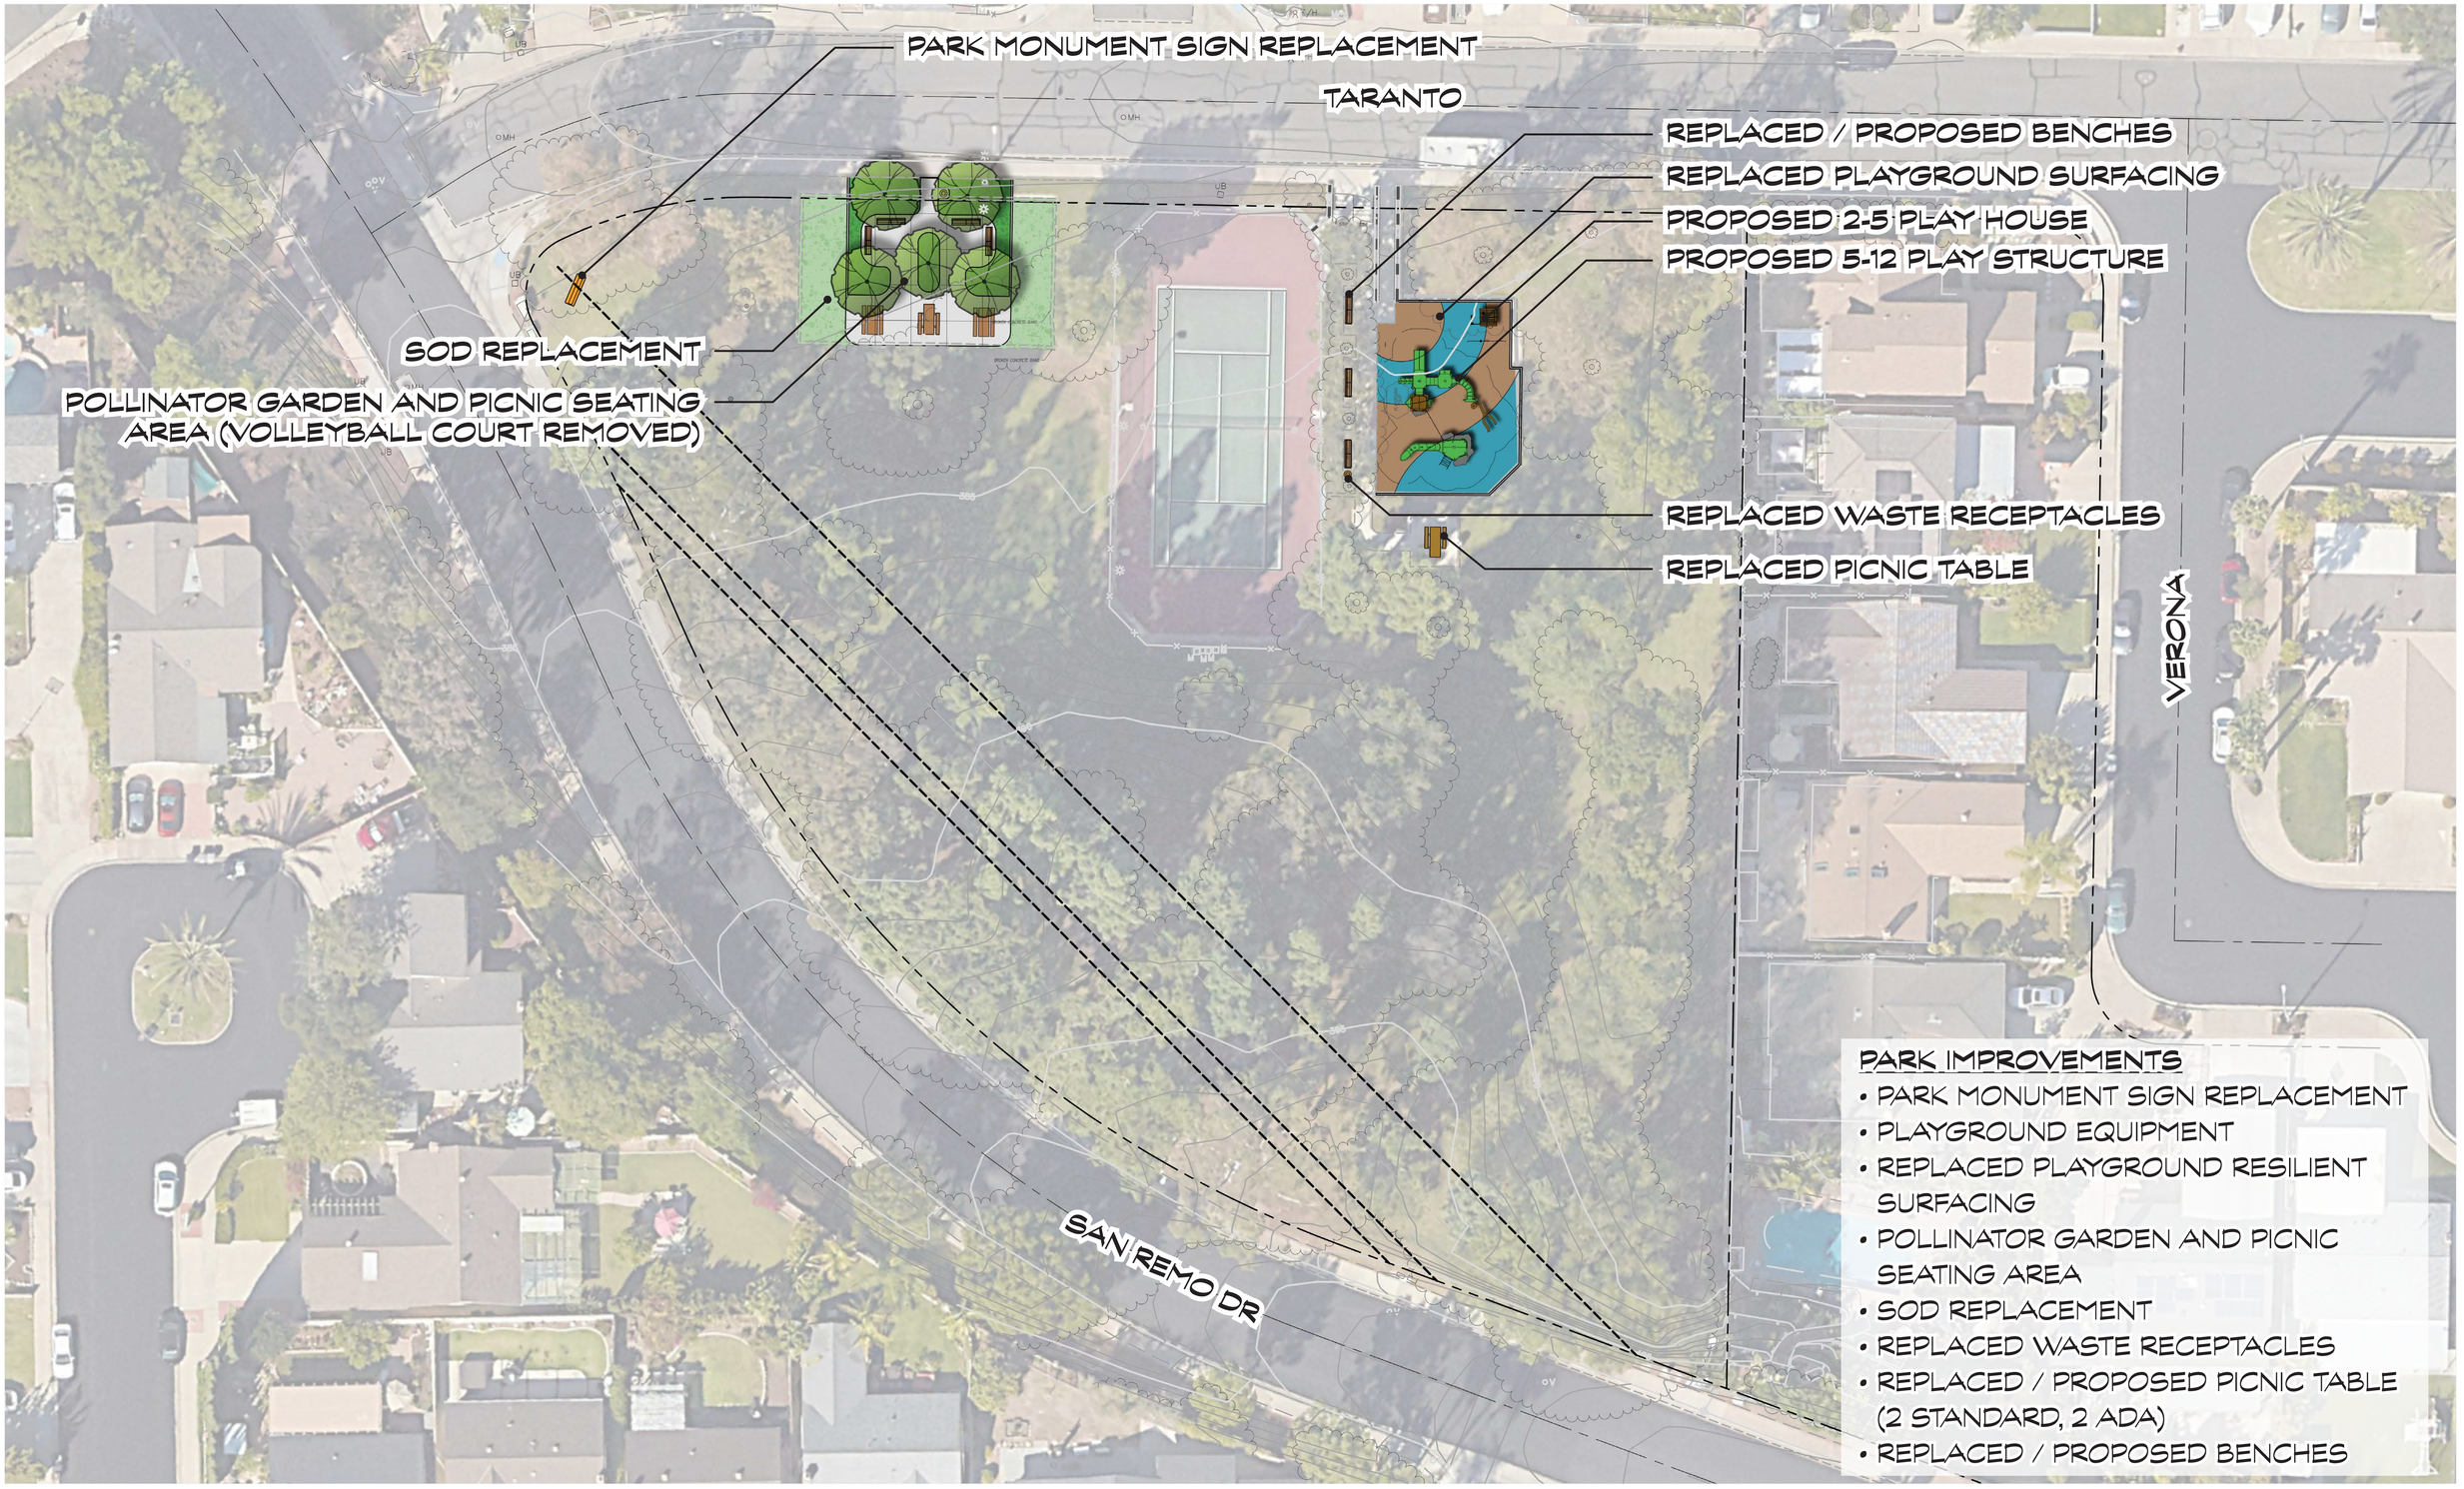
A. All inspections herein specified shall be made by the City. Request inspection at least forty-eight (48) hours in advance of the time the inspection is required. Requested inspections, subsequently canceled without twenty-four (24) hours notice, will be billed to the Contractor.

B. Inspection is required for, and not necessarily limited to, the following parts of the work.

1. At completion of the incorporation of soil amendments and fine grading

2. Prior to digging plant pits for trees and shrubs.

3. Installing trees in the planting hole.



4. During backfilling of plant pits with amended backfill.

5. Final inspection at the end of the maintenance period.

SAN REMO PARK IMPROVEMENT PROJECT

23612 SAN REMO DRIVE

CITY OF LAGUNA HILLS, CA

GENERAL NOTES:

A. ALL WORK SHALL BE DONE IN ACCORDANCE WITH THE APPLICABLE SECTIONS OF APWA STANDARD PLANS AND SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION AND STATE STANDARD SPECIFICATIONS, UNIFORM BUILDING CODE, UNIFORM PLUMBING CODE, NATIONAL ELECTRICAL CODE, ALL SAFETY ORDERS OF THE STATE INDUSTRIAL COMMISSION, TITLE 3, RULES AND REGULATIONS OF THE NATIONAL BOARD OF FIRE UNDERWRITING, STATE OF CALIFORNIA TITLE 24, SECTION T-20-1401 THROUGH T-20-1406, AND TITLE 20, SECTION 1401-1406 ENERGY REGULATIONS.

B. THE DESIGN ADEQUACY AND SAFETY OF EXCAVATION, ERECTION, BRACING, SHORING, TEMPORARY SUPPORTS, ETC., IS THE SOLE RESPONSIBILITY OF THE CONTRACTOR, AND HAS NOT BEEN CONSIDERED BY THE LANDSCAPE ARCHITECT OR STRUCTURAL ENGINEER OR CONSULTANTS. THE CONTRACTOR IS RESPONSIBLE FOR PROVIDING THE NECESSARY SAFETY PRECAUTIONS AND MEASURE NECESSARY TO EXECUTE THE WORK. OBSERVATION VISITS TO THE SITE BY THE LANDSCAPE ARCHITECT OR ANY OF HIS CONSULTANTS SHALL NOT INCLUDE INSPECTION OF THE ABOVE ITEMS.

C. DO NOT WILLFULLY PROCEED WITH CONSTRUCTION AS DESIGNED WHEN IT IS OBVIOUS THAT UNKNOWN AND / OR GRADE DIFFERENCES EXIST THAT MAY NOT HAVE BEEN KNOWN DURING DESIGN. SUCH CONDITIONS SHALL BE IMMEDIATELY BROUGHT TO THE ATTENTION OF THE CITY'S REPRESENTATIVE.

D. THE CONTRACTOR SHALL NOTIFY THE CITY'S REPRESENTATIVE TWO (2) WORKING DAYS PRIOR TO START OF CONSTRUCTION.

E. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO CONDUCT THEIR OPERATIONS IN SUCH A MANNER SO AS TO PREVENT DAMAGE TO EXISTING SUBSTRUCTURES. IN THE EVENT OF SUBSTRUCTURE DAMAGE, THE CONTRACTOR SHALL BEAR FULL RESPONSIBILITY AND TOTAL EXPENSE FOR REPAIR AND / OR REPLACEMENT OF SAID SUBSTRUCTURE.

F. THE CONTRACTOR SHALL PROVIDE 72-HOUR NOTICE TO AFFECTED UTILITIES WHEN RELOCATION IS REQUIRED.

G. THE CONTRACTOR SHALL NOT CONDUCT ANY OPERATIONS OR PERFORM ANY WORK PERTAINING TO THE PROJECT BETWEEN THE HOURS OF 5:00 P.M. AND 7:00 A.M. ON ANY DAY NOR SUNDAY, OR HOLIDAYS AT ANY TIME EXCEPT AS APPROVED BY THE CITY.

H. THE CONTRACTOR SHALL NOT BLOCK DRIVEWAYS OR VEHICULAR TRAFFIC DURING THE PROCESS OF CONSTRUCTION.

I. THE CONTRACTOR SHALL COMPLY WITH CITY TRAFFIC CONTROL STANDARDS DURING CONSTRUCTION.

J. CONTRACTOR SHALL NOTIFY UNDERGROUND SERVICE ALERT BEFORE START OF CONSTRUCTION (811).

K. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL EROSION CONTROL DURING CONSTRUCTION AND MAINTENANCE PERIOD.

L. CONTRACTOR MAY REQUEST THE USE OR SUBSTITUTION OF ENVIRONMENTALLY PREFERABLE PRODUCTS & RECYCLED PRODUCTS, WHENEVER PRACTICABLE & COST EFFECTIVE.

M. ALL REVISIONS & CHANGE ORDERS TO THE APPROVED LANDSCAPE ARCHITECTURAL PLANS & SPECIFICATIONS ARE SUBJECT TO REVIEW & APPROVAL BY THE CITY BEFORE WORK MAY CONTINUE.

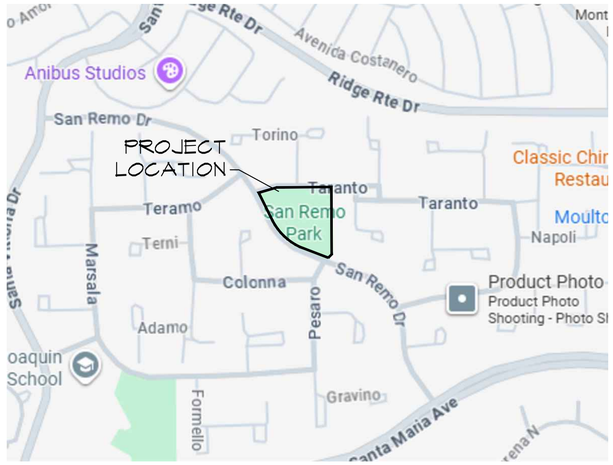
N. THE CONTRACTOR SHALL BE RESPONSIBLE FOR INSTALLING A 6' HIGH TEMPORARY CHAINLINK CONSTRUCTION FENCE WITH LOCKABLE GATES AROUND ALL CONSTRUCTION AREAS. FENCING SHALL BE PROVIDED WITH CONTINUOUS GREEN MESH WINDSCREEN SECURELY FASTENED AT ALL CORNERS. FENCING SHALL INCLUDE SUFFICIENT SANDBAGS TO KEEP THE FENCE IN PLACE THROUGHOUT CONSTRUCTION. CONTRACTOR SHALL MAINTAIN FENCING UNTIL CITY'S ACCEPTANCE OF THE WORK. CONTRACTOR TO MAINTAIN 24/7 VEHICULAR ACCESS TO BOTH THE PARK & LIFT STATION.

O. CONTRACTOR SHALL BE RESPONSIBLE FOR SECURING ALL NECESSARY PERMITS.

P. THE CONTRACTOR SHALL MAINTAIN SANITARY TOILET FACILITIES DURING CONSTRUCTION AS REQUIRED BY APPLICABLE REGULATIONS.

Q. THE GENERAL CONTRACTOR WARRANTS TO THE CITY AND THE LANDSCAPE ARCHITECT THAT ALL MATERIALS AND EQUIPMENTFURNISHED WILL BE NEW UNLESS OTHERWISE SPECIFIED, AND THAT ALL WORK WILL BE OF GOOD QUALITY, FREE FROM FAULTS AND DEFECTS.

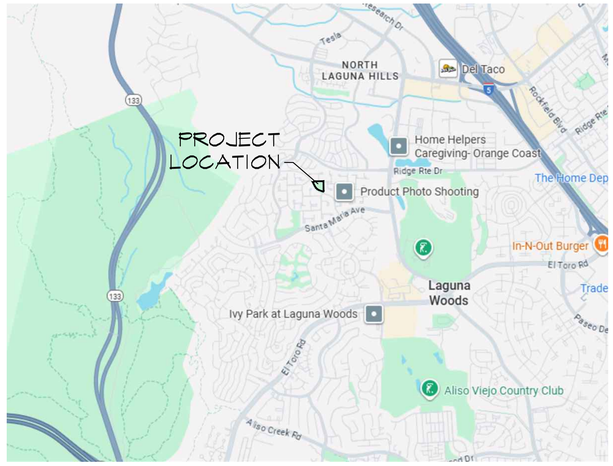
R. PAVING, MASONRY AND CONCRETE SUBCONTRACTORS ARE TO COORDINATE WITH THE IRRIGATION SUBCONTRACTOR FORSLEEVING, PIPING AND/OR CONDUIT INSTALLATION UNDER OR THROUGH HARDSCAPE ELEMENTS.



S. THE CONTRACTOR SHALL VERIFY ALL PROPERTY LINES OR LIMIT OF WORK LINES PRIOR TO COMMENCING WORK.

T. IN THE CASE OF DISCREPANCIES IN THE DRAWINGS, SPECIFICATIONS SHALL TAKE PRECEDENCE OVER DETAILS, AND DETAILS SHALL TAKE PRECEDENCE OVER PLANS.

U. THE CONTRACT DRAWINGS AND SPECIFICATIONS REPRESENT THE FINISHED PROJECT UNLESS OTHERWISE SHOWN; THEY DO NOT INDICATE THE METHOD OF CONSTRUCTION. THE GENERAL CONTRACTOR SHALL SUPERVISE AND DIRECT THE WORK, AND SHALL BE SOLELY RESPONSIBLE FOR ALL CONSTRUCTION MEANS, METHODS, TECHNIQUES, SEQUENCES AND PROCEDURES. OBSERVATION VISITS TO THE SITE BY FIELD REPRESENTATIVES OF THE LANDSCAPE ARCHITECT AND THEIR CONSULTANTS SHALL NOT INCLUDE INSPECTIONS OF THE PROTECTIVE MEASURES OR THE CONSTRUCTION PROCEDURES REQUIRED FOR SAME, WHICH ARE THE SOLE RESPONSIBILITY OF THE GENERAL CONTRACTOR. ANY SUPPORT SERVICES PERFORMED BY THE LANDSCAPE ARCHITECT AND THEIR CONSULTANTS DURING CONSTRUCTION SHALL BE DISTINGUISHED FROM CONTINUOUS AND DETAILED INSPECTION SERVICES, WHICH ARE FURNISHED BY OTHERS. THESE SUPPORT SERVICES PERFORMED BY THE LANDSCAPE ARCHITECT AND THEIR CONSULTANTS, WHETHER OF MATERIALS OR WORK, AND WHETHER PERFORMED PRIOR TO, DURING OR AFTER COMPLETION OF CONSTRUCTION, ARE PERFORMED SOLELY FOR THE PURPOSE OF ASSISTING IN QUALITY CONTROL AND IN ACHIEVING CONFORMANCE WITH CONTRACT DRAWINGS AND SPECIFICATIONS BUT THEY DO NOT GUARANTEE GENERAL CONTRACTOR'S PERFORMANCE, AND SHALL NOT BE CONSTRUED AS SUPERVISION OF CONSTRUCTION.



V. PLANT MATERIAL SUPPLIER AND/OR LANDSCAPE CONTRACTOR SHALL PROVIDE GUARANTEED EVIDENCE TO THE CITY THAT ALL PLANT MATERIAL IS CONSISTENT WITH THE APPROVED PLANT LEGEND CONSIDERING GENUS, SPECIES, CULTIVARS, & SIZE SPECIFIED. ALL PLANT MATERIAL NOT CONSISTENT WITH THE PLANT LEGEND MAY BE REJECTED.

SURVEY RESPONSIBILITY NOTES:

A. CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR PROVIDING COMPLETE, TIMELY AND ACCURATE FIELD LAYOUT OF THE PROPOSED SITE IMPROVEMENTS INCLUDING, BUT NOT NECESSARILY LIMITED TO, HORIZONTAL AND VERTICAL CONTROL AND DIMENSIONAL COORDINATION AS NECESSARY TO CONSTRUCT THE WORK IN ACCORDANCE WITH THE CONTRACT DOCUMENTS. THIS SURVEY WORK SHALL BE PERFORMED BY A LICENSED LAND SURVEYOR AND SHALL PROVIDE FOR THE SURVEY AND STAGING OF ALL CONSTRUCTION ELEMENTS INCLUDING BUT NOT LIMITED TO BUILDING LOCATIONS, PAVING EDGES/ALIGNMENT FENCING, WALLS, LIGHT FIXTURES, SIGNS, MOW CURBS, SPECTATOR SEATING, SHADE STRUCTURES, HOME PLATES, BASE LINES, CURB AND GUTTER ALIGNMENTS, CATCH BASINS, DRAINS, ETC.

B. AN AUTOCAD-COMPATIBLE .DWG FILE OF THE PROPOSED IMPROVEMENTS SHALL BE PROVIDED TO THE CONTRACTOR PRIOR TO THE START OF CONSTRUCTION FOR THEIR USE IN PREPARING THE NECESSARY FIELD SURVEYING / LAYOUT OF PROPOSED IMPROVEMENTS. THE USE OF THIS DIGITAL FILE SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR AND IS INTENDED TO ASSIST THE SURVEYOR IN THE LAYOUT OF THE PROPOSED IMPROVEMENTS.

C. THE DIGITAL INFORMATION PROVIDED BY RJM DESIGN GROUP, INC. SHALL NOT BE USED FOR ANY PURPOSE OTHER THAN FOR THE PROJECT DESCRIBED ABOVE AND SHALL NOT BE RELEASED TO ANY OTHER PARTY WITHOUT THE WRITTEN CONSENT OF RJM DESIGN GROUP, INC. THE INFORMATION CONTAINED ON THE ELECTRONIC MEDIA IS AN INSTRUMENT OF PROFESSIONAL SERVICES AND SHALL REMAIN THE PROPERTY OF RJM DESIGN GROUP, INC.

UTILITY LOCATOR NOTES:

FOR CONSTRUCTION WORK LOCATED ON, AND ADJACENT TO THE PROJECT SITE, CONTRACTOR TO CONDUCT THE FOLLOWING:

1. PRIOR TO COMMENCEMENT OF WORK, THE CONTRACTOR SHALL RETAIN AN INDEPENDENT UTILITY LOCATOR COMPANY, AT THEIR OWN EXPENSE, TO VERIFY ALL EXISTING UTILITY LOCATIONS, HEIGHTS, AND DEPTHS THROUGHOUT THE ENTIRE WORK AREA. THE UTILITY LOCATOR SHALL DETERMINE THE SIZE, AND TYPE OF ALL UTILITIES, AND IF DIRECT BURIED, OR IN CONDUIT.
2. THE CONTRACTOR SHALL REPORT ALL UTILITY LOCATIONS, HEIGHTS, DEPTHS, AND CONDITIONS TO THE CITY'S REPRESENTATIVE AND/OR LANDSCAPE ARCHITECT PRIOR TO COMMENCEMENT OF WORK. THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR ALL NECESSARY FIELD CORRECTIONS DUE TO FAILURE TO RETAIN AN INDEPENDENT UTILITY LOCATOR COMPANY AND/OR REPORT FINDINGS TO THE CITY'S REPRESENTATIVE AND/OR LANDSCAPE ARCHITECT.
3. FOR CONSTRUCTION WORK WITHIN THE PUBLIC RIGHT OF WAY, CONTACT DIGALERT AT 811, TO VERIFY ALL EXISTING UTILITY LOCATIONS, HEIGHTS, DEPTHS, SIZES, AND TYPE, AND IF DIRECT BURIED, OR IN CONDUIT.
4. CITY-ISSUED ENCROACHMENT PERMIT IS REQUIRED FOR POTHOLING TO VERIFY EXISTING LOCATION OF UTILITIES.
5. UTILITY LOCATOR FEES WILL BE WAIVED.

PROJECT MAINTENANCE:

- CITY PROJECT, ALL LANDSCAPE MAINTENANCE WILL BE HANDLED BY CITY CONTRACTED MAINTENANCE PROVIDERS.

SCALE: N.T.S.

SUBMITTALS:

1. 1ST SUBMITTAL - 11/05/2025
2. 2ND SUBMITTAL - 12/23/2025
3. 3RD SUBMITTAL - 03/05/2026

RECORD DRAWINGS:

CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR PROVIDING COMPLETE, TIMELY AND ACCURATE AS-BUILT DRAWINGS OF THE COMPLETE, INSTALLED SITE IMPROVEMENTS. CONTRACTOR'S AS-BUILT DRAWINGS WILL BE TURNED OVER TO THE CITY/PROJECT LANDSCAPE ARCHITECT FOR THE COMPLETION OF RECORD DRAWINGS FOR CITY FILES.

PRECISE GRADING PLANS
FOR
SAN REMO PARK IMPROVEMENTS
CITY OF LAGUNA HILLS
COUNTY OF ORANGE, CA
STATE OF CALIFORNIA

STANDARD GRADING NOTES

1. ALL WORK SHALL BE IN ACCORDANCE WITH THE GRADING CODE OF THE CITY OF LAGUNA HILLS AND ANY SPECIAL REQUIREMENTS OF THE PERMIT. A COPY OF THE GRADING CODE AND MANUAL SHALL BE RETAINED ON THE JOB SITE WHILE WORK IS IN PROGRESS. WHEN REFERENCED ON THE PLANS, A COPY OF ORANGE COUNTY PUBLIC WORKS STANDARD PLANS AND STANDARD PLANS FOR PUBLIC WORKS CONSTRUCTION SHALL ALSO BE RETAINED ON THE SITE.
2. GRADING SHALL NOT BE STARTED WITHOUT FIRST NOTIFYING THE GRADING INSPECTOR. A PRE-GRADING MEETING ON THE SITE IS REQUIRED BEFORE START OF GRADING WITH THE FOLLOWING PEOPLE PRESENT: OWNER, GRADING CONTRACTOR, DESIGN CIVIL ENGINEER, SOIL ENGINEER, ENGINEERING GEOLOGIST, GRADING INSPECTOR AND WHEN REQUIRED, THE ARCHAEOLOGIST AND PALEONTOLOGIST. THE REQUIRED INSPECTIONS FOR GRADING WILL BE EXPLAINED AT THIS MEETING.
3. ISSUANCE OF A GRADING PERMIT DOES NOT ELIMINATE THE NEED FOR AN EROSION CONTROL PLAN OR PERMITS FROM OTHER AGENCIES WITH REGULATORY RESPONSIBILITIES FOR CONSTRUCTION ACTIVITIES ASSOCIATED WITH THE WORK AUTHORIZED ON THIS PLAN.
4. THE GRADING PERMIT AND AN APPROVED COPY OF THE GRADING PLAN SHALL BE ON THE PERMITTED SITE WHILE WORK IS IN PROGRESS.
5. PRELIMINARY SOIL AND GEOLOGY REPORTS, AND ALL SUBSEQUENT REPORTS AS APPROVED BY THE CITY, ARE CONSIDERED A PART OF THE APPROVED GRADING PLAN.
6. THE SOILS ENGINEER AND ENGINEERING GEOLOGIST SHALL PERFORM SUFFICIENT INSPECTIONS AND BE AVAILABLE DURING GRADING AND CONSTRUCTION TO VERIFY COMPLIANCE WITH THE PLANS, SPECIFICATIONS, AND THE CODE WITHIN THEIR PURVIEW.
7. THE CIVIL ENGINEER SHALL BE AVAILABLE DURING GRADING TO VERIFY COMPLIANCE WITH THE PLANS, SPECIFICATIONS, CODE AND ANY SPECIAL CONDITIONS OF THE PERMIT WITHIN THEIR PURVIEW.
8. THE SOILS ENGINEER AND ENGINEERING GEOLOGIST SHALL, AFTER CLEARING AND PRIOR TO THE PLACEMENT OF FILL IN CANYON, INSPECT EACH CANYON FOR AREAS OF ADVERSE STABILITY AND DETERMINE THE PRESENCE OR ABSENCE OF SUBSURFACE WATER OR SPRING FLOW. IF NEEDED, SUBDRAINS WILL BE DESIGNED AND CONSTRUCTED PRIOR TO THE PLACEMENT OF FILL IN EACH RESPECTIVE CANYON.
9. SUBDRAIN OUTLETS SHALL BE COMPLETED AT THE BEGINNING OF THE SUBDRAIN CONSTRUCTION.
10. THE EXACT LOCATION OF THE SUBDRAINS SHALL BE SURVEYED IN THE FIELD FOR LINE/GRADE AND SHOWN ON AS-GRADED PLANS.
11. AREAS TO RECEIVE FILL SHALL BE PROPERLY PREPARED AND APPROVED IN WRITING BY THE SOILS ENGINEER AND THE GRADING INSPECTOR PRIOR TO PLACING FILL.
12. FILLS SHALL BE BENCHED INTO COMPETENT MATERIAL PER ORANGE COUNTY PUBLIC WORKS STANDARD PLAN NO. 1322.
13. ALL EXISTING FILLS SHALL BE APPROVED BY THE GRADING INSPECTOR OR REMOVED PRIOR TO PLACING ADDITIONAL FILLS.
14. FILLS SHALL BE COMPACTED THROUGHOUT TO A MINIMUM OF 90% RELATIVE COMPACTION. AGGREGATE BASE FOR ASPHALTIC AREAS SHALL BE COMPACTED TO A MINIMUM OF 95% RELATIVE COMPACTION, MAXIMUM DENSITY BY UNIFORM BUILDING CODE STANDARD NO. 70-1 OR APPROVED EQUIVALENT AND FIELD DENSITY BY UNIFORM BUILDING CODE STANDARD NO. 70-2 OR APPROVED EQUIVALENT.
15. CUT AND FILL SLOPES SHALL BE NO STEEPER THAN 2 FOOT HORIZONTAL TO 1 FOOT VERTICAL (2:1) EXCEPT WHERE SPECIFICALLY APPROVED OTHERWISE.
16. ALL CUT SLOPES SHALL BE INVESTIGATED BOTH DURING AND AFTER GRADING BY THE ENGINEERING GEOLOGIST TO DETERMINE IF ANY SLOPE STABILITY PROBLEM EXISTS. SHOULD EXCAVATION DISCLOSE ANY GEOLOGICAL HAZARDS OR POTENTIAL GEOLOGICAL HAZARDS, THE ENGINEERING GEOLOGIST SHALL SUBMIT RECOMMENDED TREATMENT TO THE GRADING INSPECTOR FOR APPROVAL.
17. WHERE SUPPORT OR BUTTRESSING OF CUT AND NATURAL SLOPES IS DETERMINED TO BE NECESSARY BY THE ENGINEERING GEOLOGIST AND SOIL ENGINEER, THE SOIL ENGINEER SHALL SUBMIT DESIGN, LOCATION AND CALCULATIONS TO THE GRADING INSPECTOR PRIOR TO CONSTRUCTION. THE ENGINEERING GEOLOGIST AND SOIL ENGINEER SHALL INSPECT AND CONTROL THE CONSTRUCTION OF THE BUTTRESSING AND CERTIFY TO THE STABILITY OF THE SLOPE AND ADJACENT STRUCTURES UPON COMPLETION.
18. WHEN CUT PADS ARE BROUGHT TO NEAR GRADE, THE ENGINEERING GEOLOGIST SHALL DETERMINE IF THE BEDROCK IS EXTENSIVELY FRACTURED OR FAULTED AND WILL READILY TRANSMIT WATER. IF CONSIDERED NECESSARY BY THE ENGINEERING GEOLOGIST AND SOIL ENGINEER, A COMPACTED FILL BLANKET WILL BE PLACED.
19. ALL TRENCH BACKFILLS SHALL BE TESTED AND APPROVED BY THE SOIL ENGINEER PER THE GRADING CODE.
20. ANY EXISTING IRRIGATION LINES AND CISTERNS SHALL BE REMOVED OR CRUSHED IN PLACE AND APPROVED BY THE GRADING INSPECTOR AND SOIL ENGINEER.
21. ANY EXISTING WATER WELLS SHALL BE ABANDONED IN COMPLIANCE WITH THE SPECIFICATIONS APPROVED BY THE ORANGE COUNTY HEALTH CARE AGENCY, AND DIVISION OF ENVIRONMENTAL HEALTH.
22. ANY EXISTING CESSPOOLS AND SEPTIC TANKS SHALL BE ABANDONED IN COMPLIANCE WITH THE UNIFORM PLUMBING CODE TO THE APPROVAL OF THE GRADING INSPECTOR.
23. STOCKPILING OF EXCESS MATERIAL SHALL BE APPROVED BY THE GRADING INSPECTOR PRIOR TO EXCAVATION.
24. EXPORT SOIL MUST BE TRANSPORTED TO A LEGAL DUMP OR TO A PERMITTED SITE APPROVED BY THE GRADING INSPECTOR.
25. THE PERMITTEE SHALL COMPLY WITH THE GRADING CODE REQUIREMENTS FOR HAUL ROUTES WHEN AN EXCESS OF 5,000 CUBIC YARDS OF EARTH IS TRANSPORTED TO OR FROM A PERMITTED SITE ON PUBLIC ROADWAYS.
26. THE PERMITTEE IS RESPONSIBLE FOR DUST CONTROL MEASURES.
27. THE PERMITTEE SHALL GIVE RESPONSIBLE NOTICE TO THE OWNER OF ADJOINING LANDS AND BUILDINGS PRIOR TO BEGINNING EXCAVATIONS THAT MAY AFFECT THE LATERAL AND SUBJACENT SUPPORT OF THE ADJOINING PROPERTY. THE NOTICE SHALL STATE THE INTENDED DEPTH OF EXCAVATION AND WHEN THE EXCAVATION WILL COMMENCE. THE ADJOINING OWNER SHALL BE ALLOWED AT LEAST 30 DAYS AND REASONABLE ACCESS ON THE PERMITTED PROPERTY TO PROTECT HIS STRUCTURE, IF HE SO DESIRES, UNLESS OTHERWISE PROTECTED BY LAW.
28. ALL CONCRETE STRUCTURES THAT COME IN CONTACT WITH THE ON-SITE SOILS SHALL BE CONSTRUCTED WITH TYPE V CEMENT,UNLESS DEEMED UNNECESSARY BY SOLUBLE SULPHATE-CONTENT TESTS CONDUCTED BY THE SOILS ENGINEER.
29. SLOPES EXCEEDING 5 FEET IN HEIGHT SHALL BE PLANTED WITH AN APPROVED PLANT MATERIAL PRIOR TO CERTIFICATE OF OCCUPANCY. IN ADDITION, SLOPES EXCEEDING 15 FEET IN HEIGHT SHALL BE PROVIDED WITH AN APPROVED IRRIGATION SYSTEM.
30. ALL EXISTING DRAINAGE COURSES THROUGH THIS SITE SHALL REMAIN OPEN UNTIL FACILITIES TO HANDLE STORMWATER ARE APPROVED AND FUNCTIONAL; HOWEVER, IN ANY CASE, THE PERMITTEE SHALL BE HELD LIABLE FOR ANY DAMAGE DUE TO OBSTRUCTING NATURAL DRAINAGE PATTERNS.
31. TEMPORARY SANITATION FACILITIES SHALL BE MAINTAINED ON THE SITE DURING THE COURSE OF CONSTRUCTION.
32. THE LOCATION AND PROTECTION OF ALL UTILITIES IS THE RESPONSIBILITY OF THE PERMITTEE.
33. APPROVED PROTECTIVE MEASURES AND TEMPORARY DRAINAGE PROVISIONS SHALL BE USED TO PROTECT ADJOINING PROPERTIES DURING GRADING.
34. GRADING OPERATIONS INCLUDING MAINTENANCE OF EQUIPMENT WITHIN ONE-HALF MILE OF A HUMAN OCCUPANCY SHALL NOT BE CONDUCTED BETWEEN THE HOURS OF 6:00 P.M. AND 7:00 A.M. DAILY, ON SUNDAY, OR ON A FEDERAL HOLIDAY.
35. ALL CONSTRUCTION VEHICLES OR EQUIPMENT, FIXED OR MOBILE, OPERATED WITHIN 1,000 FEET OF A DWELLING SHALL BE EQUIPPED WITH PROPERLY OPERATING AND MAINTAINED MUFFLERS.
36. ALL OPERATIONS SHALL COMPLY WITH THE LAGUNA HILLS MUNICIPAL CODE FOR NOISE CONTROL.
37. STOCKPILING AND/OR VEHICLE STAGING AREAS SHALL BE LOCATED AS FAR AS PRACTICABLE FROM DWELLINGS AND WITHIN THE LIMITS OF THE GRADING PERMIT.
38. GRADING AND EXCAVATION SHALL BE HALTED DURING PERIODS OF HIGH WINDS. OPERATIONS SHALL COMPLY WITH AQMD RULE 403. FUGITIVE DUST.
39. PAVEMENT SECTIONS SHALL BE NO LESS THAN 4" ASPHALT CONCRETE OVER 6" AGGREGATE BASE AND PRIOR TO ROUGH GRADE RELEASE FOR BUILDING PERMITS BY THE GRADING INSPECTOR, THE SOILS ENGINEER SHALL SUBMIT FOR APPROVAL, PAVEMENT SECTION RECOMMENDATIONS BASED ON 'R' VALUE ANALYSIS OF THE SUB-GRADE SOILS, AND EXPECTED TRAFFIC INDICES.
40. ASPHALT CONCRETE SHALL BE CONSTRUCTED PER THE REQUIREMENTS OF THE ORANGE COUNTY PUBLIC WORKS STANDARD PLAN NO. 1805.
41. AGGREGATE BASE SHALL BE CONSTRUCTED PER THE REQUIREMENTS OF THE ORANGE COUNTY PUBLIC WORKS STANDARD NO. 1804.
42. ROOF GUTTERS SHALL BE INSTALLED TO PREVENT ROOF DRAINAGE FROM FALLING ON MANUFACTURED SLOPES.
43. THE CIVIL ENGINEER, AS A CONDITION OF ROUGH GRADE APPROVAL, SHALL PROVIDE A BLUE TOP WITH ACCOMPANYING WITNESS STAKE, SET AT THE CENTER OF EACH PAD REFLECTING THE PAD ELEVATION FOR PRECISE PERMITS AND A BLUE TOP WITH WITNESS STAKE SET AT THE DRAINAGE SCALE HIGH POINT REFLECTING THE HIGH POINT ELEVATION FOR PRELIMINARY PERMITS.
44. PRIOR TO FINAL APPROVAL, THE CIVIL ENGINEER SHALL CERTIFY TO THE GRADING INSPECTOR THE AMOUNT OF EARTH MOVED DURING THE GRADING OPERATION.
45. THE ENGINEERING GEOLOGIST SHALL PERFORM PERIODIC INSPECTION AND SUBMIT A COMPLETE REPORT AND MAP UPON COMPLETION OF THE ROUGH GRADING.
46. THE GRADING CONTRACTOR SHALL SUBMIT A STATEMENT OF COMPLIANCE TO THE APPROVED GRADING PLAN PRIOR TO FINAL APPROVAL.
47. THE COMPACTION REPORT AND APPROVAL FROM THE SOIL ENGINEER SHALL INDICATE THE TYPE OF FIELD-TESTING PERFORMED, THE METHOD OF OBTAINING THE IN-PLACE DENSITY SHALL BE IDENTIFIED WHETHER SAND CONE, DRIVE RING, OR NUCLEAR, AND SHALL BE NOTED FOR EACH TEST. SUFFICIENT MAXIMUM DENSITY DETERMINATIONS SHALL BE PERFORMED TO VERIFY THE ACCURACY OF THE MAXIMUM DENSITY CURVES USED BY THE FIELD TECHNICIAN.
48. IN THE EVENT THAT SOIL CONTAMINATION IS DISCOVERED DURING EXCAVATION AND REMOVAL OF AN EXISTING TANK, WORK SHALL BE STOPPED UNTIL A SITE ASSESSMENT AND MITIGATION PLAN HAS BEEN PREPARED, SUBMITTED AND APPROVED BY COUNTY OF ORANGE ENVIRONMENTAL HEALTH AND THE CITY.
49. SURVEY MONUMENTS SHALL BE PRESERVED AND REFERENCED BEFORE CONSTRUCTION AND REPLACED AFTER CONSTRUCTION PURSUANT TO SECTION 8771 OF THE BUSINESS AND PROFESSIONS CODE.
50. RETAINING WALLS ARE NOT APPROVED PER THIS GRADING PLAN. RETAINING WALLS REQUIRE A SEPARATE BUILDING PERMIT.
51. OTHER BUILDING IMPROVEMENTS SUCH AS STAIRS, BUILDINGS, SWIMMING POOLS, ETC. REQUIRE A SEPARATE BUILDING PERMIT.

EROSION CONTROL NOTES

1. IN THE CASE OF EMERGENCY, CALL (NAME)_____AT WORK PHONE #_____, HOME PHONE #_____, OR CELLULAR PHONE # _____
2. EQUIPMENT AND WORKERS FOR EMERGENCY WORK SHALL BE MADE AVAILABLE AT ALL TIMES DURING THE RAINY SEASON (OCTOBER 1 TO APRIL 30 EACH YEAR). NECESSARY MATERIALS SHALL BE AVAILABLE ON SITE AND STOCKPILED AT CONVENIENT LOCATIONS TO FACILITATE RAPID CONSTRUCTION OF TEMPORARY DEVICES AT ALL TIME.
3. EROSION CONTROL DEVICES SHALL NOT BE MOVED OR MODIFIED WITHOUT THE APPROVAL OF THE GRADING INSPECTOR.
4. ALL REMOVABLE EROSION PROTECTIVE DEVICES SHALL BE IN PLACE AT THE END OF EACH WORKING DAY WHEN THE 5-DAY RAIN PROBABILITY FORECAST EXCEEDS 40%.
5. AFTER A RAINSTORM, ALL SILT AND DEBRIS SHALL BE REMOVED FROM STREETS, BERMS, AND BASINS.
6. GRADED AREAS ON THE PERMITTED AREA PERIMETER MUST DRAIN AWAY FROM THE FACE OF SLOPES AT THE CONCLUSION OF EACH WORKING DAY. DRAINAGE IS TO BE DIRECTED TOWARD DESILTING FACILITIES.
7. THE PERMITTEE AND CONTRACTOR SHALL BE RESPONSIBLE AND SHALL TAKE NECESSARY PRECAUTIONS TO PREVENT PUBLIC TRESPASS ONTO AREAS WHERE IMPOUNDED WATER CREATES A HAZARDOUS CONDITION.
8. THE PERMITTEE AND CONTRACTOR SHALL INSPECT THE EROSION CONTROL WORK AND INSURE THAT THE WORK IS IN ACCORDANCE WITH THE APPROVED PLANS.
9. THE PERMITTEE SHALL NOTIFY ALL GENERAL CONTRACTORS, SUBCONTRACTORS, MATERIAL SUPPLIERS, LESSEES AND THE PROPERTY OWNERS THAT DUMPING OF POLLUTANTS INTO THE STORM DRAIN SYSTEM OR THE WATERSHED IS PROHIBITED.
10. PERMITTEE SHALL MAINTAIN CONSTRUCTION SITE IN SUCH A CONDITION THAT AN ANTICIPATED STORM DOES NOT CARRY WASTES OR POLLUTANTS OFF THE SITE. POTENTIAL POLLUTANTS INCLUDE BUT ARE NOT LIMITED TO: SOLID OR LIQUID CHEMICAL SPILLS; WASTES FROM PAINTS, STAINS, SEALANTS, GLUES, DYES, PESTICIDES, HERBICIDES, WOOD PRESERVATIVES AND SOLVENTS, ASBESTOS FIBERS, PAINT FLAKES OR STUCCO FRAGMENTS; FUELS, OILS, LUBRICANTS AND HYDRAULIC, RADIATOR OR BATTERY FLUIDS; FERTILIZERS, VEHICLE/EQUIPMENT WASH WATER AND CONCRETE WASH WATER, CONCRETE DETERGENT OR FLOATABLE WASTES; WASTES FROM ANY ENGINE/EQUIPMENT STEAM CLEANING OR CHEMICAL DEGREASING AND SUPERCHLORINATED POTABLE WATER LINE FLUSHING. DURING CONSTRUCTION, PERMITTEE SHALL DISPOSE OF SUCH MATERIALS IN A SPECIFIED AND CONTROLLED TEMPORARY AREA ON-SITE, PHYSICALLY SEPARATED FROM POTENTIAL STORMWATER RUNOFF, WITH ULTIMATE DISPOSAL IN ACCORDANCE WITH LOCAL, STATE AND FEDERAL REQUIREMENTS.
11. DEWATERING OF CONTAMINATED GROUNDWATER, OR DISCHARGING CONTAMINATED SOILS VIA SURFACE EROSION IS PROHIBITED. DEWATERING OF NON-CONTAMINATED GROUNDWATER REQUIRES A NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT FROM THE RESPECTIVE STATE REGIONAL WATER QUALITY CONTROL BOARD.
12. FOR SITES OVER ONE ACRE IN SIZE, THE CONTRACTOR IS REQUIRED TO FILE A NOTICE OF INTENT (NOI) WITH THE STATE WATER RESOURCES CONTROL BOARD (SWQCB) AND PREPARE AND HAVE ON SITE AN APPROVED STORM WATER POLLUTION PREVENTION PLAN (SWPPP).
13. THE CONTRACTOR SHALL HAVE ON SITE AN APPROVED WATER QUALITY MANAGEMENT PLAN (WQMP), AS REQUIRED BY THE CITY ENGINEERING DEPARTMENT.
14. THE CONTRACTOR SHALL COMPLY WITH SAN DIEGO REGIONAL WATER QUALITY CONTROL BOARD ORDER NO. R9-2013-0001 AS AMENDED BY ORDER NOS. R9-2015-0001 AND R9-2015-0100 AND SANTA ANA REGIONAL WATER QUALITY BOARD ORDER NO. R8-2009-0030 AS AMENDED BY ORDER NO. R8-2010-0062, AS APPLICABLE.
15. GRADING AND EXCAVATION SHALL BE HALTED DURING PERIODS OF HIGH WINDS. OPERATIONS SHALL COMPLY WITH AQMD RULE 403. FUGITIVE DUST.
16. IMPORT AND EXPORT HAULING SHALL BE LIMITED TO THE HOURS OF 9:00AM TO 4:00PM. ANY TRACKING OF MATERIAL ON THE PUBLIC WAYS SHALL BE IMMEDIATELY REMOVED BY MECHANICAL SWEEPING.

DRY SEASON REQUIREMENTS (MAY 1 THRU SEPTEMBER 30)

17. WIND EROSION BMPS (DUST CONTROL) SHALL BE IMPLEMENTED.
18. SEDIMENT CONTROL BMPS SHALL BE INSTALLED AND MAINTAINED AT ALL OPERATIONAL STORM DRAIN INLETS.
19. BMPS TO CONTROL OFF-SITE SEDIMENT TRACKING SHALL BE IMPLEMENTED AND MAINTAINED.
20. APPROPRIATE WASTE MANAGEMENT AND MATERIALS POLLUTION CONTROL BMPS SHALL BE IMPLEMENTED TO PREVENT THE CONTAMINATION OF STORM WATER BY WASTES AND CONSTRUCTION MATERIALS.
21. APPROPRIATE NON-STORM WATER BMPS SHALL BE IMPLEMENTED TO PREVENT THE CONTAMINATION OF STORM WATER FROM CONSTRUCTION ACTIVITIES.
22. THERE SHALL BE A 'WEATHER TRIGGERED' ACTION PLAN AND THE ABILITY TO DEPLOY STANDBY SEDIMENT CONTROL BMPS AS NEEDED TO COMPLETELY PROTECT THE EXPOSED PORTIONS OF THE SITE WITHIN 48 HOURS OF A PREDICTED STORM EVENT (A PREDICTED STORM EVENT IS DEFINED AS A FORECASTED, 50% CHANCE OF RAIN).
23. SUFFICIENT MATERIALS NEEDED TO INSTALL STANDBY SEDIMENT CONTROL BMPS (AT THE SITE PERIMETER, SITE SLOPES AND OPERATIONAL INLETS WITHIN THE SITE) NECESSARY TO PREVENT SEDIMENT DISCHARGES FROM EXPOSED PORTIONS OF THE SITE SHALL BE STORED ON SITE. AREAS THAT HAVE ALREADY BEEN PROTECTED FROM EROSION USING PHYSICAL STABILIZATION OR ESTABLISHED VEGETATION STABILIZATIONS BMPS AS DESCRIBED IN ITEM H BELOW ARE NOT CONSIDERED TO BE 'EXPOSED' FOR PURPOSES OF THIS REQUIREMENT.
24. DEPLOYMENT OF PERMANENT EROSION CONTROL BMPS (PHYSICAL OR VEGETATION) SHOULD COMMENCE AS SOON AS PRACTICAL ON SLOPES THAT ARE COMPLETED FOR ANY PORTION OF THE SITE. STANDBY BMP MATERIALS SHOULD NOT BE RELIED UPON TO PREVENT EROSION OF SLOPES THAT HAVE BEEN COMPLETED.
25. PHASING TO BE USED TO MAINTAIN STABILIZED AREAS (VEGETATION OR IMPERVIOUS COVER) AS MUCH AS POSSIBLE DURING CONSTRUCTION, DISTURBED AREAS SHOULD BE STABILIZED AS SOON AS PRACTICAL. SLOPES INACTIVE FOR UP TO TWO WEEKS SHALL BE STABILIZED WITH SEEDING, SOIL BINDERS, MULCHING, GEOTEXTILES, OR MATS, ETC. IN ORDER TO REDUCE THE EROSIVE IMPACT OF RAIN OR RUNOFF.

WET SEASON REQUIREMENTS (OCTOBER 1 THRU APRIL 30)

26. SEDIMENT CONTROL BMP'S SHALL BE IMPLEMENTED AT THE SITE PERIMETER, AT ALL OPERATIONAL STORM DRAIN INLETS AND AT ALL NON-ACTIVE SLOPES, TO PROVIDE SUFFICIENT PROTECTION FOR STORMS LIKELY TO OCCUR DURING THE RAINY SEASON.
27. ADEQUATE PHYSICAL OR VEGETATION EROSION CONTROL BMP'S (TEMPORARY OR PERMANENT) SHALL BE INSTALLED AND ESTABLISHED FOR ALL COMPLETED SLOPES PRIOR TO THE START OF THE RAINY SEASON. THESE BMP'S MUST BE MAINTAINED THROUGHOUT THE RAINY SEASON. IF A SELECTED BMP FAILS, IT MUST BE REPAIRED AND IMPROVED, OR REPLACED WITH AN ACCEPTABLE ALTERNATE AS SOON AS IT IS SAFE TO DO SO. THE FAILURE OF A BMP MAY INDICATE THAT THE BMP, AS INSTALLED, WAS NOT ADEQUATE FOR THE CIRCUMSTANCES IN WHICH IT WAS USED. REPAIRS OR REPLACEMENTS MUST RESULT IN A MORE ROBUST BMP, OR ADDITIONAL BMP'S SHOULD BE INSTALLED TO PROVIDE ADEQUATE PROTECTION.
28. THE AMOUNT OF EXPOSED SOIL ALLOWED AT ONE TIME SHALL NOT EXCEED THAT WHICH CAN BE ADEQUATELY PROTECTED BY DEPLOYING STANDBY EROSION CONTROL AND SEDIMENT CONTROL BMP'S PRIOR TO A PREDICTED RAINSTORM.
29. A DISTURBED AREA THAT IS NOT COMPLETED BUT THAT IS NOT BEING ACTIVELY GRADED (NON-ACTIVE AREA) SHALL BE FULLY PROTECTED FROM EROSION WITH TEMPORARY OR PERMANENT BMP'S (EROSION AND SEDIMENT CONTROL). THE ABILITY TO DEPLOY STANDBY BMP MATERIALS IS NOT SUFFICIENT FOR THESE AREAS. EROSION AND SEDIMENT CONTROL BMP'S MUST ACTUALLY BE DEPLOYED. THIS INCLUDES ALL BUILDING PADS, UNFINISHED ROADS AND SLOPES.
30. SUFFICIENT MATERIALS NEEDED TO INSTALL STANDBY EROSION AND SEDIMENT CONTROL BMP'S NECESSARY TO COMPLETELY PROTECT THE EXPOSED PORTIONS OF THE SITE FOR EROSION AND TO PREVENT SEDIMENT DISCHARGES SHALL BE STORED ON SITE. AREAS THAT HAVE ALREADY BEEN PROTECTED FROM EROSION USING PERMANENT PHYSICAL STABILIZATION OR ESTABLISHED VEGETATION STABILIZATION BMP'S ARE NOT CONSIDERED TO BE 'EXPOSED' FOR PURPOSES OF THIS REQUIREMENT.

LEGAL DESCRIPTION

LOT 222 OF TRACT MAP 7311, FILED IN BOOK 460, PAGES 18 TO 31, PER RECORDS ON FILE IN THE OFFICE OF THE ORANGE COUNTY SURVEYOR.

APN: 616-252-01

BENCHMARK

OCS BM "3X-65-13"
ELEVATION 361.191' [NAVD88, LEVELED 2014]

DESCRIBED BY OCS 2013 – FOUND 4" OCS ALUMINUM BENCHMARK DISK STAMPED "3X-65-13", SET IN THE SE'LY CORNER OF A 5.5' X 3' CONCRETE FOOTING FOR A TRAFFIC SIGNAL PANEL 1.6' ABOVE THE SIDEWALK. MONUMENT IS LOCATED IN THE NW'LY PORTION OF THE INTERSECTION OF MOULTON PKWY. AND SANTA MARIA AVE.

BASIS OF BEARINGS:

THE BEARINGS SHOWN HEREON ARE BASED ON THE CENTERLINE BEARING OF TARANTO SHOWN AS N 88°59'35" W ON TRACT MAP 7311, FILED IN BOOK 280, PAGES 39 TO 43, PER RECORDS ON FILE IN THE OFFICE OF THE ORANGE COUNTY SURVEYOR.

NOTICE TO CONTRACTOR

CAUTION: THE ENGINEER PREPARING THESE PLANS WILL NOT BE RESPONSIBLE FOR, OR LIABLE FOR, UNAUTHORIZED CHANGES TO, OR USES OF THESE PLANS. ALL CHANGES TO THE PLANS MUST BE IN WRITING, AND MUST BE APPROVED BY THE PREPARER OF THESE PLANS.

THE EXISTENCE AND LOCATION OF ANY UNDERGROUND UTILITY FACILITIES SHOWN ON THESE PLANS WERE OBTAINED BY A SEARCH OF AVAILABLE RECORDS. THE LOCATIONS SHOWN ARE APPROXIMATE AND SHALL BE CONFIRMED IN THE FIELD BY THE CONTRACTOR. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MAKING ANY NECESSARY ADJUSTMENTS TO ALIGNMENT AND/OR GRADE OF THE PROPOSED IMPROVEMENTS. THE CONTRACTOR IS REQUIRED TO TAKE DUE PRECAUTIONARY MEASURES TO PREVENT DAMAGE TO ANY UTILITY FACILITIES SHOWN AND ANY OTHER FACILITIES NOT SHOWN ON THESE PLANS.

ALL CONTRACTORS AND SUBCONTRACTORS PERFORMING WORK SHOWN ON THESE PLANS AGREE THAT, IN ACCORDANCE WITH GENERALLY ACCEPTED CONSTRUCTION PRACTICES, THEY WILL BE REQUIRED TO ASSUME SOLE AND COMPLETE RESPONSIBILITY FOR JOB SITE CONDITIONS DURING THE COURSE OF CONSTRUCTION OF THE PROJECT. THIS INCLUDES PROVIDING FOR THE SAFETY OF ALL PERSONS AND PROPERTY AND SHALL APPLY CONTINUOUSLY AND NOT BE LIMITED TO NORMAL WORKING HOURS. THE CONTRACTORS AND SUBCONTRACTORS FURTHER AGREE TO DEFEND, INDEMNIFY AND HOLD HARMLESS THE OWNER AND DESIGN PROFESSIONAL FROM ANY AND ALL LIABILITY, REAL OR ALLEGED, IN CONNECTION WITH THE PERFORMANCE OF WORK ON THIS PROJECT, EXCEPT FOR LIABILITY ARISING FROM THE SOLE NEGLIGENCE OF THE OWNER OR THE DESIGN PROFESSIONAL.

EXISTING UNDERGROUND STRUCTURES

THE EXISTENCE AND LOCATION OF ANY UNDERGROUND PIPES OR CONDUITS SHOWN ON THESE PLANS ARE OBTAINED BY A SEARCH OF THE AVAILABLE RECORDS. TO THE BEST OF OUR KNOWLEDGE, THERE ARE NO EXISTING UTILITIES EXCEPT AS SHOWN ON THESE PLANS. THE CONTRACTOR IS REQUIRED TO TAKE THE PRECAUTIONARY MEASURES TO PROTECT THE UTILITY LINES SHOWN AND ANY OTHER LINES NOT OF RECORD OR NOT SHOWN ON THESE PLANS. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO NOTIFY THE OWNERS OF THE UTILITIES OR STRUCTURES CONCERNED BEFORE STARTING WORK. CONTRACTOR FURTHER ASSUMES ALL LIABILITY AND RESPONSIBILITY FOR THE UNDERGROUND UTILITY PIPES, CONDUITS OR STRUCTURES SHOWN OR NOT SHOWN ON THESE PLANS. LOCATE ALL UTILITIES BEFORE CONSTRUCTION.

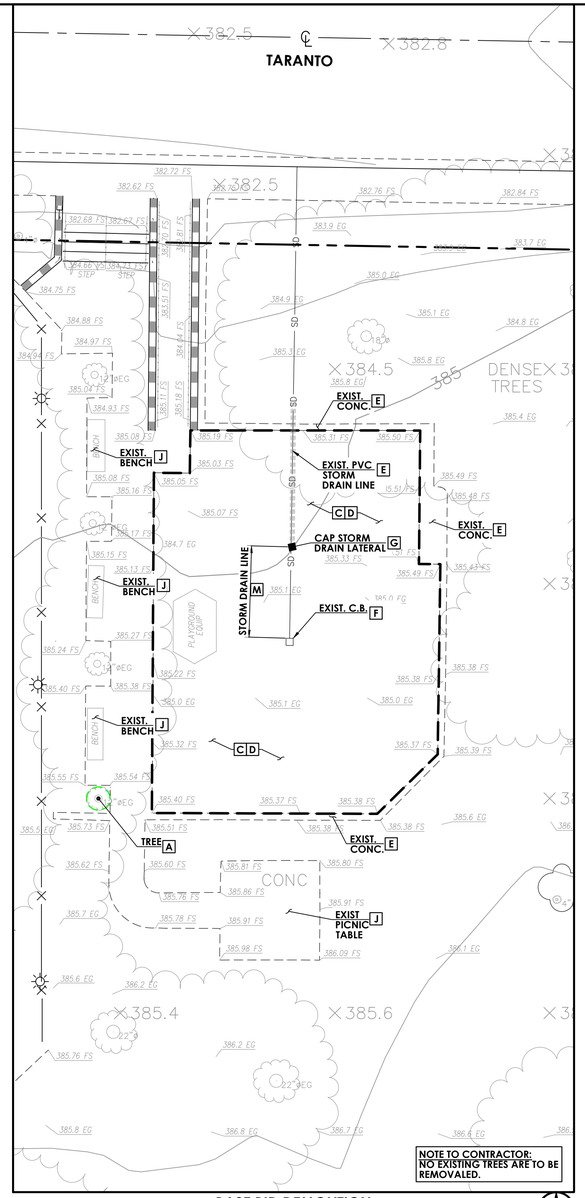
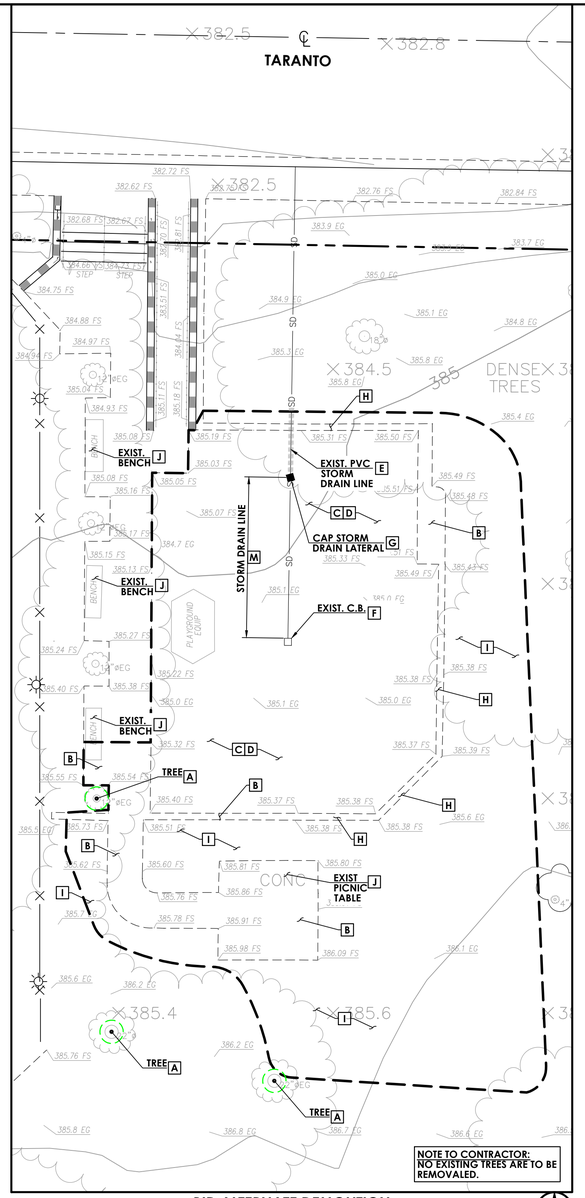
****** NOTE TO CONTRACTOR:**

EXACT LOCATION OF EXISTING UNDERGROUND STORM DRAIN LINES ON-SITE ARE UNKNOWN. CONTRACTOR SHALL:



- **VERIFY LOCATION, SIZE, ELEVATIONS OF EXISTING STORM DRAIN AND VERIFY DESIGN AS A FIRST ITEM OF WORK. NOTIFY ENGINEER IMMEDIATELY OF ANY REQUIRED CHANGE IN DESIGN.**
- **IF INLET PIPES ARE FOUND CONNECTING TO EXISTING GRATES THAT ARE REMOVED DURING THE CONSTRUCTION OF THIS PROJECT (OR PIPES ARE DAMAGED OR REMOVED DURING CONSTRUCTION) THAT RUN OUTSIDE OF DEMOLITION LIMITS, NOTIFY ENGINEER IMMEDIATELY OF THE LOCATION AND SIZE TO INSURE CONTINUITY OF DRAINAGE UPSTREAM.**

NOTE TO CONTRACTOR:



- **LOCATION OF EXISTING FACILITIES SHOWN HEREON ARE BASED ON THE FIELD SURVEY PERFORMED BY STARLIGHT SURVEYING, INC., DATED OCTOBER, 2025, FIELD OBSERVATION AND A SEARCH OF AVAILABLE RECORDS AND MAY NOT REPRESENT ACTUAL CONDITIONS.**
- **CONTRACTOR MUST FIELD LOCATE ALL UTILITIES (LOCATION AND DEPTH) WITHIN WORK AREA AS A FIRST ITEM OF WORK AND VERIFY PROPOSED DESIGN IS VALID.**
- **CONTRACTOR SHALL PROTECT IN PLACE THE UTILITY LINES SHOWN AND ANY OTHER LINES NOT OF RECORD OR NOT SHOWN ON THESE PLANS. CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE TO THE EXISTING UTILITY LINES.**
- **CONTRACTOR TO VERIFY AND INFORM THE CITY OF ANY FACILITIES ENCOUNTERED IN THE FIELD WHICH IS NOT SHOWN ON THIS PLAN, OR DIFFERS IN LOCATION OR SIZE, PRIOR TO REMOVAL.**
- **THE CITY MAY IDENTIFY AND REMOVE ANY ITEMS THEY WISH TO RETAIN PRIOR TO THE CONTRACTOR MOVE IN.**

DEMOLITION GENERAL NOTES

1. CONTRACTOR SHALL CONDUCT A SURVEY OF EXISTING CONDITIONS AND CORRELATE WITH REQUIREMENTS INDICATED TO DETERMINE AND VERIFY THE EXTENT OF DEMOLITION REQUIRED.
2. CONTRACTOR SHALL RECORD EXISTING CONDITIONS BY USE OF PRE-CONSTRUCTION PHOTOGRAPHS, PRE-CONSTRUCTION VIDEOTAPES, AND DRAWINGS AS APPROPRIATE.
3. A SURVEY SHALL BE PERFORMED AS WORK PROGRESSES TO DETECT HAZARDS RESULTING FROM DEMOLITION ACTIVITIES.
4. CONTRACTOR SHALL KEEP INVENTORY AND RECORD THE CONDITION OF ITEMS TO BE REMOVED AND REINSTALLED AND ITEMS TO BE REMOVED AND SALVAGED.
5. CONTRACTOR SHALL COORDINATE WITH THE OWNER THE STORAGE AND DELIVERY OF ITEMS TO BE SALVAGED.
6. LOCATE ALL EXISTING UTILITIES WHETHER SHOWN HEREON OR NOT AS THE FIRST ITEM OF WORK AND PROTECT THEM FROM DAMAGE. NOTIFY OWNER IMMEDIATELY IF DAMAGE OCCURS AND ASSUME FULL RESPONSIBILITY FOR EXPENSE OF REPAIR OR REPLACEMENT. NOTIFY OWNER'S REPRESENTATIVE IMMEDIATELY SHOULD FIELD CONDITIONS VARY FROM THOSE SHOWN ON PLAN.
7. WHEN UNANTICIPATED ELECTRICAL, STRUCTURAL, OR OTHER ELEMENTS INCLUDING STORM DRAIN, WATER AND SEWER LINES THAT CONFLICT WITH INTENDED DESIGN ARE ENCOUNTERED, CONTRACTOR SHALL INVESTIGATE AND MEASURE THE NATURE AND EXTENT OF CONFLICT AND CONTRACTOR SHALL PROMPTLY SUBMIT A WRITTEN REPORT TO THE CITY.
8. CONTRACTOR SHALL LOCATE, IDENTIFY, DISCONNECT, AND SEAL OR CAP OFF INDICATED UTILITY SERVICES AND MECHANICAL/ELECTRICAL SYSTEMS SERVING AREAS TO BE SELECTIVELY DEMOLISHED AND:
   - SHALL ARRANGE TO SHUT OFF INDICATED UTILITIES WITH UTILITY COMPANIES.
   - IF SERVICES/SYSTEMS ARE REQUIRED TO BE REMOVED, RELOCATED, OR ABANDONED, BEFORE PROCEEDING WITH DEMOLITION CONTRACTOR SHALL PROVIDE TEMPORARY SERVICES/SYSTEMS THAT BYPASS AREA OF DEMOLITION AND THAT MAINTAIN CONTINUITY OF SERVICES/SYSTEMS TO OTHER PARTS OF BUILDING AND SITE.
   - SHALL CUT OFF PIPE OR CONDUIT IN WALLS TO BE REMOVED, CAP, VALVE, OR PLUG AND SEAL REMAINING PORTION OF PIPE OR CONDUIT AFTER BYPASSING. WHERE ENTIRE WALL IS TO BE REMOVED, EXISTING SERVICES/SYSTEMS MAY BE REMOVED WITH REMOVAL OF THE WALL. CONTRACTOR SHALL CUT OFF PIPE OR CONDUIT SO IT WILL NOT BE VISIBLE IN FINISHED CONSTRUCTION.
9. CONTRACTOR SHALL PROTECT EXISTING SERVICES/SYSTEMS INDICATED AGAINST DAMAGE DURING DEMOLITION OPERATIONS.
10. INACTIVE OR ABANDONED UTILITIES SHALL BE DISCONNECTED, REMOVED, AND PLUGGED OR CAPPED SUBJECT TO THE LOCAL GOVERNING AGENCIES.
11. ACTIVE UTILITIES SHALL BE PROTECTED BY AND AT THE EXPENSE OF THE CONTRACTOR. KEEP ANY REQUIRED UTILITY IN OPERATING CONDITION DURING THE ENTIRE PERIOD OF WORK, INCLUDING EXISTING IRRIGATION SYSTEMS FOR LANDSCAPE MAINTENANCE.
12. DO NOT WILLFULLY PROCEED WITH CONSTRUCTION WHEN IT IS OBVIOUS THAT KNOWN OBSTRUCTIONS EXIST THAT MAY NOT HAVE BEEN KNOWN DURING DESIGN. SUCH CONDITIONS SHALL BE IMMEDIATELY BROUGHT TO THE ATTENTION OF THE OWNER'S AUTHORIZED REPRESENTATIVE. ASSUME RESPONSIBILITY FOR ALL NECESSARY REVISION DUE TO FAILURE TO GIVE SUCH NOTIFICATION.
13. CONTRACTOR SHALL CONDUCT DEMOLITION AND DEBRIS-REMOVAL OPERATIONS TO ENSURE MINIMUM INTERFERENCE WITH ROADS, STREETS, WALKS, WALKWAYS, AND OTHER ADJACENT OCCUPIED AND USED FACILITIES.
14. CONTRACTOR SHALL PROVIDE TEMPORARY BARRICADES AND OTHER PROTECTION REQUIRED TO PREVENT INJURY TO PEOPLE AND DAMAGE TO ADJACENT BUILDINGS AND FACILITIES TO REMAIN AND:
   - SHALL PROVIDE TEMPORARY WEATHER PROTECTION, DURING THE INTERVAL BETWEEN DEMOLITION OF EXISTING CONSTRUCTION ON EXTERIOR SURFACES AND NEW CONSTRUCTION, TO PREVENT WATER LEAKAGE AND DAMAGE TO STRUCTURE AND INTERIOR AREAS.
   - SHALL PROTECT WORK THAT IS TO REMAIN OR THAT IS EXPOSED DURING DEMOLITION OPERATIONS.
   - SHALL COVER AND PROTECT EQUIPMENT THAT HAS NOT BEEN REMOVED.
15. CONTRACTOR SHALL PROVIDE AND MAINTAIN SHORING, BRACING, AND STRUCTURAL SUPPORTS AS REQUIRED TO PRESERVE STABILITY AND PREVENT MOVEMENT, SETTLEMENT, OR COLLAPSE OF CONSTRUCTION AND FINISHES THAT REMAIN, AND TO PREVENT UNEXPECTED OR UNCONTROLLED MOVEMENT OR COLLAPSE OF CONSTRUCTION BEING DEMOLISHED. CONTRACTOR SHALL STRENGTHEN OR ADD NEW SUPPORTS WHEN REQUIRED DURING PROGRESS OF DEMOLITION.
16. DEMOLITION AND REMOVAL WORK SHALL BE CAREFULLY PERFORMED TO AVOID DAMAGE TO EXISTING TREES NOTED ON THE PLANS TO REMAIN.
17. ALL WORK SHALL CONFORM TO THE REQUIREMENTS OF THE LATEST ADOPTED EDITIONS OF THE UNIFORM BUILDING CODE, THE AMERICANS WITH DISABILITIES ACT, AND ALL OTHER APPLICABLE LOCAL AND STATE CODES, ORDINANCES AND REGULATIONS.
18. CONTRACTOR SHALL USE METHODS REQUIRED TO COMPLETE THE WORK WITHIN THE LIMITATIONS OF GOVERNING REGULATIONS AND AS FOLLOWS:
   - SHALL NEATLY CUT OPENINGS AND HOLES PLUMB, SQUARE, AND TRUE TO DIMENSIONS REQUIRED, USING CUTTING METHODS LEAST LIKELY TO DAMAGE CONSTRUCTION TO REMAIN OR ADJOINING CONSTRUCTION. USE HAND TOOLS OR SMALL POWER TOOLS DESIGNED FOR SAWING OR GRINDING, NOT HAMMERING AND CHOPPING, TO MINIMIZE DISTURBANCE OF ADJACENT SURFACES. TEMPORARILY COVER OPENINGS TO REMAIN.
   - SHALL CUT OR DRILL FROM THE EXPOSED OR FINISHED SIDE INTO CONCEALED SURFACES TO AVOID MARRING EXISTING FINISHED SURFACES.
   - SHALL NOT USE CUTTING TORCHES UNTIL WORK AREA IS CLEARED OF FLAMMABLE MATERIALS. AT CONCEALED SPACES, SUCH AS DUCT AND PIPE INTERIORS, VERIFY CONDITION AND CONTENTS OF HIDDEN SPACE BEFORE STARTING FLAME-CUTTING OPERATIONS. MAINTAIN FIRE WATCH AND PORTABLE FIRE-SUPPRESSION DEVICES DURING FLAME-CUTTING OPERATIONS.
   - SHALL MAINTAIN ADEQUATE VENTILATION WHEN USING CUTTING TORCHES.
   - SHALL REMOVE DECAYED, TERMITE-INFESTED, VERMIN-INFESTED, OR OTHERWISE DANGEROUS OR UNSUITABLE MATERIALS AND PROMPTLY DISPOSE OF OFF-SITE.
   - SHALL LOCATE DEMOLITION EQUIPMENT AND REMOVE DEBRIS AND MATERIALS SO AS NOT TO IMPOSE EXCESSIVE LOADS ON STRUCTURES TO REMAIN.
19. CLEAR THE SITE OF GRASS, WEED GROWTH, RUBBISH, DEBRIS, PAVEMENT, CONCRETE, INACTIVE OR ABANDONED FACILITIES (VERIFIED BY THE AGENCY), THAT ARE TO BE REMOVED FOR CONSTRUCTION OF THE SITE IMPROVEMENTS TO THE LIMITS AND DEPTHS SHOWN ON THE PLANS.
20. ABANDONED UNDERGROUND FACILITIES (VERIFIED BY THE AGENCY), ROOTS THREE INCHES IN DIAMETER AND LARGER, AND ROCKS AND BROKEN MASONRY LARGER THAN 4 INCHES IN ANY DIMENSION SHALL BE REMOVED TO A MINIMUM DEPTH OF 12" BELOW FINISH GRADE.
21. ALL DELETERIOUS MATERIALS WITHIN THE LIMITS OF THE WORK SHALL BE DISPOSED OF OFF-SITE BY THE CONTRACTOR, WHO SHALL MAKE ALL NECESSARY ARRANGEMENTS AND PAY ALL RELATED COSTS.
22. CONTRACTOR SHALL REMOVE DEMOLISHED MATERIALS FROM PROJECT SITE AND LEGALLY DISPOSE OF THEM AT THE CONTRACTOR'S EXPENSE IN AN EPA-APPROVED LANDFILL AND:
   - SHALL NOT ALLOW DEMOLISHED MATERIALS TO ACCUMULATE ON-SITE.
   - SHALL REMOVE AND TRANSPORT DEBRIS IN A MANNER THAT WILL PREVENT SPILLAGE ON ADJACENT SURFACES AND AREAS.
23. CONTRACTOR SHALL NOT BURN DEMOLISHED MATERIALS.
24. CONTRACTOR SHALL CLEAN ADJACENT STRUCTURES AND IMPROVEMENTS OF DUST, DIRT, AND DEBRIS CAUSED BY DEMOLITION OPERATIONS AND RETURN ADJACENT AREAS TO CONDITION EXISTING BEFORE DEMOLITION OPERATIONS BEGAN.

LEGEND

- LIMITS OF DEMOLITION
- PROTECT UTILITY LINE IN PLACE WITHIN DEMOLITION LIMITS
- PROTECT IN PLACE EXIST. TREE

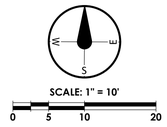
DEMOLITION NOTES

- A PROTECT EXISTING TREE IN PLACE - CONFIRM DISPOSITION PRIOR TO DEMO. WITH LANDSCAPE ARCHITECT AND CITY
- B SAWCUT AND REMOVE EXISTING CONCRETE SIDEWALK/RAMP (COMPLETE) AND DISPOSE
- C REMOVE EXISTING PLAY SURFACE TO SUBGRADE (COMPLETE) AND DISPOSE
- D REMOVE EXISTING PLAY EQUIPMENT AND FOUNDATIONS (COMPLETE) AND DISPOSE
- E PROTECT IN PLACE - POTHOLE AND LOCATE EXISTING UNDERGROUND UTILITY LINES TO PROTECT AS REQUIRED
- F REMOVE EXISTING CATCH BASIN (COMPLETE) AND DISPOSE
- G CAP EXISTING STORM DRAIN FOR NEW CONNECTION - SEE SHEET C-1.1
- H REMOVE EXISTING CONC. CURB/WALL (COMPLETE) AND DISPOSE
- I REMOVE EXISTING LANDSCAPE/IRRIGATION AND CAP AT LIMITS OF DEMOLITION AND DISPOSE - VERIFY EXTENT AND RECONNECTION WITH IRRIG. PLANS - CONTRACTOR TO COORDINATE WITH CITY LANDSCAPE MAINTENANCE
- J REMOVE EXISTING MISCELLANEOUS ITEM - CONTRACTOR TO COORDINATE SALVAGE

NOTE TO CONTRACTOR:

ALL UTILITIES SHOULD BE SHUT OFF AND CAPPED PER UTILITY COMPANY REQUIREMENTS.
CONTRACTOR SHALL COORDINATE WITH APPROPRIATE UTILITY COMPANY PRIOR TO COMMENCEMENT OF WORK.

NOTE TO CONTRACTOR:



INSTALL 6-FOOT CHAIN LINK FENCE WITH WINDSCREEN AND GATES, WHERE NECESSARY, ALONG THE PERIMETER OF THE SITE AS NEEDED. CONTRACTOR SHALL PROTECT THESE FENCES AND KEEP AREA FULLY SECURE DURING DEMOLITION. WINDSCREEN TO BE SECURELY FASTENED AT ALL CORNERS.

NOTE TO CONTRACTOR:

CONTRACTOR SHALL INSTALL TEMPORARY BMPs PRIOR TO DEMOLITION.

NOTE TO CONTRACTOR:

CONTRACTOR TO SCHEDULE A SITE WALK WITH THE CITY PRIOR TO START OF DEMOLITION TO VERIFY ALL ITEMS TO BE DEMOLISHED AND/OR SALVAGED.

BID ALTERNATE WATER / DRAINAGE
SCALE: 1" = 20'

EL TORO WATER DISTRICT

GENERAL NOTES

1. EL TORO WATER DISTRICT REQUIRES A PRECONSTRUCTION MEETING PRIOR TO COMMENCEMENT OF ANY WORK. ETWD SHALL BE NOTIFIED AT LEAST 48 HOURS (2 WORKING DAYS) PRIOR TO CONSTRUCTION: PHONE: (949) 837-0660.
2. ALL OTHER UTILITIES SHALL BE NOTIFIED 48 HOURS PRIOR TO EXCAVATION THROUGH UNDERGROUND SERVICE ALERT: 811. IN AREAS OF POSSIBLE CONFLICT OF WATER OR SEWER LINE AND OTHER UTILITIES, CONTRACTOR SHALL CAREFULLY HAND EXCAVATE, EXPOSE AND LOCATE THOSE FACILITIES.
3. CONTRACTOR/DEVELOPER SHALL SUBMIT PROPER INSURANCE DOCUMENTATION NAMING EL TORO WATER DISTRICT AS ADDITIONALLY INSURED PRIOR TO COMMENCEMENT OF WORK.
4. WATER AND SEWER SYSTEM MATERIALS AND CONSTRUCTION SHALL CONFORM TO THE STANDARDS AND SPECIFICATIONS OF THE DISTRICT.
5. CAPITAL FACILITIES FEES SHALL BE BASED ON ULTIMATE DEVELOPER / TENANT IMPROVEMENT.
6. ALL CONSTRUCTION PROCEDURES SHALL CONFORM TO ALL APPLICABLE ETWD AND OTHER REGULATORY SAFETY REQUIREMENTS.
7. CONTRACTOR SHALL SUBMIT TO THE ETWD INSPECTOR AN "AS BUILT" PRINT PRIOR TO RELEASE FOR OCCUPANCY. INFORMATION TO BE CALLED OUT FOR WATER ARE THE DISTANCES BETWEEN VALVES, TEES, BENDS, FIRE HYDRANTS, AND SERVICE LINE TAPS ALONG MAIN LINE, ALONG WITH ANY CHANGE IN ANGLE METER STOP LOCATION AT PROPERTY LINE. FOR SEWER, CALL OUT THE DISTANCES BETWEEN MANHOLES AND THEIR DEPTH TO TOP OF CONE, ALONG WITH ANY CHANGE IN STATIONING ON LATERALS AT THE MAIN LINE OR AT PROPERTY LINE.

WATER NOTES

8. CURB AND GUTTER MUST BE INSTALLED PRIOR TO INSTALLATION OF WATER MAINS.
9. WATER METERS SHALL BE STAKED BY DEVELOPER'S ENGINEER AND SHOWN ON WATER PLAN WITH DIMENSIONS TO NEAREST LOT PROPERTY LINE ALONG RIGHT OF WAY.
10. WATER METER BOXES SHALL BE A MINIMUM OF FIVE (5) FEET FROM ANY DRIVEWAY AND SHALL NOT BE INSTALLED IN SIDEWALKS OR OTHER CONCRETE AREAS WITHOUT PRIOR WRITTEN APPROVAL FROM THE DISTRICT.
11. ALL WATER SERVICE LINES SHALL BE CHISEL MARKED WITH A 'W' ON THE FACE OF THE CURB WHERE IT PASSES UNDER CURB.
12. THE DISTRICT MUST APPROVE ADDITIONS OR RESIZING OF ANY WATER METER BY REVISION TO THIS PLAN.
13. ALL VALVES SHALL BE CHISEL MARKED IN THE NEAREST CURB FACE WITH A 'V' AND FOOTAGE FROM CURB FACE TO VALVE. WHERE VALVE IS IN AN INTERSECTION, TWO CHISEL MARKS FROM DIFFERENT CURB FACES AT THE NEAREST B.C. SHALL BE WHERE VALVE IS IN MID-BLOCK, ONE CHISEL MARK AT A RIGHT ANGLE TO THE VALVE SHALL BE GIVEN.
14. ALL VALVES MUST BE OPERATED BY THE DISTRICT. FAILURE TO DO SO SHALL RESULT IN CLOSURE OF PROJECT.
15. HYDROSTATIC TESTS SHALL BE PERFORMED ON ALL WATER FACILITIES BY AN APPROVED INDEPENDENT TESTING COMPANY AND RESULTS SHALL BE SUBMITTED IN WRITING TO THE DISTRICT. MINIMUM TESTING REQUIREMENTS ARE 225 PSI FOR TWO HOURS, UNLESS OTHERWISE DIRECTED BY THE INSPECTOR. ALLOWABLE LEAKAGE WILL BE DETERMINED BY SIZE AND LENGTH OF MAIN AND DURATION OF TEST.
16. ALL NEW WATER FACITILITIES SHALL BE DISINFECTED IN ACCORDANCE WITH C651. CHLORINATED WATER SHALL BE RETAINED IN THE PIPELINE FOR 24 HOURS, AFTER WHICH SAMPLES SHALL CONFIRM A MINIMUM RESIDUAL OF 25 PPM.
17. PRIOR TO CONNECTION OF THE NEW WATER FACILITIES TO EXISTING WATER FACILITIES, THE NEW FACILITIES SHALL PASS BACTERIOLOGICAL TESTS. THE NUMBER AND LOCATION OF TESTS REQUIRED SHALL BE AT THE DISCRETION OF THE ETWD INSPECTOR. THE CONTRACTOR SHALL HAVE THE SAMPLES COLLECTED AND TESTS FOR COLIFORM BACTERIA AND HETEROTROPHIC PLATE COUNT PERFORMED BY AN INDEPENDENT CERTIFIED LABORATORY. THE LABORATORY SHALL SUBMIT A COPY OF EACH TEST TO THE DISTRICT. PASSING RESULTS ARE NEGATIVE COLIFORM AND PLATES COUNTS LESS THAN 500 COLONIES/ML.
18. ALL NEW WATER FACITILITIES SHALL BE FLUSHED AFTER SATISFACTORY TESTING RESULTS ARE OBTAINED.
19. FIRE HYDRANTS SHALL BE PER DISTRICT STANDARDS AND SPECIFICATIONS. THE 4" FIRE HYDRANT OPENING SHALL FACE THE STREET. FIRE HYDRANTS THAT ARE NOT IN SIDEWALK AREAS SHALL HAVE A MINIMUM OF 3' X 3' X 4" THICK PAD POURED AROUND IT. PUBLIC FIRE HYDRANTS SHALL BE PAINTED "SCHOOLBUS YELLOW" OR APPROVED EQUAL BEFORE RELEASE FOR OCCUPANCY. PRIVATE FIRE HYDRANTS SHALL BE PAINTED RED.
20. FOR NEW FIRE SERVICE CONNECTIONS, PRESSURE TEST THE NEW PIPELINE UP TO THE FIRST ABOVE GROUND RISER FLANGE, UNLESS OTHERWISE DIRECTED BY THE DISTRICT INSPECTOR.
21. ALL BELOW GROUND IRRIGATION PIPING AND APPURTENANCES SHALL COMPLY WITH A.W.W.A. GUIDELINES FOR DISTRIBUTION OF NON-POTABLE WATER.

SEWER NOTES

22. LOCATION FOR SEWER LATERALS (HOUSE CONNECTIONS) AND MANHOLES SHALL BE STAKED BY DEVELOPER'S ENGINEER AND SHOWN ON SEWER PLAN BY STATIONING. STATION (0+00) WILL BE ON THE LOWEST MANHOLE OF THE DEVELOPMENT.
23. SEWER LATERALS SHALL BE CHISEL MARKED WITH AN 'S' ON CURB FACE WHERE LATERAL CROSSES UNDER CURB.
24. SEWER MANHOLE LOCATIONS SHALL BE CHISEL MARKED ON THE NEAREST CURB FACE WITH A 'MH' AND FOOTAGE FROM CURB FACE TO CENTER OF MANHOLE. WHERE THE MANHOLE IS IN AN INTERSECTION, TWO CHISEL MARKS FROM DIFFERENT CURB FACES AT THE NEAREST B.C. SHALL BE GIVEN. WHERE MANHOLE IS IN MID-BLOCK, ONE CHISEL MARK SHALL BE GIVEN AT A RIGHT ANGLE TO THE MANHOLE.
25. SEWER PIPE BEDDING SHALL BE CRUSHED ROCK UNLESS OTHERWISE SPECIFIED.
26. TESTING OF FACILITIES SHALL BE IN ACCORDANCE WITH ETWD STANDARDS AND SPECIFICATIONS TO INCLUDE INSPECTION BY A T.V. CAMERA SPECIFICALLY DESIGNED FOR SEWER INSPECTION.
27. GREASE INTERCEPTORS OR CONTROL DEVICES MAY BE REQUIRED FOR FOOD SERVICE ESTABLISHMENTS (FSE) WITHIN THE DISTRICT SERVICE AREA, AS DETERMINED BY THE FOG CONTROL PROGRAM MANAGER.
28. MANHOLES OR SAMPLING POINTS MAY BE REQUIRED FOR NEW COMMERCIAL CONNECTIONS, AS DETERMINED BY THE DISTRICT.
29. INDUSTRIAL WASTE OR FSE FOG APPLICATION – WHICHEVER IS APPLICABLE - MUST BE SUBMITTED AND APPROVED BY THE DISTRICT WITH A SITE INSPECTION PRIOR TO RELEASE FOR OCCUPANCY.

APPROVED: EL TORO WATER DISTRICT

SHEET
C-2.1

© 2025 RJM Design Group, Inc. All rights reserved.
THIS DOCUMENT IS THE PROPERTY OF RJM DESIGN GROUP, INC., AND NO PART THEREOF SHALL BE USED, REUSED, OR MODIFIED WITHOUT THE WRITTEN CONSENT OF RJM DESIGN GROUP, INC.

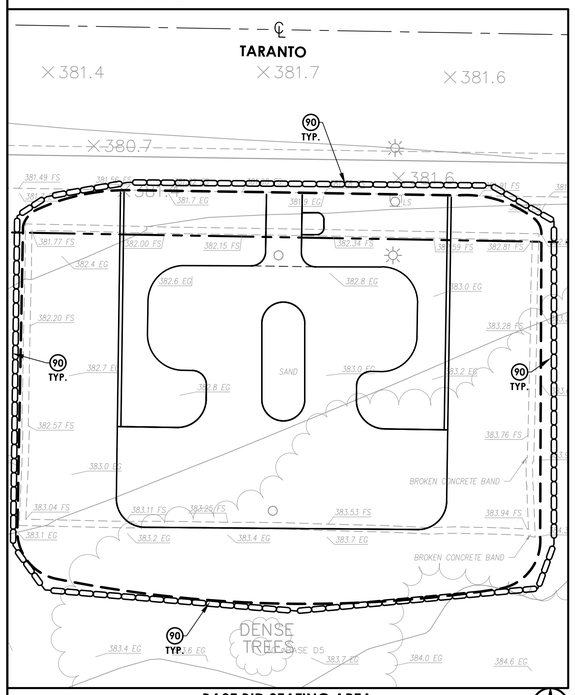
GRAVELBAGS:

1. GENERAL: GRAVELBAG SHALL INCLUDE PROVIDING ALL LABOR, MATERIALS, AND EQUIPMENT TO FABRICATE AND INSTALL GRAVELBAGS AS REQUIRED TO FACILITATE THE CONTROL OF EROSION.

2. LOCATION: GRAVELBAGS SHALL BE PLACED PER PLAN, AND IN LOCATIONS SPECIFIED BY THE CITY INSPECTOR, AND IN LOCATIONS DEEMED NECESSARY BY THE CONTRACTOR.

3. FABRICATION: GRAVELBAGS SHALL BE FABRICATED USING FACTORY SEWN OR SEALED BAGS OF WOVEN POLYPROPYLENE, TREATED TO RESIST DEGRADATION BY ULTRAVIOLET LIGHT AND HAVING SUFFICIENT RESISTANCE TO TEARING TO ALLOW RELOCATION OF BAGS WITHIN SIX MONTHS OF INITIAL PLACEMENT WITH A LOSS OF NOT MORE THAN FIVE PERCENT OF THE BAGS.

   THE BAGS SHALL BE FILLED WITH SUBROUNDED TO ROUNDED GRAVEL LESS THAN 3/4-INCH IN DIAMETER, WITH LESS THAN FIVE PERCENT OF MATERIAL PASSING A NO. 30 SIEVE. THE FILLED BAGS SHALL HAVE THE OPEN ENDS SECURELY FASTENED PRIOR TO DELIVERY TO THE SITE.



4. INSTALLATION: GRAVELBAGS SHALL BE INSTALLED IN A SIDE BY SIDE MANNER TO ENTRAP SILT AND MUD, AND TO DIVERT THE FLOW OF WATER. NOTWITHSTANDING THE OTHER REQUIREMENTS OF THIS SPECIFICATION, FAILURE OF THE BAGS TO PERFORM THIS FUNCTION SHALL BE REASON TO REJECT THEIR INSTALLATION.

   GRAVELBAGS SHALL BE INSTALLED WITH THE WIDEST FACE AGAINST THE GROUND SURFACE OR THE UNDERLYING COURSE OF BAGS, AND PRESSED IN PLACE TO CONFORM TO THE UNDERLYING SURFACE. THE BAGS SHALL BE PLACED WITH THE TIED ENDS IN THE "UPHILL" OR "UPSTREAM" DIRECTION, BEGINNING AT THE LOWEST OR MOST DOWNSTREAM BAG, TIED ENDS WILL BE TUCKED UNDER BAG. SUBSEQUENT BAGS WITHIN ONE COURSE OF BAGS SHALL BE PLACED SO AS TO REST UPON THE TIED END OF THE PREVIOUSLY PLACED BAG, WITH NOT LESS THAN 10 PERCENT OF THE BAG IN CONTACT WITH THE PREVIOUS BAG, AND NOT MORE THAN 20 PERCENT IN CONTACT.

   SUBSEQUENT COURSES OF BAGS SHALL BE PLACED AS DESCRIBED PREVIOUSLY, WITH THE MID-POINT OF THE BAGS STRADDLING THE JOINTS OF BAGS IN THE UNDERLYING ROW.

   CONSTRUCTION OF A GRAVELBAG BERM PERPENDICULAR TO THE DIRECTION OF FLOW SHALL INCORPORATE BAGS PLACED IN A "PYRAMID" CONFIGURATION, WITH ALL INDIVIDUAL BAGS ORIENTED PERPENDICULAR TO THE DIRECTION OF FLOW. THE BERM SHALL BE CONSTRUCTED WITH A SPECIFIED NUMBER OF ROWS AT THE BOTTOM (IN CONTACT WITH THE GROUND), WITH SUCCESSIVELY FEWER ROWS IN EACH OVERLYING COURSE. THE UPSTREAM AND DOWNSTREAM FACES OF THE BERM SHALL BE NO STEEPER THAN 1 1/2 FEET HORIZONTAL TO 1 VERTICAL.

   DAMAGE WHICH COULD FORESEEBLY BE PREVENTED BY PROPER GRAVELBAG INSTALLATION SHALL BE THE CONTRACTOR'S RESPONSIBILITY.

BASE BID TOT LOT
SCALE: 1" = 10'

BID ALTERNATE TOT LOT
SCALE: 1" = 10'

NPDES NOTES:

1. IN THE CASE OF EMERGENCY, CALL _____
   AT WORK PHONE # _____ TO BE COMPLETED BY CONTRACTOR
   OR HOME PHONE # _____
2. SEDIMENT FROM AREAS DISTURBED BY CONSTRUCTION SHALL BE RETAINED ON SITE USING STRUCTURAL CONTROLS TO THE MAXIMUM EXTENT PRACTICABLE.
3. STOCKPILES OF SOIL SHALL BE PROPERLY CONTAINED TO MINIMIZE SEDIMENT TRANSPORT FROM THE SITE TO STREETS, DRAINAGE FACILITIES OR ADJACENT PROPERTIES VIA RUNOFF, VEHICLE TACKING, OR WIND.
4. APPROPRIATE BMP'S FOR CONSTRUCTION-RELATED MATERIALS, WASTES, SPILLS SHALL BE IMPLEMENTED TO MINIMIZE TRANSPORT FROM THE SITE TO STREETS, DRAINAGE FACILITIES, OR ADJOINING PROPERTIES BY WIND OR RUNOFF.
5. RUNOFF FROM EQUIPMENT AND VEHICLE WASHING SHALL BE CONTAINED AT CONSTRUCTION SITES UNLESS TREATED TO REDUCE OR REMOVE SEDIMENT AND OTHER POLLUTANTS.
6. ALL CONSTRUCTION CONTRACTOR AND SUBCONTRACTOR PERSONNEL ARE TO BE MADE AWARE OF THE REQUIRED BEST MANAGEMENT PRACTICES AND GOOD HOUSEKEEPING MEASURES FOR THE PROJECT SITE AND ANY ASSOCIATED CONSTRUCTION STAGING AREAS.
7. AT THE END OF EACH DAY OF CONSTRUCTION ACTIVITY ALL CONSTRUCTION DEBRIS AND WASTE MATERIALS SHALL BE COLLECTED AND PROPERLY DISPOSED IN TRASH OR RECYCLE BINS.
8. CONSTRUCTION SITES SHALL BE MAINTAINED IN SUCH A CONDITION THAT AN ANTICIPATED STORM DOES NOT CARRY WASTES OR POLLUTANTS OFF THE SITE. DISCHARGES OF MATERIAL OTHER THAN STORMWATER ONLY WHEN NECESSARY FOR PERFORMANCE AND COMPLETION OF CONSTRUCTION PRACTICES AND WHERE THEY DO NOT: CAUSE OR CONTRIBUTE TO A VIOLATION OF ANY WATER QUALITY STANDARD; CAUSE OR THREATEN TO CAUSE POLLUTION, CONTAMINATION, OR NUISANCE; OR CONTAIN A HAZARDOUS SUBSTANCE IN A QUANTITY REPORTABLE UNDER FEDERAL REGULATIONS 40 CFR PARTS 117 AND 302.
9. POTENTIAL POLLUTANTS INCLUDE BUT ARE NOT LIMITED TO: SOLID OR LIQUID CHEMICAL SPILLS; WASTES FROM PAINTS, STAINS, SEALANTS, GLUES, LIMES, PESTICIDES, HERBICIDES, WOOD PRESERVATIVES AND SOLVENTS; ASBESTOS FIBERS, PAINT FLAKES OR STUCCO FRAGMENTS; FUELS, OILS, LUBRICANTS, AND HYDRAULIC, RADIATOR OR BATTERY FLUIDS; FERTILIZERS, VEHICLE/EQUIPMENT WASH WATER AND CONCRETE WASH WATER; CONCRETE, DETERGENT OR FLOATABLE WASTES; WASTES FROM ANY ENGINE/EQUIPMENT STEAM CLEANING OR CHEMICAL DEGREASING AND SUPER CHLORINATED POTABLE WATER LINE FLUSHING. DURING CONSTRUCTION, PERMITTEE SHALL DISPOSE OF SUCH MATERIALS IN A SPECIFIED AND CONTROLLED TEMPORARY AREA ON-SITE, PHYSICALLY SEPARATED FROM POTENTIAL STORMWATER RUNOFF, WITH ULTIMATE DISPOSAL IN ACCORDANCE WITH LOCAL, STATE AND FEDERAL REQUIREMENTS.
10. DEWATERING OF CONTAMINATED GROUNDWATER, OR DISCHARGING CONTAMINATED SOILS VIA SURFACE EROSION IS PROHIBITED. DEWATERING OF NONCONTAMINATED GROUNDWATER REQUIRES A NATIONAL POLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT FROM THE RESPECTIVE STATE REGIONAL WATER QUALITY CONTROL BOARD.
11. GRADED AREAS ON THE PERMITTED AREA PERIMETER MUST DRAIN AWAY FROM THE FACE OF SLOPES AT THE CONCLUSION OF EACH WORKING DAY. DRAINAGE IS TO BE DIRECTED TOWARD DESILTING FACILITIES.
12. THE PERMITTEE AND CONTRACTOR SHALL BE RESPONSIBLE AND SHALL TAKE NECESSARY PRECAUTIONS TO PREVENT PUBLIC TRESPASS ONTO AREAS WHERE IMPOUNDED WATER CREATES A HAZARDOUS CONDITION.
13. THE PERMITTEE AND CONTRACTOR SHALL INSPECT THE EROSION CONTROL WORK AND INSURE THAT THE WORK IS IN ACCORDANCE WITH THE APPROVED PLANS.
14. THE PERMITTEE SHALL NOTIFY ALL GENERAL CONTRACTORS, SUBCONTRACTORS, MATERIAL SUPPLIERS, LESSEES, AND PROPERTY OWNERS: THAT DUMPING OF CHEMICALS INTO THE STORM DRAIN SYSTEM OR THE WATERSHED IS PROHIBITED. EQUIPMENT AND WORKERS FOR EMERGENCY WORK SHALL BE MADE AVAILABLE AT ALL TIMES DURING THE RAINY SEASON. NECESSARY MATERIALS SHALL BE AVAILABLE ON SITE AND STOCKPILED AT CONVENIENT LOCATIONS TO FACILITATE RAPID CONSTRUCTION OF TEMPORARY DEVICES WHEN RAIN IS IMMINENT.
15. ALL REMOVABLE EROSION PROTECTIVE DEVICES SHALL BE IN PLACE AT THE END OF EACH WORKING DAY WHEN THE 5-DAY RAIN PROBABILITY FORECAST EXCEEDS 40%.
16. SEDIMENTS FROM AREAS DISTURBED BY CONSTRUCTION SHALL BE RETAINED ON SITE USING AN EFFECTIVE COMBINATION OF EROSION AND SEDIMENT CONTROLS TO THE MAXIMUM EXTENT PRACTICABLE, AND STOCKPILES OF SOIL SHALL BE PROPERLY CONTAINED TO MINIMIZE SEDIMENT TRANSPORT FROM THE SITE TO STREETS, DRAINAGE FACILITIES OR ADJACENT PROPERTIES VIA RUNOFF, VEHICLE TRACKING, OR WIND.
17. APPROPRIATE BMPS FOR CONSTRUCTION-RELATED MATERIALS, WASTES, SPILLS OR RESIDUES SHALL BE IMPLEMENTED AND RETAINED ON SITE TO MINIMIZE TRANSPORT FROM THE SITE TO STREETS, DRAINAGE FACILITIES, OR ADJOINING PROPERTY BY WIND OR RUNOFF.

NOTE TO CONTRACTOR:

A. CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR PROVIDING COMPLETE, TIMELY AND ACCURATE FIELD LAYOUT OF THE PROPOSED SITE IMPROVEMENTS INCLUDING, BUT NOT NECESSARILY LIMITED TO, HORIZONTAL AND VERTICAL CONTROL AND DIMENSIONAL COORDINATION AS NECESSARY TO CONSTRUCT THE WORK IN ACCORDANCE WITH THE CONTRACT DOCUMENTS. THIS SURVEY WORK SHALL BE PERFORMED BY A LICENSED LAND SURVEYOR AND SHALL PROVIDE FOR THE SURVEY AND STAGING OF ALL CONSTRUCTION ELEMENTS INCLUDING BUT NOT LIMITED TO BUILDING LOCATIONS, PAVING EDGES/ALIGNMENT FENCING, WALLS, LIGHT FIXTURES, SIGNS, MOW CURBS, SEATING, SHADE STRUCTURES, PLAY FIELDS AND APPURTENANCES,, CURB AND GUTTER ALIGNMENTS, CATCH BASINS, DRAINS, ETC.

B. AN AUTOCAD-COMPATIBLE .DWG FILE OF THE PROPOSED IMPROVEMENTS SHALL BE PROVIDED TO THE CONTRACTOR PRIOR TO THE START OF CONSTRUCTION FOR HIS USE IN PREPARING THE NECESSARY FIELD SURVEYING / LAYOUT OF PROPOSED IMPROVEMENTS. THE USE OF THIS DIGITAL FILE SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR AND IS INTENDED TO ASSIST THE SURVEYOR IN THE LAYOUT OF THE PROPOSED IMPROVEMENTS.

THESE ELECTRONIC FILES ARE NOT CONSTRUCTION DOCUMENTS. DIFFERENCES MAY EXIST BETWEEN THESE ELECTRONIC FILES AND CORRESPONDING HARD COPY CONSTRUCTION DOCUMENTS ISSUED FOR PUBLIC BID. IN THE EVENT THAT A CONFLICT ARISES BETWEEN THE SIGNED OR SEALED HARD COPY CONSTRUCTION DOCUMENTS AND THE ELECTRONIC FILES, THE SIGNED OR SEALED HARD COPY CONSTRUCTION DOCUMENTS SHALL GOVERN. THE CONTRACTOR IS RESPONSIBLE FOR DETERMINING IF ANY CONFLICT EXISTS AND SHALL BRING ANY DISCREPANCIES TO THE PROJECT LANDSCAPE ARCHITECT'S ATTENTION PRIOR TO ANY FIELD LAYOUT. BY THE CONTRACTOR'S USE OF THESE ELECTRONIC FILES, THEY ARE NOT RELIEVED OF THEIR DUTY TO FULLY COMPLY WITH THE CONTRACT DOCUMENTS, INCLUDING, AND WITHOUT LIMITATION, THE NEED TO CHECK, CONFIRM, AND COORDINATE ALL DIMENSIONS AND DETAILS, TAKE FIELD MEASUREMENTS, VERIFY FIELD CONDITIONS, AND COORDINATE THE WORK WITH THAT OF OTHER CONTRACTORS FOR THE PROJECT.

THE DIGITAL INFORMATION PROVIDED BY civTEC SHALL NOT BE USED FOR ANY PURPOSE OTHER THAN FOR THE PROJECT DESCRIBED ABOVE AND SHALL NOT BE RELEASED TO ANY OTHER PARTY WITHOUT THE WRITTEN CONSENT OF civTEC. THE INFORMATION CONTAINED ON THE ELECTRONIC MEDIA IS AN INSTRUMENT OF PROFESSIONAL SERVICES AND SHALL REMAIN THE PROPERTY OF civTEC.

GENERAL NOTES

1. CONTRACTOR SHALL REFERENCE ARCHITECTURAL AND/OR LANDSCAPE PLANS FOR ADDITIONAL HARDSCAPE REQUIREMENTS AND DETAILS.
2. CONTRACTOR SHALL REMOVE AND DISPOSE OF EXISTING LANDSCAPE AND HARDSCAPE IMPROVEMENTS AS NECESSARY TO CONSTRUCT IMPROVEMENTS SHOWN HEREON.
3. ALL SIDEWALKS, CURB RETURNS, AND ACCESS POINTS SHALL MEET TITLE 24 AND AMERICANS WITH DISABILITIES ACT (ADA) REQUIREMENTS.

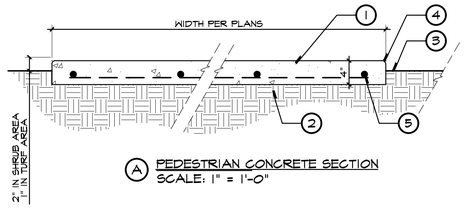
LEGEND:



1. 1/4" RADIUS EDGE.
2. PAVING FINISH SURFACE PER PLAN.
3. 1/4" **DECK-O-FOAM** EXPANSION MATERIAL BY; **H.R. MEADOWS** OR APPROVED EQUAL. INSTALL PER MANUFACTURER'S SPECIFICATIONS. (909) 469-2606.
4. "GUN-GRADE" TWO-PART POLYURETHANE SEALER BY: **PECORA CORPORATION** (800) 523-6688, OR APPROVED EQUAL.
5. **SPEED-DOWEL** AT 18" O.C. AT ALL JOINTS W/#4 REBAR, MODEL NO. PSD09/#4TX SPEED DOWEL SLEEVE WITH PSD/#4BX BASE AS PROVIDED BY **GREENSTREAK GROUP** OR APPROVED EQUAL. (800) 325-4504.
6. EXISTING CONCRETE PAVING.
7. SAWCUT JOINT. SINGLE BLADE WITH 1/16" BEVEL AND CONTINUOUS CRACK CHASER.

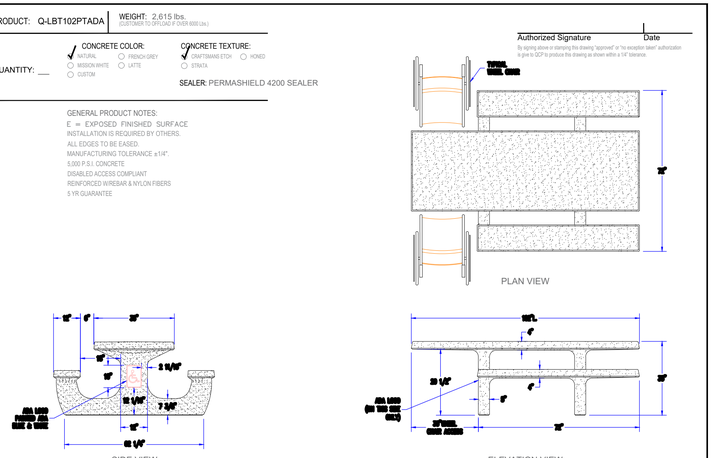
✳ 3/4" IF PAVING LESS THAN 4" THICK. 1" IF PAVING 4" THICK OR GREATER.

NOTES:

A. LOCATE JOINTS AS INDICATED ON PLAN.
B. SEALANT COLOR TO MATCH ADJACENT PAVING.
C. ALL EXPANSION JOINT SEALANT TO BE SEEDED WITH SILICA SAND.
D. PROVIDE DOUBLE BLADE SAWCUT JOINTS AT POSTS AND CENTERED BETWEEN POSTS, TYP. ALONG ALL FENCING. SEE PLANS.
E. EXPANSION JOINTS TO ONLY OCCUR WHERE PAVING MEETS VERTICAL CONSTRUCTION ELEMENT, (EX. BOGGE CURB).

1 CONCRETE JOINTS

A PEDESTRIAN CONCRETE SECTION
SCALE: 1" = 1'-0"



LEGEND:

1. CONCRETE PAVING - REFER TO CONSTRUCTION PLAN FOR COLOR AND FINISH.
2. 90% COMPACTED, MOISTURE-CONDITIONED SUBGRADE PER GEOTECH REPORT.
3. FINISH GRADE.
4. ½" TOOLED RADIUS.
5. #3 REBAR SPACED 18" ON CENTER PLACED AT MID-DEPTH OF CONCRETE.

NOTES:

A. PROVIDE FINISH SAMPLE PER PLANS AND SPECIFICATIONS.
B. ALL CONCRETE TO HAVE MINIMUM COMPRESSION STRENGTH OF 3,250 PSI, TYPE V PCC.
C. PROVIDE 1/4" FALL PER 12" RUN ON ALL PAVING - MINIMUM. SEE CIVIL PLANS.
D. SEE DETAIL 1, THIS SHEET FOR CONCRETE JOINTS.

1 CONCRETE BENCH

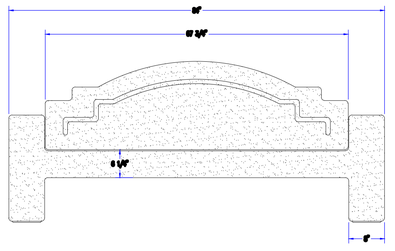
PRODUCT: ##########

WEIGHT: 1,918 lbs
(CUSTOMER TO OFFLOAD IF OVER 6000 Lbs.)

QUANTITY: ____

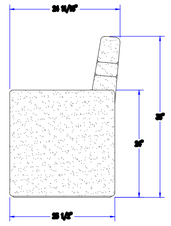
CONCRETE COLOR:
- ☑ QUAIL HILL RED
- ○ NATURAL
- ○ MISSION WHITE
- ○ LATTE
- ○ HARVEST
- ○ FRENCH GREY
- ○ BUNGALOW
- ○ ADOBE TAUPE
- ○ CUSTOM COLOR

CONCRETE TEXTURE:
- ☑ CRAFTSMANS ETCH
- ○ STRATA



SEALER: STANDARD SEALER

GENERAL PRODUCT NOTES:
E = EXPOSED FINISHED SURFACE
INSTALLATION IS REQUIRED BY OTHERS.
ALL EDGES TO BE EASED.
MANUFACTURING TOLERANCE ±1/4".



Authorized Signature ____ Date ____

By signing above or stamping this drawing "approved" or "no exception taken" authorization is give to QCP to produce this drawing as shown within a 1/4" tolerance.

NOTE:

1. INSTALL RESILIENT SURFACING PER DETAIL 4 & 5, THIS SHEET. RESILIENT SURFACING SHALL BE **SPECTRATURF** OR APPROVED EQUAL AND INSTALLED BY CERTIFIED INSTALLER. INSTALLER SHALL SUBMIT 12"X12" SAMPLE OF EACH COLOR TO THE CITY PRIOR TO INSTALLATION. CONTACT: **SPECTRATURF, (800)875-5788**. SEE SPECIFICATIONS.
2. INSTALL PLAYGROUND EQUIPMENT BY: **LANDSCAPE STRUCTURES.** TO BE PROVIDED BY: **COAST RECREATION** OR APPROVED EQUAL. CONTACT: ALLISON HEPBURN (714) 619-0100. DRAWING NUMBER: **1194519-03-01**.

NOTES:

A. SEE CIVIL PLANS FOR GRADING AND DRAINAGE PLAN.
B. LANDSCAPE STRUCTURES EQUIPMENT SHALL BE INSTALLED BY A CERTIFIED "NATIONAL PLAYGROUND SAFETY INSTITUTE" INSTALLER APPROVED BY THE MANUFACTURER AND THE CITY. CONTRACTOR SHALL HAVE A LICENSED SURVEYOR DIGITIZE THE ENTIRE TOT LOT AREA, INCLUDING PERIMETER EDGE, RESILIENT SURFACING AREA, PLAY EQUIPMENT AND PLAY EQUIPMENT FALL ZONES). THIS LAYOUT SHALL BE REVIEWED AND APPROVED BY PLAY EQUIPMENT MANUFACTURER'S REPRESENTATIVE AND CITY'S AUTHORIZED REPRESENTATIVE PRIOR TO PLACEMENT OF CONCRETE.
C. PRIOR TO INSTALLATION, FIELD STAKE LAYOUT OF EACH PLAY STRUCTURE SHALL BE REVIEWED AND APPROVED BY MANUFACTURER'S REPRESENTATIVE.
D. CONTRACTOR SHALL VERIFY LOCATION OF SUB-DRAIN IN RELATION TO PLAY STRUCTURE FOOTINGS TO INSURE ADEQUATE CLEARANCE AND DRAINAGE.
E. SUB-DRAIN SYSTEM CATCH BASIN AND DRAIN PIPE SIZING/SPECIFICATIONS PER CIVIL ENGINEER'S GRADING AND DRAINAGE PLANS.
F. RESILIENT SURFACING TO BE INSTALLED BY A CERTIFIED INSTALLER. INSTALLER SHALL SUBMIT A 12X12 SAMPLE OF EACH COLOR TO CITY REPRESENTATIVE FOR APPROVAL PRIOR TO INSTALLATION.
G. CONTRACTOR SHALL OBTAIN CERTIFICATION FROM PLAYGROUND EQUIPMENT MANUFACTURER THAT ALL CURRENT A.D.A. AND CONSUMER PRODUCT SAFETY COMMISSION STANDARDS HAVE BEEN FULLY COMPLIED WITH.
H. A COMPLETE PLAYGROUND AUDIT SHALL BE PERFORMED BY A NPSI CERTIFIED INSPECTOR AND GIVEN TO THE CITY'S AUTHORIZED REPRESENTATIVE FOR REVIEW AND APPROVAL PRIOR TO FINAL ACCEPTANCE OF THE PLAYGROUND.
I. FURNISH AND INSTALL ALL PLAY EQUIPMENT PER MANUFACTURER'S SPECIFICATIONS.
J. PRIOR TO FORM WORK AND CONCRETE WORK, CONTRACTOR SHALL LAY OUT PLAY AREA EDGE AND PLAY EQUIPMENT TO ENSURE ALL REQUIREMENTS ARE MET PER A.D.A. AND CSPC GUIDELINES AND STANDARDS.

GENERAL IRRIGATION NOTES

1. ALL LOCAL MUNICIPAL AND STATE LAWS, RULES AND REGULATIONS GOVERNING OR RELATING TO ANY PORTION OF THIS WORK ARE HEREBY INCORPORATED INTO AND MADE A PART OF THESE SPECIFICATIONS AND THEIR PROVISIONS SHALL BE CARRIED OUT BY THE CONTRACTOR.
2. THE CONTRACTOR SHALL OBTAIN ALL NECESSARY PERMITS REQUIRED TO PERFORM THE WORK INDICATED HEREIN BEFORE BEGINNING WORK.
3. THIS DESIGN IS DIAGRAMMATIC. ALL EQUIPMENT SHOWN IN PAVED AREAS IS FOR DESIGN CLARITY ONLY AND IS TO BE INSTALLED WITHIN PLANTING AREAS.
4. THE CONTRACTOR SHALL NOT WILLFULLY INSTALL ANY EQUIPMENT AS SHOWN ON THE PLANS WHEN IT IS OBVIOUS IN THE FIELD THAT UNKNOWN CONDITIONS EXIST THAT WERE NOT EVIDENT AT THE TIME THESE PLANS WERE PREPARED. ANY SUCH CONDITIONS SHALL BE BROUGHT TO THE ATTENTION OF THE OWNER'S REPRESENTATIVE PRIOR TO ANY WORK OR THE IRRIGATION CONTRACTOR SHALL ASSUME ALL RESPONSIBILITY FOR ANY FIELD CHANGES DEEMED NECESSARY BY THE OWNER.
5. INSTALL ALL EQUIPMENT AS SHOWN IN THE DETAILS AND SPECIFICATIONS. CONTRACTOR SHALL BE RESPONSIBLE TO COMPLY WITH LOCAL CITY, COUNTY AND STATE REQUIREMENTS FOR BOTH EQUIPMENT AND INSTALLATION.
6. CONTRACTOR IS TO PROVIDE AN ADDITIONAL PILOT WIRE FROM CONTROLLER ALONG ENTIRETY OF MAIN LINE TO THE LAST RCV ON EACH AND EVERY LEG OF MAIN LINE. LABEL SPARE WIRES AT BOTH ENDS.
7. ALL PIPE UNDER PAVED AREAS TO BE INSTALLED IN SLEEVING TWICE THE DIAMETER OF THE PIPE CARRIED. SEE LEGEND FOR TYPE. ALL WIRE UNDER PAVED AREAS TO BE INSTALLED IN A SCH. 40 SLEEVE THE SIZE REQUIRED TO EASILY PULL WIRE THROUGH. ALL SLEEVES TO BE INSTALLED WITH A MINIMUM DEPTH AS SHOWN ON THE SLEEVING DETAILS. SLEEVES TO EXTEND AT LEAST 12" PAST THE EDGE OF THE PAVING. ALL BELL AND GASKET PIPE IN SLEEVES MUST HAVE A JOINT RESTRAINT.
8. ALL QUICK COUPLER AND REMOTE CONTROL VALVES TO BE INSTALLED IN SHRUB OR GROUND COVER AREAS WHERE POSSIBLE. ALL QUICK COUPLER AND REMOTE CONTROL VALVES TO BE INSTALLED AS SHOWN ON THE INSTALLATION DETAILS. INSTALL ALL QUICK COUPLER AND REMOTE CONTROL VALVES WITHIN 18" OF HARDSCAPE.
9. CONTRACTOR SHALL STAKE ALL VALVE AND CONTROLLER LOCATION PRIOR TO INSTALLATION. VALVE AND CONTROLLER STAKE LOCATIONS SHALL BE REVIEWED BY THE LANDSCAPE ARCHITECT AND THE OWNER DURING THE TREE STAKING SITE REVIEW. ALL STAKE LOCATION SHALL BE APPROVED PRIOR TO INSTALLATION. FAILURE TO COMPLY WITH THE INSTRUCTIONS ABOVE, MAY RESULT IN THE CONTRACTOR'S RESPONSIBILITY TO REMOVE AND RE-INSTALL EQUIPMENT.

#3 turf rotary/rotor				1	8,442	8,442.00	252,280.73
				Totals	8,802	8,802.00	263,038.97
						ETWU Total	271,432.31
						Maximum Allowed Water Allowance (MAWA)[e]	275,478.18

**** Refer to legend for Hydrozone description.***

[d] ***ETWU (Annual Gallons Required) =*** *Eto x 0.62 x ETAF x Area*
where 0.62 is a conversion factor that converts acre-inches per acre per year to gallons per square foot per year.

[e] ***MAWA (Annual Gallons Allowed) =*** *(Eto) (0.62) [(ETAF x LA) + ((1-ETAF) x SLA)]*
where 0.62 is a conversion factor that converts acre-inches per acre per year to gallons per square foot per year, LA is the total landscape area in square feet, SLA is the total special landscape area in square feet,
and ETAF is .55 for residential areas and 0.45 for non-residential areas.

ETAF Calculations

Regular Landscape Areas

Total ETAF x Area	281
Total Area	925
Average ETAF	**0.30**

Average ETAF for Regular Landscape Areas must be 0.55 or below for residential areas, and 0.45 or below for non-residential areas.

All Landscape Areas Including SLA

Total ETAF x Area	9,082.86
Total Area	9,727
Sitewide ETAF	**0.93**

EXISTING IRRIGATION NOTES:

NOTE 1:
CONTRACTOR SHALL BE RESPONSIBLE FOR ALL EXISTING IRRIGATION EQUIPMENT DAMAGED DURING CONSTRUCTION AND IF DAMAGED, SHALL REPLACE WITH SAME MANUFACTURER AND MODEL.

NOTE 2:
ANY EXISTING IRRIGATION CONTROL VALVES CONNECTED TO EXISTING CONTROLLER SHALL BE RECONNECTED TO EXISTING CONTROLLER. ANY NEW IRRIGATION CONTROL VALVES SHALL BE CONNECTED TO EXISTING CONTROLLER. CONFIRM PROPER CONTROLLER OPERATION AND INSTALLATION WITH OWNER'S AUTHORIZED REPRESENTATIVE PRIOR TO STARTING WORK AND UPON COMPLETION OF WORK.

NOTE 3:
CONTRACTOR SHALL BE RESPONSIBLE FOR THE COMPLETE REMOVAL AND DISPOSAL OF ALL EXISTING IRRIGATION EQUIPMENT AFFECTED BY THE NEW CONSTRUCTION IMPROVEMENTS, IF NECESSARY. CONTRACTOR SHALL VERIFY ALL EQUIPMENT TO BE REMOVED AND DISPOSED OF IN FIELD PRIOR TO BIDDING WORK AND PRIOR TO STARTING WORK.

NOTE 4:
CONTRACTOR SHALL FIELD VERIFY DEPTH AND LOCATION OF ALL EXISTING UTILITIES PRIOR TO BIDDING WORK AND AGAIN PRIOR TO STARTING WORK. VERIFICATION SHALL BE DOCUMENTED AND DELIVERED TO OWNER'S REPRESENTATIVE.

NOTE 5:
CONTRACTOR SHALL BE RESPONSIBLE FOR THE PLACEMENT OF ALL SCH 40 PVC SLEEVING UNDER PAVING, WALLS AND CURBS AT NO LESS THAN 24" BELOW GRADE AND NO LESS THAN 2X DIAMETER OF IRRIGATION PIPE IN AREAS WHERE PIPE CROSSING WILL OCCUR. WHEN PIPE SIZE IS NOT AVAILABLE USE 6" SLEEVING MATERIAL. CONFIRM CROSSINGS WITH OWNER'S REPRESENTATIVE PRIOR TO PAVING AND HARDSCAPE CONSTRUCTION.

NOTE 6:
EXISTING IRRIGATION IN THIS AREA SHALL BE PROTECTED IN PLACE FOR CONTINUED USE. CONTRACTOR SHALL VERIFY THE EXTENT OF THE EXISTING SYSTEM AND MAKE ADJUSTMENTS TO CAP OFF OR MODIFY THE EXITING SYSTEM TO MEET THE NEW LANDSCAPE CONDITION IF NECESSARY.

IRRIGATION NOTES:

NOTE A:
MAINLINE AND RELATED EQUIPMENT SHOWN WITHIN PAVING FOR CLARITY ONLY, ACTUAL MAINLINE AND RELATED EQUIPMENT LOCATION TO BE WITHIN PLANTERS AND A MINIMUM OF 18" OFF ADJACENT HARDSCAPE AND OTHER OBSTACLES TYP.

NOTE B:
BUBBLERS AND LATERAL LINES ARE SHOWN WITHIN PAVING FOR CLARITY ONLY, ACTUAL LOCATION TO BE WITHIN PLANTER. BUBBLERS SHALL BE ALIGNED WITH TREES AND AS DIRECTED BY OWNER'S AUTHORIZED REPRESENTATIVE. CONFIRM ALL LAYOUT IN FIELD WITH OWNER'S AUTHORIZED REPRESENTATIVE PRIOR TO STARTING WORK.

NOTE C:
I HAVE COMPLIED WITH THE CRITERIA OF THE IRRIGATION GUIDELINES AND APPLIED THEM ACCORDINGLY FOR THE EFFICIENT USE OF WATER IN THE IRRIGATION DESIGN PLAN

NOTE D:
CONTRACTOR SHALL ADJUST ALL OVERHEAD IRRIGATION (ROTARY, BUBBLERS, AND SPRAYS), TO PREVENT OVER SPRAY ON TO HARDSCAPE AND STRUCTURES.

NOTE E:
REFER TO SHEETS L-2.00 FOR IRRIGATION LEGEND, L2.03 FOR IRRIGATION DETAILS.

LEGEND:

1. SHRUB - CENTER IN PIT.
2. 2" DEEP WATERING BASIN.
3. FINISH GRADE.
4. AMMENDED BACKFILL - REFER TO SPECIFICATIONS.
5. PLANTING TABLETS - REFER TO SPECIFICATIONS FOR QUANTITY AND PLACEMENT.
6. SCARIFY SIDES AND BOTTOM OF PLANTING PIT.
7. NATIVE UNDISTURBED SOIL.
8. SET TOP OF ROOTBALL 2" ABOVE SURROUNDING GRADE AND SLOPE FOR DRAINAGE.

2 SHRUB PLANTING

LEGEND:

1. GROUNDCOVER FROM FLAT, CUTTING, LINER, OR PLANTING CONTAINER.
2. 3" LAYER OF MULCH (DEPTH PER SPECIFICATIONS).
3. PLANTING BED PER SPECIFICATIONS.

NOTES

A. PLANTING AREA TO RECEIVE FLATS, CUTTINGS, LINERS AND PLUGGS SHALL BE MULCHED **BEFORE** PLANTING OPERATION.

B. PLANTING AREA TO RECEIVE CONTAINER PLANTS SHALL BE MULCHED **AFTER** PLANTING OPERATION.

3 GROUNDCOVER / SHRUB SPACING

PLANTING NOTES

A. ALL TREES SHALL HAVE MATCHING FORM.

B. ALL LANDSCAPED AREAS TO RECEIVE AUTOMATED IRRIGATION.

C. REFER TO PLANTING SPECIFICATIONS FOR SOIL PREPARATION, FERTILIZATION, MULCHING, AND OTHER ADDITIONAL PLANTING INFORMATION.

D. ALL PLANT MATERIAL SHALL BE APPROVED BY THE CITY'S REPRESENTATIVE PRIOR TO INSTALLATION.

E. FINAL LOCATION OF ALL PLANT MATERIALS SHALL BE SUBJECT TO THE APPROVAL OF THE CITY INSPECTOR.

F. CONTRACTOR SHALL NOTIFY CITY'S REPRESENTATIVE 48 HOURS PRIOR TO COMMENCEMENT OF WORK TO COORDINATE PROJECT INSPECTION SCHEDULES.

G. SEE DETAILS AND SPECIFICATIONS FOR STAKING METHOD, PLANT PIT DIMENSIONS AND BACKFILL REQUIREMENTS.

H. IF CONFLICTS ARISE BETWEEN SIZE OF AREAS AND PLANS, CONTRACTOR TO CONTACT CITY'S REPRESENTATIVE FOR RESOLUTION. FAILURE TO MAKE SUCH CONFLICTS KNOWN TO CITY'S REPRESENTATIVE WILL RESULT IN CONTRACTOR'S LIABILITY TO RELOCATE THE MATERIALS.

I. CONTRACTOR SHALL SUBMIT FOR APPROVAL PHOTOS OF ALL PLANT MATERIAL. PHOTOS SHOULD INCLUDE A PERSON FOR SCALE PURPOSES. ALL BOX TREES SHALL BE OF QUALITY AS DETERMINED BY THE CITY'S REPRESENTATIVE. MATERIAL FOUND UNSUITABLE FOR THE DESIGN OR SPECIFICATION INTENT WILL BE REJECTED.

J. IT IS THE CONTRACTOR'S RESPONSIBILITY TO FURNISH PLANT MATERIALS FREE OF PESTS OR PLANT DISEASES. PRE-SELECTED OR 'TAGGED' MATERIAL MUST BE INSPECTED BY THE CONTRACTOR AND CERTIFIED PEST AND DISEASE FREE. IT IS THE CONTRACTOR'S OBLIGATION TO WARRANTY ALL PLANT MATERIALS PER THE SPECIFICATIONS.

K. CONTRACTOR SHALL BE RESPONSIBLE FOR MAKING HIMSELF FAMILIAR WITH ALL UNDERGROUND UTILITIES, PIPELINES AND STRUCTURES. CONTRACTOR SHALL TAKE SOLE RESPONSIBILITY FOR ANY COST INCURRED DUE TO DAMAGE OF SAID UTILITIES. CONTRACTOR SHOULD CALL UNDERGROUND SERVICE ALERT (2) FULL WORKING DAYS BEFORE COMMENCING ANY DIGGING. PHONE 811 FOR U.S.A.

PLANTING NOTES (CONT.)

L. CONTRACTOR SHALL NOT WILLFULLY PROCEED WITH CONSTRUCTION AS DESIGNED WHEN IT IS OBVIOUS THAT UNKNOWN OBSTRUCTIONS AND/OR GRADE DIFFERENCES EXIST THAT MAY NOT HAVE BEEN KNOWN DURING DESIGN. SUCH CONDITIONS SHALL BE IMMEDIATELY BROUGHT TO THE ATTENTION OF CITY'S REPRESENTATIVE. THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR ALL NECESSARY REVISIONS DUE TO FAILURE TO GIVE SUCH NOTIFICATION.

M. CONTRACTOR SHALL BE RESPONSIBLE FOR ANY COORDINATION WITH SUBCONTRACTORS AS REQUIRED TO ACCOMPLISH PLANTING OPERATIONS.

N. PLANT MATERIAL QUANTITIES ARE GIVEN FOR CONVENIENCE ONLY. PLANT SYMBOLS AND SPECIFIED SPACING SHALL TAKE PRECEDENCE. CONTRACTOR SHALL VERIFY PLANT MATERIAL QUANTITIES PER PLAN.

O. CONTRACTOR TO ASSURE POSITIVE DRAINAGE IN ALL PLANTING AREAS - 2% MINIMUM ALLOWED.

P. AFTER ROUGH GRADES HAVE BEEN ESTABLISHED IN PLANTING AREAS, CONTRACTOR SHALL HAVE SOIL SAMPLES TAKEN AT THE LOCATIONS INDICATED BY DESIGNATION (2 TOTAL). THESE SAMPLES SHALL BE TESTED BY SOIL AND PLANT LAB, OR APPROVED EQUAL (714)558-8333 FOR SOIL FERTILITY, AGRICULTURAL SUITABILITY TEST AND SOIL PREPARATION RECOMMENDATIONS. TWO SAMPLES SHALL BE TAKEN AT EACH LOCATION: (1) GROUND LEVEL TO 10" DEEP, (2) 24" TO 36" DEEP. EACH SAMPLE SHALL CONTAIN APPROXIMATELY 1 QUART OF SOIL AND BE LABELED PER LOCATION AND DEPTH. SUBMIT SOIL REPORT TO CITY'S REPRESENTATIVE PRIOR TO PLANTING.

Q. GROUND COVERS AND SHRUBS SHALL BE TRIANGULARLY SPACED, UNLESS OTHERWISE INDICATED.

R. ALL SOIL FOR LANDSCAPE PLANTING AREAS OR BERMS SHALL BE OBTAINED FROM ON-SITE EXCAVATIONS. SHOULD IMPORT SOIL BE NECESSARY, INDICATE SOURCE LOCATION. SOIL SHALL BE SANDY LOAM CONTAINING NO TOXIC CHEMICALS OR ELEMENTS WHICH MAY INHIBIT OR RETARD NORMAL PLANT GROWTH. SOIL TESTING RESULTS SHALL BE SUBMITTED AND APPROVED PRIOR TO SOIL IMPLEMENTATION.

S. ALL LANDSCAPED AREAS, EXCEPT TURF AREAS, SHALL BE MULCHED WITH A 3" DEEP LAYER OF MULCH PER SPECIFICATIONS, AT THE CONCLUSION OF PLANTING OPERATIONS.

PLANTING NOTES (CONT.)

T. AT EDGES OF PLANTING AREAS, THE CENTER LINE OF THE LAST ROW OF SHRUBS AND/OR GROUND COVER SHALL BE LOCATED NO FARTHER FROM OR CLOSER TO THE EDGE THAN ONE-HALF THE SPECIFIED ON-CENTER SPACING.

U. REMOVE ALL NURSERY STAKES IMMEDIATELY AFTER INSTALLATION.

V. ROOT BARRIER NOTE: ALL TREES PLANTED WITHIN 8' OF ANY HARDSCAPE ELEMENT (SIDEWALKS, WALLS, D.G., PAVERS, CURBS, ETC.) SHALL RECEIVE 24" DEEP ROOT BARRIER BY "**DEEPROOT CORP.**". (800) 458-7668. NUMBER OF PANELS PER TREE PER MANUFACTURER'S RECOMMENDATION. ROOT BARRIERS SHALL BE INSTALLED PER MANUFACTURERS RECOMMENDATIONS.

CITY OF LAGUNA HILLS
NOTICE INVITING BIDS FOR CONSTRUCTION OF

SAN REMO PARK REHABILITATION

NOTICE IS HEREBY GIVEN that sealed bids for the **San Remo Park Rehabilitation** ("Project") in the City of Laguna Hills will be received at the Office of the City Engineer of the 24035 El Toro Road, Laguna Hills, until **2:30 p.m. on Thursday, June 2, 2026**, at which time they will be publicly opened and read aloud.

PRE-BID MEETING: A pre-bid meeting will be held at the Project site on **Wednesday, May 20, 2026.**

The pre-bid meeting will be held at San Remo Park **at 10:30 a.m. on Wednesday, May 20, 2026. *Site Address: Taranto Drive and San Remo Drive, Laguna Hills, California 92653.*** The meeting is **not mandatory** but attendance is highly encouraged.

DESCRIPTION OF THE WORK: In general, the work is comprised of public works construction including play equipment and safety surfacing installation, site furnishing replacement and installation, park monument sign installation, concrete flatwork installation, landscape and irrigation installation and other miscellaneous improvements as shown on the plans and as required to complete the work.

AWARD OF CONTRACT: The City reserves the right after opening bids to reject any or all bids, to waive any informality (non-responsiveness) in a bid, or to make award to the lowest responsive, responsible bidder**,** and reject all other bids, as it may best serve the interest of the City. Within three (3) business days of bid opening, contractor must submit a revised bid bond with numerical dollar values, both in words and with digits of bid amount. Within five (5) working days after the date of the Notice of Apparent Low Bidder, the successful bidder will be required to submit required Contract Agreement and Insurance. Within ten (10) working days after the date of the Notice of Award, the successful bidder will be required to submit Bonds (Faithful Performance and Material and Labor), Construction Schedule, Traffic Control Plan, and Water Pollution Control Plan.

CONTRACTOR'S LICENSE CLASSIFICATION: The Contractor shall possess a valid **Class A Contractor's License**, or a combination of Class C Contractor's Licenses as necessary to perform the work, at the time of submitting bids, in accordance with provisions of Chapter 9, Division III of the California Business and Professions Code.

WAGE RATE REQUIREMENTS: The wage rates applicable to this Project are the State of California Department of Industrial Relations prevailing rates of per diem wages. In accordance with the provisions of Sections 1773.2 of the California Labor Code, copies of the general prevailing rate of per diem wages as determined by the State Director of Industrial Relations are available at City Hall, which shall be made available to any interested party upon request, or on the Internet at the State Department of Industrial Relations website (www.dir.ca.gov) under Statistics and Research. It shall be mandatory upon the Contractor to whom the contract is awarded and upon any subcontractor to pay not less than said specified rates to all workers employed by them in the execution of the contract. A copy of said rates shall be posted at each job site during the course of construction. The Contractor and all subcontractors shall comply with all provisions of the California Labor Code relating to prevailing wage rates, including Sections 1770–1781.

This Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. The Department of Industrial Relations shall monitor and enforce compliance with applicable prevailing wage requirements for the contract. The reporting requirements may be found at https://www.dir.ca.gov/Public-Works/Contractors.html. The Contractor is responsible for complying with all requirements of the Department of Industrial Relations, including filing electronic payroll reports.

A contractor or subcontractor will not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded.

RETAINAGE FROM PAYMENTS: The Contractor may elect to receive 100 percent of payments due under the Contract Documents from time to time, without retention of any portion of the payments by the City, by depositing securities of equivalent value with the City in accordance with the provisions of Section 22300 of the Public Contract Code. If the Contractor chooses not to exercise its rights under Public Contract Code Section 22300, the full five percent (5%) retention will be deducted from all payments. The final retention will be authorized for payment thirty-five (35) days after the date of recordation of the Notice of Completion, if no stop notices have been filed. The City may withhold from release of the final retention amounts authorized under Public Contracts Code Section 7107 and/or 125% of amounts identified in any Stop Notices received by the City.

OBTAINING OR INSPECTING CONTRACT DOCUMENTS: Contract Documents may be inspected without charge at the Public Works Department, City Hall, 24035 El Toro Road, Laguna Hills, California 92653. Contract Documents are available in portable document form (PDF) on the City's website https://lagunahillsca.gov/bids.aspx. It is the contractor's responsibility to ensure they are on the City's Plan Holder's List and they obtain any addendums or clarifications that are issued by the City on the City's website prior to submitting a bid. For any questions regarding acquisition of Contract Documents, contact Joe Ames at JAmes@lagunahillsca.gov.

Dated this 28th day of May 2026.

CITY OF LAGUNA HILLS

INSTRUCTIONS TO BIDDERS
FOR

SAN REMO PARK REHABILITATION

1. PROPOSAL FORMS

Bids shall be submitted in writing on the Proposal forms provided by the City of Laguna Hills (hereinafter "CITY" or "City"). All blank spaces in the bid forms must be correctly filled in and all information requested therein must be clearly and legibly set forth in the manner and form indicated. All spaces for bid prices and lump sum price for which the bid is made, must be filled in, in both words and figures. All prices and notations must be in ink or typewritten. No erasures will be permitted. Mistakes may be crossed out and corrections typed or written in ink adjacent thereto and must be initialed by the person or persons signing the bid. Bidder acknowledges and agrees that by failing to complete the bid forms in their entirety, as set forth above, the CITY may find the bidder's entire bid non-responsive and may cause the rejection of the bidder's proposal at the discretion of the CITY.

2. PROPOSAL GUARANTEE (BID BOND)

In accordance with Public Contract Code Section 20170, proposals must be accompanied by a proposal guarantee consisting of either cash, a cashier's check, a certified check or bid bond payable to the CITY in the minimum amount of ten percent (10%) of the total amount bid. Any proposal not accompanied by such a guarantee will not be considered. **IF A BIDDER TO WHOM A CONTRACT IS AWARDED FAILS OR REFUSES TO EXECUTE THE CONTRACT DOCUMENTS OR FURNISH THE REQUIRED INSURANCE POLICIES AND BONDS AS SET FORTH IN THOSE DOCUMENTS, THE PROPOSAL GUARANTEE SHALL BE FORFEITED TO THE CITY**. The proposal guarantees of all bidders will be held until the successful bidder has properly executed all Contract Documents.

3. NON-COLLUSION AFFIDAVIT

Bidder shall declare that the only persons or parties interested in the proposal as principals are those named therein; that no officer, agent, or employee of the CITY is personally interested, directly or indirectly, in the proposal; that the proposal is made without connection to any other individual, firm, or corporation making a bid for the same work; and that the proposal is in all respects fair and without collusion or fraud. The Non-Collusion Affidavit shall be executed and submitted with the proposal.

4. PROPOSAL BID SHEET

Bidders shall give unit prices for each and all of the items set forth. No aggregate bids will be considered. The bidder shall set forth for each item of work, in clearly legible figures, a unit item price and a total for the item in the respective spaces provided for this purpose. The quantities listed in the Bid sheets are supplied to give an indication of the general scope of work, but the accuracy of figures is not guaranteed and the bidder shall make his own estimates from the drawings. In case of a variation between the unit price and the totals shown by the bidder, the unit price will be considered to be the bid.

5. DELIVERY OF PROPOSAL

Proposals may be mailed or delivered by messenger. However, it is the bidder's responsibility alone to ensure delivery of the proposal to the hands of the CITY's designated official prior to the bid opening time deadline set forth in the "Notice Inviting Sealed Bids." Late proposals will not be considered and will be returned to the bidder unopened. Proposals shall be enclosed in a sealed envelope plainly marked on the outside, SAN REMO PARK REHABILITATION PROJECT- DO NOT OPEN WITH REGULAR MAIL."

6. WITHDRAWAL OF PROPOSALS

A proposal may be withdrawn by a written request signed by the bidder. Such requests must be delivered to the CITY's designated official prior to the bid-opening time deadline set forth in the "Notice Inviting Sealed Bids". The withdrawal of a proposal will not prejudice the right of the bidder to submit a new proposal, provided there is time remaining to do so. Proposals may not be withdrawn after the bid opening without forfeiture of the proposal guarantee, except as authorized by state law. .

7. NONRESPONSIVE PROPOSALS

Unauthorized conditions, limitations, or provisions attached to a proposal will render it nonresponsive and may cause its rejection. The completed proposal forms shall be without inter-lineation, alterations, or erasures. Alternative proposals will not be considered unless specifically requested. No oral, telegraphic, or telephonic proposal, modification, or withdrawal will be considered.

8. TAXES

No mention shall be made in the proposal of Sales Tax, Use Tax, or any other tax, as all amounts bid will be deemed and held to include any such taxes that may be applicable. Bidder acknowledges and agrees that CITY shall not be responsible for the payment of any increase in Sales Tax, Use Tax, or any other tax that takes effect after award.

9. DISQUALIFICATION OF BIDDERS

In the event that any bidder acting as a prime contractor has an interest in more than one proposal, all such proposals will be rejected, and the bidder will be disqualified. This restriction does not apply to subcontractors or suppliers who may submit quotations to more than one bidder.

No contract will be executed unless the bidder is licensed in accordance with the provisions of the Business and Professions Code.

10. INTERPRETATION OF PLANS AND DOCUMENTS

If any person contemplates submission of a bid for the proposed contract and is in doubt as to the true meaning of any part of the plans, specifications or other proposed contract documents, or finds discrepancies in, or omissions from, the drawings or specifications, he or she may submit to the City Engineer a written request for an interpretation or correction thereof five (5) working days prior to the scheduled bid opening. The person submitting the request will be responsible for its prompt delivery. Any interpretation or correction of the proposed

documents shall be made only by addendum duly issued and copy of such addendum will be mailed or delivered to each person receiving a set of such documents. The City Engineer will not be responsible for any other explanation or interpretations of the proposed documents.

11. ADDENDA OR BULLETINS

The effect of all addenda to the Contract Documents shall be considered in the bid, and said addenda shall be made a part of the Contract Documents and shall be returned with them. Before submitting a bid, each bidder shall confirm as to whether or not any addenda have been issued, and failure to cover in this bid any such addenda issued, may render bid non-responsive and may result in its rejection by the CITY.

12. LEGAL RESPONSIBILITIES

All proposals must be submitted, filed, made, and executed in accordance with State and Federal laws relating to bids for contracts of this nature whether the same are expressly referred to herein or not.

Any bidder submitting a proposal shall by such action thereby agree to each and all of the terms, conditions, provisions, and requirements set forth, contemplated, and referred to in the Plans, Specifications, and Contract Documents, and to full compliance therewith.

13. AWARD OF CONTRACT

Following a review of the bids, the CITY shall determine whether to award the contract or to reject all bids. The award of contract, if made, will be to the lowest responsive-responsible bidder as determined solely by the CITY. At the time of contract award, the successful bidder shall hold a Class A Contractor's License, or a combination of Class C Contractor's License(s), as required to perform the work, issued by the State of California. Additionally, the CITY reserves the right to reject any or all proposals, to accept any bid or portion thereof, to waive any irregularity, and to take the bids under advisement for the period of time stated in the "Notice Inviting Sealed Bids", all as may be required to provide for the best interests of the CITY. In no event will an award be made until all necessary investigations are made as to the responsibility and qualifications of the bidder to whom the award is contemplated.

Within three (3) days of bid opening contractor must submit a revised bid bond with numerical dollar values, both in words and with digits of bid amount. Within five (5) working days after the date of the Notice of Apparent Low Bidder, the successful bidder will be required to submit required Contract Agreement and Insurance. Within ten (10) working days after the date of the Notice of Award, the successful bidder will be required to submit Bonds (Faithful Performance and Material and Labor). Submission of these documents shall be at the Low Bidder's sole cost and expense and shall not be made reimbursable by City. Award of Contract, if made, shall be solely the determination of the City Council.

No bidder may withdraw its proposal for a period of forty-five (45) days after the time set for opening thereof. However, the CITY will return all proposal guarantees within ten (10) days after the award of the contract or rejection of the bids, as the case may be, to the respective bidders whose proposals they accompany.

/

/

14. PREVAILING WAGE RATES

The wage rates applicable to this Project are the State of California Department of Industrial Relations prevailing rates of per diem wages. In accordance with the provisions of Sections 1773.2 of the California Labor Code, copies of the general prevailing rate of per diem wages as determined by the State Director of Industrial Relations are available at City Hall, which shall be made available to any interested party upon request, or on the Internet at the State Department of Industrial Relations website (www.dir.ca.gov) under Statistics and Research.

It shall be mandatory upon the Contractor to whom the Contract is awarded and upon any subcontractor to pay not less than said specified rates to all workers employed by them in the execution of the Contract. A copy of said rates shall be posted at each job site during the course of construction. The Contractor and all subcontractors shall comply with all provisions of the California Labor Code relating to prevailing wage rates, including Sections 1770–1781.

This Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. The Department of Industrial Relations shall monitor and enforce compliance with applicable prevailing wage requirements for this Agreement. The reporting requirements may be found at https://www.dir.ca.gov/Public-Works/Contractors.html. The Contractor is responsible for complying with all requirements of the Department of Industrial Relations, including filing electronic payroll reports.

A contractor or subcontractor will not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded. Contractor and its subcontractors shall maintain active registration with the Department of Industrial Relations for the duration of the Project.

A contractor or subcontractor will not be qualified to bid on, be listed in a bid proposal, subject to Section 6109 of the public Contract Code, or engage in the performance of any contract for public work on a public works project if the contractor or subcontractor is ineligible to perform work pursuant to Section 1777.1 or 1777.7 of the Labor Code.

The CITY will not recognize any claim for additional compensation because of the payment by the Contractor of any wage rate in excess of the prevailing wage rate or the Federal Minimum Wage Rate (whichever is greater) as set forth in the contract. The possibility of wage increases is one of the elements to be considered by the bidder in determining his bid, and will not under any circumstances be considered as the basis of a claim against the CITY on the Contract.

The Contractor and subcontractors shall comply with Section 1777.6 of the Labor Code which stipulates that it shall be unlawful to refuse to accept otherwise qualified employees as registered apprentices on any public works on any basis listed in Government Code Section

12940(a), as those bases are defined in Government Code Sections 12926 and 12926.1, except as provided in Labor Code Section 3077 and Government Code Section 12940.

15. WORKERS' COMPENSATION CERTIFICATE

Section 3700 of the Labor Code requires that every employer shall secure the payment compensation by either being insured against liability to pay compensation with one or more insurers or by securing a certificate of consent to self-insure from the State Director of Industrial Relations.

In accordance with this section and with Section 1861 of the Labor Code, the Contractor shall sign a Compensation Insurance Certificate which is included with the Contract Agreement, and submit same to CITY along with the other required Contract Documents, prior to performing any work. Reimbursement for this requirement shall be considered as included in the various items of work.

16. CLAYTON ACT AND CARTWRIGHT ACT

In accordance with Section 7103.5 of the Public Contract Code, in entering into a public works contract or a subcontract to supply goods, services or materials pursuant to a public works contract, the Contractor or subcontractor offers and agrees to assign to CITY all rights, and interest in and all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to the Contractor, without further acknowledgment by the parties.

17. SUBLETTING AND SUBCONTRACTING.

Pursuant to the Subletting and Subcontracting Fair Practices Act (commencing with Section 4100 of the Public Contract Code), bidders are required to list in their proposal the name business address, California contractor license number, and public works contractor registration number issued pursuant to Section 1725.5 of the Labor Code of each subcontractor who will perform work or labor or render services in or about the construction of the work or improvement or a subcontractor who specially fabricates and installs a portion of the work or improvement according to detailed drawings contained in the Plans and Specifications in excess of 1/2 of 1% of this prime Contractor's total bid or $10,000, whichever is greater. If a subcontractor's California contractor license number or public works contractor registration number are submitted incorrectly in the bid, it will not be grounds for filing a bid protest or grounds for considering the bid nonresponsive if the corrected subcontractor's California contractor license number is submitted to CITY within 24 hours after the bid opening

If the bidder fails to list a subcontractor for a portion of work or if the bidder lists more than one subcontractor of the same portion of work in excess of 1/2 of 1% of the total bid or $10,000, whichever is greater, the bidder agrees that it is fully qualified to perform that portion of work itself, and that the bidder shall perform that portion of work itself. If after award of the contract, the bidder actually subcontracts that portion of work, except as provided in Public Contract Code Section 4107 or 4109, the bidder shall be subject to the penalties listed in

Section 4111 of the Public Contract Code. It is the CITY's intent for the Subletting and Subcontracting Fair Practices Act to apply to all phases of the work.

/

18. SUBSTITUTION OF SECURITIES

In conformance with Public Contract Code Section 22300, which is incorporated herein by this reference, the Contractor may substitute securities for any monies withheld by the CITY to ensure performance under the Contract or, in the alternative, may request payment of retention earned directly to an escrow agent.

At the request and expense of the Contractor, the Contractor has the option to deposit securities, which have been approved by the CITY, with a State or Federally chartered bank as the escrow agent or require the City to deposit 5% of each progress payment with the escrow agent. Said securities will be used as a substitute for retention earnings required to be withheld by the CITY, pursuant to the construction contract. Said securities shall have no obligation to any other construction contract for substitution of securities in lieu of retention. When the Contractor deposits the CITY approved securities with the escrow agent, the escrow agent shall notify the CITY within 10 calendar days of the deposit. Said securities shall be evaluated quarterly by the escrow agent to verify the current market value. If the current market value of said securities falls below the required amount, the escrow agent shall notify the Contractor and require additional securities and/or cash to be submitted for CITY approval, and be held in the escrow account to meet the Contractor's obligations. The escrow agent shall hold said securities until such time as the escrow agent receives written notification from the CITY that the Contractor has satisfactorily completed his Contract obligations.

The type of securities deposited and the method of release shall be approved by the City Attorney's office.

If the Contractor chooses not to exercise its rights under Public Contract Code Section 22300, the full five percent (5%) retention will be deducted from all payments. The final retention will be authorized for payment thirty-five (35) days after the date of recordation of the Notice of Completion, if no stop notices have been filed. The CITY may withhold from release of the final retention amounts authorized under Public Contracts Code Section 7107 and/or 125% of amounts identified in any Stop Notices received by the CITY.

19. BID DOCUMENT/PROPOSAL EDITS

No Proposer shall modify, edit, interlineate or change any portion of the Bid Proposal pages without the Agency’s written issuance of a formal Addenda. Any Proposer that modifies, edits, interlineates or changes the Bid Proposal sheets with unauthorized changes shall be deemed to be a non-responsive Bidder.

BIDDER'S NAME:_____

CITY OF LAGUNA HILLS

PROPOSAL
FOR

SAN REMO PARK REHABILITATION

TO **CITY OF LAGUNA HILLS**, as CITY:

In accordance with CITY's "Notice Inviting Sealed Bids", the undersigned BIDDER hereby proposes to furnish all materials, equipment, tools, labor, and incidentals required for the above stated project as set forth in the Plans, Specifications, and Contract Documents therefore, and to perform all work in the manner and time prescribed therein.

BIDDER declares that this proposal is based upon careful examination of the work site, Plans, Standard Specifications, Notice Inviting Sealed Bids, Instructions to Bidders, Proposal Documents, General Specifications, Special Provisions and Contract Documents. If this proposal is accepted for award, BIDDER agrees to enter into a contract with CITY at the unit and/or lump sum prices set forth in the following Proposal Bid Sheet. BIDDER understands that failure to enter into a contract in the manner and time prescribed will result in forfeiture to CITY of the Bid Security accompanying this proposal.

BIDDER understands that a bid is required for the entire work, that the estimated quantities set forth in the Proposal Bid Sheet are solely for the purpose of comparing bids, and that final compensation under the contract will be based upon the actual quantities of work satisfactorily completed. It is agreed that the unit and/or lump sum prices bid include all appurtenant expenses, taxes, royalties, and fees. In the case of discrepancies in the amounts bid, unit prices shall govern over extended amounts.

BIDDER agrees and acknowledges that it is aware of the provisions of Section 3700 of the Labor Code, which requires every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and that the BIDDER will comply with such provisions of that code before the commencement of any work under this Contract, if awarded.

BIDDER certifies that in all previous contracts or subcontracts, all reports which may have been due under the requirements of any CITY, State, or Federal equal employment opportunity orders have been satisfactorily filed, and that no such reports are currently outstanding.

BIDDER declares that the only persons or parties interested in this proposal as principals are those named herein; that no officer, agent, or employee of the CITY is personally interested, directly or indirectly, in this proposal; that this proposal is made without connection to any other individual, firm, or corporation making a bid for the same work; and that this proposal is in all respects fair and without collusion or fraud.

BIDDER certifies that affirmative action has been taken to seek out and consider disadvantaged business enterprises for those portions of the work to be subcontracted, and that such affirmative actions have been carefully documented, that said documentation is open to inspection, and that said affirmative action will remain in effect for the life of any contract awarded hereunder.

Furthermore, BIDDER certifies that affirmative action will be taken to meet all equal employment opportunity requirements of the contract documents.

BIDDER'S BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS,_____ (the "Principal") has submitted a
(NAME OF BIDDER)
bid (the "Bid") to the City of Laguna Hills, California (the "City") for construction of the

_____(the "Work"), as specifically set
(NAME OF PROJECT AND/OR DESCRIPTION OF WORK)
forth in documents entitled_____,
(TITLE OF BID PACKAGE)
Dated:_____, 20____(the "Specifications").

AND WHEREAS, the Principal is required to provide bidder's security in an amount equal to at least ten percent (10%) of the amount of the Bid and has chosen to satisfy this obligation by providing this bond.

NOW, THEREFORE, we, the Principal, and_____ (the
(NAME OF SURETY)
"Surety"), an admitted surety insurer in the State of California, are held firmly bound unto the City of Laguna Hills in the sum of_____ and_____/100 DOLLARS ($_____), lawful money of the United States of America, for the payment of which sum, well and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents, this amount being ten percent (10%) of the total amount of the Bid.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

1. If (a) the City accepts the Bid and awards the Principal a contract for the Work, and (b) within the time and manner required under the Specifications or by law, after the prescribed forms are presented to the Principal for signature, the Principal executes a written contract for construction of the Work in accordance with the Bid and delivers the required faithful performance and payment bonds and insurance policies, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.
2. The Surety, for value received, hereby stipulates and agrees that the obligation of said Surety and its bond shall be in no way impaired or affected by any extension of the time within

Bond Amount $_____
Bond Number_____

which the City may accept such Bid; and said Surety does hereby waive notice of any such extension.

3. In the event suit is brought upon this bond by the City and judgment is recovered, as part of the obligation secured hereby and in addition to the face amount specified in this bond, the Surety shall pay all costs incurred by the City in such suit, including reasonable attorneys' fees to be fixed by the court.

IN WITNESS WHEREOF, this instrument has been duly executed by the Principal and Surety above named on the_____ day of_____, 20_____.

CITY OF LAGUNA HILLS

CONTRACT AGREEMENT
FOR

SAN REMO PARK REHABILITATION PROJECT

THIS CONTRACT AGREEMENT (hereinafter "Agreement" or "Contract" or "Contract Agreement") is made and entered into for the above stated Project this_____ day of _____, 20____, BY AND BETWEEN THE **CITY OF LAGUNA HILLS**, as CITY, and _____, as CONTRACTOR.

WITNESSETH that CITY and CONTRACTOR have mutually agreed as follows:

ARTICLE I

The contract documents for the aforesaid Project shall consist of the Notice Inviting Sealed Bids, Instructions to Bidders, Proposal Documents, Contract Documents, General Specifications, Standard Specifications, Special Provisions, Plans, and all referenced specifications, details, standard drawings, and all appendices attached hereto, together with this Contract Agreement and all required bonds, insurance coverage, permits, notices, and affidavits; and also including any and all addenda or supplemental agreements clarifying, amending, or extending the work contemplated as may be required to ensure its completion in an acceptable manner (hereinafter collectively the "Contract Documents"). All of the provisions of said Contract Documents are attached hereto and are incorporated by reference herein and made a part of this Contract Agreement as though fully set forth herein.

ARTICLE II

For and in consideration of the payments and agreements to be made and performed by CITY, CONTRACTOR agrees to furnish all materials and perform all work required for the above stated project, and to fulfill all other obligations as set forth in the aforesaid Contract Documents.

ARTICLE III

CONTRACTOR agrees to receive and accept the prices set forth in the Proposal as full compensation for furnishing all materials, performing all work, and fulfilling all obligations hereunder. Said compensation shall cover all expenses, losses, damages, and consequences arising out of the nature of work during its progress or prior to its acceptance including those for well and faithfully completing the work and the whole thereof in the manner and time specified in the aforesaid Contract Documents; and also including those arising from actions of the elements, unforeseen difficulties or obstructions encountered in the prosecution of the work, suspension or discontinuance of the work, and all other unknowns or risks of any description connected with the work. Notwithstanding any provisions of this Agreement to the contrary, CITY and CONTRACTOR mutually agree that CITY's maximum cumulative payment obligation hereunder (including CONTRACTOR's profit) shall be Dollars ($0.00), which shall include all amounts payable to CONTRACTOR for its subcontracts, leases, materials and costs arising from, or due to termination of, this Agreement.

ARTICLE IV

CITY hereby promises and agrees to employ, and does hereby employ, CONTRACTOR to provide the materials, do the work, and fulfill the obligations according to the terms and conditions

herein contained and referred to, for the prices aforesaid, and hereby contracts to pay the same at the time, in the manner, and upon the conditions set forth in the Contract Documents.

ARTICLE V

CONTRACTOR acknowledges the provisions of the Labor Code requiring every employer to be insured against liability for workers' compensation, or to undertake self-insurance in accordance with the provisions of that code, and certifies compliance with such provisions.

ARTICLE VI

CONTRACTOR affirms that the signatures, titles, and seals set forth hereinafter in execution of this Agreement represent all individuals, firm members, partners, joint ventures, and/or corporate officers having a principal interest herein.

ARTICLE VII

CONTRACTOR hereby represents and warrants that it will comply with all of the provisions of the Federal Immigration and Nationality Act, 8 U.S.C. Section 1101, *et seq*., as amended, and in connection therewith, shall not employ unauthorized aliens as defined therein. Should CONTRACTOR so employ such unauthorized aliens for the performance of any work and/or services under this Agreement, and should any liability or sanctions be imposed against CITY for such use of unauthorized aliens, CONTRACTOR hereby agrees to reimburse CITY for any and all liabilities, actions, suits, claims, demands, losses, costs, judgments, arbitration awards, settlements, damages, demands, orders, or penalties which arise out of or are related to such employment, together with any and all costs, including attorneys' fees, incurred by CITY.

ARTICLE VIII

To the fullest extent permitted by law, CONTRACTOR shall defend (at CONTRACTOR's sole cost and expense), indemnify, protect, and hold harmless CITY, its elected and appointed officials, officers, employees, agents, and volunteers (collectively the "Indemnified Parties"), from and against any and all liabilities, actions, suits, claims, demands, losses, costs, judgments, arbitration awards, settlements, damages, demands, orders, penalties, and expenses including legal costs and attorney fees (collectively "Claims"), including but not limited to Claims arising from injuries to or death of persons (CONTRACTOR's employees included), or for damage to property, including property owned by CITY, which Claims arise out of, pertain to, or are related to CONTRACTOR's performance under the Agreement. Under no circumstances shall the insurance requirements and limits set forth in this Agreement be construed to limit CONTRACTOR's indemnification obligation or other liability hereunder. Notwithstanding the foregoing, such obligation to defend, hold harmless, and indemnify the CITY, its elected and appointed officials, officers, employees, agents, and volunteers, shall not apply to such claims or liabilities arising from the sole or active negligence or willful misconduct of CITY.

ARTICLE IX

CONTRACTOR shall be familiar with, observe, and comply at all times during the term of this Agreement with any work rules for contractors as may be established and promulgated by the City Manager, which work rules shall be additional terms and conditions for providing the work and services to the CITY pursuant to this Agreement, as may be updated and/or amended from time to time at the sole discretion of the City Manager.

THAT WHEREAS, on _____ (DATE OF AWARD), the City of Laguna Hills, California ("City") awarded a public works contract (the "Contract"), delineated as Contract No._____, for the _____ (NAME OF PROJECT AND/OR DESCRIPTION OF WORK), as specified in the Contract , to _____ (NAME OF CONTRACTOR), a _____ (CONTRACTOR ENTITY TYPE i.e., INC, LLC, ETC) hereby designated as the "Principal", which Contract is attached hereto, and which Contract and all documents incporated thereinby reference are expressly incorporated into this bond by reference.

AND WHEREAS, the Principal is required under the terms of the Contract to give this bond in connection with the execution of the Contract.

NOW, THEREFORE, we, the Principal, and _____ (NAME OF SURETY) (the "Surety"), an admitted surety insurer in the State of California, are held firmly bound unto the City of Laguna Hills in the sum of _____ and _____/100 DOLLARS ($_____), lawful money of the United States of America, for the payment of which sum, well and truly be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

1. If the Principal, or its subcontractors, or their respective heirs, executors, administrators, successors or assigns, shall fail to pay (a) any of the persons named in Section 9100 of the California Civil Code, (b) any amounts due under the California Unemployment Insurance Code with respect to work or labor performed under the Contract, or (c) any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of the Principal and its subcontractors pursuant to Section 13020 of the California Unemployment Insurance Code with respect to such work or labor, then the Surety shall pay for the same, in an aggregate amount not exceeding the sum specified in this bond. In case suit is brought upon this bond, the Surety will pay reasonable attorney's fees to be fixed by the court.
2. This bond shall inure to the benefit of any of the persons named in Section 9100 of the California Civil Code so as to give a right of action to such persons or their assigns in any suit brought upon this bond.

3. The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alterations, additions, omissions or other modifications to the terms of the Contract, or in the work to be performed or the material to be furnished under the Contract, or in the specifications or plans, whether or not made pursuant to the terms of the Contract, shall in any manner release either the Principal or Surety or affect the Surety's obligations on this bond, and it does hereby waive notice of any such changes, extensions, alterations, additions, omissions or other modifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the Principal and Surety above named on the_____ day of_____, 20_____.

COMPENSATION INSURANCE CERTIFICATE

Pursuant to Section 1861 of the State Labor Code, each contractor to whom a public works contract has been awarded shall sign the following certificate and shall submit same to the City prior to performing any work on the contract:

"*I am aware of the provisions of Section 3700 of the Labor Code which requires every employer to be insured against liability for Workers' Compensation or to undertake self-insurance in accordance with the provisions of that Code, and I will comply with such provisions before commencing the performance of work of this contract*."

Section 3700 of the Labor Code reads as follows:

"Every employer except the State shall secure the payment of compensation in one or more of the following ways:

"(a) By being insured against liability to pay compensation in one or more insurers duly authorized to write compensation insurance in this state.

(b) By securing from the Director of Industrial Relations a certificate of consent to self-insure, which may be given upon furnishing proof satisfactory to the Director of Industrial Relations of ability to self-insure and to pay any compensation that may become due to his employee."

COMPENSATION INSURANCE CERTIFICATE

TO BE SUBMITTED WITH CONTRACT

CITY OF LAGUNA HILLS

GENERAL SPECIFICATIONS
FOR

SAN REMO PARK REHABILITATION PROJECT

SCOPE OF WORK

The work to be performed and completed by Contractor consists of play equipment and safety surfacing installation, site furnishing replacement and installation, park monument sign installation, concrete flatwork installation, landscape and irrigation installation and all other incidental work in this specification document.

LOCATION OF WORK

The Project is located at San Remo Park, 23612 San Remo Drive, Laguna Hills, as shown on the plans.

TIME OF COMPLETION

The Contractor shall complete all work in every detail within 60 working days after the date of the Notice to Proceed.

TRAFFIC REQUIREMENTS

The Contractor shall provide delineation in accordance with the latest updated version of the California Manual on Uniform Traffic Control Devices (MUTCD). The Contractor shall schedule the order of his work such that no travel lanes are closed before 8:30 A.M. or after 4:30 P.M. daily. A minimum of one through travel lane and all turning lanes in all directions shall be maintained during construction between 8:30 A.M. and 4:30 P.M. The same number of travel lanes currently in use (at the time of bid) shall be opened to traffic each and every day between 4:30 P.M. and 8:30 A.M. No work that interferes with public traffic shall be performed after 4:30 P.M. or before 8:30 A.M. No street closures shall be made. The traffic signal and traffic signal detectors shall remain operational during the construction until their replacement is scheduled within 5 days of disruption. Night work shall only be allowed with approved, written approval by the City Engineer, at the contractor's request, and shall be completed at no additional cost if approved.

Separation between travel lanes shall be accomplished by the use of delineators placed at a maximum of 15' on center. Traffic channelization at intersections shall be accomplished by the use of delineators placed at a maximum of 10' on center.

UTILITY REQUIREMENTS

The Contractor is advised of the existence of the utility notification service provided by UNDERGROUND SERVICE ALERT (USA). USA member utilities will provide the Contractor with the precise locations of their substructures in the construction area when the Contractor gives at least 48 hours notice to the Underground Service Alert by calling 1(800) 422-4133. Contractor shall provide the City with proof of contact with USA upon request.

The Contractor shall notify the following agencies at least 48 hours in advance of excavating around any of their structures. The utility companies listed below can be contacted as indicated.

NAME	ADDRESS	ATTENTION	Phone Number

The California Public Utilities Commission mandates that, in the interest of public safety, main line gas valves be maintained in a manner to be readily accessible and in good operating condition. The Contractor shall notify the Southern California Gas Company (714) 634-3185 at least 2 working days prior to the start of construction.

The Contractor shall exercise extreme care to protect all existing utilities in place whether shown on the plans or not, and shall assume full responsibility for all damage resulting from his operations. The Contractor shall coordinate with each utility company as to the requirements and methods for protection of their facilities during the construction period, and shall be responsible for preparation and processing of any required plans or permits. The Contractor shall assume full responsibility to maintain uninterrupted service for all utilities.

By submitting a bid, the Contractor acknowledges the above referenced utility work to be done in conjunction with this Project. The Contractor shall schedule his work and conduct his operations so as to permit access and time for the required utility work to be accomplished during the progress of the work.

The Contractor shall coordinate with each utility company as to the extent of required work and the time required to do so. The Contractor shall include this time in his schedule. Payment for the above, if any, shall be deemed as included in the items of work as shown on the proposal bid sheet and no additional compensation will be allowed.

FLOW AND ACCEPTANCE OF WATER

It is anticipated that storm, surface or other waters will be encountered at various times and locations during the work herein contemplated. The Contractor, by submitting a bid, acknowledges that he has investigated the risk arising from such waters and has prepared his bid accordingly, and Contractor, by submitting a bid, assumes all of said risk.

REMOVAL OF WATER

The Contractor shall provide and maintain at all times during construction ample means and devices to promptly remove and properly dispose of all water entering the excavations or other parts of the work. No concrete footing or floor shall be laid in water nor shall water be allowed to rise over them until the concrete or mortar has set at least two (2) hours. Water shall not be allowed to rise unequally against any walls for a period of twenty-eight (28) days. Dewatering for the structures and pipelines shall commence when ground water is first encountered, and shall be continuous until such time as water can be allowed to rise in accordance with the above statement. Dewatering shall be accomplished by well points or some other method which will insure a dry hold and preservation of final lines and grade of the bottoms of excavation, all subject to the approval of the City Engineer.

Dewatering methods and disposal of water from dewatering operations shall be the sole responsibility of the Contractor and shall conform to the requirements of the State Regional Water Quality Control Board, the requirements of the National Pollution Discharge Elimination System (NPDES), and the Federal Clean Water Act. Full compensation for dewatering shall be considered as included in the contract prices paid for the related items of work, and no additional compensation will be allowed therefore.

STANDARD SPECIFICATIONS

The Standard Specifications of the City are contained in the 2024 edition of the STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, also known as the “Greenbook”, including all supplements, as written and promulgated by the Joint Cooperative Committee of the Southern California Chapter of the American Public Works Association and the Southern California District of the Associated General Contractors of California, which is incorporated herein by this reference. Copies of these Standard Specifications are available from the publisher:

BNi Building News
Division of BNi Publications, Inc.
990 Park Center Drive, Suite E
Vista, California 92801
(760) 734-1113

The Standard Specifications set forth above will control the general provisions for this Contract except as amended by the Plans, General Specifications, Special Provisions, or other Contract Documents.

The section numbers of the following Special Provisions coincide with those of the said Standard Specifications. Only those sections requiring amendment, elaboration, addition, or that are specifying options are stated in the Special Provisions.

In case of conflict between the Standard Specifications and the General Specifications or Special Provisions, the General Specifications and Special Provisions shall take precedence over and be used in lieu of such conflicting portions of the Standard Specifications.

References in the Special Provisions to "CALTRANS Standard Specifications" shall mean the latest edition of the Standard Specifications of the State of California, Department of Transportation. Copies of these specifications and standard drawings may be obtained from:

California Department of Transportation
Publications Distribution Unit
1900 Royal Oaks Drive
Sacramento, California 95815-3800
Telephone (916) 263-0822
Fax (916) 263-0470

References in the Special Provisions to Standard Plans shall mean the Standard Plans for Public Works Construction, latest edition (written and promulgated by the Public Works Standards, Inc.), and, where applicable and as determined and selected by the City Engineer, those specific standard plans of the City of Laguna Hills, the County of Orange and/or the State Department of Transportation, latest editions.

Where the Plans or Specifications describe portions of the work in general terms, but not in complete detail, it is understood that the item is to be furnished and installed complete and in place and that only the best general practice is to prevail and that only materials and workmanship of the first quality are to be used. Unless otherwise specified, the Contractor shall furnish all labor, materials, tools, equipment and incidentals, and do all the work involved in executing the contract.

WAGE RATES AND LABOR CODE REQUIREMENTS

The City has determined that the work on this Project requires work of labor categories which are subject to the State of California Department of Industrial Relations prevailing rates of per diem wages.

Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., (“Prevailing Wage Laws”), which require the payment of prevailing wage rates and the performance of other requirements on “public works” and “maintenance” projects. Contractor agrees to fully comply with all applicable federal and state labor laws (including, without limitation, if applicable, the Prevailing Wage Laws). It is agreed by the parties that, in connection with the work provided pursuant to the Agreement, Contractor shall bear all risks of payment or non-payment of prevailing wages under California law, and Contractor hereby agrees to defend, indemnify, and hold the City, its elected officials, officers, employees, and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. The foregoing indemnity shall survive termination of the Agreement.

Contractor understands and agrees to comply with the following California Labor Code compliance conditions [Labor Code Sections 1720 et seq., 1813, 1860, 1861, 3700]:

a) The Agreement is subject to the provisions of Division 2, Part 7, Chapter 1 (commencing with Section 1720) of the California Labor Code relating to public works and the awarding public agency (“City”) and Contractor agree to be bound by all the provisions thereof as though set forth in full herein.

b) Contractor shall be registered with the Department of Industrial Relations (“DIR”) in accordance with California Labor Code Section 1725.5 and has provided proof of registration to City prior to the effective date of this Agreement.

c) Contractor agrees to comply with the provisions of California Labor Code Sections 1771, 1774 and 1775 concerning the payment of prevailing rates of wages to workers and the penalties for failure to pay prevailing wages. The applicable prevailing wage determination(s) may be obtained at (http://www.dir.ca.gov/OPRUDPreWageDetermination.htm), are on file with City, and are available to any interested party upon request. A copy of said rates shall be posted at each job site during the term of this Agreement.

d) Pursuant to California Labor Code Section 1771.4, Contractor's services are subject to compliance monitoring and enforcement by the Department of Industrial Relations. Contractor shall post job site notices as prescribed by DIR regulations and furnish the records specified in California Labor Code Section 1776 directly to the Labor Commissioner in the manner prescribed by California Labor Code Section 1771.4(a)(3) and (c)(2).

e) Eight (8) hours of labor shall constitute a legal day's work for all workmen employed in the execution of this Agreement, and the Contractor and any subcontractor shall comply with and be governed by the laws of the State of California having to do with working hours set forth in Division 2, Part 7, Chapter 1, Article 3 of the California Labor Code. Contractor shall comply with the provisions of California Labor Code Section 1813 concerning penalties for workers who work excess hours. Contractor shall, as a penalty to the City, forfeit twenty-five dollars ($25) for each worker employed in the execution of this Agreement by the Contractor or by any subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one calendar day and forty (40) hours in any one calendar week in violation of the provisions of Division 2, Part 7, Chapter 1, Article 3 of the California Labor Code. (*See, e.g.,* Cal. Labor Code §1815.)

f) Pursuant to California Labor Code Section 1771.1, Contractor and any subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the California Public Contract Code, or engage in the performance of any contract for public work on a public works project unless registered with the DIR and qualified to perform public work pursuant to California Labor Code Section 1725.2. It is not a violation of California Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by California Business and Professions Code Section 7029.1 or by California Public Contract Code Section 10164 or 20103.5, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded. Contractor shall not perform any work under this Agreement with any subcontractor who is ineligible to perform work on the public works project pursuant to Section 1777.1 or 1777.7 of the California Labor Code.

Apprentices

Section 1777.5 requires the Contractor or Subcontractor employing tradesmen in any apprenticeable occupation to apply to an applicable apprenticeship committee that can supply apprentices to the site of the public works project and which administers the apprenticeship program in that trade for a certificate of approval. The certificate will also fix the ratio of apprentices to journeymen to be used in the performance of the Contract.

The Contractor is required to make contributions to funds established for the administration of apprenticeship programs if he employs registered apprentices or journeymen in any apprenticeable trade and if other Contractors on the public works site are making such contributions.

Information relative to apprenticeship standards, contributions, wage schedules and other requirements may be obtained from the State Director of Industrial Relations or from the Division of Apprenticeship Standards.

RESOLUTION OF CONSTRUCTION CLAIMS

California Public Contract Code (PCC) section 9204 as adopted by Assembly Bill 626 prescribes a process to present, confer, and mediate all construction claims relating to the City's public works project.

"Public works project" means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or another public improvement of any kind.

"Claim" means a separate demand by the Contractor sent by registered mail or certified mail with return receipt requested for (A) a time extension, including, without limitation for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project (B) payment of money or damages arising from work done by or on behalf of the Contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled, or the amount the payment of which is disputed by the local agency. (PCC 9204(c)(1))

For any claim subject to this article, PCC section 9204 requires the following:

a) The claim shall be submitted by the Contractor in writing, sent by registered mail or certified mail with return receipt requested and must include the documents necessary to substantiate the claim. Nothing in this subdivision is intended to extend the time limit or supersede notice requirements otherwise provided by contract for the filing of claims. However, upon receipt of a claim, the City, and the Contractor may, by mutual agreement, extend the time period provided by statute.

b) For claims of all amounts, the City shall respond within 45 days of receipt of the claim, and provide the claimant a written statement identifying which portion of the claim is disputed and which portion of the claim is undisputed. If the City requires approval from the City Council, and the City Council does not meet within the 45-day period to respond, the City shall have up to three days to issue its response following the City Council meeting.

c) For all portions of a claim determined to be undisputed, the City must process payment to the claimant within 60 days of issuing the City's written determination.

d) If the claimant disputes the City's response, or if the City fails to respond within the time limits provided, the claimant may demand an informal conference to meet and confer for settlement of the issues in dispute. The demand must be sent in writing by registered or certified mail, return receipt requested. Upon receipt of a demand, the City must schedule a meet and confer conference within 30 days for settlement of the disputed claim.

e) Within 10 business days following the conclusion of the meet and confer conference, if any portion of the claim remains in dispute, the City shall provide the claimant an addition written statement identifying the portion of the claim that is undisputed and the portion that remains in dispute.

f) For all portions of a claim determined to be undisputed, the City must process payment to the claimant within 60 days of issuing the City's written determination.

g) Any remaining undisputed portion of the claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation in which the parties share the cost evenly. The City and the claimant shall mutually agree on a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree, each party shall select a mediator and those mediators shall jointly select a qualified, neutral third party to mediate the remaining undisputed claim. Each party shall bear the respective costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is

unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside of PCC section 9204.

Unless otherwise agreed to by the City and the Contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under PCC Section 20104.4 to mediate after litigation has been commenced.

PCC Section 9204 does not preclude the City from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program if mediation under this section does not resolve the parties' dispute.

Should the City fail to respond to a claim, or fail to issue written statements as required, the Contractor's claim is deemed denied. A claim denied by reason of the City's failure to respond shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

Amounts not paid in a timely manner as required by PCC 9204 shall bear interest at seven percent per annum.

NOTICE OF THIRD-PARTY CLAIMS

In accordance with PCC Section 9201, the City will provide timely notification to Contractor of the receipt of any third-party claim relating to the Agreement. The Contractor agrees to reimburse the City for its reasonable costs incurred in providing such notice.

CLAYTON ACT AND CARTWRIGHT ACT

In accordance with Section 7103.5 of the Public Contract Code, in entering into a public works contract or a subcontract to supply goods, services or materials pursuant to a public works contract, the contractor or subcontractor offers and agrees to assign to the awarding body all rights, and interest in and all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to the contractor, without further acknowledgment by the parties.

CITY OF LAGUNA HILLS

SPECIAL PROVISIONS
FOR

SAN REMO PARK REHABILITATION PROJECT

PART 1 - GENERAL PROVISIONS

SECTION 1 - TERMS, DEFINITIONS, ABBREVIATIONS AND SYMBOLS.

1-2 DEFINITIONS.

City	**City of Laguna Hills**
Board	City Council
Caltrans	California Department of Transportation
County	County of Orange
Engineer	City Engineer
Federal	United States of America
State	State of California
Contractor	Contractor, its workers, employees and agents
Project	SAN REMO PARK REHABILITATION

1-3 ABBREVIATIONS.

1-3.2 Common Usage. [Add the following to this section]:

MUTCD	Manual of Uniform Traffic Control Devices, including the California Supplement
OCPW	Orange County Public Works Department
SPPWC	Standard Plans for Public Works Construction
SSPWC	Standard Specifications for Public Works Construction
FHWA	Federal Highway Administration
HUD	Housing and Urban Development

1-7 AWARD AND EXECUTION OF CONTRACT.

Within three (3) days of bid opening contractor must submit:

- If a bid bond is submitted with a 10% of Bid designation for the amount as noted in the City Approved Bid Bond form, a revised Bid Bond with numerical dollar values, both in words and with digits, shall be submitted to the City within three (3) days of bid opening.

Within five (5) working days after the date of the Notice of Apparent Low Bidder, the Contractor shall execute and return the following documents to the City:

- All Insurance Requirements set forth herein
- Two (2) Original Signed Contract Agreements

Within ten (10) working days after the date of the Notice of Award, the Contractor shall execute and return the following documents to the City:

- Faithful Performance Bond
- Material and Labor Bond
- Construction Schedule
- Traffic Control Plan
- Water Pollution Control Plan
- Form W-9
- Encroachment Permit Application
- Construction Materials Submittals

FAILURE TO COMPLY WITH ALL OF THE ABOVE WILL RESULT IN ANNULMENT OF THE AWARD AND FORFEITURE OF THE PROPOSAL GUARANTEE AT THE SOLE DISCRETION OF City.

The Contract Agreement shall not be considered binding upon the City until executed by the authorized City officials. A corporation to which an award is made may be required, before the Contract Agreement is executed by the City, to furnish evidence of its corporate existence, of its right to enter into contracts in the State of California, and that the officers signing the Contract and bonds for the corporation have the authority to do so.

1-7.2 Contract Bonds. [Replace section with the following]:

Both the Faithful Performance Bond and the Material and Labor Bond shall each be for not less than one hundred percent (100%) of the total Contract amount. The Material and Labor Bond shall remain in force until thirty-five (35) days after the date of recordation of the Notice of Completion. The Faithful Performance Bond will be held for one year after the date of recordation of the Notice of Completion.

Prior to the acceptance of any bond, the City shall verify that the surety is an admitted surety in the State of California. If requested by the City, the Contractor shall provide other information specified in the Code of Civil Procedure Section 995.660 to enable the City to verify the sufficiency of the bond.

Should any bond become insufficient, the Contractor shall correct the insufficiency within ten (10) calendar days after receiving notice from the City. The Contractor shall provide the City with evidence of the correction within ten (10) calendar days of said correction. Should any surety at any time be unsatisfactory to the City, written notice will be given to the Contractor to that effect. No further payments shall be deemed due or will be payable under the Contract until Contractor submits an acceptable bond from a surety accepted by the City. Changes to the work or extensions of time made pursuant to the Contract Agreement shall in no way release the Contractor or the surety from its obligations. Notice of such changes or extensions shall be waived by the surety.

SECTION 2 – SCOPE OF WORK.

2-1.1 PLANS AND SPECIFICATIONS [Add the following to this section]:

The Contractor shall maintain a control set of Plans and Specifications on the Project site at all times. All final locations determined in the field, and any deviations from the Plans and Specifications, shall be marked in red on this control set to show the as-constructed conditions. Upon completion of all work, the Contractor shall return the control set to the Engineer. Final payment will not be made until this requirement has been met.

2-2 PERMITS. [Add the following to this section]:

Prior to the start of any work, the Contractor shall take out the applicable City and State permits and make arrangements for City and State inspections. Requests for inspections shall be made to the City at least 24 hours in advance of need. The Contractor and all subcontractors shall each obtain any and all other permits, licenses, inspections, certificates, or authorizations required by any governing body or public utility. Payment for this work shall be included in the bid items of work and no additional compensation will be allowed. The City will waive the usual City encroachment permit fees.

Further, Contractor shall ensure that its employees, agents, contractors, and subcontractors conduct themselves in compliance with such laws and licensure requirements including, without limitation, compliance with laws applicable to nondiscrimination, sexual harassment, and ethical behavior throughout the duration of the Contract. Contractor shall not retain or employ an unlicensed subcontractor to perform work pursuant to this Contract. Contractor shall notify the City immediately and in writing of its employees', agents', contractors' or subcontractors' inability to obtain or maintain, irrespective of the pendency of any appeal, any such licenses, permits, approvals, certificate, waivers, and exemptions that may be required. Such inability shall be cause for termination of this Contract

2-3 RIGHT-OF-WAY. [Add the following to this section]:

The City will acquire all rights of way, easements and rights of entry as required for this Project. The Contractor shall verify that the acquisition(s) is completed prior to beginning any work outside of the public right of way. All cost for re-mobilization, downtime, etc. due to delays in obtaining the required rights of way, easements and rights of entry shall be included in all other items of work and no additional compensation will be allowed. In the event the required easements have not yet been acquired by the City, the Contractor shall conduct its operation so as to confine its work to the limits of the existing right-of-way.

2-4 COOPERATION AND COLLATERAL WORK. [Add the following]:

The Contractor is advised as to the possibility of other construction projects within the proposed construction zone by the City of Laguna Hills, other governing agencies or private enterprises. In the event of such projects, the Contractor shall coordinate with the applicable parties as to the extent of any time required to complete their work and shall schedule his work and conduct his operations so as to permit access and time as required for the concurrent work. The Contractor shall immediately notify the Engineer in the event of a delay in scheduling caused solely by this concurrent work. Payment for the above, if any, shall be deemed as included in various items of work, including any delay impacts, as shown on the proposal bid sheet and no additional compensation will be allowed.

2-8 EXTRA WORK.

2-8.2 Payment.

2-8.3 Markup.

(a) **Work by Contractor.** [Add the following to this section]: The following percentages shall be the maximum added to the Contractor's costs and shall constitute the markup for all overhead and profits:

1) Labor	20%
2) Materials	15%

3) Equipment Rental 15%

4) Other Items and Expenditures 15%

To the sum of the costs and markups provided for in this subsection, 1 percent shall be added as compensation for bonding.

(b) **Work by Subcontractor.** [Add the following to this section]: When all or any part of the extra work is performed by a Subcontractor, the markup established in 3-3.2.3(a) shall be applied to the Subcontractor's actual cost of such work. A markup of 10 percent on the first $5,000 of the subcontracted portion of the extra work and a markup of five (5) percent on work added in excess of $5,000 of the subcontracted portion of the extra work may be added by the Contractor.

The markups mentioned hereinafter shall include, but are not limited to, all costs for the services of superintendents, project managers, timekeepers and other personnel not working directly on the change order and pickup or yard trucks used by the above personnel. These costs shall be reported as labor or equipment elsewhere except when actually performing work directly on the change order and then shall only be reported at the labor classification of the work performed.

The costs of rental equipment shall not exceed the equipment rental rates in the surcharge and Equipment Rental Rates, as published by the State of California Business, Transportation, and Housing Agency and the California Department of Transportation, Division of Construction for the current fiscal year.

2-10 DISPUTED WORK. [Add the following to this section]:

If the Contractor and the City are unable to reach an agreement on disputed work, the City may direct the Contractor to proceed as directed. The City shall have the option, at its own discretion, to pay for said work through unilateral change order executed by the City after conducting its own analysis of the reasonable costs thereof. Although not to be construed as proceeding under extra work provisions in Section 3-3, the Contractor shall keep and furnish records of disputed work in accordance with Section 3-3.

In any case where the Contractor believes extra compensation is due the Contractor for work or materials not clearly covered in the Contract, or not ordered by the City as “extra work”, the Contractor shall notify the City in writing of the Contractor's intention to make claim for such extra compensation before the Contractor begins the work on which Contractor bases the claim. If such notification is not given, or the City is not afforded proper supporting documentation by the Contractor for keeping strict account of actual cost, then the Contractor shall be deemed to have waived the claims for such extra compensation. Such notice by the Contractor, and the fact that the City has kept account of the cost as aforesaid, shall not in any way be construed as proving the validity of the claim. The validity of the claim must be determined by the City. If the City determines that the claim is well founded, it shall be allowed and paid for as “extra work”; if the City determines that the claim is not well founded, it shall be disallowed and not paid.

SECTION 3 – CONTROL OF THE WORK.

3-10 SURVEYING.

3-10.3 Survey Services. [Add sub-section]:

The Contractor will provide the initial surveying and the initial construction staking, if required for the construction of this Project. The cost of any additional surveying and/or construction staking primarily for the convenience of the Contractor and for replacement of stakes lost for any reason will be the responsibility of the Contractor. The Contractor shall make all requests in writing for construction stakes at least 48 hours in advance of the day required.

The Contractor shall be responsible for the finished work's conforming to the lines, grades and benchmarks given by the Engineer. The Contractor shall establish supplementary benchmarks, elevations, lines and grades and any other necessary controls which are not established by the Engineer and which are necessary to complete the work. Compensation for above work by the Contractor shall be included within the various items of work and no additional compensation will be allowed.

SECTION 4 - CONTROL OF MATERIALS

4-3 INSPECTIONS.

4-3.1 General. [Add the following to this section]:

The City will pay for inspection and materials testing. The Contractor shall pay for retests and re-inspections due to failure to meet Specifications. If the Contractor elects to work under this Contract more than 8 hours/day or more than 40 hours/week, Saturday, Sunday, or City holidays, it shall arrange with the Engineer for the required inspection service and pay the Special Inspection Fees as provided by the Material Inspector and City Engineer. When Special Inspection is required, the Contractor shall notify the City and pay inspection fees 24 hours in advance. A 24 hour advance notice will be given during working hours, exclusive of Saturday, Sunday or City holidays for the purpose of permitting the Engineer to make necessary assignments of his representatives. If the Contractor is directed by the City to work under this Contract more than 8 hours/day or more than 40 hours/week, the Special Inspection Fee requirements will be waived.

SECTION 5 – LEGAL RELATIONS AND RESPONSIBILITIES

5-1 LAWS AND REGULATIONS. [Add the following to this section]:

The Contractor, and all subcontractors, suppliers and vendors, shall comply with all City, State, and Federal orders regarding affirmative action to ensure equal employment opportunities and fair employment practices. Failure to file any report due under said orders will result in suspension of periodic progress payments.

The Contractor shall ensure unlimited access to the job site for all equal employment opportunity compliance officers.

5-3 LABOR.

5-3.3 Payroll Records. [Add the following to this section]:

Contractor shall comply with the provisions of California Labor Code Section 1776 which, among other things, require Contractor and each subcontractor to (1) keep accurate payroll records, (2) certify and make such payroll records available for inspection as provided by Section 1776, and (3) inform the City of the location of the records. The Contractor is responsible for compliance with Section 1776 by itself and all of its subcontractors. Verified payroll records shall be submitted

to the City by the tenth day of each month. Progress payments will be withheld pending receipt of any outstanding reports.

5-4 INSURANCE.

5-4.5 Compliance with Insurance Requirements. [Add the following to this section]:

Contractor shall obtain, maintain, and keep in full force and effect during the term of this Agreement, at its sole cost and expense, and in a form and content satisfactory to City, all insurance required under this section. Contractor shall not commence any work or services under this Agreement unless and until it has provided evidence satisfactory to City that it has secured all insurance required under this section. If Contractor's existing insurance policies do not meet the insurance requirements set forth herein, Contractor agrees to amend, supplement or endorse the policies to do so.

5-4.5.1 Types of Insurance Required. [Add the following to this section]:

As a condition precedent to the effectiveness of this Agreement, and without limiting the indemnity provisions set forth in this Agreement, Contractor shall obtain and maintain in full force and effect during the term of this Agreement, including any extension thereof, the following policies of insurance:

A. Commercial General Liability Insurance. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Commercial General Liability Insurance (Insurance Services Office form CG 00 01) written on an occurrence basis with limits of at least two million dollars ($2,000,000.00) per occurrence, four million dollars ($4,000,000.00) in the general aggregate, and four million dollars ($4,000,000.00) for completed operations aggregate. Defense costs shall be paid in addition to the limits. The policy shall contain no endorsements or provisions limiting coverage for (1) contractual liability; (2) cross liability exclusion for claims or suits by one insured against another; or (3) contain any other exclusion contrary to the Agreement.

B. Automobile Liability Insurance. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Automobile Liability Insurance (Insurance Services Office form CA 001) written on a per occurrence basis with limits of at least one million dollars ($1,000,000.00) combined limit for each occurrence covering bodily injury and property damage. The policy shall specifically include coverage for owned, non-owned, leased, and hired automobiles.

C. Workers' Compensation Insurance. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Workers' Compensation Insurance in at least the minimum statutory amounts, and in compliance with all other statutory requirements, as required by the State of California. Contractor agrees to waive and obtain endorsements from its workers' compensation insurer waiving all subrogation rights under its workers' compensation insurance policy against the City, its officials, officers, employees, agents and volunteers, and to require each of its subcontractors, if any, to do likewise under their workers' compensation insurance policies. Contractor shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Employer's Liability Insurance written on a per occurrence basis with limits of at least one million dollars ($1,000,000.00) per accident for bodily injury or disease.

5-4.5.2 Acceptability of Insurers. [Add the following to this section]:

Insurance required by this section shall be issued by a licensed company authorized to transact business in the state by the Department of Insurance for the State of California with a current rating of A-:VII or better (if an admitted carrier), or a current rating of A:X or better (if offered by a non-admitted insurer listed on the State of California List of Approved Surplus Line Insurers (LASLI), by the latest edition of A.M. Best's Key Rating Guide, except that the City will accept workers' compensation insurance from the State Compensation Fund. In the event the City determines that the work or services to be performed under this Agreement creates an increased or decreased risk of loss to the City, the Contractor agrees that the minimum limits of the insurance policies may be changed accordingly upon receipt of written notice from the City. Contractor shall immediately substitute any insurer whose A.M. Best rating drops below the levels specified herein.

5-4.5.3 Insurance Endorsements. [Add the following to this section]:

Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for written approval. Required insurance policies shall contain the following provisions, or Contractor shall provide endorsements on forms approved by the City to add the following provisions to the insurance policies:

A. The policy or policies of insurance required by this section for Commercial General Liability and Automobile Liability Insurance shall be endorsed to provide the following:

(1) Additional Insured: The City, its officials, officers, employees, agents and volunteers, shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement; and

(2) Additional Insured Endorsements: Additional insured endorsements shall not (1) be restricted to "ongoing operations", (2) exclude "contractual liability", (3) restrict coverage to "sole" liability of Contractor, or (4) contain any other exclusions contrary to the Agreement; and, the coverage shall contain no special limitations on the scope of protection afforded to additional insureds.

(3) Notice: The policy or policies of insurance required by this section for Commercial General Liability and Automobile Liability Insurance shall be endorsed to state that coverage shall not be suspended, voided, cancelled, or modified, or reduced in coverage or in limits, except after thirty (30) days prior written notice by First Class U.S. Mail, postage-prepaid, has been provided to the City. Notwithstanding the foregoing, if coverage is to be suspended, voided, or cancelled because of Contractor's failure to pay the insurance premium, the notice provided to City shall be by ten (10) days prior written notice.

B. For all policies of Commercial General Liability Insurance, Contractor shall provide endorsements for completed operations to effectuate this requirement.

5-4.5.4 Deductibles and Self-Insured Retentions.

Any deductible or self-insured retention must be approved in writing by the City in advance and shall protect the City, its officials, officers, employees, agents and volunteers, in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

5-4.5.6 Primary and Non-Contributing Insurance.

All policies of Commercial General Liability Insurance and Automobile Liability Insurance shall be primary and any other insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents or volunteers, shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

5-4.5.7 Waiver of Subrogation.

All policies of Commercial General Liability and Automobile Liability Insurance shall contain or be endorsed to waive subrogation against the City, its officials, officers, employees, agents and volunteers, or shall specifically allow Contractor or others providing insurance evidence in compliance with the requirements set forth in this section to waive their right to recovery prior to a loss. Contractor hereby agrees to waive its own right of recovery against the City, its officials, officers, employees, agents and volunteers, and Contractor hereby agrees to require similar written express waivers and insurance clauses from each of its subcontractors.

5-4.5.8 Evidence of Coverage.

Concurrently with the execution of the Agreement, Contractor shall deliver certificates of insurance together with original endorsements affecting each of the insurance policies required by this section. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for written approval. The certificates of insurance and original endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15) days prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced and not replaced immediately so as to avoid a lapse in the required coverage, Contractor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. Contractor shall promptly furnish, at City's request, copies of actual policies including all declaration pages, endorsements, exclusions and any other policy documents City requires to verify coverage.

5-4.5.9 Requirements Not Limiting.

Requirement of specific coverage or minimum limits contained in this section are not intended as a limitation on coverage, limits, or other requirements, or a waiver of any coverage normally provided by any insurance. Nothing in this section shall be construed as limiting in any way the indemnification provision contained in this Agreement, or the extent to which Contractor may be held responsible for payments of damages to persons or property.

5-4.5.10 Enforcement of Agreement (Non-Estoppel).

Contractor acknowledges and agrees that actual or alleged failure on the part of the City to inform Contractor of any non-compliance with any of the insurance requirements set forth in this section imposes no additional obligation on the City nor does it waive any rights hereunder.

5-4.5.11 Insurance for Subcontractors.

Contractor shall either: (1) include all subcontractors engaged in any work or services for Contractor relating to this Agreement as additional named insureds under the Contractor's insurance policies; or (2) Contractor shall be responsible for causing its subcontractors to procure and maintain the appropriate insurance in compliance with the terms of the insurance requirements set forth in this section, including adding the City, its officials, officers, employees, agents and volunteers, as additional insureds to their respective policies. All policies of Commercial General Liability Insurance provided by Contractor's subcontractors performing any work or services related to this Agreement shall be endorsed to name the City, its officials, officers, employees, agents and volunteers, as additional insureds. Contractor shall not allow any subcontractor to commence any work or services relating to this Agreement unless and until it has provided evidence satisfactory to City that the subcontractor has secured all insurance required under this section.

5-4.5.12 Other Insurance Requirements.

The following terms and conditions shall apply to the insurance policies required of Contractor pursuant to this Agreement:

A. Contractor shall provide immediate written notice to City if (1) any of the insurance policies required herein are terminated, cancelled or suspended, (2) the limits of any of the insurance coverages required herein are reduced, or (3) the deductible or self-insured retention is increased.

B. All insurance coverage and limits provided by Contractor and available or applicable to this Agreement are intended to apply to each insured, including additional insureds, against whom a claim is made or suit is brought to the full extent of the policies. Nothing contained in this Agreement or any other agreement relating to the City or its operations shall limit the application of such insurance coverage.

C. None of the insurance coverages required herein will be in compliance with the requirements of this section if they include any limiting endorsement which substantially impairs the coverages set forth herein (e.g., elimination of contractual liability or reduction of discovery period), unless the endorsement has first been submitted to the City and approved in writing.

D. Certificates of insurance will not be accepted in lieu of required endorsements, and submittal of certificates without required endorsements may delay commencement of the Project. It is Contractor's obligation to ensure timely compliance with all insurance submittal requirements as provided herein.

E. Contractor agrees to ensure that subcontractors, if any, and any other parties involved with the Project who are brought onto or involved in the Project by Contractor, provide the same minimum insurance coverage required of Contractor. Contractor agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Contractor agrees that upon request, all agreements with subcontractors and others engaged in the Project will be submitted to the City for review.

F. Contractor agrees to provide immediate written notice to City of any claim, demand or loss against Contractor arising out of the work or services performed under this Agreement and for any other claim, demand or loss which may reduce the insurance available to pay claims, demands or losses arising out of this Agreement.

5-4.5.13 Contractor's Liability; City Not Liable; Claims Resolution

A. Contractor's liability. The Contractor shall be responsible for any loss or damage that may occur to:

- The work or any part thereof;
- Any of the materials or other things used or employed in performing the work;
- Any injury to any person or persons, either workers or the public;
- Any damage to property resulting from any cause which might have been prevented by the Contractor, including defects or obstructions at any time before completion of the work and its final acceptance.

B. City ordered precautions. If, in the opinion of the City Engineer, the precautions taken by Contractor are not safe or adequate at any time during the term of the Contract, the City Engineer may order the Contractor to take further precautions, and if the Contactor shall fail to do so, the City Engineer may order the work done by others and charge the Contractor for the cost thereof, such cost to be deducted from any moneys due or becoming due the Contractor. Failure of the City Engineer to order such additional precautions, however, shall not relieve the Contractor from his full responsibility for public safety.

C. City not liable. The City shall not be answerable or accountable in any manner, for any loss or damage that may occur to any of the following from any cause which might have been prevented by the Contractor:

- The work or any part thereof;
- Any of the materials or other things used or employed in performing the work;
- Any injury to any person or persons, either workers or the public;
- Any damage to property.

D. Claims Resolution. From time to time during the period of this contract, the City and/or the Contractor may be served with third-party claims, as a result of alleged conduct by Contractor. The following procedures shall be followed by City and Contractor:

For claims received by Contractor:

(1) Contractor shall provide City on a monthly basis details regarding any claim for damages to persons or property, including, date claim made, date of alleged damages, type of damages, alleged cause of damages and, as claims are resolved, details regarding Contractor's denial or payment of such claim and the reasons for denial or payment.

(2) Contractor shall resolve or deny any claim received within thirty (30) days of receipt. If Contractor is unable to resolve a claim within the thirty (30) days set forth above, it shall, prior to the expiration of the thirty (30) days request and extension in writing from the City.

For claims received by City:

(1) City shall process any claims received pursuant to Chapter 3-12 (Claims Against the City) of the Laguna Hills Municipal Code.

(2) If after investigation of the claim, the City determines the Contractor is liable under this Contract, City shall tender the claim to the Contractor for proper handling and resolution.

E. Retention of Claimed Damages by City. The City may retain so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the City until disposition has been made of such suits or claims for damages aforesaid.

5-7 SAFETY.

5-7.1.3 Traffic and Access. [Add the following to section]:

When entering or leaving roadways carrying public traffic, the Contractor's equipment, whether empty or loaded, shall in all cases yield to public traffic.

The Contractor shall notify in writing all affected property owners of the proposed construction schedule a minimum of forty-eight (48) hours, but not more than seventy-two (72) hours, in advance of any limitation or closure of access to their property. Form of said notice shall be as approved by the Engineer and shall contain the date and time of the closure. In the event of delay, whether beyond the control of the Contractor or not, the Contractor shall notify all affected property owners as to the extent of the delay and his revised schedule. In the event of delay over 72 hours, the Contractor shall re-notify the property owners as described above. Payment for notification and coordination as per Section 7-10 as modified herein shall be included in the compensation paid for the various items of work and no additional compensation will be allowed. The "Notices" will be furnished by the Contractor.

Pedestrian access shall be maintained at all times during construction and shall be in accordance with the Americans With Disabilities Act.

5.7.2 Safety Orders

5.7.2.1 General. [Add the following to this section]:

The Contractor shall comply with the provisions of any City ordinances or regulations regarding requirements for the protection of excavations and the nature of such protection.

In accordance with Section 6500 of the Labor Code, the Contractor is required to obtain a permit from the Division of Industrial Safety for any trench or excavation which if five feet or more in depth and into which a person is required to descent.

In accordance with Section 6705 of the Labor Code, prior to any excavation involving an expenditure in excess of twenty-five thousand dollars ($25,000) for the excavation of any trench or trenches five (5) feet or more in depth, Contractor shall submit to Engineer a written detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches.

Prior to beginning of excavations requiring shoring, the Contractor shall designate in writing to the Engineer someone whose responsibility it is to supervise the Project safety measures and someone whose responsibility it is to supervise the installation and removal of sheeting, shoring and bracing.

In addition to shoring the excavations in accordance with the minimum requirements of Industrial Safety Orders, it shall be the Contractor's responsibility to provide any and all additional shoring

required to support the sides of the excavation against the effects of load which may exceed those desired by using the criteria set forth in the Industrial Safety Orders. The Contractor shall be solely responsible for any damages which may result from his failure to provide adequate shoring of the excavation under any and all of the conditions of loading which may exist or which may arise during construction of the Project.

In accordance with Section 7104 of the Public Contract Code, any public works contract which involves excavations that extend deeper than four feet below the surface shall provide as follows:

(a) That the Contractor shall promptly, and before the following conditions are disturbed, notify the City, in writing, of any:

(1) Material that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, which is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

(2) Subsurface or latent physical conditions at the site differing from those indicated by information about the site made available to bidders prior to the deadline for submitting bids.

(3) Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally as inherent in work of the character provided for in the contract.

(b) The local public entity shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the work shall issue a change order under the procedures described in the contract.

(c) That, in the event that a dispute arises between City and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the work, the Contractor shall not be excused from any scheduled completion date provided for by the contract, but shall proceed with all work to be performed under the contract. The Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties.

5-7.2.2.1 Storage of Equipment and Materials in Public Streets. [Add the following section]:

The Contractor is required to, at his own expense, maintain and operate a work and storage area outside of the public right-of-way. In such case the Contractor shall submit to City written authorization from the owners of the subject property prior to occupation. Occupation of site without written authorization shall be grounds for immediate suspension of work. Location of site to be approved by City. Condition and operation of yard shall conform to these specifications. The Contractor shall assume full responsibility for all damage to the site resulting from his operations and shall repair and/or replace same, at his own expense, to the satisfaction of the owner of the subject property. The Contractor shall vacate site and return it to pre-Project condition within five (5) working days following application for Notice of Completion. The Contractor shall obtain a written release from the property owner accepting the condition of the vacated site and releasing the Contractor from any further clean-up or restoration work and shall submit a copy of such release to City. The Notice of Completion will not be issued until said release is submitted.

5-7.2.2.2 Street Closures, Detours, Barricades. [Add the following section]:

The Contractor shall perform lane closures and all traffic control operations in accordance with the applicable details in the California MUTCD, latest edition. No work shall be performed until the required lane closure traffic control has been installed and approved by the City. If the City does not feel that the Contractor is properly and safely implementing the MUTCD details, then work shall be stopped until such time as the Contractor can successfully remedy the deficiencies.

Portable delineators (traffic cones are not allowed), which conform to the California MUTCD, latest edition, shall be spaced as necessary for proper delineation of the travel way. The spacing between delineators shall not exceed 25 feet. The minimum lane transitions shall be a 50 to 1 taper. Double base delineators will be required.

The Contractor shall schedule the order of his work such that no travel lanes are closed before 8:30 A.M. or after 4:30 P.M. daily. A minimum of one through travel lane and all turning lanes in all directions with flaggers will be required at all times. The same number of travel lanes currently in use shall be opened to traffic during non-working hours. No street closures shall be made unless indicated on the approved traffic control plans. The traffic signal and traffic signal detectors shall remain operational continuously during the construction, and traffic loops that require replacement shall be disrupted no more than 5 calendar days before their replacement. **No weekend work (day or night) will be allowed, unless otherwise specified on the Plans or as approved by the City.**

The Contractor shall provide, at his expense, advanced warning signs advising the public of the impending major construction project and his proposed schedule. Said signs shall be posted at all major approaches to the construction zones a minimum of one week prior to the start of construction.

The Contractor shall designate at least one worker solely for the provision and maintenance of traffic control.

The Contractor shall be responsible for providing temporary access to all intersecting streets and driveways throughout the workday and at the end of each workday. A minimum of one access point shall be maintained for each commercial business during their normal business hours. **Pedestrian access shall be maintained at all times and temporary and permanent pedestrian access shall be in accordance with the Americans with Disabilities Act.**

The Contractor shall provide and maintain all other signs, barricades, pedestals, flashers, delineators and other necessary facilities for the protection of the public within the limits of the construction area and shall be maintained in a new or like new condition, free of damage and graffiti.

If the traffic delineators are damaged, displaced or not in an upright position, from any cause, said delineators shall immediately be replaced or restored to their original location, in an upright position, by the Contractor.

The Contractor shall furnish competent flagmen to give adequate warning to traffic or to the public of any dangerous conditions to be encountered. Flagmen, while on duty and assigned to give warnings to the public that the highway is under construction and of any dangerous conditions to be encountered as a result thereof, shall perform their duties and shall be provided with the necessary equipment in accordance with the California MUTCD. The equipment shall be furnished and kept clean and in good repair by the Contractor, at Contractor's expense.

Should the Contractor appear to be neglectful or negligent in furnishing warning and protective measures as provided, the Engineer may direct attention to the existence of a hazard and the

necessary warning and protective measures shall be furnished and installed by the Contractor at its own expense. Should the Engineer point out the inadequacy of warning and protective measures, such action on the part of the Engineer shall not relieve the Contractor from responsibility for public safety or abrogate his obligation to furnish and pay for these devices.

Where on-street parking is not allowed, the Contractor shall be required to post "Temporary No Parking" signs 48 hours prior to start of work. The Contractor will furnish the notification to property owners as mentioned in Section 7-10.1 and the “Temporary No Parking” signs.

No construction activities will be allowed on streets that are receiving trash pick-up services on the same day. A copy of the CR&R Waste Collection Map is available on the City’s website. The Contractor shall coordinate with the trash hauler in preparing the construction schedule. The Contractor shall provide a map showing the schedule of the work, which should coordinate with the trash and mail schedule, to the City at the preconstruction meeting.

Contractor shall notify the following entities at least forty-eight (48) hours in advance of any street closure or restriction to access.

1. Fire Department: Orange County Fire Authority, (714) 573-6000
2. Police Department: Orange County Sheriff’s Department, (714) 647-7000
3. School Districts: Saddleback Valley Unified: (949) 586-1234, Capistrano Unified: (949) 489-7000
4. Trash Collection: CR&R, (877) 728-0446
5. Street Sweeping: Sweeping Corp of America, (949) 413-0165
6. Transit Operations: Orange County Transportation Authority (OCTA), (714) 560-6282
7. Fire Department: Station 22, (949) 770-6016
8. Mail Service: US Postal Service

The City Engineer may add additional entities to this list at his discretion.

All existing stop signs, street name signs and regulatory signs shall be maintained in visible locations during construction. Where construction detours and signing conflict with existing signing, the Contractor shall cover existing signs in a manner approved by the City. The Contractor shall also provide temporary traffic restriping, or reflective white or yellow plastic tabs, at the conclusion of each working day, if not sooner, as directed by the City, for any centerline, painted median or lane line that is obliterated by construction.

The Contractor shall provide temporary delineation as directed/approved. Temporary delineation shall include sandblasting of conflicting markings; installation and removal of temporary centerlines or lane lines, detour signing, barricading; and replacement of traffic lines and markings in their proper locations upon termination of the detour. Conflicting existing and temporary striping, as required for traffic control during construction, shall be removed by the Contractor by using wet nozzle sandblasting methods with immediate clean up of residues.

Blacking-out of the pavement striping will not be allowed. Temporary reflective striping tape or reflective plastic tabs may be used, except that it shall not be applied to final asphalt surfaces. Said tape or tabs shall be removed from temporary surfaces prior to placement of additional asphalt.

The Contractor shall also be responsible for notifying adjacent businesses, residents (of affected residential tracts), and entities listed above, in writing seven (7) days in advance of any work that involves limited access. Said notice shall be reviewed and approved by the City in advance of its circulation. Contractor shall provide verification to the City that proper circulation of the notice has been accomplished.

The Contractor shall maintain a 24-hour emergency service to remove, install, relocate, and maintain warning devices. No later than 10 days after the award of the Contract, the Contractor shall furnish to the City, names, and telephone numbers of three persons responsible for this emergency service. In the event these persons do not promptly respond when notified, or it becomes necessary to call other forces to accomplish emergency service, the Contractor will be responsible for any cost incurred.

Prior to the start of each work day, the Contractor shall perform all necessary work incidental to and commensurate with the proper signing, detouring, barricading, etc., heretofore and hereinafter specified that is required for that particular day's schedule of operations. No construction shall be permitted until such signing and detouring operations have been completed and approved by the City.

Personal vehicles of the Contractor's employees shall only be parked in an allowed area as delineated by the City, and shall not be parked on the traveled way at any time, including any section closed to public traffic.

Flashing Arrow Signs:

Each flashing arrow sign shall be solar powered, mounted on a truck or on a trailer and shall be capable of operating while the vehicle is moving or as directed by the City.

Signs mounted on the cab of a truck shall be mounted to provide a minimum of 7 feet between the bottom of the sign and the roadway. Signs mounted on a trailer, or on anything other than the cab of a truck, shall be mounted to provide a minimum of 8 feet between the bottom of the sign and the roadway.

The total weight of trailer mounted flashing arrow sign including the trailer, sign, power source and other components shall not exceed 1,500 pounds and the height of the level trailer bed shall be no higher than 21 inches above the roadway. The trailer shall be equipped with a minimum of 3 leveling jacks.

Alternative types of lamps may be used in flashing arrow signs if visibility is equal to the specified lamps. Each type AX flashing arrow sign shall be a minimum of 2 feet high and 4 feet wide, and shall be finished with flat black enamel. A minimum of 13 No.4414AX 12-volt, yellow or amber lamps shall be installed in the panel. The lamp configuration shall be for 3 arrowheads or an arrow shaft with 2 arrowheads, one pointing in each direction on the face of the sign with a minimum of 5 lamps forming each arrowhead. Each lamp shall be provided with a visor.

The lamp shall be activated by a switch on a control panel and shall be controlled by electronic circuitry to provide a minimum of 4 selectable modes of operation as follows:

1. Pass Left Mode, - Sequencing of lighted arrowheads or sequencing the lamps forming the arrow shaft and arrowhead to the left or a flashing left arrow with the lamps in the arrow shaft and arrowhead flashing on and off simultaneously.

2. Pass Right Mode, - Sequencing of lighted arrowheads or sequencing the lamps forming the arrow shaft and arrowhead to the right or a flashing right arrow with the lamps in the arrow shaft and arrowhead flashing on and off simultaneously.

3. Simultaneous Mode, - Either the outside arrowheads pointing in opposite directions are continuously illuminated, except for the center lamp forming each arrowhead, while the arrow shaft lamps flash on and off simultaneously or the outside arrowhead pointing in opposite directions and the arrow shaft lamps all flash simultaneously to indicate passing on either side.

4. Travel Mode, - Travel or caution mode shall flash in a manner not resembling any other mode.

Lane Requirements:

There shall be a minimum of 5’ clearance from open excavations and two feet from other obstructions (curbs, k-rail, etc). All lanes shall be open to traffic during non-working hours.

The Contractor shall be required to use flashing arrow signs at all lane closures to direct travel and appropriate detour signing to control traffic through and/or around the construction area.

The Contractor will not be allowed to excavate a larger quantity of area (“digouts”) than can successfully be repaved in the same working day. No incomplete paving work will be allowed to remain during the hours designated as requiring “all” lanes open to traffic, except in specific instances in which a minor amount of area can safely be covered by approved means with non-skid steel plates, capable of carrying H-20 wheel loading, or patched with temporary AC to bring the excavation up to grade. Said temporary AC shall be ground down to permanent AC sub-grades and approved by the City prior to placement of any additional permanent AC.

Excavations of less than 4’ in width may be covered with non-skid steel plates capable of carrying H-20 wheel loading over the span of the excavation. Plates shall have a minimum width equal to the excavation width plus 24 inches and be securely fastened to the street surface. Asphalt fillers, a minimum of 6 inches wide shall be placed around the perimeter of the plate. When traffic is transferred to any type of temporary pavement surface good drivability of the surfaces shall be maintained and shall be subject to approval by the City prior to allowing traffic to be transferred upon it.

The Contractor shall also ensure that access to all side streets and driveways are maintained at all times. Work in front of or within driveways and side streets shall be conducted in a manner where at no time is access to property denied. Portions of driveway approaches that are not ready to be opened for traffic at the end of the workday shall be steel plated per the requirements noted in the previous paragraph. The Contractor shall use temporary AC surfacing at his own expense for traffic control as required to maintain traffic in a safe non-disruptive manner.

SECTION 6 - PROSECUTION AND PROGRESS OF WORK

6-1 CONSTRUCTION SCHEDULE AND COMMENCEMENT OF WORK.

6-1.0 General. [Add the following section]:

The Contractor's proposed Construction Schedule shall be submitted to the Engineer within ten (10) working days after the date of the Notice of Award of Contract. The schedule shall be supported by written statements from each supplier of materials or equipment indicating that all orders have been placed and acknowledged, and setting forth the dates that each item will be

delivered. The schedule shall establish the order of work which minimizes disruption of existing travel lanes.

Prior to issuing the Notice to Proceed, the Engineer will schedule a preconstruction meeting with the respective Contractor to review the proposed Construction Schedule and delivery dates, arrange the utility coordination, discuss construction methods, and clarify inspection procedures.

The Contractor shall submit periodic Progress Reports to the Engineer by the tenth day of each month. The report shall include an updated Construction Schedule. Any deviations from the original schedule shall be explained. Liquidated damages will be assessed pending receipt of any outstanding reports, as set forth in Section 6-9.1 below.

6-1.3 Construction Schedule (Critical Path Method) [Add the following section]:

The Contractor shall submit to the Engineer practicable critical path method (CPM) progress schedules in conformance with these Special Provisions. Whenever the term “schedule” is used in this section it shall mean CPM progress schedule illustrated by the Gantt Bar method. The schedule shall be prepared by qualified and experienced scheduling staff.

Schedules shall show the order in which the Contractor proposes to carry out the work with logical links between time-scaled work activities, and calculations made using the critical path method to determine the controlling operation or operations. The Contractor is responsible for assuring that all activity sequences are logical and that each schedule shows a coordinated plan for complete performance of the work.

The Contractor shall produce schedules using computer software and shall furnish compatible software for the Engineer’s exclusive possession and use. The Contractor shall furnish network diagrams, narrative reports, tabular reports and schedule data as parts of each schedule submittal.

The number of activities shall be sufficient to assure adequate planning of the Project, to permit monitoring and evaluation of progress, and to do an analysis of time impacts.

Schedule activities shall include the following:

A. A clear legible description.

B. Start and finish dates.

C. A duration of not less than one working day, except for event activities, and not more than 20 working days, unless otherwise authorized by the Engineer.

D. At least one predecessor and one successor activity, except for Project start and finish milestones.

E. Required constraints.

F. Codes for responsibility, stage, work shifts, location and contract pay item numbers.

The Contractor may show a scheduled completion date that is later than the Contract completion date on an update schedule, after the baseline schedule is accepted. The Contractor shall provide an explanation for a late scheduled completion date in the narrative report that is included with the schedule.

The Engineer's review and acceptance of schedules shall not waive any Contract requirements and shall not relieve the Contractor of any obligation thereunder or responsibility for submitting complete and accurate information. Schedules that are rejected shall be correct by the Contract and resubmitted to the Engineer within five (5) working days of notification by the Engineer, at which time a new review period of one week will begin.

Errors or omissions on schedules shall not relieve the contractor from finishing all work within the time limit specified for completion of the Contract. If, after, a schedule has been accepted by the Engineer, either the Contractor or the Engineer discovers that any aspect of the schedule has an error or omission, it shall be corrected by the Contractor on the next schedule.

Payment for the Project schedule and revisions/updates to the schedule shall be made under other items of work and no additional payment shall be made therefore.

6-1.4 Acceleration. [Add the following section]:

The City reserves the right to accelerate the work of the Contract at any time during its performance. In the event the City directs acceleration, such directive will be given to the Contractor in writing. The Contractor shall keep cost and other Project records related to the acceleration directive separately from the normal Project cost records and shall provide a written record of acceleration costs to the City on a daily basis.

In the event the Contractor believes that some action or inaction on the part of the City constitutes an acceleration directive, the Contractor shall immediately notify the City in writing that the Contractor considers the actions or inactions an acceleration directive. The Contractor shall not accelerate their work efforts until the City responds to the written notification. If acceleration is then directed or required by the City, all cost records referred to in the previous paragraph shall be maintained by the Contractor and provided to the City on a daily basis.

In order to recover additional costs due to acceleration, the Contractor must document that additional expenses were incurred and paid by the Contractor. Labor costs recoverable will only be overtime or shift premium costs or the cost of additional laborers brought to the site to accomplish the accelerated work effort. Equipment costs recoverable will only be the cost of added equipment mobilized to the site to accomplish the accelerated work effort.

6-2 PROSECUTION OF THE WORK [Replace the first sentence the following:]

To minimize public inconvenience and possible hazard and maintaining work areas to their original condition and state of usefulness as soon as practicable, the Contractor shall diligent prosecute the Work to completion and ensure that the construction is completed within the alotted construction period.

[Add to this section]

- Traffic Control:
    - Traffic Control setup at each location shall confirm to CA-MUTCD (Latest Edition) requirements and typical applications and shall be maintained on a daily basis by the contractor.
- Localized Concrete Improvements (Curb/Gutter, Ramps, etc.):

- All concrete improvements shall be completed prior to the start of any pavement grinding or reconstruction activities.

- Contractor's operations shall be scheduled in such a way that no ramp or portion of sidewalk is left excavated, demolished, or formed over the weekend.

- It shall be the contractor's responsibility to properly barricade the work area during non-working hours and to set up appropriate pedestrian detour/signage until the work is completed

- Driveway access to each property shall be maintained at the end of each working day. Contractor shall ramp or plate the driveways to maintain access.

6-3 TIME OF COMPLETION.

6-3.1 General. [Add the following to this section]:

The time for completion shall be as set forth in the General Specifications.

"The Contractor shall complete all work under the Contract within sixty (60) consecutive working days after the date on the Notice to Proceed.

The Contractor shall ensure the availability of all material prior to the start of work. Unavailability of material will not be sufficient reason to grant the Contractor an extension of time for 100 percent completion of work."

Working Days. "Any City holiday, defined as January 1st, the third Monday in January (Martin Luther King Day), the third Monday in February (President's Day), the last Monday in May (Memorial Day), July 4th, the first Monday in September (Labor Day), November 11th (Veterans Day), the fourth Thursday and Friday in November (Thanksgiving and Friday after), December 24th through December 31st."

Working Hours. Normal working hours are limited to 8:30 a.m. to 4:30 p.m., Monday through Friday.

The Contractor, subcontractors, suppliers, etc., shall not generate any noise at the work site, storage sites, staging areas, etc., before or after the normal working hours prescribed above.

Should the Contractor elect to work outside normal working hours, Contractor must first obtain special permission from the Engineer. The request may be for 4:30 p.m. to 6:30 p.m. on weekdays or 8:30 a.m. to 4:30 p.m. on Saturday only. A request for working during any of these hours must be made at least 72 hours in advance of the desired time period. A separate request must be made for each work shift. The Engineer reserves the right to deny any or all such requests. Additionally, the Contractor shall pay for supplemental inspection costs of $205.00 per hour when such time periods are approved.

6-3.2 Contract Time Accounting. [Add the following to this section]:

The Contractor's activities shall be confined to the hours between 8:30 AM and 4:30 PM, Monday through Friday, excluding holidays, unless otherwise specified. Slurry seal application operations, if any shall terminate no later than 1:30 PM of each working day or at the determination of the Engineer. Slurry seal application operations shall occur within two (2) days after scheduled trash pickup days. Work shall be prohibited any time on Saturday, Sunday or Federal Holidays except

as provided herein. Deviation from these hours will not be permitted without the prior consent of the Engineer, except in emergencies involving immediate hazard to persons or property.

In the event of either a requested or emergency deviation, inspection service fees will be charged against the Contractor. The service fees will be calculated at overtime rates (premium time) including benefits, overhead, and travel time and are established based on the City's current fee schedule or professional services agreement for construction inspection services. The service fees will be deducted from any amounts due the Contractor.

Construction activities during City Special Events may be restricted by City to exclude all or part of the work on primary arterial or access roads to the Special Events as determined by Engineer. The Contractor shall be responsible to ascertain the exact times of any such events within his proposed construction schedule which may restrict his operation and shall adjust his schedule accordingly. The construction restrictions shall only be for the actual days the events occur. All costs for maintaining traffic control, protection of work site and re-mobilization shall be deemed as included in the lump sum contract for their respective items and no additional compensation will be allowed.

6-3.3 Completion, Acceptance, and Warranty. [Add the following section]:

Work will be deemed completed on the same date when the Notice of Completion is recorded with the County of Orange.

6-4 DELAYS AND EXTENSIONS OF TIME

6-4.1 General [Add the following to the end of this section:]

No time extension shall be granted unless the claimed delay meets each and every of the following conditions:

(a) The delay was caused by unforeseen events and was beyond the control of Contractor and its subcontractors and material suppliers;

(b) The delay was caused by events of which Contractor was not advised at or before the time of bidding;

(c) The delay impacted and delayed (i) the controlling items of Work (i.e., the as-built critical path, as determined from the as-planned schedule and the actual progress of the Work), or (ii) the Completion of the whole Work within the Contract time;

(d) The delay was not caused by Contractor or its subcontractors or suppliers, including but not limited to their breaches of contract or the standard of care;

(e) The delay was not associated with loss of time resulting from the necessity of submittals to CITY for approval, or from necessary CITY surveys, measurements, inspections and testing;

(f) The delay was not caused by usual or common weather for the time of year, including usual or common severe weather; and

(g) The delay could not have been prevented by the exercise of care, prudence, foresight, and diligence by Contractor.

Excusable delays may include acts of God, acts of public enemy, acts of the Owner or anyone employed by it, acts of another contractor in performance of a contract (other than this Contract) with the CITY, fires, floods, epidemics, quarantine restrictions, labor disputes, unusually and uncommonly severe weather for the time of year, unforeseen site conditions, or delays of subcontractors due to such causes. CITY shall take into consideration other relevant factors such as concurrent delays.

Contractor has the burden of proving that any delay was excusable, including but not limited to an analysis that establishes no concurrency.

No extension of time will be granted for an excusable delay caused by a shortage of materials unless the Contractor furnishes to the Engineer documentary proof that the Contractor has made every effort to obtain the materials from all known sources within reasonable reach of the Work in a diligent and timely manner, and further proof in the form of supplementary progress schedules that the inability to obtain the materials when originally planned did in fact cause a delay in final Completion of the entire Work which could not be compensated for by revising the sequence of the Contractor's operations. The term "shortage of materials" shall apply only to materials, articles, parts or equipment which are standard items and are to be incorporated in the Work. The term "shortage of materials" shall not apply to materials, parts, articles or equipment which are processed, made, constructed, fabricated or manufactured to meet the specific requirements of the contract. Only the physical shortage of material will be considered under these provisions as a cause for extension of time. Delays in obtaining materials due to priority in filling orders will not constitute a shortage of materials.

6-4.3 Payment for Delays [Replace paragraph with the following:]

To be compensable, an excusable delay must be one for which the CITY is responsible, where the delay was unreasonable under the circumstances involved, and where the delay was not within the contemplation of the parties; **however**, Contractor shall not be entitled to monetary compensation when (a) Contractor could have reasonably anticipated the delay and avoided or minimized the cost impacts of it, such as judicious handling of forces, equipment, or plant, (b) there was a concurrent delay which does not qualify for monetary compensation under this paragraph, (c) the cause of the delay was reasonably unforeseen by the CITY or the delay was caused by factors beyond the control of the CITY, including but not limited to a delay under Section 2.2.8 above or a delay caused by a utility company’s failure to perform despite CITY’s reasonable arrangements for such performance; or (d) any other defense available to CITY under law or equity applies. Contractor has the burden of proving that any delay was excusable and compensable, including an analysis that establishes non-concurrency.

The Contractor may not seek damages for delay of a planned Completion of the Work before the contractual deadline for Completion of the Work.

6-9 LIQUIDATED DAMAGES. [Add the following to this section]:

It is agreed by the parties to the Contract that time is of the essence and that in the case that all the work is not complete before or upon the expiration of the time limit set forth, damage will be sustained by the City. For each consecutive calendar day in excess of the time specified for the completion of the work, the Contractor shall pay to the City $2,500.00. In addition, the City shall have the right to charge to the Contractor and to deduct from payments for the work the actual cost to the City of engineering, inspection, superintendence, and other overhead expenses, which are directly chargeable to the Contract and which accrue during the period of such delay. The expenses and damages described above shall be deducted from any money due the Contractor under this contract. The Contractor and his sureties shall be liable for any excess cost.

6-9.1 Additional Liquidated Damages. [Add the following section]:

Additional liquidated damages will also be assessed in the amount of $500.00 per calendar day for failure to follow a construction schedule or timely submit periodic progress reports as described in Section 6 of these Special Provisions.

Additional liquidated damages will also be assessed in the amount of $500.00 per calendar day for failure to mobilize to the Project site within 10 working days of the date of the Notice of Proceed as specified in these Special Provisions.

Additional liquidated damages shall be assessed in the amount of $1,000.00 per day for failure to restore damaged utilities within three (3) working days as specified in Section 5 of these Special Provisions.

Additional liquidated damages shall be assessed in the amount of $500.00 per incident that the Contractor reduces the traveled way width beyond the hours specified in Section 7-10 of these Special Provisions without written authorization from the City.

Additional liquidated damages shall be assessed in the amount of $500.00 per day for failure to comply with, or implement, or maintain the Storm Water Pollution Protection Plan (SWPPP) or Water Pollution Control Plan (WPCP), as required, by the City's NPDES permit with the Santa Ana or San Diego Regional Water Quality Board.

Additional liquidated damages shall be assessed in the amount of $500.00 per incident that the Contractor fails to install the Best Management Practices (BMP's) within 24 hours of notification as described in Section 7-8.6.2 of the Special Provisions.

SECTION 7 - MEASUREMENT AND PAYMENT

7-3 PAYMENT.

7-3.2 Partial and Final Payment. [Add the following to this section]:

The closure date for periodic progress payments will be five (5) working days prior to the first Monday of each month. The final progress payment will not be released until the Contractor returns the control set of Plans and Specifications showing the as-constructed conditions. The City shall withhold from the final payment $15,000 in the event that the Contractor fails to return the control set of Plans and Specifications showing the as-constructed conditions.

SUBSTITUTION OF SECURITIES

In conformance with Public Contract Code Section 22300, the Contractor may substitute securities for any monies withheld by the City to ensure performance under the Contract Agreement.
